TITLED BRITISHER SPILLS THE INDIA RUBBER BEANS IN PRESS

(Special to The Daily Worker)
LONDON, Dec. 21.—Government circles were not too pleased today with a frank discussion of the rubber situation which appeared yesterday in Lord Rieupey's News of the World under the heading, "Rubber: Is Wiping Out England's Debt to the United States."

"With rubber fetching today a dollar a pound, America within four years will have paid this country the equivalent of the British war debt of four billion dollars," said the News of the World. "The American position is anything about in his motor car will have the satisfaction of knowing that his rubber tires he is helping the British pay off the debt they incurred to save humankind."

Comments that Secretary Hoover plans to encourage the planting of rubber in the United States are described by the newspaper as "moonshine." The government has been prone to deny that there is any artificial inflation in the price of rubber, and such frank discussion as that in the News of the World is discouraged, lest it call for American restrictions in the form of restrictions that will raise the price of wheat and other staples to Great Britain.

Chicago Uprising Only Begun

The tailors in Chicago are coming into open battle against the so-called "ratebusters" and against their bureaucratic. The program that the Hillman agents organized against the tailors is being carried out with a fight. On the contrary, it acts only as a spark in powder. It spreads the struggle to all lengths and breadths. The workers have no clashing interests yet they clash. But they are fast learning, ready for an uprising.

time and again, three times in succession, a call for aid.

They only made a fuss that they would "organize the unorganized" miners, but by using it only upon the crook of the finger of the manufacturers' association (the organization of the American Federation of Labor) it looks now the leaders of the Amalgamated Clothing Workers have made a mistake in the hands of the committee of the bosses' association.

Farrington Part of Conspiracy to Cut Coal Miners' Wages

(Continued from page 1.)
 ere some of the benefits derived, the absolute contrary is the case. The bosses were permitted in this agreement to cut the miners' wages from \$10.32 to \$8.04 a day. This holds good for miners who load coal by hand as well as by machine. Every other day the machines get out of order and the men are forced to load by hand. The sides only a very few days out of the machine, the large bulk of the miners loading by hand.
 Formerly if a miner loaded more than 12 tons of coal a day which at 46 cents a ton makes \$5.52 the regular union rate he was also paid for the extra amount produced, but under the new Farrington agreement, in addition to the reduced wages of \$8.04 for twelve tons a day at 67 cents a ton, he is not paid extra for matter how many tons over twelve he loads.
 When this cut was announced by the operators, the miners immediately applied to the officials of the mine for an explanation of the violation of the agreement. The miners worked for many months waiting for this explanation which has never made. But the miners, humiliated and outraged, went on strike demanding the return of the former scale.

STEEL MILLS CUT WAGES WITH INSTALLATION OF MACHINERY; BOYS REPLACE SKILLED MEN

By W. J. WHITE, a Worker Correspondent.
NEW CASTLE, Pa., Dec. 21.—The United States Steel corporation is a gigantic combination of manufacturing capital with its factories and hundreds of branches of manufacturing. Towns and cities of this country have felt and are feeling the debilitating effect of its presence, with its open shops and in some of the worst towns themselves. This corporation is at the present time having its plant overhauled, and the waste of back number units of its numerous works wiped out.
 New Castle is one of the places where this concentration and elimination is being rapidly carried out. One of their blast furnaces here is already down and dismantled and at least two other are marked to go the same way in the near future. These furnaces are the pride of the capitalists a few years ago, are now slated for the junk heap.
 Now and more up to the minute heating systems are being introduced by the efficiency engineers of the company, the such which has just been put in at the local steel mill has displaced two-thirds of the firm's men at the plant. Instead of the 270 men who were employed on the three furnaces, they now have the work done by men, thus saving the labor of 180 workers.
 The plant boiler has been introduced into the mill here and they are being handled by boys of fifteen and sixteen, who are fast displacing the higher priced men. Some of the number of men displaced may be cleaned from the fact that New Castle at the present time some 200 houses are tenanted. The workers who formerly lived in them have had to leave for other towns where they have been especially hard hit.

NOTICE TO NEW YORK WORKER CORRESPONDENTS

COMRADE H. M. WICKS will be in New York City, Saturday, Dec. 20th, and will hold a meeting worker correspondents and those interested in taking up the work at the party headquarters, 108 East 42nd St., New York City. We would like to know the details of the work and get practical suggestions that will be of help in becoming efficient worker correspondents. The meeting will start at 2 o'clock sharp in the afternoon.

Many of them are in dire straits because of the lack of other work to be done in the town which is largely a "United States steel town." Wages are about 10 cents per hour on the average. The boy who now runs the plant boiler gets about \$1.50, while the boiler who whose place he is taking gets about \$1.00 per day. The boys now run five machines, formerly run by five men, gets an average of about \$1.00 per day and the men he now replaces receive only 50 cents, and they are "smuggling the coke oven in Sharny" and evidently intend to put in improved coke plants here. Concentration and improvement and displacement of men power is the order of the day, and here you see it in the picture illustrating.

The local officials are largely the tools of the steel company consequent to nothing is being done to turn the situation into one of benefit to the workers.
 How to work in cooperation with the shop nuclei in that territory was the subject of the talk. The ad hoc committee and industrial organizer will keep in constant contact with the secretary of the shop nuclei in the district, helping in the distribution of THE DAILY WORKER and of the industrial bulletins. Leaders of the survey of the neighborhood will be taken so that conditions in the shops where there are no party nuclei can be studied.
 As the first step toward the new work the nucleus members organized for a house-to-house distribution of 1,000 of the "Challenge to Coolidge" dozers.

How to Americanize Workers Party Seen in Street Nucleus

Building Workers in Santa Barbara Warned About Scab Contract

By a Worker Correspondent.
SANTA BARBARA, Cal., Dec. 18.—Near the postoffice on State St. where the building workers' union headquarters is destroyed by the earthquake on June 25th, John M. Cooper of Los Angeles is negotiating for a two-story apartment and office building.
 This architect and contractor is well known in Los Angeles because of his refusal to say anything about the union scale or give his men union hours. The carpenters and laborers in that city have received rough treatment from him.
 Indications are he is trying to do his "dirty" in Santa Barbara also. His men work all and all hours it seems. As yet there have not been many carpenters employed on the job, but the few who have worked for him have received \$5 per day of eight hours and worked Saturday afternoon for \$1.00. The carpenters' scale is \$1.00 for eight hours. Saturday afternoon work is not paid for. The scale is Local 1062, Sec. 2 of the Trade Union Directory.
 There shall be no work done Saturday afternoon between 12:00 and 6:00 p. m. and to preserve life and property.
 Painters and plumbers are working five days a week here. The electricians are seeking to have their wages raised to \$1.00 per day and the work shortened from 48 to 36 hours a week.

PICTURES OF LIFE

(Worker Correspondents)
STAMFORD, Conn. In a grocer's store a hard working woman gradually talking to a man in a chair. "What is the cheapest butter you got?"
 The man told her. She hesitated. "Give me that butter." She went out. She had a quarter of a pound.
 Just this morning an expensive automobile stopped in front of the store. An elderly dressed woman stepped out and entered the place. The price was immediately on his "butter" list. The lady who now runs the "butter" you have," the lady ordered. She included other things in her order.

CLASSES OF WORKER CORRESPONDENTS TO BE ORGANIZED BY WICKS

During his tour thru the East, which started yesterday in Grand Rapids, Mich., the writer has devoted considerable time to the organizing of worker correspondents in the various cities that he visits.
 This is a sample of the most important work being conducted by THE DAILY WORKER and the party. It is essential that proletarian writers be developed so that a great staff of field correspondents can be created that will know how to handle all labor news in any manner that will appeal to the working class.
 All worker correspondents and those who want to take up the work should attend the Wicks meetings and remain afterwards to take up this question with Comrade Wicks.
 The following cities will be visited: Detroit, Buffalo, New York, Philadelphia, Baltimore, Washington, Richmond, Pittsburgh, Cleveland and Toledo. Time and place of lectures announced elsewhere in today's paper.

While specifying she wanted the very best, and possibly a little more, she departed while the post woman was still waiting for that matter of a few "cheapest" butter you have."
 It is not probable that our present condition should be subjected among civilized people in capitalist America. If you own your own land you have your own land, but if you own a share of land, you are not self-sufficient and you have the very best of everything.

ANTI-LYNCHING BILL IN HOUSE AND U. S. SENATE

Law Aimed at Curbing Southern Lynchings

WASHINGTON, Dec. 21.—Bills have been introduced in the senate and the house to curb lynching in the United States. Both of these bills are identical with one another and any state officer who fails to make all appropriate efforts to protect a prisoner in his charge from mob violence or aggression upon any person participating in mob violence, shall be guilty of a felony and upon conviction shall be punished by imprisonment not exceeding five years or a fine not exceeding \$5,000 or both.
 The bill also makes it a felony for any state or municipal officer to conspire with any person to kidnap or offer a prisoner to be taken from his custody. Those who conspire with any person shall be guilty of a felony. Upon conviction the persons so conspiring shall be punished by imprisonment for life or not less than five years.
District Court's Right Defined.
 The district court of the judicial district in which a person is injured or put to death by a mob is intended to try and punish those who participate when it appears that the state courts fail or refuse to apprehend and punish them or when the jurors decline to serve in the state courts are so strongly opposed to such punishment that there is no reasonable probability that this quality of the offense can be punished in the state courts.
May Shout \$10,000 Forfeit.
 Any court in which a person is put to death by mob violence shall forfeit \$10,000 to the family of the victim. If he has no family, then the money shall go to his dependent parents, if any, or to the use of the United States.
 In the event that any such person put to death by mob violence, shall have been transported from one county to another during the time intervening between his arrest and his trial, the death, the forfeiture shall be jointly and severally liable for the bill and may recover any sum so forfeited in satisfaction of the rights of the victim or subject of a foreign country, or in satisfaction of the rights of the United States, as the court may determine as to be the state courts.
