TODAY, altho Coolidge repeatedly reiterates that he will have nothing to do with the Workers' Republics, nevertheless, big business worries exceedingly much about Soviet trade conditions.

James L. Patten, Chicago's multi-millionaire wheat gambler, is quoted as saying that as long as Russia remains out of the grain market, the grain trade of the world is likely to be periodically settled and nervous.

A financial writer, in replying to numerous inquiries he claims to have received about Russian conditions, asks himself a question and then replies to himself as follows:

"When, then, will Russla again be normal in the grain trade, normal in exports and imports, normal in home enterprise, normal in development of her resources? Not until the Russians change their business principles and the business character of their rulers."

#### . . . .

No matter how much big business, and its government at Washington, tries to dismiss the problem forced upon it by the existence of Soviet Rule, nevertheless it is there. Even the "expert" writers of the kept press, paid to hide the repeated crisis that confront capitalism, confess that Bolshevism must go or capitalism will continue "unsettled and To be sure they dare not hint that capitalism nervous." must go. But that is the real alternative. It is either Communism or capitalism.

#### . . . .

Reports from the Soviet Republics indicate that the harvest days are coming in with bumper crops. Soviet Rule will this year be in the world market with huge exports of grain of all kinds.

That should make all capitalists nervous, especially since crops in the rest of the world are not so good, which will result in high prices. That means that Soviet Rule will be able to get new finances to keep up the work of reconstruction, to improve the life of the peasant. That means strengthening Bolshevism in its struggle against capitalism.

The oil wells under the Red Flag are gushing petroleum at a rate that was never known in the days of czarism. Huge exports are going to many foreign lands. Even Rockefeller's Standard Oil Trust has bought its share.

The American oil business will gulp down just ten billion gallons of gasoline this year, 1925. That is 15 per cent more than last year, and automobiles, tractors, airplanes and oilburning ships are being turned out in added quantities in this country, calling for more oil, at higher prices. The Soviets have oil to sell; the oil that the capitalist world needs, the oil that the capitalist world is compelled to buy, that it will pay increasingly good prices for, providing Soviet Rule with added strength to reconstruct and build.

The capitalist world says the Soviet world does not treat it "fairly," whatever that means. What the capitalists desire, it appears, is to invade and conquer the Soviet world with their capitalism, without allowing the Soviet world to per-meate their territory with its Bolshevism. British imperialism, for instance, tried to stop the advance of Communism by denying admittance to foreign Communist delegates to attend to British Communist Party's convention at Glasgow. But the German and French delegates arrived in Glasgow just the same. They spoke for the German and French workers. They told of the conflicts within the capitalist world, of the workings of the Dawes plan, of the war in Morocco, of

Let us paraphrase the declaration quoted above of the finance expert of capitalism's own press and put it this way: When, then, will the world be normal in the grain trade,

normal in exports and imports, normal in home enterprise, normal in development of her resources? Not until the world changes its business principles and the business character of its rulers; until capitalism that breeds imperialist rivalries, foments world wars on an ever-increasing scale, and threatens all civilization, has been overthrown and the rule of the World Union of Soviet Republics established in its stead. The issue is, "Communism or capitalism must go!" Very well, let capitalism go!

#### WHO IS BEHIND THE CITIZENS' MILITARY TRAINING CAMPS The YOUNG WORKER, the weekly organ of the Young Workers League of America, carries on a strenuous campaign against these camps in every issue.

In the latest issue of the

there is a special story exposing these camps which turn out a fast as they turn out cannon-fodder.

## L.dorsed by the A. F. of L. at the **El Paso Convention**

the Citizens' Military Training Camps have become a burning issue to every left winger in a trade union. For this action of the El Paso convention not only connects the machinery of the American Federation of Labor up with the War Department, but thru this action the bureaucrats are collaborating with the big open shop employers in supporting this strike-breaking institution.

Elsewhere we have a restriction of the workers' rights put upon them by the wealthy. Such regulations are in Russia the result of agreement between the workers and their own expert governors and managers to whom they have entrusted their institutions and their industries, their factories and their farms. Elsewhere such regulations are the result of treaties and truces between the entrenched interests of a wealthy ruling class and the assaults of a working class that as yet never rules but only rebels."

Game NEW HAVEN; Conn., (By Mail) .---Typographical Union No. 47 of this city has placed a demand for higher wages before the newspaper publishers. The present scale is \$41 a week for compositors, which the union wished increased by \$8. But when the local committee met with the

owners, who refused to treat with the committee, the union committee reduced the increase to \$3. The scene then shifted to New

York City, where President Lynch met. with the head of the publishers. An offer of \$2 a week increase was made to the local union, provided the agreement was drawn up for three years, instead of two. The first dollar was to be granted in Jan. 1926, and the second in May, 1927. The local union refused.

The demand of the New Haven Local seems mild, compared to Hartford, Conn. (an open shop hotbed) where the wage scale was \$45 a week. Recently, the Hartford Local won two weeks off on vacation each year with pay, and payment for holidays and illness. Sanitary conditions, which were better than in New Haven now. were considerably improved.

The situation among the famine stricken peasants of the West of Ireland is not improving, according to a letter received at the office of the Irish Workers and Peasants Famine Relief Committee, at 19 S. Lincoln St., Chicago, Ill., from Robert Stewart, executive secretary of the Irish section of the International Workers' Aid.

The American workers are responding to the appeal for aid to their brothers and sisters in Ireland and many generous contributions are coming from local unions thruout the county.

# Another Offensive Fizzles

Ever since the workers and peasants of Soviet Russia raised the standard of revolt against the forces of capitalist-feudalism in the once mighty Russian empire and carried that standard to victory would have the navy and air estimates over the dead body of the enemy, the capitalist class of the world reduced a little and he thinks that have never given up hope that they would be able to restore the old order in Russia.

Plot followed plot with monotonous regularity. At first, frontal much annoyed. Sir Alfred Mond supattacks were made on the Soviet republic. When those failed; when ported Mr. Showden and Sir Alfred is it was discovered that the workers' republic was able to stand off the voice of big business, Sir Robert all such attacks, more devious methods were resorted to.

The eapitalist powers vainly tried the sword. They tried economic isolation and starvation. That also failed. Today, without the loan of a dollar from any capitalist government the Soviet Union is best to help British capitalism and building up its productive power as a strong and powerful basis for the socialist economy of the future.

But capitalist plotting has not stopped by any means. It should T speech was that dealing with the be noted that in the forefront of all this plotting was the British return of the pound to the gold standgovernment. Perhaps Britain figured in the background, rather than ard. Last year at this time there was up only 62 per cent. This difference in the foreground. But Britain was the guiding brain.

The famous offensive opened by the late Lord Curzon went on ability of this project. It appeared noys the British industrialists who the rocks. The Soviet Union still stands. The tory government figured that the British labor party would be at least neutral.

But the tory government should know that MacDonald is not as useful a tool of the robber empire today as he was when he turned loose the forged Zinoviev letter for the greater glory of the tories, his cover the July and December payown undoing, and to the detriment of his party. In reply to questions asked by labor members in the British house of commons, the tory ministry stated that the government had no intention of threatening to break off relations with Russia over the activities of the Communist International. It did not admit that its decision was arrived at after France and Italy refused to bite.

The Soviet Union has more allies than the capitalist powers are aware of. Besides its red army and red fleet, millions of workers in all countries look on the Soviet Union as their only fatherland.

THATEVER else may be said about Churchill's budget, this uch has to be said-it is a bankers' perialist budget! The incidence or e relief of taxation, coincident with

e return to the gold standard, point ost clearly to the bankers and link e budget to the Dawes report. The introduction of the tariff policy rected against foreign countries

ong with preferences to the colonies Great Britain, simultaneously with e increase of military expenditure, ake it perfectly clear that to describe it as an imperialist budget is no exaggeration.

Mr. Snowden has described it as the "worst rich man's budget in modern history," but has nothing to say about its real imperialist character. He "the state of our industries," do not warrant the application of the insurance scheme with which he is very

by others, but it was the only way possible for British capitalism to regather its forces. American-Anglo collaboration in matters of finance is the only cover under which Britain can even

steady herself down the decline, and the bankers have decided on it. OTHER factors play their part, of course. It is interesting to be able to lend money that is depreciated to the state and get interest and repayments in appreciated currency. This profitable business is revealed

in a further part of the budget dealing with the national debt. Mr. Churchill was very proud of the debt reduction. It amounts this year to somewhere about £40,000,000. In 1920 the debt stood at £7,828,779,000. It is now £7,646,000,000. So, altho taxation has vielded for national debt purposes in five years some £1,750,-000,000 the debt is only reduced by £182,000,000. The difference between the two sums has gone into the pockets of the patriotic investors in war stocks, mainly the banks.

But the industrialists are growling for another reason. They cannot yet see how the restoration of the goldstandard is going to help them a great deal with regard to the problem of markets. There is a divergence be-

tween dollar prices and pound prices. Whereas British prices are up 71 per cent above 1914 level, dollar prices are a flerce discussion going on in banking in price level places the British exand industrial circles as to the advis- porter at a disadvantage, which ancompetitor, and accounts for their objection to the latter being strengthfor it and the labor party were not ened by the government's action in

"A LITTLE hanging goes a long way."

This will live in the memory of the American working class. The after-war industrial chaos, with hunger and misery, "deflation," wages, with strikes and the growing awakening of the class which is to be destroyed and the undertaker of capitalism, brought from Marshall the final expression of his weasel-wisdom :

"What the country really needs is a good five-cent cigar."

The name of Thomas R. Marshall may appear, written small, in the dusty records of the future. Or it may be seized upon by some future historian to show a peculiar phase of "decaying, dying capitalism"-the necessity of hoisting into places of prominence of the least talented, the weakest and meanest of men.

The oil profiteer, Doheny, of Teapot Dome infamy, now an agent of the Standard Oil trust, and Calles, the "socialist" president of Mexico, constitute the latest "united front" against the Communists. Welcome to more opposition of the same kind.

I candidature would have been impossible if the English ambassador in Berlin, who, as is known, exercises a the German government, had made any objection to this candidature. The efforts of the English press to reassure French public opinion regarding Hindenburg's election, are a clear indication that English imperialism at present regards the restoration of the German bourgeoisie, not as a threat against France.

The election speeches which the controllers of the nationalist party machine drew up for the "National Saviour of Germany," Hindenburg, persistently emphasized that in the event of his election, Hindenburg would not make any change in the present foreign policy of Germany. The first governmental act of Hindenburg, before he actually assumed office, was the speech which he caused to be delivered by the Reich Chancellor Luther after he had had a conversation with the latter and which culminated in the assurance of Germany's unchangeable loyalty to international treaties.
