TO PROBE FIRE FUND TRICKERY

(Continued From Page 1.)
Kansas City, of St. Louis, and San Francisco donated their day's pay each for, to enrich the trustees.

Raps Trustees
Why, I understand they're already paying office rent and still they have it figured out that the bank is to get nearly a thousand dollars a year for handling the fund, if the papers are correct.

What do we think about the unequal division? Well, I'll say this Mrs. Horan feels as bad if not worse than we do about this. She cannot offer to give back something she has not got or has no prospect of getting, can she?

How About This?
These trustees call themselves business men, but see how they have left several families. Lieutenant Sturm's daughters are four in number. Only one gets any money. George Enthoff's father and mother, who require a nurse constantly, get \$9 a year.

We have decided to consult with the donors of the fund and be guided by their advice. We have appointed John Campion, ex-chief; Captain Cretty of Truck No. 1, ex-Battalion Chief Powers and Frank Gurty a committee to attend the next meeting of the trustees to present our side of the case.

They don't want to part with the money. They don't think a fireman's widow should own her own home. "Wouldn't Jim Horan turn over in his grave if he could hear what's going on. Do those trustees want to accuse my wife, Mrs. Cretty, of being unable to take care of the few dollars she might receive if I were buried under a brick wall. And shall they say that she should not have the money if she needed it to pay off the mortgage and own her own home?"

"The public donated that money with the expectation that the women needed the money right away. The women did. This committee, of which I am a member, is going after it. And we'll get it."

OLD PARTIES WILL MEET TO ABOUSE LAWMAKERS

Despite the fact that the people of the state voted 47,936 to 12,102 at the election demanding an initiative and referendum amendment to the state constitution, old party leaders will tonight hold forth at Orchestra hall, attempts to arouse their own colleagues in the state legislature to heed the will of the voters.

Both Morrison and Harrison will speak at the meeting over which Governor Deneen is billed to preside. Thus far the general assembly, the majority of the members of which were practically accused by the Tribune this morning of being grafters, has disregarded the expressed will of the voters. LABOR THE WORLD OVER

Thank God we have a system of labor where there can be a strike.

BREWERY MEN GET INCREASES

Industrial Organization in Wage Raise Victory; Avoid Big Strike.

Brewery workers of Chicago, organized into an industrial organization, have been the victors in six weeks of parley with the employing brewers of Chicago for increases in wages for their members.

All Workers Benefit The final agreement with the Chicago Brewers' association was closed March 25, the members to receive the benefits of the raises granted commencing with the date of March 1. Three thousand six hundred men are affected, all of them members of Brewery Workers' union No. 18, Bottlers' union No. 248, Keg Hoop Drivers, Helpers, Chauffeurs and Extra Drivers, No. 342, or Bottle Beer and Extra Drivers No. 344.

Under the new agreement, the first to be made since the bringing together of all the men working in and around breweries into one organization, brewers will receive an increase of \$2 per week in their wages; Bottlers, \$2; laborers, \$1.50; and the keg beer drivers and helpers \$5 per month. Bottle beer drivers, helpers and chauffeurs will also receive a \$2 raise per week in their wages. The contract has been signed for three years.

Brewers, laborers and bottlers will work on an eight-hour day basis. Better conditions, increased overtime pay and other arrangements to the advantage of the workers will also accrue under the new agreement. Previously bottlers have received but 25 cents per hour overtime; now they will receive 44 cents.

The contract was signed with the understanding that the demands of cooper, engine-men and firemen employed in Chicago breweries will receive similar recognition.

Men Express Satisfaction The agreement was signed for the men by the following union officials: Local No. 18, Chas. G. Gale, secretary; Chas. Berger and John Edman, For No. 248, Wm. Vorsatz and John Dolner, No. 377, Wm. Cozick and Frank Miller, No. 342, Martin McGraw and Geo. Hottinger, No. 344, James Patterson and Edward J. Ratsch and John Vandervoort.

Albert J. Kupier, organizer and Adam Huebner, secretary, signed the agreement for the International Union of United Brewery Workmen. Satisfaction was expressed everywhere over the first fruits of the industrial organization's victory, won without a strike.

ENGLISH MINERS IN PRICE FRAY

London, April 7.—There has been considerable friction between colliers and mine-owners in regard to the price paid to men working in abnormal places—where the work does not allow of the production of as much coal as elsewhere. Very shortly the Miners' Federation will deal with the matter, and it is hoped that as the result of the conference a system will be agreed upon whereby a workman will obtain a fair day's pay for a fair day's work.

The employers have often objected to a minimum day's pay for working in abnormal places on the ground that men might shirk the work with a fixed rate of pay. But the employers would have the right to remove any collier who was not doing his duty, yet they will not at present agree to the minimum wage. It is the hope, however, that the difficulty will soon be solved.

SUBSTITUTE OFFERED FOR WOMEN'S TEN-HOUR BILL

Springfield, Ill., April 7.—The trade union women who have been fighting for amendments to the ten-hour working day law for women got more than they asked, when the Illinois Senate Committee on Labor and Industrial Affairs reported out a substitute bill on the ten-hour subject. The substitute includes not only laundries and workshops mentioned in the bill, but also all mercantile establishments. It limits the working hours of a woman employed in the classes of work mentioned to fifty-four hours a week. The present limitation is sixty hours.

J. J. HILL SAID TO BE YIELDING TO THE MINERS

Winnipeg, Man., April 7.—The great coal strike in western Canada, which has rendered more than 8,000 miners and all the mines in the Alberta and eastern British Columbia idle, is nearing an end, according to indications. James J. Hill, the railroad magnate, will force the issue on account of the urgent need of coal by the Great Northern Railroad. Mr. Hill has already announced his intention of breaking away from the operators' association and probably will be followed by others. This means that the terms demanded by the strikers will be granted and the agreement signed.

BILLY BOE CLOSED CARS PASSES ILLINOIS HOUSE

Springfield, Ill., April 7.—The House passed Representative O'Toole's bill (House Bill 478), which requires that all entrances and exits to street cars operated in the city of Chicago shall be closed while the cars are in motion, by a vote of 108 yeas to 4 nays.

LABOR BRIEFS

Considerable dissatisfaction exists among the 7,000 workmen engaged by the London and North-Western Railway company at their Chicago locomotive works, caused by the hardships experienced by the men owing to the prevalence of working short time. This has lasted for over two years, and during this period the men have lost nearly \$7,000,000 in wages. Many of the men have been forced to emigrate, and now trade unionists are discussing the situation with a view of making representations to the company for the restoration of a normal full-time employment.

LAUDS MORRIS AS REAL HOPE

'M ke' Schreck, in Letter, Declares Oklahoma Man Can Whip Johnson.

By United Press. New York, April 7.—Mike Schreck, the Cincinnati fighter, who was recently knocked out by Carl Morris, the "white hope," believes that the Oklahoma fighter is headed for the world's championship.

Is Real "Hope"

He also believes that with the necessary ring experience Morris will beat Jack Johnson when they meet.

In a letter received in the city today Schreck says: "Morris is the Terrible Turk of the prize-ring and too strong for all the heavyweights.

"He needs a few more fights to take off the rough edges. Then he will be about ripe for the big show.

"I do not think that Jack Johnson is strong enough to show his superiority over the white man, and I predict that Morris will be champion some day.

Terrible Clinch

"He is a powerful fellow and in the clinches wrestles his opponent around like he was playing with him."

AEROPLANISTS ALARMED OVER WRIGHT PATENTS

New York, April 7.—Airmen are highly apprehensive over the statement of Claude Graham-White's lawyer that he has advised the Englishman not to defend the suit brought against him by the Wrights for alleged infringements of their airplane patents.

It is alleged that if Graham-White allows the suit to go by default the Wrights will be able to secure injunctions against nearly every flyer in the United States, thus giving them practically a monopoly of the air.

COLUMBIA TRAINS OARSMEN

New York, April 7.—Columbia will send her varsity crew to the American Henley regatta on the Selkaykill, May 27. After the regatta the oarsmen will leave for the Poughkeepsie training grounds.

WORLD'S CHAMPION IS DEFENDING TITLE

fig champion. He holds the record for this distance, and is entered in some of the events of the meet which is announced at the "world's championship" being held in this city.

A Song of the South

Baseball's Boiled Bulletins

Newest thing in baseball is the *Se-lone* or *Maud* alien delivery. Although it has nothing on it, gets the goat of many a batter.

Sid Smith, the roly-poly Nap catcher, is a good utility man, handling himself well at second base despite his weight.

Joe Jackson, speed merchant extraordinary, has been exercising his whip in the south, throwing out slyball base runners at the plate.

Wufl, Detroit club, is faster than Ty Cobb. Hope the Georgia peach doesn't get peevish and stink.

Adde Joe says there's nothing in the batter missing a bad one, the trick being to make them hit those that aren't just what they should be. Some logic in this sort of thinking.

If the pitchers who look like reincarnated John Clarkson in the spring could deliver in July, 347 batters would not be numerous in October.

Still talking over the series with the New York Americans which resulted in each club winning a game, the Boston Nationals are hobnobbing with the New York Giants' manager at Richmond, Va. Tenney says that he has a likely bunch of youngsters and expects to beat out St. Louis and Brooklyn in the pennant race. The Boston players expect the Giants to "cop the flag."

Harry Steinfeldt, the veteran third sacker, sold by the Cubs to St. Paul American Association team, is hesitating between the baker supply business and semi-professional baseball. Steiny flatly declines to go to St. Paul. Frank McNichols, manager of the strong semi-pro West End team here, is dicker with the ex-Cub, but Steinfeldt has a strong inclination to go into business with his father-in-law in Cincinnati.

Johnny Kling's home run clout in the second inning of the Cubs' seven inning game with George Hart's Illinois drove in two runs and decided the honors of the final game of the leaguers' spring tour at Champaign by a score of 3 to 0.

This afternoon the West Side fans have a chance to look over the Cubs. Frank Chance's crew will hook up with those active students from Notre Dame university. Their first introduction will include all the regulars in the line-up.

The Cardinals at St. Louis Thursday won the fourth game of the series from the Browns, score 3 to 4. Bailey was knocked off the mound and Criss, who replated him, was wild.

Caldwell's benders would not bend enough at Indianapolis Thursday to avoid the Indians' bats and the Hoosiers defeated the Yankees, 5 to 4.

E. A. Steinhilber of St. Louis was elected president of the St. Louis Cardinals of the National league last night. Mr. Helen Hathaway Robison Britton

of Cleveland, chief owner of the club, was elected vice president. G. M. Schofield was chosen secretary and Herman Seekamp was re-elected treasurer.

The White Sox today proved their ability to play in cold weather and licked the Danville, Ill., team of the Three I League with the mercury freezing its best to drop beneath the freezing point. Duffy's men outdid the enemy and won by the score of 6 to 4.

The Sox II. team added another scalp to its belt Thursday at Lincoln, Neb., when it won the third straight from the Lincoln club, the score being 7 to 4.

Jack Murray, Giant outfielder, says the team rode so long on a southern railroad that he saw the sun sink twice in one afternoon.

Marquard says he will prove that McGraw's faith in him has not been in vain by delivering the goods this season. Must be kube heard that back to the minors talk.

Bugs Raymond is still glued to the water cart and insists he likes the sensation.

Roy Hartzell ate up nine chances out of ten at Atlanta in a manner that made Hal Chase grin with delight. The ex-Pro is tipped to lead the Highlander batters.

That X-ray examination of Jack Johnson's head and the discovery that said bean was armored like a dread-nought, ought to contain a hint to baseball managers.

Many little stars twinkling in unison reflect greater radiance on the diamond than one of the first magnitude by himself.

Willie Carrick, old-time big leaguer, will pitch for New Orleans this year. He managed New Haven last season.

Owner Frank of New Orleans insists on Cleveland playing games as scheduled three years ago, but will probably relent and permit the team to escape, in consideration of outfielder Doane's services.

American league players spend more time discussing ways and means to stop Ty Cobb than they give to any other single subject in the south.

Many go to the plate, but few remain for lunch.

MULFORD TO DEFEND AUTO RACE TROPHY

Ralph Mulford, winner of the last year's Elgin National Cup will defend the trophy at the road races next August, according to announcements today. The announcement of his entry was received with enthusiasm by the directors of the event, who believe his name will prove a drawing card for other big entries.

HOPPE DECLARES RIVALS JEALOUS

By United Press. New York, April 7.—Declaring that the jealousy of his rivals was the only reason for his being ordered out of France, Willie Hoppe, the world's champion billiard player, returned from Europe on the Majestic.

"The whole trouble in Paris was that I was drawing the biggest crowds and getting more money than anyone else," said Hoppe. "The police declared they had been notified that I was playing where betting was going on and that I could not play. I'm not afraid of any player in France. I'll play any man in France at 18.1 or 18.2 for any amount from \$100 to \$10,000."

"Yes," put in Thomas W. Walsh, his father-in-law, who met him at the pier, "you can make the amount as high as \$25,00, and I'll put up the money."

"What's more," continued Hoppe, "I'll give anyone of them a handicap of 25 per cent and walk away from him."

MERCURY TO OPEN POOL TOURNAMENT ON SUNDAY

The Mercury A. C. pool and billiard tournament will start Sunday at the Mercury club house. Shea and Klinevich are favorites in the billiard and Suluway in the pool tournament.

The Mercury Athletic Club of Chicago has joined the West Side Athletic association, the purpose of which is to promote athletics of all branches on the West Side.

Already six clubs have entered. As a ten-club organization is desired more clubs are invited. For further information address Mr. English, West Park No. 2.

TOM JENKINS REPORTED AS BACKING JOE ROGERS

By United Press. New York, April 7.—Tom Jenkins, former wrestling champion, is backing Joe Rogers in his match against Zzyzuko, the Pole, on April 11.

Jenkins believes that Rogers' natural wonderful strength and physique makes him a formidable opponent for any man in the world.

With the Fighters

Boston, April 7.—Buck Crouse, the hard-hitting Pittsburg fighter, who knocked out Frank Perron, of Pawtucket, R. I., in the fifth round of a bout last week has been matched to meet Perron again. They will battle 12 rounds here on April 12.

New York, April 7.—Old Charley Griffin, perpetual feather champion of Australia, is today in eclipse. Griffin proved no match for Joe Brooks of England, when the pair met Thursday night, the Briton leading all through the tame exhibition.

New York, April 7.—Two boxers and eight attendants of the Metropolitan Fight Club were arraigned in the Morrisania police court as the result of the police raid upon the club just as the star bout was beginning Thursday night. When the descent was made there was a riot that required the summoning of police reserves.

Packey McFarland is a 5 to 3 favorite over Morrie Bloom in the betting for their ten round go at Racine tonight. Two to one bets are also being offered that the stock yards fighter does not score a knockout over his opponent. Both men are in condition and confident of winning. They will weigh in at 155 at 3 o'clock today.

New York, April 7.—Pal Moore, the Philadelphia fighter, is training hard for his fight with Freddie Welsh, the Englishman, on April 12. Moore begins Welsh he will probably go to England and fight Matt Wells, who recently defeated Welsh for the English lightweight title.

New York, April 7.—Tom O'Rourke is out with a challenge to the "bantamweights on behalf of Young Pierce."

"I wanted to call these so-called bantam champions, such as Johnny Coullin and Young Wagner, who want to bet so much stage money between themselves, that young Pierce will take them both on the same night, five rounds each, and if he loses the popular newspaper decision to either Coullin or Wagner they can divide his part among them, or what is better, give it to the sufferers of the late fire."

CRIST CATCHING, BLAKE AT BAT.
Here is a training camp scene, with Crist catching and Blake batting. Both men are members of the St. Louis American league team.

NOTES FROM WASHINGTON

A naval militia bill was introduced in the house by Representative Poes of Chicago. It is similar to the bill which has been urged upon the house for several years.

Representative Sulzer of New York introduced in the house a joint resolution directing the president to terminate the treaty between the United States and Russia, because of discrimination against American citizens of Jewish origin.

A resolution based upon a recent assertion by former President Roosevelt that "he took Panama from the republic of Colombia without consulting congress," and providing for an investigation into the legality of this nation's action in procuring the canal zone, was introduced in the house by Mr. Rainey of Illinois.

IN STATE ASSEMBLIES

A bill will be introduced in the Michigan senate today providing for a smaller local option unit than under the present law. The liquor interests are behind the measure.

Government ownership of railroads and other quasi-public utilities received a setback in the Wisconsin assembly yesterday when resolutions providing for constitutional amendments to enable the state to buy and operate industrial enterprises were rejected.

THE COMMUNIST MANIFESTO

The "Communist Manifesto" has come to be recognized as the science of Socialism. In a nut shell.

It was written by Marx and Engels in 1848, and since that time has been the one book that all students of Socialism go to for information.

It answers your questions and the other fellow's questions and if you know this book, writing platforms for your party will be simple.

It is a simple statement, yet one may read it a hundred times and each time find something new.

No good Socialist should be without a copy in his pocket.

'CAN'T KEEP US OUT IN 1913,' BELLEVILLE, ILL.

Socialists in Mining District Show Big Increase in Vote.

Special Correspondence. Belleville, Ill., April 7.—There is nothing under the sun that can keep us out of the city hall in 1913!

This is the declaration of the Socialists who have elected one alderman, Fred Harey, to the city council from the Fourth ward. He had a majority of 74 votes.

Jump in Vote

The Socialists here have made a jump in their vote from 129 in 1909 to 267 in 1911.

Three other aldermen on the Socialist ticket lost out by a few votes. William Carr was the candidate for mayor.

Germer's District

This is the home of Adolph Germer, secretary-treasurer of the United Mine Workers for sub-district No. 6 of Illinois.

Germer ran for the state legislature last fall and was only beaten by the corrupt influences of the old parties.

Vote It the Best

Special Correspondence. Lawrence, Kan., April 7.—George R. Kirkpatrick spoke to a large and attentive audience at the Unitarian church here.

The church was well filled. Kirkpatrick held the attention of the audience from start to finish and applause was frequent. His address was on "The Class Struggle," and many thought it was the best lecture of the Lyceum course yet delivered.

Uncle Kitchel Pixley "Ketched" at the Front

(From Our War Correspondent.)

Mail De Mexico, April 5.—Ten days ago I got your dispatch as follows: "To Kitchel Pixley, War Correspondent—Special Order No. 2. Your war news unsatisfactory. Don't hang around camps. Get to the front! Get to the front. Move into the very teeth of the enemy."

"P. S.—Rush matter at your end. (Signed) "JEFF N. QUAD." "Assistant War Editor." At one I quit San Diego and heads straight for Mr. Diaz's teeth at Mexico or rather Calixico. That part of the town in Mexico they call Calixico and the other part visa versa. Well, I had not been there two hours when I run out of plus tobacco and went across the street to stock up. Danged if I didn't step right into Mexico and they grabbed me quicker'n a cat!

pelite left after three days on black beans, peppers and a little water dipped out of the hoof-holes in a swamp. I tell you, General Cacta's war mule looked mighty fat and handsome when he was let in tonight. Well, General Gracia stands this fellow up near the doors, says "No, 6" and goes without leaving us any beans or water, but he promised we'd be shot tomorrow. March 27. We strangled and ate most all of one leg of Gracia's war mule last night. It was all we will get, as Gracia says we'll be shot promptly tomorrow, all but No. 6. They couldn't shoot him any tender than he is if they tried. March 28, 29, 30, 31. No change going to be shot tomorrow. April 1. No. 6 has come to and I must give this letter to him to throw over the boundary line. Will be shot tomorrow, Mex sez. Yours at the Front, KITCHEL PIXLEY.

ROCKFORD PARK HEAD SOCIALIST

Special Correspondence. Rockford, Ill., April 7.—Dr. O. A. Olson, Socialist candidate for park commissioner, was elected here after one of the hardest fought political campaigns ever conducted in the city.

The returns at first seemed to augur for the election of his opponent, but after a full canvass had been made of the vote it was found that the Socialist had been elected by the narrow margin of nine votes. Olson received 2,277 and the present incumbent, his opponent, receiving 2,268.

Dr. O. Alfred Olson is an educated man and came from Sweden at the age of 17. He has devoted much of his time to the study of economic questions and the newspapers are unanimous in the opinion that he was the most fitted man for the position.

SOCIAL AFFAIR ARRANGED BY ENGLISH BRANCH NO. 272

The new English Branch No. 272 of the Workmen's Sick and Death Benefit Fund are arranging their first social affair.

This branch of the well known and old established Workers' Insurance and Financial Society is taking in new members and progressing wonderfully. All the Socialists should investigate this organization. It is the one great need of the Socialist movement which is not fulfilled by the Socialist party itself.

The entertainment arranged for is to be held Saturday evening, April 8, at Joe White's Hall, 2660 West 23d street. The general admission has been set at 50 cents for family. The refreshments are free. Plenty of music and entertainment has been arranged for.

Fifty Per Cent Increase. Special Correspondence. Joplin, Mo., April 7.—The city election held in Joplin on April 4 is showing an extremely light vote for all political parties, this being due to the stormy weather.

NO PEACE UNTIL DIAZ RESIGNS

All Negotiations Have Been Abandoned, Says Representative of Rebels.

By United Press: San Antonio, Texas, April 7.—Peace negotiations between the Mexican insurgents and the Diaz administration have positively been abandoned, according to Juan Sanchez Azcoza, representative of the insurgents in the United States.

Peace Is Impossible: At a conference among members of the local junta today, communications from the several branches of the party in America were discussed.

It was announced afterward that Francisco I. Madero, Jr., will be advised immediately that it is the opinion of all leaders on this side of the border that peace is impossible, so long as Diaz retains the presidency.

"We will fight to the finish of the party or the dethronement of Diaz," declared Azcoza, in voicing the sentiment of the junta.

Madero, commanding the main division of the insurgent army, is said to be near Chihuahua City.

Cannot Trust Diaz: "We cannot trust Diaz, and therefore have concluded to drop all peace negotiations," continued Azcoza. "We can have no faith that any of the promises made by the dictator will be kept."

"Aside from that, we are really in greater power now and should be the ones to receive peace proposals, and not the ones to make them."

A message to Francisco I. Madero, Jr., will be signed by the following, all of whom have agreed that peace under existing circumstances is impossible: Juan Andrea, Almonson Gabriel, Jose Maria, Tino Suarez, Dr. Rafael Zepeda, Emille Vasquez, Ernesto Fernandez, Gustavo Fernandez, Dr. Vasquez Gomez.

Rebels Active: El Paso, Texas, April 7.—There was unusual activity today in local revolutionary circles. It was reported that another band of 200 insurgents from Texas crossed into Mexico ten miles below El Paso last night, carrying with them a large quantity of ammunition and two rapid fire guns.

The latter were donated by American sympathizers, who have themselves almost reached the fighting stage because of the detention of Blatt and Converse, the two young kidnaped Americans, in the Juarez jail.

Many rumors are current that Madero will attempt to strike a decisive blow Sunday, that he will capture the city of Chihuahua and will be assisted in so doing by 90 per cent of the people of that town.

Report Death of Madero: By United Press: Washington, April 7.—Consul General Hanna at Monterey, Mex., has informed the state department of the death of General Don Evaristo Madero, grandfather of Francisco Madero, the leader of the Mexican insurgents. He was 55 years old and had a fortune of \$30,000,000.

GRAFT FACTS UP TO WAYMAN

Virginia Brooks Gives Data to the Cook County Prosecutor.

Miss Virginia Brooks, West Hammond, who has compiled an amazing record of graft among the village officials, was fined \$1 and costs by the jury in Justice Green's court in West Hammond for assaulting a policeman.

Folice Aid Contractors: The evidence showed that when on March 25 the women went out on the street and sat upon the piles of bricks in order to keep the negro workmen from taying pavement which was not up to grade, they were chased off by the policemen. By request of the contractors, that when big Policeman O'Grady struck M. A. Brooks, after shooting in the air, she had hit him a resounding slap in the face.

It was also shown that the paving contractors and their workmen had paid no attention to the injunction which had been obtained from Judge Fenimore Cooper by Miss Brooks.

Miss Brooks' lawyer has appealed to the village, who is named in Miss Brooks' graft reports, which are to be put in State's Attorney Wayman's hands, attempted to have Miss Brooks held in spite of the \$500 bond, but was overruled.

Has Detailed Facts: Miss Brooks has collected an enormous mass of evidence showing up the whole's graft among the village officials. This she has placed in the hands of her attorneys, Burres and McKinley, for action by State's Attorney Wayman.

West Hammond voted last winter to become a city, but Attorney General Stead of Illinois has held that it is still a village and although Judge Owens of the board of election commissioners of Cook County has issued no authorization primaries have been held and tickets put in the field.

Woman's Day in Europe

We learn from L'Humanite of Paris that the Socialist celebration of Woman's Day in Europe has been a great success.

Following the Copenhagen Congress of the International Socialist party the Socialist women of Germany, Austria, Denmark and Switzerland decided to organize a Woman's Day, to be held each year on March 19, which would be the occasion for numerous meetings advocating universal woman's suffrage.

Pursuant to this understanding the Arbeiter Zeitung of Vienna on March 19 published an article of two columns by the Socialist writer, Adler, in favor of woman's suffrage.

In Germany Clara Zetkin caused a unique Woman Suffrage edition to be published containing articles of the Socialist Babel, Adler, Vollmar, Clara Zetkin and many other women suffrage agitators, and extracts from Socialist women writers from Austria, Finland, the United States, Holland, England, Norway, Russia, France and Switzerland.

L'Humanite states that from the news it has received from Berlin and Vienna the Woman's Day has been characterized everywhere by its tremendous enthusiasm and its formidable aspect, and that we must certainly consider it an entering wedge of success on behalf of the Socialist woman's cause which is rich in promises for the future.

All Ready for a Walk Down the Avenue

Here she is—ready for a nice long walk with mother. Her pretty white felt hat is lined with cherry-colored silk, and the collar of her cherry-colored coat is broad like mother's own coat collar.

These broad collars, by the way, are the very latest wrinkle in coats for the coming season—both for little women and their mothers. The collar of this coat has as a decoration a wide black satin ribbon which runs through eyelets and hangs in tasseled ends almost to the hem of the coat.

After Supper Games for Children

SERPENTINE TAG.

Every boy and girl play tag, but few are acquainted with it in its liveliest form, namely, as serpentine tag.

For this good variation a large square is drawn on the ground or on the bare floor and the person who is to be "it" takes up the position within this boundary line, while the rest remain outside.

He is armed with a long wand, at the end of which is a tuft of raw cotton dipped in flour. Anyone crossing the chalk line, or in fact venturing within reach of the tufted wand, can be tagged if the tagger can catch him.

A white flour mark on dress or coat is proof positive that a boy or girl has been tagged. As soon as anyone is tagged he must take the hand of the person tagging and accompany him in his sorties against the other invaders.

Each person when tagged joins hands with the pursuers and it is only when the pursuing line has become really long and unwieldy that the game is funniest and most exciting, though there is laughter all through it.

CAN YOU DRESS IN SIX TINY MINUTES?

It's Easy If You Have a System, Says Carrie De Mar

A woman should dress in six minutes. That, regards in lingerie is the speed limit fixed by Carrie De Mar, musical star, who beats that record by five and a half minutes, when she puts on the "cootum" in which she is here pictured.

But the six-minute limit doesn't involve anything so simple as that. It

means the whole program, from talcum powder overture to the glove-button finale.

"In the beginning," says Carrie, "a woman should make up her mind just what she is going to wear."

No time limit was specified for that process.

Then she should assemble in one place all the garments she expects to put on.

"Back of system is the great time waster—that and feminine vanity.

"Strings constitute the balance of power in most feminine clothes anyway, and the more nimble-fingered you are with the sailor's knots the more time you are going to save."

"I've done everything I can," said the chauffeur.

"Then you've lost all control of it," the owner anxiously inquired.

"Yes, sir," said the chauffeur.

"Are you absolutely sure that you cannot stop it?"

"Yes, sir."

The rich mixed leaned back and closed his eyes. "Then run it into something cheap," he said.

"I do a high diving act," "Everybody's."

"A DISCOVERY"

During a recent examination in the theology of the Old Testament the following question was asked a young clergyman: "What language did Balaam's ass speak?"

After a moment of thought, a smile flashed across his face and he wrote his answer: "Assyrian."

"KNOWING AND BEING"

"Don't you suppose," said a member of the police force, "that a policeman knows a rogue when he sees him?"

"No doubt," was the reply, "but the trouble is he does not seize the rogue when he knows him."—The Christian Register.

SOME NOVEL DISHES FOR THE EASTER SEASON

Eggs and fish have to a certain extent gotten on one's nerves by the time Easter arrives, and new duties in all courses are welcomed with hearty appetites.

Especially young people are always bewitched to make candy, so it is about as well to have a few trusted recipes and let this form of amusement take up some of the spare time.

BUTTER SCOTCH

One cup of molasses, 1 cup of white sugar, 1/2 cup of butter and 1/2 cup of water. Cook over a slow fire until it comes to the crack, then stir in a small half teaspoonful of soda. Remove from the fire and pour into well buttered shallow pans, and just before it sets mark in squares with a sharp knife.

VINEGAR CANDY

Two cupfuls of white sugar, half a cupful of vinegar and a small piece of butter. Boil until a little dropped into cold water becomes brittle, add bits of any kind, or if preferred, it may be pulled until it is white.

OMELET AU FLAME

Beat six eggs very light with a silver fork, add a pinch of salt and two pinches of sugar, fry the omelet in the usual way, but before folding it spread it with three tablespoonfuls of apricot jam. Fold it and dry in the oven, then pour over it a gill of Jamaica rum. Set it on fire and serve the omelet burning.

GRAPEFRUIT SALAD

Remove the pulp from two large grapefruits, chop fine the hearts of a bunch of celery with a half cupful of walnut meats. Finely strip or shave one green pepper and mix with the other ingredients and let drain in a cool place until ready to serve, then add heavy mayonnaise and serve with cheese straws.

FRIED SHRIMP

For a quick luncheon dish open a can of Barataria shrimp, wash them carefully, free them from all shell, dip them into a well beaten egg and roll them in fine cracker dust, and fry quickly in hot butter. Serve with sauce tartare.

CHINESE IS THE WORD

A very common offense against the dignities of the English language and also of the Chinese people is found in the word "Chinaman." By analogy with usage in other cases, the Chinese is a Chinese. One would not say "a Germany man" or "an America man" or "an England man."

A Chinese man is proper enough, if sounding somewhat awkward. No doubt the vernacular has persisted in general use in naming the Chinese largely because the word China has come to be a part of the English language with a specific meaning.

We know a china doll and a china cup and it is easy to slip into the phrase Chinaman; but it is a rudeness to the grave courtesy of our oriental brothers, none the less.—Christian Science Monitor.

LOOKING FOR THE BEST OF IT

"Chuggins is fearfully selfish since he got that new motor car," said the critical friend.

"Oh, no, ma'am," returned Flossie. "Father and mother's both older'n me."

THE POINT OF VIEW

"You have such strange names for your towns over here," said a titled Englishman. "Weehawku, Hobokon, Poughkeeps, and ever so many others, don't you know?"

"I suppose they do seem strange to English ears," said the American thoughtfully. "Do you live in London all the time?"

Chicago's \$15,000,000 for Dice

A vice commission consisting of "leading" men and women of Chicago has been at work for a year to find out how the vice business is conducted.

The commission is horrified to find that over \$15,000,000 is spent on vice in Chicago every year.

The commission also says that the vice must be "stamped out," for the business does not look good to nice people.

And so the commission recommends that there be better "regulation," that "wine rooms be closed," that "alliance between police and look-outs" be discouraged, that "dance halls" be watched more carefully, that greater "protection be given to immigrant girls," that a "moral squad of trained women be employed to visit questionable places" and "rescue unfortunate girls."

The report has been received as a masterpiece which will take "rank with the standard literature" on the question.

Well, the Socialists cannot say much to this whole bunglesome piece of work except to regret that there should still be men and women of standing and reputed education so densely blind to the real situation as this commission is.

Just a hint to this commission: 1. Most girls are given to prostitution by economic necessity.

The exceptions to this rule are so few that there could never be any recognized business if only trapped girls were thus enslaved.

2. Patronage of the business springs from the economic instability on the part of the men to support a home, and from the infelicity in the family almost always brought on by economic stress.

3. Profit in the business draws out the greatest effort on the part of those who grow wealthy in the enterprise.

Now, then, if the commission had only gone at the matter in a scientific manner, an analysis of the traffic might have resulted.

The Socialists hold that if girls are given a chance to earn their livelihood—necessities and luxuries—they would never sell themselves into this horrible slavery.

If capitalism has so far succeeded in degrading the human being that woman chooses a life of shame by her own volition, then the burden rests on capitalism.

The Socialists hold that every man should be afforded an opportunity to secure for himself a comfortable home where he and his mate might live in the full enjoyment of life and not be driven by fear of hunger to remain without the fulfillment of nature's own laws.

The Socialists hold that the profit system is at the root of the vice business. Without the profit system, which is the basis of capitalism, and which is considered perfectly proper in selling and buying steers and stocks, profit in girls would never be tolerated.

The Socialists hold that when capitalism is overthrown and the people come to their own, women will never be driven by economic necessity to dive districts, men will abhor any commercial element in their relationship with the other half of the race, and the elimination of profit will make no one interested in the traffic in human flesh.

After all, the whole capitalist system, whether in the employment of little children in the factory, or the wearing out of women in the shops, or the use of men in mill and mine, or the business of the red-light district, is only a gigantic traffic in human flesh for profit.

Lower Prices

Long columns of perversions about the reduction in the cost of living are now used in the capitalist papers to deceive the poor working people.

The wage slave is told that he can get bacon for 24 cents today, whereas it cost him 28 cents a year ago. He can get butter for 29 cents now. Last year he paid 36 cents for it. He paid \$6.80 for a barrel of flour which now costs him only \$6.00. He also gets sugar one-half cent cheaper today than a year ago.

And so the wage slave is urged to be satisfied and to rejoice, for pork and sugar and flour have dropped a slight notch.

But where is he going to get his 24 cents for bacon and his 29 cents for butter and his \$6.00 for flour?

The papers are very careful to forget that a great number of working men who had a job last year have no job now. They do not tell you that the workers who are on the list of unemployed could not buy bacon even if it were only 6 cents a pound. They could not get butter if it dropped to 9 cents, for they have nothing wherewith to buy.

Moreover, the drop is not sufficient to cause any great excitement even among the workers with a job.

The average wage is less than \$1.50 per day for those who have a job and that won't buy a great deal of the meats and sweets that the worker needs.

The fact is that on account of the fearful increase of unemployment a great deal of goods have been burdening the market and it must be gotten rid of.

The greatest factor in the slight reduction, however, is the decreased purchasing power of the wage-slaves because of decreased income.

Take the miners as an example. They got an increase in the scale and everybody thought they would fare better.

But they are allowed to work only one to three days a week and that cuts down their income until they are starving.

Karl Marx had it down pretty fine. He shows that the wages are always, in the long run, determined by the cost of living.

The masters will feed the slaves whether bacon is 28 cents or 24 cents.

That is, they will feed those they need for the immediate labor and enough others to be on the safe side in times of strikes and other labor difficulties.

The one thing the workers must do is to organize for the purpose of becoming masters themselves and possess the earth.

Then they will always have work until they have satisfied all their wants.

In those days bacon and eggs and flour and all necessities and luxuries will be at the disposal of the workers at cost.

Pitch in and knock the bottom out of the present profit prices and get what you need at cost.

Organization, Comrades

It is organization, organization for several months right now, comrades.

Don't you see what a splendid work you have done during the past year. All because you have harped on organization.

It should go in this order:

- 1. Nation—already in good shape, with almost every state organized.
2. State—with a hold on every county.
3. County—with a hold on every city and township.
4. City—with a hold on every ward.
5. Ward—with a hold on every precinct.
6. Precinct—with a hold on every voter.

In each division a RESPONSIBLE comrade should have charge, always under the direction of the organization.

If we get right down to business we can get a responsible comrade into every precinct who will see to it that every voter is brought into touch with Socialism.

The first and most important duty of this precinct captain at present is to land every Socialist voter in the party.

Say, these workers just hang loose ready to pick for the Socialist party basket.

When you get the membership you get the working force.

When you get the working force you get the money.

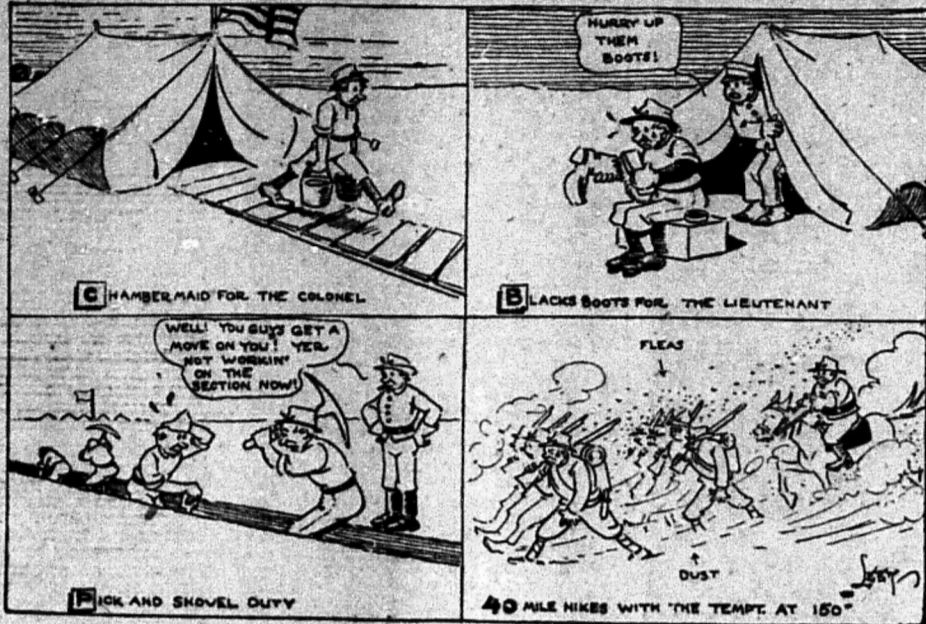

When you get these you can get the earth.

And that's all we Socialists want.

OH! WHAT A DIFFERENCE!

HERE'S HOW THE RECRUITING STATION ADVERTISEMENTS MADE IT LOOK TO BILL SMITH, BUT

THIS IS HOW IT REALLY FELT TO BILL SMITH AFTER BILL SMITH HAD ENLISTED.

The Democratic Trend in Land Ownership

BY WILLIAM M. CONWAY.

A news story, in a recent issue of the Record-Herald, gives voice to the plaint of an Australian sheep-rancher against the labor government there. The story informs us that the man has land in "freehold" valued in excess of \$300,000. His complaint is that there is "too much law in Australia"—for him.

His chief grievance is what is known as the "Progressive Land Tax." This law is no doubt patterned after the famous "Progressive Land Tax Law" Parliament of that commonwealth in the early nineties. The aim of this measure was to rid the people of the incubus of absentee landlordism, an evil which had brought about the elimination of the poorer classes from the land and had become such a national calamity that the entire country had been plunged into the direst distress and the people elected the labor government largely upon this issue.

The New Zealand statute gives every citizen as much land as he can use—but no more. The land is held under two systems—freehold and leasehold. Under the former the tax on land becomes greater with each succeeding year until the holder is forced to sell out to the state, thus finally vesting the land in the commonwealth. Under the leasehold system the state enters into a contract with the citizen for nine hundred and ninety-nine years. The tax on such land held in this way is the smallest in the civilized world. Persons who hold land in leasehold are protected in every way by the state and the land is not liable for debt, only the im-

provements are liable. In addition, the commonwealth will advance money to citizens who hold land in leasehold to build houses and to purchase such farm implements as they require and gives the citizen thirty-six years to repay the loan at 2 per cent.

In one section of the country, known as Cheviot, this law has had the effect of taking the estate of one English lord away from him and making of it homesteads for over 1,750 people. Before this it was merely a rabbit warren. To our minds this alone justifies the Progressive Land Tax Law.

The Australian law, modeled after this, hits the sheep man hard. He says he wants to find a country where he can have all the land he wants without legal interference. He will have a long hunt. In his country he had long, long years of warfare between the sheepmen and the cattlemen, terminating about 1903. The former were gradually beaten into submission, not with law as in Australia, but at the point of guns and at the end of the cattlemen's lariats.

What our visitor from the South Seas needs to know is that the trend toward democracy is eliminating him and all of his ilk. In different countries this movement masquerades under various names—but the end is the same. The people have been forced from the land by iniquitous laws and now by LEGAL enactments they are coming back. The men who are dispossessed by this process dislike it, however. Humanity ignores the single individual when the welfare of the race is at stake.

SLAMS, JABS, BOOSTS AND 'MOST ANYTHING'

RUBBERNECKS do abound in these days of skirt rumors.

VERY few animals—except the human animal—will drink whisky. The monkey will drink it and acts just like a drunken man when he does so.

THE name Rome is more used than any other to designate towns, and this includes towns and cities in all parts of the world.

THE streets of New York city have a mileage of 3,740, exactly the distance between New York and London.

'TIS several hundred years since Sir Walter Raleigh discovered tobacco, and goodness knows how long the Indians had been using it before he got next—but physicians are still discussing and disagreeing as to its injurious effects.

"DID you tell that man who was making photographs for the newspapers that you did not want your picture taken?"

"Yes," answered the noted but very ugly-looking politician.

"Did he take offense?"

"Not a bit of offense. He merely smiled and said he didn't blame me."

THE grave, dignified man is not always wise.

BARBER SHOP CHATTER

The man who shaves himself saves time and money—but think of the information he misses.

TO relieve asthma dissolve saltpeper in water. Soak a piece of blotting paper in the solution, dry the paper and burn it. The fumes will help the sufferer.

SOMETIMES a man throws a banana peel and sometimes a banana peel throws a man.

Pushing the Sale of Literature

IT is very easy to sell books and pamphlets to subscribers to Socialist papers.

The names and addresses of these subscribers may be obtained gratis from the papers themselves.

The organizer should call upon these persons himself or get other comrades to call upon them for the purpose of selling them literature, informing them of meetings and soliciting their services in propaganda work.

The subscribers to Socialist papers offer a rich field for the disposal of Socialist literature. The local comrades should be taught to make the most of it. It might stimulate numbers of comrades to canvass if organizations provided them with literature at a substantial discount.

The chief feature of both indoor and street meetings should be the sale of literature.

More literature will be sold by concentrating on one book than by merely offering a variety. Of course other books than the one "talked up" may be carried for the benefit of those who may want them.

Here is how to obtain the maximum sales at indoor meetings:

(a) Advertise the book to be pushed on a little leaflet and arrange for some comrade standing at the door to pass one out to every person entering the hall.

(b) Arrange for other comrades to approach these persons after they have sat down and read the leaflet with copies of the book for sale.

(c) Arrange to have the book well displayed on a literature table in the most conspicuous part of the hall. The table should be covered with the book being pushed, though a few other titles may be displayed.

(d) Before the lecture begins, the speaker of the evening or some specially appointed comrade should give a book talk from the platform, then the comrades requested to pass along the tiers of seats and sell copies to those who may desire to purchase.

(e) Books should be well prepared. A few of the most interesting paragraphs may be quoted, the author described, the table of contents read out, etc., etc.

(f) Throughout his address the lecturer would do well to quote able passages from the book in support of his statements and refer to it occasionally as a source of information.

(g) Before the meeting adjourns the chairman should once again draw attention of the audience to the fact that the book may be obtained from the librarian at the table or from comrades in the hall. Copies of the book might even be placed on the chairman's table, to be sold from platform when the meeting is breaking up.

No book should be pushed in this way that is not a highly meritorious propaganda work.

A number of these suggestions can be carried out at street meetings. But at open-air meetings the time to really sell is at the conclusion rather than at the beginning of the address.

THE RUPEE

Here's a familiar little note taken from the journal of the Railway Servants of India and re-published in the Railway Telegraphers, organ of the Order of Railroad Telegraphers of the United States.

The reprinted article accentuates the Socialist position that hard times is a world-wide quantity. It is entitled "The Rupee."

"These are hard times in which we live, unfortunately. The purchasing power of the rupee has disappeared to a fearful extent, and a much depreciated rupee today buys about one-half what it secured about fifteen or twenty years back.

"There are causes for this depreciation which may be referred to later on.

"What we would say just now is, that railway companies should remember this fact and enhance the salaries of their employes.

"Government has seen the need for helping their lower-paid men, and it is high time that Indian railway managers followed a good example.

"The fact is, that India, from a cheap and agreeable land to live in, has become a place where poverty and hard work combine to render the poor man's lot not a very undesirable one.

"This may be changed somewhat by greater consideration on the salary line."

THE DANGER

"Come right in, Sambo," the farmer called out. "We won't hurt you. You know a barking dog never bites."

"Sure, boss, ah knows dat," replied rich, fat, sweet and greasy dishes ought know how soon he's goin' to stop barking."

You Should Join the Socialist Party

BY J. O. BENTALL.

You voted the Socialist ticket straight last election. That's the reason we want to talk to you at this time.

We are not talking to you who scratched your ticket and gave part of your vote to the capitalist parties—nor unless you have repented genuinely.

But you and the host like you voted the Socialist ticket straight. That was very good.

If the Socialist party were like other political parties we would be satisfied and only encourage you to keep on voting in the same way.

But the Socialist party is altogether different from all the capitalist parties. They depend on the few big owners of public utilities for all their support and leadership. In fact, the republican and democratic parties are only tools in the hands of Morgan, Belmont, Rockefeller, Hill and the few who own this country.

The Socialist party is the party of the working man. It is the party of all who toil for their living and who do the labor of the world. It is the party of all who believe that the raw material, the machinery of production and all natural resources should be owned by all the people publicly or collectively, and not by a few privileged individuals who do no useful work either mentally or physically.

In fact, the Socialist party is made up of those who believe that the worker should have the full social value of all he produces. Only the workers believe this—with a few exceptions—for it is primarily the workers who would be benefited by getting what they are actually creating.

It is, therefore, up to the workers to support the Socialist party. This means—

1. A DEFINITE DECISION.

You already understand the fundamental principles. You realize, then, that it is absolutely necessary to have a specific form of application for membership. This is as follows:

I, the undersigned, recognizing the class struggle between the capitalist class and the working class and the necessity of the working class constituting themselves into a political party distinct from and opposed to all parties formed by the capitalist class, hereby declare that I have severed my relations with all other parties, that I indorse the platform and constitution of the Socialist party, including the principle of political action, and hereby apply for admission to said party.

NAME _____ Occupation _____

Address _____

You sign this application card and send to the local secretary and if you do not know how to find him write to the state secretary and you will be given full information.

2. DUES IN THE SOCIALIST PARTY.

After you have signed the application card it goes to the proper committee and is acted upon. If you are accepted you pay 25 cents a month as dues.

Of this, 5 cents goes to the National organization, 5 cents to the State, 5 cents to the County and 10 cents remains in the branch. There are some variations in this in different states, but in most states this is the rule.

A good Socialist will never fail to pay his dues. He will go without lunch or without some other necessity before he will fall behind in his dues.

There is something inspiring to be a dues-paying member of the Socialist party. You are at once united with the workers in the local where you belong. Then you are joined to all the workers in the CITY, COUNTY and STATE in which you live. The states are united in a great NATIONAL organization, of which you are a part. And finally our great national party is linked with the INTERNATIONAL Socialist movement, in which ALL the NATIONS of ALL the EARTH have bound themselves together.

You say "comrade" to your shopmate and neighbor and you extend your hand across the oceans and get the warm and hearty grip of the comrades in every land where the workers hold high the light of liberty to the toiling masses.

3. ACTIVITY IN THE SOCIALIST PARTY.

Once a dues-paying member you are ready for the many duties and privileges that will come to you.

You are to attend the meetings and participate in the deliberations. You go into the political campaigns and help in every move that is made.

You also become a propagandist, talk to your fellow workers, distribute literature and in every way possible promote the cause.

It is a great privilege to belong to the Socialist party. You need the inspiration and encouragement from the comrades. The comrades and the party need you to help in the splendid efforts put forth for the working class.

Don't wait if you are not a Socialist. Join the party. It is the greatest organization on earth today. It will give you new life and new courage and a new outlook.

Poverty, Labor and Overcrowding

BY ROBERT ELATOFFORD

Bad air, bad water, bad drainage, bad ventilation, damp streets and dark house, dirtiness and overcrowding, all tell against the health, against the health of children most seriously, and all help on the deadly progress of degeneration.

Graysness and monotony of life, unclean, unsightly and sordid surroundings, tedious and soulless toil, all tend to blunt the senses, to cloud the mind and to oppress the spirit.

Millions of the working poor, who live in great and noisy cities, whose neighborhoods are vast, huddled masses of sunless streets and airless courts, whose lives are divided between joyless labor and joyless leisure; the conditions of whose comfortless and crowded homes are such as make cleanliness, and decency, and self-respect impossible; millions of men, women and children are here starved in soul as well as in body.

The people, throughout their anxious and laborious lives, sleep in the overcrowded cottages and tenements, ride in the overcrowded and inconvenient third-class carriages, sit in the crowded and stifling galleries at the theaters, are regaled with the crudest melodrama, the coarsest humor, the most rapid music.

What refinement have they in their lives, these poor working millions. They have no flowers, no trees, no fields, no streams; no books, no arts, no healthy games.

Worse than that, perhaps, they are paid neither honor nor respect; they are without pride and ambition; they have no ideals, no hope.

The environment that denies to human beings all pride and honor and hope, all art and nature and beauty, does not make for health, nor for morality.

The strangeness of means, the uncertainty of employment, the looming shadow of hunger and the workhouse, send some to suicide and some to crime, and leave the impress of their degraded and evil presence upon the hearts and minds of nearly all.—From "Not Guilty; A Defense of the Bottom-Dog."

On the City Street

BY ROBERT PAGE LINCOLN.

I stood on the street at midnight, now closed in a sordid gloom, Where the bare walls rose up o'er me as cold as a sinister tomb; I stood in the street at midnight and heard in that slumbering place The voice of the slave that toiled daily—a wretched human face; I looked in that space of darkness and thought not a step I heard— Yet there rang in my ear the echo of the thousand feet that stirred In the blinded waking hours when the mills have turned around— And the steady tread, the fight for bread—now! now a sound!

I stood on the street past midnight, now hung by a shroud of muck, With here a light and a glimmer where the prey of the underworld lurk; I saw a small face at my shoulder, with a question upon her tongue— And it woke in my being no answer, yet my heart was strangely wrong; I saw but a wilting flower, gone down at the cost of her soul— Like a storm that has beat in the valley and raged on the quiet knoll; I turned in my steps with a shudder and gazed down that empty lane, And a sound broke on the stillness of the rumble and grumble again.

Like a beast in his iron prison, with his massive jaws open wide, It crushed in the heavy shadows and seemed to forward glide With a stealthy tread of warning and a snarl in the yawning throat, A death call in the silence of that silence now so remote. And I heard the gasp of pity and I saw that pleading look But for a moment, then it was gone like the waters of a brook. And I seemed to see the workers who toil through the livelong day Pass by in the deepening shadows on the bare and cheerless way.

And I thought, as I stood there all alone, what a weary world it is, That the upper man shall reap the gain that the toiler knows is his; And I felt there deep within me the call of some sweet revolt— My heart seemed made of fire as the thought rose in assault; For the prison doors were open and I stood at the army's head, With arms thrown wide before me, and they heard the words I said— A movement stirred on the empty street and the night was filled with cheer, And lo! I awoke with chilly lips, but I felt no weighing fear.
