National Executive Committee
Young Socialist Alliance

Comrades,

I hereby notify the N.E.C. of the desire to change the status of the political document What Role for Young Socialists in the Labor Movement from a political amendment to a political counter resolution to the N.E.C. political draft resolution The '68 Campaign and Beyond...Socialist Youth Politics in America. Originally I submitted the document as an amendment due to a misunderstanding of what constituted an amendment.

The political views of the N.E.C. draft resolution (above mentioned) that are not in conflict with minority resolution may be deemed to be included in the (minority) political line.

Fraternally yours,

s/Sid Nickerson
