Pledge Support in Fight on Alliance of British and American Imperialism

THE campaign waged by the Workers Party to win the American workers for a revolutionary class struggle against American capitalism is being watched with great interest and hope by the workers all over the world, is the word received by the Workers Party in a cablegram from the Communist Party of Great

The success of the Workers Party in the fight it is making in the election campaign will give the workers of other countries new courage for their own struggles, the cablegram declares. The part played by American capitalism in Europe thru the Dawes plan makes the fight which the American workers make of great importance to the workers of all other countries. The cablegram in full reads as follows:

Workers Party of America, 1113 W. Washington Blvd., Chicago, III.

workers and exploited farmers. Workers of Great Britain see in your great fight first serious challenge of American capitalism, which today is center of world imperialism.

Congratulate you on exposing class co-operation policy of socialist party which is following the trickster LaFollette.

In your success the workers everywhere will gain new confidence and strength for own struggle against both British imperialism and lackeys of im-

perialism masquerading as labor party leaders, who want British workers to co-operate with British capitalists in exploiting subject races of British Empire and of Europe.

Against unholy alliance American and British imperialism we fight with you for united battle front of American and British workers and of all exploited peoples.

ALBERT INKPIN, Secretary.

To this cable the Workers Party has sent the following reply:

Communist Party of Great Britain, 16 Kings St. S. W., Covent Gardens,

London, England. Workers Party welcomes your fraternal wishes

of success and pledge for a united fight against British and American imperialism The MacDonalds and LaFollettes are the capitalists' last line of defense, to which they turn when the

workers can only be held in check thru such betrayers. Your splendid fight, which has made Communism and the Russian Workers' Soviet Republic the issue before the workers of Great Britain in the election gives promise that these workers will soon repudiate MacDonald, the tool of British Imperialism, and take their stand with the Communists in a revolutionary class struggle thru which they can alone win their freedom from the oppression of capitalism.

The efforts of world imperialism, still shaking under the blows dealt it by the war and the Russian workers, to reconsolidate itself must be met by a united working class the world over, under whose iron blows it will go down forever.

INVESTIGATE FORGED DOCI (Special to The Daily Worker)

LONDON, Oct. 28.—The Trade Union Congress announced today that it would accept the offer of G. Zinoviev, president of the Communist International to send a mission to Russia to investigate the forgery published by the foreign office.

All indications now are that the "plot" will prove a boomerang. Whether MacDonald's apparent duplicity will have damaging effects on the labor party's interests at the polls, or only on his own personal fortunes is too early to predict with any degree of certainty.

It is not too early to say, however, that the rank and file of British labor are thoroly disgusted with the attitude of the pre-

mier and also of Snowden and+ the other pronounced Communist haters in the labor party government.

The Soviet government has sent a sharp note to England demanding an apology for the charges of subversive propaganda.

No Such Letter.

In his message to the British trade union congress, Zinoviev, said "There was not and there could not be such a letter. The fabrication is so crude that no one, not even a too literate official of the foreign office, but could see its falsity.

"It seems that the laurels of Mr. Hughes are being divided by some one in England. It is obvious that we have in this case a too clear election maneuver."

Zinoviev also referred to an offer he made to Secretary of State Charles Evans Hughes, to establish the falsity of certain documents which the lat-

Hungarian Countess Is Allowed to Enter Gates MAKE CHANGES of American Capitalism

By J. LOUIS ENGDAHL.

TODAY, the Countess Catherine Karolyi, wife of the former president of Hungary, is safely arrived in the United

She passed the portals at Ellis Island, only after slight delay, caused by the anti-Bolshevist watchman at our gates, Stanwood Menken, of the National Security League.

But the visit of Krupskaia Lenin, widow of Nikolai Lenin, to this side of the Atlantic, is still delayed. She was forbidden entry to this country two years ago, and the refusal has never been lifted.

The Karolyi family in Hungary is possessed of great wealth. It has a high social position under capitalism. It is accepted. The Countess comes to this country for a series of lectures. She will be received into the best circles. So she passes the sacred gates that are trying to hold back the rising tide of revolution.

Someone whispered into the sensitive ears of the superpatriot, Menken, that "The Countess" was coming to preach "Bolshevism," to "organize Communistic groups," and that in Europe she was known under the name of "Red Catherine." Such fearful tidings immediately stung Menken into action "to save America."

But "The Countess" had plenty of connections on shore. Heading a list of women acting on a committee to receive her were Miss Jane Addams, of Chicago, campaigner for La-Follette, and Mrs. Cifford Pinchot, wife of one of Coolidge's most ardent supporters. These readily proved that "The Countess" was not tainted with "revolution," and she was allowed to land, just in time to attend the luncheon that had been arranged for her at the Metropolitan Club.

Our comrade, Krupskaia Lenin, one of the foremost women in all Soviet Russia, did not even start the journey for these shores. She was told by Morgan's great American government that she would not be welcome.

She had but one object in coming here. That was to raise funds in aid of the Russian children who were then in

She is at the head of Russian activities on behalf of the children of the Workers' Republic. But funds were needed. The workers of the United States had contributed liberally to the relief funds of the Friends of Soviet Russia. Surely they would continue that aid on behalf of Russia's children.

But Morgan's government at Washington declared that would be "Bolshevist propaganda." Our comrade was cabled that she would not be allowed to enter the United States. So she remained at home, worked with the means at her disposal, and a new generation of children in Soviet Russia, is blooming to manhood and womanhood knowing that the capitalist United States of America not only fears them but hates them; that many of their numbers died because of the aid that was refused under Morgan's Rule.

Countess Catherine Karolyi will give her lectures under the auspices of women who believe in the capitalist social order; women who are supporting Coolidge, Davis and La-Follette in this year's presidential struggle. She is not a threat against, but an aid in support of things as they are.

Our comrade, Krupskaia Lenin, would have spoken to her with the singing of "The International." They would have contributed of their meager savings, to help the children of Soviet Russia.

Our comrade would have brought a message of the new day that is dawning everywhere, that is a menace to world capitalism. Therefore she was rejected.

Thus the government at Washington shows its class character. It confesses itself again but the agent of capital-

Attempt More Closely Knit Organization

By KARL REEVE.

The Industrial Workers of the World have been forced by recent disintegration of the organization to make changes in the constitution which will aid better future leadership and more centralized control of the policies and propaganda of the I. W. W.

The present convention, meeting in Emmet Memorial Hall, has ruled that the general ex-ecutive board shall have full control over policies advocated in all I. W. W. papers and that in future administrative officials may run for re-election.

This ruling eliminates the clause making it compulsory for administrat ors of the I. W. W. to return to the point of production after serving one year in office.

Rowan Sticks by Injunction.

Meanwhile James Rowan, in Master n Chancery Fred Berstein's offices was refusing to withdraw his injunction against the Doyle-Fisher group, against even the advice of Bernstein himself. One of the I. W. W. members told the DAILY WORKER that Row. an's lawyer, Wiliam Bigelow, has de clared that now that the I. W. W. has been forced into the courts, "the organization must behave itself," and the entire organization "must submit to law and order."

The funds of the I. W. W. have all but given out, the convention has already been indorsed by thirty I. W. W. branches thruout the country, and defense work is being hampered by the injunction. Still Rowan, more vicious in pushing the injunction than the capitalist judge before whom he pleads, continues to give his testimony against the Doyle-Fisher fac tion. Rowan repeated to the court yesterday, testimony which he presented in the injunction, emphasizing his claim to have been assaulted by "gunmen" in the I. W. W. headquart ers, and afterwards thrown down the

William Cunnea told the DAILY WORKER that his clients are anxious to withdraw the injunction and he he lieves disputes within the I. W. W. should be settled out of court. He declared the case might take as much as a week or more. Rumors are afoot that two other members of Rowan's self-appointed general executive board have followed James Griffith's lead and come out for the withdrawal of the injuction, leaving Rowan with practically no following in his stubborn action.

The arguments advanced yesterday for more centralized control of the I. W. W. press were that in the past many publications issued by branches and subordinate parts of the I. W. W. have misinterpreted the principles of the organization. Chairman P. J. Welinder cited examples of past straying of the "Industrial Worker" from I. W. W. principles.

The convention also empowered the general executive board to institute a uniform system of bookkeeping in all subordinate parts of the organization and to examine and audit the books of all industrial unions or board was also empowered to settle questions by mail or telegraph which

Try To Reduce Wages

The letter of the Franklin Association shows an attempt on the part of the bosses to reduce wages. This reduction in wages will undoubtedly be followed by attempts to force the union to relinquish many conditions which it has won. This aggressiveness on the part of the employers is Hall, 9 Appleton St., Sunday, Nov. 2, in line with the policy of the bosses' associations all over the country. ONE of the most important tasks for the Communists is to build their press and get a wide circulation for it. By doing that we can build a Communist mass party in the United States. The last census of the U. S. government shows that there are 140,824 Finns born in Finland, residing in the U. S. Of that number 8,000 are members of the Workers Party—about 5 per cent of the total number. What's the reason? The Finnish Federation of the Workers Party has THREE daily papers with a circulation of about 30,000 combined. A circulation of 100,000 for the DAILY WORKER means a Mass Communist Party in the U. S. Chang is said to have accepted Sun's ideas "in principle," adding like a good anti-political politician that he was "not a politician but a sol-

If young Sun is correctly quoted, his father is trying to avoid trouble with Chang by surrendering too much. He is willing to aim no higher than a "full fledged constitutional democracy," which is the worst lesson that young China could learn from the capitalist dictatorship of the Occident.

By giving the Japanese bourgeois devil a finger, the Chinese workers and peasants may lose the whole arm. So it is to be doubted if any such sickly compromise will be appreciated or permitted by the revolutionary workers and peasants who have been targets for Fascist-capitalist bullets.

True to one fact only was young Sun's utterance. He said that Canton "had no quarrel with Moscow and no reason not to be friends." Indeed, Russia is the only friend the workers and peasants of nearest auctioneer. China have.

This will be found out eventually, as will the fact that the less they lean on flexible liberals who want a "democracy," and the more they depend for leadership upon the Communists of China who are fighting for a rule of workers and peasants without sharing power with any capitalist element, nain time, it will be too bad for Sun Yat Sen.

Holy Hypocrites

The convention of the United Lutheran Church of America says, "Christians may engage in just wars and act as soldiers." It gives as reason, "We recognize the fact that sin is still in the world." But it defeated a resolution urging the church "to suppress militarism as sinful."

That this is perfectly consistent with Christianity is quite obvious. It is also quite consistent with the life and exploits of Martin Luther. Luther and his modern followers are now known to be the ones meant by the carpenter who said "He who is without sin, charge bayonets!"

Strangely enough, if sin were to justify human slaughter, Luther, pampered son of an iron foundry owner, might never have given these American hypocrites such good imperialist ethics, had the husband of Frau Cotta of Eisenach resented being made a cuckold.

But, we are told that Luther had a "practical turn of mind." He did. Altho he objected to the selling of indulgence, and raised all Germany at his protest, he later found it quite in line with this "practical turn of mind" to grant Philip of Hesse the right of committing bigamy.

The reason was exactly similar to the present Christian logic about war. "Bigamy is a bad thing and must be condemned. Nevertheless, there is sin in the world. Lamech, the heathen, and Abraham were bigamists. So in exceptional cases bigamy is justified." Substitute "war" for bigamy" and you have the Lutheran convention resolution. Anyhow, it was profitable to Luther. Princes made him presents of money and royalty was his most devoted

Why not? Luther was the pacifist-Fascist fraud, the LaFollette-Villard-Christian who talked peace to the peasants, trying to get them to bear unbearable miseries. But when they could no longer bear miseries and chose rather to bear arms, Luther issued the pamphlet in which he encouraged, nay, demanded that the ruling class massacre the peasants without mercy.

Those "sinful" peasants!
