Thugs Rented To Garment Bosses By Smiley Company During Strike; Daily Worker Gives Dick's Letter

The DAILY WORKER prints below a letter from the Smiley National Secret Service offering the services of its "guards", as these thugs are more politely known, to boss dressmakers whose employes are on strike.

At the Smiley company's offices admission was made that its men are operating in the strike. The facts are that scores of thugs from several agencies are operating hand in hand with the special police from the agencies are operating, hand in hand with the special police from the office of Robert E. Crowe, state's attorney.

Point Girls to Police.

These thugs intimidate and sometimes assault girl strikers and if the pickets refuse to be cowed the thugs point them out to the police for arrest.

Officials of the International Ladies' Garment Workers Union have avidence showing that the private dicks are also attempting to operate as "sheiks", a police name in this case for white slavers,—endeavoring to take advantage of the poverty of the former sweatshop workers. The letter

GENTLEMEN: We are advised of the unfortunate situation which

We wish to call your attention to the fact that we are better equipped than anyone in Chicago to furnish you with a service which you cannot obtain thru the average Agency. We give you a real service, furnish you with guards to protect employes who desire to work to assist them in going to and from their homes, and a general service FAR SUPERIOR to anything you have ever experienced in the past.

to protect your place of business and your employes. The cost is small when compared with results. Do not experiment with inexperienced and unreliable Agencies. There is no service equal to ours.

Yours very truly, SMILEY'S NATIONAL SECRET SERVICE.

Many Spy Agencies.

In publishing this form letter of the Smiley company the DAILY WORKER point out that this is only one of the many agencies for industrial espionage that fasten themselves like so many leeches on the industrial body during strikes and during times of so-called industrial peace.

The close co-operation between the private detective agencies and the Bureau of Investigation of the United States Department of Justice, under William J. Burns, is facing expose in the Wheeler investigation. What is needed in Chicago is an official probe into the co-operation between the strike-breaking activities of Robert E. Crowe, state's attorney, and private strike-breaking agencies.

Union Wins In 30 Shops; Pickets Continue Despite Cops and Thugs

Five more bosses caved in before the militant front of the striking garment workers of Chicago yesterday and agreed to all the conditions the International Ladies' Garment Workers originally asked.

More than 100 workers are involved in the settlement.

The total number of dressmakers who have won all their demands is now above the 500 mark and the bosses who have settled with the union number

Hundreds More Strikers.

Hundreds more strikers came out in Evanston yesterday and the pickets in the Loop, Milwaukee avenue and west side districts of Chicago added new strike recruits in the early morning, at noon at quitting time in the afternoon and they put their cause before the men and women who had passively permitted themselves to be used as strikebreakers.

Ranks of pickets were thinned by arrests, but the devoted work kept on, for the strikers were fighting for the elimination of the sweatshop conditions in which they had spent years of misery and were not to be deterred by the thought of a short period in jail.

Girls' Gallant Picketing.

Nearly a score of arrests were made by blue coats, most of the prisoners being girls and women. The gentler sex is outdoing the men on the picket line, by the arrest record at least.

The squads of foot cops under their sergeants would bravely parade up to a little girl picket and capture her as the hour for opening or closing the shops she was picketing approached—the critical hours when the work of the picketing is done. The thing that impressed all visitors to the strike zone yesterday, as on other days, is the lack of any disorder on the part of the pickets. Their work has been done by peaceful persuasion. It becomes more and more evident that the only purpose of the

66 NJUNCTION KING" Denis E. Sullivan, judge by the grace of the open shoppers of Chicago, and the apathy of the working class, has celebrated his re-election by issuing an injunction against the International Ladies' Garment Workers' Union which prohibits the strikers from maintaining picket lines, manned collectively or by individuals; speak to strikebreakers at work or on the way; call upon or talk to any member of the strikebreakers' family or to use any means whatever to induce strikebreakers to quit

The injunction was issued on the mere request of the attorneys for the Dress Manufacturers' Association. Union attorneys were not allowed to open their mouths in opposition. When they attempted to remonstrate Judge Sullivan with an air of injured indignation, waved them away and ordered the injunction issued.

Judge Denis E. Sullivan is the most notorious injunction manufacturer in Chicago. He was notorious before the last judicial election. He is maintaining his record. Knowing his value to the employers the Chamber of Commerce, ably assisted by every capitalist daily paper in Chicago, the yellow Hearst sheets included, called on the voters to return him at the head of the list. Judge Sullivan's reelection was due to the lack of militancy in the campaign carried on against him by the labor movement of Chicago.

The DAILY WORKER regrets that the lack of vision of the officials of organized labor is responsible for the presence on the bench of Injunction Denis E. Sullivan. Had the labor movement instead of calling for the defeat of "enemies" and the rewarding of "friends" on the capitalist party tickets placed a labor ticket in the field and called on the entire wroking class of this city to rally behind it there would be no injunctions now to dog the heels of the International Ladies' Garment Workers' Union, with the thuggery of Attorney Crowe's office having the sanction of a court's decree.

The DAILY WORKER calls this significant fact to the attention of the workers of Chicago at a moment when the lesson appears in its most striking form. But while sounding this warning it tells Judge Denis E. Sullivan that injunctions and the clubs of policemen cannot run sewing machines or manufacture dresses.

All the injunctions ever issued by courts run for the benefit of the master class by judicial lackeys never sewed a hem on a single garment. It takes workers to do that and the DAILY WORKER feels that there is enough red blood in the veins of the labor movement of this city to teach judges and their masters, the capitalists, that these methods will not deter the workers from carrying on their fight for the very reasonable demands they have made on the clothing manufacturers.

"Injunction" Denis E. Sullivan, State's Attorney Robert E. Crowe, and your aids and abbetors, the DAILY WORKER will expose you as the tools of the employers. From the judge on the bench to the lowly creatures who prowl among the workers only to betray them for a price you are the enemies of labor and the workers are waking up to the fact that a breath of workingclass might can unmake you as the breath from the money bags of the capitalists has made you.

the hour is drawing near when Congress must enact an immigration law, New York Labor, aware of the dangers latent in this issue, is making its voice heard. The existing immigration statute will expire on June 30. Consequently, a decision must be reached before that date.

It seems, however, that a majority of the federal legislators is unwilling to provoke the sweeping indignation of millions of workers in America by passing the proposed series of reactionary measures to control immi-grants. More accurately, Congress appears eager to delay settlement of these bills until after the expiration of the present immigration law, so that this statute will in all likelihood be continued for another year.

Czarist Police Supervision.

Labor is generally informed con-cerning the nature of certain contemplated restrictions, which would impose Czarist police supervision upon alien workers entering the United States, as well as upon innumerable laborers who have long since been naturalized American citizens. While some of the proposed laws would require that each immigrant worker would submit his finger prints to the authorities and would be obliged to report to the police periodically, other measures envisage deportation on the flimsiest pretexts.

In addition, the quota arrangement under the suggested laws would reduce the number of immigrants permitted to enter America from European nations in which labor is known to be highly organized and of revolutionary tradition. FARMERS DRIVEN Stalin Analyzes Communist Problems in Russia Miner Hurt Over Three Years Age INTO DEEPER DEBT WBY COOLIDGE PLAN

Montana Farmer Tells Daily Worker Why

By IRA SIEBRASSE.

To the DAILY WORKER: "In the Coolidge plan to relieve the financial difficulty of the Northwest, the only hope offered the farmer is to get deeper in debt," writes Ira Siebrasse, a DAILY WORKER correspondent

from Big Sandy, Montana.

"In the 'good times' period of the war," he continues, inflation reached the high point, and during this unnatural business flush agriculture expanded and absorbed a goodly por-tion of credits until the indebtedness on the farms of the United States increased 131.9 per cent, according to the abstract of the census of 1920.

"The above report shows that the farm mortgage indebtedness increased 139 per cent in Iowa, 226 per cent in Minnesota, 174 per cent in South Dakota, 126 per cent in North Dakota and 625 per cent in Montana during the census period.

Wall Street's "Normalcy."

"At the time when the farm mortgage debt of the nation had grown to \$4,003,767,192.00, the Quack Economic Doctors were playing to the favor of the bankers of Wall Street in a campaign for "normalcy" and howling for prices to come down, which of course, made money worth more when valued in labor and farm The effect this had on the farmer and home-owner was to reduce their capacity to pay their debt. As prices came down it took more produce or labor to make a dollar, and in that respect it tended to elevate the mortgaged indebtedness. For, as produce came down money went up, and the indebtedness grew in proportion to its relative value to

"Inevitably the farmers cannot pay this increased indebtedness when their markets are ruined. Conse-quently farm loans become frozen securities. And the country banks break with their vaults filled with these frozen securities.

\$150,000,000 More Debt.

"But the 'Quacks' have a solution of the problem for the bankers. They will, with the aid of the government, procure a loan of a hundred and fifty million dollars to revive those frozen securities thus increasing the burden of debt in the hope that the farmer will ultimately pay but ignoring the fact that they are adding more weight to the cargo that is already sinking

"We farmers see it going down, so we put dut a life boat and by means of voluntary bankruptcy we keep the bilge-water out."

Insufficient Activity in Nuclei. Our state apparatus is bureaucratic, and will remain bureaucratic or some time to come.

Our Party comrades are working in this apparatus, and the envisionment and atmosphere of this bureaucratic apparatus is such that it faciland Party organizations.

The third cause of the inadeonacies lies in the insufficier, activity of many of our nuclei, in the backwardness and even total illiteracy of the border districts in particular. The nuclei in these districts show little energy, they are pehindhand politically and culturally. There is ates unfavorable conditions for a change of line in the Party.

The fourth cause is the lack of a afficient number of Party politically

Shavian Play Press Agent's Medium to Boost Coming R. U. R.

The value of the stage as a means f radical and revolutionary propaganda is better understood on the continent of Europe than among Eng-lish speaking peoples. Whatever has been achieved in this direction, either in England or America, has been due largely to the genius and efforts of Mr. Bernard Shaw whose play, the "Devil's Disciple," is now being pre-sented by the Theatre Guild at the Great Northern Theatre. Mr. Shaw is far from being a revolutionist in this play, but here, as always, his pen

"The Devil's Disciple" is an attack on Puritanism, a form of religious faith and practice not so dead as we report here today.

The report, while unconfirmed by radicals like to believe. As one watched the interesting presentation of last Monday evening one felt that it would be hard to duplicate Mrs. Dudgeon, no; nor Uncle William, nor Uncle Titus, in any evangelical church in Chicago.

The players themselves were, of

course, not equally convincing; they never are. Mr. Sydney as Dick Dudgeon, and Miss O'Brien Moore as Judith Anderson, fulfilled our highest expectations. Miss Johann as Essie, and Mr. Hughes as Anthony Anderwere distinct disappointments. Croker King as "Gentlemanly Johnnie" played a charming role charmingly. The cast as a whole worked with that grace and finish which we never failed to find in Guild

ment. Marines were landed last week at Ceiba following an attack Guild marks an epoch in the development of the theatre in these states. Socially significant plays had been in existence almost half a century. They had been translated and read and sporadically produced but the Guild

Role of Robots Under New Machine Age Treated in Survey

The March issue of this publication contains material of primary concern to labor. Numerous articles, prepared under the supervision of Robert W. Bruere, director Bureau of Industrial Research, suggest some of the hard nuts in the sphere of engineering, which the organized workers will have to crack. Aside from questions of technology, the magazine tries to analyze the role of the robot in the dawning machine age. S. P. Failed in Crisis, She Points Out

(Special to The Daily Worker) NEW YORK, Mar. 5 .- Rose Pastor Stokes addressed a large meeting in the auditorium of the Rand School under the auspices of the Saturday Comeraderie, an open forum maintained by the New York branch of the League for Industrial Democracy -which was once known as the Inter-Collegiate Socialist Society.

Mrs. Stokes, keeping close to her subject, "Why I Am a Communist," pened with an outline of her early life and those influences which brought her, in 1906, into the Socialist Party. She continued the story thru the years of service there—as also in the one-time Intercollegiate Socialist Society—to the time when the left wing developed and she discovered there was a Socialist machine that preferred to throw out the majority of its members rather than yield to the revolutionary rank and

She reviewed the events in Chicago, in 1919, when the left wing delegates were thrown out of the Socialist Party convention, and connected up the treachery of the American Socialist Party with that of the Social-Revolutionaries of Russia during the early months of 1917 and in their later role as counter-revolutionaries. She described the role of the yellow German Social-Democracy and other socialist parties of Europe

Hendin Expulsion Denying His Appeal

The Central Executive Committee of the Workers Party has sent the following letter to Leon Hendin, a former member of the Workers Party in New York, who appealed to the C. E. C. against his expulsion from the Leon Hendin, New York City.

Dear Comrade: Your letter addressed to the Central Executive Committee of the Party complaining because of the manner of your expulsion from the Party was considered by C. E. C. and I am instructed to make the following re-

Upon receipt of the information that J. B. Salutsky had called a meeting in New York City for the organization of a Communist Eduorganization of a Communist Edu-cational League, the C. E. C. noti-fied the New York district organ-izer that any member of the Party who participated in this meeting would be expelled from the Party and directed him to notify those persons who were scheduled to speak at the meeting to this effect. Undoubtedly in the interview on December 19th with Comrade Lifschitz, to which you refer in your letter, you were advised of the decision of the C. E. C.

Comrade Lifschitz later reported that in spite of the warning issued by the C. E. C. of the Party you had participated in the meeting of the Communist Educational League, and the C. E. C. of the party thereupon directed your expulsion from

the party.
Since the question at issue was one which was handled directly by the C. E. C. and involved the dis-cipline of the Party, in fact that your act was a violation of the di-rection of the C. E. C., there was no further negli of action on the part of the branch, and the C. E. C. therefore believes that the ac-tion of the branch was justified and insofar as it is concerned, the matinsofar as it is concerned, the matter is closed.

More than ever before, great masses of workers and farmers are beginning to be convinced that the whole governmental system of this country is unfitted to respond to the interest of those who work.

Under these circumstances, the workers and farmers must demand that the Teapot Dome investigation proceed in the open. We must force the Government to hold the hearings of the Walsh Committee openly, so that the laboring and farming masses can get as much information and enlightenment as possible out of the proceedings which concern them more vitally than any other social group.

It is a crime for the Government to permit the continuation of secret sessions by the Public Lands Committee. The investigators have no right to conceal any information from the workers. The committee should go to the root of the matter and stop holding sessions behind closed doors. There is no room for secrecy in dealing with the fate and resources of the hundred million workers and farmers of the

Our aristocrats of the robe hiding behind the thinnest of judicial abstractions are the most reliable servants of the employing class. In the code of our court system property comes first. The decision against the railway workers is based on the belief of the Supreme Court Judges that in this particular instance property would be seriously endangered if the workers were permitted to organize. Likewise, we would not be surprised to find the courts declaring Fall, Doheny, McLean, Burns, and men of their ilk, innocent because a decision against them would tend to discredit the property system they represent.

(WHAT HAS GONE BEFORE) The Russian Communist Party branch is governing this frontier city and fighting the counterrevolution. Earlier installments tell of the fuel shortage that prevents seed grain from being fetched on the railroad. The Party meeting decides to send the Red Army far away for fuel, at the risk of leaving the city open for bandits and counter-revolutionists. It also decides to conscript the local bourgeoisie for wood cutting in a near-by park. Varied types of party members are flashed on the screen: Klimin, the efficient president of the branch, who still inds time to have a sweetheart; Robeiko, the consumptive, whose devotion is killing him; Gornuikh, the brilliant youth of 19 on the Cheka; Matusenko, the luxuryloving place-hunter and Stalmakhov, a practical workingman revolutionist. Gornuikh, disguised as a peasant, overhears talk in the market place about a plot of counter-revolutionists to seize the town while the Red Army is away getting wood. The Communist company is summoned. The last issue ends with the counter-revolutionary forces bursting into the house of the druggist Senator, a room of which has been commandeered by the communists for Comrade Robeiko. Lisa, a school teacher gazes at the mob with horror-stricken eyes.—NOW GO ON WITH THE STORY).

CHAPTER X-Continued. Roberto, in his underclothes, a bloody weal cutting across his face, stood with his hands bound, barefoot on the cold floor.

Repin was immediately in front of Robeiko; Lisa saw his eagle's nose in profile. As always, he was cleanly shaved, but, instead of his Red Army helmet, he was wearing a black fur hat with a blue ribbon; he was smoking and slashing with a nagaika (whip) at his polished boots. Lisa, glancing at the na-gaika, knew at once the origin of the weal on Robeiko's face.

And there, from Repin to Robeiko, from Robeiko to Repin, shaking his fists in Robeiko's face, shouting and gesticulating, was Senator, little and fat, in a blue

waistcoat without-a coat. . . . "Ha! Comrade Robeiko! Now I can talk to you. . . . Once more as an equal to an equal. Do you hear, you convict, as an equal to an equal? Your robber band requisitioned my shop. . . . I said nothing. You searched me, arrested me for speculation. . . I said nothing. You forcibly planted nothing. What Do You Think of Our First Story?

The DAILY WORKER wants to know what its readers think of the first serial novel it offers to its readers. We have published many installments of this gripping story. Another appears today. What do you think of the story, its setting it its setting, its character, as far as we have gone? We want our readers to let us know. Write down your views and send them in to the DAILY WORKER, 1640 N. Halsted St., Chicago, Ill. We publish as many of these letters as we can find space for. Don't delay. Write today.

What could I do? Weren't you the Vice . . . Vice-Pres-Ex-Com or the Vice-Pres-Ex-Sov, devil take you together with all your titles! . . . A whole Governor! . . ."

Lack of breath interrupted Raphael Antonovitch, but he took breath and screamed still shriller: "Now is the end of you. They will shoot you all, like mad dogs, and tomorrow I shall take down the placard from my shop . Do you hear? From my shop. Yes, I am rich. You hear, I am a bourgeois, and always will be one. . . You were a ragamuffin vagabond and always will be. . . . You say nothing? Speak, Comrade Robeiko, since you are such a good orator. Make a speech, please, for the last time. We'd like to hear you. . . .

Senator made an artificial, respectful bow to Robeiko. Repin smiled. The bandits laughed loudly. Lisa heard a malicious titter-ing and in the door of the kitchen saw the laughing face of Madam Senator, her grinning teeth, the wrinkles round her eyes, and a yellow dressing gown with purple flowers.

"You say nothing, you say nothing," Senator bellowed. "Take this!" and he spat a great lump of spittle in Robeiko's face.

Robeiko broke away, but a black-bearded peasant caught him by the shoulders and Robeiko struggled helplessly in his hands, while Senator's spittle trickled down his forehead and into his eyes. Robeiko could not even wipe away the poisonous stuff, for his hands were bound. With scorn and hatred he looked round the mocking crowd, and, looking by accident in Lisa's direction, caught sight of her pale face in the doorway, and smiled. . . And from this smile Lisa knew that the Robeiko was suffering from the blows and the insults, his spirit was unbroken, he was not afraid and he scorned his enemies. It seemed to Lisa that Robeiko was smiling because he was remembering their talk in the evening.

caught him by the hand.

"Comrade Repin, why are you torturing him? He wished well to the people . . . and to all of you," she cried, turning to the bandits. "He was on your side, for the peasants and workers. . . ."

Laughter and curses drowned her words.

And Repin, the elegant Repin, so handsome and kindly, pushed her away with his full strength, so that she fell against the wall while he cursed her cynically and at length.

"To the devil with this foolery! Take him out, lads, into the street, and there get rid of him at once,

The crowd poured out of the door; Lisa, holding her head, got up from the floor.

"You shoving your nose in too," cried Madam Senator. "She, Mr. Officer, is a Bolshevik." And Mr. Senator shook her by the shoulder. Just then a shot sounded in the yard. Lisa knew they were shooting Robeiko, and screamed so piercingly that even Repin was startled and shaken, and, breaking from the clutching hands of Senator, she ran down the staircase into the dark court. On the steps she ran into a heap of clothes, in which, with groans and sobs a human body was struggling. She stopped, and on the stone threshhold saw the face of Robeiko, dripping with blood. Screaming still louder, she rushed from the yard into the street. Two shots crashed in pursuit of her.

Lisa ran to the end of the block, turned into a quiet side street, ran to the middle of the long block, and stopped, breathless. She listened. No one was coming after her. The little houses were quiet and dark, only, from somewhere far away, she could clearly hear the sound of rifle fire. Now and again came the regular tapping of a machine gun. From time to time the wind blew, and Lisa, with nothing on ever her tunic, grew cold, and shivers ran down her spine and thru her arms.

She walked on mechanically, and wept quietly, the tears pour-ing down her cheeks and falling in the snow. The fit of horror caused by contact with the squirming body of Robeiko had now

In this way, forgetful of herself, she walked for a very long time, mechanically hiding her hands in the opposite sleeves. It was already growing light when she was walking by some grey palings over which drooped the naked boughs of trees.

Suddenly she shivered and stood still, as if nailed to the spot. On the blue snow, close under the railing, she saw some sort of formless heap. It seemed to her that again she saw the outlines of

Olgin Greets International as

Beacon Light to the New World

By MOISSAYE J. OLGIN

OUT of destruction wrought by the world war-out of hatred

engendered by mass murder and provocation—out of despair created by the collapse of the Second International—after the failure of the Socialist Party to live up to the ideals of the proletarian class struggle, arose the Third (Communist) International, the hope of the working class the world over.

It has become the rallying point of all forces the struggle.

It has become the rallying point of all forces struggling against capitalist dictatorship. It has become a beacon of light for all who see a new world in the making. It has become a source of strength to all who hammer together the scattered forces of the working class into one formidable army. It has become the headquarters of one great world party with unified ideology, a uniform line of action, iron clad discipline, and a hitherto unknown revolutionary proletarian pride.

In the name of my comrades I greet the Communist International and the Workers Party on the Fifth Anniversary of the

national and the Workers Party on the Fifth Anniversary of the founding of the Third International. Our hearts, our hopes, our admiration, our devotion are with it, and with the proletariat that struggles under its banner. Long live the Communist International—the liberator of mankind.

In the five years that have followed, the Communist International has grown to be the one and only revolutionary force in every impor-tant country in the world. New York City, March 5, 1924.

O N the 5th of March, 1919, came Lenin's attempt to build a rival months have not been heard from except as factors in crushing working-class discontent.

The little gathering in Moscow that founded the Communist Inter-national on March 5, 1919, has fathered a giant. The great World Congresses of the Communist International are the most important events in present-day history. They over-shadow all the attempted "world-conferences" of capitalist govern-ments, which always adjourn with-out accomplishing their aims. The Congresses of the Communist International, and the Executive Committee of the Communist International between Congresses, are the factor that decides historical questions. Now we must know that the Communist International is destined to be the instrument thru which the kind. It is fast developing the strength to do so. All shoulders to the wheel! Long live the Communist International!

MENTIONING THE MOVIES

THE VIRGINIAN.

Owen Wister's novel is made into one of the most insipid pictures ever screened, an impossible hybrid, a polite "Western." The noble cowboy from Virginia woos the Puritan schoolma'am but almost loses her be-cause of his addiction to slaughter and profanity. The lady agrees to overlook these minor faults and the clinch in the last scene is absolutely cut to pattern. There have seldon been two more artificial theatricalist in leading roles than Kenneth Harlan and Florence Vidor in the "Virginian" leads. The sole redeeming features of an otherwise insane effort are the gorgeous natural settings. The picture would be infinite-ly improved if all subtitles and set shots were cut out. As a two reel nature-study film it would be a real "feature."

For Workers' Vacations. PRAGUE, March 5.—A new bill,

AS WE SEE IT By T. J. O'FLAHERTY.

The scurrilous attack made on Car vin Coolidge by Senator Caraway deeply offended the dignified Chicago Evening Post. To call a president, "Cautious Cal" is going a little too far. Head hunting hysteria is gone on a rampage in the senate. Graft nvestigations if they have to be conducted, should at least be carried out in a gentlemanly manner between gentlemen, argues the Post. By the way we see at the mast head of the esteemed Post the name of a Mr Shaffer who received a trifle over \$90,000 for—nothing at all except the knowledge that the Teapot Dome was to be leased. He simply walked n and told the oil men he was enitled to get his share of anything that was going as well as the rest. 非 非 非 非

Of course this fact has nothing to do with the editorial views of the Post. Newspaper owners do not determine the policy of their papers. Perish the thought, It only happers that the editorial writer and the owners have minds that run in the same channels.

Lloyd George was as big a man n his own country, a few years ago as Woodrow Wilson was in his. When he spoke, people listened. Some listen now; the credulous nod of other days is now turned into a skeptical shake of the head. Lloyd George has still a big enough audience to make it a paying proposition to hire him as a special writer for the Hearst papers. He is very much of a realist and the he is a political crook once in a while he enjoys the lux-ury of telling the truth, particularly when such innocent diversion does not add to the glory of his enemies.

Speaking in West Hartepool, England, recently, he made some ob-servations on Ramsay MacDonald and the British Labor Party which contain more truth than poetry. He likened the prime minister to an air squadron leader of Socialism who spent most of his time in the clouds but who has now joined the infantry and is sobered because he has to carry a knapsack. His speech as prime minister said Mr. George had 'all the restraints, reservations and compromises which mundane statesmen hitherto have indulged in. When I heard MacDonald, who had in-dulged in the shrillest notes, pitching his tune so low and imitating the very modest notes from less preten-tious singers, it recalled the memory of many a cracked tenor who had been forced to become a baritone."

Lloyd George made it quite clear that should the present government attempt to translate into law any of the important planks on which they made their campaign for office, the Tories and Liberals would unite to kick them out of office. Now, this is illuminating and justifies the conclusion that the British Labor Party is suffered in office by the two avowedly capitalist parties because the yellow socialists and the liberal lords, dukes and barons who make up the cabinet can serve the master class of England better at this moment than either the Tories or Libing of nondescript outlaws in Rus- where and when the co-operate with sia? We want no oriental socialism, the Communists, Socialists for many

> sure as well as to approve and support," Lloyd George declared. "In essence the Tory attitude toward the labor government is identical with the liberal attitude." In other words the eloquent Welshman compares the British reactionary socialist group to a courtesan who is patronized by friendly rivals, in this case two capitalist parties, who support the yel-low socialist lady of complacent virtue so long as her charms can be enjoyed to the satisfaction of both or until a successful rival appears in the house of assignation known as the Commons."

The Chicago Evening Journal re-

narks that even tho the estimable Harry M. Daugherty is as welcome be the instrument thru which the working class takes possession of the earth. To it alone belongs the loyalty of working men and women in all lands. It alone can free mankind. It is fast developing the strength to do so. All shoulders to greatest red head hunter out of captivity instead of investigating the tivity, instead of investigating the thieves was busy investigating the investigators and tipping the criminals off. This is a serious situation inals off. This is a serious situation but there is no reason to get excited over it, declares the Chicago Tribune. What is a little graft in a rich country like this? And anyhow, is not the capitalist system founded on the worst kind of robbery, that of the workers who are exploited at the point of production and compelled to turn over the greater part of what they produce every week to the employers? If every week to the employers? If the total sum robbed in this manner were computed daily the amount would stagger the American workers and make the looting connected with the Teapot Dome seem trifling.

Harry Sinclair not alone received United States government oil from the genial Mr. Fall but he also secured a customer. While the senate committee is digging up crooks in committee is digging up crooks in its daily struggle with the master crooks, Mr. Sinclair is sending up the stock of the Sinclair Consolidated Oil Corporation by telling the world that he has built several new pipe lines and storage tanks at Portsmouth, N. H., the cost of which will be paid from profits on Teapot Dome oil. Portsmouth is a naval station. Sinclair should worry. We are reasonably assured that no sensubmitted to parliament here, provides that every laborer shall be granted an annual vacation with pay, ator will threaten the sacred profit the length of the holiday being ascer-tained by the worker's period of em-ployment system by prosecuting a man who could run his business in such a pro-fitable manner.
