May Day Rent Strike Threat Among Hundreds of Chicago **Tenants Against Landlords**

A "rent strike" is the May Day threat of thousands of Chicago's tenants to their grasping landlords if these robbers attempt to raise the rents again.

Over forty organizations have associated in a Tenants' League to protest the crushing rise in rentals since 1918.

They vow they will not move and that they will not sign leases for rents advanced more than 100 per cent during the last six years.

The familiar Wall Street-Morgan club, of a loan, in this case \$100,000,000 to Germany to help her fullfill her obligations under the plan, is being used with good effect.

If the big nations of Western Europe refuse to accept the plan then there will be no loan. But the British, Italians and Belgians have already accepted the plan, while France is still holding out for revision.

Morgan's offer is that American bankers will subscribe half of the proposed 800,000,000 gold marks (\$200,000,000) loan to Germany, if the Dawes scheme is adonted in its entirety, without alterations or political modifications.

DEFEAT OF THE RAILROAD SHOPMEN **WEAKENS LABOR IN MINNEAPOLIS**

By KARL SKOGLUND. (Special to the Daily Worker.)

MINNEAPOLIS, Minn., April 27.—The trade union movement here is in a very weak condition on account of the fact that the State University and Dunwoody Industrial Institute are located here.

In both of these institutions skilled workers are being trained Walnut streets, at 8 p. m. Thursday to compete with unskilled workers.

The trade union movement is still weakened and at present is unable to function and give protection to the workers.

The defeat of the railroad shopmen in 1922 has lessened the power of the labor movement until today it is unable to put up a fight should a drive for the open shop be started.

Due to bad conditions existing on rural districts to the cities and there compete with the city workers for jobs. The Minneapolis Street Railway Company is recruiting these farmers to run the street cars in the Twin Cities for one purpose only, to prevent the street car workers from becoming organized.

In Duluth and other cities local Labor bodies are uniting in the celebration of this international day of Labor. The united efforts on this day, the crystalizing unity of Labor on the question of a political party of its own—all these manifestations of today will make of greater interest the lecture of James P. In the Sonneberg district, famous for its toy dolls, the economic distress of families with children is such that the children must begin to earn bread by working at dolls when happier children are still playing with them.

The children are chiefly employed at making the arms and legs of dolls out of a combination of pasteboard, sawdust, and a glue-like mass containing cement. The vapors and fine particles of dust arising from the proc ess are inhaled by the youngsters, many of whom contract tuberculosis. Then, as the dolls are hung up to dry, the children must inhale the odors exuding, which are declared by physicians to be highly detrimental to health. The children must usually sleep in these same rooms without North Side Turner Hall, 820 N. previously ventilating so that the dry-

The children are also employed at stuffing so-catled rag dolls. For this purpose they are given rags gathered by the head of the family and not disinfected, with every opportunity in the world of contracting disease. The dust and fuzz flying about the room as a result of pulling rags to bits settles in the children's noses and throats.

A number of welfare organizations, including the American Friends, are trying to provide living conditions in Sonneberg which will make further child labor out of the question.

Mayor Condemns Police Imported **Against Pickets**

DOVER, N. H., April 27 .- Mayor Waldron has issued a public state-Wednesday, April 30, Denver, Col., ment condemning the use of imported police in strike-breaking efforts at the Pacific Mills. The Mayor says: "The out-of-town officers came here

with chips on their shoulders, as is shown by the fact that machine guns were brought to shoot down the natives. . . . Where union labor is a factor in a municipality it must be recognized and is entitled to constitutional rights and should not be hounded like a pack of wolves, as was done last week."

Nashua and Haverhill police have been hired for strike duty here in Dover. The local police department, acting in behalf of the mill bosses, hired the outside police for supporting their prohibition of picketing.

Bert Emsley and Fred Beal, organizers of the One Big Union conducting the textile strike at the mills, were arrested and convicted early in the month for picketing the residence of the mill superintendent. The headquarters of the O. B. U. are in Lawrence. Mass.

in New York City. A noose was put over his head, as both he and Mrs. Rose have sworn in affidavits, and he was lifted from the ground several times by the police pulling the end of the rope over the limb of a tree. Rose was saved from death by hanging only when one of the mob threatened to expose the participants.

As a result of the shock of kidnapping and the subsequent events. Mrs. Rose's child was still-born. She and her husband were unable, because of their condition, to bring court action at once against the city

The Civil Liberties Union charges the Mayor and other city officials with failure to investigate the case and bring the guilty to justice because the mob was made up of uniformed city police.

Rose had gone to the Mayor just before he was taken by the police and told that he had been threatened. Just because the man is a worker and "radical," the police acted on the notion that he had no civil rights and attempted to make another blot such as the lynching of Wesley Everest in Everett, Washington, and of Frank Little in Butte,

Greetings! Steel Workers!

This is the first time that the DAILY WORKER has really had an opportunity to send its greetings to the steel workers in the far-flung industrial district that stretches away to the south of Chicago and over into the State of Indiana.

Thousands of workers reading the DAILY WORKER, from South Chicago, all the way down to Hammond, Indiana, will mean the beginning of a new era, the beginning an epoch of organization of labor in this almost untouched non-union territory.

We never could get that Samson slant on the little lad in the White House. He al ways looks to us like a little boy after taking a pill. The Chicago Tribune believes that Judge Gary should be muzzled and prevented from eulogiz ing Coolidge, else the voters might think Calvin is actually a friend of Big Business. This should form the basis for a good bedtime story.
