Paris, Oct. 27.—Scientific circles are aroused over a new apparatus for the direct application of solar heat to motive power, which has just been completed and offered to the Academy of Science for test by M. Mouchot, the octogenarian scientist whose picturesque career reads like a romance.

The new apparatus was completed by M. Mouchot while confined in a sanitarium, where he had been imprisoned by order of his wife, who thought the aged member of the Academy crazy, because of his work on machines for the utilization of solar heat.

Now Hiding from Wife

The friends of the aged scientist succeeded in discovering his whereabouts and had him released from the sanitarium. He is now in concealment in Paris, hiding from his wife and her relatives, while the members of the Academy of Science are testing his new machine.

M. MOUCHOT

laureate of the Academy, and for two years a fierce controversy was waged by the scientists of Europe about his theories, one school claiming that he had abolished the necessity for the use of coal, and the other school claiming that his basic principles were defective.

Finally, after a search of five years, in 1886, the scientist was found in a sanitarium near Tours, where he had been confined by his wife, who was twenty years his junior.

ELECTION RETURNS

The New York call and the Chicago Daily Socialist will cooperate in the gathering of the election returns. The Daily Socialist will gather the returns from the states in the Mississippi Valley and westward, while the remainder of the country will be covered by the Call.

These returns will then be exchanged by telegraph so that both papers will publish the full returns on the day after election.

The completeness of the returns depends upon the co-operation of the thousands of readers of both papers.

The "30,000 reporters" of the Daily Socialist are therefore urged to assist by sending in the returns as quickly as they can be secured on Tuesday night or Wednesday morning.

Remember that if you live east of the Mississippi Valley that you should send your message to the Call, and if west of there to the Daily Socialist.

Released Only to Be Rearrested on Application of Council for Czar

New York, Oct. 27.—One minute of freedom was enjoyed yesterday by Jan Janoff Pouren, the Russian refugee who has been in jail here waiting for many weeks the outcome of proceedings brought by the Russian government to have him extradited on charges of arson, attempted murder and burglary.

While Pouren was thanking a marshal for freeing him on the receipt of a letter from Assistant Secretary of State Ade, announcing that the state department had declined to issue a warrant for the surrender of Pouren to Russia, he was again arrested.

The new warrant was issued by Judge Holt in the United States court upon application of counsel for the Russian government.

FOUND STARVING IN SQUALID HUT

Jobless Man Built Wretched Shelter in Woods for His Wife and Babies

Clothed in torn rags, huddled together on damp, fetid straw in a little broken down shack on the banks of the old Illinois-Michigan canal, a family of four was found last night. The oldest child, a girl three years of age, sat on the wet straw and watched the baby who tried to get nourishment from the mother's breasts which had long since ceased to yield sustenance.

Just how long it had been there no body knows—possibly several weeks. Because of its location in a sunken bit of ground it is not visible from the tracks and it is far from any traveled road or path.

HAINS BROTHERS PLEAD NOT GUILTY; INSANITY A DEFENSE

New York, Oct. 27.—Capt. Peter C. Hains and his brother, Thornton Jenkins Hains, were arraigned at Flushing L. I., yesterday on a charge of having murdered William E. Annis. T. Jenkins Hains entered a plea of not guilty, while Capt. Hains made the same plea on the ground that he was insane at the time the act was committed.

Lawyer McIntyre for the Hainses had with him a copy of a letter alleged to have been written by Mrs. Peter C. Hains to William E. Annis on June 1 last, which McIntyre declared had much to do with driving Capt. Hains crazy and causing him to shoot Annis.

The letter is said to have been written the day after Mrs. Hains signed a confession which she declares was forced upon her. Only part of the letter was made public, which was as follows:

Dear Billy: Don't come over Monday morning. Everything is over between Peter and me. He has found out everything. I am going to Boston. Will send you my address. I want to see you. I am almost crazy. Good-bye. CLAUDIA.

IS FONDLED BY TAMMANY TIGER

Bryan is Given a Loving Welcome by Murphy's Righteous Party

New York, Oct. 27.—Nothing was left undone by the chiefs of Tammany to give William Jennings Bryan a welcome which should prove that the nation's most unsavory political organization is proud to hail the "peerless one" as its protégé. Under the Tammany auspices Bryan was cheered by a Tammany cheering section for fourteen minutes at Madison Square Garden last night.

The Tiger Purrs Softly

United in a mad scramble for federal offices the leaders of the gathering hoard of the south, which exists in the Democratic hosts. Bryan informed the plain people that after March 4 he will be at home in the White House, Washington, D. C., and will be pleased if the common people will come and call. Seldom has a more harmonious love feast been held. The Tammany tiger purred softly while Bryan patted its head and called it pretty pussy. No one would ever have suspected that "Tammany" and Bryan are accustomed to take radically different positions before inquisitive grand juries.

STRAW VOTE IS A GROSS FAKE

Record-Herald Is Proved to Have Suppressed Names in Election Count

That the straw votes taken by capitalist papers are unreliable as to accuracy has been proved in many ways. It is to the interest of even the so-called non-partisan papers to belittle the Socialist vote wherever possible, and that they do this without hesitation is evident from the result of the vote taken in the First National Bank building recently, where the Record-Herald declared that not a Socialist vote was to be found.

Complaints from Tenants

No sooner had the vote been published and read than letters sent by men in the building who claimed they had cast their votes for Debs reached the Daily Socialist. Philip Brown, a lawyer in the building, claims that he cast his vote for Debs, and says he knows of at least two other men who, he is sure, did the same. Yet the Record-Herald published a blank after Debs' name.

Letter from Minneapolis

The letter is as follows: "The other day the Record-Herald of your city published a straw vote supposed to have been taken in our building, and gave Eugene V. Debs a blank. To prove the unreliability of such straw votes, I can name six full-fledged Socialists on my floor alone who are going to vote the entire Socialist ticket."

CUPID HIT HARD BLOW BY PANIC

Chicago Marriage Licenses Show Big Slump; Capitalism Breaking Homes

The industrial depression has not only broken homes and sent thousands of men tramping the country looking for jobs while their families are dependent on charity, but it has prevented homes from being made. The records kept in the office of the county clerk show that from January through September of this year there were just 2,484 less marriage licenses procured than there were in the same period of 1907. Even the increase in the city's population barely carried the same period of this year beyond the mark set for the corresponding months of 1908.

What the Records Show

Take, for instance, the figures for June, a month admitted by society editors and sociologists to be the month in which most marriage licenses are secured. The records show that in June of 1906 there were 2,163 licenses taken out. In June of 1907 there were 2,368. In June of 1908 there were 3,958. That means that June of 1908 fell 240 behind June of the years before and fell thirty-five behind June of 1906.

June is just far enough from the coal hills of the year before and far enough ahead of the coal hills of the year to follow to be a romantic month.

The other months also have their story to tell. The actual cold figures indicate that in January of 1906, 1,954 licenses were procured; 2,211 in 1907, and 1,858 in 1908. The panic last month hit the home-making industry by just sixty-one homes as against 1,908, and by 218 homes as against 1907.

February proved a strange exception. In that month the records for the same three years show that February 1908 had 1,175, the same month of 1907 only 1,248 and 1906 only 1,524. For that month of this year of grace for panic ran just 228 ahead of the same month of 1907 and 253 ahead of the same month of 1906.

Big Slump in April

March showed the industrial depression again. The records give March of 1908, 1,175; March, 1907, 1,248; March 1906, 1,524. Last March was thus just six ahead of March of two years ago, and was behind March of 1907 by just seventy. April took a bit slump. For 1908 that month had 1,645; for 1907, 2,541; for 1906, 1,736. It lost 626 as against last year, and was behind 1906 by eighty-one.

The following table shows the figures month by month:

Table with 4 columns: Month, 1906, 1907, 1908. Rows: January, February, March, April, May, June, July, August, September, Total.

NEW MAIL ORDER HURTS ROADS

A million dollars a year in revenue will be lost to the railroads that are engaged in the transportation of United States mail, as the result of a new order governing the method of calculating the compensation to be paid the roads, which has just been issued by the postoffice department.

It was announced yesterday that Joseph Stewart, second assistant postmaster general, has issued a notification to the New York Central and the Lake Shore roads, that the rates for carrying the mails between Chicago and New York will be hereafter based upon the short line mileage between the two cities. As the Lake Shore-New York Central route is some thirty or forty miles longer than that of the Pennsylvania's fastest trains, which run 305 miles, the compensation paid in the New York Central lines will be reduced \$55,000 a year, or the contract for handling the mail will be turned over to the Pennsylvania.

The latter now handles much of the mail from the north, while the Lake Shore gets that from Chicago and the north.

The reduction applies over the four-year period for which the contract was made, and is retroactive from the date of the contract, July 1, 1907, so the loss to the roads will amount to \$229,000.

HOLD SLAVES IN SOUTH AMERICA

Horrible Atrocities Practiced on Indian Villages by the Rubber Barons

(SPECIAL TO THE DAILY SOCIALIST.)
 Berlin, Oct. 27.—Hans Mattie, the globe-trotter and explorer who caused a sensation by his South American revelations two years ago, has just issued his supplementary book from the press of Dietrich Reimer. The book has caused a sensation.
 Mattie, who has just completed an expedition to the unexplored district of the upper Amazon, reveals frightful conditions in the rubber districts, where open slavery is practiced by the "rubber barons," where villages are raided, women killed, and where all the rubber for European shipment is produced at the point of the rifle, held against the breast of a captured Amazon Indian.

Are Worked Under Guns

"Labor" is supplied in the rubber districts of the Aquiri district of Bolivia and Brazil by the simple expedient of finding where the Amazon Indians have a village, raiding this village, killing off the women the children under sixteen years and the men over forty and taking the remainder of the inhabitants into slave barracks, where they are

confined, sent to the rubber plantations, worked under the guns of their masters, beaten, and tortured if they fail to produce enough rubber to satisfy the greed of their masters, to find in the end a slave's grave under the rubber trees.

One incident recited in Mattie's book shows that King Leopold has yet a lesson to learn in the matter of brutalizing slaves. Near the village of Antimony, a few miles from Puerto Aere, on the Aquiri river, Mattie and a young Englishman witnessed one of the slave raids of the rubber barons. The rubber men had been posted around the village at night. A few hundred Amazon Indians, comprising the population of the village, were needed to increase the rubber supply. Hence the ambush.

Indian Village Rashed
 At dawn the Indian village was rashed by the rubber men, armed with Winchester. The natives could make but feeble resistance with their simple bows and arrows. In a very short time the inhabitants had all been corralled. Then came the butchery.

The old men were dragged forth and knocked in the head with clubs. The women followed. One woman, a handsome young Indian girl, escaped for a moment from her captors and rushed up to the young Englishman, throwing her arms around his neck and begging him with voice and eyes to save her from her torturers.

Cut Girl's Throat
 The Englishman responded to the appeal and endeavored to protect the girl, but he and Mattie were both speedily disarmed by the negroes of the rubber barons and the girl's throat was cut.

His blood flowed over his colobus. The raging Englishman was with difficulty restrained from killing his host, the rubber baron, who organized the raid, and left the Aquiri region with Mattie that same night.

According to Mattie the rubber barons conduct regular harems, selecting such girls of the Indians as are remarkable for beauty and sparing them when the raids take place.

Book Is the Second
 The sensational book is the second of a series dealing with labor conditions throughout the world.

SOLDIERS DROP FROM HUNGER

Many French Troopers Become Unconscious After Hard Day's Drill

(SPECIAL TO THE DAILY SOCIALIST.)
 Chartres, France, Oct. 27.—Another scandal threatens the French army as a result of the recent army maneuvers held near this city. It has been brought out that the soldiers were fed on a starvation basis and then worked until they fainted from over-exertion by hundreds in all the regiments taking part in the recent "exercices."

Nearly Half Unconscious

Cases from the corps of Marshal Durocat and from that of Gen. Sercurier are the most startling. In the Thirty-fifth regiment in Sercurier's corps the men were awakened at 4:30 in the morning, given a little dry bread and coffee and then driven to the limit of endurance in drill maneuvers until midday without any further refreshment. The result was that in many of the companies as high as 55 out of the 75 men in a company would be carried into camp in an unconscious condition or reach camp only to drop fainting at the entrance.

Contractors Waxing Fat

It has developed in connection with the investigation of the contractor scandal that certain Paris contractors are waxing fat on the food which they do not send to the army as per their contracts.

 Cleveland, O., Oct. 27.—The fight between the National Manufacturers' association and the American Federation of Labor has shifted to Cleveland.

POLICE MYSTERY IN A DOWNTOWN HOTEL SHOOTING

The mystery surrounding the shooting of a woman in the Imperial hotel, 224 State street, Saturday night, has become a police job, both boss and worker. The police are trying to find out if the woman was shot on the third day and not permitted to return. After one boss who dared disobey the mandate had been compelled to flee to St. Paul in fear of his life, the boss and worker got together and have been testing the government's enjoying its first roast beef in three weeks.

THEODORE, JR., GETS PROMOTED BUT SALARY IS THE SAME

Hartford, Conn., Oct. 27.—Theodore Roosevelt, Jr., plant worker in the Hartford Glass company's plant in Hartford, Conn., has been promoted to the position of foreman, but his salary will be no different from that of the worker he is to be replaced.

GIRL STUDENTS GO ON A STRIKE

Organized in Russia to Prevent Destruction of Their Educational Rights

(SPECIAL TO THE DAILY SOCIALIST.)
 Moscow, Oct. 26.—The women students of the University here followed the example of the girl students at the University of Tomsk, Orel Kazan and Moscow, and have started a general strike of women students in Russia.

Suppressing Female Education

The attack of Feb. 1 restored the same conditions which preceded the granting of plenary powers to the first duma, and the edict is directly aimed at the entire suppression of female education in Russia.

General Strike Contemplated

Whether this strike of the school-girls and the University women portends a general strike and a renewal of revolutionary activity throughout Russia cannot as yet be determined, but it is known that the women are agitating for another general strike against the repressive measures of the czar, and it is rumored here that the women's organizations throughout the country, including all the women factory bands, are contemplating a general strike, which will undoubtedly precipitate conditions worse than those which preceded the first duma.

Revolt in Flame Again

The same is true of all the workingmen's organizations in Russia. If the spark has been put to the tinder by the women, the revolution will again blaze up stronger than ever before in the belief of Socialist leaders here.

WONDERFUL DISCOVERY: SAYS BRYAN IS SOCIALIST

Alvan B. Goodbar, head of the Goodbar shoe company of St. Louis, has sent a letter to Moses Wetmore, of the tobacco trust and the Democratic finance committee, saying: "Mr. Bryan is a Socialist, and as I am a Democrat I will vote for him, not for a duplicate letter to the G. O. P. for public purposes, thinking that the G. O. P. leaders might agree with him. Says Goodbar of Bryan, among other things: Last, but not least, he has been voting the seeds of Socialism."

IS BRYAN EVEN ASHAMED OF HASKELL'S MONEY NOW?

In the list of contributions to the campaign fund announced last night by the Democratic national committee from the office of Millard P. Dunlap, secretary of the finance committee, appeared the name of a contribution of \$100 from someone in Oklahoma.

KEEP JOHNSON SIDE STEPPING

(SPECIAL TO THE DAILY SOCIALIST.)
 Two Harbor, Minn., Oct. 27.—Republican and Democratic candidates have been playing hide-and-seek with William D. Haywood, they doing the hiding and Haywood the seeking, both at Thief River Falls and Duluth in this state. The reason for this little game is the attempt of Haywood to depart the candidates into a debate.

Socialists Also Keep Minnesota G. O. P. Dodging to Avoid Haywood

Governor John A. Johnson was the first to be confronted with a chance to meet the platform with Haywood and defend the Democracy against Socialism. Johnson and Haywood were billed to speak at Thief River Falls on the same night, and an invitation for a debate was issued, but Johnson side-stepped. Then the Republicans were challenged to have their candidate, J. F. Jacobson, who was billed for Duluth the night of the Socialist meeting, to debate with Haywood, whereupon the G. O. P. manager stepped. Then the Socialists requested that the Socialists change the date of their meeting. But the meeting will be held as per schedule.

VOTE FOR SEABOARD OIL COMPANY

the SEABOARD OIL COMPANY, as THE investment for you, and you can later laugh at both Taft or Bryan. When a Chicago Socialist tells how a friend of his put \$15,000 in an oil company—and 'en drew out \$60,000 for at least SIX MONTHS as dividends—don't you think it would be a safe vote? We do. Send for our latest circulars about the opportunities we offer you, and get the recommendations from customers from British Columbia to Cuba—and you'll begin to realize where your interests lie IN "INVESTMENT POLITICS," and you'll wonder why you have been hesitating so long too!

WARNING

SEABOARD is nearly three-fourths gone, and unless we can get another block to sell, we shall have to turn orders down. Of course, we have other things, too, but CALIFORNIA OIL is "the peerless ONE" investment for you! Ask for a ballot (prospectus) by post card, and see if you don't conclude to VOTE IT STRAIGHT. There's no cryin' about Bryan (instead we left at Taft) around our premises—and you shall too, if you heed us. Either brand of Capitalism can't scare the wise investor. Declare for your own interests today. Write us.

John Spargo

Of all the Socialist writers of this country there are none who have a clearer insight into the destroying effect of capitalism on the child.

The destruction of a generation of children will retard our progress more than any of the terrible evils which now permeate society.

IS ARRESTED AS SLAYER OF SIX

Five Hundred Are Trying to Identify Suspect in Jail at San Jose, Cal.

San Jose, Cal., Oct. 27.—Suspected of being Charles Dunham, the brutal murderer of half a dozen persons, William Hatfield, who was brought to this city yesterday from Sherman, Tex., today will face an ordeal of attempted identification such as has been suffered by few men.

Such an experience once before was meted out to a suspect, James Crill, a man whose resemblance to Dunham is yet the subject of comment in this city.

Upon his arrival he denounced the action of the officers at Sherman, declaring that he was tortured with heavy manacles, insufficiently clothed and detained in custody after the officers had been clearly convinced that the prisoner was not the murderer of the McGilcree family and their employes.

IN RUSH TO GET ARMOR TICKETS

Indications Point to a Tremendous Outpouring to Greet Debs Nov. 1

Last Saturday the state office of the Socialist party was the scene of much commotion. An unending line of people poured into it all afternoon and all wanted tickets for the big Debs meeting at the Seventh regiment armory on Nov. 1.

Today it is different. In years gone by, when Debs was due to speak in the city, there was very little excitement visible except in the ranks of the Socialists themselves.

Literature Is Distributed
Loaded with literature, consisting of the national platforms and newspapers printed in both the English and Bohemian languages, the "Red Special Junior" left headquarters Saturday night for the purpose of spreading Socialism among the Bohemians of the Tenth ward.

Before the meeting closed, the speakers, H. C. Diehl, of Chicago Heights, A. J. Jelinek, F. Beranek, J. Killa and R. Dvorak, his spoken by at least 1,000 people, most of whom staid to the close.

Yes, I do," answered the speaker, "but do you know how to vote? This aroused a laugh, and the man left with a sheepish look on his face.

HOW DO YOU LIKE IT?

The six-page paper has now been issued for enough days to give an idea, a very little idea, of what is possible.

Every one of these features can be vastly improved as soon as it becomes certain that the enlarged and improved paper is really wanted.

Never will a paper be more necessary than on the day after election. The great mass of people who have been attracted to the Socialist propaganda must then be brought into the Socialist organization.

As soon as the campaign is over the Daily Socialist proposes to take up the work of education. A series of easy lessons in Socialism is being prepared.

All these plans hang on the result of the efforts now being made by the whole great Hustler army. If every member of that army rallies to the battle with all his energies, even if he works for but a few hours, during the coming week, then there will be no difficulty in carrying out the plans that will place the Daily Socialist in the very front rank of daily papers in America.

Study Marx for Yourself.

Modern International Socialism, represented in this country by the Socialist Party of America, is the organized movement of the working class for the overthrow of capitalism.

Marx's writings, most of which are now to be had in English, are clear, forcible and easily understood by any one who will study. Any so-called Socialist who attempts to talk or write without having read Marx is almost sure to make ridiculous errors and to misrepresent Socialism.

The books by Marx which we can now supply are as follows: Wage Labor and Capital. Paper, 6c.

Prices include postage. Catalog free on request. Charles H. Kerr & Company, 153 East Kinzie St., Chicago.

They Heard at Last

At last the Republican party has heard the cry of the unemployed. The Socialists have asked in a voice that has grown in power until it has reverberated from the Atlantic to the Pacific...

Socialism Here and in Germany

Correspondents are predicting an increased vote for Debs. Debs may get it. But it will mean little. In America the Socialist party will long remain both small and doctrinaire.

Why, then, has this party such vitality in Germany? Because it is fighting there against a hundred things that this country never had and never will have.

In Germany it stands against the imperial rights and privileges, the distinctions of the nobility, the enormous size of the army, the heavy internal taxes, etc., etc., etc.

If we had these things and the Socialist party alone stood against them, the Socialist party would be a great and powerful party. But we haven't them.

Socialism with us is thus reduced to its doctrinaire aspect, its bad political economy. That point has yet to be reached in Germany. If the conditions common to Americans are ever once gained in Germany, German Socialists will themselves be reduced to strictly Socialistic ideals.

Then it will be clear that what has made the Social Democratic party of Germany strong is the fight that it is making against class privilege—class privilege usually unassisted by law, but privilege none the less—as well as against certain forms and policies which have developed from the German history of a hundred years ago.

Up to the present moment this editorial seems to hold a few inches in the lead in the struggle among the editors of capitalist papers to expose their ignorance of Socialism.

Disregarding the fact, familiar to even the most superficial student of Socialism, that it is just in Germany that Socialism is most doctrinaire and has developed its political economy to the highest point, there is another phase of the ignorance displayed more striking and significant.

The aim and object of the editorial is manifestly to show that American workmen have all that the German Socialists ask. Therefore there is no room for a Socialist movement in America.

American workmen are asking for old age, accident and out-of-work insurance. THE GERMAN SOCIALISTS HAVE FORCED THE GOVERNMENT TO GRANT THESE TO THEM.

The American workmen are asking that their children be fed in the public schools when hungry. THIS IS ALREADY AN ACCEPTED FACT IN MOST GERMAN CITIES.

American workmen are asking for legislation against dangerous machinery. LEGISLATION FAR MORE PERFECT HAS LONG EXISTED IN GERMANY.

The list could be easily extended. Until these few things are granted, however, there will still be a few things for the Socialist party to do in America, even aside from its principal object—the securing of the OWNERSHIP OF THE JOBS BY THOSE WHO MUST USE THEM.

It is rumored that the same old rooster that was used eight years ago will be sprung by the Democratic party again this year. This was a story turned loose the day before election to the effect that Eugene V. Debs had resigned in favor of Bryan.

Was it an accident that Roosevelt heard about the unemployed question the day after the announcement that the White House estimate of the Socialist vote was a million and a half?

SOCIALIST FARMERS

THE FARMER AND SOCIALISM

At this place we have a Socialist local of twenty-two members. Of that number twenty-two are genuine farmers. Of this membership there are but two of foreign birth.

CHANGES IN FARM INDUSTRY

Look at Taft's face. Just remember that while playing politics he may submit to play the second fiddle to Roosevelt if elected.
