Parliamentarism in Decay. The French election again reveals the rapid decay of parliamentary government. The prediction is freely made here that the big battle in the near future will be between the Communists, who stand for the dictatorship of the proletariat and the big capitalists whose interests can no longer be served by a debating society and therefore, want a Fascisti dictatorship. Involved in Delivery of Arms to Kolchak

(By The Federated Press)
WASHINGTON, May 15.—In connection with the sale of \$5,-552,000 worth of rifles and ammunition to Kolchak by the American government in July, 1919, disclosed in Secretary of War Weeks' report on his sales of arms to Mexico, another letter has turned up.

This is one from Secretary Lansing to Secretary of War Baker, dated July 25, 1919, just after the return of Lansing and President Wilson from Paris. A letter previously published by The Federated Press and the DAILY WORKER, from Acting Secretary Frank Polk to Baker, dated July 11, stated that President Wilson had authorized Polk and Baker to sell war supplies to Kolchak on a basis of 10

per cent cash payment.
Wilson specified that no formal recognition should, however, be given Kolchak's government, then located at Omsk. Polk urged Baker that whatever was to be done, should be done quickly.

Says Lansing, on July 25: "My Dear Mr. Secretary (Baker):

IN VERY BAD HEALTH

Diagnosis of the political health of Calvin Coolidge's cabinet shows the patient's case is hopeless.

Exposure of Secretary of State Charles Evans Hughes' connection with the Martha Washington shipping scandal and Secretary of Commerce Herbert Hoover's activities in delivering the Alaskan salman industry to the Fish Trust, is having a fatal effect. The political standing of Coolidge's aides, past and present, is as follows:

POLITICALLY DEAD.

Edwin Denby, former secretary of navy, who turned over the navy's oil reserves to the oil robbers. Harry M. Daugherty, all-around crook and underworld shyster law-

William J. Burns, arch labor framer and overpress-agented detective.

POLITICALLY DYING. Charles Evans Hughes, agent of the Standard Oil company, in plot with Samuel Gompers to prevent recognition of Russia and to grab oil fields in the near east. Now exposed as using his office to put money in the hands of his former clients.

Andrew W. Mellon, secretary of the treasury, star actor in the million-dollar booze scandal. He is a big whisky distiller and chief prohibition enforcement officer. Arch aid to multi-millionaire tax dodg-

John W. Weeks, secretary of war and banker, who grafted three millions in Bosch Magneto stock, a German company. Now caught in \$5,000,000 airplane scandal.

POLITICALLY SICK. Herbert Hoover, secretary of commerce, who diverted one million dollars of American relief funds to aid czarist war on Soviet rule. Now uncovered as assisting \$60,000,000 salmon steal. The Hoo-

(Special to The Daily Worker) WASHINGTON, May 15.— Secretary of State Charles

Evans Hughes is busy hunting affidavits to support his plea that he didn't know his subordinates in the department of state were urging shipping board officials to authorize the transfer of the transport Martha Washington to an Italian firm for a price far below that offered by an American firm.

The scandal arises from the fact that Hughes acted as special counsel for the interests that his department later sought to favor and that he has said to have received payment from his clients. Hughes' assistants assert that the secretary had severed all connections with his clients before he entered the cabinet but the House Committee investigating the United States shipping board is sceptic-

al of that assertion. The scandal is further aggravated by the fact that the shipping board has no legal right to make the transfer of a transport to a foreign concern. At least such is an opinion once officially rendered by Hughes

Amalgamated Workers Protest At Feinberg

By EARL R. BROWDER (Special to The Daily Worker)

NEW YORK, May 15 .- Rank and file indignation against the expulsion policy in the International Ladies' Garment Workers' Union flamed out in Carnegie hall when thousands of needle trades workers booed and hissed Israel Feinberg, vicepresident of the I. L. G. W. U. and a leading sponsor of the expulsion policy.

The demonstration occurred at the one New York day session of the Amalgamated Clothing Workers convention which was attended by working men and women from both needle trades organizations. It came when right wing elements at the Amalgamated convention attempted to stage a welcome to the visiting I. L. G. W. U. official. Lefts Help Restore Order.

An uproar of protest filled the hall. For a quarter of an hour the folks from the workshops expressed their sense of outrage at Feinberg. President Sidney Hillman had great difficulty in restoring order, succeeding finally with the assistance of left wing elements and the band playing "The Internationale."

It was a message of protest hot from the hearts of the workers, and will not soon be forgotten. Reactionaries were white with fear and cha-

Illinois Coal Miners Must Stand With Alex Howat

ALEXANDER HOWAT, fighting leader of the Kansas miners, who licked the notorious Industrial Slave Law of that state and caused the political defeat of Governor Allen, was expelled from the United Mine Workers of America thru the treachery of President John L. Lewis, who put up a united front with the coal baron controlled government of Kansas against Howat, the fearless champion of the Kansas coal diggers.

Lewis' action was resented and bitterly resented by the rank and file of the United Mnie Workers. They have demonstrated their opposition to the action of Lewis by supporting Howat in his fight to get back into the union, by resolutions and by funds to carry on the fight.

No section of the International Union did so much in this respect as the Illinois miners. They poured their money into Kansas and they backed Howat at every district and national convention where the question of his reinstatement came up.

At Indianapolis, the Illinois delegation was practically unanimous in supporting Howat, despite the treachery of Frank Farrington, formerly a Howat supporter, but now an ally of John Lewis and therefore the enemy of every progressive in the

Frank Farrington, in a speech delivered at a special convention of District 21, United Mine Workers of America, held in Muskogee, Oklahoma, on May 15, 1922, defended Alex Howat and flayed John L. Lewis for his illegal action in deposing Howat and the other district officials. Today Farrington is silent because he made his peace with his arch foe, Lewis, and between them they intend to crucify Howat, the outstanding battler in the miners' union.

The working class of America is watching this convention of the Illinois miners. The capitalists are watching it. The latter hope that the Lewis-Farrington machine will be able to prevent the convention from going on record for the reinstatement of Alex Howat. But we have confidence that the miners of District 12, the leading battalion in the greatest industrial army in America, will challenge the autocracy and treachery of the Farrington-Lewis combination, and follow the lead of the Kansas miners in demanding the reinstatement of Howat to the United Mine Workers, with full rights and privileges. This will serve notice on the coal barons that the rank and file of the miners will not stand idly by and see their foremost defender crucified by leaders who have more in common with the coal operators than they have with the men who pay them their

RAILROAD LABOR **BOARD ANSWERS**

Gang Against Workers

The U. S. Railroad Labor Board has decided to "intervene" in the dispute between the engineers and firemen on one side and the managers of 90 western trunk line railroads on the other, following the request of W. M. Jeffers, representing the general managers' committee.

Jeffers said in a letter to the Labor Board, that the dispute is "likely to interrupt commerce." In announcing that they would take charge of the matter, the Board said, "They had reason to believe that a dispute exists, which is likely to interrupt commerce.'

Harry P. Daugherty, representing the engineers, and D. B. Robertson, representing the firemen, say that no such likelihood exists. They say that the roads were willing to grant the increase of five per cent, but wanted the modification of certain working rules, which have existed for years. This the representatives of the men were unwilling to agree to. The modification of the working rules would more than offset the increase, Daugh-

Wards' Activities For Free Speech Upheld

(Special to The Daily Worker) SPRINGFIELD, Mass., May 15 .-American Civil Liberties Union, and Methodist minister, can continue to advocate free speech without interference from the Methodist general mmittee on the state of the church. Rev. John C. Willetts of St. Joseph. Mich., launched an attack on Ward for his part in helping W. Z. Foster during his trial for violating the Michigan criminal syndicalism law. He asked that the conference bawl Ward out and get the church straight in the eyes of the world.

Helped Unseat Christ? Willetts said that by helping Foster, Ward was aiding the Third (Communist) International, which was attempting to unseat Christ from his heavenly throne on the right hand of God.

The conference voted that Ward's activities as chairman of the Liberties Union did not come within the jurisdiction of the conference.

The conference also adopted a resolution calling on the general conference of the Methodist church to op-

The resolution on war was adopted only after a hard fight lead by an ex-army chaplain. The resolution merely expresses the opposition of the Methodist church as "the organized expression of Christ's way of life," to war, and leaves to each individual the decision as to what stand he will take in the event of war.

Elmer Kidney, of Pittsburgh, opposed the resolution saying that the ganization of slackers if it was war comes theories will vanish."

The foreign and domestic policy of the new regime promises to differ radically from that of Poincare in certain important features. The evacuation of the Ruhr hinges on Germany's acceptance of the Dawes plan and also perhaps, on the willingness loans in the face of Poincare's defeat who was the White Hope of the House of Morgan.

The recognition of Soviet Russia is practically assured when the new government takes office. The procedure followed will be recognition first, and business afterwards. In other words, MacDonald's policy toward the Soviet Republic will be taken as a model.

One of the most important results of the recent elections was the stunning defeats received by the Catholic church in France. It is reported on good authority that the French embassy at the Vatican will be abolished and the bonds between the church and the state resumed under the Poincare regime will be broken. Poincare and many of the big chiefs of the war period were Catholics and the willing tools of the heavy industrialists.

Progressives and many Democrats in House and Senate sympathize with the view that these spying activities, which have been uniformly turned against the labor and radical movements, should be curbed this year, by house-cleaning in the department and by cutting the appropriation.

LONDON. (By Mail) .- M. CONGRESSMAN FREE DISCUSSES

"Ought To Have Hung" Yelps Dumbbell

By LAURENCE TODD. (Special to The Daily Worker)

WASHINGTON, May 15 .- A press correspondent walked into the office of Representative Free of California, and asked him to discuss the possibility of getting a new trial for Tom Mooney. Free, who was district attorney of Santa Clara county, just south of San Francisco, from 1907 until 1919, said that he knew all about the legal situation in the Mooney case, and did not see that it had anything to do with Congress.

The correspondent agreed that only Governor Richardson could bring about a new trial, by pardoning the famous labor prisoner and permitting the new trial to be had on indictments that are still pending. He pointed out what Free already knew -that the trial judge, district attorney and members of the jury have been convinced, due to confessions of perjury by the chief witnesses, that the trial given Mooney and Billings was unfair, and his conviction a reproach to the law.

He Knows It All.

Free, in a rising voice, repeated that he knew all about the case, and wouldn't discuss it.

"Aren't you interested in getting a fair trial?"

"That has nothing to do with me asa congressman."

"Do you think Mooney got justice?" "No. He ought to have hung." "Then why not vindicate the law by giving him another trial?"

"I say I won't talk about it. There's the door!" His caller, rising, remarked that

there was no occasion for his being in that mood. "And I don't want you in here again," continued the man of firmness,

shrinking back in his chair. "Your temper would not encourage

anyone to come in," he was told, and the interview stopped.

A Great Joiner.

In the Congressional Director, where the vanity of come-and-go politicians is paraded in lengthy autobiographies, Free devotes 24 lines of fine type to his own career. He has been a member of the regular republican machine organization, village attorney and county attorney, and is in his second term in the House. "He is a 32nd degree Mason, a Knight Templar, past exalted ruler of San Jose ledge. B. P. O. E., a member of the San Jose Rotary club, I. O. O. F., and an active member of the Chamber of Commerce of San Jose."

He wears the emblems of as many as possible of these, and votes with Longworth and Gillett.

THE POWER COLUMN

Who Will Get Them?

On the walls of the headquarters of two local militant labor movements there will hang after June 15th a banner presented to the revolutionary workers of two cities which made the best record in the first semi-annual subscription campaign for THE DAILY WORKER.

Two-thirds of the big campaign is over and already militants in numerous cities are exerting their greatest efforts for the last part of the campaign which will determine who the winners will be.

ing the highest percentage of their quota in the DAILY WORKER campaign.

Will your city's name be on one of the banners? The banners are already prepared. All that remains to be done is for the names of the victorious cities to be inscribed. One banner will be given to the city of the first class, that is the city whose quota has been set for 100 or more; the other banner to the city among those whose quota is less than 100.

For those who have been actually participating in the campaign the next month will be one of strenuous work and excitement. It is no small honor to win a campaign of this kind, historic in the full sense of the word and of such vital importance to the future of the revolutionary movement in America. Will those who have been allowing others to bear their share of the DAILY WORKER actively resolve before it is too late to take up their share of the campaign to help bring to their city, the banner and the honor which goes with it?

Last week when Ambridge, Penn. went over the top, we asked the question who will be next and the answer was not long in coming.

Superior, Wis. always a leader in the campaign turned in a brave week's work and brought their percentage to 110 per cent. Not quite enough to catch up to the busy workers of Ambridge, who brought their fine record of last week up another notch to a mark of 113 per cent.

REVERE, MASS. which has been making claims that it will lead the procession has also gone over the top and now is the proud possessor of an even 100 per cent record. Toledo, O. is within one jump of a perfect score and on the basis of their past performances, will surely surpass their quota long before the campaign is over.

Just as we go to press Toledo comes thru with another bunch of subs

putting it over the top with one to spare. Many other cities are rapidly approaching the goal and there is little ground for excuse on the part of those who have made little headway so far. In the month which is yet remaining there is still plenty of

time for those who have not yet produced their share of the results.

There is one suggestion which can be offered to organizations in cities which have so far reached the lower end of the list. Sometimes with a new publication like THE DAILY WORKER, it is difficult to produce results thru lack of organization. Workers Party branches, city central committees and other labor organizations are urged to set aside a DAILY WORKER fund out of which trial subscriptions are to be purchased for workers whom it is thought can be interested in THE DAILY WORKER. Many cities in which there are Workers Party branches may use this method as a legitimate means of bringing up their standing in the DAILY WORKER quota list, and in preparing the way for a growing DAILY WORKER circulation in their city.
