GLENN SAYS WOMEN LIKE **LONG HOURS**

"Cash Boy" of Big Business Calls Indian Squaw's Life "Ideal."

John Mack Glenn, legislative "cast boy," for the Illinois Manufacturers association and the State street depart ment store proprietors won the hearty applause of his employers last night when he said that women should be at liberty to work as long as possible.

Squaws Worked Hard

To support the idea that laws to limit To support the idea that laws to limit the hours during which a woman may be compelled to toil, or lose her job, are not moral, Glenn harkened back the Indian custom of making the squaws do all the work.

All in all he expressed himself as believing that work is good for women and the longer the hours of work the better women like it.

The banquet of the Retail Merchants' association was held at Vogelsang's last night, and was turned into a protest meeting against a law for a fifty-four-hour week for women. The Su-preme Court of Michigan has upbeld Glenn Fergot This

The lower house of the California legislature has just passed a woman's

legislature has just passed a woman a eight-hour law.

Glenn overlooked all this. He spoke against the proposed fifty-four-hour week law which the woman trade union-ists of Illinois are to urge before the legislature.
In the course of his speech, Glenn

said:

"These who support legislation of this character must believe, it seems to me, in the theory that man mentally is stronger and in every way more capable than woman, and that on account of his superiority he has a right to retard her advancement.

'But is it known to all men that a woman is at great disadvantage in the battle of life! Has she ever failed to do her part? Among all uncivilized people she is made to do virtually all the work while man adorns himself with feathers and ornaments and structure. feathers and ornaments and struts

about.

'Man ever has reasoned that he was stronger mentally and physically than woman, but he has always made her

Need Women Toilers 'It has been demonstrated in the last

"It has been demonstrated in the last twenty-five years what woman can do in the business world. It has been demonstrated what she can do in stores such as you gentlemen conduct.
"It would be impossible for you gentlemen to return to the old way of carrying on your business, and it is impossible for you to get along without her assistance."

COUNT APPONYI

Colonel Praises Peace as Says, "Fortify the Panama Canal."

Colonel Theodore Rosevelt has pu himself in the same class with Count Albert Apponyl, whom the representatives of 600 Hungarians recently de-nounced as an insincere advocate of

peace.
Speaking at the Union League Club
last night, immediately following an
address by Count Apponyl, Roosevelt
said that as president of the United
States he had done more than anyone

In the next breath he amounced that by all means the Panama canal must be heavily fortified.

be heavily fortified.
"It is our duty to fortify the canal; there are no two sides to that question. In our treaty with Panama we specifically reserved the right to fortify it." said Roosevelt during his speech.

To Save Wage Worker

To Save Wage Worker

Later Roosevelt utbred one of his
usual platitudes, saying:

"I wish to work steadily by every resource in our power to better the condition of the wage worker, to make his
lot in life more desirable, to make him
a better American citizen, and I wish to
do that, not only in his interest—I wish
to do it in our interest, for no section
of our people can sink without the efrect ultimately being felt inroughout all
the body politic. If some of us 20 down
all of us will suffer more or less."

Something Doing in Chicago. Watch for the Hustler's Column.

DAIL I SOCIALIST IS WOMAN'S PAPER

By Caroline A. Lowe

public press there is but one place for them to turnto the Socialist press. When they demand daily accounts of the events of the hour they must look for justice to the

Socialist dailies.

They have no other servant—all other newspapers are servants of the capitalists.

How do we know this? Last fall, when the Garment Workers went out on strike, who was it that in greatheadlines published to the world the wrongs of the girls and boys, the women and men whose lives are sacrificed in sweatshops and in tenement houses?

The capitalist papers, true to the interests of their masters, denied that a strike existed, of ignored it altogether. Weeks dragged into months, hundreds of babies died from starvation, hundreds of girls were driven to desperation.

The Daily Socialist was the only newspaper in Chi-

cago that fought to save them.

The Socialist women, their hearts crying ont against such unspeakable conditions, looked about for some weapon to wield in defense of their sisters in distress. If the working class but knew the true state of affairs, they would revelt against them. Publicity was all that was needed.

But w.at paper would print all the wretched story of the brutality of the masters:

The Chicago Daily Socialist offered its pages. Its press was strained to the utmost, 63,000 copies were recied off—1,500 men and women invaded the street corners and shop doors, and at last Chicago and all the world knew that

45,000 Garment Workers, with their families, were enduring starvation and worse than death.

The Daily Socialist had come to the rescue and money came from every side. Later a second special edition brought in additional support.

We women have entered into this great class struggle. There is special work ahead of us that only women can do best. The boy scout movament, that is intended to corrupt the hearts and poisen the minds of our boys, until they thirst for the bleed of their brethers, we, you and I—the working women of the United States—must denounce. We must strip it of its impocent, civic righteous garb, and expose it in all its murderous, war-breeding nakedness.

How can we do this? Through the Socialist press.

The Ohicago Daily Socialist is revolutionizing the minds of countless thousands of mea and women.

Drop by drop the impression is deepened in the hardest rock. Day by day the minds are shaped to fit into truths or lies.

Let the minds of the working class be shaped to per-

Let the minds of the working class be shaped to perceive truths and to denounce lies.

The Daily Socialist will de this. It is fighting for the
men and women of the working class. Will the women
and the men of the working class. Will the women
and the men of the working class fight for it?

Then let us begin anew. Let us take this special
edition to the homes of our neighbors and secure their
subscriptions before we lay it down.

The time that our help is needed most is TODAY. The
fund for the eight-page paper is growing, and we women
must do our part. \$25,000 is the amount we are raising.
How much have YOU sent? How much will you send?

The list of donations will be found on page 4.

Much Work for the Woman

BY WILLIAM E. RODRIGUEZ.

Socialist Candidate for Mayor of Chicago.

(Written especially for Woman's Edition.)

There are many things which the women of Chicago could do for Socialism and many things which a Socialist administration in

Chicago could do for women, especially those who work:

It is generally recognized that Chicago needs a new charter and that charter should provide for woman suffrage in municipal

The electoral franchise in any more extended sphere is beyond the power of the city, any extension being under the control of the

The women of Chicago, through the labor organizations which they belong, where organized women workers are concerned, can aid in creating additional interest in Socialism.

The unorganized women workers can aid the cause of Socialism influencing those among whom they work.

The vast unorganized mass of women workers in paper box fac-

The vast thiorganized mass of women workers in paper box fac-tories, candy factories, clerks in stores and in other employments would be benefited by a Socialist city administration.

Socialist women should be especially active in party work. The Socialist party is the only one which stands squarely for votes for women, because it believes that women need votes to protect them-selves against the greed of modern industry.

Socialist Among Those Recently Elected to Office

in Sweden.

BY NINI KOHNBERGER

Stockholm, Feb. 23.—The women of

Sweden entered into their newly gained rights in March last by the election as town councillor of Dr. Valfrid Palm gren, the candidate of the Conserva-tives, and Miss Gertrud Mansson, So-

Thirty-Five Women Elected The municipal elections in the pro-vinces are just over, and they have given the brilliant result that Sweden has now thirty-five women town coun-

It is a matter of great interest, both for the countries where women may be elected members of municipal councils, and for those that have not yet granted this right, to see to which parties the newly elected women belong and what and their professions

Gain Confidence

But it is worth mentioning, first of all, that nearly all the women town councillors are members of the boards of the Suffrage Associations of their of the Suffrage Associations of their towns—several of them are the presidents—and their energetic work has gained them the confidence and consideration of their fellow citizens.

Most of the new town counciliors are teachers, and they are highly appreciated, not only for their pedagogical work, but for having devoted themselves to their task as overseers of the poor and as members of boards of education.

Socialists Get Three

Socialists Get Three

Owing to the political situation, it is quite natural that most of the women elected belong to the Liberal Party-1, a, eighteen of them. Three were elected by the Social-Democrats. In three cases the women pur up their own candidate. In ong

Waitresses' Union Suffered; Now All Labor Fights Him.

"I have always kept pledges which I have made." - Statement recently made by John R. Thompson.

"John R. Thompson promised that after he was elected county treasurer he would sign a contract with the Waitrasses union. He was elected, broke that promise and discriminated against union waitresses."-Elizabeth Maloney, Secretary of the Waitresses

Strong light is given on the value of the word of John R. Thompson, "regu-lar candidate" for the Republican nom-ination for mayor of Chicago, by the disclosure of his treachery in dealing with union labor.

Thompson Broke Faith

The story of the way in which Thompson broke faith with the union waitresses is thus told by Elizabeth Ma-loney, secretary of the waitresses' un-

waitresses is thus told by Elizabeth Maloney, secretary of the waitresses' union, local 484:

"I was one of a committee which want to see Mr. Thompson before he was elected county treasurer.

"There were five members of organized labor present at the time. He said he would sign a contract with the waitresses if we would not knock him before election.

Took His Word

"We took him at his word. Waitresses were supplied with buttons announcing his candidacy. While waiting on customers union waiters talked in Thompson's intere t.

son's intere t.
"He even attended a ball given by the
waitresses' union at what was then
Brandt's hall and delivered a speech in
which he said that if elected he would
owe his election to the work which
the waitresses had done in his behall.
"He especially stated that he would
sign an agreement with the union.

Repudiates Promise

"After the election he repudiated his promise, saying that he had not known that the union contract with the waitresses provided for a closed shop.
"This action caused a less to our crganization in other a 1988 to our or-ganization in other restaurants. He went further: he discriminated against the members of our organization." Union men and women throughout Chicago are working to defeat John R.

WAR SPIRIT IS TOILERS' ENEMY

Organization of Women-In organization there is strength. The women must be organized. The various wards throughout the city hold regular meetlugs, which up to a very short time ago were practically composed of meu comrades. These meetings used to be known only as husiness meetings, and were held very often in undesirable halls. But that time has passed, for since the appearance of the first woman at each meeting, the meetings have been revolutionized. Today the women meet regularly with the men and the meetings are both educational and social. The only difficulty today is the fact that that there are too few women. And this we intend to remedy. To interest the women we must resch them with our message, and this we intend to do. We have distribution leaflets on Socialism addressed to women and girls ings, which up to a very short time ago

the summer outdoor suffrage meetings, of every walk of life, and these should classes in parliamentary law, furnishing women speakers at the various wards and organization of women should secure these leatiets and the throughout the city, are only a few of the achievements of our committee. We have a great work before us, campaign. We have but to interest the and here are a few of the vital issues women, get them to organize and every of the day, which are embodied in our program:

Our Press—The Socialist women refor men, women and children.

WOMAN AND THE BALLOT

of the majority its conditions deter-mine the conditions of the common life. Are our industries safe? Are they or-ganized for the protection of health or the promotion of intelligence? Is work-shop, factory and store well ventilated? Are the lives of railroad men and min-

ers adequately safeguarded? Is the rest of the time sufficient to keep the bodies strong and the minds whole-some, and is the wage enough to in-sure the worker a comfortable home and abundant food and clothing? Is child labor permitted? Are the wages and working conditions for young women such as will save them from the

en such as will save them from the temptations of the street?

All of these are questions in which the women of the country are concerned; and yet, work as we may as house-keepers and mothers, our labors will not affect the law of the land, and the law of the land governs industrial condi-

"Yes," comes the objection, "but the mother's influence in the home is felt in the son's vote." The boy sees his mather always cooking, washing, sweeping, tending bables, and the quessweeping, tending babies, and the ques-tion naturally comes to him: "What does this creature of brooms and dish rass and cradles know about public affairs? Why should I seek her ad-vice as to how I should vote?" A good mother with whom the writer recently talked had labored faithfully to teach her how the principles of hy-

recently talked had labored faithfully to teach her boys the principles of human equality. Her eldest boy returned home after his first term at a university. The subject of equal rights was one day under discussion and the boy said: "Mother, I don't believe in equal suffrage now. Since I have been away I have come to believe that the wom-an's place is in the home and that she an best influence politics by properly teaching her boys."

mother answered: "If I had ever His mother answered: It I had ever held that belief you would be the best proof that I was wrong. I have taken more pains than most mothers do to teach you the principles of equal political rights. My influence of twenty years is destroyed by your first six months at the university. Perhaps if I and other women of like mind had some. and other women of like mind had some-

When we have given the women the at school our influence upon you might ballot we shall have elected them to a blace on the world's board of manage-next.

No: you may teach Johnny all you know—all that your baking, washing.

ment.

Heretofore it has been held that the duties of wife and mother were sufficient for the woman. Let the father manage the world.

The duties of the mother—do they cease when she has given her baby to the kindergarten? Does not the child go into the world—the school, the factory, the office, into commerce, industry and war?

The cow's duty to the calf is done when she has nourished him on his way to the slaughter pen, and the cow must be salished. But its a poor sort of human mother who is willing to labor to make her boy cturdy and fine that she may relinquish him to the world's industrial and military slaugh vens, in the management of which stands has nothing to say.

"Peaceful industry" in America devours almost 600,000 workers yearly. Nor does this record take account of the thousands who die of diseases contracted at their work.

We cannot too strongly insist that since industry in one form or another takes up the greater part of the dives of the majority its conditions determine the conditions of the common life. Are our industries safe? Are they organized for the protection of health or earlies of the rhousehold of the protection of health or earlies of the rhousehold of the protection of health or earlies of the rhousehold of the protection of health or earlies of the rhousehold of the protection of health or earlies the protection of health or earlies of the rhousehold of the protection of health or earlies of the rhousehold of the protection of health or earlies of the rhousehold of the protection of health or earlies that your shaking, washing, savely of the tactory, mine railies to know—and the slavery of the tactory, mine railies and residuent or of the slavery of the tactory, mine railies and residuent or of the slavery of the tactory, mine railies and residuent or of the tactory, mine railies and residuent or office, to which he must got of office, to which he must got of the slavery of the tactory, mine railies and residuent or office, to which he must got of office, to which he actory, mine

and that young women who would oth-erwise be their housekeepers must find employment outside of the home

The woman in the home may be represented in some fashion in politics by her husband, but there is no longer the shadow of an excuse for withholding the ballot from the woman in industry. No husband supports her, and the only man who represents her notifically. man who represents her politically is the bos who hires her. He is also in-terested in keeping her wages low, and accordingly he votes for such laws and lawmakers as will be most likely to

The women of the working class have The women of the working class have but little to gain by possession of the ballot unless they will use their votes for the protection of their own class. The workers, men and women, must bear their chains as long as their means of labor, the land, mills, mines, factories and railroads are privately owned and operated for benefit.

Our lesson last month set forth that there can be no peace until industrial justice is established. So, now, must we hold that there can be no freedom for women until there is free opportunity to get bread.

At the root of all forms of tyranny lies

the right of the master to control the bread of the slave. Whether the woman be a sex slave in some man-con-trolled home, or an industrial slave in a that is through Socialism, the hope of the world.

Let us work for it today with such means as are in our hands, and let us work for the ballot that we may bet-ter serve the cause which means our freedom.

INCOMPATIBLE

the top of democracy in the infallibility thing to say about your course of study of the man at the bottom.-Life.

An Imaginary Conversation

Place: The Modern World. Time: Today. THE MAN (after sprutinizing the woman long and carefully): Well, you certainly have changed. I should hardly have known you.

THE WOMAN (quietly): Yes, I have changed. I am entirely different woman from what I used to be. But how can you discover that just by looking at me?

THE MAN: Why, your appearance is so changed. You look so much more capable and independent. Your figure looks so healthy and sensible. Your clother look so dignified and simple. Don't you wear all those rancy

THE WOMAN: No, indeed. Why how would I look doing my work and astending meetings all decked out in feathers and laces with a thy squeezed-in waist, and wearing high French heels? Wouldn't it be ridiculous?

THE MAN (thoughtfully): Yes, it would be ridiculous to the same of the same lous. Do you know I haven't quite gotten used to the

idea yet of your being out in the world just like a man and doing man's work? It isn't such an easy thing to adjust caeselt to a radiest change like that.

THE WOMAN (h'yly): No, the adjustment on your part seems to be rather a difficult proposition. But you're gradually realizing that the change is quite in-

retrained agent you?

THE MAN (slowly): Yes, I'm afraid I am. But, honestly now, is it really a greater pleasure to be knocked about in the world than to sit comfortably at home with lots of leisure and with somebody else getting knocked.

THE WOMAN: Your question requires two separate THE WOMAN: Your question requires two separate answers. In the first place, yes, it is infiritely better to go through life as a human being, doing human work in a human world, than to eke but the existence of a female parasite, doing female druderry in a man's world. In the second place, the vast majority of women do not have "lots of leisure" at home, but are nothing but household drudges, giving up their lives to pots and pans and babies! In the third place, for it seems there, are three answers to your questions, woman has found it humiliating to live her life, by proxy, as it were. She has discovered that she is quite intelligent enough to live her life directly instead of indirectly. She prefers the has discovered that we have a fulfilled the life directly instead of indirectly. She prefers the self-respect that comes of supporting herself—namely, of being economically independent, and of voting for herself, namely of being politically independent. She—but you are not listening!

THE MAN (enthusiastically): Indeed, I was listening!

Only just then I was thinking how splendid if is to be able to talk to a woman like this. There is all the inferest and stimulus of talking to a man plus all the charm and pleasure of talking to a woman:

charm and pleasure of talking to a woman!

THE WOMAN (smiling, yet serious): Exactly, for the change in me does not mean that the sexes will be leveled—that sex differences and sex attractions will cease. You evidently aren't in the least repelled by me because I'm not decked out like a peacock nor fillinging to your arm and gazing coquettishly into your eye. You aren't in the least repelled by me because I'm talking to you as your equal about the actious questions of life. It's our brains that are gradually reaching a common ground—gradually getting to be ease, human brains, instead of over-sexed male brains and over-sexed female brains. But we're a man and a woman for all that, and stend of over-sexed male brains and over-sexed female brains. But we're a man and a woman for all that, and do you suppose Love is going to die because we can intelligently discuss the great social problems of the

THE MAN (also smilling, yet serious) No. I'm quite convinced that Love, far from dying, is going to develop into a bigger and healthier cherub than be has ever been before. For the more I talk to you, the more I feel drawn to you—the more I like the change in you.

THE WOMAN (gravely): Do you know why you feel te that? Because you yourself have changed.

THE MAN (incredulously): I? Why, how have 1

changed?

THE WOMAN: Do you suppose that the change in me has left you unchanged? Would you formerly have considered the conversation we've just had "a pleasure"? considered the conversation we just not re-would you formerly have listened with interest and re-spect to my arguments? Would you formerly have con-sidered a discussion solely about me worth your while?

THE MAN (uncomfortably): Well, but——
THE WOMAN (with great sweetness): Why, I'm no THE WOMAN (with great aweetness): Why, I'm not finding fault with you. I'm altogether too happy in your present attitude to worry us both with the past. Why, the very way you look at me is different. You meet my eyes with the look of a comrade, not with the look of a male, who sees, 'u woman merely that which can gratify his desires. And you don't in the least want to see me dressed up like a silly doll and embroidering your pocket-handkerchiefs. Tell me, lan't it true that you have reached the point where you want woman to be your equal, your keen, capable, trustworthy, self-reliant comrade?

THE MAN (with great carnestness); Yes, comrade, it is true.

A SPECIAL LECTURE will be delivered at the Carrick Theater Sunday afternoon at 3 o'clock. Clarence Darrow cannot deliver his

"Ibsen" lecture until the Sunday following (see below). Lewis will therefore occupy the Carrick stage himself and will deliver a lecture in honor of National Woman's Day. This is one of the most vital questions of the modern world and those who attend the Carrick next Sunday afternoon will hear things not usually presented on a public platform. Lewis has promised a specially great lecture and you cannot afford to be absent next Sunday afternoon. This meeting free.

Subject:

The Biology, Sociology and Economics

of the Woman Question"

ARTHUB M. LEWIS

CLARENCE DARROW'S CREAT LECTURE on "I bsen" is postponed one week, owing to Darrow's absence in New York this coming Sunday. Those who have bought seats

will hold them over. Seats for this intellectual treat are on sale at the Carrick box office every day from 10 a. m. to 10 p. m. Everyone who remembers Darrow's great lecture on Toistoy last New Year's Day will want to hear this one. These are lectures that can never be forgotten and you are advised to buy your seats before all the best ones are gone. All seats are reserved and all the same price, 25 cents—just enough to cover all expenses. Mr. Darrow contributes his services.

There is a fine musical program every Sunday afternoon. Baldwin Crand Piano used by courtesy of the Baldwin Piano Co., 262 Wabash Ave.

LABOR THE WORLD OVER

OHIO RISK BODY SPLITS ON BILL

Employers Ask Legislature to Saddle Insurance Cost on Workers.

Special Correspondence.
Cincinanti, O., Feb. 23.—The employ ers' liability commission, appointed by the governor of Ohio, has finished its work of investigation.

Two Bills

The result of their labor comes in two workmen's compensation bills in-cluded in two reports, a majority and a minority report of the commission. The majority report is signed by the three representatives of the employers' interests and W. J. Rohr, of Cincinmart, one of ine representatives of la-bor; the other labor representative, W. J. Winans, who is volcing the senti-ment of the Ohlo Federation of La-bor, signed the minority report.

Would Make Workers Pay

Would Make Workers Pay

The majority bill provides for the
appointment by the governor of a state
board of compensation or awards,
whose salaries shall be \$5.00 each, and
for an actuary to fix the amounts,
based on hazards of various industries,
to be paid by employers into a state
insurance fund, out of which workmen
shall be compensated directly for industrial accidents resulting in death or
personal injury.

ersonal injury.
The majority bill also provides that The majority bill also provides that employers may deduct 25 per cent of the amount they pay into the state fund from the wages of employes. The minority bill provides that no deduction shall be made from employes wages, and that employers shall be the sole contributors to the fund.

Provide Maximum Awards

The majority bill provides that em-ployers who contribute to the state fund shall be exempt from suits for damages for personal injuries by em-ployers

ployes.

The minority bill stipulates that if the award made by the new state board as a result of an accident is unsatis-

as a result of an accident is unsatus-factory, the injured employe may re-fuse to accept it and bring action in the courts under existing employers' ibility laws.

Both bilis provide that the maximum sward which may be made by the new state board for a death claim or for total dissebility, shall be from a mini-mum of \$1,500 to a maximum of \$5,400. of \$1,500 to a meximum of \$3,400

State Fund Asked

The payments for disability, either total or partial, are to be made in weekly installments of 80 per cent of 'he injured workman's wage up to a maximum payment of \$12 a week. The minority bill makes the weekly percentage 682-3 instead of 60.

However, both bills provide that if the wages of an injured workman are less than \$5 a week he shall receive the full amount out of the state insurance fund. It is provided that the state commission shall hold sessions in any part of the state to hear claimants.

The state board must hear the claim of an applicant for compensation with-

of an applicant for compensation with-

Physical Examinations

Provision is made for speedy phystermine the extent of his injury, which is the principal fact to be determined by the board, since the old fellow servant, assumed risk and contributory neg-Memce defenses set up by employers under the old law will not be barriers to recovery if either one of the new bills becomes hw.

MISSOURI LEAD BELT MINERS TO ORGANIZE

the company on their demands for American standard of living, and the company's fight made upon them by importing Russians and Hungarians to do the work, at lower wages, are again organizing after several years of desuctude.

The men then formed a committee who saw the boss and asked that the did scale be returned. This he refused to do, instead blustering out that they could quit if they didn't like their jobs. The men quit.

Besides poor wages the men complain of being mistreated and of being sworn at for no reason on the part of the foreman whatever. They held a meeting at noon and will stick out until the men work. They realize that if they do not get the employer comes to terms.

They realize that if they do not get together at the present time, the men anay never again have he opportunity to form a union. The Western Fed-eration of Miners is expected to help

WARNING

Under the name of the International Union of United Brewery Workmen several men are soliciting advertisements for a supposed book of proceed-ings of the Brewery Workers' convention. The union has exclusive right to publish its proceedings. Fraudulent at-tempts should be reported to the un-ion's headquarters at Cincinnati. Onlo,

THE BUSINESS AGENT

The business agent—pity him;
Tou ought to if you won't.
He's denned by some because he does.
By others if he don't.
He works all day and half the night,
He's always on the ioh.
A task like his can't well be filled
He bronhead, mutt or slob.

By bonehead, mutt or slob.

On Sundays, if he ever should Desire to go to church, When he's not Johnnyon-the-spot For him they start a search. Inside a month he listens to A thousand tales of woe, And some believe there's not a thing But what he ought to know.

NEW WAY TO MUZELE A LABOR LAWMAKER

Here is a new way of muzzling free speech. There is a lone Socialist in the Pennsylvania legislature - James H. Maurer, a Reading plumber.

He went down to Harrisburg with for employers' liability and workmen's compensation acts, to restrict child la-bor, to abolish the state constabulary

The speaker gave Maurer eight of the most important committee assignments. The most experienced members consider themselves mighty lucky if they can get on five or six committees. Now it is beginning to dawn upon Maurer that extraordinary honors have been heaped upon him to keep him busy off the floor and prevent him from making speeches!

CIGAR MAKERS STRIKE WHEN

Eight employes, members of the Progressive Cigarmakers' union, employed by the Recompensa Cigar Co., whose factory is located at 40 Franklin street, struck when they could no longer stand to work for the sweatshop prices paid

by the concern. Previous to Christmas the men were Paid \$8 per thousand for a certain line of work. At this price they could only carn \$8 to \$9 per week. Then the professed in silence the cruel attitude of the company on their demands for American standard of living and the

whom you refer of any act which shall in our judgment justify your dismissal. "MANDEL BROTHERS."

ployment with Mandel Brothers asand submit the following facts about myself as a basis for employ

"I pledge myself, if appointed, to faithfully and honestly discharge the duties assigned to me to the best of my ability."

Blacklisting Possibility

The possibilities of biacklisting for trivial offenses against the store's pol-icy can be seen in the foregoing by any one who read of the blacklisting meth-ods of the "association clothing houses"

The worst features of the contract are, however, the following details, on which a starvation wage can be based and on which all who would be inclined to stand for decent working conditions would be barred from employment.

More From Contract

The contract continues as follows: "Name in full? Address? Married, single or divorced? Maiden name? Naionality or descent? What are your

weekly expenses?
"Salary expected? Age? Name and address of last employer? What position did you occupy? When did you leave? Why? How long employed in last position? Salary received? "With what line of merchandisa are

you familiar? Have you ever been em-ployed by Mandel Brothers? If so, state when, and in what department.

Any Defects?

"Were you ever dismissed? If so, y whom, and why? Have you any sfect in sight, hearing, speech or limb: defect in sight, hearing, speech or limb Would you consider it your duty to re port any act of dishonesty or otherwise on the part of your fellow employes that you think detrimental to the in-

that you think detrimental to the in-terests of our business?

"Give names in full of persons with whom you reside and state whether they are parents of relatives.

"Who is dependent on you for sup-

port? Give address of parents, friends or nearest relatives to whom notice should be sent in case of accident. What means of support have you other than your salary?

Do You Smoke?

"Do you use stimulants? Do you smoke cigarettes? Have you unpaid bills that are past due? When were you last vaccinated? By whom? (a physician's certificate of vaccination is required from all employes)."

Then, for fear that the "freedom" of contract might not be properly "safe-guarded" in the foregoing, the following is added:

"I hereby accept the position of

("Pennsylvania cossacks") and others,
including a resolution that the unfinished statue of the late Senator Matt
Quay be donated to the penitentiary for a hitching post.

The speaker gave Maurer eight of the most important committee assigntuation. each day without notice to me.

Document Wonderful

On the back of this wonderful docu-ment appears a series of blanks for the names of all employers who have employed the applicant for the entire period during which he or she has worked

There is also space for the listing of persons, not employers or relatives, who vill youch for the applicant for a pe-

riod of 10 years.

Then at the very conclusion appears "I hereby affirm that the declarations

above made are the truth without re-servation. I have not worked for any person or persons whose name does not appear on this application."

Version of Freedom That is their version of "freedom of

The firm with its large financial backing is "free" as a contracting party. Is the woman "free" when she signs such a contract with the 12 to 14 hours of work per day at holiday time which i

little German girl and she occupied the front seat of an eighth grade room in a crowded city school. When it came to her turn to recite her face flushed painfully and she hung her head, but suddenly with an air of something like defiance she threw it back and in a few words proved that she had a greater grasp of the subject than had any of her classmates.

Little by little each day she steadily for a head. When school was dis-mirsel for the day she loved to linger, and in the quiet talks that followed, her awkwardness vanished and she de-veloped facility in the use of a new

The teacher lent her books and was amazed by the repidity with which she brought them back and asked for more. June came and Bertha had taken the highest honors in the class. Her father and mother, bent and hardened by toll, came to see her graduate.

"Thank you, teacher, for the interest you have taken in my daughter." It was the father who said it, and its manner more than his words attracted attention.

"I hope you intend to send her to high school. She has great ability," said the teacher.

not go to high school. Her lather could not pay the carfare.

Upon hearing this her old teacher said: "Come home with me. We shall see what we can do."

Thus was she could be home was in beloved studies and her home was in peace and comfort. Saturdays and Sundays she spent with her own form-ily, and after each visit she was mani-festly troubled for a shorter or longer

feetly troubled for a shorter or longer time.

Efforts to induce her to speak of home were usually in vain. She was fond of the brothers and devoted to her two of sisters, planning for them a share of every pleasure that came to her.

Of her father she used to say: "He gets discouraged and makes my mother so unhappy."

He had none of the so-called bad habits. His only dissipation was books, and the ideas that he got o' how things ought to be disgusted him with things as they are.

When two years had rolled away it seemed best that Bertha should begin

"We have had a doctor and the department has given us a burial permit. Bertha will arrive tomorrow, only

At the end of a sleepless journey, without having tasted food, she reached her father's "home," it such it could be

and after passing the "highest in two counties" as she proudly wrote she began to teach.

Her success was thenomenal. In less than a year she was principal of a small graded school and sending substantial resultances to help keep the younger children in school.

A change in the father's piace of employment had caused the family to move to the West Side.

It was from a tenement bouse there that there came one day to Bertha's friend and teacher, a postal card on which was written these words: "Tilele died last night. Bertha will be home."

The soungest sister, the baby scemed very low; she sent for a physician. He younged the case diphtheria, and cand the brothers slowly recovering fro. Navsing began in earnest, but the strain was too great on the newly arrived.

The baby sister died and on the same twelling the penalty of her devo-cling the penalty of her devo-cling the penalty of her devo-cling the penalty of the gradient of the product of the passing began in earnest, but the strain was too great on the newly arrived.

The baby sister died and on the same twelfing the penalty of the penalty of the family and its hope paid the penalty of the development had caused the family to work the same dread disease.

Navsing began in earnest, but the voonger do not he mell the younger shows the sent for a physician. He younger low; she sent for

Grief and pain were in the school from that day where a woman somewhat used to trouble thought often of a younger woman flying homeward to look for the last time upon the face of a loved sister.

Will not all these children some day it was the close of a short December in a rown un? And who are it then the street of a loved sister.

of a loved sister.

It was the close of a short December: be grown up? And who am I that I day and the snow was falling fast when the crowded Nineteenth ward. It seemed to be, like its neighbors, devoid of sight and heat, but diligent search revealed a door leading into a dimly lighted kitchen where there was a fire in a small range.

Beside it sat a twelve-year-old boy, his shroat swathed in flannel, and from the adjoining bedroom came a hoarse cry for a drink of water.

Whil not all these children some day be grown up? And who am I that I should provide sacrifices for society? Some lives ard snuffed for quickly, as were these; others die by inches. All the very poor are murdered. Even when their bodies continue to exist, the thing in them that is life, or love, or soul—call it what you will—is killed.

BRITISH SHOE WORKERS'

FUND OVER HALF MILLION

London, Feb. 23.—For some consider.

London, Feb. 23 .- For some consider able time the executive committee of the Boot and Shoe Operatives' union has been endeavoring to settle all their disputes by the means of concillation or arbitration, and they have been very uccessful in this respect

Consequently there is a considerable saving shown in the half-yearly finan saving snown it the half-yearly manical statement just issued, and a good part of it is due to this cause. The out-of-work pay has cuts the union 125,000. This is a large sum, but is, nevertheless, a decrease of \$3,500 on the corresponding half of last year. The toe tal funds of the union amount to \$666.

Observe Woman's Day

Special Correspondence Feb. 23.—A protest meeting held here at Kuss hall was a great success, a big crowd filling the building to its capacity. Woman's Day will also be observed here on Sunday, Feb. 26.

DEMAND PUBLIC

La Crosse Socialists Name City Ticket; Show Party Solidity.

La Crosse, Wis., Feb. 22.-While the old parties adopt platforms differing in principle for different cities, the Socialists here, as in Milwaukee, Chicago and the other cities throughout the country stand for public ownership of public utilities.

Ticket Is Named The ticket selected for the city elec-

tion is as follows: For mayor-Theodore Schulze, book-

ceeper. For city treasurer-L. P. Denoyer,

school. For city comptroller-Leigh Toland,

city clerk-Theodore Strauss,

For city clerk—Theogore Strauss, president Trades and Labor Assembly.

For tax commissioner—Herman Rick, union street car man.

For police justice—C. A. Noetzelman, union woodworker. For member board of public works

Peter Gannun, raffway blacksmith and delegate to the Trades and Labor As-

Labor Needs Party

The preamble to the platform sets forth that concentration of wealth in the hands of the few makes it necessary for labor to unite tor political defense in the Socialist party, as its members unite in unions for defense in the indus-

THE SOURCE OF OUR GAINS

There are five stars in the flag of working class for political solidarity, be women this Woman's Day. Wash-axion has been added to the states in close a well-defined path, has been the essential force without which vague discontent would have been helpless to

vision is ready for the next election and it can be introduced by Socialize officials.

California's legislature has submitted a constitutional amendment to the people on which a vote will be taken early this summer. With a Bocialist party casting 45,000 votes and growing constantly in organized membership, the chance of victory is very great if no one sleeps at his post.

Named and Various legislatures have

Nevada and Kansas legislatures have taken action. Other states are not far hehind. There are, in fact good reasons to believe that within three years every state west of the Mississippi will have admitted wom the suffrage.

What does it rice.

A few years ago alony of us, convinced that capitalist society must proceed rationally, agreed that there was little hope that larger democracy would vinced that capitalist society must proceed rationally, agreed that there was little hope that larger democracy would be granted until the full working class victory brought it in its wake. Capitalism, we contended, would not willingly distribute the weapons for its own destruction.

With troublesome obstinacy the facts have demonstrated that we had not judged aright.

Social forces are complicated. They deal with human brains and wills work for suffrage as you can and where you can, they say, but realize

Had they done so, the reforms would do have been much farther in the future

In Wyoming women were enfranchised as a defence measure against the desperadoes of ploneer days nearly forty years before other states were added.

Colorado, Utah and Ideho care into the ranks as a part of the chaotic but vital radicalism of the Populist-free silver wave.

For more than a decade one failure after another had marked the efforts for suffrage, now the tide has turned. Washington has won. Oregon, with the initiative and roferendum, voted hast fall on a measure of qualified suffrage, which was defeated.

Already a genuinely democratic provision is ready for the next election and this time it will carry.

California's legislature has submitted

Nevada and Kansas legislatures have Woman's enfranchisement as well as

the bollers of the workers' zeal.

The machinery of the Socialist party is the great dependence in the struggles for suffrage where amendments are pending. Washington's amendment

judged aright.
Social forces are complicated. They deal with human brains and wills which can not be measured accurately by logical meters.

Nevertheless, the principle the Socialists insisted upon when reformers urged them to forget their working-class organization and program until immediate reforms were attained, was correct. ship masters the art of getting thing

Meanwhile, as you work for women' than they now are.

Economic conditions have been educating the people to demand radical of the ballot when it has been won.

You are using, moreover, the power Socialist party is Li the field to you already possess to control the ret the meaning of conditions and times of that party upon which t the meaning of conditions and times of that party upon which restrongauizing persistently the the hope of full emancipation.

THE AMAZON OF THE TIERGARTEN

BY LEONORA PEASE

Impressive picture entitled "The Amazon." It is a great picture. It takes one with a free sweep from the pitiful, self-abnegated, wholly sacrificed "eighteenth held but a little of the light of her century idea" woman, whom we have great philosophy, and those also who

ret instantly recognized when presented through the medium of art.

R is as if one had lived and knew naught else beyond the flat, gray Kansas plain; then suddenly were confronted with the white, gleaming peaks of the Rockies, their breath of snow and flowers bursting down upon her spirit. It makes a vision of woman no-ble, which has been mean. And imagination travels back to the old legendary army of the amazons, and outward to those interpid spiritual amazward to those intrepid spiritual amazons we have with us in training today. ons we have with us in training today, and forward to a spiendid, invincible regiment of them, who shall fight in the van and lead the woman's army. And if the one who so dreams before this picture be a Socialist, she adds a pray-

cialist vanguard.

For the road of progress is a dangerous one, knows the reactionist, and an alluring one. Beckoning visitas lie shead, opening ways. Our forefathers and mothers did not determined to abolish taxation without representation. America; they determined to abolish taxation without representation; Martin Letther did not dream of reformation; he wished to purge the church.

The majority of Socialist women are calleted, today, in every company and

The majority of Socialist women are callsted today in every company and squad and regiment of the woman's progressive movement. She is in the club, patient through dull sessions, its-tening to unenlightened lectures on the House Beautiful or How to Feed a Family on Twenty-six Cents a Day, that she may be able to lift her voice as opportunity, for the real solution, or bring before her groping audience the trained Socialist speaker.

She is in her trade union the first in the struggle for an improved standard of living for her class, yet never losing an opportunity to point out that this, possing the organization of 89 Scouts.

an opportunity to point out that this, too, is but taking the outposts, while the city of economic freedom lies be-youd to take.

She is in the suffrage bolies, work-

She is in the suffrage bodies, working for the most fundamental right of men or woman, and the means to all other rights, yet all the while aware that a beginning is not an end. A coworker, she is with women. She loves them that she is a woman, too sharing their immenorial wrongs, the indignity and dependence of her present-day position and dependence of their present day position, the shame of their sexexploitation, the discrimination against them under the low, in industrial disadvantages.

advantages.

The knows by heart Bebel's great o, ening sentence of his prasterpiece. "Woman and the working-min have since old had this in commin—oppression." She perceives that it is the oppressed which Socialism shall free, and he takes her stand there, for "woman and the working-

In the Berlin Tiergarten haugs an nothing; it is a great and hely cause

century idea." woman, whom we have not yet beheld it, but for whom it free-spirited, self-poised warrior woman—the artist's historical ideal. It is no inspiration to look upon this nobly wrought, fine creature, who embodies those elemental, great aftributes of woman, so long obscured and faisified, yet instantly recognized when presented through the medium of art.

It is as if one had lived and knew of the regiment that leads the the Chicago garment workers' strike, pursuing the constructive policy, it shall be the honor of Socialist women to compose the regiment that leads the van, that bears the brunt, a regiment of amazons like that splendid warrior of the Tiergarten.

WAR SPIRIT IS

(Continued From Page 1.)

er and a vow that such regiment shall be that of the Socialist women, her comrade in arms.

It has been advanced that Socialist women should fight segregated and aloof. It has been argued that since the great and multiplying woman's army is the subtle suggestion, the content of the subtle suggestion, the content where God meant her to be, and where

Women, too, are seeing beyond the cheap bribes of chivalry, which are of-fered to her by a social system which takes away from her every natural

dresses of those actively engaged opposing the organization of Boy Scouts.
We would also like reports of the work
done in this direction. Let us see to it
that the working class opposition is expressed wherever the effort is made to
form Boy Scout organizations. Send

WOMEN AND SOCIALISM

I believe it is true of many women, as well as many men, that they have read books treating of the principles of Socialism in a general way, but did not grasp those principles because they were not definitely enumerated and explained.

The three main principles of Socialism are Surplus Value, the Class Struggle, Economic Determinism. These names look formidable, but the ideas of they represent are not especially difficult to understand.

SURPLUS VALUE

Under the present capitalist system of industry, which we often call capi-sm, the chief industries are owned by capitalists and by combinations of italists called corporations and trusts. The capitalist class, because of its terain of the industries, has the power to exploit the working class out

of most of its earnings.

The working class consists mainly of wage earners and farmers.

The working class consists mainly of wage earners and farmers.

The wage earners are dependent upon the capitalists for their jobs, because the capitalists own the industries in which the wage workers literally must work in order to earn a living. Exercising the power which this ownership brings to them, the capitalists compel the wage workers to work for them for a fraction of the value of their labor. They keep the rest themselves. This surplus, which the capitalists enjoy but do not earn, is called surplus value. The capitalists extort still more surplus value out of the workers by charging them extortionate prices for the things they buy.

The farmers are gouged right and left by the trusts and other industries by means of high prices. They pay vastly more for the things they buy than it costs to produce them.

It will thus be seen that the capitalist class extorts surplus value out of both of the great divisions of the working class. There is no way in which we can arrive at the exact degree of exploitation. Statistics show that the capitalist class exploits the working class out of more than half the value of its labor. Beyond that we can only guess, but the probatility is that the figure runs up to two-thirds or three-fourths.

THE CLASS STRUGGLE

THE CLASS STRUGGLE

THE CLASS STRUGGLE

The workers constantly struggle against the capitalists ___ecure __ arger portion of the surplus value which they earn, and as they become more enlightened they struggle to secure the whole of it. The capitalists constantly struggle against the workers to keep them from accomplishing these objects, and even to diminish the portion they already receive, so that they themselves can retain the surplus value and thus enjoy immense wealth.

So, surplus value is the cause of the class struggle. At the present time the capitalist class has control of the national and state governments, through its political parties—the Republican and Democratic parties. They use these governments—the regular army, the militia, the courts, etc.—to help themselves in their struggles against the working class. Most of the cities are also under the control of the capitalist class, and the police in such cities are used for the purpose of helping the capitalists to win the strikes.

But the less exciting evidences of the class struggle exist on every hand sil the time. All one need do is to look about him with open eyes and he cannot help seeing that society is divided into two classes and that the interests of these classes are antagonistic to each other.

I am aware that the term class struggle sounds harsh to those who have never heard it before. Gentle natures would prefer not to have any class struggle. But we have to deal with facts. The classes exist. It is not our fault that they exist. We wish they did not exist. But they do exist. And the capitalist class is constantly gnawing at the vitals of the working class.

ECONOMIC DETERMINISM

Economic Determinism is sometimes called the Economic Interpretation of History, and sometimes the Materialistic Conception of History. None of its hard names are strictly accurate, owing to the poverty of the English language. But a knowledge of this principle throws a searchlight upon the whole of history and upon the origin and growth of institutions. I shall give it substantially as it is stated in the classic literature of Socialism.

and upon the origin and growth of institutions. I shall give it substantially as it is stated in the classic literature of Socialism.

In every historical epoch, the prevailing mode of economic production and exchange, and the sociali organization necessarily following from it, form the hasis upon which is built up, and from which alone can be explained, the political and intellectual history of that epoch. Consequently, the whole history of mankind, since the dawn of civilization, has been a history of class struggles, contests between exploiting and exploited classes. These class struggles form a series of evolution, in which a stage has now been reached where the exploited class—the working class—cannot attain its emancipation from the domination of the exploiting class—the capitalist class—without, at the same time and once for all, emancipating society at large from all exploitation, oppression, class distinctions and class struggles.

The first spech of civilization was the long period & ancient chattel slavery. The master class owned everything. It exploited the slaves out of most of their earnings. And, guided by its economic interest, struggled to release itself from the domination of the master class.

By reason of economic changes, this first spech gradually merged into the second epoch—the feudal system. The feudal lord class owned the means of production. It exploited the serfs out of most of their earnings. And, guided by its economic interest, its irst spech gradually merged into the second epoch—the feudal lord class.

In course of time and by reason of economic changes, the trading class and itself became the modern dominating capitalist class. In this process, the serf class was emancipated from serfdom. But it only changed the form of its servitude. It respected in the capitalist class. Thus the third—the present—speck was shered in. The capitalist class. Thus the third—the present—speck was shered in. The continuing class. Thus the third—the present—spect was shered in. The continuing class.

THE OUTCOME

THE OUTCOME

The working class is constantly growing in numbers and in ability. The Socialist party is the political expression of the working class. Guided by the economic interest of the working class, the Socialist party, with the able co-operation of the union movement, proposes to wage the class struggle at the ballot box until it wins.

When it wins, it will make the exploiting industries collective property and run them for the benefit of all the people. It will guarantee every woman and man an opportunity to carn a living. Those who do the necessary and useful mental and manual work will receive the full value of their labor. They will no longer have to let capitalist parasites rob them of surplus value in order to get a change to work for a subsistence.

The economic reason for class division being removed, the class struggle will cease, the classes themselves will cease, and we will be a homogeneous people, with all the surroundings that make for happy, wholesome lives, and with wide-open avenues to all the higher things of life.

"THE FOURTEENTH CHAPTER"

BY ALICE HENRY.
(Editor of LiPE and LABOR.)

If you inquired at the counter of bookstore or the desk of a public among women, so long kept down and the parallel uprising among the work.

SPECIAL

very wordy ranks among the few works which have evolutionized thought and helped humanity along a fresh line of

progress.

But more than that, It is doubtful if any book ever written has been of equal importance as far as women are concerned. For Lester Ward is the first writer to systematize and place on solid basis the theory that woman is the race "that the female sex is primary and the male secondary in the organic scheme, that originally and normally all things center as it were about

the race "that the female sex is primary and the male secondary in the organic scheme, that originally and normally all things center as it were about the female and that the male, though not necessary in carrying out the schema, was developed under the operation of the principle of advantage to secure organic progress through the crossing of strains."

Through this the writer explains the early times when woman as mother and home founder and inventor of all the primitive arts reigned supreme. How, ancrificed to be maternal duties she gradually sank and man rose to the postion where he could and did exercise the most cruel domination.

With his rise came the dominance also of the fighting instinct, the appear to force, when might became right, ambition a noble frailty and the tender cherishing motherly instincts were be littled and diaregarded.

For the masculine element as many earlier writers have seen is daring, advancing, but often destructive. The

Women Working for Socialism in Chicago

Active Manher of the Woman's Agita-

LBONGRA PEASE.

MRS. ANNA K. HULBURD "acialist Woman's

Why Women Should Vote

To my mind, there are four lines of argument in favor of women's suffrage:

THE MORAL ARGUMENT .- The point here is to dignify and strengthen woman's position in the h to dignify and strengthen woman's position in the human family. Moral considerations of every kind in the welfare of the race demand that woman should occupy a position of dignity and strength in every sense equal to that of man. For woman to be dependent, is for her to be put at a disadvantage in comparison to man. This in itself constitutes a moral menace to the race. I need not develop the details or application of this principle. The right to vote, because it adds just that much strength to woman, adds that much of dignity to her position, and increases the moral safety of the race.

2. THE POLITICAL ARGUMENT.—The political argument for woman's suffrage is simply the argument for democracy. We believe in a government of the people, by the people and for the people.

Women are people.

If democracy is to succeed; if it is to endure; indeed, it is to be at all, we shall have to include women in

Democracy presupposes the participation of all in the affairs of government. There is not a single concern of the collective, social or civic life of mankind, in which woman is not as deeply and vitally interested as man. In many things, increasing in number with every new phase of our developing civilization, she is even more interested than man, and, therefore, the mere idea of democracy itself, commits us to woman's suffrage.

And God only knows, perhaps, how much the human race has lost in the past by not having in the councils of the civic life, where the destinies of the race have been settled, the keener sensibilities, the finer sentiments and the deeper intuitions of the mother heart and the mother love of the race. Democracy presupposes the participation of all in the

love of the race.
3. THE DOMESTIC ARGUMENT.—But even a

3. THE DOMESTIC ARGUMENT.—But even a stronger argument for woman's suffrage is the one growing out of the problems of the home. Housekeeping is becoming more and more a public function.

A century or so ago, housekeeping had a great many details that have since gone out of the home and into the factory. Then the weaving, the spinning and the making of clothes was a necessary part of housekeeping. Today they are all done in the factory.

Then the housewife would go to the wells to draw the water. We have a different system now. Then it was not infrequently the function of housekeeping to assist in the milking of the cows, and, at least, to take care of the milk and prepare it for the household. Then the bread was baked at home. But now it is done in the b kery.

So, that all tless things that were function of the home and housekeeping, have now become part of the social functions, and yet woman is no less deeply and vitally interested in these problems on that account. But her one chance to have anything to say concerning these her one chance to have anything to say concerning these matters now is for her to have a voice in political

affairs.

The questions of food, clothing and shelter—these three are the great problems of the home. But the clothing of today is made in the factory, oftimes in the sweat shop. Stockings, shirts, sheets and towels, all these come from the factory. The mother ought to have something to say about the sanitary conditions in which they are manufactured.

Not long ago a woman was found doing some coving

thing to say about the sanitary conditions in which they are manufactured.

Not long ago a woman was found doing some sewing on garments of this kind, while on her lap lay a baby, sick unto death, with scarlet fever. About the same time one of the factory inspectors discovered a family in one of the sweat shops shelling peas and piling the meats in near little piles on the cover of a bed in which lay their father, dying of smallpox.

Now, the woman is deeply concerned about things of this kind. It is distinctly her business to be so concerned. She demands the possibility of improving such conditions. But the only way they can be improved now is by legislation, and legislation can be effected only by political action. And, therefore, she demands the ballot. Or if she does not demand it, we should all insist that she have it, and exercise it. We need her assistance upon these matters.

ALL AROUND

THE HOME

The same may be said with regard to that great problem of the adulteration of foods, which is a distinctly domestic problem. So, also, with the question of the water supply, which, if it is not pure, often puts the housewife to the necessity of spending twenty minutes to an hour per day, boiling the water. So also with the problem of the garbage disposal and sewerage. These are public functions. In every city they are either performed by the nunicipality directly, or at least are subject to public regulation. But they are, at the same time, social functions, and woman can reach and effect them only through political action.

And the same may be said of building laws, health

And the same may be said of building laws, health departments and a multitude of other things that affect

departments and a multitude of other things that affect the home directly.

And, so, by every consideration, the welfare of the home henceforth demands that woman should vote. It is not at all a question of whether some of the women WANT to vote or not. If there is a woman who is not concerned about matters of this kind, it is simply because she is not alive to the facts and forces of modern life—she is unware of the tremendous influence of these things upon her own peculiar conditions, duties and responsibilities. And she should deeply enough interest herself in these problems so as to want every possible power by these problems so as to want every possible power by which she could improve them. And the chance for this, of course, is the ballot.

which she could improve them. And the chance for this, of course, is the ballot.

4. THE ECONOMIC ARGUMENT.—And, finally, as the woman's work has left the home and gone to the factory, so the woman is following her work. She is going to the factory. And it is not a question of whether she wishes to go, her economic interests, and the logic of the situation compals her to go. If she is to exist at all, if she finds any place to stand and make a struggle for existence in our modern industrial life, she must fight it at the center, in the factory.

There are many millions of women and girls in America already at work at gainful occupations, and, in many cases, the hours are unbearably long, the wages pitiably small and the conditions desperate and unsanitary.

All winter long thousands of women and girls have been struggling for better conditions in these respects in Milwaukee. The garment workers have been on strike for months. It is the old story of long hours and short wages in the presence of increasing cost of living. The situation often grows desperate.

What a spectacle!

could but elect to office men and women committed to a program of this kind.

And the womanhood of the world is beginning to understand this. And the strongest argument of all, the most intense domand for woman's suffrage, is coming thus out of the economic struggle of womankind.

I don't wonder that the suffragists of England are militant. That they are desperate. Their economic degradation has made them so. They demand the ballot as one of the means of beating back these conditions.

And, finally, we believe it is becoming apparent to the womanhood of the race that the tragedy of their lives is due very largely to the economic conditions that robs them of the home and home life. Of how many millions of capable and healthy women of mature development may it be true that the reason they have no home is because economic conditions have made the wages of the young men who should and would have married them, so low that they did not dare to undertake the responsibility of home building, and so put it off, year after year, and, finally, abandoned it altogether?

Conditions of this kind, abnormal and unnatural, cannot but result in things that are destructive of the home and home life of the race, and, therefore, of its morals and its happiness.

How, then, can anyone stand and argue against a

and its happiness.

How, then, can anyone stand and argue against a proposition on the side of which are arrayed the demands of so many vital considerations?

situation often grows desperate.

Thousands of women and girls struggling for the merest elements of existence in a great rich country

And, yet, these conditions are all of them subject to legislation by our legislative bodies. Hours could be shortened. Wages could be raised; sanitary conditions improved and finally the cost of living reduced, if we could but elect to office men and women committed to a program of this kind.

lation to this new and most revolutionary thought. Of the Gynococentric theory, as it is called, no thinking man or woman can afford to be ignorant. It is adopted by many other and younger writers who are developing it on their own lines such as Professor Thomas in "Sex and Society." But especially by Mrs. Charlotte Gilman, who has placed it in her books in a most fresh, witty and popular light. Her "Androcentric Theory," which ran through "The Foreruner" and has since come out in book form is a popularizing of Lester Ward's "Fourteenth Chapter:" THE OLD RE

DICK'S REVELATION

He was sitting in the old armchair by the open grate fire where his father used to sit every evening, smoking at pipe. The clock was ticking on the smantel. The old prints of "Washington Crossing the Delaware" and "The Bpirit of "76," were looking down upon whim from the wall. The old sofa and chairs and tables with their deilles and tidles, their embroidered pillows and crasty quilts, surrounded him like old friends. The embroidered motto that hung above the sofa—"God Bless Our Home"—evoked a grateful echo in his heart.

By META I. STERN

to compel her to abandon her broad. In tumnar interests for the intensel personal interests of one little, isolated brome, would be like trying to force an eagle into the cage of a canary bird. Do you know that what you asked of Elizabeth was nothing less than a complete sacrifice of her whole personal tity."

Dick did not answer his mether's question. He was too surprised to argue. He only kept exclaiming: "Why mother," until he finally composed himself sufficiently to say: "Why, mother, your whole life has "Why, mother, your whole life has been one of complete self-sacrifice. You

MILA TUPPER MAYNARD

ELLA REEVES BLOOR, National Organizer of the Socialist Party.

SEX UNREST

BY THERESA MALKIEL

In this age of social unrest when every passing day marks the progress of evolution, it is only natural that woman, too, should be included in the general transformation.

Taking our own country as an example we must acknowledge that the years which have intervened between the revolution and the present have wrought marvelous changes in the acvelopment, culture, mode of living and general welfare of the country. Enough has been accomplished to enable historians to write volumes of history, filled with narratives of many valuant deeds, of brave heroes, of many achievements.

It must, of course, be admitted that during this period men were the only ones to come down into posterity, for through all the pages of history written by various people, at different periods, from opposite viewpoints, the American woman figures only as far as she has occasionally exerted some slight influence upon the action of some man.

So far feminine half of humanity appears in the history of this country only as the necessary, indispenable appendage of man. And yet, it is certain that during the process of revolution that has since revolutionized the entire existence of the Western Hemisphere, woman, too, has played a role; she too, has paid the toll to civilization; she, too, was rooted out of her old occupation, her environment and inevitably of her former ideals.

But, in spite of these facts, according to the laws of the land, society persists in assigning her to her old time sphere—the home. Society persists in holding back the tide of progress by denying her rights to activities of which she is part and parcel, activities which she hering of hundreds of thousands of moving picture shows, continuous performances and better class theaters, bear as much witness to it as the tremendous growth in the suffrage ranks.

The reader must no more be astounded at the fact that the suffrage party in New York City has succeeded in gaining thirty thousand adherents in one year, than over the fact in the same New York City, within an area of fifteen square blocks, five thousand women spend their afternoons daily in playing cards for gain. Within the same area flourish two dozen or more moving picture shows patronized during the day almost solely by women. In the same area are also located several continuous performance houses, stock company play houses and a couple of better theaters, who find the matinee performances, when they draw their trade from the gentler sex, the most profitable of all. Outside of this the neighborhood claims dozens of literary, settlement and other clubs and last, but et, it counts a few thousand women within the suffrage ranks. All told, almost every other woman today seeks something with which to occupy her time outside of her God given sphere -the home.

It must be admitted that the woman who spends her afternoons in playing cards is as much permeated with the spirit of unrest, subconsciously perhaps, as much dissatisfied with her narrow sphere of action, as her more far-sighted, more intelligent sister who utilizes the afternoon for the purpose of distributing suffrage literature, for mounting the platform in behalf of woman's rights, anxiously and earnestly pleading to be permitted to become a useful member of society.

THE CHICAGO DAILY SOCIALIST

Enfered as second-class matter, Dec. 22, 190 s, at P. O. Chicago, under act March 2, 1879 Issued by the Workers' Publishing Society, 186-182 Washington St., Chicago, Irt.
Telephone Number (all de partments) Frankfin 1168.

The publication of a signed article dose not mean indorsement by the Daily Socialis of opinions expressed therein. Enclose post age for return of unused manuscripts.

Woman in Civilization

There are three factors in organized society that indicate the degree of civilization which has been reached.

First, the treatment of woman by herself and man.

Second, the treatment of man by man himself and by woman.

Third, the treatment of both by both.

It is evident that woman is treating herself better today than she did yesterday. She has placed a higher value upon herself and is realizing to a more complete degree her position.

Man is treating woman more in keeping with good sense than he did in the past. He is realizing that she is the necessary half of himself.

Man is treating himself with more respect than he did in ages gone by. He has crawled out of the submissive stage into the selfassertive stage.

Woman is treating man with more dignity. She used to look upon him as her superior and would bow down to him as her master and lord. This more than any other influence has degraded man. Nothing so degrades a man as to give him the notion that he is superior to woman. She has brutalized him by her own submission.

The most important step in the progress of civilization is the two step by man and woman. Whenever the idea reaches the mind of both that they are equal, civilization will begin in earnest.

Out of this will grow a spirit of co-operation between man and woman that will penetrate the offsp ing and make impossible a fight between the people as a whole.

Class distinction originated in the sexes. The stronger took advantage of the weaker. It spread from the smaller economic condition into the larger industrial and social life.

The curse of the ages is the oppression of woman.

Moreover, the oppressor never yet took the foot off the oppressed. Woman, in order to get free, must free herself.

To free herself from the lordship of man she need only show

that she is his equal.

Man is ready at once to accept woman as his equal. He has to have her and he would rather have her in her full capacity of an equal than as an inferior. He is selfish and wants the best there is. Woman, on the other hand, does not want man as her inferior. She, too, wants the best there is,

With this ideal, man and woman will enter the economic, political, social, educational and domestic life to live and develop the highest instincts and the noblest qualities of the human race.

Together they will turn down the enemy and drive out the exploiter. Together they will rise to the supreme position of rather the whole earth, enjoying the abundance that a generous nature has

That will be civilization.

The Spunk of the Stronger Sex

Let no one believe that woman is the weaker sex. She is as strong as man-stronger at times.

A concrete example of it is found in the revolution women created in Seattle not long ago.

The state of Washington has equal suffrage for men and women A school teacher in Washington is held to be at least as intelligent as a ditch digger. In Chicago an ignorant negro is considered more intelligent than Ella Flagg Young, the city school superintendent, when it comes to running the city, state and nation.

So they let women vote in Washington.

They also feel that if a man elected to office does not serve the

people he should be replaced by another individual. So they have what they name the recall.

Now the mayor of Seattle became especially friendly with the lower element of that city. In fact, he challenged the decent people to have either law or order.

The women would not tolerate this state of affairs. They called upon the men for help and went after the rascally mayor. He was ousted and a clean man put into his place.

The women of Chicago would have done the same thing with Busse if they had been able. But Chicago said no. The women were not allowed to speak above a whisper.

There is great need of a radical change in Illinois as well as in all other states where woman is still without the ballot.

Much is attempted by the women all over this country. Every man who has sense enough to know what is good and true will give all aid he can.

The Socialist movement knows no sex. All are human beings in need of the natural resources and the comforts and enjoyment of life. Only in the recognition of the equality of man and woman can there be progress toward a better world.

Women, What Are You Going to Do About It?

BY JOSEPHINE CONGER-KANEKO (Editor of the Progressive Woman.)

I am writing this from Kansas City. Through the courtesy of a friend, I came up here yesterday to see the wonderful Russian actress, Mme. Nazimova, play "Little Eylof."

came up here yesterday to see the wonderful Russian actress, Mme. Nazimova, play "Little Eylof."

We stayed last night at Kansas City's "swellest" (that is what they call it) hotel (I as the guert of my friend). After dinner we sat in the pariors and watched the people.

We saw many expensive gowns, and many men "properly" attired, manicured, shaven, silk-hatted. But, the rates of the people. This marks at breakfast, eaten in a marble-lined room, with a black man at every mahogany table to do the bidding of the guests, I again observed the people—closely—for I was looking for something that I could not find.

Then I said to my friend: "Isn't it remarkable how hard it is to discover a really cultured face among all these faces?"

And she said: "Isn't it? And, do you know, I think real culture is growing rarer and rarer among our people; don't you think so?"

I answered that I didn't hurw (I haven't observed society so long as my friend, who is in her fifties), but I didn't doubt that it was so, owing to the very materialistic attitude our people are taking toward life. The fierce lace for money, and the great ambition to appear "prosperous" leave no room for so fine a thing as meatal and spiritual culture.

Last evening, in a seat behind me at the theater, I heard a woman ask her

for so fine a thing as mental and spiritual culture.

Last evening, in a seat behind me at the theater, I heard a woman ask her scorr, what Alymers meant when he said the shacks where the poor people lived should be "razed to the ground." The man explained—"Razed to the ground means to tear down. He means they shall tear down, or burn these houses."

And that woman, dressed in elegant clothes, sitting in one of the expensive seats in the house, did not know this common word of our language!

What, then, could she unde stand of this most intricate, psychological

study, as interpreted by the Russian artist?

Cheap minds, cheap display. This is what capitalism does for us.

Those who care for our people as a nation; what do they think about it?

What do our women think of the prospects for their children? What do they intend to do about it?

Not only a want of bread and clothing threatens the members if our while people;

ignorance, cheapness, vulgarity.

It is a problem for the mothers of the race, who are not in the fierce conflict, grappling with the actualities of bread-getting.

WOMEN, WHAT ARE YOU GOING TO DO ABOUT IT? You can, if you will, help to shape the environment of your children in the future?

Will you do it?

- Woman's Day -

Woman's Day has become an institution in the Soclaist movement of America. As the party grows, as the membership becomes more enlightened new duties will

the membership becomes more enlightened new duties will arize, new problems press for solution, new methods present themselves.

We are approaching the tenth anniversary of our party organization. We have attained to the dignity and legality of a political organization; the old party leaders can no longer (make their campaign plans and calculations without reckoning the Socialists in the game.

The Woman's Department and the setting apart of a special Woman's Day is indicative of the need of interesting women in Socialism and a willingness on the part of the organization to respond to that need.

The official status of the Woman's Committee is evidenced by the fact that it is regularly elected by the party membership. The National Executive Committee issues —s call for the observance of Woman's Day.

By request of the Woman's Committee and also the National Executive Committee the Progressive Woman issues a Special Suffrage Edition. The Socialist press has generally fallen in with the idea and several of our papers are getting out a special Woman's Edition.

It is pertinent to sak: What is the reason for and purpose of Woman's Day?

The Socialist party has for its object the overthrow

purpose of Woman's Day?

The Socialist party has for its object the overthrow of the present order of society. Its goal is the sconomic and political supremacy of the working class.

Women, at least some women, have aiways does their part and their share in the creation of the world's goods. She is therefore an interested factor in the solution of the labor problem.

To is not some worlder of the control of

The labor problem.

To ignore any portion of the class vitally concerned in this approaching social revolution is unjust and unwise. To permit the women to remain indifferent to this great cause is a crime against woman as well as against the movement itself. Woman's Day, therefore, has a true fold other.

two-fold object:

First—To arouse the women and point out to them
their position in society, the causes for their economic and
sexual slaveries, and to interest them in the political
party that seeks to abolish sil forms of exploitation and
establish the economic political and social equality of

men and women.

Second—To educate the men to take a correct and scientific viewpoint of woman, her work and her place in human society. Men who possess this proper knowledge will work as zealously to bring women into the party as they do to persuade men to join it.

No one will ever know how many women in the mills and factories and stores and offices are driven to com-

mercialize their bodies. No one will ever know how many women enter the marriage relation for the sake of a home and to excape the burden of self-support, and who remain within these bonds only because of economic

This is the WOMAN'S TRAGEDY.
THE ECONOMIC SECURITY AND INDEPENDENCE OF WOMAN WILL MAKE SEX EAPLOITATION AN IMPOSSIBILITY.

Every woman ought to lend her best energies and efforts toward aboughing the condition that necessitates sex-exploitation. This is the mission of the Socialist party and it is for this reason as well as others that wom should join the Socialist organization.

Every self-respecting man should seek to free womankind from dependence on man, for only in a state of economic freedom for women can men find an environment that truly ennobles and makes them comrades and companions of women and not masters and tyrants.

This idea of the home being the proper place for wom-

companions of women and not masters and tyrants.

This idea of the home being the proper place for woman grew out of the coudition or period when the home was the center of production. Socialism does not anticipate nor aim to provide for an idle class in society. Socialism will not take women from the factory any more than it will take men from it. Socialism will revolutionize the factory life so as to make it easier and better for both men and women.

As Charlotte Perkins Gilman so finely points out in her work. "The Home," the hame should be the place where we come when we have done our work: the place where we go for rest and companionship and leisure.

By co-operating with the economic forces of society we

By co-operating with the economic forces of society we seek to establish a new order in which class privileges will be entirely eliminated. Inter-related with these class privileges, through which working women are exploited, the same as men, is the discrimination against woman and

the exploitation of her sex.

Woman's Day is being observed for the purpose of enlisting women in the comrade army of the Social Revolu-

The great lesson for men to learn is that the passing of class exploitation must carry with it all ser exploitation. Anything short of this is a travesty.

Wage slavery, sex slavery, belongs to the days of private property in the means of life.

Social ownership will make possible the opportunity for women to live their lives as between beings.

We shall be comrades with common interests, sharing the work and responsibilities and rewards of life.

May this "Woman's Day" lostitution in our party besten the coming of the new social order.

Work While We Wait By May Wood-Simons

The fact that 100,000 German women have become members of the German the ballot. With the entire party or time since they have been earabled to join political organizations is a guarantee that women have become an integral part of the Socialist movement of the world.

SHE WHO IS TO COME

BY CHARLOTTE PERKINS GILMAN

A mother—with a great heart that enfoldeth The children of the Race;

A body, free and strong, with that high beauty
That comes of perfect use, is built thereof;

ind where Reason ruleth over Duty

A Human Being of an unknown splendor, Is she who is to come!

A self-poised, royal soul, brave, wise and tender, No longer blind and dumb;

And Justice reigns with Love:

A woman—in so far as she beholdeth Her one Beloved's face;

States were the first to inaugurate and bring women into contact with positive woman's day in the Socialist party. It has proven itself so excellent an agent for reaching women that at the International Socialist Woman's Conference held in Copenhagen it was decided to make such a day international.

This day has been especially devoted to pressing forward the sgitation for the ballot for women. On this third Woman's Day in the United States many new problems face the Socialist women of all countries many new problems face the Socialist women of all countries to agitate indefatigably among the laboring masses; enlighten them by discourses and literature about the social necessity and importance of the political emancipation of the female sex and use every opportunity for doing so. For that propaganada they must make the most especially of election to all sorts of political and public bodies—local and provincial, administrative bodies, arbitration courts for trade dispute of the continu-

ministry, took chemistry

actively toward securing labor legisla-tion for women. This subject also was taken up at the International Socialist

Three things are of prime impor-1. The establishment of hours of work

for women and children.

2. The prohibition of the employment of women in such processes as will be injurious to mothers and their chil-

dren.
3. The protection of women before and after they have become mothers.

These three points can be made the center of activity for Socialist women. Actual investigation of conditions, fre-

quent articles in the labor press and efforts toward arousing a demand for such protection for women will work in the right direction. The International Woman's Confer-The International Woman's Conference also outlined activities for the pro-

tection of children. Those formulated by the Social Democratic Women of Germany were Obligatory gratuitous feeding 1. Obligatory gratuitous reeding of all school children in school times, and

all school children in school times, and upprovided for children in vacation.

2. Establishment of school homes for the physical and moral care of upprovided for children in vacation.

3. Arranging for camps, holiday trips and eports for calidren.

4. Appointment of school physicians and deutists.

5. Sanatoriums and out of door schools for weakly children.

Here is sufficient variety to meet conditions in cities and villages, and all the work can be used as a means toward

the introduction into the schools of special training hearing on the care and
feeding of infants. The need of this is

gression. of course especially felt in Germany,

mothers are forced to give so little time to their young.

It is a pedagogical principle that the securing of knowledge must be followed by activity that uses that knowledge. So in our Socialist woman's work theory must be succeeded by definite activity. This, one can believe, is the secret of

the power of the Danish and German movement among both men and women. The theory of the class struggle has led its holders to seek the various phases that struggle is taking, and they engage today in an attempt to meet the situation.

Not for a moment is the ultimate accomplishment of the Socialist goal lost sight of, but THEY WORK WHILE THEY WAIT.

The work among women has brought

The work among women has brought hundreds into the movement in the past two years. It remains now for us to use their enthusiasm and solidify their interest by putting them to work. called a mayor and reversed the policy cles, who married Miss Gould, aged 18, of the "wide open town." I do not want a black woman for a slave I must necessarily want her for a wife.

"I need not have her for either. I can just leave her alone. In some repects she certainly is not my equal; BUT IN HER NATURAL RIGHT TO EAT THE EREAD SHE HAS EARNED WITH HER OWN HANDS without asking leave of myone else, SHE IS MY EQUAL, AND THE EQUAL OF ALL OFFICER."—Abraham Lincoln.

[From his apsech in Springfield in 1857 on the Dred Scott case.)

It does not require a very vivid imagination for one to see that, in order to have bread to eat we must first have grain to mill, and to have grain land is necessary, also tools and machiney to till the land, in short we have the right to all that we produce, and we must have all to have bread, or else remain as we are at present—slaves to those that do own the land and machine.

"Wimmin Ain't Got No Kick" BY KATE RICHARDS O'HARE.

I spoke one night not long ago in a typical country town of two housand, a town just like thousands of other towns, and after I had finished a man came up and spoke to me, a typical man, just like millions of other men. He said he liked my speech and thought most of it was true, but that my husband was evidently a poor specimen to allow me to gad about the country and that I would better be home caring for the babies and, as a last crushing blow to my presumption, he declared: "Well, no matter how bad things are, wimmin ain't got no kick."

As I looked at the man's rugged, honest face, saw the frankness with which his frank eyes looked into mine, my mind went back over all the days I had been studying the problems of the working woman and her sister, the fallen woman, and I thought "How long, O Lord, how long" will men insist on being so abjectly ignorant?

"Wimmin ain't got no kick." No, we women should not object hat capitalism, the machine age, makes machines of us all. Threefold machines; first machines for child bearing, machines to keep always the supply of child workers for the factory replenished. We should bow our heads in submission when Teddy the Terrible, he of the big stick and the big teeth, charges up and down the earth attending to every one's business but his own, reviled us and called us all manner of vile names because we did not produce babies fast enough to suit his masters. We should have been duly grateful when priest and minister, college professor and sycophant of every kind, parrot-like, mouthed his vile cant phrases. What did God make woman for but to bear children when the sateless maw of the factory yawns and the machines cry out for cheap workers to make wealth for its masters.

Capitalism honors us most highly; not only are we to be the child-bearing machines of the race, but wealth-making machines as well. Here in the United States there are six million women who have been forced out of the home, denied the God-given right to wife and motherhood and forced to be wealth-making machines in the industries of our nation.

Capitalism and its upholders are chivalrous also, they freely admit it themselves, good Democrats and Republicans place woman on a pedestal, exalts motherhood and praises virtue, but, nevertheless, it demands of woman to become the machine to gratify their beastly passions and provide the machine of prostitution. United States we have seven hundred and twenty thousand known prostitutes to fill our brothel and add the crowning glory to our civ-

Not that alone, but the life of a prostitute is so terrible, so unnatural, that the average life is less than five years. Every year out from the brothels and dives of our nation are carried one hundred and thirty thousand women to fill unknown graves in the potter's field and one hundred and thirty-five thousand young girls must walk that slippery, rock-strewn, blood-stained, briar-encompassed path that leads to the brothel. Walk always down the path of destruction pushed onward by the hand of want and poverty, dragged down by the hand of shame or snared by the white slaver.

Nor is this all the most pitiful, most revolting and soul-sickening feature of the bedebasement of womanhood by capitalism is never discussed, never understood, and always kept in the back-

The pulpit, the press and the platform have for the last year been full of discussions of "the fallen woman" we have ranted and canted over her, shed crocodile tears and wept in maudlin sympathy. but we have overlooked one fact. There are seven hundred and twenty thousand prostitutes, but they are prostitutes simply because they have been forced to work at wages that will not support them, and they must either sell their bodies or starve. Adding insult to injury in our attitude on this question, we have overlooked the fact that it takes twenty men to support one fallen woman and the parasites who prey on her, and there are just about twenty times as many fallen men as fallen women.

Who are the twenty times seven hundred and twenty thousand fallen men? Your sons, your nephews, your neighbors' sons for the most part. Our ignorant boys, through whose veins the blood of youth flows warm, who know and harken to the age-long call-of race preservation, but who know little or nothing of the black plague of the brothel.

Our sons go down to the brothel and there in their warm, fresh youth contract the germs of the vilest disease known to medical science, the one incurable disease. The disease that strikes down not alone its own generation but lies in wait for generations yet unborn. That loathsome, nameless horror that has killed more men than war, ruined more women's lives and blasted more babies than all other diseases combined.

Back to the palace, the cottage and the hovel comes this nameless horror, the fruit of prostitution; back to our innocent daughters, back to our unborn, back to curse and main and slay, and we women it is who suffer most, must fill the brothel and feel the curse at home.

As a result of these things, medical statistics tell us that one child in twenty is born into the world cursed before ever it sees the light of day, that one wife in fifteen must go on the surgeon's table or under the doctor's care, paying the penalty of the husband's trans-If all the voters had one pair of eyes and one pair of ears and

where such members of the working I could force them to go with me as I have gone to the blind schools, mothers are forced to give so little where blind eves will never see and hands grope in everlasting darkwhere blind eyes will never see and hands grope in everlasting darkness, to the deaf and dumb institute, where deaf ears will never hear and dumb tongues never speak, the imbecile asylum where the idiot and the imbecile mutter and mumble in their degredation, to the insane ward where the insane shriek and tear their hair or sit gazing out of vacant eyes into a vacant world.

Oh, if I could only force them to go with me to the free hospital

and clinic, the slum and gutter, yes, and to the fashionable watering place, the hot springs, where gold can gild but not hide, bent, distorted bodies and loathsome eating ulcers. If I could only make mankind see, as I see every day, the price we pay the soul-sickening price for the glorious privilege of voting the Republican and Democratic ticket, I know the whole battle would be won.

"Wimmin ain't got no kick!" No, not if we are dolls stuffed with sawdust, satisfied with fine phrases, content with false chivalry, willing to be fed on flattery, we have not. We women who happen to have been lucky enough to have annexed a biped without feathers who can supply a meal ticket and a certain amount of hobble skirts and jute puffs, "we ain't got no kick."

But we happen to be women with brains and hearts and souls, men who have developed enough backbone not to be compelled to do the clinging vine act, women who are womanly enough to feel for all womankind, motherly enough to mother all childhood, we certainly feel that we have a right to protest against the abhorrent demands of capitalism.

Not to protest alone, but to use all the brains with which we are endowed, all the power of our womanhood and the compelling force of our motherhood to relegate capitalism to the dim limbo of the past and make sure and safe the birth of the new social order.
