# Fisher Auto Workers in CHICAGO FEDERATION OF LABOR **Detroit Fight Wage Cuts**

DETROIT, Mich., July 12.—Another wage slashing campaign that beats anything for sheer nerve and disregard of the welfare of the workers has been started by the Fisher Body corporation at their Plant 18. Recently, a series of wage cuts were announced, so drastic as to cause an entire department to go out on strike 100 per cent and has created a feeling of most bitter resentment thruout the shop.

ceived the following wage cuts: On Dodge sedans they were cut from \$2.50 per car to \$1.00 On the Amalgamated Clothing Workers at the International Tailorthe Buick sedans they were cut+

## Barefoot's Barefaced Lie

The announcements of these wage uts Wednesday evening so angered a large department of over 100 men, that they refused to go back to work Thursday morning and they have been on strike ever since. The superintendent, Dave Barefoot, told them when they walked out that they would be paid off and none of them would be re-employed by the firm. captain at Fort Shafter. Officers Mistreat Soldiers

The sentences of Comrade Walter M. Trumbull and the writer, the they have received considerable publicity, hot exceptions to the policy of military authorities regarding soldiers who dare think for themselves. Hundreds of men guilty of no crime are enslaved and tortured in disciplinary barracks and penitentiaries. The punishment inflicted by courts martial for trivial offenses is so great. that many victims are driven to desperation.

It is almost impossible to bring an officer to account for crimes against soldiers. In a recent trial at Scho-field Barracks, an officer, who stuck a prisoner in the back with his sword, was found "mot guilty" by a court martial after only five minutes con sideration.

Prisoners At Officers' Mercy For the purpose of being shown to "investigators," prison regulations are prepared which state that prisoners are to be worked about seven and a half hours daily, are to receive all mail. (except that money is to be kept in the hands of the prison officer) that they are to have reading, matter etc.

In reality, the prison officer is the law and prisoners are at his mercy. As an example, at the 85th Infantry guard house, no reading matter is per mitted. Newspapers intended for prisoners are opened, read and destroyed by authorities.

## Prison Tortures

Men in the guard house not only work during the day but also for two hours after supper. When they protested against this abuse, the Colonel told them that if they refused employees, barmaids and barmen, and to work after supper he would force brewery employees are out on strike them to work without shoes and force All cafes and hotels are closed, and them to sleep without matresses and blankets.

When he protested to the regimental adjutant, the offi cer remarked: "I am sorry there are no rats to eat you."

## Another Communist Prisoner

A typical case of army brutality is that of Richard Agnelli, sentenced to two years imprisonment at hard labor. The charges against him were that after being deprived of his dinner, he refused to work without eating and when ordered to do so, said: "To hell with the god damned officers and the god' damned army."

Agnelli, who is a Communist. wishes. to hear from his brother, Paul, an agent for the Daily Worker, Novy Mir, and ... other Communist publications. Mail for him should be sent in care of his wife, Mrs. R. J. Agnelli, 4123 Kamehameha IV Road, Honolulu, Hawaii.

EXECUTIVE BOARD CHICAGO FED-ERATION OF LABOR.

(Signed) John Fitzpatrick, Pres.; E. N. Nockels, Secretary. At Local 113, Tool and Die Makers member of the left wing made the following motion, which carried:

"I move that the delegates to the Chicago Federation of Labor be instructed to request the Chicago Federation of Labor to condemn the action of the United Garment Workers in scabbing on the Amalgamated Clothing Workers who are on strike."

Reports state that the Federation passed the resolution as a reply to the formal complaint sent Fitzpatrick by the Amalgamated Joint Board of Chicago on July 1st.

Saturday was a busy day, as usual, for the pickets and for their enemies the scabs, tho the latter were so few that great rivalry developed among the strikers to see who could get at a scab first.

## Scab Missed Teeth

Somewhere between her scabby home and her scabby job, a scab lost her teeth Saturday morning, and altho accompanied by a few cops and a private slugger she rode around the block in an auto for an hour or so. looking for two girl strikers she thot might have found her teeth. She was unsuccessful, and so drove off to get some new ones from the dentists.

The St. Louis strikers are taking part in the picketing, singing some songs they cooked up in that city and wearing their buttons "Curlee-We Are Out to Win!" Their enthusiasm was good but not altogether necessary, since the Chicago strikers don't need any inspiration or prodding. Their spirit is high and full of fight and they expect the Amalgamated union to win by their solidarity. The union has reported arrangement for financial re lief.

## **Five Arrests**

Picketing was carried on Saturday un til 2 p. m., then only a small committee was left to make sure that if there wore any scabs left to sneak out there would be someone left to wel come them. There was some doubt expressed if there were any scabs left. Five pickets were arrested Saturday among them Mary Despensa and Dom inick Convera.

Japanese "Big Biz" Well NO WAGE RAISE Schooled in Bandit Lore AND NO STRIKE of World Imperialism SAID COMMISSIO

# By J. LOUIS ENGDAHL.

TODAY, the Japanese pour out their grievances against American capitalism thru the medium of the Institute of Pacific Relations ending its meeting at Honolulu, Hawaii. The delegation at the institute for all purposes is official in its character and is in constant touch with the government at Tokio. It is the only delegation that occupies this position.

The Japs want it understood that they are not so much troubled by the exclusion act passed by congress a year ago. They claim this is not the real issue that is fomenting strife between the two countries.

The actual stake is the place of capitalist Japan among the other great capitalist nations, notably the United States, "whatever the Japanese nation stands on an equal footing with western powers or is to be denied fellowship and driven back upon a purely oriental policy and theater of operation,' in the words of Yusuke Tsurumi, semi-official spokesman of Japan.

Tokio has ambitions for world empire and world domination, just as much as Washington. The Japs at the Honolulu conference urge a gentlemen's agreement for the plundering of the world, declaring that if this is not granted the Japs, it will give strength to a new party rising in Nippon that will resort to the sword to win its rightful place in the sun, as it believes.

The Japs give thanks to the United States for having opened it to capitalist "civilization" eighty years ago, in 1346, and not only introducing steam engines, telephones, parliamentarism and laboratories, but also armaments. After three centuries of peace, the Japs now boast of having won three international wars during the last half century, giving her, as she feels, not only supremacy in the Orient, but also the right to a big place in world capitalist councils. Here, for instance, is one of the questions that the Japanese are asking:

"What is the moral difference between the policy of America's extending her dominion over the Garibbean, protecting her capitalists and Latin-American investments, and the policy of Japan in widening her sphere of empire in Asia and supporting her capitalists in their forward-looking enterprises?"

## . . . .

It seems that the Japanese plutocracy has learned too well. It realizes to the full and admits what the "democratic" statesmen of the United States try to hide, that the capitalist state is but an instrument in the hands of the imperialist oppressors.

The Japs feel that they have a primary right to the Orient as their sphere of influence, believing that the United States should confine itself to its own western hemisphere. But when the American fleet left Chinese waters and sailed down into Manila Eay, in 1898, and won the first battle of the Spanish-American War, not in West Indian waters, but in the far-off Philippines, the war clouds sailing the stars and stripes began to loom on Japan's horizon. And they have been coming closer ever since.

The pacifists gathered in the Honolulu talkfest were bluntly told that "there is a large and powerful party in Japan that confidently expects the United States to challenge Japan's economic advance on the mainland of Asia as a hostile move," and that means war.

There is only one power in the United States and Japan that can halt the inevitable slaughter, and that is the joint power of the workers and poor farmers of these two countries. Against the imperialist rivalries of both countries there must rise the irresistible solidarity of the toiling masses of both countries, rising in both countries to displace the contending capitalist dictatorships with their own co-operating Proletarian Dictatorships. There is room for but one flag in the Pacific, as in all the other oceans over the earth. That is the Red Flag of Communism.

at aschofield Barracks reopened and prisoners sent there instead of to the mainland. To the soldiers in Hawaii. the Schofield stockade is a synonum of hell. Before it was closed, a few years ago, the brutalities perpetrated within its grim walls could be equaled, only by going back to the days of the Inquisition.

The cruelty of Capt. Hall, the prison officer, would have put Nero to shame. Hall felt secure as he had the support of Gen. Kuhn, then commanding the Hawaiian division. Prisoners were forced to work long hours at the rock pile, using a heavy hammer with a nocked handle so as to cut the hands. They were marched to and from work at double time, forced to stand at attention from supper until bed time, and to get up at four o'clock in the morning.

When a prisoner fainted at work, a bucket of cold water was thrown in his face and when he regained consciousness he had to pick up the heavy hammer and continue with his labor. For those driven to desperation who refused to work under such cruel conditions, a much worse fate was in store. They were sprayed with formaldehyde. One man died as a result of burns from it. Three others lost their sight.

After these conditions had existed for a long time, details reached the war department. This was too much for those accustomed to the milder form of military autocracy found on the mainland. An investigation was held and the stockade closed.

The only punishment for Kuhn was a transfer and a slight reduction in rank. Capt. Hall is said to have been killed by one of his former victims after his return to the mainland.

Rewarded For Murders I believe that a commander in the Red Army guilty of such crimes as those sanctioned by Gen. Kuhn could hope for nothing better than life imprisonment. But an army under the

# JAPANESE IMPERIALIST DIPLOMAT HANDS OUT HOKUM TO STUDENTS; KOREA AND CHINA HIS SUBJECTS

## (By Student Correspondent)

"Our policy toward China is one of strict non-interference. We are concerned to protect our rights and interests in China, but in common with the other powers we wish to extend every aid to uplift and regenerate not only the Chinese, but also the Koreans. It is doubtful whether the annexation of Korea was good for the Japanese, but it was certainly the best thing for the Koreans. Thru our benevolent rule we guarantee them security of life and property."

With such hypocritical twaddle about the altruism and benevolence of Japanese imperialism toward her weaker neighbors. Count Soyeshima dealt with his subject, "Japan's Policy in the Far East" in a lecture delivered

delivered under the auspices of the + Harris Memorial Foundation at the University of Chicago, July 9. CHINESE BOSSES ARE

## Just a Past Mistake

When charged in the questions, after the lecture, to explain Japan's lending of money and supplying of arms to two different factions of the Chinese, and to justify the massacring and devastating of the Koreans to put down their rebellion, his most benevolent highness could only plead that these were mistakes of the past.

Never again would Japan act toward China or Korea in any but the most kindly and disinterested attitude of helpfulness. Yet he admitted that Japan's interests in China must be protected, and there is only one way to protect imperialistic interests in an unwilling country; Japan has in the past, and will undoubtedly in the future take that way-which is the way called duress, and means force, bombardment, killing.

Should Be Grateful to Oppressors

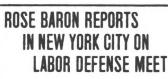

The count is of the opinion, too, that the Koreans, far from resenting their bloody annexation by the Japanese. should feel the deepest gratitude, because think of the horrible fate which would have befallen them if Czarist Russia instead of Japan had annexed them, and they had been inherited by the Union of Socialist Soviet Republics!

The count did not explain just what was so undesirable about the position of autonomous republics enjoyed by the Kurds, Kirgiz, Azerbaidjans, and many other Asiatic peoples, under which status the Koreans, too, might now be thriving.

"Of Course" We Don't Know!

When called thru a question to give some proof of his bland assumption that Japan in keeping Korea out of the Soviet Union had saved them from some horrible fate, the glib nobleman matched his ridicolous idealization of Japan's foreign policy with an equally crude and even more false representation of the iniquity of the Communist regime in Russia.

His statements that "of course you all know that the government of Russia is perfectly rotten, that the people are starving, and that they are living under the worst tyranny the world has ever known" was accepted only by those persons in the audience who. expressing admiration for the count's wonderful "fairness," rode rapidly away in their limousines. The students, who were in the large majority quite evidently knew better

# POLICE OF NEW YORK AID SCAB YELLOW TAXI CO. Fight in Court on Hylan's Perfidy

NEW YORK, July 12 .- The decision of the appellate division, that the amendment under which the home rule act and other statutes were passed is illegal, will cost Mayor Hylan, if it stands, not only his busses but many other of his pet projects which were written into law by virtue of the amendment.

One of the laws passed was the notorious taxi police law, which gave to Police Commissioner Enright, the power to control the taxicab industry in this city. This law was passed, altho all the taxicab drivers had held meetings and protested against the passage of the law.

One of the bitterest opponents of this law was George Obrien, known amongst the taxi drivers as fighting George Obrien, president of The Amalgamated Taxi Owners' Association. Obrien charged that if the law was passed that the open shop Yellow Taxi Corporation would be the sole beneficiary of the new law and offered to show proof that the police department had been showering the yellows with all kinds of favors in the past and that if the law was passed the independent taxi cab drivers would be discriminated against.

Mayor's Relative a Yellow. He did prove that Carrol Sinott, Mayor Hylan's son-in-law's brother was employed by the yellows, as a traffic manager.

The law was passed after a bitter fight, and what do the taxicab drivers discover. Every day a new order is issued from the commissioner's office, taking away what rights that they did have under the old laws, the most recent order issued to these exploited clean shirts, a white collar and a tie.

## Police as Taxi Inspectors.

Strife Founded in Perfidy.

Seed from which the contentions are growing was sown when the L W. W. order was outlawed by the California legislators. The A. F. of L. was be-hind the legislative action. Capitalists took the "credit" which was due the A. F. of L. If the latter had not approved, there would have been no Branch No. 6, 3,000. Besides this law against the L W. W.

The animus was jealously blind and inscruptious. When membership in the California I. W. W. numbered 40,000, as compared with 100,000 in the A. F. of L., the big organization decided to knife the smaller. It was as Rome against Carthage, war to the death.

French Bankers Guilty During the debate on the granting of the Moroccan credits the Communist deputy, Cachine, declared that France was guilty of all the bloodshed in Morocco, and that Abd-el-Krim was fighting for the application of Wilson's doctrine of self determination of all peoples.

Deputies of the right parties demanded that the government "put all Communists in prison for treason.' Painleve declared he would "deal iwth the Communists as far as the law allows." He added he would "keep the tri-color flying over Morocco in defense of the sovereignty of the sultan and civilization."

That Painleve is 'keeping the tricolor flying,' in defense of the French bankers is further shown in the fact that the Spanish millionaire Horace Echevarietta, and other capitalists were entrusted with the mission of delivering the French-Spanish "peace terms" to Krim. It is known that these terms will not be accepted, as Krim is ordered to accept a Spanish protectorate, which he has refused to . . .

Fresh Credits Won't Help Much. PARIS, July 12.-Supported by a fresh credit of 183,000,000 francs and the assurance that French and Spanish conferees had reached an accord in Madrid, the Painleve government

which a few days ago placed a new commander over the French Moroccan troops was today preparing for a campaign of renewed intensity against Abd-el-Krim and his Riffian tribesmen. But the terms of the agreement are not wholly reassuring. Already of report, there were many challenges ficial Paris is convinced that Abd-el-Krim, flushed by his successes in withstanding the assaults of the world's foremost military power, will ask for betetr terms than those pro-

Abd-el-Krim is expected to refuse the joint French-Spanish proffer of Riffian autonomy under a Spanish protectorate. If he renews his old proposal to accept autonomy under a

French protectorate, he will seriously embarrass the Madrid accord for the rebellious Riff territory is under Spain.

Communists Stress "14 Points." Not the least of the embarrassments here at home is the revival by the French Communists of the late President Wilson's fourteen points with their stress upon "self-determination of small peoples." That is a phrase which has bothered the chancelleries of Europe ever since its author first pronounced it. French Communists are using it today to the discomfiture of those who are responsible for the Riff campaign.

Spain is undertaking new negotiations with the Riffs according to the Midi which today said: "Gen. The British Trade Union Delegation to Soviet Russia in a unanimous report has told the story of the Russian Revolution in language that trade unionists can understand.

It is wonderful in its dignified British fashion unhurried, careful, restrained. documented and beautifully dispassionate...

It is a great story, told in matter-of-fact language, the story of millions of workers and peasants marching towards Communism over all obstacles; it is history hat with the breath of the struggle in the style of a convention report. . .

# MCROWISM IN NATIONAL DEFENSE CONFERENCE. HELD IN CHICAGO ON JUNE 28th **UNANIMOUSLY ADOPTS RESOLUTIONS**

The resolutions printed herewith were unanimously passed by the more than one hundred delegates present at the National Conference for Labor Defense, held in Ashland Auditorium, Chicago, June 28. These represented workers organizations from all parts of the country and were called together by the Labor Defense Council to unite all forces in the labor movement against persecution of workers and for defense of all class war prisoners regardless of political opinion or industrial amiliation.

The Conference founded the International Labor Defense, an individual ress, 19 S. Lincoin St., Chicago, has intercontenence requires the interaction that is to undertake the role of champion for all workers attacked by organized capital irrespective of their faith or affiliation. A National Committee of 37 was elected upon which are many prominent figures in the labor, radical, and liberal movements of this country among whom are Eugene V. Debs, Upton Sinclair, Bishop William Montgomery Brown, Fred Mann, Ralph Chaplin, Scott Nearing, Wm, Z. Foster, Benjamin Gitlow and Ben Fletcher, Andrew T. McNamara of Pittsburgh was elected chairman of the organization. E. C. Wentworth, vicechairman, and James P. Cannon of Chicago the secretary,

At the conference 25 local trade unions beside central labor bodies, work ers' defense organizations and labor fraternal and benefit societies totalling a membership well over 200,000 were represented by delegates. In addition scores of endorsements came from workers' organizations and prominent individuals throout the country who could not be represented there.

The resolutions that follow were passed by the conference in the nature of instructions for work to the officers of the International Labor Defense and taken as a whole, comprise a complete program,

1. The Fight for Release of Class + War Prisoners. THE fight for the release of the

I imprisoned fighters for the cause of labor is one of the most import ant problems on the agenda of the

American Labor movement. Every worker in prison for the "crime" of loyalty to his class represents a victory for the capitalist exploiters and an injury to the workers. The con-

tinued confinement of so large a number of the most conscious elements of the working class without any real protest against it, is of itself a sign of weakness in the labor movement. The indifference and neglect which characterizes too large a section of the labor movement in regard to this burning question is a great danger to the movement as a whole. It encourages the exploiters of labor and their subverted "legal"

and "illegal" agencies of persecution to go ever farther with their methods in Polish and Russian. The foundaof terror, while, at the same time, it weakens the morale of the workers. It must be recorded, to the shame of the labor movement that Mooney and Billings, victims of the most atrocious frame-up in all labor history, still languish in prison. Sacco and Vanzetti, courageous fighters for the

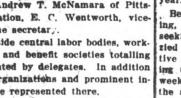

working class, still stand in the shadow of the gallows. Rangel and Cline and their comrades who went into Texas prisons in the best years of their youth have already spent more than twelve years there. Ford and Suhr, intrepid leaders of the Wheatland hop pickers' strike, have already paid for their courage and devotion to the workers with a dozen years of imprisonment. The I. W. W. men who defended their union hall in Centralia, Washington, deserve the

gratitude of the whole labor movement, but their reward are long terms of imprisonment. Scores of workers in California have been thrown into San Quentin and Folsom prisons for the crime of belonging to the I. W. W. CROUCH and Trumbull, soldiers in the United States army, expressed

their sympathy with the cause of the colonial workers in Hawaii and declared their solidarity with the revolutionary workers' movement. It cost

Fred Merrick and nine other Communists are facing trial in Pennsylvania on the charge of "sedition" for circulating working class literature. The labor movement must be awak-

Better America" Order **Declines** Apace

LOS ANGELES, July 12 .- The year nded June 30, 1925, showed a marked falling off, of subscriptions to the Better America Rederation, which has its headquarters in Los Angeles and advertises that "it operates in 38 states," Figures indicate a decline of 41 per cent as compared with the preceding year.

Because of the unfavorable show ing, the organization is frantically seeking funds. It is carrying on frem zied advertising, urging on prospec tive subscribers the need of contributing to counteract Bolshevism. Its weekly "news letters" almost concede the speedy overthrow of the govern ment by the Reds. '

The \$5,000 in prizes recently given to boy orators by the federation for lauding the constitution brought in many times the amount in free a/ver tising through the Los Angeles dailies but did not bring in subscriptions to correspond. Heads of the organiza tion act as the they feel that they have yet to get their money's worth out of the \$5,000 given away.

Causes of the Falling Off.

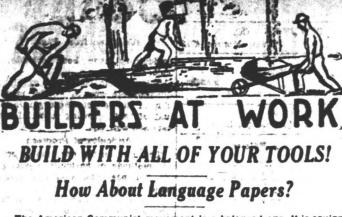

If the coming year goes like the past, the federation will have cause to lament the building slump of 1924, the expansion of the ku klux klan in southern California and the election of Coolidge. These three events caus ed the trouble. The building depres sion closed the purses of many sub scribers. H. E. Haldeman, son of Harry M. Haldeman, head of the fedration, took charge of the K. K. K in Los Angeles county and increased klan membership at the cost of the rival order. When Coolidge, supported by the B. A. F., was elected by a prodigious majority, many subscrib rs reasoned that all danger of radi calism was over and that there was no use contributing any more to the federation.

The worst blow was the expansion of the K. K. K. This took thousands of \$1, \$2, and \$5 a month subscribers away. It also established the identity In Maine, Ohio and other states work, of the B. A. F. and K. K. K. as Siaers and groups of workers are explat. mese twin vipers. With Father Haldeman as head of the former and Son Haldeman of the latter, the two orders looked like one family affair. Many dupes suspected that the or ders were being worked for money ready convicted, prosecutions are now making purposes by the family most concerned. **Operations Must be Curtailed** 

As a rich men's ku klux klan, the B. A. F. spent from \$150,000 to \$180. 000 a year, principally on persecution. It listed I. W. W.'s, etc., trailed them, droye them to starvation, prison and suicide. Doctors, dentists, nurses landladies, cooks, kitchen wenches etc., were in its pay. Its spy system included detectives at \$10 a day. hotel clerks at \$5 a month and chambermaids at \$1 a month. The American Communist movement is a balanced one. It is equipped the needs of the American workers-among which are foreign speaking elements of many languages.

Communist equipment, Communist tools for building are at hand. The DAILY WORKER, official organ of the Workers (Communist) Party is not the only one. Many others exist, good Communist dailies, weeklies and monthlies in many languages. All these are fighting the workers battles, all are good Communist tools for Communist Builders to use for reaching the foreign born workers.

The DAILY WORKER has repeatedly brought this fact to the attention of Communist Builders: thru special sub blanks, thru the "Tool Box" (of which over thirty thousand were distrbiuted) thru the present catalogue of good books for workers "From The Source of All Communist Literature", thru repeated references in the DAILY WORKER, and by word of mouth thru every organizer ever sent out by the DAILY WORKER-not to mention thru the machinery of DAILY WORKER agents thruout the country.

And yet this is not enough. Never can too much be said for the language press of the Communist movement whenever the DAILY WORKER is spoken about.

LOS ANGELES LAND VALUES **EMPTY FRAUD** Method of Inflation Crude and Risky

Marial in Sall - Lake

LOS ANGELES, July 12-Boosters assert that Southern California orange land now commands \$4,000 an acre at compared with \$400 a generation ago. But they say nothing about the fact that the growers are in a more precar ious state financially than they were formerly. Certainly the \$3,500 ap-preciation does not go to them. To The answer is whom does it go? simple and yet it will be sensational news to 99 out of every 100 readers.

## Process of Inflation.

The leading boosters are J. F. Sartori, most enterprising banker, and George I. Cochran: foremost insurance promoter and leader of milliondollar advertising campaign. That is the key to the answer.

A generation ago the banks lent growers \$200 on the \$400-acres security. Interest at 6 per cent amounted to \$12 per year. With oranges selling at \$1.20 per box, it took 10 boxes to pay the interest. Producing 250 boxes to the acre, growers advanced their prices to \$1.25 per box. The burden was simply passed on to the consumers.

Life insurance became interested Growers were convinced that they should carry enough insurance to cover mortgages so that in event of their deaths their families could save the groves. They paid \$8 per year to cover the \$200 insurance. Again they raised the price of oranges and passed the burden on to the consumers. With the price of the product raised \$25 per acre, for the benefit of banks and insurance companies, it naturally followed that the growers valued the land to correspond, increasing the price \$250 per acre This suited banks as it gave them a larger margin of safety on loans.

On the \$650 valuation operations were repeated. Banks lent \$325 on the acre at \$20 a year interest. Insurers issued policies at \$14 per year. Growers raised prices 15 cents a box land value was inflated \$340, to \$990 per acre.

Only three more operations were necessary to bring the land values up of this fund, comparatively speaking, to \$3,500 an acre, \$500 short of where for the total amount of those loans is they are now said to be.

## Banks and Insurance Supreme.

A few years ago banks charged growers 8, 10 and 12 per cent interest, clinching their control of the orange industry. Their interest rate at present is 7 per cent. If they lend \$2,000 on a \$4,000-acre valuation growers must pay \$140 per year interest to them. With oranges at \$3.50 per from the beginning of the United box this is the equivalent of 40 boxes. On the present basis of \$30 per \$1,000 for life insurance annual premmovement stopped when the world jum, growers pay the insurers \$60 per war began and ever since it has year on the acre, or the equivalent of swang the other way, until now the 17 boxes. Banks and insurers' share of the 250 boxes per year is 57 boxes, worth \$200. But the growers charge that up to the consumers. So, on practically every box of California oranges the consumers pay a tribute of 55 cents to the banks and 25 cents to

Growers sell the fruit to wholesalers at \$3.50 per box, wholesalers to jobbers at \$7.00 to \$8.00, jobbers to retailers at \$12.00 to \$15.00 and retailers to consumers 10 cents apiece. But the inflation is all due to the

# **Real Labor Solidarity**

The DAILY WORKER, and with it the entire body of union labor interested in attaining trade union unity against the capitalist class, hails the action of three Chicago lodges of the International Association of Machinists, and the resolution of the Chicago Federation of Labor in support of the Amalgamated Clothing Workers, and in condemnation of the scabbing of the United Garment Workers, as a step of genuine labor solidarity.

The executive committee of the Chicago Federation of Labor is to be commended for its action, however long the men and women on the picket line waited for such deserved support in their bitter struggle to maintain their union.

But above all are to be praised the militant unionists who go to the rank and file of the Chicago labor movement, explaining to them the issues of union scabbery versus class solidarity. The members of the Trade Union Educational League in the Machinists' and in other unions are to be praised for raising the issue, and thus bring! ing the union men and women of Chicago who are not in touch with or do not comprehend the gravity of the offense of the United Garment Workers, into consciousness of their class duty.

Without this sort of mass understanding, the offenders against labor solidarity can go along indifferent to committees or investigations from the American Federation of Labor, thru which President William Green will probably delay results until after the strike is all over.

The executive of the Chicago Federation has taken the correct stand, but the DAILY WORKER wishes to accent the fact that the struggle for labor union principles in this case, as in all others, rests primarily upon the members of the left wing, and led by the Trade Union Educational League.

# Auto Workers' Wages

In the automobile industry, as in many others, the employers are beginning to take the offensive against the standards of living of the workers

In the coal mines, there is a union to fight back, granted that the leadership of John L. Lewis can be pushed ahead by the rank and file and made to break away from collaboration with the operators. The U. M. W. of A. is now demanding, just by reason of this mass force from below in the union, an increase, even if only of ten per cent, from the coal barons of the anthracite.

In the auto industry the union is not so well organized, tho it is better and more courageously led. The auto workers, who have thought, perhaps, that because their particular industry was thriving and because that they had been getting good pay, that they always would and that god or somebody else than their own unified powers would surely guarantee their wages and hours-these work- revolutionary peasants' movement of unity of interest existing between the ers are finding out their mistake.

The Fisher Body company has laid down the most savage wage The Fisher Body company has laid down the most savage wage cuts upon their workers, and if the Fisher company is successful, BIG "HANDS OFF the auto workers of Detroit can be sure that other firms will follow suit and probably pass the low record.

The Auto Workers' Union' is courageously fighting to organize the workers, and if the workers are at last aroused from their indifference, and are willing to fight for their wages and conditions, their chance is ample and the union they enter is ready to lead the struggle.
