LABOR WON'T LET CARTER COME BACK

Harrison's Anti-Workers' Record to Keep Him from City Hall.

HERE'S PART OF THE CASE AGAINST CARTER HARRISON

LABOR RECORD

Placing of police on the cars of the Chicago City Railway Company, in the strike of 1903 at the direct request of the company.

Placing the police at the disposal of the packers in the strike of the packing house teamsters, prior to the street car strike.

Placing the police at the disposal of the packers during the great stock yards strike of 1904, at the close of which great labor organizations recoiled from the conflict shattered.

PUBLIC SCHOOL RECORD

Harrison Board of Education gave school land leases without revaluation clauses to the First National Bank, the Chicago Savings Bank, Stumer, Eckstein and Rosenthal, the Majestic Theater and others.

PUBLIC UTILITIES RECORD

Traction efforts to gain control of city streets for fifty years averted by Harrison when public was so aroused that personal violence was threatened against aldermen who favored the grants.

Harrison thereafter rode into office on the traction issue and made a fizzle of it.

Harrison effort to procure power from legislature to own and operate electric plants ended in a fizzle.

Illinois Tunnel steal successfully "put over" and gang politicians and financiers enriched.

POLICE RECORD

Herman Schnettler elevated to post of assistant chief of police through street car strike. Inspectors George M. Shipley, Inspector Nicholas Hunt and Inspector Patrick Lavin used to break the stock yards strike.

Police force "Piperized" and discipline found utterly lacking. Police Officers Bullis and Fitzmorris found to have been grafting from red-light district keepers. Other policemen convicted of criminality.

The strangest feature of the present majority campaign is the attempt of Carter H. Harrison to become mayor of Chicago again.

Carter Harrison is too smooth a politician not to be careful of appearances and he has been careful clear through his career, to keep his utterances free of bias against labor.

It is by his acts that his record becomes clear. His statements are continuously evasive.

The one thing which Harrison did which could be construed as being in the least favorable to labor was a decision that the police should walk beside and not ride on the strike-bound stock yards wagons.

But whatever Harrison gained by that action, slight as it was, he lost in 1903.

In that year the employees of the Chicago City Railway Company struck. The company speedily imported thugs. These thugs ran their cars on Westworth avenue, which had been the scene of trouble in the stock yards teamsters' strike.

Company Desires Rioting

The nature of the professional strike-breaker, as an experienced and proficient thing, is now well known and the so-called rioting on Westworth avenue was no doubt desired by the company.

It was followed by a visit to Mayor Harrison by two street car officials. Harrison then made Captain Herman Schnettler assistant chief of police and placed him in charge.

The cars were henceforth run at the convenience of the police department which was placed by Carter Harrison's orders at the disposal of the company. Harrison said the "police are neutral."

The newspapers carried stories of the police having pulled down and beaten

SOMEBODY'S GOING TO BE APRIL-FOOLED

Just Some Reasons Why Socialists Should Be Elected

Why a Socialist Should Be Elected City Treasurer of Chicago

By C. B. WHITNALL
(Socialist City Treasurer of Milwaukee)

It is a necessary department of your city government maintained at considerable expense.

The amount of money handled by it can be so manipulated as to yield a profit that should nearly, if not quite, cover this expense.

No banking institution would conduct its business as has been customary with city governments. The reasons for this are obvious.

If the treasurer be actuated by Socialistic principles, whereby the welfare of all is considered, very beneficial changes may be inaugurated.

Where so many millions of dollars are annually collected, the amount coming due but once a year, where enough is collected within a month to carry the city for a whole year, it is customary for a large proportion of this amount to be borrowed of banks and friends by firms and individuals at the current rate of interest to pay their taxes, after which the city's collection is deposited in banks, where it is left indefinitely for a much lower rate of interest.

There is no reason why these loans cannot be negotiated with the city at from three to six months at from 5 to 6 per cent, thus yielding the city quite an income.

For Chicago to be drawing 5 per cent on several million dollars' worth of deferred tax payment would yield enough probably for a schoolhouse once a year without any additional burden on a taxpayer.

Another possibility is in the marketing of your bond issues. Instead of placing them in the hands of brokers they could be deposited with your state treasurer, as is customary with trust companies, as collateral security, and let the treasurer receive savings deposits to the par value of the bonds thus deposited.

These savings of the people would pour in steadily at 3 per cent, where your bonds doubtless carry 4 and 4½ per cent.

It would also strengthen the self-interest in the city government of those who participate, and the interest payment would be kept at home in place of being scattered at different parts of the country.

You can frequently redeem bonds a few months before maturity, where the holder is anxious for cash.

We saved \$156 two weeks ago in this way.

Eliminate the self-interest of politicians by substituting the team work of the Social-Democrats and your city may become thrifty and not a burden upon taxpayers.

There are many opportunities for improvement within the treasurer's office where careful study if bestowed and actuated by the Socialist desire to improve conditions for the masses is desired.

Why a Socialist Should Be Elected City Clerk of Chicago

By CARL D. THOMPSON
(Socialist City Clerk of Milwaukee)

It is assumed that what a Socialist city clerk can do in Milwaukee a Socialist city clerk can do in Chicago.

This may not be entirely true, for the charter provisions, state laws and duties fixed by ordinances may be somewhat different in Chicago from what they are in Milwaukee.

Yet in general it is quite likely that conditions will be much the same in the two cities.

In spite of the fact that the city clerk's office is supposed to be one whose duties are mostly of a clerical nature and routine work, we have found in Milwaukee that the position is not without some degree of importance and responsibility.

The following matters, which have been handled in the city clerk's department in Milwaukee, might serve as an indication of the possibilities elsewhere:

1. The elimination of unnecessary employees. It was found possible to conduct the work of the department in this city with less employees than before, thus saving the city at least \$1,000 per year.

2. Influence for cleaner elections. The city clerk has charge of all election matters here. This includes registration lists. Through the activities of the Socialist movement over 17,000 names were stricken from the registration lists. This will make it impossible for "Roaters" and "repeaters" to vote on these names.

3. Printing graft stopped. In spite of the fact that the grosser forms of graft had been weeded out before, many instances of unnecessary printing remained.

They could hardly be called graft. At least not of the more vulgar sort. But they, nevertheless, were an unnecessary waste of the taxpayers' money.

Through this department an effort is being made to secure permission from the state legislature, relieving the city of the necessity of printing the official notices in three languages and three different papers. This expenditure is entirely unnecessary and a waste of money.

But it helps the newspapers. And so in the past they have been able to keep up the graft. This item alone would mean a saving of \$9,000 a year to the city.

Again, in the printing of council proceedings, on one single item, unnecessarily repeated over and over again, the city could save \$200 per year. On the printing of the registration lists \$900 a year will be saved.

4. In the conduct of elections a great improvement has been made by having a printed manual in the hands of all election officials, giving clearly and distinctly instructions based upon the election laws.

This being in the hands of every election official, it is every

(Continued on Page 2, Column 2.)

CAN THE REPUBLICANS AND DEMOCRATS FOOL THE WORKERS AGAIN?

By JOHN C. KENNEDY

The great majority of voters in Chicago are honest workingmen. Only a small minority of the voters are capitalists and professional politicians.

Therefore, if the enemies of the working class, the capitalists and the professional politicians, get control of our city government once more, it will be because they have fooled the workingmen into voting against their own interests. There is no getting away from that.

ORIGIN OF CAMPAIGN FUNDS

Now let us see which parties stand for capitalists and capitalist politicians and which party stands for the working class in this campaign.

The best way to answer this question is to find out which parties are getting their campaign funds from the capitalists and the capitalist politicians and which party is getting its campaign funds directly from the working people.

According to his own statement, Mr. Merriam, the Republican candidate, received the bulk of his campaign funds from Charles R. Crane, a wealthy iron manufacturer and an enemy of organized labor; Julius Rosenwald, president of Sears, Roebuck & Co., which has always fought organized labor; LaVerne Noyes, ex-president of the Illinois Manufacturers' Association, which has always bitterly opposed organized labor and progressive labor legislation; Alfred L. Baker, millionaire stockbroker, and Franklin MacVeagh, millionaire wholesale grocer—a Democrat who was appointed secretary of the treasury by Taft, the father of the injunction.

NEWSPAPERS HELP

Merriam is also receiving the hearty support of the capitalist newspapers that supported Busse four years ago (and still stand for him), the Tribune, the Record-Herald, the News and the Post.

In the face of these facts can anyone deny that Merriam—however great his personal honesty—is the candidate of the capitalist interests of Chicago?

These interests have always been the enemies of the working class, and they are hostile to the workers today.

A vote for Merriam means a vote for the interests that are behind him. Can those interests fool the workers into voting for them once more?

HOW ABOUT HARRISON?

How about Carter Harrison? Harrison's campaign funds are coming chiefly from two sources, the vice trust and the professional capitalist politicians.

Probably he is also getting a big boost from the beef trust, which wants to establish a private water plant, and from several other corporations.

But Harrison refuses to publish a complete list of his campaign contributions, so we will never know where he got all his money.

But we do know that the red-light district is solid for Harrison and that they are doing all in their power to elect him.

We also know that most of the "gang" politicians—that worthless crowd of political parasites that never did an honest day's work—are strong for Harrison.

Harrison, Hearst and Hinky Dink; Brennan, Burke and Tom Carey—that is the Democratic outfit. Do they represent the working class or the capitalists and their ward-healers? Anyhow, there is no guesswork about what Harrison will do. We know his record.

He showed where he stands when he had the gatling gun paraded up and down before the Building Trades headquarters during the lockout of 1899 and when he put the policemen on the street cars during the strike of 1903.

ABOUT SOCIALIST CANDIDATE

Fortunately the workers of Chicago are not restricted in their choice to either Merriam or Harrison.

There is another candidate in the field, the candidate of the Socialist party, W. E. Rodriguez. Where does he get his campaign funds?

From the corporations, from Crane, Rosenwald and Noyes, from the vice trust and professional office seekers?

NOT ONE CENT.

As was admitted a few weeks ago by the Tribune, the campaign funds of the Socialist party "come from the sweat and blood of the working class."

Certain labor leaders and business agents have stated that they indorse the Republican and Democratic tickets.

Just why LABOR LEADERS should indorse candidates BACKED BY THE ENEMIES OF ORGANIZED LABOR, representing parties that have done all in their power to oppress the working class, we will leave to them to explain.

But while some of these misleaders of the working class have indorsed the Republican and Democratic tickets, we wish to call attention to the fact that NOT A SINGLE LABOR UNION HAS CONTRIBUTED A CENT TO EITHER THE REPUBLICAN OR THE DEMOCRATIC CAMPAIGN FUND.

LABOR AIDS SOCIALIST PARTY

On the other hand, labor unions have not only indorsed the candidates of the Socialist party, but THEY HAVE BACKED UP THEIR INDORSEMENTS BY SUBSTANTIAL CONTRIBUTIONS.

(Continued on Page 2, Column 1.)

FINAL CAMPAIGN SPECIAL OF THE DAILY SOCIALIST

This is the final and biggest campaign special of the Daily Socialist in this municipal campaign, the like of which has never before been published in Chicago. It contains articles that should commend themselves to every voter in Chicago interested in his own welfare and the welfare of his family. It is the wind-up in a political

CAN THE OLD PARTIES FOOL WORKERS AGAIN

(Continued From Page 1.)

CONTRIBUTIONS TO THE CAMPAIGN FUND OF THE SOCIALIST PARTY.

We print below a partial list of these contributions:

Table listing contributions to the Socialist Party campaign fund, including Mosaic and Tile Setters' Union, Buffers and Platers' Union, etc.

WHAT THIS SHOWS

This shows where the Socialist party gets its campaign funds. Not from capitalists and corporations, but direct from the workers themselves.

Not only the trade unions, but thousands of individual workers, have contributed dimes, quarters, and half dollars out of their meager earnings to the Socialist campaign fund.

The Socialist candidates are workers themselves; they stand squarely on a working class platform; their campaign funds come from the sweat and the blood of the working class.

Can anyone doubt that this is the true party of the working class? In the face of these facts will the capitalists and their political henchmen be able to fool the workers of Chicago again? Nine-tenths of the voters are workingmen.

Will they vote for the candidates of the capitalists or the candidates of the workers?

Will they vote for the interests of themselves and their families

or for the interests of the wealthy capitalists who are exploiting them?

BIG SURPRISE COMING

We believe that there is a big surprise in store for the old party politicians on election day. The workers of Chicago are "getting wise" to the old political shell game.

They will not be fooled again. They are going to quit throwing away their votes.

They are going to try the Milwaukee plan to win Chicago for the man who works. They are going to unite at the polls and vote the straight Socialist ticket.

WHY YOU SHOULD ELECT SOCIALISTS

(Continued From Page 1.)

inct of the city on election day, constitutes a very decided influence in the direction of a clean election.

Every Socialist and every citizen may read in clear, simple language just what his duties and his rights are.

5. Many minor improvements have been found possible, such as the introduction of improved methods of the preparation and filing of the city ordinances, documents, etc., up-to-date methods of indexing and filing council proceedings and other official matters.

In Milwaukee the city clerk's department is run for from \$10,000 to \$16,000 per year less than it costs the cities of Cincinnati, Detroit and Newark—all of about the same size.

And yet we have already saved the city over \$2,000 per year, and unless the Republicans and Democrats in the state legislature block us we will save \$10,000 a year more of the people's money. And we feel that every penny saved is a penny earned, is so much more to be used for the improvement of the conditions of life for the people.

Now, Milwaukee is a very small place compared to Chicago. If we here can save the people thousands of dollars per year through efficiency and care in the administration of an office so unimportant as this it is quite likely that a good Socialist in the city clerk's office of Chicago would mean a great saving to the people.

He would play his part, however great or small it might be, in the redemption of the city, which is the next task in the building of a new and better civilization.

LABOR WON'T LET CARTER COME BACK

(Continued From Page 1.)

teamsters, who remembered the brotherhood of labor sufficiently to have their wagons block car tracks during the strike.

This record was, however, not sufficient for Harrison, who was denounced by labor men who gathered in huge mass meetings.

The year 1904 was the one in which trouble at the stock yards, which had been brewing for a year, following the strike of the casing workers and canners, culminated in the great stock yards strike.

This was a revolt of the members of the Amalgamated Meat Cutters and Butcher Workmen and allied trades against the oppression of the beef trust.

Men and boys, girls and women quit work at the yards to protest by their idleness against the slave-driving and low wages to which they were subjected.

Thanks to Harrison, who placed George M. Shippy, Patrick Lavin and Nicholas Hunt in charge of the police at that time, the unions at the yards never rallied from the crushing defeat which they suffered from the beef trust.

Thugs in Carloads

Armed thugs were brought in carloads into the yards. These men went armed and at times became riotous to such an extent that the police were forced to arrest some of them.

The police aided in the shipment of

the strikebreakers from the trains to the yards. Harrison was out of the city when the trouble became acute. He came back and was profuse in friendly words while his police were generous with their clubs.

When it was all over the beef trust had won a great victory. Broken and defeated, the workers turned away from the yards, many of them blacklisted.

Their unions were broken and in the big houses no union in the packing trades has a foothold but the teamsters.

A few of the union butcher workmen and casing workers are still organized in the smaller plants, but labor conditions in the yards are a by-word among all who have studied them.

Packers Remember Work

That the work which Harrison and his police allies did has been remembered lovingly by the packers is instanced by the facts that when after a scandal which shook the police department from top to bottom, Inspector Patrick Lavin was forced to resign from the police force and Inspector Hunt was removed for the good of the service, during the Dunne regime, no sooner had Dunne gone in than these police officials were restored.

Inspector George Shippy was made the chief of police by Dunne. Now one of the firmest friends that Carter H. Harrison has is Tom Carey, former back of the yards boss, head of the notorious gang "Carey's Indians," and now a brick trust magnate.

Harrison is trying to come back on the "strength" of his record in the conduct of the Chicago public schools.

That his record in that regard is not good is shown by the fact that the public school teachers of Chicago are campaigning against him strongly and solidly, with detailed facts to prove their position.

Financial Want Chronic

It is a notorious fact that during the Harrison administration the city of Chicago was in a state of chronic financial want.

Contracts made by the Harrison boards of education with the school teachers were not kept. In the year 1901 the Chicago Teachers' Federation addressed a communication to the city council which contains the statement that in 1900 the Chicago city council set aside an appropriation of \$7,475,500 as the educational fund of the Chicago Board of Education.

That part of this sum was to restore a salary schedule for teachers, a schedule which had been suspended because of lack of funds, is shown by the following quotation from the council records:

"A sufficient amount of this sum appropriated shall be expended in restoring the salaries of experienced teachers for 1900."

What Teachers Asked

One year later the teachers asked that this order of the city council be lived up to.

The school teachers, through the Chicago Teachers' Federation sued for back taxes, won their suit.

Then the teachers were forced to sue the Harrison Board of Education to get the salary schedule to which they were entitled.

That suit was pending for final settlement when Judge Dunne was made mayor, and his board of education paid the money.

It might be thought that Harrison's school board had only been passively hostile to the teachers. That would be a false impression.

Harrison Appeals

When the Harrison school board refused to pay, as before stated, a suit was filed. The suit was granted by Judge Dunne. The Harrison board then appealed to a higher court.

In addition the Harrison school board put Edwin G. Cooley at the head of the Chicago schools. Cooley was the enemy of the Chicago Teachers' Federation from the start to the finish of his incumbency.

But the Harrison "non-partisan" school board did not stop there. It granted school leases which have cost the public schools about \$15,000,000 in revenue since they were granted.

The Chicago Tribune, the First National Bank, the Chicago Savings Bank, Stumer, Eckstein and Rosenthal, and others had leases which gave them an advantage over other loop lease holders. This advantage was at the expense of the efficiency of the Chicago public schools.

Harrison and Tribune

The Chicago Tribune Building was selected as a convenient place by a Harrison board, and so a great portion of the Tribune's land rental is really paid out of the public coffers as rental for the Board of Education quarters.

Another five-year lease has been recently made with the Tribune company, notwithstanding that Chicago has just built a \$5,000,000 city hall, which should accommodate the Board of Education along with the other city departments.

Harrison lays great stress on the fact

that he "saved" the Chicago streets from the Yerkes traction interests in 1897-1898. This he did.

It is but right that he should get much credit for acting for the public at a time when representative citizens were threatening to lynx those who did not so act.

Harrison did aid in the repeal of the infamous Allen law. On the reputation of that act he was re-elected and re-elected mayor of Chicago.

He puttered with the traction problem, so that at the end of his last term Chicago traction was at least ten years behind in equipment, when compared with any city of reasonable size in the United States. So much for Harrison, traction and progress.

Some Police Graft

In the year 1903, after Harrison had called Alderman William Keat "Crazy Bill" for charging graft in the police department, the graft was abundantly proved.

The prime thing of the Harrison administration was the Illinois Tunnel. That grand old patriot, Johnny Powers, who would not steal a red hot stove unless it had an asbestos cover, alderman from the Nineteenth Ward, put over with some colleagues the Illinois Tunnel deal.

This consisted of turning an electric wire conduit into a freight subway. The Harrison administration at last discovered this deal. An engineer's report was made.

The council records read the "engineer's report was received," City Clerk William Loeffler, now dead, who was in on the tunnel deal, inserted "and approved."

Indictments followed, but Judge A. J. Chetlain, who it was afterwards found, had outstanding personal notes which William Loeffler then held, took the case from the jury.

That Was Not All

But that was not all. The late Edward H. Harriman and the present J. Ogden Armour took the illegal tunnel, formed the \$50,000,000 Chicago Subway company of New Jersey, and later the whole thing was legalized.

When Carter H. Harrison attacked the gas trust it was an illegal "gentlemen's agreement" which the courts had ordered to dissolve.

Harrison's city council passed a 75-cent gas ordinance which the faithful Judge Peter Grosscup enjoined. So when Harrison quit office gas was selling at \$1 a thousand cubic feet.

The eleven competing gas companies which he had found on entering offices were united in one combine, the Peoples Gas, Light and Coke company, a special act having been passed by the legislature to allow the consolidation.

Harrison pretended to try to get the right for the city to own and operate lighting plants. The legislature never passed the bill. Meantime the Commonwealth Edison company has grown into a healthy light and power trust.

This is the record on which Carter H. Harrison is seeking to come back and become mayor of Chicago again.

Among those who say he should are: Tom Carey, brick trust magnate. Pat O'Malley, gambler. Andy Craig, disorderly resort keeper. Hinky Dink and Bath House John. Labor won't let Carter Harrison come back.

WEDNESDAY MEETINGS FOR MONDAY AT THE FACTORIES

McCormick Reaper Co., Oakley and Blue Island avenue. Speaker, John M. Collins; assistant, Jas. Herron.

Commonwealth Power House, California avenue and School street. Speaker, Walter J. Miller; assistant, James Ryan.

Simons Saw company, 17th street and Western avenue. Speaker, J. Mahlon Barnes; assistant, F. Flack.

Western Electric company, 48th avenue and 2nd street. Speaker, A. A. Patterson; assistant, Henele.

Western Electric company, 46th avenue and 2nd street. Speaker, L. W. Hardy; assistant, C. F. Lowrie.

Deering Harvester company, Clybourn avenue, side near Fullerton avenue. Speaker, J. O. Bentall; assistant, James Ryan.

Sears, Roebuck company, Kedzie avenue and Howard street. Speaker, Samuel W. Ball; assistant, Lipkin.

Chicago Stove Works, Ashland and Blue Island avenues. Speaker, Ed J. McQuarty; assistant, Flack.

The Sick Made Well Without Medicine

It is no longer necessary in most cases for sick people to suffer month after month. The Oxybon treatment with Oxybon has restored to health vast numbers of helpless, hopeless invalids, who had sought in vain for relief.

Oxybon is an appliance, a self home treatment that is destined to revolutionize the art of healing. Oxybon causes the blood to be filled with its own life essence. Oxybon from the air, that everywhere surrounds you. No one should be surprised nowadays at anything discovered by the fertile brain of man that puts aside the old way of doing things.

Oxybon causes the body to absorb oxygen through the pores, lungs and membranes in large quantities, which purifies the blood and restores good circulation as nothing else can, which compels every organ to function vigorously. Oxygen is capable of overcoming all diseased conditions, no matter what the name or nature; there is no other revitalizing force known to science to equal it. Oxygen supplies the very life principle, and it is only a question of how much oxygen to supply in order to correct the trouble. Space is too limited to tell you all of the wonderful results that can be accomplished by this advanced method with Oxybon, and all who are sick should get our FREE BOOKLETS and learn about this. Costs nothing to investigate.

A. J. Smith, 605 S. 19th Ave., Maywood, Ill.—Infantile Paralysis and St. Vitus Dance, suffered for years, and after paying \$1,000 to doctors and finally given up as incurable, restored to health by Oxybon.

W. K. Walton, 2540 Wabasha Ave., Chicago, cured of a long-standing case of Chronic Catarrh.

Mrs. J. H. Hathaway, 121 S. 9th Ave., Maywood, Ill., cured of a severe case of Indurated Rheumatism after suffering for over two months and after medicine and other remedies failed.

Write or call for our FREE booklets and testimonials from many cured people. Tells all about Oxybon and its wonderful power over disease. BEN. A. HALLGREN GENERAL WEST SIDE MANAGER 1622 South Springfield Avenue, Chicago, Ill.

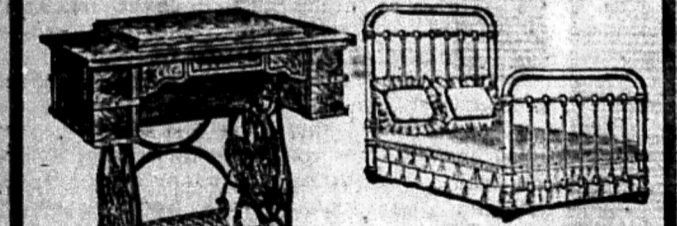

GIGANTIC FURNITURE SALE!

During this sale we are offering exceptional values in Furniture and Rugs. Below you will find a few of the many bargains we are offering:

Exceptional Values in our Rug Dept.

- 9x12 Brussels Rug \$10.75
9x12 One-Piece Wilton Velvet Rug \$24.50
9x12 Axminster Rug \$36.50

This bed, heavy, 24-inch post, any size, any color, regularly sold for \$10, our price \$5.95

This Sewing Machine, guaranteed for 10 years. We send an instructor to your house, for this sale, only \$14.75

We have a great selection of Brass Beds as well at all prices.

Dining Table of very finest quartered oak, 45 inch top, extends to 6 feet, only \$16.75

Oak Chair, quartered oak, leather seat over cane, on sale at \$2.50

SAYS UNION MEN ARE WAKING UP

Secretary of Union Men's Rodriguez Club Writes on Situation.

BY FRANK MATHIEU (Secretary of the Union Men's Rodriguez Club.)

While visiting union after union during the past two weeks I come to but one conclusion and that is that the rank and file of organized labor wants a union man for mayor.

Appreciation Shown While here and there we find an official a little hostile to our speaking at their meetings, probably for their own personal benefit, a large number of the members clearly show their appreciation of our little talk by applauding vigorously, and by the great demand for the Socialist campaign buttons and literature.

Workers Now Know The workers know that they have been getting the worst of it on all sides. On municipal work alone there has not been one contract let in the past that has been finished according to specifications.

The business administrations, however, have seen to it that for some reason or other the unscrupulous contractors get the work and then skins it to his heart's content, thereby not only robbing the taxpayers but also beating the workers out of months of work that rightfully belongs to them.

Strike after strike has been lost and unions have been crushed because of the "good" work of our city police force in preventing peaceful picketing, by the use of their clubs and in protecting strike breakers.

Neglect Criminals On the other hand, the police force has been openly negligent in allowing the criminal element throughout the city to do as it pleases.

Organized labor in Chicago has discovered that such things do not happen in cities where men have been elected to office from their own ranks.

The police force is not there, being used to break a strike of the workers. In fact, they have found that strikes in these cities are getting to be a thing of the past.

Contract work in these cities is being done away with and is being replaced by day labor under city supervision.

Improved Workshops The work shops and factories are being put into a more sanitary and healthier condition and numerous other things are being done for the benefit of the workers.

That is why organized labor of Chicago is rallying to the support of W. E. Rodriguez, Socialist candidate for mayor, and the chances of electing a union man mayor of Chicago are getting better every day.

NEW FIRM IS GROWING FAST

A firm that is really willing to give the customer the benefit of a lower price by co-operation has been found.

It is a young but rapidly growing concern. Only nine months in the field and it already operates a chain of twenty-six stores and is contemplating a large, new six-story building on the North Side.

The firm which has had such a phenomenal growth is the United Food Products company, now at 317 West Michigan street.

Its stock is held by many hundreds of small stockholders and it is said to be patterned after the firm of Sir Thomas Lipton, the famous tea trader.

The new building, for which a site on Erie street, between Orleans and Kingsbury streets has been purchased, will be modern in every respect. It will be used as a wholesale warehouse and will contain 70,000 square feet of floor space, being 100 by 100—six stories and basement. A sprinkler system will be included in the plans.

The executives, twenty-six in number, are unique in many respects. They do not handle anything except package goods, saving time and waste in handling. The goods are also exceptionally clean, for that reason.

The cost of delivery and extra clerks is saved to the consumer by the fact that the packages are easily handled and at a price which will not permit delivery.

These are also the only stores in Chicago selling a full pound of bread for four cents, all other charges five cents for a three-quarter pound loaf. The firm takes its own bread in its own wholesale house and, for ten days before Christmas gave away 1,000 one-pound loaves of bread a day to the striking garment workers.

Nearly all the goods handled are put up under their own brand as far as possible, to insure satisfaction to the consumer and to guarantee that the consumer pays for what is in the package and not for what is on the outside.

The demand of the pleased customers for a market connected with the store has resulted in the formation of a company called the United Market and Produce company to sell meats, fruits and vegetables in store rooms adjoining the groceries.

The same plan of keeping the stock in the hands of small stockholders will be followed as in the United Food Products company and the same plan of reducing the price to the consumer on a profit-sharing or co-operative basis will be put in operation.

SOCIALISTS, WATCH POLLS ON APRIL 4; THIS TELLS HOW!

BY JAMES P. LARSEN Cook County Secretary Socialist Party.

The following instruction for Socialist watchers at the polls on April 4 have been taken from the election laws and are an authoritative statement of the rights and duties of a watcher:

1. Present your credentials to the judges when credentials are called for and show your place near judges.

2. See that the ballot box is empty before voting begins.

3. Get next to the judges and insist that they adopt the order of counting prescribed by law and scan each ballot carefully as it is read and allow no mistake.

4. Record the number of straight ballots for each party on the tally card.

5. Record the split vote for every candidate of every party on the tally card.

6. If possible, have a Socialist watcher keep a tally, to check the clerks while the Socialist challenger watches the judges to see that they count ballots right.

7. Remain until the two statements of the result of canvass are made out, signed and sealed, and demand that the vote for each candidate be announced, as provided by law.

8. Bring your tally card to ward headquarters if it is not too late. Otherwise mail it to ward secretary.

HOW THE COUNT SHALL PROCEED These notes are taken from the general election laws to which the paragraphs and section numbers refer. Watcher must insist on these rules being followed:

Par. 84, Sec. 10.—Judges shall first count the whole number of ballots. If ballots are found to exceed the number of names entered on poll lists, enough ballots, unfolded, shall be drawn out and destroyed to make the number correct.

Par. 84, Sec. 10, and sec. on pages 89 and 90.—Judges shall open ballots and place all straight ballots in separate files, one for each party. Each judge shall examine the several files, so that

they shall contain only straight ballots, and then count each file by tens; that last judge to announce the count to the clerks.

The judges shall then count the split votes. One judge, sitting between the other two, shall read each name voted to the clerks, who shall tally the vote. When tally is completed one of the clerks shall announce the number of votes for each candidate on split ballots. Clerks shall then add the vote received by each candidate on split ballots to those received on straight ballots and announce in a loud voice the total received by each candidate.

Par. 88, Sec. 14 and par. 163, Sec. 27.—Each of the judges shall then, in turn, in loud voice, announce the total vote received by each candidate.

Par. 89, Sec. 15.—Judges shall make two statements of result of canvass, which shall be signed by all judges and clerks, and each statement enclosed in an envelope and sealed.

In case of any trouble call up the county officer, phone Franklin 1523.

SERCOMBE TALKS ON MEXICO FOR Y. P. S. L. Parker H. Sercombe, the well-known lecturer and writer, will speak tomorrow night, Sunday, April 2, at 8 p. m. before the Young People's Socialist League, 180 Washington street, on "The Mexican Plutocracy."

Mr. Sercombe resided in Mexico for ten years and has a perfect knowledge of the language and its people, what makes him better equipped to speak on this subject than perhaps any other American sociologist.

The meeting is free of charge and everybody welcome.

ALBERTA MINERS TO WALK OUT TONIGHT Lethbridge, Alberta, March 31.—Practically all hope of averting a strike in the Alberta and Eastern British Columbia coal mines has been abandoned. Eight thousand miners have been ordered to stop work at midnight tonight. A coal famine is inevitable if they go out.

Y.P.S.L. Notes

The Young People's Socialist League, at 180 Washington street, invites all young people to become members of their organization. It's a great organization. Its lectures, entertainments and educational features can't be beat. Twenty-five cents a month makes you one of us. Join now.

The dramatic club offers its services to all ward branches and labor unions. For information write to Y. P. S. L., 180 Washington street.

Sunday, April 2, 8 p. m. Parker H. Sercombe will lecture on "The Mexican Plutocracy."

Tuesday, April 4, 8 p. m. Grand Concert by Y. P. S. L. Orchestra. Speaking by A. M. Lewis, Walter Millard of Ohio, W. E. Rodriguez, John Collins and others. Election returns will be read from the stage.

Sunday, April 2, 8 p. m. Parker H. Sercombe will lecture on "The Mexican Plutocracy."

OUR HOUSEHOLD PAGE

A DAINY MISS IN A LACE-TRIMMED DRESS

Fashion's wheels slowly turn and the old styles come back to sight now and then. The last turn brought rickrack for trimming into vogue once more. This little dress is made of sheerest linen, tucked and trimmed with bands of rickrack insertion, and the skirt has a full flange edged with wide rickrack lace. The collar and cuffs are made of fine German val in sharp contrast to the heavier lace of rickrack.

HOW TO KEEP KITCHEN UTENSILS SHINING

Utensils must be kept polished. For copper use soap applied with a damp cloth, then sprinkle thickly with borax. If you have no regular copper polish. Brass can be cleaned by being moistened with kerosene, then rubbed with a paste of powdered chalk and lemon juice, and polished with chamois. Boil tin utensils occasionally in stront soda water, and if rusted rub with lard and let stand before washing.

LACE WATCH FOES

Lace watch fobs are very dainty. They are also new, and a charming adjunct to the light frock. The girl who is "in" with her fingers should be able to make one easily at home. For this, remnants of Irish or Cluny insertion may be utilized. The strips of insertion are folded over the gold or brass catch, which may be bought for fobs, and the end is pointed and finished with a white silk tassel.—Lawrence Telegram.

PIE IMPROVED

A novel idea in apple pie is thus reported by the New York Sun: "I had a piece of apple pie at an up-state country hotel last week," said a downtown lawyer, "that was good enough to justify me in asking for more and then getting the recipe, and this is it: At the point where in ordinary pie making the lid would be glued on spread over the apples thin bacon friend very crisp and brown, then put on the cover and bake. Good? Well, try it."

THIS JUDGE FELL FOR HER EYES, NO DOUBT

Wilkesbarre, Pa., April 1.—"It is no crime for a woman to have pretty eyes and to use them," was Judge Donohue's decision in the case against Miss Marion Chappelle of Brooklyn, N. Y., here on a visit and making go-go eyes. Mrs. Anna Ludlow caused the young girl's arrest on a charge of disorderly conduct. She was disturbed because her son, Henry, admired Marion's laughing eyes, and said so. She looked up Miss Chappelle and told her to stop fascinating Henry. The girl replied that she would do nothing of the kind. "We are glad to have such captivating persons in our community," the judge said in dismissing the case.

WOMEN'S LODGINGS

The first municipal lodging house for women in England was opened recently in Manchester through the efforts of Miss Margaret Ashton, a member of the municipal council. Although municipal lodging houses furnishing cheap and decent lodging for men have been in existence in most of the cities in Great Britain for a good many years there has been no provision made for poor women.—Milwaukee Free Press.

AFTER-SUPPER GAME FOR BOYS AND GIRLS

HOLD FAST
Even the tots can play at the good game of "hold fast," while even the older boys and girls will find it sufficiently puzzling to make a quarter hour pass blithely. The only requisite is a number of lengths of tape all of the same number of inches. Or if the tape is not at hand, cut silesia or any cotton goods into narrow strips and use this. The person who leads the game holds one end of each of the tapes. The opposite end of each strip is held by some other player, and all players other than the leader form a semi-circle which the leader himself must stand facing. When the leader says "hold fast!" all players must let go their tapes, and when he says "let go" they must, on the contrary, hold them fast. Anyone obeying the commands literally, as some are sure to do, must pay forfeits.

FOR HOME DRESSMAKERS

LADIES' YOKE SKIRT, LENGTHENED BY A GATHERED FLOUNCE

8634. This portrays one of this season's prettiest models. The yoke is circular and dart fitted, and meets a panel at the center front. A panel is also added in the back, but this may be omitted. The flounce, which is straight, may be tucked or gathered. Silk, tulle, collienne, cashmere and crepe may be used for this model. The pattern is cut in five sizes—22, 24, 26, 28 and 30 inches waist measure, and require 5 1/2 yards of 36-inch material for the 24-inch size. A pattern of this illustration mailed to any address on receipt of 10 cents in stamps or silver.

THE WORKINGMAN'S DENTISTS

1477 1/2, across the street from Signal-Corner's 95 and 96 Van Buren Street. Our price on your work will be lower than any reliable dentist in Chicago. Gold Crowns, 25. Inlays, \$5.00 for \$2.00. Extra thick, rubber plates, \$5.00 for \$2.00. Set of teeth, regular set, \$8.00 for \$5.00. (Whitening) (rubbed) \$5.00 for \$2.00. Crowns, perfectly shaded, \$2.00 for \$1.00. Special Diagnosis of Lung's Amounts of Work. Out-of-town people can obtain perfect work and return home same day. WORK GUARANTEED TO PLEASE. Hours: 8:30 to 5 daily, Sunday 9:30 to 2 p.m. State Dental Parlors 95 and 96 Van Buren St. Corner South. Above the Frank Stern

Every article is marked so close that our price will prove a surprise and the value a revelation. The few prices we quote are so luring that you will instantly realize why you ought to pay us a visit. You are probably preparing to clean house or move

This new model meets everybody's desires and everybody's price. Sanitary, hygienic and shape-retaining to the last. BUILT-UP (not stuffed) of the specially selected cotton-layers nearly ten-high before compressed. Weighs 45 pounds—just right by night in every particular; covered with taste-ful art flocking and furnished in all sizes..... \$7.45

into a new home and there is no better time than right now to select your needs while our stock is unpicked and complete

Pedestal Extension Table

This pedestal extension table made of selected genuine quartered oak, highly polished, extends 10 feet. You could not duplicate anywhere else under \$20.00. Our inducement price for our Annual April Sale to the readers of the Daily Socialist, only..... \$12.00

We will arrange terms to suit you

We guarantee all our goods to be exactly as represented.

The Niederman Furniture Co.
930-934 Milwaukee Ave. TWO STORES 1417-1419 Milwaukee Ave.

—all these are additional stories of the Class War now raging. The April Review discusses War at many angles. Men who enlist under Taft only sign away their years to become Professional Murderers, who have to shoot down their fellow-workers at the command of Capitalism. **Now is the time to talk Anti-War from the house-tops.**

The *Review* is \$1.00 a year; 10c a copy. Every live local in the country will soon be holding meetings to **protest** against the Mexican Invasion and the lies of the Government at this time to **secure recruits**. Sell the *Review* at these meetings. It will re-enforce ten-fold the words of the speakers. We mail 3 for 25c; 10 for 60c; 20 for \$1.00; 100 for \$5.00 and 1,000 for \$40.00. Order early as we hope to be sold out soon after publication.

THE CHICAGO DAILY SOCIALIST

Published as second-class matter, Dec. 22, 1906, at P. O. Chicago, under act March 3, 1879. Received by the Postoffice at Chicago, Ill., for mailing at special rate of postage provided for in Act of October 3, 1917, authorized on July 16, 1918.

Milwaukee Makes Good

The capitalist press of the nation has been busy attacking the Socialist Milwaukee administration ever since it went into power about a year ago. The "newspaper trust" of Chicago has not been behindhand in these misrepresentations.

We'll Get There Very Soon

The big question with most people in this election is not who is going to win four years from now. It is not who is going to win eight years from now. It only seems to be who is going to win next Tuesday.

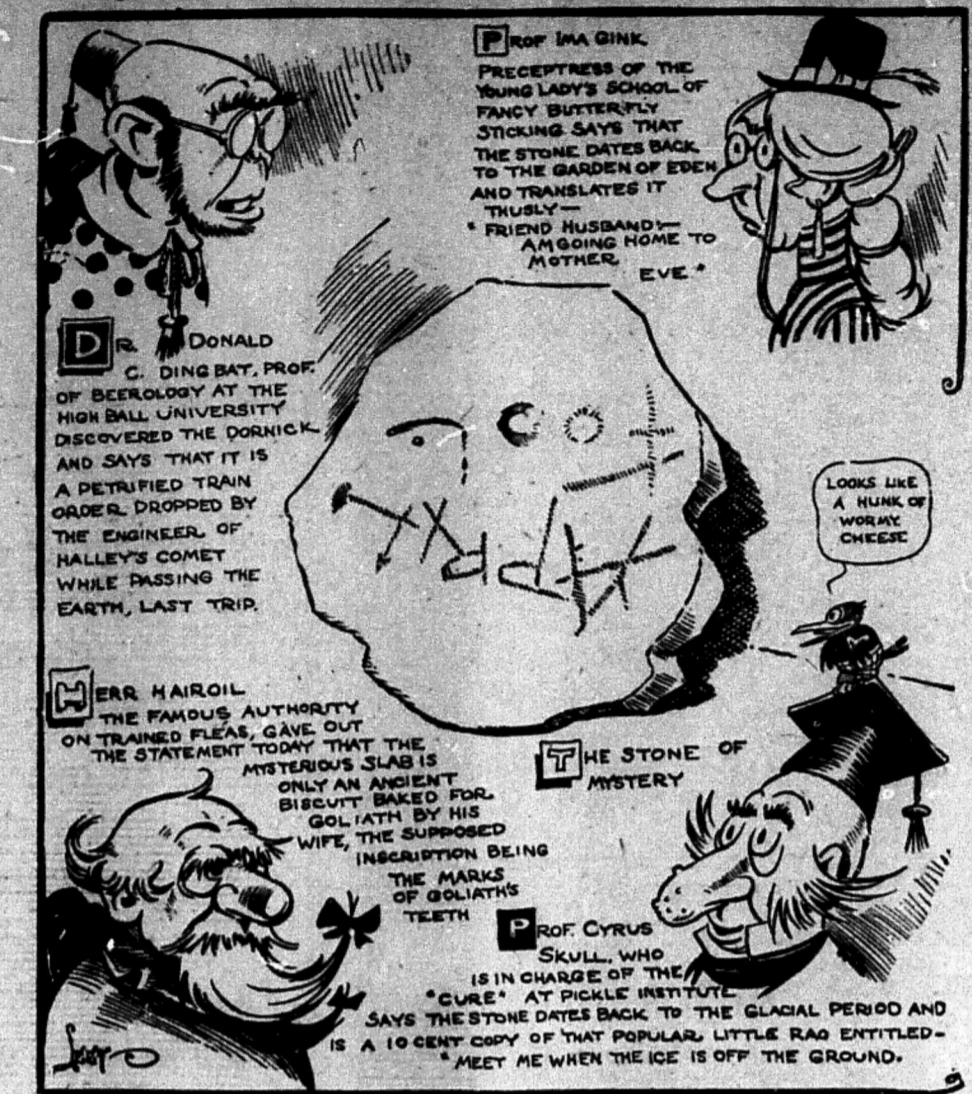

Get Out the Vote

In spite of everything we may say about the loyalty of the Socialists, it still remains a fact that we do not work as we should on election day. We take it for granted that everybody who intends to vote the Socialist ticket will be sure to go to the polls.

Kill the Ghost

The last week of the campaign in Chicago must be devoted to LAYING A GHOST, and that ghost is FEAR. There are thousands of men who would vote the ticket next Tuesday if they were sure that others would do the same, but they are AFRAID.

Special Extra! Full Particulars About the Great Mystery

THIS REMARKABLE STONE WAS FOUND ON A LOT ON LAKE ST. ALL THE SCIENTISTS OF CHICAGO HAVE EXAMINED IT FROM EVERY ANGLE, SIDEWISE, UPSIDE DOWN AND ALL AROUND, AND THEY HAVE GIVEN THEIR IDEAS OF THE MYSTERY. WHAT DO YOU THINK OF IT?

The Power of Organized Discontent

BY WILLIAM RESTELLE SHIER

A thousand men glow with faith and determination, says Upton Sinclair, "are stronger than a million grown cautious and respectable." In his "War of the Classes" Jack London expresses himself in like fashion. "Five men, standing together," he says, "may perform prodigies; 500 men, marching as marked the historic Five Hundred of Marseilles, may sack a palace and destroy a king; while 500,000 men, passionately preaching the propaganda of a class struggle, waging a class struggle along political lines, and backed by the moral and intellectual support of 10,000,000 more men of like convictions throughout the world, may come pretty close to realizing a class struggle in this America of ours."

Socialists had parliamentary representation. To-day they are a recognized factor in the public life of twenty-five modern nations. In national legislatures alone they have 493 deputies, while the number of mayors, aldermen and school trustees in Europe and Great Britain serving under their red banner of revolt approximates 12,000. Nor are the United States and Canada outside their sphere of influence. Morris Hillquit estimates that there are some 300 Socialist municipal officers scattered over this continent. Victor Berger, the noted Socialist, has recently been elected to the United States Congress. Alberta, British Columbia, Minnesota, Wisconsin, Pennsylvania and Massachusetts have Socialist contingents in their respective legislatures. And the Socialist vote is increasing everywhere by leaps and bounds.

How Will You Vote?

By BARNEY BERLYN

The working class voters of the city of Chicago again have an opportunity to give voice to the conceptions they have of their interests in public affairs. There are, perhaps, many candidates, but there are only two parties. In this struggle, like every other struggle, the issue is capitalism vs. the interests of labor. The capitalists have many faces. You can pick which face you like. There is the Harrison face, representing capitalist interests, with free reign in the red-light districts, "freedom" for gamblers, license for Hearst newspaper thugs and graft without limit. And all this, which the Harrison face represents, is beclouded by "GAS."

The Parable of the Hunter

By Oscar Ameringer

Once upon a time there lived in the land of Stars and Stripes, a mighty hunter, by the name of Eagle-eye. This man could hit the left hind leg of a flying mosquito four hundred yards off. But, alas, he had no gun. Whereupon he hiked himself to "Old Man" Bateye, who was blind and lame, but who owned many guns. And Eagle-eye spoke unto Bateye also: "Lord! I am a hunter without a gun; wherefore the wife of my bosom is cleansing the soiled garments of your wife and my children cry piteously in the wilderness of Chicago, while my stomach is empty as the House of the Lord in summer time. Therefore I beseech thee, let me have one of your guns which I may follow my vocation, which is that of a hunter of quails; so that I too may eat, drink and be merry."

SLAMS, JABS, BOOSTS AND 'MOST ANYTHING'

EIGHTY-SEVEN in every hundred Canadian farmers own their own farms. A HINDOO proverb says not to strike a woman, even with a flower. THE labor unions of the world gained over a million in membership in 1910. GLOOMY indeed is the man who is too dignified to laugh. AT the battle of Leipzig on Sept. 7, 1631, leather cannon were used. We have better ones now. We are improving (?). LAKE HURON contains more islands than any other known lake. IMAGINE Dr. Mary Walker in a modern harem skirt. MOBILIZING an army for peace does seem a sort of gruesome joke. THE city man will now remove and buy some garden tools to prove that with a modicum of toil food can be made to spring from soil. DON'T kiss me signs are all right enough to place on babies under sixteen. "OH, thank you," exclaimed a very plain spinster to a hod carrier who had given her his seat in the trolley car. "Thank you, sir." "That's all right, ma'am. Some men never gives a woman their seat less'n she's pretty-but." He saw the flash in her eye and fled. WEARISOME STRUGGLE "The men who labor spend their strength in the daily struggle for bread, to maintain the strength they struggle with. "So they live in a daily circulation of sorrow, living but to work, and working but to live, as if daily bread were the only end of wearisome life, and wearisome life the only occasion of daily bread."—DeFoe in Robinson Crusoe.

INCONSISTENCIES

BY H. S. McMASTER

Of all the strange inconsistencies in politics of today, the most ridiculously inconsistent of them is for laboring men, wage earners, to vote the old party tickets or for any candidates on them, and this, when there is at hand the Socialist party, a purely working man's party, run wholly in the interests of the workers, by the workers and for the workers. The constant and ever present warfare between capital and labor, whose aim is to keep labor divided, whose interests are diametrically opposed to each other. Any worker then voting for either one of the capitalist parties, is voting against his own economical and every other interest. Better, ten times over, not vote at all than for labor to vote against itself by voting old party tickets. The spoils of office, or official plans or promises of same, cause some workers to adhere to the capitalist parties for the time, and may cause them to think the individual financial interests lie in that direction. But these are ephemeral, and are not to be considered in comparison with benefits to posterity and humanity under Socialism, and we may count these office seekers out and Socialism will be an economic God-send to nine-tenths of the people. There is no difference between the two leading capitalist parties, and the only reason they don't marry to occupy the same apartments and save rent, is the desire to keep labor divided, one-half voting against the other half, thereby neutralizing the vote of all labor. This enables the capitalists by the use of a jackpot to rule government courts and all; otherwise, capitalism could not live beyond the next election. In the absence of well organized Socialist party in such counties as Adams, Ohio, Vermilion, Illinois, and hundreds of other counties, in these and other states where everybody sells his vote, there is nothing strange about it when we consider the price of a drink or of a cigar, would be more than the difference as between them to any voter. For what difference is it to any voter

which one of these is in power? He gets it in the neck just the same with either. Then the only reason for this condition of things is ignorance on the part of the workers. Hence the necessity for publishing of leaflets, pamphlets, papers, volumes and libraries, and the Milwaukee way of distributing them, together with hundreds of speakers, to show the laboring class where its true interests lie politically. And the workers are being convinced by the hundreds and thousands every day. THE TRAMP AND THE LADY "Madam," said a tramp, as he raised his hat and bowed politely. "I am very hungry. Will you kindly give me a few mouthfuls of food?" "If you will saw me a little wood I will give you a good dinner," replied the lady. "I shall be only too glad to saw wood for two hours in return for a meal, and if you will kindly give me 25 cents additional to enable me to take a bath, I will saw wood half a day for you."—United Mine Workers' Journal. AROUSED SUSPICION Old Rocksey—"Why did you quarrel with the count, my dear?" Miss Rocksey—"He called me his treasure and it sounded altogether too suggestive."—Smart Set. KEY SONG "Mother, may I go aeroplane?" "Yes, my darling Mary. The yourself to an anchor chain, And don't go near the air."—Judge. PEELED Mother (at lunch)—Yes, darling, these little sardines are sometimes eaten by the larger fish. Mabel (aged 5)—But, mamma, how do they get the cans open?—London Ideas. EXPLAINED Stella—What causes her incontinence? Bella—She takes so many berry exercises before retiring that it is morning when she finishes.—Harper's Bazar, 1907.

Workmen's Compensation

Workmen's compensation looms up just now as a great nationwide issue. Ten states have received reports from commissions investigating the problem, and several of them will soon join the twenty-one foreign states which take care of the soldiers of industry who are crippled and maimed in the battles of daily labor and provide for their widows and orphans. Even Russia has a workmen's compensation act. The American states are almost the only ones which have found themselves too busy in the mad struggle for wealth to pick up the fallen. Accidents in America arising out of employment cause tens of thousands of deaths and several millions of injuries yearly. But the crippled get only 40 cents out of each of the few dollars which the employers pay to liability insurance companies, as our present weak laws enable them to be tricked out of the remaining 60 per cent. In Germany the worker gets 78 per cent of what the employer pays, a comparatively small per cent going to administration. The first step for each American state is the passage of a law declaring the liability of employers to damages for all injuries resulting in whole or in part from their negligence or their agents' negligence. This law would compel employers to take every possible care to prevent accidents by making them pay more in the cases where there is negligence than where the accident is unavoidable. In Wisconsin there were 13,000 accidents the year before the liability law was passed; in the first year of its operation the number fell to 10,000. But nearly half the accidents that occur are unavoidable. To cover these there should be a law to compensate workmen for any injury which comes to a workman while engaged in any work except where the employee willfully injures himself. Such a law would not repeal the liability law, but would be supplemental to it, to cover the cases not covered by the liability law. The compensation, based on the average wage, is fixed for each case by the law, or by simple arbitration machinery, so that no time or money is wasted in lawsuits. When we say the "employer" pays compensation, it is not meant that he pays it personally; that he takes fatherly care of his employees. The theory is rather that the industry should pay the expenses of the damages it causes. The worker should be paid for his limb or his life just as he is paid for his labor. The consumers pay the compensation. The employer does not pay it; he is simply their agent in doing it. Compensation acts will come as a good substitute for the "relief associations" established by the employers in which the employees usually make up nearly all the fund and have little or nothing to say in its management.
