# CAR UNION WALKOUT STOPS ALL PITTSBURGH TRAFFIC

# I. L. G. W. U. MACHINE ABANDONS ALL PROGRESSIVE PRETENSES IN ITS WAR ON MILITANTS

By JACK JOHNSTONE.

The Ladies' Garment Workers' convention, entering its fifth day, promises to be the most ruthless, undemocratic and reactionary convention that this once progressive organization has ever had. The yellow Amsterdam disruptive tactics are the rules of order governing the proceedings and the sinister figure of Abe Cahan hovers in the background of the conventiton.

Nothing of a constructive nature has even peeped into the convention hall as yet. Nothing in four days except bitter denunciations of the militants, the T. U. E. L. and the Workers Party.

Speeches, nothing but speeches,\* everyone of them except Giovinitti's, | ] either of the democratic republican | COMMITTEE ON APPEALS election year variety or of a bombastic appeal for unity, mingled with a bitter denunciation of all militants and a condemnation of progressive

The petty bourgoise leadership comes out in broad relief against the frank class conscious arguments put up by those workers who are being thrown out one by one from the convention. So far six have been unseated, five from New York and one from Chicago. There are still about twenty more objections. It is only thru this violent method that the present reactionary leaders can hold control of the organization. Their purpose is to remove from the convention the leading spokesmen of the left wing and then after making the left wing inarticulate, to push thru their reactionary and disruptive

(Special to The Daily Worker) BOSTON, May 11.-A committee on appeals has been appointed here at the convention of the International Ladies' Garment Workers' Union, to hear the cases of the expelled members in Chicago and Philadelphia, and of the 19 members of Local No. 22, of New York City, removed from the ballot in the election of convention delegates.

The cases of two more contested delegates are yet to come before the convention. The speech making before the convention was just about completed on Saturday, when Jacob Panken, the Socialist judge in New York City, appealed for support of the July 4 gathering at Cleveland.

Many of the men holding these put an end to this method of "machine" building, and are proposing a referendum vote of the membership to settle the question. They are claiming that this is a democratic procedure, but the men hereabouts say that they do this because a check up of the delegates elected has showed that the miners are over-

whelmingly opposed to appointments. The working miners have for too long seen the use of thes power work hardships on the men who are forced will open its annual convention this to pay the bills. For instance, men who once held elective positions, if they have served the machine well while holding same, thereby winning for themselves the enmity of the men who elected them, with the result that they were defeated in a subsequent election, are put on the pay roll and the rank and file have no say in the matter. They see their only hope in the referendum, because they know how to "put it over" on a state-wide basis. If the appointive power is taken away and they are forced to submit their candidacies to sectional elections, these men know, in many instances, that they cannot be elected. # GAS TO CRUSH CAR STRIKE Mayor Declares War On Pittsburgh Workers

PITTSBURGH, Pa., May 11-Tear gas grenades, riot guns and tanks are the weapons with which Mayor McGee and the Pittsburgh Railways company intends to fight the strike of 3,200 motormen and conductors which has paralyzed street car service in this city.

The strike for better working conditions which began Saturday morning has thrown business interests into a state of panic and resulted in the immediate passage by the city council of an appropriations bill for the death dealing weapons against labor.

Twenty-five thousand dollars is the amount provided, at Mc-Gee's request, by the "emergency" ordinance which will be used in purchasing the gas, guns and tanks to protect scabs and to attack the strikers.

Demands Just, Mayor Admitted. Mayor McGee's declaration of war on the strikers, before they have been even accused of any acts of violence, comes just two days after his admission that there was much justice to their demands.

The demands of the strikers are the slightest possible. They demand that the company pay half the cost of their \$28 company uniforms; they demand that they be given thirty minutes instead of fifteen for making out accident reports. A demand for a small wage increase followed.

Mayor McGee's police, in their eagerness to break the carmen's strike, allowed the autos to crowd into the tunnel recklessly with total disregard of traffic laws.

What was worse no inspection of

#### PHILADELPHIA F .- L. CALL

"Greetings: There never was a time in the history of the labor movement when the possibilities were so apparent for the formation

of a Labor party. "The cost of living is rising. An intense campaign is being carried on everywhere for the destruction of our organizations and for the establishment of the open shop system. "The success of the British Labor party is an outstanding achievement of first order. It comes at a time when the need for united action for our common defense is most pressing. It is an alluring precedent to follow.

Millions of Farmers Bankrupt

"The success of the Farmer-Labor party of Minnesota is another striking example of the wisdom of the united efforts of the exploited farmers and industrial workers. The farmers and the workers have a common cause. Those who work for the destruction of our organizations are also responsible for the appalling conditions prevailing among the farmers. More than five and a half million farmers are bankrupt and are at the point of starvation.

"All over the country the workers and the farmers are getting together and forming Farmer-Labor parties with the end in view of consolidating all these local Farmer-Labor parties in state and a national party, which will nominate candidates for president and vice-president on a Farmer-Labor ticket

"A number of Philadelphia labor unions adopted resolutions for the immediate formation of a local labor party. Delegates were elected by these locals to a committee to call a conference for the formation of such a party. The committee met on May 8, at the Paperhangers' hall, 1534 Ridge avenue.

> The word "exclusion" is enthusiasm among the race-emotional element on the Pacific slope. Coolidge was as radically anti-Japanese as Hiram himself! And the voters went to the Republican primary and gave the President a majority over Hiram, their clay-footed idol.

But on the day after the Coolidge victory in California was assured, the White House politician reversed himself and forced the House and Senate conferees to discard a report on the immigration bill which they had already agreed upon and made public and substitute for it a plea to Coolidge himself to negotiate a treaty with Japan, dealing with immigration into America. Sen. Robinson, minority leader, denouncing this surrender of the principle that immigration control is a purely domestic legislative function, did not fail to point out that Coolidge had prefaced the trick by betrayal of the trust of the voters of California.

Sam Shortridge, the hard-boiled senator from the Golden state, was outraged. He is the loudest champion of exclusion and he served notice that he would raise a point of order against the treaty phase of the immigration bill unless the conferees should meantime cut it out of the measure. Half a dozen democrats, assisted by Borah, took occasion to point out that the House and Senate's instructions to the conferees on this Japanese business had been directly violated by the Coolidge scheme; that it was a defiance by the executive of the acknowledged legislative right of Congress: that if we let Japan force us to negotiate a treaty dealing with an immigration issue, then we must expect Italy to threaten us until we yielded to her also. (Special to The Daily Worker) WASHINGTON, May 11 .- Authorities will differ as to the motives be-

hind Hughes' insistence that Japanese politicians must not be offended by the exclusion law. Some will say that in this case Hughes stands for world peace and is opposed to stirring up racial sensibilities—especially when America and France and Japan have so smooth-

ly-working an arrangement in the Far

East, to prevent China from falling under radical Russian influence. Others will say that Hughes is not moved so much by a love of peace as by calculation that a Japanese revolution is threatened, and any sacrifice of the privileges of Congress is better than a liberation of an infuriated working class upon the militarist

imperialism now ruling Nippon. Still others will say that Hughes is naturally submissive to ambassadors and financiers who know exactly what they want. In any case, Hughes has joined with Coolidge in concealing from the voters of California the fact that the exclusion program was to be delayed pending the negotiation of a special treaty which would recognize the right of Japan to a voice in American immigration control. And Hughes, who lost California and the presidency in 1916 by betraying and affronting the progressives, now sees his chief headed in the same direc-

IMPORTED COTTON CLOTH AND SOUTHERN NON-UNION LABOR HIT NORTHERN TEXTILE WORKERS

By LELAND OLDS
(Federated Press Industrial Editor)

Importation of cotton cloth into the United States while tens of thousands of American textile workers lack the opportunity to earn a living, was condemned by the emergency committee of the American Federation of Textile Workers at a special meeting in Fall River, Mass., April 29. Similar action was taken a week earlier by the council of New Bedford textile workers. The critical situation is shown in reports of curtailment in

Here is the situation. Foreign textile workers have had their living standards reduced to the point where they can undersell American textile workers. And southern textile workers in America, because of their lower standards, are underselling those in the north. So the pressure of competition in an over-expanded industry comes squarely on the workers who have achieved some sort of living conditions and is acting to force them the British owners would reduce Steel Manufactured Practically Free.

Decreased employment as compared with a year ago was reported by the major groups of industries as follows: textiles 81/2 per cent, iron and steel 5 per cent, leather and its finished products 71/2 per cent, chemicals and allied 2 per cent, metal products other than iron and steel 5 per cent, tobacco manufactures 8 per cent, vehicles 4 per cent, miscellaneous including agricutural implements, electrical manufactures and auto tires 11 per cent. Only four industrial groups stood against this general decline. Lumber held its own, paper and printing gained 1 per cent, food products gained 1 per cent and stone, clay and glass products gained 3 per cent.

Textiles Hit Hardest.

Individual industries reporting large decreases in number on payrolls are cotton goods with a drop of 15 per cent, dying and finishing of textiles 17 per cent, millinery and lace 15 per cent, foundries and machine shops 13 vania railroad. #### Coolidge And Cox, Ohio's Selections For The Presidency

COLUMBUS. Ohio. May 11.-President Calvin Coolidge and former Governor James M. Cox are Ohio's selections for the republican democratic nominations for president.

Voters of Ohio, in the recent presidential primaries, gave decisive majorities for Coolidge and Cox in the preferential vote, and gave to each, the state's delegations to their respective national party conventions.

Coolidge's victory over Senator Hiam Johnson was overwhelming. Incomplete returns indicate the president won by a majority of more than six to one.

Cox apparently defeated William G. McAdoo by nearly three to one.

# **WORKERS PARTY MAKES STATEMENT** ON THE PULLMAN STRIKE DRAWING ATTENTION TO THE ISSUES INVOLVED

(Statement Issued by the Workers Party, Local Chicago.) TO THE WORKERS AND STRIKERS OF PULLMAN! Dear Sirs and Brothers:-

The Pullman strikers are now engaged in a life and death struggle with the Pullman corporation to maintain a human standard of living. On April 14, the riveters, buckers, fitters, heaters, reamers, vestibule and steel shop car building forces of the Pullman corporation struck. The profit-greedy Pullman attempted to put over a 10 to 40 per cent cut on the employes. On top of that, the Pullman Company was enforcing the terrific and murderous Taylor or speed up system and thus sucking the last ounce of energy out of the bodies of the workers. The cost of living has gone up and yet the Pullman Company attempts to cut wages.
