# REAGAN CHEERS, "LOOK" ATTACKS - ALIOTO OINKS

It's been a very rough month for Mussolini Alioto Fascist Mayor of San Francisco, Recently Pig Alloto had been working to strengthen his Anti-Panther coalition with Sam Yorty; the Ambitious Fascist Mayor of Los Angeles, Pig Alloto's anti-Panther links with Yorty have been growing so until it reached the point that he was able to put in an appearance at the Happy Darkies (Watts Summer) Festival. Alioto has always voiced his love and understanding of "Militants", and he put it into practice as he mixed with some of Watts "Blackest Militants". The fact that Alioto, Yorty and Ron Karenga all see the Black Panther Party as a threat to their "status quo" is a very strong unifying cause. The Fascist Italian gangster, the Bootlicking Black Militant, and the All-American Anglo are fevershly conspiring to destroy the Black Panther Party. This gruesome three are not by any means the perpetrators of the cution inflicted on the Black Panther Party. "Tricky Dick Nixon'', "Pig Queeny Hoover", and "Rin-Tin-Reagan" will not be easily usurped no matter how ambitious the lesser Fascist may

### THE BLUFF

A good indication of how big pigs (like Governor Reagan) keep little pigs (like Alioto) in line is the recent tussle over "Gun laws" (not pros and cons but jurisdiction). Although big pig Reagan is the Governor of the State of California and little pig Alloto's confused orders. turf is limited to the San Francisco Bay Area, Alioto acted as if he was going to tell the Governor what he how far to jam it. It is the opinion of most people that pig-to-pig the Frank (The Bump) Bomponsiero

out of the big movie star, but luckily no-one had placed any bets because the next day all would learn why the little Italian Swine was acting in such an unruly manner toward his senior pigs.

### THE SACRAFICE

Some one upstairs in the hierarchy had put some "Italian Ham" on the political chopping block. A soon to be published Look Magazine Article linking "legit" Alioto with some not-so-"legit" mafioso pigs, had been "leaked" to newspapers throughout the State by Governor Rin-Tin-Reagan, This blew all the quiet-but-frantic work that the little Italian pig maker had been doing underground to block or alter the Look articles publication. Like all die-hards Alioto's Response was "Fight to the finish". "If I should decide to become a candidate for any other office I shall insist that the full backgrounds of all the candidates nation-wide repression and perse- become an issue in the election."

Alioto's mafioso cat was completely out of the bag by now, so the only thing left was to mention the obvious, put some of the heat on his fellow pig politicians, and deny everything. The revelations first made by the Black Panther Party's Minister of Information, Eldridge Cleaver have been verified by part-truths from the oinked Alioto. swines own snoot,

Alioto's first T.V. claim that the authors of the article had never Alioto. by a two-hour taped interview made public later by his own staff acting presumably, on his understandably Jose, California,

### BIRDS OF A FEATHER

Of the many mafia figures asked sould to with his gun law, and just about in the interview Alloto hed this to say:

Little Mafioso can kick the hell of San Diego "Never heard of him"

Frank Laporte of Chicago "Never heard of him" oinked

interviewed him was contradicted Salvatore Marino and his son Angelo Marino, Operators of California Cheese Company in San

Alioto oinked that an attorney in his law firm office had obtained a small business loan for the company and that he had represented Angelo in an income tax case. (Angelo beat the case because of wiretap evidence)

When asked if he knew anything of the Marino family's activities

San Jose people, they have worked organized crime in San Francisco'! hard to build up their business". "our office represented them and still does". He added that he 'thought' Salvatore and Joe Marino had contributed \$2,000 to his election campaighn.

(The "Life" account of the San Francisco pig department was still ringing in Chief Cahill's fat red ears.) The organized crime revealed in the Berkeley Pig Plot to attack the National Headquarters

MAFIOSO ALITO

The late Emilio (Gamba) Geirgetti, at one time San Mateo's biggest gambler "When I met him he was engaged in no illegal activities" -Alioto, James Lanza - a Mafia Don (Head of a Mafia "Family")

"My dad knew him when I worked Richard Williams 29, and Robert as a boy in my father's fish market".

Jimmie (The Weasel) Fratianno a West Coast Mafia "enforcer" When asked about a loan to the "Weasel" from the First San Francisco Bank of which Alloto was one of the founders, and Chairman of the Board, Alioto oinked that he didn't know him (the Weasel) and had never heard of him until Jack Goldberg (an international organizer for the Teamsters Union) brought him to see him about a loan, "Fratianno got a loan based on collateral".

It is no wonder that Alioto gets along better with a small time crook like Sam Yorty, and a hired killer like Ron Karenga, If Alioto can make his way back down to the Farm Team in one piece then most people will be surprised, Alioto liberally quoted pig Chief Cahill to note the fact that "There is no

of the Black Panther Party was not mentioned. The fact that two ex-Berkeley pigs pleaded guilty to shooting up our National Headquarters a year ago and have made a deal with the Fascist courts was also ignored. The two pigs Farrell 27, have been at liberty on \$3,000 bail each, while Panthers are held for \$100,000 ransoms all across the country. It seems that all that's necessary for understanding from the courts is to confess to being a Fascist.

THE LAST STAND

Mussolini Alioto is denying everything, filing suit (\$12.5 million) against Look Magazine, and not about to give up his Fascist ways or his"Blue-Shirt" "Storm-Trooper", Tac-squad, "Rin-Tin-Reagan" (the movie star) has definately put the "Little Italian Ham" back in his place, Alloto will either learn some bootlicking techniques from his ace-coon-militant Karenga or be disciplined further by "Miss Ronnie." Our money is on "Sweet Ronnie" this time.

# "ON REVOLUTIONARY CULTURE"

## MINISTER OF CULTURE EMORY DOUGLAS

ALL POWER TO THE PEOPLE We, Black people in Babylon, are fighting for liberation from political domination at the hands of the oppressor, from economic exploitation, and from a social system that degrades us as men and women. Out of this struggle comes a new way of life based on the politics of the people's struggle, This new way of life is a struggle for change, a revolutionary struggle involving the masses of people. Just as the liberation struggle brings about new politics, it also brings about a new culture, a revolutionary culture. Born out of the people's desire for change from a corrupt system to a system that serves the people, a system that is free from exploitation of man by man, and meets the desires and needs of the masses of people.

The old culture is a culture based on exploitation and competition whereas revolutionary culture is based on cooperation, "Breakfast for Children, Free Health Clinics, and "Liberation Schools;' are just some of the programs implemented that are part of the revolutionary culture. These cultural programs will be carried out throughout the liberation struggle because our children have gone hungry and without proper medical care besides being given misinformation in school for too long at the hands of this oppressive system. Through the new culture, our children receive the nutrients that are needed to develop physically and mentally, so they can survive this corrupt system and build a new one that serves the people.

The cooperation on which the new culture is based is the masses of people working together in the interest of humanity, fighting off a decadent culture, replacing it with

a culture that works in the interests of the people, Our new culture being based on the politics of the People's Party can only be implemented through many battles with the pigs of the power structure, the exploiters, since the new culture is free of exploitation. Therefore, self-defense becomes a part of the new culture, manifested in 357 Magnum, Machine Guns, M-15's, Hand Grenades, 12 Gauge Shotguns, and Browning Automatics because the people have accepted the reality of armed selfdefense being the only way to liberation.

Also out of the struggle for liberation comes a new litera- peculiar to the oppressed Black ture and art. Based on the peo- masses but transcends communiple's struggle, this revolutionary ties and racial lines because all art takes on new form. The revolutionary artist begins to arm his talent with steel, as well as learning the art of self-defense, becoming one with the people by going into their midst, not standing aloof, and going into the very thick of practical struggle.

This new born culture is not oppressed people can relate to revolutionary change which is the starting point for developing a revolutionary cluture.

"A NEW WAY OF LIFE"

# L.A. PIGS VAMP ON FREE BREAKFAST **PROGRAM**

Watts Free Breakfast Program, by the Los Angeles Police Department and its agents in Seplamper 3th, is the lates' and most outlandish atrocky overtly committed by the fascis governments of the United States to date,

within the confines of this country. Children, ranging from about three to fourteen years, were at the location of the Panther Party's Wat's Broakfast to simply eat the food that we provided for them. They are there in the main because this government has not provided them with even the basic necessities of life, food and shelter, as are the natural rights of human beings, and is the duty of the institutions by which they elect to be governed to provide. And so we, the Black Panther Pary then have taken upon ourselves to struggle of not only preparing for the total liberation of all people, but the temporarily alleviation of some of the ills which the great masses of people suffer.

Now who armed troops - armed with shotguns - illegally in a private building, where 40 to 50 children are trying to stave off the bunger they daily suffer, and force these children at gun point to leave the building with no breakfast; with the pretext of looking for suspects of an alleged killing or shooting in a house that is wellknown to be the location of the breakfast is used to terrorize elementary-school age children: when even after the children have left hysterically, their food is thrown out by these same gestapo pigs; when, in essence, terror replaces logic, and the gun replaces justice and law, then we must refer to the very constitution upon which 'is so-called government was found:

... We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the

secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness....(and) when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.

Looking for suspects has been a common excuse and the basis for which terrorist acts have been committed and justified - it happens in Vintnam, when whole villages are wiped out, and it has happened across the country recently to the Black Panther Party, especially in the case of the alleged murder in Connecticut, for which our Chairman, Bobby Seale, is being held.

When we said his was fascism intellectuals, phrase mongers and fascists said this country was not moving to that point. Well, we say that this single act was an introduction to the open tactics the power structure will use to quell any form of legitimate dissent of the people.

But, the people are not fooled for the people saw this act and realized more strongly in need for Community Control of Police and complete control of their destinies. And we simple say again

ALL POWER TO THE PEOPLE ALL POWER TO THE PEOPLE. FOR THE POWER BELONGS TO THEM.

"You shouldn't judge all policemen by these few," he added. "there aren't many of them, but there's nothing we can do about them at this time. You probably know the reason why."

P.S. The situation is so bad in Philly that the people have to call the pigs in order to receive hospital service.

LETTER TO THE PEOPLE FROM A CONNECTICUT **PRISON** 

We as political prisoners have been subjected to the fascist tactics of the Ninantic, Connecticut state prison and its mad dog reactionary paper pigs.

Although we are denied the privilege to talking to the other women here face to face, we sometimes converse through our barred and screen covered windows. But even this is soon interrupted by the oinking of the pigs here.

We have seen the beating of two sisters here. There wasn't much that we could do except try to spread the word of this act of fascism around the prison grounds and report it to the head reactionaries that work here. After the beating, they were both thrown into a cold, damp cellar which the girls call the dungeon. They were left there without food until the head pigs felt it was time to let them out, DOWN WITH FASCISM!!

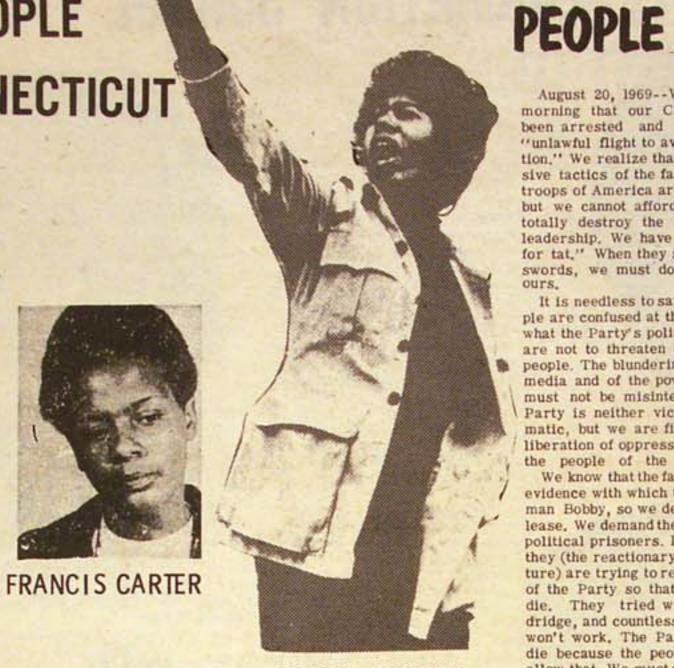

The guards have been seen with shotguns. When we asked one of the fool reactionaries here why the sudden change in the system here, we were told that they had orders from head pig D.A. Marckle and the Commissioner to STEP UP THEIR SECURITY

We will fight fascism by building a united front against it. It's one thing to be oppressed; but it's another thing to be repressed. ALL POWER TO THE UNITED FRONT AGAINST FASCISM.

Take the power from the paper pigs and give it back to the people.

The people are rising up like a mighty strom .... Right On.

# Letter from Prison

To the Black Panther Party:

Let me start by introducing myself. My name is Richard Clark, and my age is 19, I am from Philadelphia but am now in the District of Columbia Jail waiting for trial, I would like to say at this time I am facing a court-martial from the military service for desertion because I escaped from the stockade. Why I am writing this letter is because I've been in the revolution for some time (since age 14) but was greatly distillusioned by my former brother by actions I would not like to relate to at this

While in here, I ran into another brother from the Panthers and he was also from Phily. What he told me of my former organization shattered my confidence in them but did not deter my obligation or responsibility to the Black people. I am a nationalist and revolutionist and consider myself capable of defending my people against the pig by any means possible. But I can not do this alone, so I'm asking membership in the Black Panther Party. If I am convicted of this felony, I will receive from the pigs' both civilian and military courts, a position which you might say puts me in front of the death squad, In the past, I have defended and watched over brothers who were marked by the pig for death and risked my own life. But my life meant nothing to me then nor does it now, because if that's what it takes to defend or save another Black brother so that he may still get the truth to the Black masses, then this is what I'll give gladly and with honor. But although I have served loyally, I am now deserted and need the help of a brother.

Sincerely, Saladin Ali

P.S. Please, brother, in your reply could you send me the latest edition of the Black Panther paper because I've only seen one edition, and I'm not sure if they will let it in but I will send a donation as soon as possible. Could you send me the latest news on Huey Newton and Eldridge Cleaver.

All power to the people!

"When dark clouds appeared in the sky, we pointed out that they were only temporary that the darkness would soon pass and the sun break through" (Mao). Having heard of the start of the Breakfast Program was the sun breaking through- It was without a doubt the most cherished news that I've received since being here. To know that you all are struggling in the interest of the people was the sun breaking through for me.

"We must perserve and work uncreasingly, and we, too, will touch God's heart. Our God is none other than the masses of the Black People." "New things always have to experience difficulties and set back as they grow. It is sheer fantasy to imagine that the cause of socialism is all plain sailing and easy success, without difficulties and setbacks or the exertion of tremendous efforts," So the problems that you may be having should not sadden or dispirit you, for hard work is like a load placed before us, challenging us to shoulder it.

My particular situation here is still the same, a case of the court, (the criminal) trying to make me (the victim) look like the criminal, and the criminal the victim. The kangroo courts and the breaking of the constitutions laws are a reality here in the "belly of the beast" as Chairman Bobby calls it, and I can bear witness to that, My bail of fifty thousand dollars (\$50,000) is usually unheard of for the type charge (unlawful interstate transportation of a firearm by a felon, vio. s922). # PANTER 21 HAVE BAIL FARING

On August 13, 1969, the Panther 21 had a ball hearing in Federal Court in New York City, This was the 17th bail hearing the 13 brothers and sisters who are incarcerated have had since they were busted on April 2 of this year. Attorneys William Kuntsler and Jerry Lefcourt argued that the State's bail system was "unconstitutional" and that the bail on which the 21 were being held was excessive. District Judge Edmond L. Pamieri presided.

Attorney Lefcourt pointed out that the \$100,000.00 bail that the N.Y. Panthers are being held on was a "political bail". William blowing about the racist nature of the courts. Both lawyers were really "taking care of business." Kuntsler went on to point out how the pig power structure is out to destroy the Panthers, and how the press has conducted a vicious slander campaign against the Party. Lying D.A. Hogan and his lying assistant, pig Phillips - equated the "so-called" conspiracy to bomb department stores to that of the Chicago bombing of department stores. But Kuntsler pointed out that the person responsible for heinous bombing was an insane white ex-marine. The N.Y. 21 are not insane; they are revolutionary freedom fighters and servants of the people. The "aura of fear around this case" was also mentioned. (When Panthers appear in court in fascist New York City. there's a pig-a-Panther). There

were 3 armed men in the court. "For what? asked Kuntsler?" For two lawyers and your honor?" Kuntsler went on to point out that "it is white people that are doing all the shooting," And Martin Luther King was the example put forth.

The Panther lawyers were joined in court by Mrs. Elizabeth Dubois, who appeared "as friend of the court" on behalf of the NAACP Legal Defense and Edscation Fund. Mrs. Dubois argued that the bail system "discriminated against the Negro and the poor." Mrs. Dubois argued:

"If a person is able to supply Kuntsler picked up the argument \$100,000,00 he has a right to be set free, these defendants (N.Y. 21) do. Their ability to pay has nothing to do with their danger to the community."

Mrs. Dubois pointed out that the exorbitant bail of \$100,000,00 violated the "eight amendment of the jive constitution which protects the defendant against pretrial detention. Judge Palmieri said that to deal with the questions presented by the lawyers "would overturn some of our fundamental concepts." However, he did admit that "the poor (particularly poor blacks) are disadvantaged by the (bail) system." The \$100,000,00 ball is to insure that the incarcerated brothers and sisters will not be on the streets serving the people. Outrageous bails are simply a means of insuring pretrial detention for per- his decision to study sons whom the (capitalist) system

thinks is dangerous." Mrs. Dubois closed her arguement by saying, "those incarcerated before trial, have more chance of being convicted."

# STOP GANG-UP!

Bobby Seale, Chairman of the Black Panther Party, was arrested the other evening by two dozen FBI agents, armed with shotguns, as he was leaving the wedding of a friend. The agents said he was wanted for "illegal flight to avoid prosecution".

The charge was a phony because (a) he was not fleeing, and (b) he was not aware of any prosecution. Just the same, \$25,000 ball was slapped on him, No sooner was this bail posted than Seale was grabbed again -- this time by San Francisco cops--on a new charge: kidnapping, murder and conspiracy to commit murder in the of the swine. A couple of burley state of Connecticut.

At the request of District Attorney John J. Ferndon, a judge. denied bail on the new charge. Ferndon said some police informer had implicated Seale in the Connecticut crime.

As Seale's attorney pointed out, not long ago San Francisco Police Officer Michael O'Brien (while off duty) shot and killed a Black truck driver named George Baskett, And O' Brien was granted bail (and other courtesies too), although several people, who were not police informers testified that he killed Baskett in cold blood.

That is racism in one of its worst forms. One rule for Whites, another rule for Blacks.

LABOR'S EXPERIENCE

Working people come in all colors and such racism is used to divide them along color lines to make them and their unions a softer setup for the boss.

Unions have had their share of "conspiracy" to prevent scabs from entering a plant and police frameups when the powers that be wanted to break a union or bust a strike.

Certainly their own experience and the phony FBI "gang buster" stage managing of Seale's arrest ought to make union men and women

Two sisters, Sherrie Brown and Sandra Wallace had noticed pig cars gathering about a block from the office. When they went down to investigate, they saw the people from the community gathering as the pigs slammed a brother against the pig car. The sisters began to tell the people about the fascist pig tactics and were joined by three more Panthers. As the Panthers talked to the people about the fascist pig repression, more pig cars arrived. The fascist swine grabbed brother John Clark and slammed him against a partol car. Someone in the crowd threw an old shoe and connected on one swine grabbed sister Sandy, called her a "b -- ch", and raised their "law and order" sticks. But another pig called out that there were too many people around. The pigs decided to retreat, but not before arresting all the Panthers in sight. They were Sherrie Brown, John Clark, Steve McCutchin, and Malik Jones. They were arrested and charged with resisting arrest and hindering pigs in carrying out "law and order". They are currently in the pig pen, pending oa 5500, bail each. Their trial is scheduled for September 12th, Sister Sandra Wallace was tried that same day on charges of assault on a pig and found guilty and fined \$120,00. The fine was payed and she was released.

# A LETTER OF PROTEST TO BERKELEY PIG CHIEF

August 27, 1969 Chief Bruce Baker Berkeley Police Department Hall of Justice Berkeley, California

Dear Chief Baker:

We are aghast upon reading the drafted plan for the annihilation of the Black Panther Party National Headquarters which has come from your office and the desk of Officer Plummer! We are even more shocked by your Department's spokesman, heard on KPFA todocument issues from the Berkeley are anxious to know, Police Department.

drafting of it! I can no longer consider of any value such proposals of police-community workshops and public meetings aimed at bettering relations between police and the people. Who can sit down and talk with the mentality represented in this plan. Rather, it fills me with disgust, and then with fear and anger. Rather than talking, I believe that my Church would do better to begin installing armor-plate on our own windows immediately. Let me put it more directly: do you have similar plans for the Free Church and night admitting that this sordid other Movement headquarters? We

I am encouraged by the fact that I wish to register my strongest such a plan has found its way protest against even the thought of outside your department: to the such a plan, much less the actual press. One of the remaining hopes

of the people is the free press which can print plans from police departments, as well as lists of narcs and tactical squads. Perhaps free press, in the end, will be our only hope of community control of the police.

I think I speak for the Free Church community in saying that we are a Church which will support our brothers in the Black Panther Party with whatever resources we have. Documents such as this plan only confirm us in the belief that the Party is the cutting edge of the Black man's struggle (and our own) for liberation in this society.

Regretfully. Fr. Richard L. York, Free Church

# UNITYIS MORE NECESSARY THAN EVER

REPRESSION

The police, FBI, CIA and repressive agencies in general are on the prowl for Black militants. In the last few months Black Panther Party offices in such cities as Sacramento, Chicago, Denver, Washington and Salt Lake City have been attacked by the police. Searching without warrants, the making of false accusations, the setting of high bails, mass arrests and other actions have been taken against the Panthers - which led Gerald Lefcourt, their New York lawyer, to say, "They are certain the Government is trying to destroy them within a year."

The Black Panthers have been carrying out unity activities with other groups of liberals, leftists and radicals -- Black and White -to form a coalition against repression. But this unity of Blacks and Whites against U.S. racial oppression has caused the Panthers to be attacked by other groups of Black self-styled nationalists. This clash among Black groups has exposed existing ideological differences,

NATIONALISM: REACTIONARY OR REVOLUTIONARY

The last few years have seen the development of a trend in U.S. Blacks toward studying and becoming acquainted with African culture. The Black man has become aware that the theory of racial inferiority was a myth which served to prop up the system of exploitation. Thus, the wearing of African clothes, the use of African names and languages -- all this has become popular in the United States, as has the wearing of natural hair styles and the emphasizing of other external characteristics aimed at making blacks more like the peoples they originated from.

But this trend toward idealizing Blackness has its negative side, Black leaders in the front ranks of the struggle against the American way of life and for the liberation of Black people have expressed their disagreement with this trend.

Huey Newton, founder of the Black Panther Party, now in jail, has said, "There are two kinds of nationalism: the reactionary and the revolutionary. Revolutionary nationalism is based on a popular revolution whose objective is power for the people. To be a revolutionary nationalist, you must first of all be a socialist. The reactionary nationalist is not a socialist, and his final objective is oppressing the people."

Newton's point becomes even clearer when he says, "Cultural nationalism, or pork chop nationalism, as I sometimes call it, is the result of a false political perspective .... The objective of cultural nationalism is a return to African culture, by which these nationalists expect to regain their identity and freedom. In other words, they feel that African culture will bring them political freedom. Often cultural nationalists become reactionary nationalists."

BLACK CAPITALISM: NIXON'S PROGRAM

Side by side with this ideological struggle, an economistic tendency called "Black capitalism" is developing. The idea of Black capitalism is to divide. It is a palliative aimed at neutralizing the Black masses and deceiving a minority which believes it can join the ranks of the capitalists as exploiters. Black capitalists will also expolit their own people. This Nixon strategy has met with some success as a political measure.

Big businessmen take advantage of black cultural nationalism to grow even richer. American Greetings, Inc. has put out a line of greeting cards port of the Whites in the struggle for Negroes.

For instance, an article published in Time magazine points out that there is a group of Black athletes who have become businessmen, taking advantage of concessions and loans offered them. Meredith Gourdine, and Olympic broad jumper, has said, "Black athletes have a better chance to join capitalism than any other of Cuba.

Negroes." This is proof that some have joined the ranks of the divisionists.

Black capitalism has not developed greatly from an economic point of view. Thomas Matthew, who organized the National Economic Growth and Reconstruction Organization (NEGRO), found it almost impossible to sell his own capitalist services to the Government. He could not get the Pentagon's orders and could not complete other contracts for chemical products. These were granted to monopoly enterprises such as Kodak and Minnesota Mining, in-

The reason such monopolies as Shell and the Chase Manhattan Bank, to cite only two of them, join the Black capitalism program is that they see a danger in the Black people's struggle and in their possible alliance with White rad-

But a significant event has already taken place. In April -during the Negro Economic Development Conference, in which the activities in connection with the Nixon plan were supposed to begin -- elements or groups that supported Black capitalism came out against the program, Brother Crook, one of the participants in the conference, later made the following statement: "Black capitalism cannot help the Black people, because it is based on the assumption that the exploitation of man by man is a natural thing. Since Negroes are the lowest rung in this country's social and economic scale, Black capitalism would mean that Negroes would have to exploit other Negroes."

It appears that the words of Black Panther leader Bobby Seale are already being proved true. In reference to Nixon's plan, he stated that Black capitalism "only leads to a strengthening of the capitalist system, a system which keeps Negroes in slavery."

In the face of the present situation of the Black movement in the United States and the attacks of all kinds which are leveled against it with a view to doing away with it completely, it is more necessary than ever to achieve the unity of the Blacks and to secure the supto eradicate capitalism, which is the real prerequisite for truly solving the problem of racism in the United States or anywhere else in the world.

Approximately 4:00 Tuesday morning, a brother named Charles Lewis who lives at 1814 31st St. was stricken with convulsions. The pigs were called by his relatives in order to have him taken to the nearest hospital. Approximately 45 to 55 minutes later a Black pig and a White pig arrived, Both pigs refused to carry Mr. Lewis, who was in convulsions, from his second floor apartment down to their wagon outside, Mrs. Mattie Knight, who is Mr. Lewis's sisterin-law told me that she begged them to carry him downstairs, but both pigs, especially the Black pig, were very nasty to her. Being that the pigs refused to carry Brother Lewis outside, some brothers, Tim Darrison and Kitshen Wilson carried him downstairs and outside to the pig wagon,

Mrs. Knight who relayed this story to me, is nearly sightless, and was unable to obtain the number of the two pigs though she desired to do so. The pig wagons that usually patrol the community are 2201 and 2202. In this area it usually takes the pigs a half hour to 45 minutes to respond to calls own destinies, because HOG TATE, other than those reporting robberies. Mrs. Knight's niece died in January or February while waiting to be rushed to the hospital. In ALL POWER TO THE PEOPLE this case, the pigs had taken at Lynn Smith least a half hour to respond to the emergency call.

Though these incidents do not involve actual beatings on the part of the pigs, they do illustrate the brutal nature of the pigs toward the Black Colony. The fascsist pigs are right there on the spot in protection of the interests and the property of the avaricious, greedy businessman, but take their time when called to rush someone to the hospital. The pigs (human property of the power of finance capital) are controlled by a system which places a higher value on property than on human lives! This is why the BLACK PANTHER PARTY is circulating a petition for COMMUNITY CONTROL OF THE FASCIST PIG POLICE The pigs on 31st St. must serve the people on 31st St. Not the avariclous businessmen living out on the Main Line! The pigs will not stop busting your heads and letting you die while waiting to be rushed to the hospital as long as they don't live in your community and are not controlled by you.

# BOSTON PIGS RAMPAGE

Boston August 29,1969

On returning from a film rally sponsored by the Black Panther Party, the fascist Boston Pig Department moved on a Panther car with guns drawn, for a "motor violation." After seeing the community respond to their gestapolike tactics, they immediately called an "Officer-In-Trouble" call, which brought 10-12 car loads of pigs with guns drawn within 2

minutes. The Defense Captain, Doug Miranda, and myself were immediately whisked away and were

not advised of our rights nor put tempt to destroy our dedication under arrest. After arriving at the pig station, Doug was put under arrest for a "motor vehicle Violation" and I was suspected of being a fugitive.

These incidents prove several things: (1) The pigs are only in our community to brutalize and murder Black people. (2) They realize the power of the people and the Black Panther Party's role in the education of our people to the true nature of the decadent American society and (3) The system's at-

as revolutionaries for the liberation of our people.

### Editorial Note:

Within the Movement, debate rages over organizational and political strategy for the women's liberation movement. This debate rarely includes the ideas of black women. So we rapped with six women, members of the Black Panther Party, about some of the issues raised by the women's liberation movement and their own experience with women's liberation inside the Black Panther Party. (Technical note: A large space between paragraphs means that a different sister is speaking.)

MCVESIENT: Now has the position of women within the Black Parther Party changed? Now have the women in the Party dealt with male chawkinism within the Party

PANTHER WOMEN: I've only been in the Party about ten months and when I got in the Party the thing about Pantherettes was squashed, we sort of grew out of it. Then there's Ericka Huggins. The brothers had it look on Ericka with a new light because she had been thru a lot of things that some Brothers main't even been thru. The sisters looked up to her and we all naw what we had to do. The sisters have to pick up game just like brothers. are a lot of things the staters can do to change society.

We realize that we have a role to play and we're tired of stiting home and being misused and unless we stand up, male chauviniam will still show itself and be something that's just passed over, Unless we speak against if and teach the brokhers what's correct and point out what's wrong, then it'll still

There used to be a difference in the roles (of men and women) in the party because sisters were relegated to certain duties. This was due to the buck-wardness and lack of political perspective on the part of both sisters and brothers. Like sisters would just saturally do the office-type jobs, the clerical-type They were the ones that handled the mailing You know all those things that go into details. They were naturally given to the staters and be-cause of this, because the staters accepted it so willingly because they had been foing this before. this is the type of responsitishing they've had before, it was very many for male thauvisium to continue on the only examples we had of staters taking responsibility were probably in Kathleen or one or two people who exercised responsibility in other areas of Parts work.

we we recognized in the past 4 or 5 months that sisters have to take a more responsible role, They have to extend their responsibility and it shouldn't he just to detail work, to thirgs women cormally do This, I think, has been manifested in the fact that a iot of sisters have been writing more articles, they're attending more to the political aspects of the Party. they to speaking out in public more and we've even done outwach work in the community, extensive outtrach work in that we've taken the initiative to start purpose achools-, both brothers and sisters now work in the liberation schools, it's been proven that positions acen't relegated to nex, il depends on your political

I can remeber that when I came into the Party over a year ago at that time Liavid Hilliard was National Headquarters Captain, and there was another stater in the Party who was the Kational Captain for women and even though most of the people related to David Milliard as teing National NQ Captain, most of the women related to this other sister for directives be-cause she was the National Captain for women. Under were sergeants and lieutenants who were all sisters and in their ranks were other sisters. There was almost a separation between the brothers and the

### REORGANIZATION

When that was abottated, when there were no longer any separate positions for maters and brothers, when we all had to relate to the brothers or sisters who were in the aperific jositions, there wasn't just a reaction on the part of certain brothers cause they didn't like having to relate to certain sixters, who were in leadership positions. There was also a reaction on the part of some staters, who because they had to relate to some brothers, because they did not have runks above certain brothers, they wanted to quit the Party Se II wann't just a matter of brothers being

male chauvinistic in not wanting to relate to sisters as leaders over them -- but it was also the sisters, because of conditioning wanted to continue to submit to other sisters, rather than to leaders of the Party per se, regardless of sex.

And I can see aloce the time I joined the Party that the Party has undergone radical change in the direction of women leadership and emancipation of women. Even though Ericka thuggins provides us with a very good example, it's not so much Ericka and the realization that Ericks poses a strike example, it's the fact that the political consciousness and the pol-stical level of members of the Party have rises very much since I joined the Party and because of the fact that we're moving lowerd a proletarian revolu-tion and because we have come to realize that male chauvisism and all its manifestations are boargeous and that some of the things we're fighting against. We realize that in a proletarian revolution, the emancipation of women is primary. We realize that the success of the revolution depends upon the women. For this reason, we know that he's necessary that the women must be emancipated.

### IMPORTANCE OF WOMEN'S LIBERATION

MOVEMENT: Could you explain what you mean when you say that the success of the revolution depends without men, Movement organizations have always been dominated by men, the way civil rights organizations

used to be dominated by white people.

PANTHER WOMEN: I don't know, that sounds illogical
to me because you can't solve the problem spart from the problem. You can't be liberated from male chau-viniam if you don't even deal with it - if you run away from it, And I think forming any separate organization with that in mind is negating or contradicting what you're setting out to do. I think any type of inside organization that deals with women a liberation should take into consideration that women's liberation is important, but what is primary is the People's liberation, If they want a women's club, those have existed for centuries—they should form that, instead of calling

MOVEMENT: One of the arguments that's been made is that the movement has falled to attract a lot of women because of the charvints in within the movement and because of the intimidation that's found in a lot of political organizations. We fall to attract the other half because men dominate, Women have to get together to talk about their special problems in order to involve

more women in the struggle, PANTHER WOMEN: I think our judgment of caucuses, just like independent groups is going to have to depend on whether or not they foward the revolutionary movement to the end I mean if their purpose for caucusing among themselves is to make a more efficient organi-sation and if they, in fact, are able to do that thru their practice, then Right On. But if they fall into a trap of just getting by themselves and just complaining about the situation and are unable to put forth a positive program, then that form is not viable. Again, their practice is going to have to tell -- whether or not the; further the revolutionary organization PERIOD.

### ROLE FOR ADVANCED WOMEN

Also for a person to use the argument that the struggle does not ATTRACT women to the organization, I think, Is coming from a subjective point of view. Because if they understand that it's not a women's or a man's struggle, it's not an attraction for a man or a woman, but we're here for the liberation of opprespeople, irregardless of whether male chauvinism exists, the women would still come- into the Party or movement because they agree or are willing to support the revolutionary principles that exist, if they find male chauviniam, they should be willing to fight it on the basis of principle and unity, And to say, "they're not satis of principle and unity. And to say, "they re acattracted to it" -- there's no advertisement for getting
rid of oppression. It's an attraction based on principles,
not based on some subjective wishes or wants. So I
my that women who say that they don't want to come
into the struggle because they're not ATTRACTED to
the struggle aren't really interested in the first place;
MOVEMENT No. they may the movement donor." MOVEMENT No, they say the movement doesn

deal with their special oppression.
PANTHER WOMEN Well, that may be true, but still, if you're interested is the struggle of oppressed people, you can come into an organization and bring that question in yourself, instead of staying away from it. You can fight on the basis of unity within an organization, not on the basis of, "well, they renot dealing with the women's question and they're not dealing with the special oppression of women, so therefore I'm not going to participate". They're still being subjective.

Well, I think that's one place where women who are aiready advanced are going to have to take a strong stand. The fact in because of objective conditions in this society women are more backwards, because of their positions in their home, or in school, even working women who are more exposed to what's hap-penning in the world, are still relegated at home and to the family jobs to the children, etc, etc, and their perspective in terms of the world is more limited. So it's very important that women who are more advanced, who already understand revolutionary principles, goto them and explain it to them and struggle with them, we have to recognize that women are backwards pol-itically and we have to struggle with them. And that can be a special role that revolutionary women can

## ON THE EMBNOIF ATION OF WOMEN

PARTHER WOMEN, It's because of the fact that women are the other half, A revolution cannot be successful simply with the efforts of the men, be-cause a woman plays such an integral role in society even though she is relegated to smaller, seemingly insignificant positions,

I think conditions outside the Party have forced us to realize that we have to get rid of male charvin-ism. As Panthers, we cannot separate outsetves and divide ourselves and work as Pantherettes, and or the other hand have brothers work as Panthers and expect to present a United Front against Faciam or against the enem) or against outside forces. There has to be unity within the Party. We can't be divided on the busis of sex and we can't be divided on the

the twalk of sex and we can't be divided on the basis of principles or anything.

Ericka became a good example because the pigs realized she was a revolutionary. Maybe we didn't realize that, in the sense that we thought about it all the time or brought her up as an example of a sirong woman. But, I think the pigs realize that and this outside condition has borned as the order. this outside condition has forced us to realize that we can't operate as two halves, separate, apart from each other -- we have to be unified.

### VIETNAMESE WOMEN LEAD

MOVEMENT: You once said that the Vietnamess women were your example, Could you explain more concretely what that means is terms of the struggle of women in the United States?

PANTHEH WOMEN: We feel that the example given PANTHELL WOMEN. We feel that the example given us by the Vietnamene women is a prime example of the role women can play in the revolution. The Vietnamene women are out there fighting with their brothers, fighting against American imperializm, with its advanced technology. They can shoot, They're out there with their batters on their tacks, as the out there with their labbes on their tacks, as the case may be, and they're participating to the revolution wholehauthelly just as the Vietnamene men are participating in the revolution, in the national liberation struggle. The access of their national liberation struggle is just as much dependent upon the women continuing struggle as it is dependent upon the vietnamene men. So there we see in Vietnam where the struggle today is the sharpest in terms of struggleng against to temperation, the suppost in of struggling against U5 imperialism, the women is fact, play the role of the other half, not the weaker half, not the strunger half, but the other half of the

Vietnamese men. We hold then up as our example and we hope that the revolutional? women in the u.S. can follow that example and live up to the goal that

they have set.

African National Congress Sechata - Vol. 3 No. 8 Aug. 60

for a woman to behave as a resolutionary and not as a subordinate or as a subodanive half.

## SPECIAL ROLE OF BLACK WOMEN

MOVEMENT: Black women are considered to be the most oppressed group in the US, as blacks and as women. That special oppression gives them a special, even vanguard, role. Do you want to talk about that a little?

PANTREE WOMEN: I think, historically, even at this time, even for women in the Party, today we want full share and full responsibility is kind of difficult and kind of touchy because of our society. Our men have been sort of castrated, you know. The responsibilities that they rightfully should have had before, were taken away from them--to take near their manhood. We've had to fight all this before. Our men are constantly

thinking or saying that maybe if we assume a heavier role, a more responsible role, that this, in turn, will sort of take away their responsibility and if a such a touchy thing, that we have to be very sure that the

a totally thing, that we have to be very sure that release are evenly divided.

It shouldn't have to be one certain role for a man and one certain role for a woman--we're all germa participate in the struggle and whatever we can do be a structure of the shouldness of the participate of the struggle and whatever we can do be a structure of the shouldness of the shouldnes heat, we do it, whether it's at a higher level or not This is very touchy and presents some problems in combatting a specific thing like male charvinism, because some brothers still have this fear of women dominating the whole political scene. If may not be voiced that often, but I think it's a very real fear. wolced that once, but I think it's a very real stand we're going to have to be sensitive enough to recognize it. We're going to have to be sensitive enough to say that we're going to take more of a share of the political arem but, at the same time,

we're going to have to keep these things in mied,

I think it's important that within the context of that struggle that black men understand that their manhood is not dependent on keeping their black women autordinate to them because this is what bourgeois ideology has been trying to put into the brack man and that's part of the special oppression of black women. Black women as generally a part of the poor people of the US, the working class, are oppressed, as being black, they're superoppressed, and as being women they are sexually oppressed by men in general and by black men also.

So, in this contest we see that black women are especially oppressed in this country and it's very important that black women understand and black men understand that black man's manhood in not dependent upon the subordination of black women, but rather his mashood is, in fact, dependent on his own strength and the strength he also gets from a revolutionary relationship. A relationship is more fruitful when, in fact, the woman is the other half and not the weaker half. They (the men) get more out of the relationship, just as the women.

### UNITY IN STRUGGLE

MOVEMENT: What are your ideas on the strategy for women's liberation in terms of separate women's organizations, the priority of women's liberation in relation to other issues like imperialism and racism? PANTHER WOMEN: I think it's important that the separate women's liberation groups not all be lumped into one category. Their effectiveness and their value is dependent upon to what extent their work is furthering revolutionary goals in this country. I think that there are all different kinds of organizations in existence now. There are some people who talk about the contradiction among men and women as one of the major contradictions in capitalist accepts and therefore they take that contradiction (and even and therefore they take that contradiction (and even
if they don't talk about it, some of them put it into
gractice) and develop it into an antagonistic contradiction, when actually it is a contradiction among the
people. It's not a confradiction between equities.

An example of this is at the UFAF Conference where
secassics areas from time to time where would want to have a caucas and a man would come around and

they would get very uptight that a man was there and were practically ready to jump on him, just because he happened to be listening around, I think that's an example of how the women's struggle is taken out of perspective-it is separated from class struggle in country, it's separated from national liberation struggles and it's given it a own category of women against men. Sometimes people say, "It's within a rev-olutionary contest", but in practice, if all their risecuric and all their practice is anti-men, it is not a revolutionary program and, as a matter of fact, it hinders the revolutionary forces

The contradiction between men and women is a contradiction that has to be worked out within the revolu-tionary forces. It is not at all comparable to the class contradictions, it's the class struggle that takes priority. To the extest that women's organizations don't address themselves to the class struggle or to national liberation struggles they are not really furthering the women's liberation movement, because in order for women to be truly emancipated in this country there's going to have to be a socialist revolution. And there's going to have to be ideological struggle for decades and probably for centuries before male chun-vinism is overcome. If women don't understand this, they're not going to truly be able to overcome their

toberta is correct and even those anizations who do address themselves to the struggles that are at hand, the strategy of having autonomous women's liberation organizations is incorrect because, as Hoberta says, it seems as if those organizations look upon women a liberation as a priority when in actuality the struggle towards socialist revolution is s priority. Women can only become smanripated, not through their own efforts as a particular group, but through their participation on an equal plane in the existing organizations which are comprised of min-and women who are struggling for the same cause. It's not a separate struggle and women's liberation does not take priority, but in fact is part and purcel of the overall attention. of the overall struggle.

### FEMALE CHAUVINISM

Any organization that's being formed for women's liberation, like licaemary said, has got to take into consideration that they can't operate separalely and by themselves. They must also understand the def-inition of chauvinism. Chauvinism isn't just releinition of charviniam. Charviniam lant just rec-gated to the male. Charviniam is an undying or un-reasoning or irrational love for one's sex and if a women's liberation organization gets upright because a man comes around, that's unreasoning and irrational. It's not being realistic and looking at things as a whole in terms of a man too functioning as a revolutionary and a woman functioning as a revolutionary. If they're not careful, they will go to an extreme and they will become female charvinists. They will have an undying love for their sex and totally negate revolutionary

Unfortunately, if we don't be careful, I think that the women's liberation struggle can be co-opted by opportunists. It can become just like a style of a

WOMEN'S LIBERATION IN PRACTICE. I think it's important to recognize the dangers that separate women's groups face immediately, past because they're women's groups and there's a good

fad and the whole revolutionary struggle will be set

back because of this. This is one reason why the revolutionary practitioners, because of the repression

we're suffering, can't take time out to go off by our-selves to notwe some of our backwardness. This would

be just another dividing tactic as far as I can an

chance that they're going to get off hase in terms of what the primary struggle is. However, I think we have to be very careful in terms of condumning forms that are used in the movement. I think that there is room for special organizing of women. There are positive things that these kinds of groups can do: for example, cameries, special plants where there's primarily women, electronics and this port of thing in terms of working class organizing, in terms of organizing cooperative nurseries in liberate the

But, they are always facing certain dangers in terms of turning in on themsolves, in terms of becoming a very jetil bourgeois little clique where they just talk about how they have to take care of the hids all the time or become a gripe session. So, I think, while we as Pasthers, while we integrate the struggle of the trothers and sixers within the Party, we still will see how these separate women's liberation groups do thru their practice. And that's where our judgment of them will

We have a phrase that says that the only culture worth keeping is a revolutionary culture. Now, our culture dictates that we become revolutionaries, ir-regardless of what the brothers say, like Rosemary says, we should function in a position that furthers revolution and revolutionary culture. The women's liberation groups that are separating away from the men (f think licherta said there is some room for them, and we can't vacillate on whether there is or not, we have to judge them on their practice) should take into consideration that we're here to liberate
the people and like we said, it's a socialist liberation
struggle and we can't operate as halves.
If women's liberation is going to exist, it should

exist with the goal in mind to channel the energies they liberale into a united liberation of the men and women together - not as a bourgools rall, because this has happened many times. They've become extremist organizations of female superiority and have totally forgotten, about the people's struggles and oppressed people and have, themselves become oppressors.

### PANTHER PROGRAMS

MOVEMENT. Do the Funthers have any specific programs directed at women in the community in get them involved in the struggle.

PANTHER WOMEN: The Black Panther Party not have any program that is specifically addressed to women, per se. There is, on the National Committees to Combal Fariam, a committee on the national securing committee of women. But the primary function of this committee is to channel those women who are recovered of security. who are proposents of women's liberation into areas of work integrated into the literation merement.

Even though the Punther Party doesn't have a women's program per se, (I don't knew whether we will in the fature or not) I think we realize that the best effort in thre practice and that our liberation is gonns come thru the realization on the part of the brothers that they can't practice male charvisism, but even more important, it comes from a conscious but even more than the sintern to educate themselves effort on the part of the sintern to educate themselves and not to accept mental positions or relegate them-selves to submissive positions. The brothers can be selves to submissive positions. non-characteristic as much as they want, but unless the sisters resilize that they have to accept an equal position or act as a revolutionary, then this isn't going to do any good So I think the best criterium for that is practice.

in addition to that -- simply because of the fact that we are members of the Black Panther Party and are we are members of the Black Panther Party and are therefore in the vanguard, does not necessarily mean that we can deem curselves chargings of women's liberation. We believe that male chargings must be stomped out, because we have come to realize that it is bourgeous. Ecurports ideas are those which are perpetuated upon on by the bourgeous class and is something we're fighting against. Ind because we've come to realize all these things just recently, we're very new at it. So that whether or not we will become chargeous of women's liberation, whether or not we'll be able to provide the example to lead other organihe able to provide the example to lead other organi-nations towards women's liberation will come thre our

### WOMEN'S CAUCUSES

MOVEMENT: What do you think about all women's MOVEMENT, what do you think about all witness's caucuses inside the organization? Some people say that within movement organizations there's make charvinian and women must deal with it from a possition of power, so they should organize their own caucuses. They also say there's a parallel between women's liberation and black liberation and just the black people had in got themselves together without whites first, so women have toget themselves together

Yet, that is precisely what the leaders of Israel, aided and acetted by the West, are continuing to do. They refuse to withdraw to the borders they occupied before the aggression of June 1967, as demanded by the Security Council. They refuse to allow the return of the Arab refugees whom they expelled from Israel and from the occupied territories. They continuously conduct fresh aggressions against their neighbouring states.

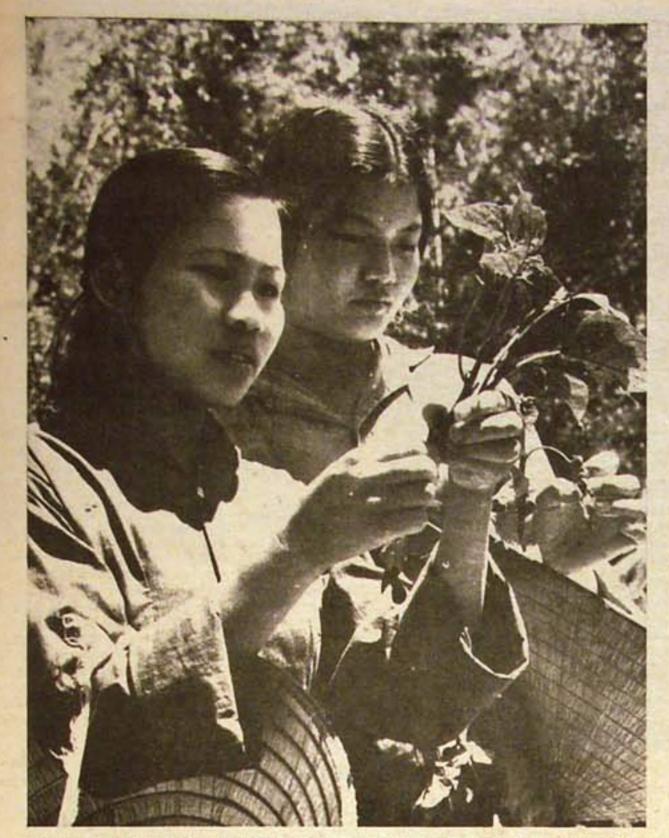

Their pretext for so doing is that these states are allowing their territory to be used as bases for the operations of the guerrillas of the Palestinian Arab liberation

On July 4, 1969, in the A So valley, southwest of Hue, 50 GIs and 10 puppet troops were killed or wounded in a clash between U.S. and puppet soldiers. In fact, U.S. planes had strafed and bombed by mistake a company of puppet Regiment 3 raiding near A Luoi; soldiers of a unit of puppet Regiment 5 coming to the rescue of Regiment 3, incensed by the rash attack of the Yankees, opened fire on a unit of U.S. motorised Division 5 moving behind them.

(Excerpts from Vietnam Courier, July 21, 1969 No. 226)

A group of journalists in Saigon took the decision to stage on July 13 last a hunger strike at the Press Centre as a protest against the brutalities and vexations inflicted by the U.S. -- puppet police and authorities on newsmen in the fulfilment of their duty, Western agencies reported.

This protest campaign began after the "rough tactics" resorted to by the police in a ceremony organized at Tan Son Nhat on the occasion of the "repatriation" of the first contingent of GIs under the plan for the deceptive withdrawal of 25,000 men of the U S. expeditionary force decided by Nixon to hoodwink public opinion. Accoring to an AFP correspondent, on that day, cameramen-reporters were expelled by force of arms from the stand while others were punched in the face.

Before this wrath of the newsmen, the U.S. -- puppets had to give in by promising to punish the bullfes.

However, these promises seem clearly inadequate to placate public opinion. The Thieu-Ky-Huong fascist clique, propped up by Washington, continues to encroach upon the freedom of the press and as it is known, within a year, over 30 newspapers have been closed down and many pressmen prosecuted, jailed or even killed by

# LYNCHING

By Ho Chi Minh La Correspondence International, No. 59, 1924.

It is well known that the black race is the most oppressed and most exploited of the human family, It is well known that the spread of capitalism and the discovery of the New World had as an immediate result the rebirth of slavery which was, for centuries, a scourge for the Negroes and a bitter disgrace for mankind. What everyone does not perhaps know, is that after sixty-five years of socalled emancipation, American Negroes still endure atrocious moral and material sufferings, of which the most cruel and horrible is the custom of lynching.

The word "lynching" comes from Lynch, Lynch was the name of a planter in Virginia, a landlord and judge. Availing the control of the whole district into his lord and judge. Availing himself his teeth, one by one. Then they of the troubles of the War of Independence, he took the control of the whole district into his hands. He inflicted the most savage punishment, without trial or process of law, on Loyalists and Tories. Thanks to the slavetraders, the Ku Klux Klan, and other secret societies, the illegal and barbarous practice of lynching is spreading and continuing widely in the States of the American Union, It has become more inthe Blacks, and is especially directed at the latter.

The horde are the lynchers. The human rag is the Black victim.

In a wave of hatred and bestiality, the lynchers drag the Black to a wood or a public place. They tie him to a tree, pour kerosene over him, cover him with inflammable materials. While waiting for the fire to be kindled, they smash gauge out his eyes. Little tufts of crinkly hair are torn from his head, carrying away with them bits of skin, baring a bloody skull. Little pieces of flesh come off his body, already contused from the blows.

The Black can no longer shout: his tongue has been swollen by a red hot iron. His whole body ripples, trembling, like a half-crushed snake. A slash with a knife; one of his ears falls to the grund ... And the ladies tear at his face ...

On behalf of the Black Panther Party, we would like to express our deepest concern, for a valiant and courageous leader, of not only the World's Vanguard exemplified in the Vietnamese people: but a people who gave to the Black Panther Party the "will to resist" by setting the examples first against French Colonialist, that a people with the will to resist will always have insurmountable victories. The death of Ho Chi Minh must signal the peoples of the revolutionary camps to step up their wars of resistance against the oppressor of the world, "U.S. Imperialism". This will serve as the only valid concern for a man who spent all of his life fighting the yoke of colonialism, So let our tribute to Ho Chi Minh manifest itself in the creation of -onetwo-three- many Vietnams.

## COURAGEOUS VIETNAMESE THE PEOPLE COMMEMORATING THE DEATH

To die for the fascist imperialistic war mongers of the U.S. and others in the world; to die for the oppressive ruling circles of the bourgeoisie exploiters; to die for the capitalistic, aggressive, inhumane, atrocious, genocidal re-gimes is a death lighter than a feather which a destructive windstorm can blow about at random

But to die for the people; to die for the correct socialistic development of mankind; to die in the midst of socialistic revolutionary change for human survival; to die for your nation and peoples' right to self determination in their land, home and community; to die for the freedom of all from oppression that the Black Panther Party has witnessed in the proletarian internationalism practiced by the Vietnamese peoples' revolutionary representatives that we have met; to die after all the great heroic and dedicated years of sacrifice to bring to the world and his people an end to the murderous, stormy winds of capitalism's fascist, aggressive imperialism; to die because he loved the people of his nation and humans of the world (and Brother Ho Chi Minh had practiced this all the days of his life); to die for all of this is a death heavier than the highest mountain in the world of which no, not any destructive fascist imperialistic storm can blow away at will.

Who can find the feather or feathers that were blown away by the destructive windstorm? I can't find any. Who can see the mountains since the windstorm is gone? I can see many; they still stand. There! That mountain will always stand, and Ho Chi Minh isthat mountain -a death heavier than Mount Tai.

The Black Panther Party of Afro-America, vanguard organization of the coming American Liberation Front.

Uncle Ho was a liberator whose deeds will forever be remembered by the oppressed and exploited of all lands. He was our friend, a friend of the working people in our country, of the Blacks and Chicanos and Native Americans, of all who feel the whip of U.S. imperialism.

Ho Chi Minh devoted his long life to the struggle for Vietnamese national independence. Under his wise leadership, the Vietnamese drove out Japanese and French imperialism. And today they are defeating the mightiest and deadliest enemy the world has ever known, Yankee imperialism The Vietnamese are proving again that the people can win.

The Peace & Freedom Party was born of our own struggle against U.S. imperialism. Uncle Ho was our uncle, too. We cherish his memory.

# HUEYS APPEAL

EDITOR'S NOTE:

The following article is taken from the appeal prepared by the attorneys defending Huey P Newton, Minister of Defense of the Black Panther Party. Huey's, attorneys have moved to have the case reviewed by the Court of Appeals of the State of California. The Black Panther News Paper will print the appeal in part-every week to give the people all the facts as to why Huey P. Newton should be set free immediately,

Prejudice operates to incline the jury to believe ill of the defendant and to disbelieve his testimony and those of black witnesses for the defense, especially when their testimony conflicts with that of white prosecution witnesses. (28) The United States Supreme Court, federal and state cases prohibiting exclusion of a racially or significantly identifiable group from jury panels do not rest upon an explicit finding that white persons are racist or prejudiced against Negroes, Now, following the official findings of the Kerner Report by the President's official National Advisory Commission, even more stringent controls of the discriminatory result are required. If 7 our of 10 white persons or any percentage even approaching that figure were racially biased against the defendant, a fair trial could not be had as the result of any selection process which systematically, through a series of steps, from use of voters' roll through peremptory challenge, substantially underrepresented black people on the actual

The prosecution herein made no attempt to refute or dispute the findings of the Kerner Report, or of the sociologists who testified herein or submitted the brief amicus curiae, or, indeed, to deny that group prejudice exists to some degree in the great majority of white citizens against black people. Since jury discrimination tends to exclude Negroes and other disfavored groups, the result is to increase the amount of prejudice against such groups on juries so that the prejudice is even more concentrated on juries than in the general population, Exclusion of jurors opposed to capital punishment further concentrates on the jury persons who are racially prejudiced (R.T. 183-85).

Some names were also obtained, in Greenberg, from city directories and real estate listings. The defendant there urged that the 30% of the population not registered to vote constituted, a fortiori, a cognizable class called "the to effectuate the policy of the Act not to exclude persons politically dormant," The court held that in making a challenge to the "required and accepted standards" for jury selection, a party must introduce or offer "distinct evidence" in support of his challenge (Id., at 387). This defendant Newton did. Greenberg was likewise pre-Kerner Report and prior to the Federal Jury Selection Act which changed the "required and accepted standards."

In none of these cases was there a showing of exclusion of a cognizable class by use of the voter registration lists. The uncontroverted testimony in this case established that Negroes of defendant's ghetto area were under-represented convenes. It is further the policy of the United States by as much as 29,5%, and Negroes were under-represented that all citizens shall have the opportunity to be county-wide by as much as 17.3%. As in United States v. Harpole, supra, defendant Newton obligation to serve as jurors when summoned for that did show a wide discrepancy between Negroes eligible to vote and Negroes registered to vote, which was held to raise a presumption against the state in Harpole.

The basic contradiction lies in an attitude, purely selfish, liberal attitude held by a few individuals who are running the "Play-House-School" program. Upon hearing of the end of our summer program, the Liberation School, a rumor was started that talistic Society. the Liberation School and the Breakfast Program were one and the same, and the program ended with the closing of the Liberation . misunderstanding between Panthers and the Board of Trustees of the Good Shepherd Church, One of these "super-liberals", Teddy Knight, a former worker for the government, even went so far as to take cold sandwiches, cocoa, and donuts to a bus-stop a few blocks away under the disguise of continuing the "Breakfast Program". ## BLACK MARINES APPEAL HARSH SENTENCES FOR SPEAKING OUT AGAINST WAR

Two black marines from Brooklyn, Lance Corporal William Parvey, Jr. and Pfc. George Da iels, were sentenced to six and lo years hard labor respectively for making statements against the war in Vietnam to fellow Marines. Their courtmartial which attracted protest being sent to Vietnam, almost no publicity at the time,

took place at Camp Pendleton, California on July 7, 1967. Harvey and Daniels were 18 and 19 years old at the time and have already served a year and a half of their sentence. Their appeal which was argued before the Military Board of Review at Washington, DC., on March 6, 1969, has brought the case to public attention.

Three months later on November 27, 1967 mal bull sessions which took place they were both convicted at a after noon and evening chow on court martial where they were July 27, 1967, at Camp Pendleton, represented by Marine lawyers, The soldiers discussed the fact Daniels was found guilty of viothat the war in Vietnam was a lating a provision of the Smith white man's war and that black Act of 1940 which makes it a people should not have to fight crime for any person to attempt in it and that they would have to "to cause insubordination, dis-

loyalty, mutiny or refusal of duty" by a serviceman. Harvey was acquitted of this charge but was convicted of violating the general article of the Uniform Code of Military Justice which punishes "all disorder and neglects to the prejudice of good order and discipline." Specifically, he was found quilty of "making disloyal statements with intent to promote disloyalty among the troops."

Their lawyer, Ed Sherman, pointed out that this was the first case where servicemen were court-martialed for statements against the war when no action or refusal of orders resulted from the statements. He said, "There was no mutiny, nobody disobeyed orders -- there was no disobedience at any time, yet both of these men were given the maximum possible under the law."

The Naval Board of Review reduced Daniels' sentence from ten to four years in a dicision handed down on March 6, 1969, Harvey's Alliance for Peace, Cambridge, decision is now pending.

The laws which these marines

were charged with violating are clearly not constitutional and a violation of their first amendment right to talk to other servicemen and convince them of their point of view. Sherman is also introducing the argument that the element of racism entered into the unduly harsh sentences that were given. Capt. Lester G. Fant III, who argued for the Marine Corps, said Daniels and Harvey had created "an extra - ordinarily dangerous situation" by urging the black marines to "stick together" in their refusal to go to Vietnam, Captain Fant compared this to a "wildcat strike" in civilian life. It is obvious that the brass, like the politicians and the union bureaucrats get particularly up tight when black people get themselves together, especially over such an explosive issue as Vietnam,

### LIBERATION News Service OAKLAND, Calif (LNS) -- A hard rain is falling on the rickety world of Lewis B. Hershey. There is mushrooming discontent with the process whereby the Army kidnaps innocent young men, kicks them in the balls, cuts off their hair, and sends them to fight elephant grass and the local populace in distant Southeast Asian jungles -- that's right, the draft. The hatred of the draft has generated a rash of challenges in the courts which threaten to cripple, if not destroy, the Selective Service System of America, Inc.

They've got a permanent FBI man stationed here at the Oakland Army Induction Center, who does nothing but deal with the average of ten refusals per day. Maybe he also gets some ghoulish thrill from watching the half-clothed unwilling induction meat inspection, but his job is to take care of those who refuse to step forward to take their vows, He pops up, raps down their rights in a routine mumble, fills out a few of his forms, and starts the ball of repression roll-

Admittedly, Oakland is a heavier scene than most. In October 1967, West Coast activists mounted a militant Stop-the-Draft-Week attack on the Oakland Induction Center, marking the introduction of the new mobile, hit-and-run approach to mass demonstrations. And the Panthers have seen fit to set up their National Headquarters in Oakland, But Oakland's draft resistance in getting to be as American as apple pie.

Dig these statistics from Uncle

Sam:

From July to December of 1967 there were 746 Federal indictments handed down all across the nation on charges of resisting the draft: failing to register, failing to take the oath, and the like.

In the next six-month period -from January to June, 1969 -- the number had gone up to 1080 indictments. And in the last half of 1968, the number of indictments nationwide had jumped to 1492. Thus, in all of 1968, one percent of the quarter of a million men drafted by the Army, got their cases all the way into the belly of that sluggish monster known as the Federal Court System, When 2472 tiny time-capsules go off in the blood stream of the sorry behemoth, the poor thing knows it's a down.

On July 1, 1969, some 2958 criminal cases were pending in all Federal courts involving various violations of the draft laws -mostly men refusing induction. That's 15 percent of all criminal cases on the Federal dockets.

In Washington, Justice Department statisticians are gloomy. The backlog in the courts runs at least one year on draft cases even though by law they have the top priority of all criminal matters. In the attempt to reduce the backlog, the reluctant inductees are often offered a chance to repent just before the trial begins, But cases continue to pile up faster than the courts can handle them.

More than 5000"delinquencies" are under investigation, and thousands more await discovery. If the trend continues, and the investigations produce more and more indictments each month, even the current stopgap measure of special judges in overworked districts to hear nothing but pretrial arguments in draft cases may not be enough.

madder,

First I would like to say that I am an Afro-American, I want to let you, the reader, know, blacks in the army have more reason to leave than whites. Like most of you, I joined the army. I joined because I had come to a point in my life where I was faced with a problem of what I wanted to be. In high school I spent most of my time in sports and really did not feel ready for college or anything like that,

So I made the decision of going to the army. As soon as I entered basic training I could sense the racism inside of this army. But at this time I said to myself that is was harassment, which is just a word to take the place of racism. After basic and something called on the job training, I was sent to my duty station in the States, I stayed there a year before I had to re-enlist in order to get out of going to Vietnam.

At this point I just didn't want to die, Because of this I began to think about what was really going on over there. Being in the service, I never found the information I wanted, and became confused. In Europe I decided to drop out, for more and more my eyes were being opened, Stationed in Germany I began to look at what I was really in, I watched people being put in jail and all kinds of restrictions being placed on

them for little or no reason at all. Then I decided to fight these Army Pigs back, I tried first by quitting the job they gave me. Then every chance I got to disagree with some of their policies I did. They told me no underground papers like The Black Panther, so I read them. I wore my hair the way I wanted. They tried to stop me from wearthey told me to cut it, I simply tamed it, which made them even

But there was a Revolution that I knew little or nothing about. A Black Revolution, Here I was stuck in the enemy's army. That's right in the enemy's army, if you don't think they are your enemy, look what's going on today. Those pigs are killing blacks like hell. In the army they put you in jail or kill you, or even kill you in jail, But mostly they send you to Vietnam, dead up on the front lines to die for the Pig or the black that's killing our brothers. To die for the time is now to prepare ourselves, tant effort to get into the build-They are ready to try and force ing trades unions.
