W. Mack.

The old parties have a long string of candidates seeking the judgeship jobs and the Socialist party will probably make the fiercest fight it has ever made on the foes of organized labor who are sure to be nominated on the republican and democratic tickets.

Nearly all of the clerks and little fry hanging around the city hall are looking for the moninations. Most of them show the most experience in office work and the mooted advantage of being lawyers in chorus girls' disputes.

Big Guns Silent

The big politicians are not showing their hand in the election, being busy taking care of the distribution of plums at the city hall.

ADVICE TO AMATEURS—BY SILK O'LOUGHLIN

Noted Umpire Tells Young Players Some Things They Should Learn as Amateurs.

Many players come into the game did not keep their eyes and ears open

did not keep their eyes and ears open and their beads at work as amateurs. Take the pitchers. Most of them rely upon speed and curves and not enough on control, change of pace and the eight men behind them. They win on the lots, but do not when they become processions a unless they use their heads as well as their hands and feet.

League players are usually good waiters. They will get the young pitcher "in a hole" and then he has to put the ball over.

Such things as knowing the batter's weakness, making him hat bad ones, pailing him off his balance with a clever change of pace, are as Greek to the average young pitcher breaking into the

The clever major league pitcher works with his infield all of the time. in a pinch, if he has good control, he delivers the ball so the batter will pop up an infast fly or lut a weak roller that is easily handled. By pitching over the inside or the outside corner when a batter is trying to sacrifice, the pitcher can make him bunt in a desired direction and thus force the runner. These are part of the education of the major leaguer, but there is no reason why the amateurs should not learn them.

How many amateurs or semi-profes-sionals go to first base at full speed, head up and watching the ball? The majority duck their head and don' inajority duck their need and don't think of the ball. They tenr across the base, never thinking of turning to the left to gain 15.0° 20 feet toward second in case the ball is fumbled or loosely handled. The batter should always make the turn toward second, to be in a position to continue if oppor-tunity offers. He should size up the situation quickly and act without hesi-tation. Often, when the chances are even, his speed causes a hurried throw

The runner should always watch the ball. Ability to gauge the speed of a runner or of a batted ball is one of the secrets of success. Ability to think quicker than nine out of ten players has made Cobb a marvelous base runner. He doesn't run wild. He calculates every chance and gambles against failure. His success should inspire young players to do the same. Think quickly, but don't act foolishly.

How many players know how to slide when they break into the game? After watching Cobb and Collins, Evers and Bescher, few admit that they do. Had they learned the art of getting a lead,

Many youngsters fall as batters after making an enviable reputation as amateurs or semiprofessionals. Once around the circuit of a league and their

around the circuit of a league and their batting weakness is an open book. By adopting a natural position at bat, paying atteinton to the position of the feet and body, and getting into the habit of "looking them over" before trying to hit the ball, the young wlayer will equip himself as a batter. Every player should learn to bunt properly. The average youngster likes to take a "long, healthy swing" at the ball in-The average youngster likes to take a "long, healthy swing" at the ball instead of grasping his bat so he can swing quickly, no matter whether he is offered a fast ball, curve or floater. If he stands close to the plate he limits the pitcher to less space. If he refuses to swing on everything and makes the pitcher "stick them over," he is more apt to get hits than the player who "takes a toe hold" and swings himself off his feet after missing the ball.

Much advice is given batters, but the Much advice is given batters, but the natural position is the best. The batter is emabled to throw his weight into his swing, instead of depending upon the strength of his arms. He is also less apt to pull the ball into one field continually, which enables the fielders to play him with certainty.

Pro protest against the passing of the employers' liability and employer

employers' liability and employers' compensation bills now before the legislature, a number of Chicagonas prominent in the building industry will go to Springfield Tuesday night.

The builders assert that their interests were not represented in the framing of the bills and ask a delay until the next session of the tegislature.

The compensation bill provides a fixed scale which employees shall be paid for injuries incurred in the course of employment. The liability bill takes away the "fellow servant," "contributory negligence," and "assumption of risk" defenses for personal injury actions in certain dangerous occupations.

certain dangerous occupations.

Among the builders who will take up the party are C. F. Wichle, John Griffiths, J. P. O'Conner, Dan McCaun, G. A. Schillinger, Frank J. Burns, H. F. Bremer, W. J. Scown and R. S. Odsus.

TOKIO'S SEGREGATED
DISTRICT SWEPT BY FIRE

Tokio April 19.—The notorious Yoshi-wari, the principal quarter of Tokio in-mbited by the licensed hetarine, was destroyed by fire Sunday.

Many of these houses were almost palatial in appearance, and a thousand of them were birned in a little more than three hours. Over 6,000 women in-

mates were made homeless.

The Yoshiwari is conducted under government licenses, which provide for the establishment of hospitals, and several of these institutions also were

BUSIEST ROOM IN WASHINGTON

That Is Where Socialist Congressman Victor L. Berger Is Now Seen.

By National Socialist Press.

Washington, April 8.—The busiest

room in the big marble house office building is room No. 240.

There is where Congressman Victor L Berger, Secretary W. J. Ghent and a stenographer toll from mern to night conversing with talkative visitors, an-swering volumes of mail and filling large waste baskets with alleged poetry and freak letters.

Many Write to Berger

Of course, every person in the country who has any real or imagined grievance against the government, against an organization or against anybody, is now writing Berger all about it.

The real ones are considered and the imagined ones are being saven by Ghent in a big drawer marked "Fakes and Freaks."

Then there are the usual requests for free seeds, documents, and Berser's opinion on this or that alleged national issue. Also, whether the Socialist congressman would spare a few moments to coach a high school boy in Kokomo Ind., who has taken the hegative side in a debate upon the question, "Resolved, Ejernity is Endless."

Congress Takes Recess

Congress Takes Recess
Luckily congress has taken a recess
for a few days. It is expected that the
Socialist trio will get away with most
of the accumulated mail by Monday,
and if afterwards the mail will only
contain legitimate business matters office No. 240 may announce that it is
running normally.

A Socialist congressman has no snan.
Especially if he is the only one. He,
according to some, ought to revolutionize the country singlehanded. At least
he ought to furn congress upside down
the first week.

But, of course, that's the opinion of
a few. Many, on the other hand, have
written the Socialist congressman that
they appreciate the fact that he has a

they appreciate the fact that he has a most difficult task, and know he will do

the best he can.

The slow-but-sure Milwaukee method is now in vogue in room No. 240. We know that this method has brought resuits. What will it accomplish here? Well, Congressman Berger does not do much prophesying. He says time and patience are the first requisites just

in the city council for the last two months by appointment, is slated as Mayor Seldel's appointment, is slated as Mayor Seldel's appointee to Congressman Berger's place in the council.

Walter P. Stroesser, health commissioner, has been made secretary to the mayor at a salary of \$1,200 a year. He was the logical aspirant for the chair of Congressman Berger, but was made secretary after the resignation of the mayor's secretary following a Socialist referendum.

Entire Party Overcome An accident happened to the boiler used for the fans and the air was stopped a few minutes after the party entered the shaft.

Within a few seconds a faint cry for help was heard from below and men with oxygen helmets burried down.

The entire party was overcome by the after-damp and when brought to the surface physicians worked over them for nearly an heur before they were able to be moved to the rescue car. Members of the first party told a harrowing story.

"We were going along all right until we got to the fourth entry," said Dr.

H. H. Hamilton, "and in a few seconds nearly every man in the party was down. I attempted to carry one man over the lift, but failed and fell myself. That is the last I remember until the surface was reached."

Dead Now Estimated at 128

GREAT POPULARITY CONTEST!

of The Chicago Daily Socialist and The Young People's Socialist League

Beginning Now!

To Close April 30, 10 p. m.

In appreciation of the services rendered the paper in the past, The Chicago Daily Socialist and the Young People's Socialist League In appreciation of the services rendered the paper in the past, The Chicago Daily Socialist and the Young People's Socialist League have united in giving away several valuable prizes. These prizes will be given to the person or organization receiving the most votes during the life of the great popularity contest which closes at 10 p. m., Sunday, April 30. These prizes will be given away without the expense of one penny to the recipients. The Daily realizes the fact that everyone desires one or more of these premiums with which to decorate the home or organization hall, but that all have not the resources from which to draw to secure them. The opportunity is therefore presented to secure them without the expense of one cent. All that is necessary to win one of these grand prizes is to see all of one's friends and induce them to purchase combination subscription cards and bazaar tickets. The purchasers not only receive the Daily at the regular rate, but the bazaar tickets in addition without expense. It will be an easy matter to sell these combination subscription cards and bazaar tickets, for all will want to attend the big bazaar and will appreciate receiving a ticket free with a month's subscription to the Daily. In short—the ones who sell the most cards will secure the prizes. For information concerning the method of voting, see "Rules Governing Contest," which appears below.

NOMINATIONS In order to enter this contest it will be necessary for a contestant to be nominated in the regular way. If a person desires to have a favorite friend or organization enter the contest he should clip out the nomination blank appearing in another part of the paper and fill in the blanks. Then the nomination blank should be brought or mailed to the office of the Chicago Daily Socialist. This will enter the contestant. If a person wishes to enter the contest, all that is necessary is to fill in his c. her own name and send it in. Many will desire to enter and will take advantage of using the nomination blank, not waiting for their friends to nominate them.

Does Not Cost One Cent to Enter

All that is necessary to enter this contest is to fill out the nomination blank appearing at the bottom of this advertisement and send it in to the Daily Socialist. When this is done, proper cards and blanks will be given you and you can immediately go to work to win a prize. In case you do not fully understand the contest, call at the Daily Socialist office and information will be freely

THE PRIZES

The first and grand prize in the great contest will be a valuable piano selected for its intrinsic worth, and worthy a place in the best home or hall in the city. The contestants are worthy of the best that can be offered, and this instrument has been selected with this in view. There is nothing that adds more charm to home or more dignity to a hall than a fine piano, and this has been the reason for the selection of a piano as a worthy prize to strive for. It is freely given, and none will take more pleasure in seeing it go to the winner than the Young People's Socialist League and the Chi-cago Daily Socialist. Make a special effort to secure this grand instrument. It will be a source of much pleasure for many years. If you have wanted a piano and have not felt able to add one to your possessions, take advantage of this opportunity and secure the prize. In addition to piano other A bedroom suite has been decided upon. A great deal of

pains and care were taken in the selection of this prize. This is a beauty. It consists of a fine bed and all accessories; a fine dresser, russet leather-covered oak chairs, Axminster rug and heavy cabled net lace curtains of handsome design. You have friends who will want these prizes, or you may want one or them yourself. Use the nomination blank and nominate the friends or yourself, as you like.

RULES GOVERNING CONTEST

Those Eligible.—Any person living in Cook county. Any organization.

Those Not Eligible to Enter.—Employes of the Chicago Daily Socialist or any member of their families.

How to Enter.—Clip out the Nomination Coupon appearing on this page and fill in the blanks. Send or bring it to the office of the Daily Socialist. Each coupon counts fifty votes and each contestant is entitled to fifty coupons free. When the fifty coupons have been counted for any one contestant no more can be credited to that particular contestant. One nomination coupon makes the nominee a contestant.

How Votes Will Be Issued.—Votes will be issued for paid subscriptions only. When subscription card is returned to the office of the Daily Socialist, accompanied by the amount it calls for, a voucher will be issued to the contestant entitling the same to the number of votes, as provided in the schedule of votes appearing on this page.

issued to the contestant entitling the same to the number of votes, as provided in the schedule of votes appearing on this page.

Depositing Votes.—Votes can be deposited any time before the closing moment of the contest. No votes will be counted until they appear in the ballot box, which will be kept at the office of the Daily Socialist. Transferring Votes.—No votes can be transferred from one contestant to another except in case of death or permanent removal from the city, and then only to an immediate member of the family.

Standing of Contestants.—The standing of contestants will appear each day in the columns of the Daily Socialist. The ballot box will be sealed, however, six days before the close of the contest, and no one will know the standing thereafter until the final opening of the box at the bazar of the Young People's Socialist League at the close of the contest.

Judges.—Judges in whom all contestants will have implicit faith will be selected to make the final count and award the prizes. In the event of a tie vote the judges will determine upon an equitable adjustment. Decisions.—The Daily Socialist will decide all questions which may arise during the contest and each contestant will understand this upon entering.

What Does The Woman Think?

BY JOSEPHINE CONGER-KANEKO

(Editor of the Progressive Woman.)

What does the woman who reads the account of the burning of the Triangle shirtwaist factory in New York City think about it?

I know what she says. She lays her paper down, sighs a deep sigh and says, "Ain't it just : wfull!" But, after that? I wonder if that is the end of her thought on the matter. A child might do as well. Surely the woman who bears children must rise above the child in thinking about a matter so vitally concerning her own kind as "id this fire.

But if the woman thinks no more than this, there is

this fire.

But if the woman thinks no more than this, there is a reason for it. She has never been taught to think beyond her own household. Beyond her own children and her own husband. Indeed, if she has been taught to THINK about these, she does well. Principally, her attitude on most matters, even concerning her home, is one of "feeling" rather than of thinking.

But the time has come when we nen must THINK. When men must permit their daughters and their wives to think. This time has arrived, because women themselves are called upon to meet the starn realities of life.

The old notion of being "shielded" all down the rose-stewn path of life no longer holds. It didn't hold for the scores of women and girls who were burned like vermin in a cage in that Newark factory fire, nor in the New York factory fire.

It doesn't hold for the millions of self-supporting and family-rupporting women the country over. It doesn't hold for the seven hundred and twenty-thousand prostitutes who are slaving their lives away in a hell of horror to appease capitalist greed. It doesn't hold for the daughter of the working, who has no future but one of uninterrupted toil to the end of her days.

The greed of the system is pushing women to the lowest depths of misery on every hand. Not only in our cities. Out here in the country are conditions as hard, as rough as vile as in any city slum. Continually, for months, our county jail has held women prisoners (mothers, in many instances, with little children who spend long days in the jail, too), who have broken the prohibitory law. Have sold "booze" from their kitchen doors.

In the miring districts the men are on half-pay, or out of work half the time. The women run constant risk of arrest by trying to make up the deficit in the sverdepleted family purse by selling a prohibited article. When the competition at "booze" selling becomes too fierce many of the younger women join the tanks that

make up the red-light districts or "Coney Islands" of

make up the red-light districts of Control Manda the larger country towns.

Ever so often the law "does its duty" and these women are herded into jail like so many cattle.

The tentacles of the octopus reach into every nook and corner of the land and they draw the life-blood of the

women as well as of the man.

The Triangle factory fire is but an incident.

The red-light district, the booze-selling, all are but ingignate in the rign of this monster known as the capitalist. It is the capitalist system that women must come

The red-light district, the booze-selling, all are but incidents in the reign of this monster known as the capitalist. It is the capitalist system that women must come to think about; it is the capitalist system they must learn to distrust, to despise, and finally to abolish.

I am writing this on election day in Girard. Here women vote for city officials. Because they can vote they are interested in the outcome of the campaign.

I was just told of a woman who said, "Yes, I am going to vote. I lever voted in my life. John has always voted the Bepublican ticket, and look what they have done for us! He hasn't had work half the time the last year. He'll be mad all right when he knows what I've done, but I'm going to get one ahead of him this time. I'm for giving the Socialists a chance, anyway, to show what they can do for us working people."

This woman is beginning to THINK.

She is growing class-conscious.

She is going to do more than say, "Ain't it awful!" when she reads of such horrors as the Triangle fire. Her realings have gotten into her brain, and she is protesting a way that will county. How many other women in this country are beginning to experience such an awakening?

And you men—you who haven't thought that women counted for much in the great game of politics, in any of our social relations outside of biscuit-making and baby-raising—do you know that the Socialists of Ransas are holding their broath today for fear the women of several of our promising towns will tip the balance of power in favor of the old regime?

At the primaries the Socialists won by large majorities. But, if the unthinking, untaught women are rushed to the polls by the old party members to save the day in their favor—well, if they are, it OUGHT to be a lesson to our men that women ARE human beings, that they DC count one way or the-other, and that we MUST BEGIN TO CONSIDER THEM in this new light.

It is a great question, this awakening of the women, but it has GOT to come.

It is a great question, this awakening of the women, but it has GOT to come.

Curbing The Postal Clerks

It is a notorious fact that the postal department is inhumanly unjust toward the postal clerks.

Both in the railway service and in the offices the workers are imposed upon by the higher authorities until at present the condi-tion is well nigh unbearable.

The following is a recent order which for a time was kept secret

but which later leaked out:

which later leaked out:

Washington, D. C., March 13, 1911.

Mr. Alex. Grant, General Superintendent R. M. S.

Sir: Referring to the reports that postal clerks at various points are forming lodges and secret organizations of railway postal clerks, I desire that steps be taken at once to acquaint all in the service that such action is regarded as inimical to the interests of the government. All clerks, when the services take an early to well and faithwhen they enter the service, take an oath to well and faithfully discharge the duties of the office to which they are fully discharge the duties of the office to which they are appointed and to perform all the duties required of them and to abstain from everything forbidden by the laws in relation to postoffices and postroads. It is incompatible with their obligation to the department that they should assume another oath with a secret organization in the service which may at any time interfere with the obligations which they assumed upon entering the service. This is not to be construed as interfering with any right which a clerk may have of acting personally and individually with reference to organizations outside of the postal service.

You are directed to advise all railway postal clerks as to these principles of employment and views here expressed

to these principles of employment and views here expressed and that they shall be governed thereby.

Very respectfully, JOSEPH STEWART, Second Asst, Postmaster General.

This shows clearly where the postal clerks get off. They are simply up against the gigantic tyranny of the political and financial interests that run this government and are among the most helpless of our workers.

Why should the postmaste, general be allowed to say to some owners of the postal department that they shall not organize and defend themselves?

Let the postal clerks get together and with other workers in

their line show the postal department who is boss.

Is the autocrat at the head of the postal service the boss or is

Is Taft the boss or is he the servant?

Are men in office as heads of departments and organizations hosses or servants?

Brace up, boys, and instead of taking orders from the post-master general, when they are contrary to decency and justice, GIVE ORDERS.

The fettering of the workers by these hired tools of the oppressors must not be tolerated.

The tools have the support of the railroad thieves who get millions of dollars every year from the postal department over and above what is fair. It is a steal so vulgar and nauscating that it

has become a stench in the entire country.

The interests support the heads of the postal service but rest assured that the PEOPLE ARE WITH THE CLERKS.

Organize and challenge the postmaster general. Put up a stiff fight and show the tyrants where they jump off.

And then put the party at the head of the government which is made up of the working class.

You have already put one man into congress who will stand for the clerks and not for the railroads and other private interests.

Milwaukee and the Idle

The newspapers of the country have made much ado about the unemployed in Milwaukee and charge the Socialist administration with the condition that exists.

Are there a lot of unemployed in Milwaukee? Perhaps. Is there a larger proportion than before? Maybe.

If so, what is the reason?

there a larger proportion than before? Maybe.

If so, what is the reason?

Two main factors enter into this:

1. The Socialists are aware of the fact that the unemployed are victims, not criminals. For this reason these unfortunates are treated in a humane manner. Other cities treat the unemployed brutally and inhumanly.

So, of course, these unemployed try to find a place where the authorities do not break their heads after they have starved their authorities do not break their heads after they have starved their storms.

It will be remembered that the Social-Democrats lost seats but gained votes.

It will be remembered that the Social-Democratic party understood that sooner or later the two old parties would combine against them, and that when they did so this would mean that the Social-Democratic party would have to grow from a minority to a majority party in order to hold the city.

This is exactly what the old parties but gained votes.

It will be remembered that the Social-Democratic arrived a mapority of all the votes cast. They understood that sooner or later the two old parties would combine against them, and that when they did so this would mean that the Social-Democratic party would have to grow from a minority to a majority party in order to hold the city.

This is exactly what the old parties but gained votes.

It will be remembered that the Social-Democratic acrived a mapority of all the votes cast. They understood that each tent the two old parties when they did so this would combine against them, and that when they did so this would mean that the Social-Democratic administration and parties are partial tably press of Milwaukee, which constantly villided when the Social-Democratic administration and parties are partial tably press, and with a stern determination to win in the long war, we cannot lose Milwaukee.

This is exactly what the old parties but the Social-Democratic party would have the social table press, and with a daily press of Milwaukee.

Social-Democrate administration and printing

in which the unemployed are. The Socialists, therefore, do their best to secure employment for workers and give them as much con-sideration as possible.

Because of this attitude the capitalist press has heralded abroad that the Socialists have promised jobs to all unemployed, and so these men naturally drift toward the city where they think they stand a chance to get work.

Of course it is impossible

are in the hands of the city, and that cannot be done before the laws are changed-that is, for the present.

So if there is a larger proportion of unemployed in Milwaukee now than before, it is for the above-named reasons,

And the capitalist papers know they can embarrass Milwaukee by getting the unemployed to flock in.

No shops or mills have closed down in Milwaukee. Industry is better in Milwaukee under the Socialists than before. If it had not been for an abnormal influx of unemployed Milwaukee would be considered the most fortunate city in the country from the point of view But now, since there are many unfortunates within its gates,

Milwaukee goes forth to help.

So last night the city administration held a ball, charging 25 cents admission. Blocks of tickets were also sold, so that the income aggregated over \$5,000.

Whenever did Dave Rose or Herbie Becker do anything like

The capitalists give the unemployed the policeman's club. The Socialists give them a dance and all the proceeds.

Shorter Hours for All

BY WILLIAM RESTELLE SHIER

Should we live to work, or work to live? A visitor from Mars would say that the people of this earth lived solely to work.

From sunrise to sunset it is work, work, work, to be repeated on the morrow and all through life until at last the grim resper lays the exhausted toller quietly in the

grave.

Por most of us, as the poet Hoover says, "Tis go to work—to sain the cash—to buy the food—to gain the strength—to go to work."

That just about sums up the niggardly life most wage-carners, farmers, alopkeepers and petry manufacturers lead under capitalism.

And the amazing part of it is that they permit themselves to be thus driven by the furious mania of work, not to satisfy extravagant wants of their own, but to heap mountains of wealth into the laps of multi-millionaires. Incredible though it may seem, it is, nevertheless, true that the average worker produces the equivalent of his daily wages in less than three hours. The other six, seven or eight hours he is producing profits for his boss, rent for the landlords, interest for the money lenders and taxes for a government that spends most of its revenue, upon engines of war.

A PRASONABLE WORKING DAY

A REASONABLE WORKING DAY

A REASONABLE WORKING-DAY
Professor Irving Fisher of Yale University declares
that "the average workingman works two or three hours
too much every day."

The professor is right. No person should be required
to get to work earlier than 8 o'clock in the merning or
leave later than 5 o'clock in the afternoon.

The eight hour day would give the workers more leisure
in which to rest, to study, to amuse themselves, to tend
their gardens, to improve their homes, to play with their
wives and children, to frequent the parks and recreation
centers, to visit their friends, to attend meetings, to
become sociable, intelligent, well-informed citizens.

The eight-hour day would also improve the health of
the workers and prolong their lives. It would increase
their efficiency, reduce the number of railway collisions
and other accidents, diminish the use of stimulants and
perhaps spread employment among a greater number of
people.

people.

"Eight hours for work. Eight hours for rest. Eight hours for play. That is the charlabed hope," says Robert Hunter, "of every man under the machine, of every child and woman toller, of every wage-worker in the wide world." THE MEANS OF REALIZATION

How is that hope to be realized?

Thus far it has been realized in several important trades through the efforts of organized labor.

This method still holds good. The unions are still winning concessions from the bosses. The stronger they are the more successful they will be. You should join the union of your craft.

But there is a better method than strikes, better because it is less costly and were far reaching.

But there is a better method than strikes, better because it is less costly and more far-reaching.

Has it ever occurred to you that the eight-hour day could be established in a great number of industries by law, and, furthermore, that all the workers in all the trades would thereby be benefited, the skilled and the unskilled, the organized and the unorganized?

There is nothing impractical in such a law. It could easily be enforced by the government. Then why has it not been placed upon the statute books?

Ah! that is a question no capitalist newspaper will answer truthfully.

The federal, state and municipal governments, my friend, are controlled directly and indirectly by big business men—by wealthy bankers, railroad magnates, corporation managers, manufacturers and the like.

These gentlemen are shrewd. They are careful to place only their friends in office. They hire politicians the same as they hire attorneys. They dominate the Republican and Democratic parties by campaign contributions. They manipulate governments as easily as they manipulate fee stock exchange. That is why labor legislation always goes down to defeat.

The employers of labor fight the eight-hour mt. ment

The employers of labor fight the eight-hour ment because they fear that a reduction of hours will diminish their profits by making it necessary for them to employ more "hands," purchase new machinery and enlarge their

As long, therefore, as the government is a rich man's government, eight-hour bills will never get beyond the stage of agitation and discussion.

But there is no occasion for despair.

The workers have the franchise. They outnumber capitalists nine to one. They can overwhelm them at the polls by sheer force of numbers. They can establish a labor administration in this country any time they want to

polls by sheer force of numbers. They can establish a labor administration in this country any time they want to.

Once the workers quit voting their bosses into power on election day, once they rally to the support of competent working class candidates that are controlled by a genuine working class party, they can speedily gain for themselves, not only a shorter workday, but also employers' liability acts, old-age pensions, advanced factory legislation, state employment of the unemployed ar many other things equally desirable.

The Socialist party is an exclusively working class party. It stands exclusively for working class interests. It is fighting hard to effect changes that will benefit immensely all who toil.

The Socialists have been advocating the eight-hour day for the last sixty years. They have always stood in the vanguard of the eight-hour movement. They have stood behind the trade unions in their fight for a shorter working day again and again. They have introduced eight-hour measures in all legislative bodies they have had representation in.

But the eight-hour day is not the apex of their ambitions. It is but a milepost in their victorious advance to the trace that the awards on the world.

But the eight-hour day is not the apex of their ambitions. It is but a milepost in their victorious advance into the new civilization that is dawning on the world. The time is not far distant when everybody will be guaranteed useful, congenial and remunerative employment, when all the wants of all the people will be satisfied by a few hours' labor each day, when the wealth produced by labor shall belong solely to those who work, when men and women will have opportunities for culture and travel that are now enjoyed only by a privileged few.

That is more than an idle dream. It is a definite program. To find out more about it, and to learn what part you can play in its realization, read "The Common Sense of Socialism," by John Spargo. It is as interesting as a novel and many times more instructive. Cloth, \$1.00; paper, 25 cents. Obtainable from Book Department, Chicago Daily Socialist.

The "Ledger" Lies

BY HORACE S. REIS.

The Philadelphia "Public Ledger," in a recent editorial on Mexican Reforms, groveling in the dust at the feet of Diaz, takes occasion to slander the insurrectionists and impugn their motives.

The Ledger thinks "Diaz has made extraordinarily liberal concessions," although the only real concession he can make is to give up his stolen power and restore to the people the governmut that once was theirs. This of course, he will not do until forced to it.

"He has shown himself singularly ready to entertain the complaints and grievances of his apparently implacable opponents," continues this servile tool of tyranny. If we know anything about Mexican affairs, we can youch for the fact that Dias has "shown himself singularly ready to entertain" his opponents—in jail, or with a firing squad.

The Ledger pretends to have received the impression that the Maderoists, because they have rejected Diaz's peace terms, "are not seeking the welfare of their country," but "are distrous of slaking their own thirst for political preferment."

of their country," but "are distrous of slaking their own thirst for political preferment."

At this distance we cannot state positively whether Madero is disinterested in this affair or not. Assuredly the men who risk their lives in his army are fighting for political liberty, fighting to free themselves and their country from the incubus of the dictator who has traitorously given away the best lands of Mexico to foreign capitalists.

"Terms" of any sort, with Diaz still in power, are valueless. Every Mexican knows but too well that the promises of Dias are made but to be bipken at the first opportunity, if anything may be gained thereby. The Ledger is angry because its moneyed backers resent the fact that the revolutionists have sense enough to tell Diaz, "Abdicate or fight."

In these misstatements and slanders the serville Ledger reflects, with accuracy, the wishes of the plutocratic rulers of America. They would have the uninformed think Diaz a hero, the revolutionists devils or worse, and American military invasion a kindness, bringing balm to a troubled land. One can see the fine hand of Wall street in every line. To those who know the truth, every syllable is dyed scarlet with the blood of toll-slain peons, coined into profits and handed over as cold cash payment for editorial lies.

Note how the plain truth is smoothed down until facts become indistinguishable from fiction. We quote, "That his (Diaz) methods have been rigorous none but a sycophant will deny."

Bigorous! Forty thousand lives the price of his power. Forty thousand human beings slaughtered by this modern Moloch. Forty thousand men, women and children butchered wholesale to satisfy his lust of power and Wall street's lust for profit. And "rigorous" is the strongest word in the Ledger's vocabulary.

But the editorial lapdog of the Ledger would not call Dias a murderer,
