CLOTHING BOSS SPLIT; WOMAN DIES FOR CAUSE

One Firm, Employing 500, Negotiates With Garment Workers.

Expecting that late today word will be received of a serious break in the ranks of the clothing manufacturers combined in the Wholesale Clothing Manufacturers' Association, the striking garment workers felt fresh courage and determination today.

Negotiations Are On

Negotiations which were counted on to result in the signing of the union agreement with Strum, Meyer & Co., a firm employing 500, were resumed today with the hope that in the very near future the firm will yield.

Woman Dies of Hunger

Mrs. Rose Seigelheimer, a striker, died today from starvation, leaving two children. She had been employed as a piece worker in one of the large factories and had not asked for aid from the union.

Strike Cases Discharged

The cases growing out of the strike were disposed of today at the Desplaines street station before Municipal Judge Limes. The union was represented by Jacob C. Lebosky.

Three Camps in Body

There are three camps in the legislature. The largest is composed of progressive republicans, more or less dominated by Senator A. H. Cummins; the second crowd in numbers is the democratic, which have held a caucus and will vote for Dan Hamilton of the Sixth district through thick and thin, and the third crowd is composed of stand-patters, which will back Senator Lafe Young, now holding the seat by appointment of Governor Carroll.

Trust-Buster in Race

But then there is W. S. Kenyon, railroad attorney and government "trust buster," who is backed by many progressives and is the second choice of the Young men.

SUIT SHOWS UP NEW YORK'S '400'

Women Had Gambling Retreat in West Forty-Eighth Street.

By United Press. New York, Jan. 9.—Many New York society women, when they are not busy airing their pet engines or lolling in cafes, like nothing better than a little poker with a dollar limit.

Poker Debt

This fact has been developed in a suit brought by Victor E. Emden against Mrs. Hattie Yocum, the former wife of a western millionaire, for \$80, the amount of a check which Emden alleges Mrs. Yocum gave in payment for a poker debt.

Fear Publicity

Temporarily, the poker retreat is in darkness, as it was feared that unpleasant publicity would attend Emden's suit, which has not yet been disposed of.

GRAFT PROBERS TAKE RECESS

Indictment Flood Swamps Court Officials; Fines Are Paid.

By United Press. West Union, Okla., Jan. 9.—The special grand jury probing the wholesale vote selling in Adams county will take another recess tonight until next Wednesday, according to announcement of Judge A. Z. Blair today.

Unions Held to Be Not Guilty

Union Men in Bomb Outrage.

Los Angeles, Cal., Jan. 9.—The report of the grand jury which has investigated the Times dynamiting on October 1, when twenty-one employees were killed and three recently returned twenty-three indictments against seven persons, was made public today.

\$1,000 CHALLENGE! To the Socialist Party of America

The board of directors of the Chicago Daily Socialist has just received an important letter from one of the paper's staunch supporters.

This comrade has kept in close touch with the management and knows of the terrible struggles through which the paper has passed.

He knows the exact conditions of the paper today and he knows its prospects for the future.

Like all other Socialists he is much interested in our plans for an eight-page paper.

After going over these plans carefully this comrade has agreed that the time has now come when a determined effort should be made to raise a fund of \$25,000.

He firmly believes that this sum is necessary to put the Daily Socialist on a sound financial basis.

This comrade is a man of wealth, but he does not believe that the Socialist party or the Socialist press should be financed by a few wealthy men.

He is ready, however, to unite with all other Socialists in doing his share.

He has, therefore, made a proposition to the board of directors of the Daily Socialist as follows:

"If the friends of the Chicago Daily Socialist will subscribe \$24,000 toward the support and enlargement of the paper, I will agree to contribute the \$1,000 necessary to complete the fund of \$25,000."

Comrades, here is a challenge to every Socialist, to every trade unionist, and every member and sympathizer of the working class to take off his coat and get busy. Let us roll up that \$24,000 in a hurry.

Let us show what can be accomplished by the united efforts of the working class.

VICTOR L. BERGER'S IDEA OF A "GOOD SENATE"

UNIONS HELD TO BE NOT GUILTY

But Grand Jury Names Labor Men in Bomb Outrage.

Los Angeles, Cal., Jan. 9.—The report of the grand jury which has investigated the Times dynamiting on October 1, when twenty-one employees were killed and three recently returned twenty-three indictments against seven persons, was made public today.

Can't See Explosion

The jury finds the theory of a gas explosion untenable and declares it is satisfied the explosive used was nitroglycerine purchased at Grant; that the identity of some of the destroyers is known by the authorities, and that they have been members of labor unions and officials and organizers of them, but that no testimony was given to show any labor organization participated in the commission of the crime.

Denies Jury Report

Los Angeles, Jan. 9.—The grand jury investigating the explosion that wrecked the Los Angeles Times and killed twenty-one of its employees on October 1 has made no report of its findings whatever, further than the indictments of several days ago and published statements that a report has been made aware without foundation.

Freuding Judge Walter Bordwell of the Superior Court, in a statement, said:

The grand jury investigating the Times case has made no report in that matter and will make no

SOCIALISTS IN PROTEST AGAINST NEW CONSTITUTION

Strassburg, Germany, Jan. 9.—Immense Socialist and Radical demonstrations were held Sunday in protest against the proposed new constitution for Alsace-Lorraine, the draft of which was adopted by the Bundesrath on Dec. 16.

SCIENTIFIC EXPERIMENT ADDS TOE TO GUINEA PIG

Boston, Jan. 9.—Experiments in the breeding of animals similar to those carried on by Luther Burbank with plant life are announced by Dr. William Ernest Castle, a scientist of Harvard university. What Dr. Castle has been able to do is to breed a race of guinea pigs with four toes on the hind feet, where usually there are only three, and two kinds of tails that are far enough apart in color to be called varieties, although they were reared from the same ancestors.

DIA'S GENERAL QUILTS

Galveston, Tex., Jan. 9.—Advices from Mexico City announce the resignation of General Don Manuel Gonzalez Cosio, minister of war, following a long conference, at which the displeasure of President Diaz was expressed at the poor showing the army is making in suppressing the insurrection. Following comes a report from official circles that the minister of finance, Senator Limantour, will, or has, resigned. He is now in France. Senor de la Mera, Mexican minister to the United States, has been offered the portfolio of foreign affairs.

TRUST BUYS ANOTHER STORE

St. Louis, Mo., Jan. 9.—It is announced that a deal for the purchase of the Scruggs, Vandervoort & Barney department store has been closed with Claflin & Co. of New York, who own a chain of about thirty stores in the United States.

The capital of the company is \$5,250,000. The Claflin company owns the United Dry Goods company, which is capitalized for \$2,000,000. It is understood Pierpont Morgan is one of the backers of the United company.

AID TO REBELS FROM HORNET

Honduran Isle Is Taken as United States Ship Pursues.

Washington, Jan. 9.—The state department has located the mysterious Hornet, which sailed from New Orleans some weeks ago, supposed to be bound to aid the Honduran revolution, at Roatan, Honduras.

Capture Confirmed

On request from the state department, the navy department ordered the Tacoma to proceed to the island of Roatan, which is on the north coast of Honduras and which was captured by the revolutionists. It seems now that the Hornet took part in the capture of the island.

Uncle Sam Interested

The case of the Hornet is not exactly parallel to that of the Venus, which sailed from Nicaraguan ports during the revolution in that republic. It is probable, however, that the Hornet will give the country a great deal of trouble, as it is the intention of the administration to keep the peace in Honduras at all hazards.

Foreign Influence

It is feared that it is a foreign influence which is at work giving aid to the revolutionists so as to interfere with the so-called policy of the United States.

CARNEGIE BANK IN SMASH INVOLVES ELEVEN MILLIONS

SEE MOVE TO REDUCE WAGES

Firm Attempts to Put the Blame of Lock-Out on Men.

Attempts to demoralize wages in the shoe industry of Chicago are seen in advertisements in Chicago papers for lasters by the J. P. Smith Shoe Co., who have locked out their men in contravention to an existing agreement with the firm.

Advertise for Scabs

The existing base price for lasters in Chicago on plain work is 8 cents, while J. P. Smith & Co. are advertising for men to do the work at 7 cents, and at the same time claim that there is no cut in the prices.

The advertisement further states that the men have gone out in violation of an agreement. This the men stoutly deny.

An official of the J. P. Smith Shoe Co., when asked for a statement of their side of the controversy, declared that the firm was now paying more than the highest prices in the east, and offered to show communications from the offices of an alliance of shoe manufacturers in Brockton to prove the assertion.

Hearst Papers Accept Ad

He refused to state what action they would probably take in the matter, further than to question whether or not the Daily Socialist accepted classified advertising.

Men Claim Firm at Fault

The firm also claimed that the men had refused to negotiate the grievance. Representatives of the employees who are now locked out say that at one time there was an arbitration agreement with the concern, but that the J. P. Smith Co. had seen fit to abrogate it.

Office Contest Hobbles Solons

Work of Missouri Legislature Tied Up by Election Protest.

Jefferson City, Mo., Jan. 9.—The Missouri legislature was hopelessly hobbled as a result of a decision of the state Supreme Court today that because of a defect in the law it has no jurisdiction to decide a contest between two candidates for office and that the legislature must settle the difficulty.

Second Occurrence

The present state of affairs is a recurrence of two years ago. The legislature will not be able to get down to work for a week, because the law provides that all state officers shall be declared elected before any business can be transacted.

Business at Standstill

Facing this situation the legislature today referred the contest to the joint committee appointed to canvass election returns and adjourned. Meantime all business at the capitol is at a standstill.

Shaw, Who Had Bee to Become President, Was Official.

By United Press. New York, Jan. 9.—The Carnegie Trust company has been closed by State Superintendent of Banks Cheney.

Bank Unsound

"The examination of the affairs of this company has caused the superintendent to conclude that it is in an unsound condition to transact business, and that it is not safe for it to continue."

Died of Gas Poison

Dickinson died of pneumonia and kidney disease, it was said, but it was further declared that the contributing cause of his death was the inhalation of poisonous gases in F. W. Lange's laboratory in Scranton, Pa.

Involves \$1,000,000

More than \$1,000,000 is involved in the closing of the trust company, the last report of the institution to the state banking department, on Nov. 16, 1910, showing total assets of \$1,176,880.

Blow to State Banks

Washington, Jan. 7.—Beyond a slight flurry, national banks will not be affected by the closing of the Carnegie Trust company, according to Deputy Comptroller of the Currency Kane, who stated today that the brunt of the blow would probably fall on New York state banks.

States Circuit Court to Pardon

Application for pardon was renewed and every effort made by Harlan's influential friends in the South to induce the president to eliminate the sentence of imprisonment.

TAFT'S FOOT DOWN HARD FOR ONCE

By United Press. Washington, Jan. 9.—Fines are not effective against men of wealth. Imprisonment is necessary," wrote President Taft in a decision refusing to commute a prison sentence against W. S. Harlan, manager of one of the greatest lumber and turpentine interests in Florida and Alabama, convicted of peonage.

Harlan was sentenced in the United States Circuit court to eighteen months in prison and to pay a fine of \$5,000. The decision was affirmed by the Supreme court of the United States. President Taft commuted the term to six months.

Civil Service

Everywhere there are signs of the awakening spirit of public service. The world is sick of the narrowness of personal aggrandizement; of personal power and glory, and longs for a wider expression of life. To serve the race, the nation, the community, to live for and in the great whole, is an ideal that is beginning to vivify the hearts of men.

THE MAN WHO SAW THINGS TWICE

(A CONTINUED STORY) BY RALPH KORNGOLD

Conrad, the next day, suffered from an intolerable headache and was unable to go to the office. His wife, Emma, wishing to keep the evidences of her husband's debauch from the servant girl, tidied up the room herself. While doing this she sighed frequently and cast sidelong glances at Conrad, who sat by the fire, his brow knit, his head sunk into his breast, while two sharp lines had etched their selves from his nostrils down to the corners of his mouth.

Things of Today

BY OSCAR LEONARD

A "society man" in my city some time ago forged a check. His forgery secured him \$25,000. He took the cash and went off to Paris to have a good time. The police, in order to find him, broke into the home of his stenographer and roused her from her bed in the dead of night. She could give no satisfactory information of his whereabouts.

Little Sermons in Socialism From Wendell Phillips

Phillips By BURKE MC CARTY I.

The present labor unions of the United States had their origin fifty years ago, when the first labor-reform convention met at Worcester, Mass., and adopted the following platform, drawn up and presented by one of the noblest and most distinguished Americans, Wendell Phillips.

Power

BY HUGH M'GEE

The necessary workers of the world, the productive workers, are the real forces of civilization. This force, represented in the hand and brain labor of the world, makes civilization possible.

Efficient Business Organization

Swift & Co., according to their annual statement, just published, earned \$7,050,000 net profit for the year. This is on top of interest on bonds and bills payable, which amounts to about \$4,000,000.

A Pair of Superstitions

One of the most damaging superstitions, carefully nourished by the owning class, is that poverty is inevitable; that some people must be poor; that their reward is in heaven, in another world.

CROWDED STREET CARS

Philadelphia is suffering from an extra large dose of over-crowded street cars. Philadelphia is not the only city in this plight. It is equally true of New York, Chicago, in fact most every large city.
