### Far East Crisis Harvester Strikers Are Still Out Lines Up With Flares Up Again 6,500 Men

Joint Anglo-U.S. Moves Seek To Checkmate Stand Firm Japan; "Bluff" May Be Called Very Soon

The United States and Great Britain last week launched a maneuver on the grand scale in the Far East with the aim of checkmating in advance any fresh Japanese southward moves.

Amid a flood of inspired reports that the Japanese fleet was moving southward toward Singapore and the Indies, the British suddenly announced the arrival at that base of a large, fullyequipped Australian army.

Gen. Marshall, U. S. chief of staff, told a Congressional committee that the army's best and newest fighting planes were being turned over to the navy and moved out over the Pacific

to the United States fleet. This information was permitted to culence in London is undoubted-"leak" to the newspapers and a ly based upon a definite underday later Roosevelt rebuked the standing with the U.S., for the papers for publishing it. ## **British Tories**

His Stand Helps Extreme Right Wing in **England Against the Widespread Demand** For A Concrete Statement of War Aims

President Roosevelt openly aligned himself Tuesday with the most reactionary wing of Britain's war machine, when he brushed aside all discussion of war aims.

What are the worker-soldiers fighting and dying for? What kind of world-order will the victorious Anglo-U.S. war lords establish? What do they propose to do to avert another repetition of world war as the aftermath of their "peace," as happened with the Versailles "peace"? The people cannot be satisfied this time with vague promises of "war to end war," "war for democracy,"—they got all that talk in 1914-18 and won't be put off

now with a repetition of these empty formulas. They want to know precisely what the war aims of the "democracies" are.

But Roosevelt refuses to answer. Asked at his Tuesday press conference whether John G. Winant, Ambassador to Great Britain, would take over proposals regarding lasting peace after the war, "Mr. Roosevelt replied that the first thing was to win the war, making clear that peace proposals and an outline of the basis of peace must come after victory," (New York Times, Feb. 26.)

### ISSUE IN BRITAIN

In Britain, after eighteen months of war, nobody except the Colonel Blimps and the most bullheaded Tories dare to use the language employed by Roosevelt in opposition to formulation of war aims. There the question of stating war aims is well-nigh the major issue of the political arena. Not only the scattered anti-war forces, but also big sections of the officials of the Labor Party have come out for a statement of war aims by the government, so great is the mass pressure on them for this.

Among others, The Tribune. Labor Members of Parliament assists that victory is impossible war aims.

So great has the pressure for formulation of war aims become that even the most powerful or-The Times of London, has had to give lip-service to the proposal.

In its leading editorial, January 9, 1941, The Times of London declared:

"It is a dangerous illusion that Hitler's propaganda can be adequately countered with the old-time slogans of freedom and independence. Only a positive and constructive programme can rally the European peoples by convincing them that there is a living alternative to Hitler and des-

### FOR COLONIAL FREEDOM

Labor Party Members of Parliament have often pointed out in parliamentary discussion that, without a statement of war aims which gives freedom to the 375 million people of India and to the other colonies subjugated by Britain, it is impossible to counteract Hitler's influence.

But it is precisely to avoid any commitments, no matter how mild, to the colonial peoples, to the British people, or to the peoples of Europe, that Britain's rulers resist to the death the rising tide of demands for a statement of war aims.

In this situation, Roosevelt's Tuesday statement is a deliberate blow struck against the British and colonial masses and the most powerful support that the most reactionary elements in Britain could have hoped for.

### WHAT THIS MEANS

"Never mind about war aims. It's none of your business. Just go on fighting and dying-that's velt is saying to the armed forc-

#### Home Guards Used For First Time-**Against Strikers**

Call it the Home Guard or the National Guard, it's still the same old armed force of strike-breakers which the employers and government have always maintained to smash organized labor struggles.

The first reported active use of a Home Guard force occurred on February 24, at Anniston, Alabama, against a strike at the Utica Knitting Company.

An AFL picket line was dispersed by Home Guardsmen, ordered out by Governor Frank

Dixon, with tear gas bombs. The Home Guards have been ballyhooed as an armed body of trained civilians intended to aid in the repulsion of "invaders." The first "invaders." of course, turn out to be union

es of the British Empire-and to the millions of American work. ers who will shortly be sent into actual warfare.

You want to know why you're fighting and dying? "We'll tell Roosevelt.

You want to be sure you're not being used to lay the basis for another Versailles peace? "We'll think about that after the war," says Roosevelt.

What about the freedom of the hundreds upon hundreds of millions of colonial slaves? "That's got nothing to do with the war," say the Tories-and Roosevelt backs them up.

Roosevelt, in other words, is demanding that the American working class and farmers go through this war as unthinking robots, as silent tools of the American and British plutocracy.

Roosevelt's stand on this fundamental question should serve to open the eyes of many who hitherto were inclined to let him have his way. It is clear that he cannot be trusted with the lives of the armed forces of the United States—neither he, nor the Republicans, nor any of the capitalists and their political agents.

### OUR PROGRAM

That is why our party has put forward from the first a program for putting control of the armed forces of the country into the hands of those who must do the fighting and dying—the workers.

That is why we demand:

Military training of workers, financed by the government, under control of the trade unions!

The establishment of special officers' training camps, financed by the government and controlled by the trade unions, to train workers to become of-

An end to secret diplomacy! A people's referendum on any and all wars!

### ON THE WAR FRONTS by GEORGE STERN:

The time draws close to Spring [ -that season when people used to talk about young men's fancies and the things they turned to. This time an entire planet awaits the coming season of rebirth with fear and foreboding. It is to be the season of titanic battles and great decisions. Hitler boasts openly of his coming offensive against Britain, by sea, by air, and on the land of the British Isles themselves. Mussolini, reduced to a ridiculous tenor accompaniment, tells the strangled people of Italy that Hitler is strong and that "Spring will

#### First Open Attack On Hillman in A UAW Paper

#### Editor:

The enclosed article on Hillman is from the Chrysler Local 7 supplement to the UAW Worker. This is very significant, it being the first open criticism written in the banner of socialism! a UAW paper against Hillman. Also, the censor of this paper is a Hillman man, which means there must be a strong pressure on him for him to allow such an article to go through. Detroit, Mich.

(The article on Hillman is titled, "What Role is Hillman Playing?" It says: "Hillman as a Defense Commission member has left a lot to be desired from one described as a labor leader." It reviews his record and concludes: "No worker expects that labor people, when placed in important posts in government, will start giving all the breaks to labor. What labor does not expect is that labor leaders should favor the enemies of labor when given such

#### Women Should Get Same Wage as Men For the Same Work

As a reader of your newspaper, I have generally found that your analysis of the labor situation is cogent. It was, therefore, surprising to find that the article on the Phelps Dodge strike (February 8 issue of THE MILITANT) allowed the union demand for a lower wage rate for women to pass without comment. The implication was that this lower rate for women was to be for work equal to that of the men.

Women workers are going to play an ever increasing role in American industry during the next period. The question of lower wages for equal work, therefore, has become more pertinent than ever. A lower wage scale for any group of workers will tend to lower the standards of the rest of the working class.

The majority of unions have shamefully ignored the issue-a policy which leads to the defeat of their own ends, as lower living standards are accompanied by a decrease in union membership. A

great deal of the so-called class sluggishness on the part of women workers can be attributed to the inertia of the unions.

THE MILITANT, which is putting up an excellent struggle on behalf of the Negroes in the extend its activities to include all substandard workers. Such a policy would rally many women to Bronx, N. Y.

THE MILITANT is, of course, in full agreement with the principle of equal pay for equal work. And it is an important question in many unions. By and large, however, union involved in the Phelps Dodge strike—the United Electrical, Radio & Machine Workers (CIO) accepts this principle.

It must be kept in mind, however, that no union, no matter how ably and militantly led, can wipe out all reactionary aspects of the situation in a given plant in a single struggle. Where a situation has existed for years, in which women have received lower wages than men, it may not be possible to wipe out the differential completely in the first strike. This was the first struggle, the very beginning of unionization at the Phelps Dodge plant. The union didn't win all its demands, nevertheless it made considerable headway.-EDI-

New York City

A MILITANT START FOR THE MILITANT

### But AFL Is Close Behind

**CIO In Vote** 

Unionism won the day in the February 20th NLRB election at the important North American Aviation Corp. Inglewood political-economic field, should plant. Of the 7652 workers eligible to vote, 2,739 cast their ballots for the CIO, 2,693 for the AFL and only 986 voted for no union.

> The election was originally demanded by the CIO. The strong showing of the AFL came as a surprise to the CIO leaders. The failure of the CIO to gain an outright majority means a further run-off election between the CIO and AFL. This election is a vital one, not only because of the size and importance of the North American Company, but because this is the first and AFL in a major Southern California aircraft plant.

The CIO represents the most militant and progressive sector tremendous pressure of the company to defeat unionism, particularly of the militant industrial failure of the CIO to win a maj-

The company used the "national defense" ballyhoo to the limit in an effort to persuade the workers that unions of their own choosing are "unpatriotic." The workers in aircraft are subjected to this kind of pressure more than in any other industry. And because the workers are young and new to the industry, by and large they are not well prepared to resist this onslaught.

The effort to supply Britain with planes is reflected in terrific speed-up, lengthening hours and heightened tension in all the alties for sabotage or "interfering with production,"

On the eve of the NLRB elecand State anti-sabotage laws to izing job.

deny draft deferments. In addition to the company's vicious campaign, the AFL played up to the most reactionary pre-

How Not To Strengthen Unionism and Make Gains for Workers might be the title for the drivel that George Harrison, president of the Railway Clerks, handed out at a meeting of 2,000 union members in Chicago recently (see LA-LOR, February 18th). Harrison told the unionists that they can win their demand for paid vacations without a strike. "He preberton, Ohio, the international of- dicted that through the interveners have approved strike action. a strike will be averted and an 81/2% pay raise to meet the rising viding for annual vacations, effective next year."

Depend on the president, don't depend upon your own organized strength, is the line Harrison follows. It may just be possible that Roosevelt and the railriad barons have decided to throw a bone to the Railway Clerks in the form of paid vacations "effective next year." But the surest way for the Railway Clerks NOT to get their demands, and not to build their union, is to place their trust and confidence in Roosevelt.

A Canadian newspaperman writes a story from Canada to the Guild REPORTER, telling how 70 Canadian unionists have been imprisoned without trial for duration of the war, "the right to strike and picket have been virtually abolished by law, and by an 'order in council' wages have been effectively frozen at or below the 1926-29 level of

According to the NEWSPAP-Chicago Cubs baseball players have banded together to hold out against wages offered, and it is making. Players are irked because the Cubs General Manager, Jim Gallagher, acted as a strike-Hearst during the Guild strike.

### Newark SWP Names Breitman Grace Carlson SWP Is Campaigning For As City Election Candidate

### Calls Upon Unions To Run Independent **Labor Party Ticket For City Commission**

NEWARK, N. J.—Calling for unity of the labor movement to counter the growing unity of the big business forces in the coming city elections, the Newark District Committee of the Socialist Workers Party announced this week the candidacy of George Breitman for City Commission. The elections, to be held May 13, provide for election of a Commission of five, which in turn elects the mayor.

"A Labor Party is needed in this city, and the trade unions must form it quickly," said the statement of the District Com-

"The important factions of big business in this city have already gotten together on a common ticket, which will stress economy at the expense of the social needs of the workers by cutting appropriations for relief, WPA, erally as fake liberals whose taxes for the corporations and housing, schools, hospitals, etc.

BOSSES UNITED

### In Memphis Connolly, ALP Candidate On Her Tour

### Asks United Labor Support For Congressional Candidate In 17th New York District; Criticises His Pacifist Program

After an intensive campaign of gathering signatures to place tions and congratulating the SWP Arthur Burch on the ballot as the Trotskyist anti-war candidate on its program for ending capin the 17th Congressional district election, Local New York of the Socialist Workers Party decided last Saturday to withdraw Burch when Eugene P. Connolly was announced as the candidate of the New York County (left wing) American Labor Party. Up until the announcement of Connolly's candidacy, the SWP was the only working class party in the district campaigning for a place on the ballot.

The decision to withdraw was taken in order to unite the workers in the district behind one independent labor candidate

in opposition to the war-mongering Democratic and Republican

Two conferences have been held between representatives of the SWP and Eugene Connolly and Sam Blinken of the ALP, over ways and means to help the American Labor Party in the campaign.

While supporting the candidacy of Connolly, the SWP criticises the purely pacifist and utopian character of the ALP anti-war prejudices of generations, do not | program.

> ALP PACIFIST PROGRAM In his statements to the press

bill as an "antilwar candidate." So far, so good. But there is

not a single word by Connolly or any of his associates proposing an alternative to the war plans of the Sixty Families. Not a single word! How should the workers meet

the arguments of the Sixty Families that armed forces must be trained to defend the country? The ALP has nothing to say.

The left wing leaders of the ALP confine themselves simply to shouting against the entry of the United States into the war, an entry which all class-conscious workers can see is inevitable.

workers nothing except pacifist phrases.

The Socialist Workers Party, on the other hand, offers a real program, a real alternative to the war plans of the Sixty Families. This is our military program, which advocates trade union control of military training and the establishment of officers' training camps for work-

The Sixty Families say that it | ber of letters enclosing contribu-

is necessary to train the workers to defend the country. Our alternative is for the workers to control military training. Since it is the workers who must do the training, the fighting, and the dying, they have full right to complete control of their own ranks

The Sixty Families tell the R. M. workers to give blind obedience to West Point and Annapolis officers. Our alternative is, train the workers to become officers The men who have distinguished themselves in the unions-they,

as officers chosen by the men, Eugene Connolly has declared can be depended on to capitulate himself opposed to the lease-lend | neither to foreign nor domestic fascists. Only the workers themselves

can make sure through their own control that the armed forces are not utilized by Wall Street for imperialist war to seize markets and colonies and increase the profits of the Sixty Families.

In the two conferences with Eugene Connolly and Sam Blinken, the representatives of the ever? The ALP has nothing to as the only labor candidate opintended to criticise his pacifist platform.

RALLY ON MARCH 6

Plans have now been completed by the SWP for a mass anti-war The ALP in brief offers the rally in support of Eugene Connolly at the Transport Hall on Thursday evening, March 6.

Tens of thousands of leaflets re being distributed in the 17th Congressional district announcing the rally where the Trotskyists will explain why they support the candidate of the ALP:

WORKERS' LETTERS

Repercussions of the SWP campaign were manifested in a num-

italist war. The following letter is typical:

"I am pleased to know that your group has decided to contest politically the bourgeois party hacks of the 17th Congressional district. I work in your Congressional district and was elated to have been approached by a canvasser for signatures. Unfortunately I cannot cast my vote for your candidate-I live outside the district—but at least I can contribute something material to your, I may say our, struggle against a mutually repressive social system. I offer my sincerest wishes for success in your venture." This letter, enclosing a contribution, was signed

The following letter was signed by L. B.:

"Enclosed please find two hardearned and sorely-needed dollars which it nevertheless gives me the greatest pleasure to contribute specifically to the Burch campaign fund. The decision of the SWP to enter a candidate in the 17th district Congressional election is an excellent step and extremely timely. Now with the imminent passage of the Roosevelt war and dictatorship bill and the simultaneous disappearance of all significant difference between the outspoken war-mongers and the phoney 'isolationists,' it is particularly urgent to awaken the working people and arouse them SWP presented the above posi- to the real alternative against How can the workers end the tion and announced that, togeth- the 'national defense unity' of the crises and wars of capitalism for er with our support of Connolly war-making class — in fact the only alternative—the program of posed to the boss candidates, we militant, revolutionary socialist anti-war action.

> "Let us see the name and program of the SWP carried into every nook and cranny of the 17th district with such vigor, determination and publicity as to startle the prostitute press into taking angry notice of Trotskyist activity. The results of such efforts should be the spread of knowledge of the SWP and its militant program throughout the length and breadth of the city, and the campaign can serve as an excellent preliminary skirmish for the coming mayoralty bat-

By JOHN G. WRIGHT

Maxim Litvinov has been expelled from the Central Committee of the Communist Party of the Soviet Union. Public notice has been served on Premier and Commissar of Foreign Affairs Molotov (by the purge of his wife) and to Commissar of Railways and former brother-in-law of Stalin, L. Kaganovich (by the censure of his brother, former Defense Industries Commissar M. Kaganovich), that the ashcan is ready for them. Six out of 72 members of the Central Committee and 15 out of 68 alternates have been purged, and nine members expelled from the Central Auditing Commission. On this the 18th Party Conference has, of course, set its

'unanimous" seal of approval. In Stalin's system, all failures are "accounted" for by scapegoats. Each of those purged or censured symbolizes a major catastrophe of the Kremlin re-

With the sole exception of Litvinov, the various dignitaries involved in the purge held high posts not only in the party but in the key Peoples' Commissariats. The crisis convulsing the economy controlled by these Commissariats is indicated by the purge of these scapegoats.

COMPARE STALIN'S BOASTS WITH THOSE PURGED!

All the Stalinist boasts of successes in agriculture, for example, are exposed as lies by the single fact that I. A. Benedictov, the Peoples' Commissar of Agriculture, was one of those expelled from the Central Committee. Was that expulsion Benedictov's reward for the bumper crop allegedly harvested in 1940?

I. A. Likhachov, another deposed member of the Central Committee, was the Peoples' Commissar of Medium Machine Building. He was removed from the Commissariat last October, which testifies eloquently to the catastrophic conditions in this important branch of industry.

N. M. Antselovich, another expelled C. C. member, was at the same time removed from his post as Peoples' Commissar of Timber Industry. He is Stalin's scapegoat for "shortcomings" in this particular field.

E. A. Schadenko, who was "demoted" to the position of alternate, was Vice-Commissar of Dethe collapse of the defense in- eral. After a tenure of less than dustry, which was militarized last eight months, he was removed December. If we refrain from from office. On February 13, 1941 listing the others it is only in order to avoid repetition.

The Daily Worker itself published the news that, in addition to the expulsions, seven Peoples' Commissars were warned to "improve" the functioning of their Commissariats, namely:

1) The Peoples' Commissariat

2) The Peoples' Commissariat of Munitions.

3) The Peoples' Commissariat of Electrical Industry.

4) The Peoples' Commissariat Peoples' Commissar of State Seof Chemical Industry. 5) The Peoples' Commissariat

of Marine Transport. 6) The Peoples' Commissariat

of River Transport.

7) The Peoples' Commissariat of Fishing Industry.

To this list must be added the A CRUDE ATTEMPT TO following partial table of those COVER UP THE DEBACLE Commissariats which were purged last October and November, ment of the Conference-at which

Colonel Combs will now resume active duty with the

### The Negro And The U.S. Army

### Negroes Were Discriminated Against In Draft Of 1917; Then Jim Crowed In Army

- By EUGENE VARLIN

The Negroes were barred almost entirely from any part in the administration of the conscription laws. The Draft Boards were made up almost exclusively of upper-class whites. The Negroes were assigned a special corner on the draft eral times in the period since the registration card. This facilitated the practice of discrimination against them. The proportion of Negroes inducted into the

military service of the United States was far, greater than the proportion of Negroes in the population as a whole. The Negro race formed 10.7 percent of the total population of the country; they provided 13.08 per cent of the enlisted forces. through the Mannerheim line. | Crowder, the Provost Marshal General, reported that of 9,562,515 whites registered, 1,916,750 or fense. This speaks volumes about and raised to the rank of Gen- 20.04% were selected for full military services; of 1,078,331 colored registrants, 342,247 or 31.74%, were selected. 32.53% of the whites who registered were placed in Class A, as compared with 51.65% of the Negroes. convened, he was replaced by one

The South, especially, thus discriminated against Negroes. L. T. Long's findings on the Negroes of Athens and Clarke County, Georgia, are a typical instance of the general rule. From June, 1917 through September, 1918, 2,465 Clarke County whites had registered as against 2,012 Negroes. Less Negroes than whites registered; nevertheless, 360 blacks or over 17% were conscripted as against only 262 whites or about

Scott, Negro Assistant to the War Department, received a great number of complaints against the operation of the draft, mainly from the South. Physically unfit Negroes had been railroaded into military service where able whites had been exempted. Where single whites escaped scotfree, Negroes had been "conscripted into service . . . . without considering their family relations or obligations." The Provost Marshal said conscription had been determined fairly. C. H. Williams, who had been in close contact with the Negro soldiers dur-

ing the war, disputed this. Negro farm-owners, he said, had been sent to camp when there were livestock and growing crops to tend to. A father of five children, of whom the oldest was seven, had been arbitrarily transferred from Class 4 to Class 1-A. "All told," Williams concluded, " . . . many Negroes who had sufficient claims for exemption were drafted and sent away to camp."

Mrs. A. W. Hunton and Miss K. M. Johnson, sent by the Y.M.C.A. to do work among the colored soldiers in France, told a story that reveals this situation better than any statistics. "One man from Texas," they reported, "upon delivering a company of men to a lieutenant whom he thought to be white, remarked that he had brought him a good bunch of Negroes, and had plenty more down there if he wanted them. At first, he said, they took all the men who had just purchased little farms, so that the property would soon return to the original owners, and then they just went through the country and gathered them up everywhere, so that they could get their full quota without sending their white boys. Of course, he said, the Negroes didn't know any better and thought they just had to come."

In only three cases did the Secretary of War remove unfair Boards from office. The Fulton County, Georgia, Board, for example, was dismissed for "unwarranted exemptions and discharges." Of 815 white men, the Board had exempted 526 (62%) on grounds of physical disability. The same board exempted only six of the 202 Negroes called!

### White Officers Over Black Troops

It was the policy of the Wilson government to subordinate the Negro troops to white officers. The very Official Order that created the 92nd Division, comprising the majority of the Negro combat troops, established the color line in the officers' staff-with the white officers on top. Adjutant-General McCain instructed the division's commanding general: "Following officers of Division will be white: All officers of general and field rank, such medical officers and veterinarians as the Surgeon-General may designate, all officers attached to Division Headquarters except the Lieutenants of the Headquarters troops . . . " etc.

These white officers were not chosen because of their technical ability but because they came from the white ruling class. They were to dominate in the army just as they dominated in civil society. Very often the white officers showed themselves to be ignorant of the art of war, inferior to the Negroes as soldiers, cowardly in battle, "The 92nd Division particularly," reports the noted scholar W. E. B. Du Bois, "was made a dumping ground for poor and inexperienced officers seeking promotion." Mason and Furr, two Negro officers, pointed out in their book on the Negro combat troops, that the Colonel of the 372nd National Guard unit had selected for his field officers mostly white lawyers "disqualified by the (National Guard) units they were formerly with..." "A very singular situation was created," remark Mason and Furr, "when it was found that the colonel was also in the same category."

Dr. Du Bois spoke to Negro troops on the field of battle and was able to acquaint himself with the real character of these white officers. Here are two of the cases which he reports:

The 368th Regiment went into battle on the leaving them to face the music alone as best they

could. He was sent to a hospital for "psychoneurosis," "which," Du Bois commented, "often covers a multitude of sins." As a reward for valor, he was later promoted to the position of Lieutenant-Colonel and transferred to a Labor Battalion where it was a little safer.

Major B. F. Norris, a white New York lawyer. a Plattsburg graduate, and with no previous experience, was placed in command of the 368th Regiment on September 27th. He gave the troops contradictory orders and a number of casualties resulted. On September 28th at 6:30 P. M., "Major Norris withdrew leaving a platoon under Lieutenant Dent on line ignorant of the command to withdraw. They escaped finally unaided during the night.". Norris left his unit on some slight pretext and thus avoided action. Later, he had the gall to describe the Negroes as "rank

Dr. Du Bois cites several other instances of similar nature. The white officers attempted to shift the burden of guilt for the failure of the first Argonne drive to the shoulder of their subordinate Negro officers. In fact, many of the latter were court-marshalled for cowardice.

A common practice was to place southern white officers in command of the Negro troops. The Colonel of the 371st Infantry was "a southern gentleman with the well-known proclivities of the 'South-in-the-Saddle' in his veins." Ninety per cent of the officers of the 371st were from North Carolina, South Carolina, and Tennessee, graduates of the First Officers Training Camps. Allan Greer, Chief of Staff of the 92nd Division, sent a letter to a United States Senator in which he slandered his Negro officers and men. Greer said he wrote "not only from the military point of view but from the point of view which all South-

These uniformed slave-drivers brought their habits into the army. Even the Secretary of War's assistant, Scott, writing in the cautious vein of an official historian, noted that "It was alleged in numerous cases that white officers and white 'non-coms' required of them (the Negro troops) unusually hard tasks under the most trying circumstances and frequently cursed them, beat them, domineered over them as if they were 'slaves,'...and applied to them all manner of epithets... such as 'nigger,' 'darkey,' 'coon,' and other objectionable terms." In the summer of 1918, the War Department received a "flood of complaints" against this treatment from the various Negro camps. Scott must record that Negroes faced "long periods of imprisonment in guard-houses and stockades if they dared to resent any indignity or failed to perform 'impossible' tasks."

The Negro soldier had no legal protection against the indignities of the officers. For army rules require all complaints to be made by a soldier through his immediate commanding officer. A vicious circle! The white officer was both defendant and judge. The Negro had no legal means to break the vicious circle. As is usual where legal means do not exist there were desperate resorts to illegal means. Many of the southern officers of the 371st Regiment "were arrogant and overbearing . . . It is rumored . . . ", Dr. Du Bois reports, "that after the first battle (in the Argonne) the number of casualties among the meanest of their officers led to some sort of mutual understandings."

(A third article in this series will appear

### Negro Struggle

### Fate of France's Negro Troops

The most interesting story of the week was undoubtedly the banner story in The Pittsburgh Courier, under the title "Half Million Black Men Killed To Save Honor of France," by R. Walter Merguson, the Courier's war correspondent, who has just returned from Europe.

In this, the first of a series, Merguson tells a story which has never before been printed, the account of what happened to at least a million Negro soldiers who were drawn out of the African colonies and into the French army as shock troops to stop the oncoming Nazi war machine.

No one has written about it before only because both the French and the Germans don't want the truth to come out, says Merguson. That truth is that these Negro soldiers were moved down in cold blood! No prisoners were taken. These colored soldiers are not in Germany, they are not in any part of France, occupied or unoccupied. they were never sent back to Africa.

Since the article is copyright, and "reproduction in whole or in part expressly forbidden," we are unable to say much more about it. Our advice: don't fail to get a copy of the Feb. 22nd

#### The Poll Tax Fight

Action is being undertaken this week to petition the House of Representatives to bring H. R. Bill 1024, the anti-poll tax measure, out of committee, so that open discussion and a vote may be held on it in Congress

This bill provides that failure to pay poll taxes shall not be used to prevent anyone from voting for candidates for federal office. Although, consequently, it provides for only a very partial reform, it is certain that it will be fought tooth and nail by the poll tax politicians who smothered the anti-lynch bill to death after a petition had brought that measure to the floor in last year's session of Congress.

### Judas Goats (Colored), A frank and honest statement this week by

Dr. Rayford W. Logan, chairman of the National Committee on the Participation of the Negro in National Defense, did much this week to advance the cause of abolishing Jim Crowism in the arm-

Logan stated that the three colored men holding administrative assistant posts (Hastie of the Department of War, Johnson of selective service, and Weaver of the National Defense Advisory Committee) had been appointed only to serve as "barriers" against Negro "pressure groups" and were being used to give them "a grand runaround."

Anyone who tried to deny this would be a fool. These men are the salesmen of the Jim Crow policies of the administration. Their mere presence is supposed to refute the well-known "white supremacy" theories of the war and navy departments. Jim Crow announcements, coming from the lips of colored men, are supposed to

### Jim Crow in "Defense" Jobs

A classical example of the endless circle of the runaround being given Negro labor by both the government and the bosses can be observed in the story of the Nashville, Tennessee branch of the N.A.A.C.P., which has been carrying on an active campaign to attempt to get Negroes into

First the branch tried to get a defense training course from the government and the local school board so that Negroes would be able to get some training and qualify for skilled and semi-skilled jobs in the Nashville plant of the Vultee Aircraft

But the local school board replied that there was little chance of such a course being opened to Negro workers, because the Vultee management would not employ Negroes "in skilled capacities, even if properly trained persons were available."

The branch then turned to the management of Vultee. The reply of the industrial relations manager was that they "do not now believe it advisable to include colored people with our regular working force. We may, at a later date, be in a position to add some colored people in minorcapacities such as porters and cleaners."

"From this distance," says an Afro-American editorial entitled "Why We Are For Henry Ford," "it doesn't seem to us half so important whether or not the Ford plants are organized, as whether the Ford principle of equal opportunities for all workers shall survive and flourish." (The "Ford principle of equal opportunity" referred to is the policy of hiring Negroes as "strike insurance" and theatening to fire them if they join the CIO union trying to organize the Ford Empire.)

"From this distance," that is, from Baltimore, it may not seem so important to an editorial writer but to the Ford Negro workers who have to work at a pay 10c. an hour lower than the national average for auto workers and who have to endure an inhuman speed-up which leaves them limp and almost lifeless after work, it seems a good deal more important.

Warning was served on the AFL Executive Council by the NAACP that if certain AFL unions, such as the machinists, do not cease discrimination against Negro workers, they would "have no other resource" than to seek legislation amending the National Labor Relations Act to deny such unions the right of collective bargaining.

The fact that Negroes are even thinking of such action must serve as real food for thought for the ranks of the AFL unions. As long as the AFL permits such things to go on, the union movement will never be safe. White workers, to protect themselves as well as their colored brothers, must open the gates of the labor unions to

And why demand "re- eign powers, breaks down com- cupy all of Manchuria; the rep- tional and social liberation of ernment in southern Anhwei. alization of the will and princ- pletely in the light of the eighth resentative of the Chinese bour- China.

In demanding that the blockade "along the border regions" Army, is preparing for action against the Eighth Route Army in the Northwest.

Effective resistance to Chiang Kai-shek's reactionary moves is totally incompatible with the Stalinist efforts to placate and come to terms with the sinister hangman of the Chinese revolution, for such efforts only deceive the masses and make it impossible to mobilize them against this reactionary satrap. It is necessary first of all to speak out the facts, to speak them plainly against the foul hangman of the and boldly. Instead of painting Chiang up as the "great" (if temporarily misguided) leader of action against the New Fourth | China's struggle against Japan, Army as something in the nature he must be exposed as the bloody of a momentary aberration, a monster who crushed the masses temporary straying by Chiang in the revolution of 1927; the Kai-shek from the straight path | executor of the infamous "nonthe Japanese imperialists to oc- | Japanese imperialism, for the na-

geoisie and landlords who have fattened on the very life-blood of the Chinese masses while sabotaging China's war struggle.

This comes first. The fiction of the "united front" with Chiang must be consigned to the political garbage pail. In its place must come a real united front of the exploited masses, directed against Chiang Kai-shek and his regime, against the landlords and capitalists, against Japanese imperialism.

The Stalinists face a choice of alternatives from which there is

1. They may continue their efforts to patch things up with the hangman of the Chinese revolution. If this line is pursued to the very end, it can only mean a fresh capitulation to Chiang, who will then prepare to strike at the Eighth Route Army at a time and under circumstances he wil himself choose.

2. They can end their "united front" with Chiang, assume their independence on the China scene, appeal to the masses, build a mighty movement of support for their armed forces.

#### ONE OR THE OTHER

These alternatives are mutually exclusive. It is one or the other. Probably it is too much to expect that the Chinese Stalinist leaders, politically poisoned in the Moscow school of classcollaboration and treachery to the masses, will be capable of taking even one step along the revolutionary road. Chiang, however, seems determined to disengage himself from the embrace of his Stalinist "allies." The attack on the New Fourth Army was only the beginning. Chiang himself may terminate the spurious "united front." In that case the Eighth Route Army will be obliged to fight for its very life.

Despite the false policies of the Stalinist leaders, we stand wholeheartedly with the peasant fighters under their command-Chinese revolution, against the bourgeois-landlord class whose interests he upholds. As always we stand ready to collaborate with the Chinese Communist Party in a united front of struggle in defense of the Eighth Route and New Fourth armies against

### New Publications That Belong In A Worker's Library

#### 'Fourth International'

FOURTH INTERNATIONAL. A Monthly Magazine. February 1941. 32 pages (large size

This is another outstanding issue of the only Marxist monthly journal in the United States.

The table of contents begins with an editorial on the murder of Walter Krivitsky in which this sensational execution by the GPU killers is re-

The second article, "American Labor and the War" outlines the present position and perspectives facing the trade unions and the labor political parties during the coming period of World

Of great importance is the unfinished article by Leon Trotsky, "Trade Unions in the Epoch of Imperialist Decay." Trotsky often commented in conversations on certain first hand observations he had been able to make since living in Mexico on the nature of the governments in the Western Hemisphere and the role played by the bureaucratic heads of the trade unions in maintaining the status quo. This article, although unfinished, is a summary of Trotsky's views on

"Lessons and Perspectives of the Sino-Japanese War" draws a balance sheet of the war imposed on China by the Japanese imperialists. The author, Li Fu-jen, writes from direct experience as a militant in the ranks of the Chinese section of the Fourth International.

A new writer in the pages of the Fourth International is Eugene Varlin, who presents a careful study of the military methods of the imperialist powers in the colonies. He shows that the contradictions inherent in capitalism lead to the arming of the colonial slaves and thereby lays the basis for the successful revolt of the colonies.

The Dean of Canterbury's "Soviet Power" is reviewed at length by John G. Wright, who confronts the Dean's myths with the texts of the actual ukases issued by Stalin.

The latest position of Max Shachtman, who now contends a new ruling class has come to power in the Soviet Union, is analyzed by Joseph Hansen in an article entitled, "Burnham's Attor-

As this sketchy review indicates, the February Fourth International is chock-full of important reading—a must for every literate worker.

### Goldman's Pamphlet

The ASSASSINATION OF LEON TROT-SKY: The Proofs of Stalin's Guilt. By Albert Goldman. 74 pages. 15 cents per copy. Pioneer Publishing, 116 University Place, New York, N.Y.

A clear and brilliant analytical work appears in this pamphlet. The examination of the circumstances surrounding the murder of Leon Trotsky in Mexico on August 21, 1940 and the crossexamination of the assassin, Frank Jacson, are presented with conciseness and beautiful clarity.

The author builds his powerful case for proof of the guilt of Stalin and his criminal agency, the GPU, upon several sources of incontrovertible evidence submitted by circumstance, by the murderer himself and by close associates both of Jacson and of Trotsky. Important among these is the "letter of confession" carried upon the person of the murderer during the perpetration of the crime. This document, fully acknowledged by Jacson, is minutely analyzed by the author of the booklet, and the implications of its statements illuminated.

Albert Goldman places under an analytical lens the substantiating statement of confession made to the Mexican court by the assassin, as well as the transcript of statements made by Jacson during cross-examination by the author. The evidence submitted by Sylvia Ageloff (used as a tool by the murderer), by various secretaries and guards associated with the Trotsky household and by numerous visitors to the Trotskys' residence is entered into the record and made part of the mosaic of evidence against the force behind the pick-ax wielded by Jacson.

A powerfully convincing method is used by the writer. He begins by submitting every item of evidence and then in the main section of the book proceeds to a repeated realignment of the facts involved, approaching the problem from various angles and demonstrating each time the ineluctible conclusion that the actual killer is Stalin's murder-machine.

The nationality of Jacson, his passport, the circumstances of his appearance in Mexico, his business claims, the motives he professes and those which really influenced his act-all are subjected to a quiet but powerfully persistent examination.

Since the author is himself prominently identified with the revolutionary socialist movement of this country, he is not moved in the slightest degree by a desire for revenge against any individual or group of individuals for the wanton destruction of the greatest revolutionary mind of the last two decades. He sees rather the inevitable triumph of socialism as the historical revenge awaiting not only Stalin and his policeagency regime but all of the oppressors of the working masses whose doom is spelled by the revolutionary uprising of the world proletariat.

The pamphlet sells for fifteen cents the copy and can be secured by writing Pioneer Publishers, 116 University Place, New York City. .

### Judge Frankfurter Answered By His Book

By RUTH JEFFREY

The right of labor to picket was sharply limited, thanks to a Supreme Court decision handed down a fortnight ago by Justice Felix Frankfurter. Heading a five to three majority, he held that State courts were constitutionally entitled to issue injunctions "to enjoin acts of picketing in themselves peaceful when they are enmeshed with contemporaneously violent conduct...

In the case before the high court the Chicago Milk Wagon Drivers Union, appealing against an Illinois court injunction, charged infringement of its constitutional right of freedom of speech, guaranteed by the Fourteenth Amendment. "But," Mr.

We quote:

dom of expression . . . .

Justice Frankfurter ruled, "utterance in a context of violence can lose its significance as an appeal to reason and become part of an instrument of force. Such utterance was not meant to be sheltered by the Constitution." The broad, general phrases of the Frankfurter ruling thus on the other members of their union can be denied the right to express process of the ruling thus on the other members of their union can be denied the right to express process. one hand constitute a threat to newspapers against printing any word of sympathy with the strik- junction here approved. ers whose picketing has been enjoined, and on the other hand constitute an open invitation to ng into any strike its Pinkerton thugs and provocateurs.

### We're In The War. . .

"We're in the war. At least we're nearly in the war: we're preparing for it...

Thus spoke Jesse Jones, Secretary of Commerce and one of the most powerful figures in the inner councils of the Roosevelt administration, last week before the House Banking and Currency Committee.

The committee members passed over his words in deliberate silence. No committee member, Republican or Democratic, referred to the statement or questioned Jones on its meaning. Nor did the press make much of it.

Jones, after the remark, ordered his words struck out of the official records of the committee. Roosevelt, in turn, brushed the incident aside in a brief press comment, saying only the minimum required for the record. Just a lot of words which didn't mean anything, he assured blandly.

Jones' admission is merely an affirmation of what every succeeding action of the government has made plain. The United States government bas already entered the war.

Who can honestly deny the truth of Jones' words? The whole productive force of this greatest industrial nation on earth is being directed toward one end: pouring into the British and American war machines. The Navy is patrolling the sealanes of the western Atlantic, informing the British of German ship movements, and working in complete coordination with the British blockade. American destroyers—"mysterious" ships of "unknown" nationality-have halted Nazi boats and forced them back into Mexican harbors. American troops are already in active service on belligerent foreign territory: U. S. military forces are now occupying bases in British possessions.

The latest evidence of the fact that this country is already in a state of war is that Army and Navy planes of the latest type have been dispatched to the Far East-most of the Navy is already there—to the aid of the British in Singapore and Hong-Kong.

Yet Jesse Jones' blunt words are the rare exception. The general rule of government is denial of the extent of our participation in the war.

There is a likelihood that there will be no formal declaration of war until after this nation's Army and Navy have gone into full-fledged battle-if then. Everything is being done so that no too boldly-labelled move will shock the masses from

their passivity. We do not deny that such passivity exists. As yet, there is no organized force in this country suf-

ficient to halt the war, or even give Roosevelt pause in his war drive.

Why, then, if the anti-war opposition is so weak, does the ruling class deem it necessary to move in such a fog of secrecy, to hide the very fact of war from the people?

The reason is that the bourgeoisie understand the masses far more than do those cynical "socialists" who deny the masses any ability to smash the war system. The ruling class sees the workers not merely as they are at this moment, but in all their potentialities of organized revolutionary might.

That is why 'Roosevelt moves with caution and subterfuge. That is why he tries to keep from the people every actuality which might jolt and awaken them. In this very policy, Roosevelt and the bourgeoisie confirm the tremendous revolutionary potentialities of the American working masses, and acknowledge the existence of that power which. will destroy the war system forever. That is why Jesse Jones' words were treated by the government, the Congressmen, the press, as an unimportant slip of the tongue.

### Support The A. L. P.

The support by the Trotskyists of the candidate of the American Labor Party in the 17th Congressional district in New York has two aspects.

On one hand, it assures one independent labor candidate as opposed to the two war-mongering boss candidates. Labor's uniting at the polls as a single bloc in favor of Eugene Connolly will constitute a blow against the war plans of the Sixty Families and a step forward in the task of building a nation-wide independent labor party.

Separate and apart from the specific program which Connolly stands upon, the fact that he has been presented by the American Labor Party as an anti-war candidate makes it possible for the worker-voters who oppose the imperialist war to register that opposition by voting for him at the polls. Every vote for Connolly will be weighed by the capitalist class as a labor vote against Roosevelt's war plans.

On the other hand, the sharpest criticism must be made of the pacifist character of the ALP program. It does not breathe a word of militant struggle against the war plans of the administration. It does not make the slightest attempt to present a real alternative to these war plans of the bosses.

As the real alternative to the war plans of the bosses the SWP proposes our military program: military training of workers, financed by the government, under control of the trade unions; the establishment of special officers' training camps financed by the government and controlled by the trade unions, to train workers to become officers.

In giving their support to Connolly in the 17th district, the workers must not forget for one moment that Connolly's platform is completely inadequate and that our military program must replace the present pacifist program of the American Labor Party.

### Roosevelt's Ethics

Roosevelt has not denied the truth of the published report that American fighting planes of the latest type have been sent to the Far East. He has merely questioned the "ethics" and "morals" involved in the publication of this information.

Since Roosevelt has raised the question of morals, we would like to delve a little deeper into the subject than he has done.

By what manner of morals does Roosevelt justify the fraud he has perpetrated in promising the American people prior to the last election that he would keep this nation out of war-and then immediately upon his election promoting the Lease-Lend bill, which means waging war?

What morals are involved in Roosevelt's colossal war program, undertaken with the deliberate intent of establishing the hegemony of American imperialism over the entire world at the expense of the lives and liberties of the American masses?

Roosevelt speaks for the defense of "democracy." And yet he has withheld from the American people every bit of official information regarding the commitments he has made to Churchill. He has withheld the reports of Kennedy, Bullitt and Hopkins on the state of affairs in England and France. He has made one major move after another, like his destroyer deal, involving tremendous consequences to the American people, without the knowledge or consent either of the people or Congress. What kind of ethics does this reveal?

This week nine publications were officially barred from the government-operated post exchanges at the army stations, (including even the respectable liberal weekly, the New Republic!). This is an example of that freedom of the press which is among the principles for which Roosevelt wants American workers to fight and die.

Yes, Roosevelt is deeply concerned over ethics, his ethics—bourgeois ethics. He is concerned over the ethics of hypocrisy, lies and fraud; the ethics of imperialism, boss war and plunder.

The one thing Roosevelt finds especially unethical is telling the masses the truth about his war aims and the extent of this nation's present involvement in the war.

Roosevelt's ethics are nothing new. They are merely the "ethics" and "morals" of every ruling and exploiting class throughout history. They are the "ethics" and "morals" which the revolutionary working class is destined to drain from the social system, along with every other boss class poison, in the creation of the warless socialist world order.

### Negro Press Comment On British Failure To State War Aims

. The silence of the British government on its war aims is simply—and correctly—explained by the Pittsburgh Courier, Negro weekly, in the following editorial in its February 22nd issue:

The British Government has been asked time and again, both by His Majesty's Opposition and by realistic Americans to define its war aims.

Neither Prime Minister Winston Churchill nor any member of the British Cabinet has yet defined those war aims, and yet this is a matter of prime importance to the vast majority of the white and colored people who make up the Empire.

The reason for the silence of Messrs. Churchill, Eden, et al, is obvious.

The war aims of the British Empire are the war aims of the wealthy minority which owns the Empire and controls Parliament: that is to say, the perpetuation of the status quo which has enabled them to siphon the wealth of distant lands into the Bank of England.

The Axis threatens this position of wealth, power and prestige, so the aim of the British ruling class is to destroy the Axis and so maintain the status quo. To the 350,000,000 poverty-striken, half-starved resi-

dents of India. Britain's war aims are the continuation of the system which has impoverished them. To the 50,000,000 poverty-striken and malnourished residents of British Africa and the West Indies, Brit-

ain's war aim is similar. It would be too shocking to brutally reveal this war aim, so the browns, blacks and vellows are told that the struggle is one for democracy. It's as simple as

The February issue of the Crisis, monthly magazine of the National Association for the Advancement of Colored People, has some revealing sidelights on British democracy. Its editorial tells this story: "Persistently has Great Britain refrained from stating officially her war aims. She has preferred to say simply that she is fighting to rid the world of Hitlerism. This is not enough. British officialdom knows it is not enough, but they do not intend to say more."

"The important question in the minds of millions of British subjects, white and colored, within and without the British Isles is; are we fighting for a continuation of the status quo, or are we to set up, in truth, a new and better world? Millions of people in America who are being whipped into a frenzy to support Britain have the same question in their mind."

"A revealing sidelight on this momentous question was reported in January from London. A member of parliament made several recommendations for improvement in air raid shelters and observed that he thought 'separate shelters for white and colored' would

"If this is all Britain is fighting for: the status quo, a world in which poor men will still be poor and rich men rich, a world in which color will determine status, then to ask American Negroes to fight and die for Britain will seem like asking them to fight and die for Mississippi."

And from a recent editorial in the Pittsburgh Courier come this significant story: "King George's loyal black subjects in Jamaica are getting a new taste of democracy. Governor A. F. Richards who is virtual dictator, has had his stooge legislature (controlled by his appointees) pass new regulations 'for defense' which come close to wiping out what little democracy is left in the island."

"Any assemblage for whatever purpose can be dispersed by the police." "Any person who fails to move on when told or

incites others to reassemble can be arrested without warrant."

"All persons are forbidden to fly any banner, flag or emblem except that of the British plutocracy, or to have in their possession any firearms, knife, cutlass, stick, club, bludgeon, iron bar, stone or weapon or missile of any description."

"An assembly consists of three or more persons, moving or stationary."

"A public place is defined as any highway, street, public park or garden, sea beach, alley, passage or open space, whether or not the people have rented

"The new statutes are designed, of course, to halt the development of a labor movement and to keep down protest against the sorry economic and political conditions under which the people labor."

"Ironically enough," concludes the Courier, "the British government says it is fighting for democracy! . . . "

### Willkie's Real Views in November

The Detroit Free Press prints the following story, as coming from its Washington Bureau. Willkie has not denied it.

WASHINGTON, Feb. 10 - A story of a New York dinner party at which Wendell L. Willkie is said to have expressed the belief that the United States should send the United States Navy and the Army to the aid of Britain-three weeks before the Philadelphia convention which nominated him for president-was told in congressional circles tonight.

This party was arranged by Thomas P. Lamont, partner of J. P. Morgan, and was attended by Senator Robert A. Taft, Ohio Republican, who at the time was a candidate for the nomination. Taft was the lone dissenter. Fearful that silence might indicate consent, Taft announced that he could not agree to all-out aid to Britain, it was said.

The story of the party was told by men usually very reliable. Senator Taft was in New York tonight, but his secretary said that he had "heard about the party." A high-ranking member of the House said that the story had been confirmed to him by Senator

The dinner party "sealed Taft's doom," according to Republican leaders. Lamont arrived in Philadelphia on the Wednesday of the convention and inquired of Willkie workers, "What's the delay; can't we nominate him today and get it over with?"

Willkie was nominated 48 hours later.
