THREAD TRUCT CUTS WAGES THAN EVER BEFUKE IN HISTOR

By WILLIAM SIMONS. (Special to The Daily Worker)

WILMANTIC, Conn., March 16 .- The American Thread Co. cut the wages of its employes 10 per cent on January 12 of this year. It is typical of the capitalist class which, at the same time that it hugs to itself exorbitant profits, constantly attempts to lower wages.

Recently the Workers Party at a hearing before the legislative committee on labor and an anti-strike bill, revealed the huge profits of firms like the Scoville Manufacturing Co. of Waterbury, Conn. The American Thread

The report was made by the vice-president of the federation. It condemned the Dever ordinance and the condemnation was justified. The Dever plan is not municipal ownership. It would simply mean that, whereas now, the bankers own the street railways and elevated lines thru their dummy corporations, under the Dever plan, they would own them thru a city corporation.

ANTI-RED POLICE RAID FLAYED BY

Three Members Held in \$10,000 Bonds

(Special to The Daily Worker.)

NEW YORK, March 16. - Three members of the Workers (Communist) Party are held here in bond of \$10,000 each under the old Sullivan law against non-aliens carrying arms.

The arrests were made by Captain Gegan of the notorious bomb squad and the "arms" found on the Workers Party members were old rifles rented from the Stanley Costume company for participation in the Paris Commune pageant which took place in Madison Square Garden yesterday.

That a police official could take such liberties with the law against a working class organization is added proof that no legal forms are observed by the capitalist government, when

The following statement was issued by the Workers Party of New York in connection with the arrests:

Party Isues Statement.

"The Workers (Communist) Party repudiates as a silly frame-up and a travesty of justice the much advertised exploit of Captain Gegan in the seizure of a few ancient muskets of the model of 1776 and the detention of innocent participants in a theatrical performance under the absurd bail of \$10,000 each.

"This heroic undertaking received wide publicity in the press as the apprehension of Communists engaged in gun drill presumably in preparation for the overthrow of the United States government.

"The whole affair would be an amusing revelation of the antics of Captain Gegan and his merry men and of the susceptibility of the capitalist press for red scares regardless of facts, were it not for the serious consequences involved for the victims.

Man of Vision?

"Captain Gegan is living up to his reputation of 1919 when he showed himself an adept at 'seeng things' about the reds which he always failed to substantiate in court. Gegan after a long period of quiescence is again in eruption.

"On Friday night this mighty defender of American capitalism swooped down without a warrant upon the headquarters of the Workers (Communist) Party, 108 E. 14th street and the Ukrainian Hall, 17 E. 3rd street, and confiscated a few useless old muskets that were hired together with other theatrical paraphernalia from the Stanley Costume company, 306 W. 22nd street, for use in a pageant to be given tomorrow (Sunday) in Madison Square Garden in commemoration of the anniversary of the Paris Commune. Three of the participants in this pageant who happened to be standing near were arrested and held

NEW YORK CITY, March 16 .- Thirty thousand dollars must be raised as bail for the comrades arrested by the New York bomb squad. They must be released from the clutches of the law as soon as possible. Funds must be collected for their defense. The government seems determined to use these cases as the first steps against the whole party. According to Captain Gegan, there is going to be a "clean mop-up" of radicals in New York City.

No time dare be lost. Thirty thousand dollars must be raised at once; funds must be collected for defense. Comrades, appeal to your trade unions and fraternal organizations to support these comrades. Pope Offers Commuted them will not have the vote in taken Term in Purgatory

That Pope Pius XI is granting "special indulgences" to American oatholics who actively fight against Soviet Russia, is admitted by the catholic union, an organization which states as its aim "The reunion with the holy church of the separated brethren of the Near East," and which is raising funds among catholics in this country to spread propaganda against Soviet Russia.

"Please contribute generously," says Rev. Dr. Augustine Count Galen, O. S. B. after describing the "horrors" of Soviet Russia. "Remember, too, that as a donor you become a member of the catholic union, and will receive a membership certificate which will entitle you to the special indulgences granted by His Holiness Pope Pius XI, to all our members."

Apparently, according to the S. O. B.'s letter, this certificate is to be presented at the gates of purgatory. If only ten dollars has been contributed to the fight on Soviet Russia, ten days are clipped off the catholic's sentence to purgatory. If \$200.00 has been given to fight the workers and the sentence is commuted 200 days, "by order of the pope." The devil is duty bound, according to catholic rules, to honor the pope's anti-Soviet RATHER funny tho, that at the certificate.

Workers Must War on Officials Surrendering The Right to Strike

By J. LOUIS ENGDAHL

TODAY, the pet lackeys of the late Sam Gompers, who toadied to him as president of the American Federation of Labor, are still on the job trying to dictate policies for the American working class.

Among those closest to Compers was the renegade "socialist," John Spargo, who argues in an article in the March issue of the North American Review, that there will be no appreciable change in A. F. of L. policies under the regime of President William Green. If any changes develop, he says, they are such changes as would have taken place under Gompers had he lived.

But Spargo cleverly hides the propaganda poison in his effusion. An adept at sophistry he employs it to the

utmost in his sapper work for the employing class. Spargo argues that the workers must surrender the "right to strike" on public employment. In this category he includes not only the transportation industry, especially the railroads, but also the coal mines, re-calling the complete capitulation of President John L. Lewis, of the United Mine Workers of America, in the last great struggle of the coal miners of, "We cannot strike against the government."

Spargo knows whereof he speaks. The efforts of the capitalist state to outlaw strikes on public utilities on the ground that they constitute a direct attack against the established order is not new. When the renegade socialist, Briand, before the world war was in power in France, he broke a strike of the French railway workers by calling them to the colors; forcing them into the capitalist military machine, thus making the strike treason against capitalism.

It was during the recent short-lived regime of the Mac-Donald (labor-socialist) ministry in Great Britain that secret plans went thru the war department for the intervention of the military arm of the state in future railroad strikes. It is with this encouragement that the railroad owners in Great Britain have been carrying on an aggressive campaign for wage cuts.

It may be taken for granted that the intellectual stoolpigeon, Spargo, does not speak for himself alone. He voices the sentiments of that great bulk of American labor's officialdom that is ready to make further and more drastic concessions to the employing class. Spargo writes:

"We may admit an abstract 'right to strike' in the same sense and way as we admit an abstract 'right to revolution.' There is the right, also, of society to protect itself against revolution and to crush the revolution that imperils its safety, if it can.

"It is not at all an exaggeration to say that the United States of America can as easily contemplate with equanimity the secession of several states, as the cessation of labor for any length of time upon our railroads or in our coal mines."

It isn't difficult to see where Spargo and those for whom he speaks in official power in the labor movement will be in the future, as they have been in the past, in labor's struggles. Spargo was with Compers and the rest on Wall Street's side, urging participation in the world war, to save Morgan's gold. In the fierce combats to come, when labor will struggle to maintain its standard of living, or better it, this whole seg-ment of the labor movement will place itself closer than ever at the side of the capitalist ruling class.

Treason to the whole working class is being committed by these so-called "leaders" even now in refusing to prepare for these coming and inevitable struggles. A. F. of L. executive council recently met at Miami, Florida, it reported "nothing to do."

Down in Washington, today, it is reported that no agreement has been reached on the jurisdictional squabble as to whether the street carmen's union or the teamsters' union should have jurisdiction over bus drivers. And the fight as to whether the Brotherhood of Locomotive Engineers should be allowed to hire non-union miners in its coal pits still remains unsettled. These two instances are typical. Labor's officialdom shows its incapacity in the failure to settle even the most simple internal squabbles of the organized labor movement. Instead they destroy every possibility of a disciplined, organized struggle. They all agree on one point—that the logical solution of amalgamation of craft unions into huge industrial unions must be fought wherever it appears. Thus they prove the best servants of the bosses.

In the meantime the representatives of the great mine owning interests of the nation meet today in Cleveland, Ohio, to discuss the launching of a wage cutting and "open shop" war against the coal miners' union. Capitalism prepares for the next offensive against the working class. It is time for the rank and file of labor to prepare to move in an effective counter-attack.

"At the last meeting of the general executive board held in Indianapolis, Jan. 25, evidence was submitted to that body showing that William Reynolds, a member of Local 2140, Detroit, Mich., is a member of the Trade Union Educational League, an organteation detrimental and contrary to the interests of the United Brotherheod. The general executive board ordered said William Reynolds expelled from the United Brotherhood.

"In cases of this kind it is not a local matter. It therefore becomes the duty of the general executive board to deal with it, and Section 55 does not apply."

Hutcheson never even gave him the to be thankful for. opportunity to either deny or affirm his membership in the T. U. E. L. let alone consider whether the T. U. E. L. is a dual organization. In fact it sion was made by Hutcheson to expel Reynolds and a number of others thruout the country long before the last convention took place, and the G. E. B. did not wait five minutes on the matter.

If the T. U. E. L. was dual to the Carpenters' Union there would be no need to violate Section 55 of the constitution. The carpenters of Detroit would be a unit in expelling Reynolds or anyone else connected with the T. U. E. L. if this was the case. But what is the real situation.

Is The T. U. E. L. a Union?

Reynolds is president of his local union, vice president of the district Until the public is ready for same, or council, and every local union in Detroit, and the district council, as well as hundreds of local unions thruout the country have rallied to his support. Hutcheson got out an injunction to restrain Reynolds from attending corresponding to an American stand- of working class opinion. Resign and his local union meetings.

This injunction was violated by Reynolds, and he was charged with contempt of court. But so much mass pressure was brought to bear upon the court, that it was forced to dissolve the injunction and dismiss the the United Brotherhood into their uals who believe in certain ideals,

PITTSBURGH, Pa.-Machinists' local Lodge accuses international officials of being responsible for defrauding the lodge out of thousands of dollars and reinstating crooks into the organization over the protest of the ocal lodge.

Keystone Lodge No. 1070, of the International Association of Machinists at Harrisburgh, Penn., answers E. C. This local lodge gives the reason why they did not nominate Davison, and furthermore gives the reason why Johnston was not nominated.

Following are a few specific reasons for the above opinion.

"We charge you with being mainly responsible for the loss to our lodge of \$3,000, to our members and former members of between \$12,000 and \$14,-000, and to the Central Labor Union of Harrisburg of \$4,700 by encourging the purchase of stock in the Columbia Credit corporation of Washington, D. They refused to allow their names to be used in this scheme and you, or any other officer should have done the same.

In Philadelphia, Local 140 was the naturally it was expedient to have it first to feel the effect of this new policy, announced by Hillman in an order that they could the better reach arrogant speech to the New York joint board. Prior to the election for local offices and delegates to the joint board, a vicious campaign against the left wing administration was launched by the right wing badly disguised as

The membership gave its decisive answer when it re-elected the old administration by a vote of 2 to 1. The right wingers staged a demonstration and a handful of them straggled out amid the jeers of the membership. It is essential at this point to mention that Mr. Rudow, the Philadelphia manager of the Amalgamated, presided at the meeting, counted the votes and declared the old administration re-elect

When the delegates of Local 140 came to the meeting of the joint board, Mr. Rudow declared that the election was illegal and therefore the delegates can not be seated. The members left the meeting and that the elections were made by a show

The membership of the local does want to become the victim of Rudow's political schemes, and they bitterly resent his actions. The local voted to reject the decision of the joint

Joint Board Calls New Elections

The joint board has met again, and old timers in the Amalgamated say that it was the most bitterly contested meeting in many years. Of special significance is the fact that the delegation from the Italian local under the leadership of De Martini stood solid and led the fight for Local 140. Even with the seats of Local 140 vacant the vote stood 12 to 12 on a motion to call a new election by secret

It was with the vote of the machine chairman that the decision was made. The election will be carried out under the control of a special committee of the joint board and one can well imagine what methods will be used

to oust the present delegates. Do It Over-And Better

Altho the members of the local are opposed to a new election they will most likely accept it as a last resort in order to again support the present members of Local 140 will again show that they can not be intimidated and browbeaten into accepting a discredited leadership. They will again elect the left wing delegates in spite of all obstacles.

BOASTS OF 4,448 DEPORTATION LAST SIX MON

Numbers of Alien Workers Turned Over by Spies

(Special to the Daily Worker) WASHINGTON, D. C., March 16-In the last six months the deportations amounted to 4,448, an increase of about one-third over any similar period of our history." Such is the boast of Senator David Reed, a republican of Pennsylvania on the floor of the United States senate yesterday.

Perfectly satisfied with this accomplishment of the capitalist white terror against alien workers, the senator went on to say that not only were more workers being deported from this once heralded "refuge of the oppressed," but that far more were leaving for southeastern and eastern Europe than were arriving, evidently not so enthusiastic over American democracy as to wish to stay, while the net gain from all Europe of arrivals over departures in the last six months is only 19,203.

America Not So Popular.

It was revealed that during the last six months no less than 48.120 aliens shook the dirt of democracy off their shoes for good and left for Europe to stay, while only 67,303 of Europe's population, supposed to be wailing at the gate trying to get in, really came. UNIONS ADOPT STAND OF REDS ON CHILD LABOR

All Trades Behind Communists' Fight

NEW YORK, N. Y., March 16 .- The Workers Party and the Young Workers League of New York district following the program outlined by the central executive committee of the Workers Party and the national executive committee of the Young Workers League in the campaign against child labor, have already circularized all of the unions and other labor and fraternal organizations with a letter and resolution unmasking the entire system of child labor exploitation existing in the United States.

The Workers Party and the Young Workers League will carry on a strenwous campaign in this district against child labor, not only by exposing the child exploitation that exists in this city, but also by unmasking the bourgeois liberal organizations that pretend to favor the abolition of child labor. Only thru the abolition of the entire system of capitalist exploitation will child labor be abolished.

The Workers Party and the Young Workers League call upon the militant members of the labor organizations of this city to see to it that the resolution is acted upon in their organization, to see to it that mem bers of the Workers Party or Young Workers League are invited to speak on the resolution to insure the mo bilization of their organization behind the Communist campaign to abolish child labor.

Among thase organizations acting favorably on the resolution are: Millinery Hand Workers' Union; Glass Bevelers, Mirror Workers' and Cutters' Union; Bakers' Union No. 3, A. F. W.: Waterproof Garment Workers' Union: Workmen's Circle branches No. 54 and 546; Workmen's Sick and Death Benefit Fund Branch No. 103.

While Mayor Dever, enlisting the aid of his political allies, the Chicago Tribune and the Chicago association of commerce, was holding a meeting in the city hall, drilling 50 lawyers and business men in what to say in favor of the traction ordinance, opponents of the measure pointed out that the Chicago Surface Lines have no right to their present franchise.

The 1907 ordinance, under which the bankers operate Chicago's traction system, stipulates that the stockholders must build 23 miles of extensions. The franchise has practically run out, and the Chicago Surface Line stockholders have broken their contract. The ordinance provides that if the extensions are not built, the bankers re luquish control of the streets.

Counter-Revolution Collapses

In a dozen cities of America the agent of the counter-revolutionary Second (socialist) International, Professor Raphael Abramovich, has signally failed in spreading his slandrous attacks upon the first republic of workers and peasants.

Despite the open and shameful alliance with capitalist police, this yellow traitor is rebuffed by every audience where workers are allowed to enter. Just as his efforts to murder enough Russian workers to overthrow their Soviet government, despite even the armed assistance of intervention invited in from every capitalist nation, has failed, so has Liverpool suburb by fascisti, held for several hours failed the present effort.

wins, the Hugheses and the Scheidemanns, and confess that the counter-revolution has collapsed.

And let the postscript of this confession be written into the treaty of recognition of Soviet Russia, of arms, even of the combined capitalist nations of the world in alliance with the slimy yellow socialist traitors of the Second International.

Abramovich came to America to prevent recognition by this country of the Soviet government. Let him confess his failure and retire to oblivion where his beloved Kerensky, Wrangel and Denikin and the rest find fitting haven.

In Again, Out Again

Whether Charles Beecher Warren, Calvin Coolidge's favorie for the important post of attorney general, is a corporation rubber stamp or not, he acts very much like a rubber ball in this session of congress.

No sooner is his name shot into the senate that it bounds out again. This may be an example of spring fever, that has affected the stately senators or perhaps Silent "Cal" is having a little fun in this very unusual way. It is hard to say. The ways of providence are inscrutable and so are the plans the Versailles treaty as a result of a love affair be- to return to each worker the full pome payal reserve. of one who does not talk very much and says nothing when he does.

Charles Beecher Warren, the sacharrine expert, is sour fruit to the senators. They don't like him. They don't like Dawes. They don't like Cal.

All this is quite interesting reading matter for the philosophical, but for those who are active in the class struggle on the side of the workers as well as philosophical, it shows up a weak spot in cap-full knowledge of her husband. Incidents of this italist government which proves that the unity of kind are not unusual in the higher circles of capthe bourgeois is a very thin myth. Trouble is in store for the "strong, silent little man" who wore a gas mask while the stench from Teapot Dome was smoking out the less seasoned "statesmen" who were looting the government during the Harding administration. With a hostile senate and the chairman of that august body afflicted with the sleeping sickness, "Cal" may long for the quietness of the Vermont hills, the oil lantern and the old oaken bucket.

Who Are the Reds?

Time was when the American business man used to shake with fear at the very mention of the Industrial Workers of the World. That day is past. Only in the backwoods and corners of American industry, in the overfearful kiwanis clubs of Iowa and California can the I. W. W. raise a shiver any more. The Chicago meeting of the counter-revolutionary Abramovich leaves the "revolutionary" I. W. W. out of the picture.

The Communists have taken the leadership of amendment to the constitution was voted down: the American revolutionary workers. And while for hours the members of the Workers (Commun- the delegate shall be actively employed at his trade ist) Party, and great throngs of workers who sup- and must receive the major portion of his income of the German army succumbed to the Liebknecht, Luxemburg, Jogiches, port Soviet Russia and admire and assist the Communists, gave royal battle to swarms of sluggers he represents, or as an employe of a local union of hired by the reactionary labor fakers, and stood that trade."

And at the same hour, a few blocks from the battlefield of revolutionary struggle, another puny sect, which, moreover, claims to be the "real" Communists, which claims that they support Soviet Russia, were holding a seance, conjuring up from the past the honored name of Marx to bless their "purity." And this while the class struggle was U. S. Sends Arbitrator being fought within a stone's throw and the strength of the Soviet power being upheld by masses of workers arrayed against the combined forces of reactionary socialism and capitalist state.

For the Workers (Communist) Party the incident is symbolic of revolutionary power and virility. For the two sects it typifies decay and dissolution. Lenin has well said that as the broad masses of the working class more and more turns to revolutionary struggle, the sects which in labor, who arrived today. previous epochs had an excuse for existence, become not only sterile, but actually counter-revolutionary.

The Workers (Communist) Party is the one and only revolutionary organization of the working vain class of this country, and as such it will lead the proletarian struggle on all fronts while the sects whine and cavil and die.
