JAP DIPLOMAT An American Bishop AN EDUCATION AN EDUCATION May Give to Chinese League Still Chatters

By J. LOUIS ENGDAHL.

TODAY, an American churchman raises the cry that Soviet Russia may exert some influence upon the Chinese situation. He is very much afraid that Bolshevik support of the cause of Sun Yat Sen may prove detrimental to the cause of the imperialist plunderers in the Orient.

This fear was voiced by Bishop L. J. Birney, in charge of the Shanghai, China, area of the Methodist Episcopal Church, at the opening of the 85th Annual Session of the Rock River Conference of this same Methodist Episcopal Church, held at Sterling, Illinois.

This is the feature of the story that the Chicago Tribune's expert on church matters, the Rev. W. B. Norton, sends in to his paper, and the headline writer falls into the spirit of the news by putting a headline over it as follows: "Soviets Worst Peril in China, Bishop Asserts."

The Bishop confesses that he has much greater interests in the Orient than converting the "Heathen Chinese" to the Christianity of John D. Rockefeller and J. Pierpont Morgan. He is looking much more to the pocketbooks of the great American bankers and industrialists, than he is to the souls of the Orientals.

"The constitution follows the flag," is one of the sayings that constitutes the backbone of America's colonial policy. But the American missionary, financed by the great wealth poured into the churches by the nation's multi-millionaires, precede both the flag and the constitution, in developing possible foreign fields of exploitation.

The Bishop tries to dismiss the present troubles around Shanghai as something of no consequence. Internecine war, fomented by American and British gold, to weaken Chinese resistance to the foreign invader, does not concern the clergyman. Thousands slaughtered in order that the Almighty American dollar might win a little more advantageous position in the Shanghai sector, does not spur him to notice the blood upon his own hands.

True, the fighting around Shanghai is only incidental to the greater effort of American and British bankers to crush the national revolutionary movement in China, and overthrow the rule of Sun Yat Sen at Canton. Listen to the **Bishop proclaim:**

"The real danger is the attack on Peking, with the aid of Russia. The Southern General, Sun Yat Sen, has openly proclaimed himself a Bolshevik. The general who is leading the attack from the North, Chang Tso Lin, is commonly believed to be in sympathy with the Soviet Government.

"There are already 500 Russian soldiers in the Northern Chinese army. If this number is increased to 5,000, there will be a real danger of the fall of Peking and of the government."

Well, what of it?

There are good American precedents for all the aid that the Russians may desire to give to the Chinese revolution-

During the American revolution, in 1776, when the colonists were fighting valiantly to ove

Shidehara said that if the league was created to minimize the chances of war, league competency should as a matter of principle be extended to all varieties of differences between nations.

This attitude appears quite logical, but nothing is logical except force under the present social order and the most powerful capitalist nation in the world, the United States, is not going to tolerate any interference with its ambition to go out and take what it wants when it wants it. Irritating Japanese race pride may not be such a bad thing for the Japanese ruling class for the moment. It enables them to cover up their exploitation of their own subject classes behind a smoke screen of anti-American feeling, and the American ruling class can arouse more emotional insanity in the form of patriotism over the "yellow peril" that it could over the exploitation of the Orient.

While the diplomats in Tokyo and Washington make peaceful gestures the respective governments are building up their military and naval forces . for the next great conflict.

Nobody expects that a war between Japan and the United States can be localized. When the storm breaks, the League of Nations will die with a loud gasp and the workers of all nations will again be thrown into the bloody arena, unless in the meantime they take the power of government out of the hands of the master class.

League Still Talks.

GENEVA, Oct. 1.-The arbitration protocol draft, containing the Japanese amendment was formally placed beore the League of Nations today. M. Politis of Greece, and Dr. Benes, of Czecho-Slovakia, introduced the draft to the assembly in plenary session. The sponsors of the peace protocol show a naive faith in the capitalist governments, that is not shared by the newspaper correspondents or in deed, by the diplomats from whose lips the words of peace flow so gently. If nations begin hostilities impulsively, the League will simply proclaim an armistice, and of course. "the impulsive nations" will pack up their deadly weapons and go home shamefacedly! It is to laugh loudly and uproariously. The heads of two small nations were given the honor of bringing in the latest peace baby. But it will take more than the product of Ramsay MacDonald's cracker factory, to bring it to maturity.

"If the railroads are taken over by that the big step in the reversal of our old settled policy will be taken IRISH BOUNDARY the government we must face the fact and there will be no stopping the force once we have let it loose. If there is no particular reason why the government should not own and run the railroads, is there any reason why it should not take over the banks, stores, factories, farms, until all of us stores, factories, farms, until all of us are government employes and the Tory Die - Hards Will sion. The Workers Party of Gary is conducting a whirlwind campaign to introduce the DAILY WORKER to the steel workers of Gary. Posters have been distributed thruout the town. the pool halls have agreed to sell the paper, and the DAILY WORKER is now conducting negotiations to have the paper on the Gary news stands.

In connection with the DAILY WORKER drive in Gary, the City Central Committee is instituting the shop nuclei /form of organization among the Workers Party members who work in the Gary steel mills. Comrade John Heinrichson circulation manager of the DAILY WORKER for Chicago, declares that "Gary will be the first to have a well organized shop nuclei movement of any Workers Party branch in the country."

At a special meeting of the C. C. C. last Sunday, the DAILY WORK-ER drive was taken up and a DAILY WORKER committee of seven elected, with John Rusak, DAILY WORKER agent for Gary, as chairman.

Business men in Gary inform DAILY WORKER agents that as members of the Chamber of Commerce they cannot give advertisements until the Chamber of Commerce approves. Hence most of the business men of Gary have sabotaged the DAILY WORKER. The Negro population has become interested in the drive, and as a result Gordon Owens' meeting there is expected to be especially well attended.

Workers Party members have been getting up and selling the DAILY WORKER in front of the steel mill gates every morning at 5 o'clock.

In conjunction with the DAILY WORKER drive in Gary, Karl Reeve has been writing a series of articles on the conditions prevailing among the steel trust slaves there.

on this side of the Atlantic, LaFayette, Von Steuben and a host of other sympathizers with the cause of the colonists crossed the Atlantic to fight on the side of the revolution. Without the aid of foreigners, it is doubtful if the American cause would have succeeded as well as it did. Even in the British parliament there were statesmen who raised their voices, on behalf of the American revolution, in defiance of the king.

We do not know how many Russians there are fighting on the side of the Chinese revolutionists.

The only regret of American workers should be that the bishop was not compelled to claim that many Americans were enlisted under the revolutionary standards of Sun Yat Sen.

With the bishops and missionaries on the side of the Oriental headquarters of Standard Oil and Wall Street, surely it behooves America's working class to offer some assistance to the courageous Chinese masses fighting the efforts of foreign imperialists to wipe out what progress they have won during the years of hard struggle since the emperor was overthrown and hurled into the discard.

Where is LaFollette, who claims he is opposed to Wall Street? Not a word does he utter on the Chinese situation. The Chinese revolutionists have not a single friend in congress. This is easily understood when it is realized that all the fair weather friends of Russian Recognition have taken to their storm cellars during this campaign.

Yet it is fitting that only the Communists in the United States should raise their voices on behalf of the oppressed in China. Even the MacDonald "labor" government in England, falls in line to support British imperialist designs against the Chinese revolution.

It is well that the bishop brought up the Chinese question. Many workers will get a little more interested in his task in the Far East.

Jay Lovestone, in his pamphlet, "American Imperialism," shows how the church falls in line with capitalists seeking foreign markets. On page eleven he points out that:

"Our capitalists are interested even in the wildest thickets of African investments. In the recent Tangiers controversy, involving about half a dozen European countries, the United States, that is, the Stone and Webster Electric & Power interests, were represented by Father Denning (Catholic), who was supposed to be bringing the Light of Christianity and the Power of the Saviour to the backward tribesmen."

.

Bishop Birney's speech at the Conference of the Methodist Episcopal Church ought to place him in line for a good, high salaried job, many of which are at the disposal of the great American interests that have profitable business enter-prises in the Orient. When Bishop Birney gets the job, let the workers and farmers understand why he got it. Then they can be the better persuaded to fight on the opposite side from the bishop and his rich friends.

WORKERS LOSE **SAVINGS IN BIG BUSINESS GRAFT** Stock Sold for \$65 a Share, Worth \$.00000

INDIANAPOLIS, Oct. 1.-Morton S. Hawkins, head of the Hawkins Mortgage company, with home offices at Portland, Ind., and eighteen other deendants indicted in the Hawkins and subsidiary companies, faced trial in federal court today on charges of using the mails in a scheme to defraud. A nation-wide plot to defraud home builders is charged against the defendants who include William Sacks, St. Louis millionaire capitalist and politician, and for whom a continuance was asked on a representation that Senator James A. Reed, his attorney, was too ill to appear in court.

Lost Millions.

Stockholders in the Hawkins Mortgage company and others which included the United Home Builders, the Welfare Loan company, the Co-operative League of America and others, have lost millions, according to government attorneys, who claim that stock sold at \$65 a share, was in reality worth less than one cent.

Not So Sick.

Judge John R. Caverly, who senenced Nathan F. Leopold, Jr., and Richard A. Loeb to "life and 99 years" for the slaying of little Robert Franks, today sent word to chief justice John A. Swanson of the circuit court that he will be on the bench Monday, following completion of treatments at the Mercy hospital here for a nervous breakdown suffered two days after he imposed the sentence Sept. 21.

Since then times have changed. American foreign policy is different. The supremacy of the United States in the realm of finance and industry is far more assured. Under these conditions there is very little likelihood of Japan's being able to swing American influence on the pain of breaking up the league. The Dawes plan is the American guarantee and hope today. The Japanèse imperialists know this. Their threats are made with an eye to the future, rather than as an immediate challenge to America. But for the Japanese and American workers it is high time to be aware.

## Stir the Shops!

The very best place to carry on a working class campaign is in the shops and factories where the workers gather to earn their living. It is there that minds are open to the measures, parties and candidates that stand for concrete solutions of the problems of bread and butter facing the working class. It is in the shops that the workers will see facing the working class. It is in the shops that the workers will see most clearly, for example, the difference between Foster, the union organizer and fighter for the workers, and LaFollette, the lawyer and fighter for the middle class. ## Aid for Paterson Workers

True to the traditions set up thru many years of Paterson workers carry on uncomplainingly. The police close their halls, arrest their pickets and only in order to be able to make secure some of the contradictions and rivalries which break up their meetings but the strikers return to regular republican votes for himself and to clinch brought about the war, far from being work only in mills that have met their terms.

The silk workers of Paterson had little enough funds to start with and the long drawn-out struggle has almost exhausted them. They need assist ance and the Workers (Communist) Party of America, whose members are taking an active part in the fight, is lauching a campaign for strike is here. He is not the object of as much attenrelief.

The raising of substantial funds is the objective in this campaign, but of just as much importance is the spread of the news of the strike and its causes-the organized oppression of the silk workers by a nowerful section of the American capitalist class.

This is a revolutionary task for which no discipline will be required to cally the membership of the Workers (Communist) Party of America.
