THE Rev. Norman Thomas, orphan socialist candidate for governor of New York state, and Morris Hillquit, the Moses of the American socialists (he is leading them out of Egypt) sent messages of greeting to Ramsay MacDonald and expressed the hope that the British labor party would be allowed to run His Majesty's Empire after the coming general elections. Thomas likened MacDonald to LaFollette, which is just about what we have been saying right along. The fact that a yellow socialist happens to agree with us for once does not necessarily mean that we should change our opinions, that it makes one feel uncomfortable.

BOTH messages are worthy of a . . . place in the record. Thomas said: "American labor and American of the union rules by radical leader of the left wing at St. Louis! progressive movement sends best wishes for triumphant return to power of the British labor party in the coming election. We hope to duplicate British labor's wonderful achievement suits his own plans and his own resolution when he saw there was no by the election of LaFollette to the pocket. presidency and the creation of a powerful American labor party."

This is what Nick Perkovitz, a coal miner Dawes' plan by the American capitalhe cabled: "Socialists of the United from Dowel, Illinois, was elected ists, thus preparing the ground for a States send congratulations upon the by the rank and file of his local new imperialist war into which this determined and dignified stand of the to represent them at the con-British labor government against the petty attack of its combined reac- committee seated his opponent, bor, socialism and progress on both was not elected and who came der. sides of the Atlantic are now ento Indianapolis, confident that gaged in a simultaneous campaign for the Farrington-Lewis machine Louis convention stood upon the Com- sive Communist campaign betice and world peace. other American colonies, cannot get much comfort out of the prospect of exchanging Calvin Coolidge for LaFollette, provided there is such a striking similarity between the LaFollette movement and the British labor party.

NORMAN Thomas is a nauseating the delegates were not as much in hypocrite. He is not such an ignoramus that he is not aware of the crimes committed by Ramsay Mac-Donald against the people of India, for whom Thomas and his paymaster of the open shop mine, Villard, profess to have so much admiration. Only yesterday we read in the papers that DL J. H. Thomas, colonial secretary in MacDonald's cabinet, delivered a jingo speech against the Turks, that even Curzon would hesitate to make. Thomas warned the "foreigner," who happened in this instance to be the Turk, that the labor party would fight prestige, against all comers.

E warned the Turks to quit their 1 tomfoolery. Yet the only crime committed by the Turks is that they insist the oil lands Britain holds with her armed forces is Turkish territory and suggest that the matter be left to arbitration. Thomas waves his sword like a regular defender of the "predatory interests" that Norman Thomas, Hillquit and LaFollette are fighting against here. Of course, it is needless to say that the LaFollette leaders are not fighting the "predatory interests." What they are really after is an opportunity to serve capitalism, and they feel they can do a better job of it and give the system better service than the capitalist hacks now on the job in the legisatures. It is refreshing to learn from such excellent authorities as Hillquit and Thomas, that His Majesty's "labor" governorment and the LaFollette would-be American government are as alike as two peas.

"The department of constabulary was started with the one intention of preventing crime," said Judge John J. Dreher, of Brookfield, in trying to give the members something to think about. But lieutenant Doehne, member of the constabulary, gave a very different reason for the existence of the constabulary, when he favored the glorification of war on Defense Day, Sept. 12. Doehne said it would be "good advertisement" to take part, but everyone who had the "inside dope," knew the constabulary was performing its real purpose in drumming up war spirit.

"Nothing can advertise the constabband marching in a parade," said lieutenant Doehne, just before the Defense Day program was put over with the aid of the constabulary.

Germans Are Hessians of U.S. Capitalism Today; EXCUSE TO LIVE But What of the Morrow?

By J. LOUIS ENGDAHL.

TODAY, the Trans-Atlantic Air Liner ZR-3 rides at anchor in its hangar in the United States. It made history when it spanned the distance from Friedrichshafen, in Germany, to Lakehurst, U. S. A., in less than four days. It sailed more than 5,000 miles in 80 hours. At this rate

it could girdle the globe in two weeks, compared to the months required in the recent airplane flight. The ZR-3 establishes a new world's record for a continuous flight.

But the most interesting fact about the ZR-3 is that it was "Made in Germany," and that among the 32 men who brought the ship to this country 28 were Germans. There were only four Americans aboard.

We hear no protests from the super-jingoes of the American Legion that the ZR-3 was made and manned by Germans. The anti-Hun propaganda is stilled. Instead the super-patriotic press cheers. In the tumult it is forgotten that the United States is buying the product of the brains of the enemy of 1917-18.

Representatives of France, Great Britain, Italy and Belgium, in "the Council of Ambassadors," at first objected to the Germans being allowed to build the air dreadnaught. France especially is frightened at every new German achievement. But all these nations are pretty much under the thumb of Dollar Rule in Europe, and U. S. Ambassador Herrick finally secured their consent, on the promise that this would be the first and the last.

The ZR-3 is an instrument of war. It becomes part of the armor of American capitalism. It will be used to defend

This is not the first time that reaction in this country has used Germans in war. It will be remembered that the British king, with his tory allies, trying to maintain his rule over the American colonists, in 1776, hired Hessian soldiers, in Germany, to cross the Atlantic and do his fighting for him in this country. They were professional soldiers, hired to slaughter their fellow human beings at a stated priced. They were paid mercenaries hired to do the bidding of re-

Enslaved under the Morgan-Dawes plan, the Germans today become the mercenaries, once more, of whatever nation has the price to buy them. The United States has riches. With a nation fifty per cent stunted in mind, and children rushed onto the treadmill of industry before their time, America must turn to the genius of Germany, not only for the products of peace, but for the instruments of

But it is possible for other nations to do the same. Japan has just purchased a huge air monster from the Germans. Under the Versailles Treaty, it was impossible for the Germans to manufacture this killer for the Japs on German territory. So the wily Germans moved their factory over the border into Denmark.

But this condition will change. Slaves rebel. A nation cannot long be held in chains. The workers in Germany are merely recuperating for another blow, not only against their own masters, but against

The victory of the German workers will bring Germany under the banners of the world social revolution. That will mean no more air dreadnaughts to bolster Japanese militarism, from Germany.

It will mean that the whole genius of the German workclass will be enlisted for the workers' world struggle for power.

In that struggle the toilers of Germany in the workshops and in the field, will not be the paid Hessians of ruthless masters. They will not work and fight for a price. Instead they will be the willing, anxious, eager Soldiers

of the Red Soviet Star. German workers do not willingly turn out instruments of death for the United States, Japan and other capitalist nations. Hessian soldiers never fight because they like it. Mercenaries must always be driven into battle.

Nations that have been compelled to use mercenaries found themselves on the brink of decay. The Romans found that out.

The ZR-3, in the United States, is a symptom of crumbling American capitalism. It is a promise of the greater achievements the whole German working class will be capable of once it is really released under Soviet Rule for creative labor.

The rich fields of the Russian Soviet Republic solve the

food problem of the growing World Social Revolution.

The mechanical genius of the German nation will be won for the World Social Revolution, under the German Soviet Republic. Thus will begin the first real massing of the forces of industry for the benefit of mankind.

The Communist social order is forging the weapons with which it will build, out of capitalist chaos, the new civilization. Capitalism will go down under the blows of German industry linked with Russian agriculture under Soviet Rule. That is the message the ZR-3 brings to America.

NEGRO MAY BE INVESTIGATED

Crowe Aid Promised to Look Into Case

First assistant State's Attorney Gorman has promised a thoro investigation into the lynching of the Negro, William Bell, and a speedy sitting of the Grand Jury, George C. Adams, attorney for the family of the murdered man, told the DAILY WORKER yesterday.

Two mass meetings are being held by the Negroes tonight, one on the South Side at the corner of 48th and Wabash and the other on the West Side, at 1221 Blue Island Ave. Protests will be made against conditions now prevailing among the Negroes living in Chicago.

Thomas Clark, one of the witnesses who identified Otto Epstein, night watchman in a sacramental wine shop on 14th street, who has been held to the grand jury on charges of murdering Bell, has been intimidated and threatened at his home, it is reported to the DAILY WORKER.

Threatened With Violence.

Clark declares several auto loads of white thugs have driven up and down in front of his house every night, have disturbed his sleep and have threatened him with violence if Epstein is indicted by the grand jury. Upon request of attorneys for Bell's family, an extra squad of police have been detailed by chief Collins to cover the 16th district.

An organization has been formed among the Negroes, called the People's Protective Circle, to protect the lives of the Negroes against future outrages. Robert S. Ephriam is president of this organization. A meeting was held last Sunday at 1221 Blue Island avenue, at which George Adams and his law partner, J. N Baker, told of the coroner's inquest

Bell Was Innocent.

Bell was brutally killed with a baseball bat by a crowd of rowdies after two girls on the corner of Maxwell and Miller streets had reported to the sacramental wine shop that they were accosted by a Negro. It was admitted by the police that Bell was an innocent bystander who had nothing to do with the accosting of the girls. Harry Crawford, Negro keeper of a nearby pool hall who witnessed the killing, and who declared he was slugged by some of the men from the wine shop, testified at the inquest that two white men in a Ford car ac-

costed the two girls and not a Negro. The two girls, Betty Goldblatt and Bertha Deutsch, admitted at the inquest that they had been approached by two men in the Ford car, and claimed they had been later approached by a Negro.

Negroes Incensed.

The Negro population of Chicago is especially incensed because of the long continued police intimidation accorded the Negroes on the south side. Many instances have been reported where Negroes have been held up and searched by policemen for no apparent cause. It is considered a crime, according to Negroes, for a Negro to be seen walking with a white girl. On the other hand, many Negroes report that they have been slugged and beaten by white men, without securing the slightest police protection.

Negroes declare they are forced to live on the south side in hovels at exhorbitant rents, that it is difficult for them to secure even the most menial work, that the capitalist system is destroying their home life, and that they are in danger of lynching whenever they appear on the

Stir the Shops!

The very best place to carry on a working class campaign is in the shops and factories where the workers gather to earn their living. It is there that minds are open to the measures, parties and candidates that stand for concrete solutions of the problems of bread and butter facing the working class. It is in the shops that the workers will see most clearly, for example, the difference between Foster, the union organizer and fighter for the workers, and LaFollette, the lawyer and fighter for the middle class. The arrest of Comrade Poyntz followed closely on the heels of the great Red Night in Harlem, and indicated the success of the Workers Party in exposing the fraud that the socialists and the fake progressives are perpetrating on the workers. Their hostility to the Communists has increased as the latter have succeeded in opening the minds of the masses to the futility of relying on men like La-Guardia and his socialist allies

The climax of the Workers Party campaign in New York City was reached with the celebration of Red Night in the 20th District in Harlem. The while district was ablaze from end to end during the entire evening with the message of Communism. From two dozen platforms the best speakers of the Workers Party explained to the working class voters of Harlem why they could not vote for the capitalist parties and should not vote for the so-called progressives and socialists. The masses of Harlem listened to the Communist message with rapt attention, thousands and thousands of them.

THE news of the last few days, in the undertaking of securing an I extra large campaign fund, is that the Chicago district of the party has taken its rightful second place. The big campaign rally of last Sunday at which both Foster and Gitlow spoke, netted a collection of about \$850.00 cash. This brings the total contributions direct to the Chicago district up to \$2,126.44.

Contribution lists and remittances for campaign fund stamps sold are showing up heavy in the daily mail of the national office. The will to finance, to amply finance the Communist campaign is growing and these last three weeks of our offensive against the Coolidge-Davis collusion and the LaFollette illusion should bring in more dollars than the

The correspondence continues interesting. L. Nierman writes that he is 70 years old, has been in the revolutionary movement for 49 years and is a Bolshevik. Chas. Sopko and Henry Corbishky went out on pay night and collected \$41.15 and the promise is made that a little more will be done on the side.

Frank Butovac remits \$10.00 in emphasis that he believes in the Workers' and Farmers' Dictatorship. Altho his shop closed its doors over four months ago, John Wild remits \$5.00. To attest that collecting money for the campaign fund is a good way to carry on organization work, a letter from Earl Panizza enclosing \$9.00, asks for the Workers Party address so that he can join.

Seventeen dollars is all Thos. Otzwirk and Albert Schweiger could collect, they write, because the miners only had a 2-day 5-hour pay day. This is better than many others have done in shops that have been running steadily for years. Sternberg, of the Bronx, sends a money order for \$20.00 and thanks the Workers Party for giving him an opportunity to participate in the great work the Communists of this country have

Barney Zaleskas, injured in the mines and not able to get about, says he will collect more, if possible, surprising us with a check for \$26.00 for campaign fund stamps. And the Finnish branch of Waukegan, Ill., swells the campaign fund with a \$75.00 check.

Large amounts and small are equally welcome. What we do insist upon is activity in collection by every party member and sympathizer.

That more and ever more are t	becom	ing active is proven by the long I	ist

The Bosses Fear No More.

The co-operation between the railway owners and the I. C. C. is brot to light in an article in the current issue of "Labor," organ of the railroad

Feeling of the railroad bosses was opposed to the "B. and O." plan, when it was formulated by William H. Johnston, president of the International Association of Machinists and chairman of the Conference for Progressive Political Action, which betrayed various groups of workers into the hands of LaFollette.

The railroad owners at that time imagined that giving the organized shopmen a chance to manage the petty details of shop routine, as the 'B. and O." plan proposes, might curtail their powers.

The bosses have now come to see that the B. and O. plan, far from attempting to curtail the power of the employers offers them the best possible aid in squeezing all they can rewards for efforts at speeding up production.

"Stability" of employment conditions in the shops is said by the bosses to be the aim of the "B. and O." plan. Introduction of the plan does stabilize conditions—it prevents any attempts on the part of the workers to better their conditions by means of drastic action.

The visit of the committee of the executives' association points to an effort to bring the entire railroad industry of the United States under "the Baltimore and Ohio plan."

PHILADELPHIA YOUNG WORKERS TO LAUNCH FACTORY CAMPAIGN: ARRANGE BIG MASS MEETING

By MORRIS YUSEM, City Organizer, Young Workers League PHILADELPHIA Pa., Oct. 15.-In Philadelphia, as in every other industrial center, thousands of young workers are subject to the worst enslavement imaginable. In its factories, mills and department stores, masses of

young workers are wasting their lives away under the illusion that success will finally reward them. It is the labor of these workers that has a great deal to do with the egistering the stock quotations at Wall Street stock exchanges. This is the

condition that brought into existence the Young Workers League, the only organization which has for its object to organize these thousands of the working youth for the struggle against the capitalist system.

The young workers here, as everywhere else, are faced with the problem of combating the intolerable working condition that prevails in those industries, in which labor of young workers predominates. A successful fight

I. W. W. Convention Unity

The sound judgment shown thus far by the delegates to the 16th general convention of the I. W. W. is to be applauded. They have apparently into flames. gotten together independently of the two groups of quarreling officials who were clearly more interested in maintaining their personal dignity by a formal approbation granted their actions by a section of the delegates with others excluded, than in complete unity of the fighting membership. There are some good signs of leadership being shown in this struggle for unity.

If reports are true there are, however, some delegates yet outside, refusing to participate unless their demands are granted. What these demands are is unknown. These delegates are known, of course, to be bitterly opposed to the administration of Doyle and Fisher. They may feel justified in continuing the split, in fact others now participating may feel with them that if complaints against Doyle and Fisher are going to be forgotten amid the justified condemnation of those who applied for an injunction, they may as well stay

That Rowan does not anticipate with pleasure any facing of a united convention, is a matter of course. But the delegates have no part in his guilt. If the majority does not get chesty and arrogant, if the wise leadership shown thus far makes clear that the grievances against Doyle and Fisher, as well as those against Rowan and the rest, will find revolutionary justice, then these sincere worker delegates will understand that further resistance to unity is not fighting Doyle and Fisher, but fighting the I. W. W.

A few elements try to cast suspicion upon the interest shown by the Communists in the I. W. W. by raising the cry of "outsiders." Such a view is sectarian. However distinct an entity any labor organization, economic or political, may feel itself to be, it is-because its members are workers, an indivisible part of the whole working class. As such the Communists, who represent in the class struggle the revolutionary interests of no particular section but of the whole proletariat, are intensely concerned in any vital struggle within any labor organization.

This is the sole basis for the interest Communists feel in the struggle now going on in the I. W. W. That some exciteable and perhaps mendacious elements in the I. W. W. confuse the issue by chatter about "outside" influences, does not disprove this fact. It only proves that the role of the revo lutionary party is not understood.

Exposed!

We breathe a long sigh of relief.

The first installment of the Daily News exposure of us has appeared. We were a little afraid that Jacob Spolansky, the author, whose name shows him to be of the purest American stock, would spoil the effect of his articles by immediately telling such thrilling secrets as the publication of the DAILY WORKER right here in Chicago and the candidacy of William Z. Foster and Benjamin Gitlow for the presidency and vice-presidency on a Communist

On the contrary, it is all too intrigueing for words. We are especially interested in the remark able knowledge of Communist activities displayed by Spolansky when he writes of Dennis Batt as "a member of the executive committee of the Communist Party who is now lecturing on Communism thruout the country."

This will puzzle somewhat the republican party machine in Detroit, Michigan, because Batt is running for congress on the regular republican party ticket. He is not a member of the Communist Party, but of the republican party.

This slight but obvious inaccuracy has shaken our confidence in the veracity of the author of the articles. We may be unduly carping in our desire for truth, but we must confess that the exposure has been spoiled for us. We hope Spolansky will be more careful in the future and we warn him that if he tries to link the Communists up with Charley Bryan we will sue him for libel provided we can get permission from the Communist International to use the capitalist courts.

There are a few things that even we long-suffer ing Communists will not stand for.

The New Orleans chamber of commerce claims that a white worker can live for \$153 per year strikers to 1,200 working class unions and fraternal depend upon your own brawn and and a Negro worker for \$119. After all the efforts societies made by the capitalists to foment race prejudice and create division between white and black workers, it appears that they figure the difference is only \$34. This ought to make it easy for both races the Paterson strike can be extended and thousands banker of deserved repute and influman. The Bootlicking Bourgeoisie

The visit of the sub-normal heir to the British hrone has served to give the workers of Chicago ome insight into the sickening sycophancy of the pper strata of its capitalist class.

The Chicago Tribune staged the most disgusting xhibition of belly-crawling to royalty that has ver been seen in these parts. It devoted almost two pages to the exploits of the prince and the manner n which the females of the pork packing aristocracy displayed their charms to the critical eve of a debauched royal youth.

It inevitably calls to mind the parade of prosti utes that takes place during a convention of the Elks when the town is "thrown wide open."

We understand that the 400 has been split wide pen by the favoritism shown in choosing guests did not have to do any shadowing to the secret service, who were fired re- whom he swore were members of sequent article. for the royal function and this shows that there was complete unanmity in the matter of bootlicking. The only protest comes from those whose drooling mouths were prevented from caressing the prince's footwear.

This is the element that denounces the Amer can workers because "they have forgotten what love with the bosses as the officials a day's work is," to quote the favorite expression of the union and they gave the miliof these gentry.
