AS WE SEE IT By T. J. O'FLAHERTY.

RS. ETHEL SNOWDEN, wife of M Philip, former chancellor of the British exchequer, is touring Canada under the auspices of the department of education. That a capitalist institution should tour a socialist is sufficient proof that Ethel's socialsufficient proof that Ethel's socialism is of the yellow brand. What the No Fuel, No Food While lady says about education has no caused as much discussion as her expressed views on the character of the leadership that Ramsay MacDonald gave to the parliamentary labor party during the last days of his premier-

MRS. SNOWDEN said, substantially IV that Ramsay's leadership was everything it should not be and that the tories made a horse's neck out o him on the Zinoviev forgery issue. A toes since November.

Potatoes always have been the main party had nothing in common with bol shevism without playing into the tories' hands by accepting the fake letter as genuine. Ethel's contentior is, that had Philip been in Ramsay' place, things would have been differ ent. That and her prediction that the British monarchy is safe forever in the hands of British labor, is causing lively comment in British trade union

SEVERAL moderately progressive leaders of the British trade union movement take violent exception to Ethel's prediction, regarding the fu ture conduct of the members thereof toward his majesty, George, the em Ireland. pty-headed. They claim no yellow so cialist has a right to set bounds to the progress of the working class movement. They feel that even tho King George might poss. ly join the social ist party, provided a does not grow too reactionary for him, that would not mean that the British workers would feel like paying for his keep orever while more than a million useful workers are unemployed.

THE British delegates to the Russian trade union congress continue to cause excitement in the haunts of the yellow socialists on the continent of Europe and even in America. They have successfully refuted the lies o the socialist press about "poor, downtrodden Georgia." They have shown Georgia are now really free and prospering under Soviet rule. They have shown that the various "uprisings' that took place in Georgia have been hatched by the capitalist governments thru their socialist agents. The anger of the yellows is so intense that Var dervelde, one of the king of Belgium's socialists, made a vicious attack or the British trade unionists at a recen meeting of the Socialist and Labor International.

S a counter defensive against the A trade unionists, Purcell, Tillet Bromley and others, the capitalists, so cialists and the anti-Soviet forces gen erally put the notorious political pros titute Emma Goldman on the platform to belch forth her venom against the workers' and peasants' government Emma was always a shallow faker who lived in luxury in the United States, while giving a thrill to the jaded female parasites of the bour geoisie, with lectures on sex and kindred subjects. She had quite a following among that section of the capital ist and middle classes that finds in perversion the only outlet for their surplus energies. Perverts being at : premium in Russia, Emma felt quite out of place and decided that Picadilly was more in her line than either the Nevsky Prospect in Petrograd, or the Red Square in Moscow. She is welcome to her company.

THE extreme right wing of the trade union movement in Minneapolis is not satisfied with ousting Dan Stevens from the Trades and Labor Assembly. They want him expelled from the Painters' Union, also. And not only do they want the Communist, Stevens, expelled, but they also want to get rid of Robly D. COOLIDGE FAILS TO AID NOME, STRICKEN WITH DIPHTHERIA

(Special to The Daily Worker) SEATTLE, Wash., Feb. 2.-Word was received here from Nome, Alaska that 5 residents of the stricken town died in one day as a result of the diphtheria plague. One million units of anti-toxin

were sent from here on the steamer Alameda which will be taken overland from Seward to Nome. The dog team speeding toward Nome was due to arrive in the plague ridden city today.

Dr. Marguder of Seattle who sent the serum, declared no word has been heard from Washington in answer to repeated requests that the government arrange for shipment of the serum to Nome by airplane.

Dr. Curtis Welsh, the only physician in Nome, had previously reported four deaths. The temperature in Nome is now 50 degrees below zero.

ST. PAUL, Minn., Feb. 2 .-The Communists were seated in the farmer-labor federation. The attempt to bar Workers Party members failed to materfalize.

No attempt was made to reject the credentials of Emme, Votaw, Wangerin and other Communists in the annual convention of the Ramsey county farmer-labor federation held last night.

Such an attempt was fully expected in view of a resolution adopted at a conference of farmer-labor leaders held on Jan. 17 in St. Paul, and in view of the general drive against the reds now going on in the Trades and Labor Assemblies of both Minneapolis and St. Paul.

(Special to The Dally Worker) YOUNGSTOWN, Ohio, Feb. 2.-According to word given out by leading socialists of the New York Forward's type, the notorious agent of the Second International, Rafael Abramovich will be secured for a meeting in the Youngstown steel district to offset the increasing sentiment for the first workers' republic.

The steel workers know how to handle men of the Abramovich type and thru the DAILY WORKER and the party language press, the steel workers wish to assure Abe Cahan & Co., that there will be several meetings in Youngstown when Abramovich arrives to do his dirty work.

Anarchists, yellow socialists and socalled progressives who have formed a united front to misrepresent and cowardly lie about the first workers' republic by importing Abramovich can feel assured of a warm reception.

(Continued from page 1) any real union-they built up condi-

tions and had good job control. The strike had been on but a few weeks when an "open shop" drive was started. Nearly every business man in the town signed the declaration and posted the cards in his shop or office. Building workers and contractors were brought in from other cities and the fight was on in earnest.

Wages Reduced About Half.

Prior to the open shop drive, the gypsum miners received \$6.50 for eight hours, and all overtime wages was forfeited to the union. The millmen received 65 cents per hour for day work. Loaders of rock received 33 cents per ton and averaged \$8.00 a day with their overtime.

The miners now have to break the rock and build their own tracks, while many of them now work in water up to their knees. They get the same rate for double the work.

The millmen have been reduced from 65 cents to 35 cents per hour for day work, while loaders get 18 instead of the former 33 cents per ton. Loaders were limited to 12 cars, about 27 tons, the company gets the difference -23 tons loaded for nine cents.

Good Rock; Big Investment. The reason for the miners and mill-

men getting improvements was their union, and because of the quality and quantity of the gypsum rock. Also because of the large investment involved. One company paid one thousand dollars an acre and owned a whole section with the exception of 160 acres.

The rock is not only clean, and has good top and bottom, but it ranges in thickness from 12 to 35 feet. This makes it possible to blast as much as 75 tons at once. Gypsum to be good for plaster must be absolutely free from clay or grit. Only Fort Dodge has that kind in any great quantity.

Little Business Now Squirms. With the reduction in the wages of the thousand gypsum mine and mill Dodge labor on all their jobs. Not little town has been paralyzed.

Bohn, Renegade, Offers THOUSANDS HEAR Solution For Farmers' RUTHENBERG AT Woes Under Capitalism N. Y. LENIN MEET

By J. LOUIS ENGDAHL

TODAY, Frank Bohn marches to the front, thru an article in "The Forum," and gives his version of the cause and cure of "The Great Farm Rebellion." He childishly speaks his little piece tuned for bourgeois applause.

It is interesting to note that Bohn confesses he changed the first few paragraphs of his article after reading a contribution in last October's "Forum" entitled "The Politics of Wheat." That is supposed to have brought his offering into harmony with the policy of this organ of intellectual New England.

A perusal of the opening paragraphs indicates that Bohn takes violent objection to the wives of wheat farmers in the Saskatchewan country in western Canada buying California cherries. Evidently Bohn, nestling among the codfish aristocrats of the efete East, has decided that western farmers are not entitled to eat cherries. He becomes an outspoken apostle of Coolidge "economy."

Bohn was a "socialist" in the days before the war. He was active on the editorial side of the International Socialist Review, with strong leanings toward the Industrial Workers of the World. But the war ended all of Bohn's radical and revolutionary connections. He was sent to Europe by the ultra-respectable capitalist sheet, the New York Evening Post, while the Times later used him in Mexico. But he was born on a farm and that makes him an expert on agricultural problems.

Bohn doesn't talk about revolution the way he once did. He went the way of John Spargo, William English Walling, Chester M. Wright, A. M. Simons and the rest. Bohn now advances the alternative that the nation's crops must be grown either by individual free farmers, "who own the land

they work, or by powerful organizations of capital which employ a seasonal class of wastrels."

He can see nothing outside the individualism of the small landholder or capitalist exploitation applied directly to the land. And he shows his tremendous ignorance when he speaks of Soviet Russia, charging that, "with markets shut off, the farmers (of Russia) surrendered the pure gold of their great co-operative for the dross of the Bolshevist government monopoly."

In this he exposes himself in conflict with the views of nonpartisan observers, who have actually visited Soviet Russia and studied the conditions there, especially of the co-operatives, like Senator Brookhart, of Iowa, who reports that there is the greatest harmony of action between the Soviet government and the co-operative movement.

Bohn urges various co-operative schemes as a panacea under capitalism, getting as enthusiastic about them as labor leaders who urge banking as a means of taking over the whole capitalist system. He urges as the greatest virtue of the capitalist state, that it be "inoffensive and weak, that it may not play the tyrant," concluding that, "Our political parties, our state and federal legislatures are mostly chattering, gossiping, harebrained affairs."

But it is this capitalist state that is the instrument of oppression wielded against the city workers and poor farm-

Bohn's efforts to turn the farmers from their attack on this capitalist state will prove abortive. In the first place the poor farmers do not read "The Forum." The food speculators, who are today reaping enormous winnings on the boards of trade, might circulate a few free copies among the discontented, if they chose to spend some of their profits. Which they won't. And if they did, it is doubtful if any poor farmers could be duped into absorbing any of Bohn's nostrum. They have been presented with such piffle too often

The poor farmers, in daily increasing numbers, are learning that the solution of their problems can only be achieved thru the overthrow of the capitalist state. The cooperative tilling of the soil and the distribution of its products can only be achieved, for the benefit of all, under a Communist society.

The political boss of Chicago. George Brennan, has announced his approval of Mayor Dever's traction ordinance. Brennan said he is opposed to government ownership, but does not see anything about municipal ownership in Dever's plan, which tons, by the union; now they load 50 merely puts the traction lines more securely in the hands of the bankers and gives them a long and favorable franchise. The city, according to the mayor's traction ordinance, does nothing but take the risks of financing off the shoulders of the bankers.

Nockels, a few days ago were loudly declaring their anger at the speed with which the ordinance was being railroaded thru the transportation committee and the city council Now, however, after the threat of Brennan and Dever that support of the democratic party would be withdrawn from Oscar Nelson, up for re-election in the aldermanic races, the federation officers are showing more signs of co-operation with Dever.

Garden Overflows with New York's Workers

(Special to The Daily Worker)

NEW YORK CITY, Feb. 2 .-Fifteen thousand workers packed Madison Square Garden and cheered the Communist speakers at the Lenin Memorial

C. E. Ruthenberg, executive secretary of the Workers (Communist) Party, released from prison at Jackson, Mich., last week, received a tremendous ovation as he told the workers what Leninism means to America's toiling masses.

Rebuke to Abramovich. Thousands of other workers were turned away from the doors, unable to gain entrance to the packed hall. The meeting was considered a stern rebuke to the mission of Raphael Abramovich, tool of the Second International, who is trying to create counter-revolutionary sentiment against Soviet Russia

"Prisons only steel the workers in their fight for the overthrow of the exploiters and the establishment of the dictatorship of the workers," Comrade Ruthenberg declared amid storms of applause. "Lenin showed the militant workers of the world that they must organize on the basis of the everyday struggle of the working class, allying themselves with the toilers in the factories and on the farms."

Tells of Leninism. Ruthenberg told the workers that they must replace the rule of the bosses with the rule of the workers. and that the working class must take over the industries and the state power and run them for their own use, and not for the profit of a few employers and bankers.

Two hundred and fifty policemen and detectives and 20 mounted police were distributed in and around the Garden, but did not interfere with the

The speakers included Ben Gitlow well known leader of the garment workers, K. Radzi, the noted Russian speaker who spoke last year at the Garden; Jack Stachel, district organizer of the Young Workers' League; M. J. Olgin, the famous Jewish writer and speaker; Y. Nishimura, a leading comrade among the Oriental Communists, and Charles Krumbein, dis-

trict organizer of the Workers Party. The musical program was one of the finest ever gotten together in the historical Garden. It included numbers by the well known Freiheit Singing Society and the combined Freiheit and Hungarian Workers' Symphony dreds of well-trained voices and the orchestra, a fine organization of 100 of the finest musicians in New York

These were aided by Nina Gussieva the famous dramatic soprano. The musical program included the following numbers: The International, the Russian Funeral March, La Forza del Destino by Verdi, Aria Liza from opera "Pique Dame" by Tchaikowski, Ase's Tod by Grieg, Serp and Hame by Kochotoff, Arbeiter Brider by Shaeffer, Tosca by Puccini, Giaconda

The chorus was conducted by Lazar Weiner and the orchestra was under the direction of Arnold Powell, both of whom are well-known in the field of musical art.

Brown Makes Noise Like Tame Clam

In spite of the rigid control of the union machinery and flagrant stealing of ballots, President Hutcheson had to count nearly 35,000 votes against him. This is a remarkable showing, and without question is the real reason why Hutcheson, following the lead and advice of his pal, John L. THE RISING TIDE

"MILITANTS," what can that mean? Does no one really know? Perhaps it is some daring scheme, something that is oft' unseen until it strikes a blow. Czars are bold when all is well, their power becomes a whip; force is used to sound the knell, democracy must say farewell; and then-a scuttled ship. Stolen crowns are hard to keep, they're mostly made of brass; their gilding never very deep, the acid test will find them cheap, and then the czar must pass. T. U. E. L. has got their goat, the scuttlers now must pay; although they cry: "Don't rocks the boat, our craft and flag must keep afloat;" just hear those fakers pray. So like a whippet after rats those militants are taken; they hit the crook right in the slats and make him show some acrobats, until his tricks are seen. Progressives now within the mine, though beaten back for years; Czar Lewis at them spewing slime and using every trick and crime, his finish now he fears. The carpenters have Hutcheson, a czar resourceful, too; there, militants have just begun and soon will have him on the run, though votes will not go through. Ha, ha! You simple democrat, your referendum aw; with ballots in a trickster's hat, and sleight-of-hand with him quite pat, what do you think he'll draw? And shop committees, when a fact, you'll make them stand true blue; through them you'll make the local act, no crooked deal or bribing pact can then escape from you. Jobless Made to Work for a Dollar a Day

VANCOUVER, Can. - The wager and working conditions maintained by the building and metal trades unions of Vancouver are being seriously threatened by the employment of job less men below the union scale.

Unemployed men are set to work as a relief measure doing the perliminary work in the building and metal trades at \$2 a day for married men, while single unemployed workers are offered \$1 a day for clearing land or break ing rock.

Waterfront Now Scabby. Last winter unemployed stranded men's strike. The Vancouver water front is now open shop and wages and working conditions are determined b: the master stevedores. Many union ists believe that the contemplated bibuilding program for the spring will only be attempted on a nonunion wage scale and that the unemployed of the city are being used to introduce the

Schemes to beat down wages usually paid for clearing land fell thru when the young jobless workers informed the city council that they would not clear land or do chain-work for \$1 a day and maintain themselves. The men declared that for working outside in the inclement weather clearing land be paid.

Jobless Fight Back.

The council is threatening to arrest all men who refuse to work under its proposed relief scheme but the unemployed are being drilled and disciplined and are making the public aware of their position. Next week they wil appear before the council and make : formal demand for a living wage.

The unemployment situation is ag gravated by every westbound train bringing dozens of English immigrants who have been duped into paying what little money they had for steam

'LEVEN LIVE LEAGUERS

JOU might suspect us of "local patriotism." But we are only looking for efficient propaganda methods to "Build the DAILY WORKER"which of course will build our party.

In this column, in the Saturday issue, we brought to your attention the activities of the North Side Branch of Chicago in selling literature. And looking for efficient BUILDING we must point out another Chicago branch. This time it is a branch of the "Flaming Youth"-and the flame is revolutionary fervor in Area Branch No. 5 of the Young Workers

A squad of eleven live Leaguers under the direction of Literature Agent Natalie Gomez, during the month of January sold over thirty dollars worth of literature at union and other meetings. This did not include pamphlets sold at factory gates when the Y. W. L. had a drive.

"To the masses" is a slogan that actually is put into practice by these comrades who are going to the shops, union halls and every meeting where workers gather In the group all with the exception of two are girl comrades-most of them working in the National and DAILY WORKER offices. The fact that our comrades are "easy to look at" is not the only factor in their success. They have fully realized the importance of this pioneer organizational work and have built up their sales by persistently attending union halls, selling, talking, convincing-until at many local union meetings a session is incomplete when they do not

And the comrades are ambitious. This squad, together with the livewires in the North Side Branch, are actually giving the City DAILY WORKER agent comrade Thurber Lewis no peace. They want a meeting held to map out a plan to cover ALL of the union meetings in town and to drag in willy-nilly the non-active groups in the local.

We are giving this tip to the DAILY WORKER agents thruout the country: If there are any Young Workers League members in your local, get them in your work and prepare for a busy season.

NEW YORK, Feb. 2-The poor who work on the fringe of the richest financial section in the worldthe scrub women, janitors and cleaners of Wall Street, are paid such small wages that they and their families must be maintained

by charity.

The "Bowling Green neighborhood association" has just announceed that thirty downtown business men have donated \$1,000 each year for three years, toward the upkeep of a home for the downtown poor. The Wall Street business men hire non-union labor at starvation wages, and the children of these Wall Street workers fill the downtown homes, working far into the night making artificial flowers, sewing pants, and making stockings.

WASHINGTON, D. C., Feb. 2.-Representatives of twenty-six organizaconnected with the national child labor committee meeting here, announced that the fight to secure ratification of the federal child labor amendment by 36 state legislatures will continue. The organizations sending delegates were mostly women's clubs, and liberal and pacifist organizations.

Mrs. C. A. Watkins, of the national parents' and teachers' association, declared that the press is misrepresenting the situation. She said that only eight states have rejected ratification of the proposed amendment, and these

RED LEGISLATOR MOVES TO HELP **POORER FARMERS**

"Tax All Tillable Land to Pay Hail Loss"

(Special to The Daily Worker) BISMARCK, N. D., Feb. 2-The loss suffered by farmers, especially the poorer farmers who are unable to pay exhorbitant rates for insurance of their crops from destruction by hail. is one of the pressing problems of the Dakota farming population.

For Interest of Poorer Farmers.

The first and only Communist elected to the North Dakota legislature, A. Miller, has introduced a measure providing an inexpensive and effective means whereby the poorer farmers may get the protection of hail insurance without paying great sums to private profit grabbers of the insurance companies, which thrive off the mi-

series of the working farmers. The bill is accompanied by a repealing act of the 1923 law, which provided for the withdrawal of land from the state hail insurance, and the bill providing the indemnity tax, known as House Bill No. 81, reads, in its essential sections, as follows:

Tax All Tillable Land.

The commissioner of insurance shall, on or before the 25th day of October of each year, estimate the amount which is required for the total payment of all loss caused by hail to crops insured by the department, and a sum sufficient to pay interest at the rate of six per cent per annum on all warrants issued from the 1st ment by the state treasurer, plus a sufficient fund to maintain and operate the department for the succeeding year, and shall thereupon, for the purpose of securing and paying the same levy an indemnity tax sufficient to cover said amount on all tillable land within the state:

"Provided, that the total amount of said indemnity tax shall not exceed in any one year the sum of fifty cents per acre for seven dollars indemnity or seventy-one cents per acre, for ten dollars indemnity.

"Provided, further, that if the sum collected by the maximum levy should be insufficient to pay all losses in any one year, the payment of losses shall be prorated. All moneys collected under the provisions of this section shall be paid into the state hail insurance

It will be noted that the bill provides for a tax on all tillable land within the state, thus equalizing the burden for the benefit of the poorer farmers who may find their crops destroyed without being able to recuperate a cent of their losses. Both bills are referred to the committee on

Looking at things impartially, one would say that the Greeks have no kick coming over the expulsion of their patriarch. The Turks kicked out their own sultan who had more dependents than the patriarch. When the sultan was evicted, a happy and populous home was broken up and several perfectly good wives thrown on an already overstocked market. If the patriarch has one wife he has one hundred. Perhaps that is why the Greeks are kicking. They might have a lot of fun with the sultan's cabinet, if only the Turks estab- pox or any other disease on one side of a given lished reciprocity.

Judging from the size of the headlines in the capitalist press, another war between Greece and Turkey is possible. But it is not probable. England and France cannot afford to let their dogs quarrel,

No more enlightening comment on the workings of the capitalist system could be had. The men who dig the coal are unable to obtain enough of it to keep themselves and their families warm. Aw, It Isn't As Bad As That

War is not the horrible thing it has been represented to be by pacifists and press agents for the chemical section of the war department. This is the burden of a statement made by Secretary of the Navy Wilbur, and given front page space in the capitalist press of last Monday.

According to poison gas experts, new chemicals have been invented that would destroy whole countries and annihilate millions who succeeded in dodging the draft. A shudder went thru the nation. Happy capitalists who contemplated another nice little war with the prospect of making millions of dollars exploiting the workers and robbing the government, muttered: "Dash it all, if war is getting to be that bad, there's no fun in it."

The war department of the capitalist government began to sniff danger. The capitalists were beginning to get frightened. This kind of propaganda was more dangerous than the most platitudinous piffle the pacifists could put out. He eulogized Rep. Cooper of Wisconsin, who has a longer record of service than any other republican in the house. He declared that the Wisconsin republicans are good republicans, and that nobody can read them out of their party.

CHICAGO LABOR DEFENSE COUNCIL FORMS SLAV WORKERS' CONFERENCE

The urgent need for mobilization of all working class elements against the renewed Michigan prosecutions as expressed in the jailing of C. E. Ruthenberg and the calling to immediate trial of Robert Minor, has closed the ranks between the workers' organizations of three Slavic languages, and has resulted in the formation of a united Slavic Conference for Labor De-

The three languages are the Jugo-Slavs, the Slovaks and the Czechs. Three representatives of each of these groups met last Friday at the South-Slavic book store, 1806 S. Racine Ave.

activities that will not close untill the two thousand workers who cheered the Communist speakers at the great Lenin meeting are brought into the Workers Party. The first step towards this goal is

the campaign to increase the circulaconnection with that, the first annual Ave DAILY WORKER ball which will be held Friday February 27, at the New Traymore Hall. Daily Worker agents from 17 branches are busy making preparations, distributing tickets and securing advts. for the DAILY WORK-ER ball souvenier program. The enthusiasm and activity of our comrades assures us that the ball will be the greatest event of the year and an aditional milestone indicating the growth of the influence of the party in Philadelphia. The first meeting of the Labor Defense Council has laid down plans for an intensive campaign against the criminal syndicalist law and the raising of a defense fund to help the legal battles to free our comrades involved in the Michigan cases. March 21st, the anniversary of the Paris Commune and the Hungarian Soviet republic has been set as the date for the great defense bazaar. Collection lists for the articles for the bazaar are out and the party is

The open forum conducted by the city central committee every Sunday eveneng at the Grand Fraternity Hall, 1628 Arch St., is growing in size and influence. It is the only center where the every day problems and the burning issues of the workers are presented and discussed from the Communist point of view.

The Carlson series of lectures on the elements of Communism are attracting wide attention and the growng attendance of party members is another healthy sign displayed by the

party in this city. The industrial department has shown great improvement during the ast few months and is steadily bring. ing the party into closer contact with labor movement. Cleveland Activities. West Side English Branch Holds Red Revel

The west side English branch of the Workers Party in Cleveland finds it self up against it for funds. After cratching our heads for a considerable time as to how we might lay our ands on some ready cash it was deided that something different and atractive must be done. So, it finally leveloped that a Red Revel should be eld. Too much information can not be given at this writing, but merely ust enough to make you itch for the right. A few of the things to be "pulld off" will be an expose of the "Michigan Spinach Law" a Soviet Court he Cheekaa who will bring all offenders to the Soviet Court to be fined and umerous other attractions.

Never before has anything like this peen "pulled off" in this city and every member of the branch has his hands full making the arrangements. The date will be Saturday evening March 7th, at 7:00 P. M. The place is the Hungarian Workers Iome, 4309 Lorain Ave.
