MOSCOW, March 2-(By Mail.)-An appear of the Red International M Labor Unions on the strike of 40,000 Chinese textile workers in Shanghai says:

"Forty thousand Chinese male and female workers, employed in Japanese factories at Shanghai, have struck work. They are struggling for most elementary demands, as, for instance, the abolition of corporal punishment, etc. Against the poor strikers are arrayed in class solidarity the Chinese middle class, the Japanese employers, and British imperialism; they are united against the despairing working people. The strike is looked upon as a crime: the representatives of the strikers are being arrested and tortured.

"The Red International, in close solidarity with the strikers calls upon the workers of all countries to assist the Shanghai workers in their heroic struggle

"The Red International calls upon the Amsterdam International, its sections, as well as all other organized and unorganized workers, to respond to the cry of the Shanghai workers

Capitalists Will Eat from Same Dish

The Dever traction deal which is as juicy a plum, as was ever presented on a golden platter to the gaping maw of a greedy capitalist is the piece de resistance over which the labor fakers of this city are flapping their wings and caw-cawing like ravens over a fat rabbit whose ears protrude from a burrow, with his enemy the ferret, in close pursuit.

One set of ravens, in this case representing the leaders of the Building Trades Council, have an understanding with the ferret, so they are for pouncing on "bunny" right away and putting him inside their belts. The other ravens led by Oscar Nelson, have not succeeded in making themselves properly understood, favor a waiting policy. They believe that fer ret Thompson would send out a sweet er rabbit than ferret Dever. Hence the curses and threats and the charges of treachery coming from the hostile camps of the labor fakers.

Just Business Men.

The leaders of the building trades, don't pretend to care anything for the "public." They look on the ordinance as a business proposition and say frankly: "We should worry what the traction magnates get for their junk, we'll get ours." It means the expenditure of several millions of dollars in digging subways and four or five millions in graft; besides it may mean the re-election of the Dever crowd to city hall. And this is an legant city to loot, as both the Deven nd Thompson cohorts will admit. REVOLT BEGINS IN AMALGAMATED CLOTHING WORKERS AGAINST THE LEVIN CONSPIRACY WITH BOSSES

The left wing militants of the Amalgamated Clothing Workers are not going to lay down before the assaults of the Levin-Hillman machine which is allied to the clothing manufacturers in an effort to destroy the fighting spirit of the union by driving all militant workers out of the trade. Thursday night and Friday morning saw a beginning of the mass revolt against the outrageous action of Levin in taking members of the union from their jobs and depriving them of making a living.

The Left Wing Gives Battle.

With the shops in an uproar of protest, a committee of fifty from one shop visited Levin's office Thursday evening, demanding in no uncertain tones that he replace these union members on the job, from which he had taken them by purely arbitrary order, and Friday morning, to the consterna-

tion of the Levin machine, every + clothing shop in Chicago was coverdistributing thousands of leaflets call-ing for a mass meeting of all Amalgamated members Monday evening at 8 o'clock in Temple Hall, Van Buren and Marshfield streets.

Against the distributors of these leaflets the Levin machine mobilized all their gangsters and thugs possible to procure. But it was all in vain, and unless the machine is equipped to maintain a standing army of overwhelming numbers, there is no assurance but that the unprecedented success of leaflet distribution of yesterday morning will not be repeated

Finland Gets Loan From Wall Street to Maintain Its White Terror Rule

By J. LOUIS ENGDAHL

TODAY, another European loan is being floated in this country; \$10,000,000 for the fascist government of Finland.

At the same time that publicity heralding this loan was being put into the kept press, fascist Finland's greatest asset, the white guard athlete, Paavo Nurmi, suffered humiliation in Madison Square Garden, in New York City. The runner's stomach went back on him towards the close of a 5,000 meter race, and he was forced to quit, leaving the victory to Willie Ritola.

* * * *

But Ritola is another white guard Finn. Both Nurmi and Ritola, however, may now retire. Their work has been accomplished. The sporting pages of the yellow press have been full of their exploits. The so-called "American public" not only knows of them, but is supposed to have developed a soft spot, in its pocket book for the Finland across the Atlantic. The finance minister of Finland, visiting these shores, said that Nurmi was worth \$10,000,000 to Finland. The Finnish ruling class, thru its Wall Street connections, is now trying to cash in on this asset.

The big advertisement announcing the Finnish loan proclaims that the people of Finland "are law-abiding, thrifty and industrious, and the standard of education is high." This is not disputed. The Finnish workers were so intelligent that they established their own Workers' Government in the days of the world war. But this Workers' Rule was crushed under the bloody fist of a terror that is almost with-out a rival in all Europe's history. Thousands of workers were murdered outright, while tens of thousands were imprisoned. Many of these are still in prison. Not only Communists, but Communist sympathizers and militants in the trade union movement are outlawed. Capitalism now rules over this graveyard of worker dead.

It was to aid the cause of these capitalist terrorists that Nurmi. a worker, deserted his own class, and came to this country to exploit his prowess as a runner. The red workers in Finland reject him as a renegade. The brand of traitor is on his brow.

. . . .

But Wall Street's loan will not save white guard Finland. No more than all the other loans that Wall Street is planning for other nation's of western Europe will save their capitalist cliques from the wrath of the workers and poor farmers.

New west European bond issues floated in the United States at exhorbitant rates of interest only testify to growing capitalist bankruptcy in this part of the world. The balance of trade pours new wealth upon the American ruling class. The only outlet for the surplus is investment in questionable European bonds. The Dawes plan was but the beginning of the establishment of a still greater collecting agency over all these nations. The Dawes plan for Germany will be followed by a Dawes plan for France, and then for some other country, until the break comes.

. . . .

It is said that Nurmi broke in his 5,000 meter run because he had overeaten from veal shortly before the race. The break under the Dawes plan in western Europe will not come because the workers have overeaten. It will come when the workers have eaten too little; when they understand that the Dawes plan means not only slavery, but also hunger for them, as it will. They will then refuse to toil that the interest payments on Morgan's bonds may be paid. It will then be up to America's workers to decide whether they have had their fill of the Morgan ruling class, or whether they will march again in Morgan's armies against Europe's rising working class. It is a good time for America's workers to decide now that capitalism here shall also fall in the hour that western Europe's slaves unite for the final victory. No more wars to protect the bonds of the House of Morgan! Only for the war against Morgan.

HALLE POLICE CHIEF REMOVED FOR 10 MURDERS **German Workers Force Government** Action

(Special to The Daily Worker.)

BERLIN, Germany, March 20.-So wide and deep is the anger of the German workers over the murder of ten workers at the Communist demonstration at Halle, that the German government has been forced to remove the Halle chief of police from office.

The police tried to stop a Communist election meeting on the excuse that foreign Communists were on the program as speakers. There were English and French Communists present to tell their German fellow workers that under Communist rule there would be no quarrel between these countries

The Halle police chief forbid the foreign Communists from speaking, and when they resisted, he ordered the "schupo" police to fire, shooting down ten workers, two of them being women. This has caused a furor all over Germany. Now the government declares that the chief of police at Halle acted without authority, as the law forbidding foreign speakers is not in force since the revolution of 1918. Communists are planning a great demonstration at the funeral of the victims and the workers of Halle will suspend all work.

Whiteman has recently returned from an extended sojourn in Soviet Russia, and his speech should prove of great interest to those who want to hear the latest from the great Bolshevik country.

The British Unionists' Russian Report

The 600 page report of the official British trade union delegation to Russia, compiled after exhaustive investigations into all phases of economic, social and political life, has caused a panic in reactionary trade union and socialist circles as well as in the upper levels of capitalist officialdom.

Only extracts of the report have been published in the United States to date, but enough to determine that it is a history-making document. The report marks the real beginning of the sweep of the influence of the great Russian trade union it to the skies. movement into the English speaking capitalist nations

Upon the immediate issue of world trade union the result was only less disastrous to the Mexican capitalism. Having settled this to their own satis- quickly.

faction, by the cautious British method, the question of method becomes secondary-that is the British trade unions, seeing the victory and the of Mexico, is breaking up the most powerful union, fruits thereof, place in its proper perspective the that of the railway workers. charge of tyranny and terror hurled at the Soviet government and the Communists by the capitalists for their masters. and their propagandists.

sons. They are after results and when they see ship against imperialism and its agents in the results obtained by the workers and peasants in labor movement. Russia they are more than inclined to believe that the end justifies the means. This same conclusion will be reached by every worker when he has had an opportunity of knowing and weighing the achievements of the Russian working class led by the Communist Party.

Here is the nub of the whole question. It accounts for the loud wails produced by the British trade union report in the capitalist and socialist press of the whole world. It accounts also for the that Sun Yat Sen has been buried. Until his body fact that the American Federation of Labor did not had been laid to rest the rulers of France, Japan, instead gave space to the maunderings of J. Turner themselves to believe that such good fortune as taken up with Comrade Abern's -the Ben Reitman of Great Britain.

The main question asked world capitalism and dependence movement had come to them. its labor faker and yellow socialist allies by the British trade union report, not in so many words respondents of the organs of world capitalism are Thurber Lewis. This course will last but in every paragraph of the document, is:

"Why are conditions for the workers and peasants of Soviet Russia improving every day while the conditions of the masses in all capitalist nations grow progressively worse?"

It attempting to turn over the railways of Mexico o Wall Street, President Calles let the workers know who the real masters of their country are. Lest there be no mistake about it, the railwaymen are required now to take an oath of allegiance to

the government so that no strikes may interfere with the profitable operation of the roads by their Public Speaking Class apitalist owners.

The railwaymen's union is to be disbanded and they become simply employes of the Wall Streetowned Calles government. The forces are to be been made with the comrades who reduced by the discharge of 40,000 workers-for whom the Wall Street masters make no provisionand the greatest economy is to be practiced so that outlines of their lectures in the near the American imperialists will have no cause for omplaint.

Says Calles to the railway workers: Rumors of a proposed railway strike do not in-

timidate the government. We will place the railways under orders and nothing will stop us. Railwaymen must accept the new order. . . . They will not remain members of the union, but will be considered as federal employes. . . . The government proposes to readjust the railways, running them a short time economically, glving them economic stability, then returning them to the company.

The same appeals are being made to the German ailway workers who groan under the Dawes plan

-the European expression of American imperialism endorsed by the social-democrats. The Calles on the necessity of discipline in the government is the idol of the socialist hangers-on in this country; with the labor imperialists of the American Federation of Labor they join in praising task of the party to attain. The course conducted by Comrade Martin Abern, district organizer of the Workers Party, closes today. This course has been highly satisfactory and has been received with a great deal of close attention and enthusi-

asm by the comrades of the school. Starting from an outline of the role of the party, it went into detail organization, the comparison of our present form of organization to the shop nuclei basis which is now the Structure and Function.

Then Comrade Abern outlined the

duty of the various committees of the party as well as the various functionaries of the branch and higher units. The organizational work in connection with the united front tacphase of organizational activity as relates to any organizations participated in by the party was taken up.

All in all, the course tho given in but six lectures covered a most comprehensive field and brought many a detail to the fore that will be essential to keep in mind for the comrades in the course, all of whom are in active party work and expect to the course.

The outline of the above course will be completed shortly and will be either ready mimeographed for the students or printed in the DAILY WORKER.

Today's schedule is as follows: 9 A. M .- History and Tactics of Trade Union Movement, Dunne.

Enthuses the Party.

The party membership and organization responded and conducted two strong, emphatic and successful demonstrations against the counter revolutionary Abramovich, the secretary reported. (See capitalist press and labor press for details.) Politically, these were of great value for the party. It engaged the party in a most important phase of political action, experiences of great value for future. The spy, Abramovich, the was not allowed to spill his poison before the workers and only the thugs, socialists, and other illiterates heard him-a consolation he or they may have gratis.

Our party members got concrete evidence and experience, thru clubs, fists, gun and rifle threatening, etc., of the close alliance of the socialist fakers with the capitalists and capitalist police, gunmen, etc. Political experience was gained, enthusiasm of the party members increased, and party prestige enhanced.

Party and Needle Trades Members Getting Into Action.

Our members in the needle trades who want effective action, are getting

ready for mass meetings and leaflet distribution in the campaign against expulsions, for the reinstatement of the expelled in the Amalgamated and International Ladies' Garment Workers. Many members of the party and others were removed from the job in Chicago by Sam Levin, Amalgamated reactionary official, for distributing thousands of the leaflet issued by Local No. 5, New York, Amalgamated Clothing Workers. (Read DAILY WORKER for details). A protest meeting has been called at which the rank and file, removed from the job, will speak. This meeting, which all of the party must back up, will be held Monday, March 23, at Temple Hall, Marshfield and Van Buren Sts. The answer is that in Soviet Russia the land, factories, mines, forests and the government belong to the workers and peasantry. This is the answer that will be given by every worker who reads the document, but for capitalism the question is unanswerable. It dare not tell the truth. To do so means to surrender.

NEW YORK, March 20 .--- A general course in public speaking will be given every Tuesday evening, 8 p. m., at the Workers' School, 108 East 14th street. The instructor is Carl Brodsky, one of the best party speakers in New York, and well equipped to train others.

The primary purpose of this course is to develop propagandists who can effectively present the Communist position in their activities in the party and the trade unions. Last year's election campaign showed the great need for trained speakers. Comrades are urged to register so that we may have a bigger and better corps of speakers for the coming campaigns this summer and fall.

For registration and information, inquire any day or evening at the office of the school, telephone Stuyvesant '8100. The course is also open to non-party members.
