POLITICIANS FOR TRIPLE FAVOR-WINE, BEER AND MAJOR BERRY

(Special to The Daily Worker)

NEW YORK, June 24.—Samuel Compers, the rest of the executive council of the American Federation of Labor and a host of lesser A. F. of L. functionaries are busy at the democratic convention lobbying for favors.

As one of the democratic National Committee expressed it the chief Gompers' demands are for "Beer and Berry"—the modification of the Volstead Act in favor of light wines and the naming of the pressmen's czar for the vice-presidency.

Would Kill Labor Board.

The A. F. of L. hopes to have the Democrats come out for the repeal of the Esch-Cummins law, which makes the Railroad Labor Board possible; the repeal of the Sherman Anti-Trust law which is made the basis for injunctions against labor restraints of trade during strikes, and a constitutional amendment against child labor. Besides the Sherman repeal the labor officials are urging additional le-

gislation against injunctions. Forget Wilson Record.

The fact that the last democratic administration was controlled by super-business and was fiercely anti-labor, in its latter years especially-as is witnessed by the breaking of the steel ly ignored. They also blind their eyes to the fact that the same forces control the party today. Looking the old parties' record in the face would force them to come out for a workers' and farmers' movement or admitting they did not sincerely want to gain anything thru political efforts.

Less Than Rival's Wages.

"Is it possible that you do not know that the ultimatum of your local representatives, submitted to the Seattle Typographical union the day the strike vote was taken, demanded that the P.-L. printers work for less than your Seattle competitors were paying-less even than the scale of wages in effect prior to January 1, 1924-less even than the wage scale in effect at the very time you advocated, in large type, over your own signature, good wages for printers? To be specific: The 1924 wage scale, paid and being paid by the other daily papers, provides for increases of 7 1-7 cents per hour for day work and 10 5-7 cents per hour for night work. The ultimatum of your representatives demanded decreases of 7 13-21 cents per hour for day work and 8 2-21 cents per hour for night work. In other words, you offered to pay the P.-L. printers 14 16-21 cents per hour less, and. 18 17-21 cents per hour less than your Seattle competitors had been, were and are paying. The commonest expression among us then was: 'Don't worry; we're working for Hearst, our friend. Some day he'll understand the situation and pay us every cent due us under the 1924 wage scale.' Imagine our amazement and chagrin when confronted finally with your ultimatum refusing longer to pay even the 1923 wage scale, and 'offering' to pay a wage scale which, the circumstances considered, no union could accept and remain a union.

HEARST'S FAIR WORDS.

"There has been no lockout on the Seattle Post-Intelligencer. There has never been a lockout on a Hearst paper and never will be one. The plain facts, as you surely must know, are that the gentlemen in the composing room left their positions and walked out. W ewere compelled to get out our paper without them, much to our regret, but there was no other course open to us. You say that I have always advocated good wages. I think you might fairly add that I have always paid good wages, and have always been considerate of the just demands and requirements of employes. That does not mean, however, that I should or shall submit to unjust discrimination against our papers, or that I consider such injustice a generous return for the long-established policy of fairness and friendlness which our papers have consistently maintained. As regards the conflict with Germany it must be said that the raid upon the Russian Trade Mission in Berlin was an attempt on the part of German Social Democracy to get into the good graces of France at the price of a worsentag of the relations with the Soviet Union. In the sphere of the policy of concessions, the caution and restraint exercised up to now remain

The inner situation of the Soviet Union is characterised by the successful solution of the national question, by the considerable economic successes, by the strengthening of the alliance between the proletariat and the peasantry and by the enrolment of more than two hundred thousand workers in the Communist Party. At present agriculture has reached 78 per cent, industry 48 per cent, foreign trade 20 per cent and wages 62 per cent of their espective pre-war levels. The market risis has been overcome.

Our chief tasks consist at present in he raising of heavy industry and in the solution of the questions of trade. 36 per cent of the home trade is in the hands of the state and 64 per cent is in the hands of private enterprise. NEW YORK, June 24 .- With tickets to the convention here selling at \$100 a throw a nice little scandal has broken out in the hosts of democracy gathered here. The McAdoo forces are accused of having gypped 3,000 tickets and special police permits. The delegates from the hinterland are all wrot up about that, a matter of thirty grand is enough to get excited about, they say. A western national committeeman is accused of having taken unto himself 2,900 other tickets, or twenty-nine grand.

The McAdoo forces in private make no bones about having gypped the tickets. "What the Hell," one of them said. "What do you think, think we are boobs? Smith has every bootlegger and warm mama in this lousy town working for him; we gotta get omething outa this show."

The democrats will undoubtedly put a plank in their platform denouncing republican graft. It is to laugh:

No increase in hours! The 8-hour day must be established and maintained as the maximum, with the 6 and 7-hour day for unhealthful industries. Hours of labor must be shortened instead of being lengthened. No increase of

Whatever may be the handicaps to successful struggle, whatever conditions may seem favorable to the employers, the workers must sound a militant challenge to the capitalist offensive. Better to go down fighting than to surrender without a struggle. Any worsening of conditions that is accepted without a fight will be but the prelude to further intensification of the crushing policy of the capitalists. The bosses will force the fight; we can resist them better now than later on.

There is no excuse of any kind for the workers not to have increased wages and shorter hours. The capitalists are rolling in wealth, created by the workers. Their greed is insatiable, however, and the workers must face the bitter fact that nothing but struggle, organization, determination, and more struggle, will protect their interests against the blood-sucking crew.

Rally the unions! Rally the workers, organized and un-organized, into one mighty body of working-class will and determination!

No wage cuts! No increase in working hours!

Accuses Labor Banker of Being "Red"

Ben W. Hooper, agent of the railroad corporations on the Railroad Board and hated by all railroad workers as the means of many wage-cuts, issued a statement yesterday in which he denounced Warren S. Stone of the year. Engineers' union, and D. B. Robertson, of the Firemen, for their "radical political designs" and defended himself against charges of prejudice. In labor appears in the profit margin his statement Hooper places himself which averaged \$1.99 a bag or nearly definitely against even the mild pro- 2c a pound on the 10,057,504 bags of posals of La Follettism, which milk- sugar produced by the four compaand-water platform he indicates is

"socialism." "You are among the leaders of a political movement in which you are case of the leading corporation. This attempting to deliver railway employes into an alliance with socialism," says Hooper's statement, which is in the form of a letter addressed to the two union heads.

Local railroad men point out that Stone is very far indeed from the mildest forms of socialism, his principal claim to fame today being his collaboration with Wall Street thru the Empire Trust Co., a controlling interest in which he controls thru the Engineers' bank. He recently declared he had no quarrel with private ownership. The controversy between him and Hooper is largely caused by Hooper's desire to defend the Board which has been a means of a good

livelihood to him for several years. Inquiries as to the holdings of railroad stock in the hands of Mr. Hooper, that might help to account for his zealous defense of private ownership as against nationalization, failed to disclose anything at this time.

TO AID OF THE GERMAN MINERS! TO WORKERS OF ALL COUNTRIES!

The German miners have entered the struggle to check the capitalist pressure upon their wages, hours and conditions of labor. Four hundred thousand workers quit the mines, subjecting themselves and their families to great hardships. Should united German capital defeat the striking miners, the miners England, Belgium, France,

Czecho-Slovakia, Poland, etc., will come in next for the blow of capitalism; and not only the miners, but the workers of all industries. THE STRUGGLE OF THE GER-MAN MINERS IS THE CAUSE OF THE INTERNATIONAL PROLE-TARIAT. Only by the united front of the workers of all tendencies will it be possible to check the offensive of the brazen magnates of the German heavy industries.

The All-Russian Central council and the central committee of the Russian trade unions appeal to the workers of all countries to come to the aid of the striking miners of Germany. Assistance must be rendered without delay. Especially great is the responsibility of the miners, transport workers and metal workers of England, France, Belgium, Czecho-Slovakia and Poland. To the workers of these countries in general, and to the miners, metal workers and transport workers in particular, the entire Russian trade union movement sends out the

LOS ANGELES, Cal., June 24 .- Po lice chief Volmer of Los Angeles ha given his police the army intelligence test, and the results indicate that the police show a lower average intelli gence than the conscript army, during the late unpleasantness. The same tests as were used in the army were applied on orders of Chief Volmer and show some amusing figures. Assistant detective captains aver

aged the mentality of boys of four teen years of age, some less than nine and a high of eighteen. Lieutenant averaged 15 years with a low of two and a high of 18. Sergeants average twelve years and nine months and one scored 11 points showing a brein de velopment of a baby. Patr averaged three months higher i gence than their sergeants. They scored the highest points-201, and the lowest-2, making it doubtful some policemen have any brains

Try It on the Prisoners. All these figures are based on a se ond test which averaged 17 poi higher than the first test. Test I ber one places these police two one-half years lower in intellige. than the results here shown.

Chauffeurs and clerks ranked mucl higher and it also develops that police officers passing the highest score were not considered reliable and cap able by their captains. It also wa shown that the police officers wh show any intelligence seldom remain on the force for any length of time. Take Orders From Bosses.

Los Angeles has long been note for its bitter and vindictive attitude against organized labor. Is it any wonder that the police are the im placable foes of the unions? They obey the orders of the chamber of commerce as a mule obeys the rein and the voice of the "mule skinner."

"How To Conduct Yourself In The Trade Union" is the subject of which Arne Swabeck, District Organizer of the Workers party, begins Thursday evening, June 26, at the Technical School, 1902 West Division Street, at 8 o'clock sharp. The course will consist of four lessons and will teach the rudiments of trade union procedure, explaining to the students what their individual rights are as members of a trade union, and how to exercise those rights even in the face of reactionary bureaucratic union offi-

Resolutions of sympathy have been cabled to Matteotti's widow in Rome, by the Central Trades and Labor council and Italian clothing workers' unions. In Italian shops and restaurants the murder is the one topic of conversation, as many Italian leaders in New York were close personal friends of Matteotti. Protest meetings, which are being held in different parts of the city, will culminate in a mass meeting at Carnegie Hall, June 26.

The Fifth Congress

Millions of workers the world over have their eyes fastened upon the Fifth World Congress of the Communist International now in session in Moscow. The hopes of the world's proletariat are centered in this gathering, which concentrates the organized power, will, and intelligence of the rising class that is soon to rule society.

While the Communist congress proceeds, the forces that brot it into being continue their work uninterruptedly. The breakdown of the capitalist system becomes more and more evident, and what were but cracks in its giant walls a short time ago now show themselves as great breaches.

In Italy, the triumphant Fascist party of counter-revolution is completing the destruction of capitalism under the guise of re-establishing it, and hastening the proletarian uprising. Recent revelations are stirring the entire Italian working class to action after several years of apathy, while the last resources of capitalist resistance have been exhausted. The workers' and farmers' government is near in Italy.

In Germany, quick upon the heels of a retreat that seemed to threaten disaster, the working class had made another great advance in the May elections, which showed that in the industrial centers the Communist party of Germany has a positive majority of the working class. The 4,000,000 votes in Germany are the guarantee that the revolution will soon rescue the unhappy masses of that country from the slavery of international capitalism.

In France, also, the center of victorious imperialism, the workers have learned the lesson that there is but one real victory for the workers, and that victory is the one that overthrows the capitalist class of France as well as of the rest of the world. The French workers are but a step behind the German.

In Great Britain the development is slower, due

'Turn the Other Rascals Out"

Senator Pat Harrison's keynote speech to the democratic convention yesterday was even more vention cluttered up with badly writempty than expected. There was hardly a variation, rubber-stamp manifestoes or the slandering of all progressive tention from the old theme, "Turn the republican wordy and useless resolutions. It dencies in American labor, and perrascals out, put the democratic ones in." "Are you dissatisfied?" it asks the masses; "if so, you did the job simply and thoroly. AS WE SEE IT By T. J. O'FLAHERTY

The Chicago Journal of Comm informs us that Dawes will open campaign for the presidency in Lincoln, Nebraska. Nebraska happens to e the home of Senators Norris and Howell, who are considered radicals because they are not as reactionary as Dawes. Why has Dawes selected Nebraska to open his campaign in? Because Dawes is the darling of the farmers, says the Journal of Co merce. The G. O. Closing an interval in the development of the world revolution in which the working class had been temporarily halted, the Fifth Congress will at the same time mark the beginning of a new and greater advance. From its sessions will go out the understanding, the clarity of purpose, the strength of will, and the firmness of organization that will push the dominion of the workers out and over greater areas of the earth's surface, one-sixth of which is today under proletarian rule.

Amsterdam Rejects United Front

The Amsterdam International (the International Federation of Trade Unions) meeting in Vienna a few days ago, is reported to have again rejected the idea of unifying the fight against war and fascism by means of a united front with the Russian unions and with the Red International of Labor Unions.

This is no surprise to those familiar with the record of the yellow Amsterdam leaders. Since long, as you know, but the few copies high. I think that's a lie.
