TO ALL ORGANIZERS, NC MEMBERS AND WOMEN'S LIBERATION DIRECTORS

Dear Comrades,

In the two months since the national abortion conference in July, a very strong basis has been laid for building successful actions in Washington and San Francisco November 20. Both the national abortion office in Washington and the West Coast office in San Francisco have been established on a firm setting, and most areas have established viable coalitions which already include quite broad representation. All reports show that enthusiasm for the national actions is very high, and that many new women have already become active in building them.

The next important activity in building toward November 20 will be the second meeting of the National Coordinating Committee which will take place in Detroit on October 2. This meeting, which will make major decisions concerning November 20th and the projects leading up to it, should be very representative of the forces working to build WONAAC around the country. SWPers and YSAers who are actively working to build the national abortion action should plan to come, and we should make it a major task in the coming days to build as broad a participation as possible.

The NCC meeting will begin at 12:00 o'clock at the YWCA, 2230 Withrel St. There will be a fraction meeting of all SWPers and YSAers before the meeting at 10:00 o'clock at the Detroit SWP headquarters, 3737 Woodward Avenue. The Detroit abortion action coalition will be arranging housing for those attending the NCC who need it. Contact them by calling 962-8822.

Comradely,

*Betsey Stone*
