# OF SOCIALISTS IN ATTEMPT TO

The German government, with the co-operation of the socialdemocrats, and with the consent of the social-democratic president Ebert, is endeavoring to extirpate the Communist Party of Germany in order to prevent it from participating in the German elections as the representative of the German workers in the fight against the Dawes plan, and to head off the coming German

This information has been received by the Workers Party thru a manifesto of the executive committee of the Communist International, received by cable today from Moscow, in which the Communist International calls upon the workers all over the world to rally to the support of the German workers in their struggle against becoming the slaves of the American bankers.

The Communist International calls upon the workers of other countries to hold mass meetings in protest against the Fascist attack upon the German workers and to enter with them into the struggle against world imperialism which is involved in the fight against the Dawes

## Hughes Pleads for Life of CANNON HITS Morgan's Golden Goose, AT TWEEDLEDUM The Capitalist System AND TWEEDLEDEE

By J. LOUIS ENGDAHL.

TODAY, the discredited Charles Evans Hughes, Secretary of Standard Oil in the Coolidge cabinet, is going up and down the land losing votes for "Cautious Cal."

Secretary Hughes, of the republican administration, like Premier MacDonald, in Great Britain, tried to palm off forged documents in his diplomatic war on the Russian Workers' Republic.

But in the hour that Hughes was delivering his most bitter broadside, in Chicago, against Soviet Rule, the French diplomats, at Paris, were taking their medicine, in difficult swallows, and admitting that the government of the Union of Socialist Soviet Republics rules undisputed thruout all the Russias.

The French notified Hughes last week what they were going to do. But that is as far as the French-American entente held. It couldn't stop the French imperialists from bending their knees and knuckling down before the growing Workers' Power.

Recognition by France of Soviet Rule is an admission of the defeat of the whole imperialist war, supported by France, the United States and the other Paris allies, against the Russian workers. Perhaps Hughes still has hopes of renew-

In his Chicago speech Hughes blatantly declared:

"The extreme radicals have never been able to understand why they could not have the gold eggs after the goose was killed." And again:

"The dictatorship of the proletariat is the effort to distribute the eggs that are no more."

There is no doubt good material for a crossword puzzle in this diplomatic language. But it looks as if Hughes were trying to go "Silent Cal" one better in the uttering of pure

Hughes no doubt likens the capitalist system of private ownership to the goose that lays the golden eggs. Since the workers and peasants in Russia abolished private ownership, Hughes tries to infer that industry is stagnant, that the land fails to produce, and that the Russians are on the road to "the demnition bow-wows."

But that is only a Hughes nightmare. That is as he would wish it to be; not as it is.

The golden goose of capitalism has been busy these many years working for the landlords, the bankers, the industrialists, but not for the masses of the workers and the peasants. Under that system the workers and peasants decided they were being made geese of, and they decided to have a change. They wanted to get some of the golden

It is only now, for the first time in all Russian history, that the workers and peasants of Russia are enjoying the full fruits of their labor, and building a social order where the golden eggs resulting from human effort will not go to the parasites, but to the producing many in a classless society.

Hughes claims that the dictatorship of the proletariat in Soviet Russia, that is gradually ushering in the Communist society, is a losing proposition. Of course, he has no arguments to support this stand.

If what Hughes says were true, then there would be no reason for the capitalist nations, one after the other, to yield recognition to Soviet Rule. Instead the United States is today the only great power that has not recognized the First Workers' Republic as the established successor of the czarist regime. Only within the past year the procession has included England, Italy, Norway, Austria, Greece, China, Sweden, Denmark, Mexico, Hungary and now France.

Let Hughes peddle his piffle over the land. It will lose votes for Coolidge. It will help the Communists. It will help reveal to the workers and exploited farmers what a puddinhead administration Morgan has placed in power in Wash-

It should set the rising waves of American working class protest to churning in fury against Morgan's rule; demanding not only that the United States grant recognition to Soviet Russia, but calling upon American workers and exploited farmers everywhere to rise in the struggle for "All Power": organize and struggle to establish their own Soviet Republic.

Let Hughes' plea to save the golden goose of capitalism fall on deaf ears. Let the workers and poor farmers get a golden goose of their own.

(Special to the Dally Worker)

NEW YORK CITY, Oct. 29,-James P. Cannon, Workers Party candidate for governor, has just made public the following letter sent to Norman Thomas. socialist candidate for the same office:

"My dear Mr. Thomas: In the letter issued by your campaign committee, which letter purports to be signed by 65 labor leaders of the state, certain claims are made which I beg to question.

The letter indorses your candidacy on the ground that you are supporting LaFollette who stands for cooperation between the nation and the states in the control of super-power. I notice that Smith also stands for the control of super-power. Ie seems to me that there is a very faint line of demarcation between the socialist and the democratic program, the difference in fact between tweedledum and tweedledee.

"What is more important however, and what the so-called labor leaders entirely ignore is the fact that LaFollette is beginning to back down on his demand for government ownership, a demand for which the socialists have stood for years.

"The letter furthermore makes no mention of the possibility of the formation of a labor party, which you and the socialist party have been hold. ing out as a glorious prospect to come out of the LaFollette movement All that is mentioned is a 'new party.' May I ask what kind of a party is meant? Is it to be a third capitalist party, another party to mislead the workers with high-sounding hypocritical pharses?

"Incidently I notice that ten of the 65 labor leaders are members of but one organization, the Teachers' Union. It might therefore be pertinent to ask how many of the 65 signers are acting as the authorized representatives of recognized labor organiza-

Miners Fighting For His Reinstatement

> By T. J. O'FLAHERTY. (Article Sixteen.)

While Frank Farrington was fighting John L. Lewis he could not very well afford to take on any more quarrels in his own made up, the Czar of the Illinois Miners' Union felt that the time was ripe to try conclusions with his enemies in District 12.

It was Duncan MacDonald, who bearded Gompers at the Rochester convention and gave the latter a tongue thrashing that he will remember for the rest of his life. In retaliation, Gompers sent two organizers into Illinois, ostensibly to organize territory that was already 100 per cent organized but really to organize the election campaign in the miners' union against MacDonald.

Farrington has recently compelled Local 448 to drop MacDonald from the rolls on threat of revocation of charter. This the local did under protest. Farrington had hoped that the local would give him the opportunity he was looking for, to revoke its charter, thus killing two birds with one stone, i. e., getting rid of MacDonald and also of John Watt, treasurer of the Springfield sub-district and one of Farrington's most implacable opponents. But Czar Farrington was dis-

### Liberal Press Agents

One of the most nauseating features of the present political campaign is the indecent willingness on the part of near-radical journalists to enter the lists on the side of prominent capitalist politicians and their labor lieutenants. Many of those journalists received their training in the labor movement, at the expense of the workers, but the working class organizations with a revolutionary objective and an uncompromising attitude towards the capitalist class are not usually in a position to retain the services of those whose feet they placed on the road to prominence.

While attending the Peoria convention of the Illinois Miners' Union a DAILY WORKER reporter was informed by a flourishing capitalist jour alist, once associated with the Federated Press, that he was ready to sell himself-he did not use these words exactly-to the labor press but the workers were not willing to pay as much for his services as the capitalist class. His virtue was for sale but the workers were not ready to place as high a price on it as the capitalists, therefore he sold himself to the latter.

We are prompted to make these observations on reading a Cleveland Federated Press dispatch from Harvey O'Connor, formerly of the Seattle Union Record and now a press agent for Warren S. Stone, president of the Brotherhood of Locomotive Engineers. We learn from the O'Connor dispatch that John L. Lewis, president of the United Mine Workers, has two officials of the International in Cleveland telling the story of Stone's refusal to recognize the miners' union in his Coal River Colleries company.

Stone does not deny the facts, and boastfully says that he will run his own business as he sees fit-just as any coal operator would say. Stone is lined up politically with LaFollette. Lewis is a political labor agent of Coolidge. Both are tarred with the same brush. Both are traitors to the

working class. There is no choice between them. But O'Connor, instead of telling the truth about those two worthies, enters the fray on the side of his paymaster, Stone, and quotes the latter's defense, which is not even that. The locomotive chief merely attributed Lewis' interest in the case to political exigencies.

After giving Stone's curt comment on his unionscappery, O'Connor makes the following revealing comment: "Impartial labor men are inclined to stand on the side lines and watch the battle between these two dominating figures of the labor and perhaps for "engagement."

Those who are more devoted to their pay checks side lines while the crooks battle, but always perior court, is Clarence Darrow, money making ready to be placed on either payroll. Journalists anarchist and defender of the "oppressed" for a of this type are more dangerous to the working fancy consideration. Darrow has already endorsed class movement than the avowed defenders of the last and Robert M. LaFollette as can international field, the healthy and nature of the last been opposed. The attempt by anarchist elements ments outside it, to misrepresent such a proletarian dictatorship in Soviet But some fellow workers will ex. the I. W. W. and "drive" its members of the workers, is a preposterous in vention. It is known by every intelligent worker, even slightly acquainted with historical materialism, that every political party and every form of gov ernment, is a reflection of and is founded upon the material interests of some economic class. What class pendent industrial unions in America interests are reflected in the Comwhich have been affiliated with the munist Party, if not those of the work course, have no place here, but opposition to the R. I. L. U. upon them, compels it.

A thorough consideration of principles and program of the R. J. L. U. would, we believe, result in affilia tion. There is allowance made for variation of conditions peculiar to any country. But if differences exist, the I. W. W. could and should contend for its point of view in the interna ion within the I. W. W. Affiliation would mean much benefit to the I. W. W. just as present isolation means

much limitation. Fellow workers, the revolutionary workers of other lands have too long awaited the organic solidarity with them of the I. W. W. The issue of unity is not a problem of mere aca demic interest. Daily, the contradic tions of capitalist imperialism, intensified by the world war, threaten new wars, or on pain of starvation, percipi tate great masses of exploited into ing class savagely fighting to maintain it supremacy. History compels not only the one class, the capitalist, to fight, but also the workers are driven

to bitter struggle.

In America the case is not different, mic position has given that illusion. But there is no more security. Unemployment and crisis are becoming chronic as in Europe. By enslaving Europe with the Dawes' plan. Ameri can capitalist imperialism openly an nounces its ability to reduce Ameri

W. before the working class for inaction, disunity and standing aside from the struggle? At any workers' Germany or a revolutionary China. At any moment we may be asked to submit like sheep to another world war or to turn such a war into a revolutionary struggle for capitalist overthrowal. These are questions which require an unequivocal stand from an organization which speaks of

> Upon all these questions, as well as upon the problems of the daily struggle, the R. I. L. U. trusts that the I. W. W. will find a way to unite, if not organically, at least upon specific points of offensive or defensive struggle with other revolutionary workers in America and throughout

the world. The R. I. L. U. hopes that not only this brief message may find space in the I. W. W. papers which reach the membership, but that a period of free discussion may be opened, and all points of differences with the R. I. L. U. thoroughly aired in published communications to and from both organizations. When this is done, the R. I. L. U. is confident that the revolutionary workers in the I. W. W. will, on their own initiative, unite with those who fight for the overthrowal of capitalism under the banner of the Red
