Reckoning Day Coming The When Workers and Poor Farmers Learn Truth

By J. LOUIS ENGDAHL

"TODAY, THE CONCLUSION MAY BE DRAWN THAT THE GENERAL FINANCIAL OUTLOOK IS MORE FAVORABLE THAN AT ANY TIME IN THE PAST."

This is the concluding sentence in the leading editorial of "The Soviet Union Review," Saturday, Jan. 31. The "Review" is the publication of the Information Department of the Trade Delegation, in London, of the Union of Socialist Soviet Republics.

It would be much easier and cheaper for the American kept press to get the truth about conditions within the Workers' Republics, from the Soviet Delegation in London, than to send its correspondents snooping around emigre circles in Riga, Copenhagen, Helsingfors, and other centers of counter-revolution. Which it is not at all anxious to do. Only added proof that it does not want the facts about

It would certainly be a bitter pill for the American capitalist sheets to be compelled to report that the outlook in Soviet Russia is better today than at any time since the Bolshevik Revolution swept the last remnants of capitalism from power on Nov. 7, 1917.

Here are some of the facts:

The gross value of industrial production during December, 1924. amounted to 164 million roubles, an increase of 44 per cent on the figure for December, 1923, and of 7 per cent on November, 1924.

In spite of the unfavorable weather conditions, it was considered .that the condition of the winter-sown crops was not dangerous.

Up to the end of the year, the flax harvest had given a yield of 4.3 million poods of flax as against 3.3 million poods anticipated in the

The value at pre-war prices of the foreign trade turnover during December amounted to 44.3 million roubles, an increase of 13.3 per cent on the November total. The total excess of exports amounted to 2.9 mil-

The value of currency in circulation had increased by Jan. 1, 1925, to 742.7 million roubles.

These are not encouraging facts for capitalism. They should be inspiring truths for workers everywhere. But this is not all.

Every capitalist nation on the face of the earth is having trouble with its budget. The masses everywhere are groaning under the increasing, tax burden.

The kept press has had much to say about the collection of taxes in Soviet Russia; thus trying to satisfy working class tax bearers with their burdens in capitalist lands. They have attacked the Soviet Budget estimates for the financial year, October, 1924, to September, 1925, as ratified by the Council of People's Commissaries as impossible of realization. Yet what has been the result?

The receipts have not been lower but much higher than the estimates. This was the showing at the end of the first quarter. Thus an upward, not a downward revision of the budget was made possible, from 2,091 to 2,278 million roubles, due solely to the growth of ordinary revenue, especially revenue from taxation. THIS INCREASE IS DIRECT EVIDENCE OF THE GROWING PROSPERITY OF THE COUNTRY.

This growing revenue has not resulted from higher taxroubles in the single agricultural tax, chiefly benefitting the poorer peasantry.

Here is another fact. The increased trade turnover allows of the expectation of an increase of 40 million roubles from railway transport receipts. FOR THE FIRST TIME THERE WILL BE NO DEFICIT IN THE WORKING OF THE STATE RAILWAY SYSTEM. The budget makers and the pork barrel statesmen at

Washington would be tremendously shocked to study the manner in which the Russian workers and peasants dispose of their surplus income. Here is the way they do it:
SIXTY-FIVE MILLION ROUBLES FOR NATIONAL
EDUCATIONAL AND CULTURAL REQUIREMENTS.

SEVENTY MILLION ROUBLES ADDED TO THE RE-SOURCES AVAILABLE FOR IMPROVEMENTS IN AGRI-CULTURE AND INDUSTRY. TWENTY MILLIONS OF THE ABOVE 70 MILLIONS

GOES FOR WORKERS' HOUSING CONSTRUCTION. These items are always the first to suffer when a cap-

italist state trims its budget; the last to get any attention when there is a little money on hand.

All these facts clearly show why the capitalist press, of this and other countries, does not care to publish them. But the Communist press will carry them to the workers and poor farmers, who will gradually become fully acquainted with them. That will help hasten the day of reckoning-for capitalism. And it will be some day of reckoning.

Job Conditions Bad.

The present working conditions are considered unendurable, the workers being compelled to labor 60 hours a week and over, the night shifts being 12 hours with no time for lunch and forced to attend seven and eight machines which leaves them without even a breathing spell for necessary moments of leave.

The present wages are \$30 which the union cannot tolerate any longer. The demands include that four instead of seven and eight machines shall be the limit for each worker.

Arrest Pickets. Nine pickets were arrested yesterday near the Crystal mills, 60 Broadway, Brooklyn, but the union is taking steps to increase its activities instead of slacking up on account of the police interference.

The strike is conducted by the International Ladies' Garment Workers' Union and the United Textile Workers. Local 55 is affiliated with both the I. L. G. W. U. and is also paying per capita dues to the Textile Union, as there are workers in both organizations. Headquarters are maintained at 105 Montrose Ave., Brooklyn.

These workers have been thrown into jail while defending their union during the Seamen's Tells T. U. E. L. of strike in 1921. They tell the following story:

"The strike in which we were involved occurred in Portland, Me., in 1921. In that strike we boarded a Dear Comrade: schooner manned by strikebreakers lying at one of the wharves in Portland. Unfortunately for us, one of them was killed and seven seamen were sent to state prison, sentenced from three to eleven years. I am doing six years.

United Front for Textile Workers Stirs New England

In every city and town of the New England textile region where the Workers Party and the Trade Union Educational League have adherents or sympathizers a militant movement is arising in response to the call put out by these organizations to textile work ers to force the little and impotent craft unions to join their forces in a great wide-spread united front against the wage cuts, to include also the great mass of unorganized workers.

News of the textile strikes and the rising united front movement is given n the news columns of the DAILY WORKER every day. That the T. U. E. L. proposal of the united front of ing the rank and file of these unions members of the organization so that and agitating the masses of unorganized workers, is most evident from the fact that the labor fakers are cooperating with the mill owners and the capitalist newspapers to oppose the united front. Meanwhile sporadic strikes take place everywhere.

At the last regular meeting of Lincoln Lodge No. 209, I. A. of M., of Hammond, Ind., they went on record against criminal-syndicalist laws in general and the Michigan syndicalist law in particular. We publish the "Resolves" of the long resolution condemning the unjust sentencing of Comrade Ruthenberg and the attempt being made to railroad Wm. Z. Foster, W. F. Dunne and the 29 other well known fighters in the ranks of labor.

The "Resolves" are as follows:-

"RESOLVED, That we protest against and condemn the action of the supreme court of Michigan, record ourselves as in support of the Labor Defense Council in its case and call upon all labor bodies and working class bodies to take the same stand. That we petition the governor of the state of Michigan to pardon the defendant in event the supreme court sustains the conviction, it being our view that such actions on the part of the federal supreme court would be a nullification of the constitution in the interest of instruments of capitalist suppression of the workers; and,

CHICAGO NEEDLE TRADES T. U. E. L. HAS PRACTICAL PROGRAM OF WORK

At the general meeting of the Chicago needle trades section of the T. U. E. L. held on Sunday, Feb. 15 besides electing an executive committee the following program of work was drawn up:

PROGRAM OF WORK FOR NEEDLE TRADES GROUP. Militant work within trade unions for the purpose of gaining leadership

The league shall make a special of the organized masses and utilizing the organizations as instruments for

In the needle trades unions our tasks are the same as in other unions and our methods must correspond with the actual conditions prevailing. Our

fight for leadership of these organized workers will necessarily lead to a struggle with the present bureaucracy which controls the unions. Our the officials to the membership with policy is, no compromise with the bureaucracy which promotes class collaboration, openly or secretly. Our fight for leadership must be extended to every local union and every shop, based on the general left wing issues of the T. U. E. L., such as, militant struggle against the bosses, organization of the unorganized, amalgamation of all needle trades unions, independent class political action, relief for and organization of the unemployed, struggle against wage cuts, organization of shop committees, etc. as well as on the specific left wing issues of each trade. Generally, we must participate in all elections, in local unions and shops, bringing forward the left wing program and endeavor-

gle against capitalism. Methods of Propaganda.

It should be our method to use all the means available to carry on this work, such as publicity thru specially written articles and statements, leafin unions and shops. TRADE ISSUES.

Amalgamated Clothing Workers. Direct negotiations with the bosses

by the workers thru their elected com mittees. Struggle against wage cuts in all orms, such as re-adjustments, etc. Week work as against piece work

with minimum scale and maximum production. No suspensions by the manufacturers without charges and trials.

Maintenance of the unemployed at the expense of the bosses, funds to be administered by the union. Criticism and struggle against preent unemployment benefit scheme as altogether inadequate to meet the

growing unemployment. Establishment of shop committees as the basic units of the organization. International Ladies' Garment

Workers. Struggle against present official-

union by policy of expulsion. Organization of the trade based the T. U. E. L. upon militant struggle against the bosses, with program of real union-

Struggle for reinstatement of expelled members, in complete co-operation with national struggle.

Read This, Then Do Something About Like It

Southern Illinois is the scene of the most outrageous acts committed by the ku klux klan against organized labor, as Post would say, "There's a reason" and that reason is the strong left wing movement that is developing in the coal fields of that section of the country. In spite of unemployment the progressive miners fully realize the need of financing the T. U. E. L. and pushing the distribution of the league literature. N. Y. TENEMENT **BABIES VICTIMS OF THE RICKETS**

Sunlight and Good Food Shown to Be Lacking

(By The Federated Press)

NEW YORK, Feb. 16.-Three out of four tenement babies develop rickets before they are one year old, finds the New York association for improving the condition of the poor.

"Rickets may be occasioned by one of two factors, or by both together," the association reports. "(1) inadequate exposure to sunlight, (2) a diet deficient in a food accessory vitamine, whose nature is as yet unknown, but which enables the body to store calcium and phosphorus in the bones from the food taken into the body."

Sun Doesn't Reach Them. Poor children whose mothers can do no better than parking their babies in carriages on the sidewalks of streets darkened by high crowded tenement buildings suffer, three out of four of them, for the rest of their lives from bow legs, knock knees, or other serious defects amounting to crippling in some cases.

Working mothers on New York's east side commonly leave their babies under the care of a feeble grandmothed or old neighber who could not wheel the infants into better air if there were even an open square near-

Slum streets are left notoriously filthy, ignored by city health inspectors and refuse collectors. In winter especially the danger to tenement district children is great because of the foul mixture of unremoved snow and garbage in which they are forced to

Rickets is most prevalent in winter in the north temperate climate, particularly among races with dark skins in which the pigment still further retards the effects of the sun's rays.

Infants of three months to one year in age are most readily affected when their working parents cannot earn enough to feed them properly and give them healthy sunlight.

Our Readers' Views

Trying to Fool 'Em Again. To the DAILY WORKER: There has recently come to my attention a book entitled "The White Slaver of the World," published by the Rights of Labor association, Toledo. This book contains a mass of misinformation regarding Soviet Russia, Communism, etc. The book is edited by Tom Patterson, former secretary, department of public safety, Pittsburgh, Pa., assisted by Bill Patterson, Keystone Lodge, 590, B. R. C.

Because the title is misleading I have brot it to the attention of the readers of the DAILY WORKER so they will not buy it thinking it contains worthwhile information.

With best wishes for the DAILY WORKER, P. R. Matkowski.

Thanks DAILY WORKER.

Editor of the DAILY WORKER: I am writing for my brother, Andrew Graham, who is in the Swedish Covenant hospital, to express his appreciation and that of his family for the help that has been given him. It has been a great help and we are all deeply grateful to all those who have helped us in any way. Sincerely yours,

Little Red Library

Party was the centralization of the Daily Worker, Workers Monthly and the Literature Department of the Workers Party into the hands of he Daily Worker Publishing Company, Making it today "the source of all Communist Literature" in this country; making it the heart of all arteries thruout the land thru which flows the life-giving Red pro-

paganda to reach the American workers for Communist understanding. The DAILY WORKER takes this responsibility seriously. Six new pamphlets are now in preparation; additions are being made to the present literature stock; arrangements are being completed for prompt del-Ivery to it's hands of every new important Communist publication from

every country in Europe. On it's own part, the DAILY WORKER will begin the publication of an innnovation in American working class literature. THE LITTLE RED LIBRARY begins it's publication today. On the presses are the first two numbers of the little Red giant that will stimulate working class educa-

ion as nothing has done in the past. This little library will contain all numbers of a uniform, pocket size, selling at ten cents a copy and twelve copies for one dollar. But it will be a departure from the usual run of our party publications.

Including books on social, economic and political problems, it will be wide enough in scope to include history, philosophy, fiction, poetry and art. Everything to raise the standard of Communist thought and culture.

The size of the books will vary with the requirements of the subject covered. The small volumes will range from thirty-two to sixty-four pages, with a cover on which a distinctive design will immediately stamp the

little volume as a number of the Little Red Library. New numbers will follow in quick succession-every two weeks if material is available. It needs but little imagination to visualize the big possibilities of the series. The obvious advantage is the convenient pocket size. A copy can be carried always to read on the street car, at lunch-at spare moments

that will be moments gained. The price is within the reach of the lowest paid worker. And what a factor these two items of size and price will prove to be for propaganda purposes! We predict that you will not only begin building your own library, but you will give away copies with great pleasure. It is precisely for the obvious propaganda advantages that the price of twelve

copies for one dollar has been set. THE LITTLE RED LIBRARY will do more. It will stimulate the "reading hunger," develop the necessary intellectual stimulus to thought on all working class problems, for the convenient size and price of the little volumes takes away all obstacles to possession. The brevity, the condensation of valuable material into a short volume with careful editing will add to the ease in reading without detracting from value. This factor is not without inportance for the workers who is physically

and mentally fagged out after a day of hard labor. And still another particularly rich vein has been struck by the LITTLE RED LIBRARY. This is the unearthing and developing of working class writers. Here is a field for our party's future writers to develop in, and the editors of the LITTLE RED LIBRARY will receive original manuscripts on all subjects within its range. Necessarily until the success of the publication of the series is a fact, the size of all material sent in must be restricted to 15,000 to 30,000 words.

These are the facts of the new arrival in the field of American working class literature—and these are the possibilities. THE LITTLE RED LIBRARY holds all prospects of being one of the chief mediums for the future development of the Daily Worker Publishing company-"the source of all Communist literature."

The first two numbers are now ready. No. 1-TRADE UNIONS IN AMERICA, by Wm. Z. Foster, Jas. P. Cannon and Earl R. Browder, is a brief summary of the trade union movement in America and the history of the development of the left wing ,with an explanation of the structure and program of the Trade Union Educational League.

No. 2-CLASS STRUGGLE vs. CLASS COLLABORATION, by Earl R. Browder, is a study of labor banks, the B. & O. plan, insurance schemes and worker's education. This little book throws the spotlight on the methods used by the labor bureaucracy to divert the working class from militant struggle against capitalism.

JURY LETS OIL TRUST USE ETHYL **LEAD POISONING**

DuPont Is Still Making "Looney Gas"

(By The Federated Press)

ELIZABETH, N. J., Feb. 16.-In spite of the protests of organized labor of New Jersey the sale of ethyl lead treated gasoline is again to be permitted in the state because of the Union county grand jury's decision that Standaird Oil company's subsidiary, Ethyl Gasoline Co., was not "responsible" for the deaths of five workers and the insanity of others engaged in manufacturing the "looney gas."

Tests Inadequate. Yandell Henderson, professor at Yale and expert on the physiology of poisonous gases, at the same time states that the tests made by the U. S. department of mines are inadequate and do not prove ethyl gas fumes are harmless.

Henderson and other specialists are making tests to determine whether tetra-ethyl lead treated gasoline exhaust fumes are harmful. The lead fumes which workers are exposed to in manufacturing the gas are known to be deadly.

Death Plant Closed. The Bayway plant of Standard Oil has been closed since the workers' that it be not opened until the company has perfected machinery of some kind which will eliminate the great dangers to workers in making etthyl gas. Meanwhile the workers at Wilmington, Del., in the DuPont plant are exposed to the hazards of lead gas poisoning because manufacture of the

"Labor Attache" Jobs Given Labor Fakers

(Special to The Daily Worker)
MEXICO CITY, Feb. 16.—The Mexican Federation of Labor has officially declared that it will not support strikes of its local bodies unless, before the strike is declared, the issue is submitted to the central committee. Cannot Meet Budget of 34 Billion Francs

PARIS, Feb. 16 .- The French franc ontinued to drop today, all the patriotic speeches of the ministers beng unable to obscure the fact that 34,200,000,000 francs must be raised somewhere, somehow, if the 1925 budget is to be balanced.

Premier Herrito stepped out in the hamber of deputies as a champion of "national currency." Herriot made a speech which concluded, "I appeal once more to the sacred union of all Frenchmen, regardless of party politics, for the defense of our national currency.'

Limit Reached.

Deputy Violette, who introduced the nance bill in the chamber, said that hirty-four billion francs was the exreme limit the country could stand. Parliament must decrease the taxpayers' burden and float a great consolidation loan," Violette stated.

Out of 34 billion francs expenditure, it was revealed, 19,500,000,000 francs is interest on the French public debt, exclusive of war debts, six billion are for the upkeep of the army and navy, country are eight billion francs.

Bankers Confer with Herriot

The regents of the Bank of France onferred most of last night with Premier Herriot on the crisis brought on by the fall of the Fench franc. The financiers wrung a promise from Herriot that he will change the fiscal bill, abolishing the proposed tax on corporate earnings. This tax on large corporations was one of the principal platforms of the Herriot government, the one which gave it what Herriot called "socialist leanings."

The ease with which Herriot threw verboard one of his principal planks, n order to induce the financiers to aid him in bringing France thru the financial crisis has surprised some of Herriot's followers.

The financiers have carried their point that corporate earnings shall be entirely exempt from the proposed heavy taxtation to raise the budget for 1925. Herriot declares that his political opponents "create an atmosphere of financial unrest by exaggerating the socialist menace."

Who Fights Wage Cuts?

Commodity prices are on the upgrade and the dollar now buys but 62 per cent of what it secured in 1913. In the second quarter of last year the dollar reached the high point of 69.1 cents as compared with its purchasing power in 1913 and since then there has been a steady decline.

Wage increases reported are few and far between with the building and operating trades in railway transportation about the only industries in which raises are shown. Even in these occupa-Tions it is pretty well established that the wage increases have been offset by surrender of some of the working conditions hitherto enjoyed.

In the coal mining industry unemployment in the union fields has greatly reduced real wages and altho the union scale has been maintained nominally concessions to the coal owners in the matter of long established working conditions in many localities, as in the building and transportation industries, has operated to actually reduce the union wages.

In textiles a campaign of wage cuts affecting the whole industry has been launched and the average wage increase of seven and eight per cent occurring in the latter half of last year are to be wiped out by reductions of ten per cent and more in the miserable earnings of the workers.

The rise in living costs causing the steady fall of the purchasing power of the dollar, the scarcity of wage increases and the actual reductions in many instances of money wages, all indicate that bankers. even with industry operating at a fairly rapid pace the standard of living of the American workers is being lowered.

The official leaders of the unions are doing nothing effective to combat this dangerous tendency. Political event. Police and Pickets

We cull from a New York paper a story telling of the appeal of one Raymond McMahon, secretary of a local of the United Textile Workers, which is on strike, to the Brooklyn police for protection for the union pickets from the bosses' thugs.

We have heard of persons trying to put out a fire with kerosene, of the fish that jumped from the Strikers Refuse to Acfrying pan into the fire, of drinking carbolic acid to cure stomach trouble, but these are all achievements of genius compared to the action cited.

The Franc and the Bankers

The decline of the franc is another squall descending upon the already troubled waters of international politics.

The capitalist press dismisses it as an internal ject to textile workers all facing the squabble between the factions of Herriot and Poincare, but the incident brings out clearly the position of France as vassal of the international united front than the Communists

ure as receiving, the DAILY WORKER and its supporters can meet each other on a basis of equality. We always give a full return for every dollar the working class put into this paper. This, we have been assured by our readers is truer than the gospel. We simply take their word after being thoroly convinced that this paper is the only working class daily paper published in the English language on this continent. This is tall talk, but it is true. ONE of the most disagreeable

features of keeping a revolutionary paper in the field is the necessity for continually asking for funds. This is something, you will never see the capitalist papers do; that is, in the way we do it. They don't ask their readers for direct contributions. They simply secure new readers by devious means and take their profits in advertising. We are after readers, working class readers. We don't give three hoots in a graveyard for advertising except in so far as it provides revenue to enable us to get in touch with more readers and reach ever greater masses of workers.

MONEY! "Filthy thing," some will say. "Why not abolish it altogether and make the world cleaner and brighter?"

Nothing much the matter with money, poor little innocent means of exchange, handler than chunks of granite or wild bulls, which are hard to carry around in the jeans. The only thing the matter with money is that those who produce the wealth which it conveniently represents, have very little of it and thereby hangs a tale. That's why the DAILY WORKER is here and that's why we are asking those who get very little of the wealth they create to chip in a dollar to our drive so that they or those who succeed them on this world will get as much of the product of their toil as is possible under a Communist form of society.

THE DAILY WORKER unhesitatingly calls on its readers to chip in. It is your paper. When we say this, we are not handing you any taffy. Of course the Workers Party is running it, but it is the workers' paper, and they are beginning to realize that fact more and more. We want to insure its existence for this year and when this year comes to an end, we will insure it for the next and so on until the DAILY WORKER becomes the official organ of the United Socialist Soviet Republic of America.

WE will have more to say tomorrow about our insurance drive. Hundreds of workers write in and say, "We don't know how you manage to keep the daily going, at a time when the corpses of labor and yellow socialist dailies pollute the political graveyards of the United States." As the screen serial does we will let you in on the secret in our next issue.
