visit to the Bermudas. J. H. Thomas former colonial minister returned with him. Both have improved in health, so the papers say but the same cannot Since the labor government moved its furniture ou of Downing street, interesting developments have taken place in England, developments that do not promise to place much to the credit side of MacDonald's ledger. . . .

THE British trade union delegation that went to Russia to see what exception of one, who has thrown his lot in with Emma Goldmann, they have unanimously agreed that Soviet Russia is making wonderful progress and that the workers and peasants feel that they have a little heaven upon earth all their own since the czar was turned into manure.

THE delegates grabbed an eyeful of Russia and a headful of new ideas. When these ideas were imported into England, quite a hornet's nest was turned loose but the left wing elements are in the lead and it looks as if unity between the Russian unions and the trade union movement of the rest of the world, barring the benighted states of America, is now a foregone conclusion.

EVERYTHING considered, events are moving rapidly in England and England is still the big frog in the European capitalist puddle. Zinoview delivered a speech in Moscow recently during which he said that it was quite likely England would make another attack on Russia in the near future thru Poland and Roumania. The British ruling class are the most accomplished and shameless liars on earth and the recent assurances given Rakovsky by the British tory foreign secretary, to the effect that England was not organizing hostile forces against Russia are not worth the breath on which they were carried.

THE members of the United States army may be interested to know that their business is now on a cash basis and that its activities are boom ing, if we are to believe the headlines in the New York Times. Not so comforting is the news that 83 national cemeteries are now maintained in the United States and eight in Europe. Cemeteries like warships are intended for use and not for ornament. But according to the patriots, all soldiers use up most of their mental energy wishing for an opportunity to die, so the prospect of getting into a good properly gardenered cemetery will appeal to their sense of the eternal fitness of things.

By CARL SKOGLUND.

MINNEAPOLIS, Minn., Feb. 11.-The Hennepin county central commit ee of the farmer-labor federation at its regular meeting on Feb. 9 took up the question of expelling Communists and of calling a state convention of the federation on March 19. Conflicting Interests Can't Be Reconciled

(Special to The Daily Worker)

PARIS, Feb. 11 .- While hostile blasts from the foreign offices of the British and French governments keep the political atmosphere charged with electricity, secret negotiations have been going on between the two countries for several weeks.

Shrouded in Secrecy.

So private have these negotiations been that even the governments of both countries outside of the leading government officers on both sides and the necessary naval and military experts have not been let in on the developments.

Unless England and France can li quidate their differences, war between the two countries can no more be avoided than could the conflict be tween Germany and England which

broke out in 1914. Seasoned diplomats of the old school and political economists of the Marxian school agree that the conflicting interests of France and England cannot be reconciled.

PRAGUE WORKERS BATTLE IN DRIVE AGAINST THE HIGH COST OF LIVING

(Special to The Dally Worker)

PRAGUE, Czecho-Slovakia, Feb. 11.—Striking workers protesting against the high cost of living, against which a campaign is being waged by the Communist Party yesterday made the whole city a fierce battleground, when attacked by police. Police fired into crowds demonstrating workers, who fought back stubbornly and many were injured on both sides.

In a police charge upon a crowd in the vicinity of the American embassy, an American bourgeois nearly received one of the bullets meant for the workers, when a policeman's bullet smashed thru a cafe window.

Everywhere the crowds of unemployed and underpaid workers entered the big shops, cafes and hotels simultaneously, taking necessities of life in an orderly way so long as they were not opposed with violence by troops, police or shopkeepers. Only late at night did the crowds disperse. Troops now patrol the streets and guard government build-

WAGE CUTS GETS GREAT IMPETUS

Stirring Meeting Held at Middleboro, Mass.

(Special to The Daily Worker)

MIDDLEBORO, Mass., Feb. 11-The strike at the Nemasket Worsted Mills which has been bitterly fought for five months without a break in the ranks received new impetus at a mass meeting at Owls' Hall in Middle-

The strikers resolved to redouble their efforts on the pick line, to intensify their efforts to interview the scabs at their hotel quarters, and to take immediate steps to widen the field of operations.

Urge United Front.

It was decided to propose a united ront arrangement with other mill owns where strikes are on or where wage cuts have been made, and with all textile workers' organizations in New England covering both woolen and cotton mills whether affected or not by the wage cuts.

Robert Minor, present as correspondent of The DAILY WORKER, gave a review of the entire New England textile wage situation, pointing out that the Middleboro strike is not an isolated incident, but that by connecting up with other mill towns the movement could be made a quarter million strong, and could then be made irresistible. The mill owners' talk about meeting competition of southern cotton mills could be answered, said Minor, by extending the labor organization to the southern mills. This could be done only if the textile workers compelled the existing many small unions to amalgamate into a single industrial union and to bring in the unorganized. Talk of foreign competion should be answered with extending the organization internationally, a work which is already being done by the Red Inter-

ternational of Labor Unions. Reid Addresses Meeting. James P. The New York Bazaar

New York's annual bazaar to raise funds for the defense of the victims of the class war is one of the big events of the metropolis. This year, in view of the threatened offensive of the American brand of the white terror, should see it bigger than ever.

Workers of all nationalities will participate in the four-day program that opened at the Lyceum on Wednesday. Workers speaking all tongues should swell the thongs in attendance.

This is the joint bazaar of the International Workers' Aid and the Labor Defense Council; two organizations that have stood in the vanguard receiving the brunt of the capitalist attack. They can only succeed in their efforts as they are supported by broad masses of workers. The bazaar at the Lyceum offers another opportunity to reach workers who but dimly see the meaning of the repeated onslaughts of the exploiters against the organization of labor. Draw these workers into the struggle for the defense of the whole working class. That is one way to support the defense bazaar now being held in New York City.

RED ARMY AND TRADE COMPEL **U. S. RECOGNITION**

Negotiation Forced by Soviet Armies

(By The Federated Press) WASHINGTON, Feb. 11 .- That no invitation to the world to attend an arms conference will be issued by President Coolidge this year is the latest word from men who are close in his counsels on foreign relations. It is now believed that the president

has become convinced that such s conference will be useless if Russia is left out, and that Russia cannot properly be invited until terms of recognition have been settled. Therefore, the summer of 1925 is to be devoted to clearing the way for negotiations with Moscow.

The first step in this direction will be the building up of public sentiment favorable to the view that America must deal directly with Russia in order to get the best possible settlement of outstanding financial claims. Big Biz Wants Russian Trade.

During the past week one of the most active spokesmen of big business in New York has been in Washington, talking with politicians and dropping the hint that business is ready to face the Russian problem.

He did not suggest that the U.S. chamber of commerce has reached that conclusion, but said that the big individuals in industry and finance re alize that Russia must be helped to buy manufactured goods.

Bill Green Is Silent. Significant of a possible change in policy at the American Federation of Labor is the silence of President Green on international politics. He has conspicuously failed to ratify the statements made by Vice President Woll, that the A. F. of L. would resist the resumption of diplomatic relations with the Russian republic so long as the Soviets remain.

The charges against Warren are:-1.-That in 1910, he was indicted as a defendant in the anti-trust suit brought by the government against the American Sugar Refining Co.

2.—That, previously, he had held stock in the Michigan Sugar Co. in his own name "in order to conceal the sugar trust's interests," and permit it to escape prosecution for violating the anti-trust law.

3.-That he was president of the Michigan and Toledo Sugar companies, which were cited Monday by the federal trade commission as engaging in a conspiracy to suppress competition in the beet pulp industry, and

4.—That, as president of these companies, he was "responsible" for the alleged violations of the trust law.

BRITAIN'S BILL **COLLECTORS TO DUN THE FRENCH**

Will Press for Early Debt Payment

LONDON, Feb. 11.-Great Britain intends to brook no delay in French action on Chancellor Winston Churchill's note regarding the French debt.

The foreign office aroused today by adverse French comment on the note, said that England intended to press for an early and definite statement of French intentions.

ENGDAHL, COMMUNIST CANDIDATE IN WARD 35, WILL SPERK TONIGHT

J. Louis Engdahl, reditor of The DAILY WORKER, leand Workers (Communist) Party candidate for alderman in the 35th ward, will be the principal speaker at a campaign rally to be held tonight at the Workers' Lyceum, 2733 Hirsch Boule-

The aldermanic election campaign is now in full swing. The capitalist political grafters are fighting like Kilkenny cats for the spoils of office. The traction and power trusts spending loads of money on their favorite errand boys in the city council. One group of capitalists favor the republican errand boys; another group favors the democrats. They all hate the Communists.

Workers Must Shatter Fascism's Ambition to **Build an International**

By J. LOUIS ENGDAHL

TODAY, the grand council of fascism meets in Rome, its capital city, and takes up the question of forming a Black (fascist) International. The item on the agenda of Mussolini's anti-labor war council plainly states this latest ambition of fascism as follows:

"Paragraph Four.-Preliminary examination of the possibility of a universal understanding between the fascist and similar organiza-

Just as Mussolini makes war on the Italian Communist Party thru his Italian fascisti party, so he now hopes to build a weapon in his fascist international to struggle against the growing and threatening power of the Communist Inter-

The semi-official fascist paper, Epoca, proclaims that, "The growth of movements similar to fascism in foreign countries shows the interest and appreciation with which the fascist movement is followed by at least a part of the people abroad."

American workers have already had a taste of Mussolini's fascism thru the fascist organizations built up in this country among Italian middle class and semi-working class elements. They have been successfully fought, just as the white guard organizations of Hungarians and emigre Russian counter-revolutionists in this country have been triumphantly combatted. These efforts could gain no foothold here, where the masses of foreign-born workers are in sympathy with Soviet Russia.

But this new effort of Mussolini, that will find supporters in every land where there is growing unrest in the ranks of labor, is more threatening to working class interests. It was no accident that Mussolini was invited to the San Francisco convention of American Legion, along with the late Sam Gompers, following the latter's attack on the Communists at the Portland convention of the American Federation of Labor. The idol of these American fascisti, "Hell an' Maria" Dawes, steps into the vice-presidential chair in the United States senate next month. Elbert H. Gary, head of the steel trust, has not retreated from his position, also held by Julius Barnes, late president of the United States Chamber of Commerce, that this country needs a Mussolini.

The anti-Communist campaign planned by the fascist war council in Rome today will find many co-workers and sympathizers in this country.

To be sure Mussolini has always opposed international political organization. But his attack has been only against the revolutionary organization of the workers—the Communist International. He rails at the Communist world organization, just as American capitalists, thru their kept press, carry on their ceaseless attack on "Moscow," the one word that embodies their growing fear of the workers' world

But capitalism, and its ally fascism, believe in world alliances of their own. Capitalist diplomats built the league of nations—the first Black International—following the war. But it is as aenemic as capitalist parliamentarism in the hour of crisis. The league of nations, as an international ment, is a good debating society. The ambition of Italy's grand council of fascism is to supersede the parliamentarism of the league of nations with the dictatorship of international fascism. Mussolini is as ambitious as the Caesars of two thousand years ago and would no doubt like to lead in this world effort against the rise of Soviet Power. But he is only initiating the anti-labor world dictatorship the real building of which will be taken up by the greater capitalist nations. It was France that first organized the attack on Soviet Russia. Now England is developing this role. It will ultimately fall, not to Italian fascism, but to American fascism, to organize and carry into action capitalist imperialism's last stand against the Russian Soviet Republic and its growing victories. That is why the meeting of fascism's grand war council in Rome today should be of intense interest to every worker and poor farmer in the United States. It is just a prophecy of the fascist power that will try to keep the remaining five-sixths of the world's land surface from enlisting against it under the standards of Commun-

MORGAN SITS IN "BILL" THE KAISER'S CHAIR

Who Owns Europe? That's the Big Question

Prior to 1914 and up until the armstice there was some justification for the conclusion that Europe was owned and controlled by the kaiser of Germany, his cousin Francis Josef of Austria and of a dozen and a half small nations, that are now free and independent-of the Hapsburgs but not of England and France-the king of England, and the kings and queens of the other countries big and little that go to make up that continent.

Those who read between the lines knew that more powerful than the kings and emperors were the capitalists and the great landowners who owned the land and capital, which went to enrich the master class and enslave the workers for a mere pittance. The kings and queens occupied the show windows but the captalists had the big say.

There are millions of workers in the United States who still believe that Europe is entirely owned by the capitalists of Europe. (Some of them are crazy enough to think the workers own Europe). Unfortunately all those people cannot come to the Workers Party Open Forum next Sunday to hear Max Bedacht, tell how the house of Morgan got a stranglehold on Europe thru the Dawes plan. Some day, a reader of these lines may find a suit of khaki on his back and a rifle on his shoulder, and he may then know that he is a soldier of the House of Morgan, and that he is ready to kill somebody else so that the provisions of the Dawes plan may be carried out by the enslaved working class of Europe. Of course it is quite possible that he may be fighting in a different kind of a battle, but ... we will let Comrade Bedacht, tell you all about that.

Surely you would like to know bout the "ins and outs" of this famous plan—the plan that helped to send Cal and "Hell An' Maria" to the White House. You would like to know the why, what and wherefore of it so that you can speak intelligently about it to your fellow workers.

If so come to the Open Forum next Sunday. Comrade Bedacht is one of the best speakers in the Workers Party, a member of the Central Executive Committee and a delegate from the party to more than one congress of the Communist International. He knows all about Germany past and present. And after he gets thru, you can ask him questions.

T. J. O'Flaherty, member of the DAILY WORKER staff is taking the place of Harrison George as chairman of the Open Forum. Comrade George was obliged to resign owing to pressure of other duties.

The open forum is held in Ashland Auditorium, "Lodge R Ashland and Van Buren St.

Postpone Action on Teachers' Councils

The recommendation of Superintenlent of School William McAndrew for a new form of teachers' council was referred to the administration committee by the board of education yesterlay afternoon.

McAndrew proposed to replace the egular teachers' councils, composed of teachers meeting regularly in their chools, with a council of sixteen nembers comprising the superintenlent, and principal as well as teachrs' representatives.

A vote on the "company union" ouncils of McAndrew was postponed by action of the board of education in referring the matter to the adminstration committee. McAndrew has continually practic-

GIVE US NEWS FOR A DAILY SECTION OF T. U. E. L. ACTIVITIES!

This section will be published as often as there is material to fill a page. The regular day for the T. U. E. L. section is every Tuesday, and that will appear regularly, but no live news will be held over. Our objective is to have a daily T. U. E. L. section. To accomplish this, it will be necessary to set up a volunteer corps of regular correspondents who will supply this section with live news on the everyday

struggle of the workers. This does not mean that every voluntary correspondent will send in news every day or week, but that we can depend upon them to send us reports on live questions as they happen. As to whether they are live or good reports let us be the judge. Never mind whether your grammar is good or bad, or whether your vocabulary is long or short, or whether you ever wrote an article before or not.

Send us in the news of strikes, wage reductions, union elections, shop conditions, shop activities, unemployment, in short, send us in a report of every movement of the workers on the industrial and political field, no matter how insignificant it may seem to you, and all the left wing activities in these struggles. Leninism or Trotskyism

(Continued from last issue)

Trotaky on Himself and Leninism Trotsky, in his book, "1905" (pp. 4-5) writes as follows:

We must either teach Bolshevism, Leninism, as it is, without correction, as the real theory of proletarian revolution, or, if there is anyone who be lieves that this theory is not the true theory of proletarian revolution, but that it has to be supplemented by Trotskyism in order to become such, then he must state openly and straightforwardly what alterations he thinks should be made. 64-PAGE PAMPHLET ON LENINISM OR TROTSKYISM **NOW IN PREPARATION**

This installment is part of a pamphlet"Leninism or Trotzkylsm" now in preparation. It includes articles by three outstanding figures in the Russian Communist Party: G. Zinoviev, I. Stalin and C. Kamenev, to form a most timely and important contribution to a discussion of world interest. The pamphlet will be of 64 pages, selling at 20 cents and will be ready at the conclusion of this serial publication.

mental questions of the revolution with the mutual relations of the different classes during the revolution, with the question of "permanent revo lution." or Comrade Lenin's theory and this is the question of the role played by the peasantry in the revolution, the question of the paths lead ing to socialism in an agrarian country, the question of the methods and conditions for the realization of the proletarian dictatorship in a country in which the peasant population preabstract formulas. The theory of permanent revolution is based upon a complete underestimation of the role played by the peasantry; it replies to one question only; it tells how power cannot be seized or maintained under these conditions.

Trotsky's viewpoint, summed up from a study of the "Lessons of Octomay be expressed as follows: "On the eve of the events of 1905, Lenin imparted a peculiar character to ula: Democratic dictatorship of the proletariat and peasantry. But, as 1917, that, before the conquest of later developments showed, this form-power." (Trotsky, "1905," Russian ula had only significance for one stage on the way." This is followed by a literary dissertation to the effect standpoint held by Lenin and by the that this stage was a stage on the way Bolshevist Party on the character of to Trotsky's formula. And this is the actual intellectual kernel of all Trotsky's latest writings. Trotsky shuffles his Trotskyism beneath Leninism with the whole of the literary art and talent peculiar to him. This last book of his s not written for the whole party, but or the younger generation now growing up, for the youth who within a ear or two will have to determine the lestiny of the party.

The aim of Trotsky's latest book, is to take revenge for the welve years in which Lenin exposed Trotsky's wretched policy, to prove that the revolution confirms his (Trotsky's) theory, and to poison the minds of the future leaders of the party, now studying in the Communist universities, workers' faculties, colleges, etc. by this shuffling of Trotskyism into Leninism. We cannot permit this aim to be realized.

In this book ("1917), Trotsky inveighs against Zinoviev, Kamenev, Rykov and others. I shall deal further Kamenev and Zinoviev are given, but lent theory, but the disciples of Lenin did not know how to apply it, they did not recognize the needs of the concrete situation. The formula was out by this or that Bolshevik. It is manner, but it can also be stated as follows: If we draw all the logical conclusions from the Leninist formula, we are bound to land in a bog. The formula itself is wrong, and this wrong formula has been employed logically, correctly. In the first case we have a justification of the Bolshevist theory and an indication of the errors of individual Bolsheviki, but in the second case, if we are told that Lenin's nearest disciples accepted his formula and landed in a bog thru applying it literally, then we see-enlightened as we already are by Trotsky's assertion as to the anti-revolutionary features of Leninism, and by his statement that Trotsky's theory, and not Lenin's has been "completely confirmed"—then we see that the blows struck are not directed against Kamenev and Zinoviev alone, but thru them at Lenin's main formula

I here take the opportunity of referanti-revolutionary features? Paris is ring to one of the works in which Lenworth a mass! If one can appropriate in laid down his principles at that the role of intellectual and theoretical time: "Letters on Tactics," in which he comments on and explains to the party his famous theses of April 4. Lenin writes:

"The revolutionary democratic dictatorship of the proletariat and peasantry has already been realized in the Russian revolution. . . The workers' and soldiers' Soviets are the revolutionary democratic dictatorship of the proletariat and peasantry as realized in actual life. We are still in the minority; we recognize the necessity of gaining the majority (in these orworks, Rusian edition, vol. XIV-1, p. directly concerned with the funda- 29.)

manner that we gather together the proletarian elements of town and country against the petty-bourgeois elements, on the basis of the realized dictatorship of the proletariat and peas antry. This means the mustering and organization of the proletarian ele ments on the basis of this dictator ship, in order to proceed from the revolutionary democratic dictatorship of the proletariat and peasantry to the dictatorship of the projetariat, to the purely socialist revolution. For this reason, Lenin invariably adapted his tactics to the development of the mass movement in the peasantry, and he studied the "peculiarity" of the realization of the dictatorship of the proletariat and the peasantry, which consisted of the fact that the latter, at the given stage of the revolution (April 1917), retained their confidence in the ourgeois government in the form of 'defense of native country." describing the views of the Bolsheviki contending against him (I was one of these), and after a sharp attack upon

us, Lenin writes: "A Marxist must never quit the firm ground of analysis of class relations. bourgeoisie is in power. And is the mass of the peasantry not another bourgeoisie belonging to another stratum, of another description and character? Does it follow that this stratum may not seize power by the 'consummation of bourgeois democratic revolution? Why should this not be ossible? Old Bolsheviki frequently udge in this manner.'

I replied, "This is perfectly possible it is quite possible that the peasantry seizes the whole of the land and at the same time the whole pow-

Lenin continues: "If the peasantry the social revolutionary and menshedeserted the bourgeoisie, seize the land and power in spite of the boureoisie, then we shall have a new stage in the bourgeois democratic revolution and one which will occupy us greatly.

This is much more complicated than Trotsky's theory, straight as the line in which the crow flies. For Trotsky, with his slogan of: "Off with the czar and on with the labor government," the matter was much simple He simply ignored the whole peasantry and the conditions prerequisite to the realization of the dictatorship ter Building, will be celebrated with of the proletariat in a capitalistically backward agrarian country.

The greatness of Lenin lies in the fact that he began to carry out the dictatorship of the proletariat under the given conditions of a given agrarian country, and actually did carry this out by means of constantly keep ing in sight those real elements upon whose foundation this fictatorship can not only be proclaimed, but built up.

As a matter of fact, even in April it was not possible to judge whether Russian revolution in which the peasantry would leave the social revolutionary and menshevist Soviets in the policy of the proletariat under the peculiar conditions of an agrarian country, arranged his tactics for both

possibilities. Lenin would not have been Lenin that is, he would not have been the ive enterprise. practical leader of millions in class war, if he had really taken over Trotsky's equipment, for Trotsky's theory would have inevitably led to the breakdown of the proletariat and of the peasantry as well. In its pure form, the line taken by Trotsky is sim- the Co-operative Center. ply the ignoring of the peasantry, the ignoring of that transition stage during which the peasantry still places its confidence in the ruling bourgeoisie at first, is disappointed and turns against the bourgeoisie, but still does not join the proletariat; this transitional stage which ends by theproletariat taking over the leadership of the peasantry in the form of peasant's risings, realizing the dictatorship, and endeavoring to bring about an alliance between workers and peasants in various changing forms.

Lenin, in the same pamphlet in which he wrote aginst the old Bolsheviki, states

"In my theses I have secured my self against any leaps over agrarian or petty bourgeois movements which have not yet been overcome, against any playing with 'seizure of power' by the labor government. . . 'Trot-skyism' 'down with the czar,' 'up with the labor government'—is wrong. The petty bourgeoisie (that is, the peasantry. L. K.), exists, and cannot be

Is this not the literal repetition, in the heat of revolution, of all that Lenin had long warned the party against? In 1910, Lenin had already said that: "Trotsky's fundamental error. . . is the lack of the smallest thought about the question of the transition from this (the bourgeois) revolution to a

socialist revolution."

Trotsky's "original" theory takes from the Bolsheviki the demand for decisive revolutionary struggle on the part of the proletariat and the demand for the seizure of political power, from the mensheviki it takes the "denial" of the role played by thhe peasant-

ry. . . Trotsky did not, however, reflect that when the proletariat induces the non-proletarian masses of the peasantry to confiscate the land of the landowners and to overthrow the monarchy, the national bourgeois revolution" in Russia is achieved and that this becomes a revolutionary demo-cratic dictatorship of the proletariat and peasantry

Brutally Maltreated

In order to force the prisoners to "confess" they were brutally maltreated. The limbs of many prisoners were broken. The judges took the inquisition of the middle ages as their example. Thus the leather worker Josef Csetry had his arm broken during the investigazion. Comrade Ladislaus Luka was fettered and beaten and trodden upon till he lost consciousness. The same was done with Comrade Stefan Jakob. One finger nail after the other was pealed off the hands of Comrade Stefan Toth in order to compell him by the horrible pains to make the confession. The lawyer Dr. Stefan Gyongjyossy from Hernannstadt was tortured so terribly that he had to be transferred to the hospital with serious wounds. Also women and children were maltreated in order to force them to make statements against their husbands and fathers.

MEXICAN COMMUNISTS GREET DAILY WORKER AND TELL OF MANY VITAL DEVELOPMENTS

By C. DEHESA.

(Special to The Daily Worker) VERA CRUZ, Mexico, Feb. 11.—We send our cordial and effusive felicitations on the first anniversary of our beloved daily and at the same time our admiration that the American workers have co-operated in giving the daily its own building.

The Vera Cruz section of the Mexican Communist Party held an enthusiastic meeting in memory of the leader of the world revolution who died January 21, 1924.

Galvan on Lenin and the Peasants The big event was a speech by Comrade Ursulo Galvan, president of the League of Agrarian Communes of the state of Vera Cruz. For more than an hour he held the crowd breathless as he developed his theme, "Lenin and the Peasant Problem." He compared Russian peasant life to the present peasant's existence in Mexico, told of what he saw during his visit in Russia, the great All-Russian Peasants' Exposition, of the abolition of property in land, of the Red Army must rise against the Roumanian hell of workers and peasants that defends the interests of theproletariat of Russia and of the world. W. P. BRANCHES—ATTENTION!

DERHAPS in your branch it happens there is a lack of life—a sluggishness that prevents snappy action. If this is true then two other things are very likely true as well. First, it is just possible that you have no DAILY WORKER Agent in your branch; second, the agent you have, may, because of ability or inclination, not be suited to the job.

In either case you will quite likely find the reasons for the sluggishness in your branch. Action comes of understanding-of understanding that without the most effective means of propaganda two things will happen: your branch will not be a branch of thoro Communist understanding-and lacking that, your branch will not add to its numbers as effectively as it possibly could.

In the DAILY WORKER, the Workers Monthly and the Literature Department is all the very best expression of Communist principles and tactics. You will Bolshevize your branch when you give it these three "teachers" of our party. If they are subscribers to each of the official party organs-the DAILY WORKER and the Workers Monthly-these will come to their homes and each day their interest in party problems is alive. The books and pamphlets of the party are for their education whenever they have the time for them.

A branch member does not become a thoro Communist thru branch meetings alone. And even intense activity needs the background of a clear knowledge of Communist principles.

Your branch DAILY WORKER Agent must be one of your most alert, best grounded comrades to take full advantage of the possibilities in his work. Take this question up at your next branch meeting. If you have no DAILY WORKER Agent-elect one. If he needs a committee -give him one. If he is in action or not-get a report of his activities at each meeting. Do all this and you will see your branch grow-that's a sure way to build our party!

UNEMPLOYMENT

Exceeds 1923-4 Rate, But Under 1921-22

The unemployment situation in Illi nois as shown in the January reports of the free employment ofices was worse than in January, 1924 and much worse than in 1923, according to the monthly report of the state department of labor. This large surplus of men looking for jobs existed in spite of a gain of nearly 1 per cent in factory employment which is estimated to have given 6,000 jobless persons

Not Yet to 1921-22 Figure

In the state as a whole there were 188 applicants for each 100 jobs. The Chicago office reports 201 applicants for every 100 jobs or more than 2 unemployed for each opportunity to work. In previous Januaries the number applying for each 100 jobs were 1924-166; 1923-132; 1922-232; 1921-275.

The level of factory employment in January was still 7 per cent below that of a year ago meaning over 40,-000 workers added to the ranks of the unemployed. Average weekly earnings amounted to \$27.64 as compared with \$28.77 in December and \$27.27 a year

Heavy Industry Best

The most important gain was reported by the iron and steel industry which added 7.1 per cent to its working force between December and January. Other industries reporting improvement were machinery, railroad car building, agricultural implements, leather, paint, job printing, knit gods and clothing.

Industries reporting decreased employment include food, building mater ials and furniture.

But they won't, and it remains for a labor organization, the New York Teachers' Union, to voice the protest-for the Communist press to give publicity-and explain the method whereby workers? children are robbed of culture and forced to stay in the ranks of manual laborers. The Teachers' Union deserves every aid organized labor can give in this protest.

Idaho Improvements

Those naive and cheerful souls who believe that the criminal syndicalism laws were simply the product of "war hysteria" and with comparisons drawn from christian theology told the workers that "this too will pass away," should study the recent action of the Idaho state legislature.

This collection of Mormon church satellites, water power company tools, mining corporation stoolpigeons, lumber company lackeys and shyster lawyers willing to peddle their services to anyone who will pay them real money, has re-vamped the state criminal syndicalism law and worded it to prohibit all strikes. The law now has this provision—one that war time lawmakers did not dare to include because of the need for placating the labor unions:

"Any acts or efforts wilfully or maliciously to hinder, or to destroy property or slow up work" are defined as sabotage and come "within the meaning of the act," to use the legal phraseology.

The local A. F. of L. officialdom which saw no danger to the unions when the original law was passed, and who complacently watched the persecution of members of the I. W. W. which followed. fought the amended bill. Their belated efforts made little impression on the capitalist politicians and the mining, lumber, water power and railroad interests of Idaho will proceed now to tighten the shackles of their slaves-shackles that are already

heavy enough in all conscience. A revolutionist could probably get a hearing before some of the unions in Idaho now-before he was arrested under the improved criminal syndicalism law.

The decision shows two things clearly:

giving even the slightest concessions to the workrs. at will.

Second, that the program of trust busting and middle-class reform in which LaFollette has been engaged all his life, has left the most powerful instruments of capitalism in his own state unweakened, unafraid to deprive the working class of the most feeble weapons of defense.

Wisconsin is to the C. P. P. A.-ites what paradise is to the Mohammedans, but three decades of LaFolletteism find the workers unable to force an employer to tell prospective slaves that they are expected to scab.

Hurray for "peaceful, evolutionary progress" a la "B. and O. Bill" Johnston!

Unions. The R. I. A. C. hopes that every branch of the M. T. W. will be represented at New Orleans, and that M. T. W. delegates will uphold the right of every Latin American delegate to full voice and vote. There must be no tricky hedging, such as making the conference an I. W. W. meeting with visiting delegates merely invited to make approving speeches. must be a real threshing out of policy and the foundation laid for organization of a Pan-American confederation of all marine workers. No exclusion world unity of all seamen, place the of opinions or votes of representative delgations must be permitted, and leading in the policies must be the fight against the oppression of Latin American peoples by United States imperialism

In order that the members of the Marine Transport Workers may see clearly just what the M. T. W. officers have done to continue the disunity of the world's marine workers, the R. I. A. C. publishes below the following letter, which was sent by the International Propaganda Committee of the Red Transport Workers to the M. T. W. headquarters, but which has never peen published by the M. T. W. officers or answered by them, but which certainly was received by them as may be proven by the fact that they lifted the very phraseology of its opening paragraphs and used it in, their call for the New Orleans Conference. The letter is as follows:

The acquisition would be perfectly in accord with capitalist ethics and no bandit government would dare behead him for his financial dealings for fear of setting a precedent.

"The last few years have not wit nessed any victorious action on the part of the seamen, who were beaten and routed in every one of their efforts. The fundamental cause of this is the lack of unity in the internaternational solidification of the forces of the seamen in their struggle against capital is today the most serious. most pressing task facing the seamen of all countries. To this task must be subordinated all other issues, be fore this task all the secondary differences must disappear.

"This is the question we raise be fore you. If it is difficult and practically impossible to come to an understanding with the seamen's organizations that have completely or partially gone over to the side of capital (Fargette, Havelock Wilson, Julietti) it is certainly possible and extremely necessary to establish some sort of unity and agreement among the revolutionary seamen. It is primarily a question of the establishment of an agreement between the revolutionary seamens organization grouped around the I. P. C. and the revolutionary seamen organized in the I. W. W.

"The main difficulties which have stood hitherto in the way of such an agreement consisted of the fact that in the center of all negotiations stood the question of the affiliation of the I. W. W. to the Red International of Labor Unions, which the I. W. W. has refused to do. However, the above mentioned situation urgently dictates the establishment of some sort of an agreement. That is why the I. P. C. of Transport Workers considers it necessary to urge you to take up the question of contact and co-operation between the I. P. C. and your organ-

"That such contact, co-operation and friendly connections are absolutely indispensible, is shown by the following fact. Lately the organs of European shipping companies have been conducting a strenuous campaign on the question of the so-called "desertion" of the European seamen and on the work of the I. W. W. The quit ting of the European vessels at Am erican seaports by the seamen, which is due to bad conditions and low pay, is explained by the I. W. W. agitation according to the capitalist press.

"And we are now facing the preparation of a crusade against the European seamen on the one hand, and against the I. W. W. on the other, the part of the European shipping interests. We have information to the effect that this question is being vigorously discussed among the employ ers and that hostilities will be opened after the presidential elections in Amtogether indicates that last war may erica.
