VANDERLIP SEES FASCIST MOVE IN ENGL

Real Workers' Rule

(Special to The Daily Worker) LONDON.—British labor, insofar as it is represented by the British Labor Party, will take power today, unless Winston Churchill is able to lead enough liberals back into the Tory camp to make a Liberal-Labor majority impossible. This is believed here to be beyond the bounds of probability.

Experience in Other Lands.

Now that Labor rule with a socialistic tinge seems inevitable the experience of other countries and of British colonies under similar forms of government is giving a great deal of consolation to the vested interests. It is pointed out that France under the Brianda former socialist-government, Australia under labor rule and Germany with a social-democratic regime, were the subject of no striking experiments in property ownership and control. It is believed that Ramsay MacDonald, who will be the Labor Party premier, will frown on any drastic changes; he is depended upon to discourage any outbreak of the group of Scottish and Welsh members with Communist tendencies and it is lought that he will deal in a more

than did the Baldwin government. As a mater of fact, while the Labor

Party will be the government, this is only nominally so. Without the sup-port of the Liberal Party led by Her-bert Asquith, the Labor Party would

be a minority in the House of Com-

mons. This will exercise a restrain-

ing influence that will probably re-

THE DAY FOR American Banker Says Dictator LEFT DRIFT BRITISH TOIL To Come from Labor-Liberal Ranks

(Special to The Daily Worker) NEW YORK.—In an interview today on the formation of a Labor Party government in Great Britain, Frank A. "I was told by an Englishman whose position entitles him to speak with the utmost authority," Vanderlip said, "that a fascist move-ment is not at all improbable." The danger, if any, in a British believes, would not be in its leaders. Vanderlip knows personally most of the men at the head of the party scheduled to go into power next week.

"British labor's problem is not

in its leaders," according to Vanderlip, "but in those who are led. There is a radical element in the British Laborite ranks that creates serious difficulties for the leaders. BIRMINGHON. — Letters stating Mellon Tax Plan MISSA Draws Farm Labor

WASHINGTON .- Labor and farmer organizations entered upon an informal coalition to oppose the Mellon tax program.

Working from different angles, but intent upon the same purpose, organized labor and farmers have joined forces to increase surtaxes above those provided by the Mellon plan and to reduce the normal tax on small incomes.

The farmers thru the National Federation of Farm Bureaus and the National Grange, have already begun the presentation of their case to Congress and the American Federation of Labor was scheduled to appear before the House Ways and Means Committee today.

The Labor Tax Plan, it was learned, authoritatively, would keep surtaxes at approximately their present level and would extinguish entirely all levies on incomes of less than \$5,000.

The DAILY WORKER this morning publishes the complete text of the now world-famous letter written by Gregory Zinoviev, Chairman of the Communist Inter-national, on the birth of The DAILY WORKER in the United States. This is the letter that was presented, in a garbled form, to the United States Senate by Senator Henry Cabot Lodge, of Massachusetts, head of the Committee on Foreign Affairs, and published in the Congressional Record. Various interpretations have been given of it in the kept press. The accompanying translation was made from the original. British Enginemen To Strike

LONDON .- Seventy thousand members of the Locomotive Enneers' and Firemen's Union were scheduled to strike at 12 oclock last night. This action was made certain, barring the capitulation of the railway executives, by the unanimous vote of the executive committee of the union not to withdraw the strike call. The vote was taken following an all-night conference with Margaret Bonfield, head of the British Trade Union Congress. The final offer of the railway companies was announced as insufficient to comply with the demands of the men and not a single member of the executive committee of the union was willing to take responsibility for postponing the strike under the circumstances.

OTTAWA.—A plea for the re-lease of James McLachlan, deposed secretary District 26, United Mine Workers of America, from Dorches-ter penitentiary has been made to the dominion government by a depu-tation of the Dominion Trades and Labor Congress. Tom Moore, president of the congress, headed the deputation and with him were P. M. Draper, secretary-treasurer, and three vice-presidents.

Fall Steal Indicates White House Could be Sold With No Risk, Says Sen. Caraway

By LAURENCE TODD. (Federated Press Staff Correspondent.)

WASHINGTON .- At last the charge of corruption has been brought in the Senate against Albert B. Fall, secretary of the interior in the Harding cabinet, in connection with his sale of the naval oil reserves.

Caraway of Arkansas, whose resolution calling for cancellation of the

Teapot Dome lease, was shelved by Chairman Smoot of the Finance committee, not only charged Fall with corruptly selling the fuel oil supply of the navy, but he said that so long as Attorney-General Daugherty has control of the Department of Justice "they may sell the White House" and remain immune from any indictment or prosecution. He suggested that the treason of Benedict Arnold, in selling a fort on the Hudson river to the British, was a mere trifle in comparison with Fall's sale of the motive fuel of the navy—the first line of the nation's military defense.

To such a level has the sense of shame descended, in the present administration at Washington, that the Harding-Coolidge administration sensetors made no attempt to reply to Caraway's indictment. Smoot sat

The Italian workers are perhaps the most exploited in this country where fascism is being openly protected by the powers that be. It is the Italian worker who is to be found slaving everywhere that real hard physical labor is required. No wonder one can always find among the Italian workers a spirit of dissatisfaction and rebellion.

Disappointed by the opportunism of the late Socialist Party, the revolutionary Italian workers have developed an anti-political and principles. They were then locked out. But hand and brain workers joined hands, and a "wild" strike of the electrical workers as spirit of dissatisfaction and rebellion.

lutionary Italian workers have developed an anti-political and anti-parliamentary point of view and followed the path of anarcho-syndicalism.

For the last two years the Italian Section of the Workers Party had to carry on a vigorous struggle against these syndicalist tendencies which were deeply rooted among the Italian revolutionists.

These struggles have brought results. During this period, and especially so during the last year, Communism has been gaining more and more strength among the Italian The "Daily Worker," of Jan. 14, carried an appeal issued by the Cen-

In the middle of October a wage strike broke out in Upper Silesia, which in a few days de cloped into a general strike embracing miners, metal workers, railway workers, post and telegraph employees. The great significance of this strike, which, in spite of the raging terror of the government authorities ended in a complete victory, consists in this, that it brought about a complete change in the sen-

The commander of the Uhlans was the first to fall from his horse; seriously wounded: two captains and one lieutenant died on the spot, and almost all the other officers came out of the fight badly wounded. The Ask Carpenters to workers captured one of the two armored cars which had been brought, and directed it at once against the

enemy.

The battle lasted for about two Sedalia, Missouri hours. The victory was unquestionably on the side of the workers. Of the 30 dead and 70 wounded, the great majority were of the attacking cavalry; 10 horses were dead, and about 100 ran wounded thru the city.

After the governor and district commander had capitulated and a sort of truce had been made, the city found itself in the hands of the workers, who immediately organized a militia to preserve order. The disarmed soldiers were held prisoners in the Workmen's Home. The rest of the garrison which was of considerable strength was kept shut up in the barracks by the intimidated military authorities.

military authorities.

The reformist "leaders"—two Social-Democratic deputies—who observed the course of battle far from the shooting, were even more fright-ened by the victory of the workers than the government authorities. They first of all informed their Central Executive Committee in Warsaw by telephone, and the Central Exec-utive Committee hurriedly looked up the prime minister and offered him with trembling to call off the general strike and end the whole fight, in return for empty promises. On that very afternoon the Central Executive Committee of the Polish Socialist Party and the Trade Union Commission already published their order to the workers to break off the general strike in modificals.

To "The Daily Worker".

Dear Comrades: The Young Communist International has watched with special interest your campaign for the creation of an English daily organ. We consider the establishment of The Daily Worker of great importance for the further development of the revolutionary movement in the United States. We record with special satisfaction the fact that the youth

organization participates energetically and actively in this compaign.

We are firmly convinced that the interest which the League shows for the campaign of the Party, will be appreciated by the Party and will be followed by an even closer co-operation between League and Party. We furthermore hope that this appreciation of the Party will also be shown in the columns of the daily organ.

The education of a young revolutionary generation is of greatest significance for the Workers Party. If the Party understands how to pay due attention to the youth problem, it will itself harvest the fruits of this

We wish the Daily Worker the best success and hope that, equipped with this weapon, the Workers Party will succeed in carrying on ever more effectively the struggle for the liberation of the American proletariat. In and we express our wish, that the Workers Party will now be able, together with the League, to make an advance on the field of struggle against child laber, a part of the capitalist system.

Hail to the Workers' Daily, the most important weapon in the struggle

against American capitalism!

An even more open hint to the miners that everything will be done to stop them from striking for higher wages and better working conditions is thrown out by the well-known news agency of Wall Street, the Boston News Bureau. Analyzing the likelihood of a coal strike it says:

"If this were not the quadrennial year of balloting, there would be a serious strike beyond much doubt. But enormous pressure will be brought to bear upon the miners, especially in the Central Competitive field, for amicable adjustments of all differences and moderation in demands, and, above all, for avoidance of any organized effort to unionize the West Virginia fields."

Chemists Make Big Discovery Government

By LELAND OLDS, (Federated Press Industrial Editor.)

Who says that public ownership stifles individual initiative and that the grab-it-all motive is necessary to bring out inventive ability? Just ask such a person to step up and examine the record of the U.S. department of agriculture. It doesn't get much advertising in the metropolitan press. Of course not. The big papers aren't in business to furnish the opponents of profiteering with ammunition.

Just now come the department of agriculture chemists with a discovery for obtaining nitrogen from the air which will make large scale produc-tion in such plants as the U. S. government nitrate plant at Sheffield, Ala., possible. You know what that will mean to the farmers. Nitrogen is one of the most important elements in fertilizer. Hitherto it has been necessary to import a very large pro-
