## An International Strike

When the miners of Great Britain leave the pits on the evening of July 21st to open, what promise to be the greatest industrial conflict in the history of that country, the miners of Germany, Belgium and France will be following the same lead. The strike will be the ruling class of Britain as the continent with a fear, as it would as that which overwhelmed them when the gray hosts of the millions of Germany goose-stepped over the Belgian border in 1914.

The strike of the British miners bids fair to have bearing on the Duress plan than the much discussed security pact, which was framed by the British and American governments to isolate Soviet Russia. The terrific unemployment among the British miners is partly due to the workings of that plan. Of course unemployment in general in England is due to Britain's loss of her dominant position in the world market since the war. The British miners are troubled materially to the slackness in the coal industry. The Ruhr miners have been producing coal out of which Germany must pay part of her reparations to the Allies. The British miners are producing the cheapest coal no matter where it is mined.

Not only is there a greater prospect of a united front than ever before between the miners of Europe but transport workers on sea and land promise to cut out either from the pits or from the side.

Four years ago the British miners had their Black Friday. That Black Friday was due to the work of Frank Hodgson, W. D. Thomas and others of their ilk. But those traitors are now sitting in the benches. A. J. Cook, the fighting secretary of the miners, will be in the front of the strike. The new leadership of the British labor movement has been fighting a new leadership for struggle since Black Friday four years ago. This gigantic conflict will find them now in a better position than ever before, with their feet on a living battle. The three most international coal strikes is a significant development.

## Green as Patron Saint of Scabbery

William Green has condoned the scabbing policy of the United German Labor in the District of Columbia. The United German Workers against the International Tailoring Company is very obvious. In his letter to the Chicago Federation of Labor, Green condemned the Amalgamated Clothing Workers of America as a central body to keep its hands of the whole situation. No interference with scabbery, so long as it falls under the banner of the United German Labor in the District of Columbia.

Green's bureaucracy formulated by Gompers and faithfully followed by Green.

The open-shop International Tailoring Company is making the most of Green's hostility to the Amalgamated Clothing Workers. It is shown by the following extract from a letter written by the cloth company to one of its customers, which fell into the hands of the I.A.L. WORKER:

"The Amalgamated Clothing Workers of America are not an active laborer but recognized by the American Federation of Labor as a matter of fact. The Amalgamated Clothing Workers of America refused to sit on the same stand with Sidney Hillman. Mr. Green is president of the American Federation of Labor and Mr. Hillman is president of the United German Labor in the District of Columbia. Thus William Green's action in refusing to speak with Hillman is used by this scab clothing company to put a trade union fight over its operations. The DAILY WORKER has no reason to speak for Hillman as against both are following the same policy in regard to the left wing in the unions. But there is something more than the personality of leaders involved here. There is a question of trade union loyalty and leadership. We are not everything that goes to make up militant trade unionism; what the workers have sacrificed to build up for generations.

Green has given his approval to the scabbery of the United German workers. The protest of the Amalgamated Clothing Workers is not ended. It means nothing unless it is followed up by action. Only William Green in the unions have a program to fight trade union scabbery. William Green's action in refusing to speak with Hillman following the policy made sacred by the defeated reactionary Gompers. In this respect he is a worthy disciple.

Some members of the Amalgamated Clothing Workers of America Federation of Labor cannot in justice to themselves, not the Chicago Federation of Labor cannot in justice to their jobs—the matter organized action should be taken to make clear to the workers of the United German Workers' Union, that they take their scab-sweeping office out of town the better.

French airplanes bombed a Moorish village while men and women were working. Moorish bodies of women and children were scattered over the ground. The village was finished. But there was no frenzied demand for war on the French or Christian press. No, because our bankers are financing the French bombers.

One evolution case is enough for the capitalists. They are putting a stamp on the rent case made by the Washington treasury clerk who took the bull by the horns. The case is more than one more angle to one evolution. And the addition of one letter turns evolution in revolution.

The Vanderbilt Church in wedlock was rehearsed before the regular ceremony took place. One of the wedding gifts was a magnificent crown. The crown was the symbol of the problem before the newly weds is to pick up a party for their honeymoon.

13. The problem of Bolshevization of the Party implies a reconstruction of the Party organization in such a way as to give it the character of a proletarian organization of Communist workers. ## PABLO MANLAPIT IMPRISONED FOR LEADING SUGAR WORKERS' STRIKE, MADE BOSQUE CROUCH, SAYS CROUCH

By PAUL CROUCH. (Special to the Daily Worker.)

FORT CHAPTER GUARDIAN, Honolulu, Hawaii.—Pablo Manlapit is the Sun Yat Sen of Hawaii. He is a man of justice and freedom—and of the struggle against imperialism. His exploits and his life have been a source of inspiration to the workers in Hawaii as among the plantation workers that are not so kind, even by the brief imprisonment of his leader.

Manlapit has been in Hawaii for several years. He has been a leader of the sugar kings if he would have called on the strike, "and was sent jailer with his class and becoming a labor leader. Pablo Manlapit remained true to his principles and his class. He was in Hawaii, he is paying the price of his leadership.

Sugar Cane Use While There. When the plantation cane is harvested, the workers are paid a low wage. The example of the American Federation of Labor is to be followed. The workers are to be paid a low wage. The workers are to be paid a low wage. The workers are to be paid a low wage.

Workers Must Precede. During the "rehabilitation" period, we must fight for partial demobilization. We must fight for partial demobilization. We must fight for partial demobilization. We must fight for partial demobilization.

The Hawaiian workers must be organized. The Hawaiian workers must be organized. The Hawaiian workers must be organized. The Hawaiian workers must be organized.
