(Special to The Dally Worker) SPRINCFIELD, III., Dec. 11. John Hindmarsh of Riverton, Illinois, progressive candidate for president of District No. 12, United Mine Workers of America against the present incumbent, Frank Farrington, is leading his opponent, according to unofficial returns from the elections that were held on Dec. 9.

The only obstacle in the way of Farrington's removal by vote of the membership is the fact that he counts the vote and may steal this election as he has always done in the past.

The progressive leaders declare that no coal miner in Illinois outside of those on Farrington's payroll will admit that they ever voted for the archreactionary and agent of the coal operators. Farrington says, "I will be your next president whether you vote for me or not."

Vigorous Campaign.

The progressives in the Illinois Miners' Union have carried on a vigorous campaign against Farrington and his henchmen. In this they were given valuable aid and leadership by the Workers Party and the Trade Union Educational League and particularly by District 8, of which Comrade Arne Swabeck is organizer.

This district of the Workers Party recently published and distributed among the miners 10,000 copies of a sixteen-page pamphlet exposing the career of Frank Farington in the labor movement and particularly in the miners' union. This pamphlet and the campaign carried on by the progresstves under Communist leadership had the effect of solidifying the opposition to Farrington and his lackeys.

Company's Attempt to **Run Scab Train Fails**

(Special to The Dally Worker) SPRINGFIELD, III., Dec. 11.-Efforts of Mayor S. A. Bullard of this city to induce the 350 striking employes of the Illinois traction system to return to work again failed yesterday.

The strikers insist that they be paid time and one-half overtime for all work over ten hours and demand a closed shop, They have refused to listen to proposals of the mayor and Springfield chamber of commerce that the men return to work and then arbitrate.

Strikers Surround Scab Train.

A passenger coach was operated from Litchfield to Staunton Monday night by a non-union crew. A crowd of several hundred strikers and sympathizers surrounded the car and its crew on its arrival at Staunton, and insisted that the car be returned to the Litchfield barn and kept there. The car was taken back to Litchfield and no further efforts to use strikebreakers have been made.

At the main office of the Illinois traction company at Springfield, the company denied responsibility for the running of the car. Company officials claimed the car was taken out of the barn without their permission, "probably by joyriders." Strikers, how ever, declare that the car was run to try out sentiment of the population in the towns affected by the strike.

Long Records of Strkebreaking. Superintendent D. W. Snyder, who is representing the company in negotiations, has a long record as a vicious strikebreaker. Snyder was formerly manager of the traction system at Bloomington. He was responsible for the historic Bloomington street car strike of 1917, which was marked by violence and bloodshed incited by gunmen imported by Snyder.

In the Bloomington strike these professional strikebreakers tried to do their stuff in the usual fashion, and there were several clashes between the strikers and the hired gunmen Bloomington unions raised \$3,000 tc defend and exonerate several of their members indicted by a packed grand jury for alleged rioting. The Bloom ington carmen now have a 100 per cent union as evidence of Snyder's incompetency as a strikebreaker. It looks as tho the running of the car to Staunton were some of Snyder's handiwork.

Further negotiations are expected to take place today either at Peoria or at Springfield.

The following manifesto, exposing and opposing, the nefarious plots to set the peaceful peoples of South America to mass murder of each other over some trivial question of "national honor" or disputes concerning boundary lines, was published in Mexico City during the sessions of the Pan-American Federation of Labor, creating a sensation among the delegates and among the workers of all Latin-America.

A Call to the Workers of Chile and Peru

Yankee Capitalists Foment War Between the Latin Nations in Order to Weaken and Conquer Them

Comrades!

In the name of all the workers of Latin-America, who suffer so keenly from the crimes of Yankee imperialism, we address this call.

The principal obstacle to the definite and complete triumph of Yankee imperialism the power not yet weakened, of Argentina, Chile, Brazil and the other countries of the extreme south. In order to nullify these forces, and to extend its tentacles over the rest of Latin-America, to do what it has done in Mexico, Central America and in the northern part of South America, the octopus of Yankee imperialism is preparing fratracidal war between Chile and Peru and between Argentine and Brazil.

The newspapers of November 26 inform us that there have been firing between Peruvian and Chilean soldiers near Teela. This act indicates to what degree the sinister forces of imperialism have advanced the realization of their plans.

Pretending to be an "impartial" arbitrator in the dispute over the provinces of Tasna and Arica, the North American government, at the same time, has ordered Admiral Woodward of the Yankee navy to Peru, together with many other officers, "to reorganize the army and navy of the country."

The same action has been carried out in Brazil, ordering Admiral Vogelsang, and fifty officers in addition, to prepare Brazil for war against Argentina. Not that Yankee imperialism is more favorable to Brazil than to Argentina, neither prefering Peru to Chile, but that it wishes to break the "A. B. C. Alliance" (Argentina, Brazil and Chile), and to provoke at all costs these wars, in order to wipe out the last obstacle which obstructs its victorious march toward continental imperialism.

The only hope of saving Latin-America, of rescuing Peru, Chile, Brazil and Argentina from arriving at the same condition as Santo Domingo, Haiti, Nicaragua, Mexico, etc., is action, resolute, immediate and overwhelming, of the workers of these countries in order to stop the imminent war and unify the forces of all the continent against our real

The false patriotism that foments militarism, the agents of Yankee imperialism in Chile and Peru, will betray these countries into serfdom to the House of Morgan.

Now is no time to be feeding old rancors over battles won or lost by the bourgeois armies in long gone years. The danger is not in the past, but in the future, and in the present.

If the Chilean and Peruvian governments lend themselves to these maneuvers of the United States, the workers of both nations must make immediate demonstrations against imperialism and against those governments, overthrowing them if necessary.

The future of all the workers and peasants of Latin-America trembles in the balance. Tomorrow will be too late. Begin the demonstrations today! All Latin-America calls-

G. P. P. A. LEADERS **MEET TO DISCUSS FUTURE POLICY**

Johnston Says Time Is **Ripe for New Party**

WASHINGTON, Dec. 11.- Leaders the progressive movement which ported the independent presidential candidacy of Senator Robert M. LaFollette were gathering in Washington today for the opening tomorrow of the executive committee of the conference for progressive political action:

Under instructions from its conven tion last June, the committee is charged particularly with making recom mendations on the establishment of a permanent new third party in the United States.

Four Problems.

Four major things are to be consilered by the committee, William M Johnston, chairman, and the president of the International Association of Ma chinists, announced today. These are: 1. Issuance of a call for another national convention of the conference. 2. Review of the LaFollette campaign.

8. Recommendations for the estabishment of a third party.

4. Recommendations for participation in national and state elections. Thinks Time is Ripe.

Johnston himself expressed belief hat the LaFollette campaign demonstrated not only the need of a new political alignment, but that the "time now is ripe for the launching of a new party movement, a movement composed chiefly of the American workers and other progressive minded citizens of the country."

LaFollette who, because of a cold may not attend the sessions, but will be in constant consultation with comnitteemen, holds practically the identical view and will bend every effort looking toward the permanent establishment of the new movement. He will oppose, however, any move by the committee other than drafting recommendations to be laid before the next convention for approval. He believes that the convention itself, not the committee, should be the body charged with definitely bringing out and giving life to the new party.

Sam is Now Safely Dead. Action of the American Federation of Labor at its El Paso convention in flatly turning down appeals to unite with a third party, will not in any way halt efforts to lay the ground work for the new movement, Johnston said.

"We did not want the endorsemen of the federation," said Johnston, "al ho we realize that the backbone of our movement will be supplied by the working classes. This is to be a movement of individual men and women, not of organizations. This is not to be strictly a labor party."

Socialism in Germany **Reveals Itself As Twin** Brother of Fascism

By J. LOUIS ENGDAHL.

TODAY, an echo of Herriot's attacks on the Communists

in France, linked with similar moves thruout Europe to pave the way for the Dawes' Plan, is heard in the announced intentions of the German "socialists" to join what is called "the great coalition government."

The recent reichstag elections didn't result in much change in the reichstag make-up. But results will be secured thru the changing attitudes of the various parties, notably the "socialists."

The "socialists," Scheidemann, Breitscheid and Lobe, now declare that the "socialists" must enter the government of the capitalist republic, even tho it contain Stresemann's people's party, with its monarchistic inclinations.

Hitherto the "socialists" have timidly refrained from joining in a bloc with the party of the late anti-labor industrialist, Hugo Stinnes. But it is now ready to take the plunge. The anti-Communist coalition, to chain the whole German working class, to Morgan's chariot, must be built at all costs. What an aggregation: "socialists," so-called democrats, center (catholic), and the people's party (in-dustrial-monarchist), with its Ludendorff wing of extreme fascism.

The only difficulty is, not that "socialists" will fall into line with Morgan's wishes, but that Stresemann's crowd may refuse to mingle with the "socialists." While the "so-cialists" are ready to surrender the German workers to the Wall Street banking interests without a fight; Stresemann's crowd holds out for a high price for Cerman capitalism. Stresemann wants to be chancellor at the head of a coalition that would include the nationalist (fascisti) party. Streseman as chancellor would put up a struggle in the interests of Germany's industrial overlords against the new demands that will arise under the carrying out of the Dawes plan.

This situation reveals all parties, from the "socialists" on the left, to the extreme fascisti on the right, ready to protect the interests of the bourgeoisie. Only the Communists stand forth as the champions of working class interests; as the leaders of the laboring masses in their bitter struggles.

The "socialists" are clearly revealed as a wing of fascism. In fact, the German social-democracy and fascism stand forth as twin brothers. Fascism does not object to an alliance with the social-democracy. But it insists that "socialists" come into the alliance on the fascist terms laid down for it. And that the "socialists" will do. The tenacity with which the Scheidemann-Ebert social-democracy clings to the German bourgeoisie is reproduced in miniature in the death-grip with which the Hillquit-Berger "socialists" in this country hang on to the LaFollette movement.

In England there is a growing opposition to the Dawes plan among the workers, even among its most reformist sections. This opposition is not so pronounced in Germany, altho it is growing. The results of the recent German elec-tions shows that large numbers of German workers still harbor the hope that they may get something out of the Dawes plan. This can be the only explanation of the slight recovery in "socialist" strength in the reichstag, altho the "socialists" met with a big reverse in the elections to the Prussian diet, while the Communist gained.

Discussion of Our Party's Immediate Tasks

WAR AGAINST OPPORTUNIST CONFUSION

By EARL R. BROWDER.

"Organized confusion" is the out- party of the workers. standing characteristic of the thesis Minority Wants Two "Class Parties." of the minority. It is a perfect illustration of what the thesis of the C. E. C. Let us briefly prove this in such a party would be an expression their own words.

Minority Identifies Political Action With Parliamentarism.

The majority thesis states the Communist position that the whole class that is, it is part of the working class tion of "syndicalism" against the mastruggle is a political struggle, and acting. But that means nothing in a that the purpose of the united front political sense. "Class action" of the is to engage in all struggles of the workers becomes something more than workers to sharpen and develop the a phrase only when it is action directpolitical aspect and thus bring the ed against the capitalist class, that is, workers closer to Communism.

The minority, on the other hand, contends that the only possible kind lusions of the masses, of the idea that of political action, on the united front by electing a few "labor" leaders to basis, is in the form of a farmer-labor office they can make the world suitable party. Such an idea has no sense or for the workers to live in. logic at all, unless we start from the social-democratic conception that par- sion, "class political action"? The minority says that the central workers," we call a halt. This is the task of the Workers (Communist) worst kind of confusion masking the Party is to build another, non-Communist party. If we of the majority are accused of not being Communists, but syndicalists, we may be permitted the privilege to inquire into how far to the right our comrades of the minority have moved that they feel we are so far to the left as to be "syndicalists." But then, on the other hand I never was an anarchist, whose mind the Russian revolution could change only a very little, nor was I a parliamentary socialist whose mind neither the revolution nor anything else has been able to change at all. The Com-

munist veneer which has been laid over the comrades of these two seemingly opposite tendencies, is now showing cracks wide enough, that looking thru the rents of the party discussion, their remarkable similarity is distinctly noted. Fight Both Deviations! There is an essential and fundamen-

tal connection between the anarchist and the social democrat in their conception of what "independent working class political action" is. Comrade Lenin has said that "Anarchism is a punishment laid upon the labor move ment for its reformist sins." And I was about to add another article to the many I have already written against the I. W. W. conception of political action," when-lo and behold! I find it more needful to write one against the reformist parliamentarism which is showing itself in our party and at the head of our party. "Political action means voting and participation in elections and capitalist parliaments and nothing else," say the anarchist leaders of the I. W. W. 'We are organized for a political func-

tion, which means participation in electoral struggles for the seizure of political power. We are not syndicalists!" shouted Comrade Minor on the evening of November 20, 1924. He was clearly supported by Comrade Ruthenberg, who at that meeting apparently understood that the "Twenty-one points" of the Comintern were points of parliamentary procedure.

No Disagreement Here!

Nothing else is "political action" to Comrade Bedacht. "As for the rest," he says after Cato, "the syndicalists must be destroyed. The next exhibit is Comrade Powell, who is filled with as much rebellion against centralization and discipline as an anarcho-syndicalist I. W. W. What Lies Behind Farmer-Laborism. Whether or not we shall have a farmer-labor party ("mass" or "class" -you may take your choice), or even whether or not there shall be a slogan for these apples of Sodom, is becoming an issue which, tho of grave importance, is exposing the graver issue of whether or not we shall have

a Bolsheyist party, or whether we shall be delivered over to a social democratic morass of "vulgar parliamentarism"-which is where the comrades of the minority are leading is, consciously or unconsciously. See, for example, the generous scorn for a "pure Communist program" and for the slogan "Forward

to the Soviets," as expressed by Comrade Pollack. Then there is Comrade Lovestone, who has the same success with Mahoney that Mahoney had with the C. P. P. A. Comrade Lovestone testifies (under Marxian oath as all reformists do who must find Communist ground for non-Communist action) that when we catch him trying to shove our party into the maw of a petty bourgeois farmer-labor party, that he is only pulling us out!

Yet Comrade Lovestone is so completely a "vulgar parliamentarian" that he cannot see any political move ment outside of a party, and a farmerlabor party at that! He deigns to mention the Workers Party twice in his article of December 3, in which he says:

"These comrades (the majority) would have us believe that the hundreds of thousands of farmer-laborites of yesterday don't want and are not interested now in another political movement."

The Nebular Hypothesis of Farmer-Labor Parties.

Political slogans in strikes were declared to be out of order, as in the instance of the Garment Workers' strike in Chicago. THE trade union movement also is very much indebted to Lenin.

First of all because he has determined The unfairness of this attitude was the correct place to be occupied by cases that this idea of the independence of the unions from the political movement of the proletariat in reality means independence from revolutionary class politics, that the anarchists and reformists by preaching the idea of the independence of the trade unions are merely serving the interests of the bourgeoisie.

Lenin looked upon the trade unions as the elementary units of working class organization, "as the place where the masses are trained in organization, in collective management and in Communism." He was at one and the same time opposed to overestimating as well as under-estimating the importance of trade unions. He always insisted upon the necessity of taking part in these mass organizations, irrespective of the nature of their leadership. Here you have it. This is what they do to us whenever an opportunity arises. For ten days Chicago literally shook while it was being soaked, day after day, with this yellow filth.

This yellow filth contained a bit of truth, of course. That's what they hang their lies upon. That Chicago is a hotbed of red propaganda, true! That Communist are, from tip to toe, for Soviet Russia, correct! But that we plotted to slay public officials; made bombs in either dunes or flats or any place; conspired to assassinate President Wilson-this is foolish fiction, ridiculous rot.

We had the DAILY WORKER. And in a minute we were on the job covering their yellow with a bright coat of red. Upon large posters and in our daly we told the workers that Communists were not to be found under beds or in dark alleys, or in the woods.

He delivered the labor movement to the House of Morgan in 1917. He waged war on every working class foe of imperialism, was the most bitter and outspoken enemy of Soviet Russia in America and crowned his labors, a few days before his death by handing over the Mexican labor movement, tied hand and foot, to American imperialism.

He fought against the socialist party before it betrayed the working class during and after the world war, and when the Workers (Communist) Party became the revolutionary vanguard in the United States, he formed a united front with every agency of capitalism against it.

(Continued from page 1) and luxuries to boot. The duches was received in the metropolis with referred to as "Your Highness" by the jaded parasites of Fifth Avenue who attended the ball in Sherry's in honor of the czarist female. The writer once knew of a Scottish chief who lived comfortably for several years on the moneved aristocracy, from the Back Bay in Boston to the fashionable sec his kilts. A grand duchess should not strings of social parasites, with royalty always in America as long as the American workers are willing to be slaves.

OUR old friend, J. A. Lochray, editor of the Mid-West News and one of the enthusiasts for a farmerabor party when such a proposition was popular among the masses, does not seem to have prospered much from his lightning change political twists. First Lochray supported the farmer-labor party. Next he supported LaFollette, perhaps a little, but he damaged his virtue nevertheless. Then he came into Chicago and ganization. The G. O. P. took him for sc much on the hoof. He immediately declared for Coolidge, and opened fire a radical, tho Lochray, a few weeks prior to his sale on the Chicago market, put LaFollette down as a reactionary.

THE latest copy of Lochray's paper to reach us is reduced in size and carries the announcement that hence forth it will appear monthly instead of weekly. It carries a front page story boosting the policies of the bureaucrats of the American Federation of Labor at the El Paso convention. On one of the inside pages it publishes a fake "special" from Chicago to the Mid-West News, denouncing the Workers Party manifestos on "Education Week." Lochray has sunk so low that only unusual ingenu ity will enable him to go down farther. It is rather consoling to know that his perfidy has not added to the sum total of his material comfort.

Next Sunday Night and Every Sur day Night, the Open Forum

We told Chicago that we were quite perceptibly located at 1113 West Washington Blvd., and that there wasn't a "keep out" sign on or in the building. The same sun that shines on the Daily News and its brothers in the corrupt chorus of capitalism also shines en us. We told the workers that if they wanted to learn ALL about us, to read the DAILY WORKER daily and not the enemy press, the Daily News.

Our only bombs are the propaganda in the DAILY WORKER.' And this dynamite we do not intend softening one bit. With this dynamite we helped silence the Daily News. About a week, and the Daily News closed its columns to this yellow dope. It had discovered that it did not pay.

BUT SUPPOSE WE HAD NOT HAD THE DAILY WORKER? Then what? Confronted with these questions is what compels us to make this campaign to INSURE THE DAILY WORKER FOR 1925 a "must" campaign. We MUST make the DAILY WORKER safe so that it will always help us give battle in all our struggles with the yellows.

Do you seriously wish to increase the effectiveness of the DAILY WORKER? Do you demand that it live and increase in power? Are you in earnest in this fight against world imperialism and that section of it that abides in this country? Are you with us? You answer these questions in the affirmative today by a generous purchase of INSURANCE POLICIES.
