(Special to The Daily Worker)

LONDON, Sept. 30-A few days after the main party of the British delegation arrives in New York to attend the inter-parliamentary union sessions at Washington, imperialist England's most distinguished delegate, Sir Robert Horn, will land. Sir Robert is Stop Wars, Pay Debts, To Pick Workers by Proone of England's most deep-dyed tories and one of the two M. P.'s who declared they would not go to Washington if Saklatvala were in the party. The baronet is a former chancellor

of the exchequer and retired from the ministry to accept the charrmanship of Baldwin's Ltd., perhaps the largest steel and iron corporation in Britain. Next to the home minister he is England's most enthusiastic red-baiter.

To Save Britain

Horne, it is rumored, is being primed to prevent "catastrophe" in the mining industry when the present subsidy of \$50,000,000 wrung from an unwilling government by the might of organized labor, expires. The British tories have confidence in Sir Robert's ability to be ruthless in such matters and place hope in him to save "British labor from going red."

By J. LOUIS ENGDAHL.

TODAY, flocks of bourgeois statesmen, including 17 foreign ministers, three prime ministers and a score of plenipotentiaries, wing their way back to their capitalist homelands, following the adjournment of the sixth assembly of the league of nations.

These capitalist birds of prey, who have kept warm the "Black Capitalist International" in the friendly atmosphere of Geneva, Switzerland, have scored their usual successes. They have hatched out three more conferences, or materially advanced the hatching process, as follows:

FIRST :-- It has brought about an agreement on the conditions under which a disarmament conference can be held and has ordered technical preparation to be made for such a conference.

SECOND:-It has agreed that a conference to study the economic maladies of the world which might lead to war should be held, and has ordered the council to make an essential study for such a conference.

THIRD:---It has ordered commencement of the preliminary work essential to a conference for the control of the private manufacture of arms.

But while the disarmament joke was being seriously considered at Geneva, the greatest British military maneuvers since 1913 were being held, on Englsih soil, "culminating with the successful defense of London." Counterparts of these British war preparations are going on in every capitalist country, while in the United States the question of air warfare is the biggest piece of kept press news. Mus-tapha Kemal Pasha, head of New Turkey, in stating his position on the failure of the league of nations to settle the Mosul oil dispute, declared, "Our army is ready and its morale is excellent."

Even imperialist nations are not unwilling that investigations be made into economic maladies that lead to war. Such investigations, when made by defenders of capitalist economics, are never dangerous to capitalist rule. Information that might enlighten the workers, and educate them as to the real causes of war, can easily be suppressed or cleverly soft-pedalled. Labor can get real information about the economic maladies leading to war by reading the DAILY WORKER and other Communist literature. But the league of nations has not yet ordered an investigation. It has merely ordered an investigation of the advisibility of making such an investigation.

The private manufacture of arms is a question of keen interest to the great capitalist nations. If they do not manufacture all arms and munitions themselves, they are at least anxious to control it. Arms in the hands of oppressed workers and farmers, or subject peoples, is a dangerous pro-position. British and French imperialists are very much worried about the arms sent to the Riffians, to the Chinese and to the Syrians who are in open war against them. They feel it an invaluable aid to them if they can place an embargo on munitions going to these discontented peoples. The solution offered is "the control of the private manufacture of arms." Upon this issue they will get busy.

. .

But not one of these conferences will bring peace to Europe and the world, nor solve any of the contradictions within the capitalist social system. In fact, they will only serve to aggravate them. Which prompts one observer at Geneva to report that it wasn't what was done in the open sessions of the league that counted, bu what was accomplished in the secret gatherings held behind closed doors between the capitalist diplomats in the hotels Bergues, Beaurivage and Monopole. But secret diplomacy here only lived up to its old pre-war traditions, hatching those alliances and building those blocs among the "imperialist nations that will lead to another war just as surely as the last world conflict broke on August 4, 1914.

WEST VIRGINIA

(Special to The Daily Worker) FAIRMONT, W. Va., Sept. 30 .- Dis-

pute still rages whether the 5.000 non-union miners called upon to strike by Van Bittner, in charge of the campaign of the United Mine Workers in Northern West Virginia, will answer the strike call.

Meanwhile, the strike which began in April is still on, with the rank and file of miners making heroic efforts to hold out against the bitterest hardships and persecution. Union officials place the number on strike at 18,000.

Bitter Class War.

Twelve hundred families have been evicted and are living in rude barracks erected by the union. A state of unofficial martial law prevails. The mines are guarded by thugs of the Baldwin-Feltz type with rifles and shot guns, machine guns and hand grenades. Barbed wire stockades have been erected around mine properties. The houses in which scabs live are bathed in a glare of lights every night. And then there are injunctions. injunctions galore.

Federal and state courts are turning out injunctions every day. Fortyone injunctions were served on John L. Lewis and other leaders Saturday. but the picketing rank and file do the going to jail. Marion county had to handle 180 pickets arrested in one demonstration and ninety union men and women, some mere children, are in jail for violation of injunctions.

Great meetings of strikers were held here and in thirty other camps within seventy-five miles radius of this city on Saturday. Here women carried infants in their arms and barefoot boys clung to their skirts as they marched up Main street to the old fair grounds. The parade was led by a group of 100 miners who had served in the world war, bearing banners "They can evict us from our homes, but they can't enslave us," etc. Children bore banners, "We are proud of our union daddies." Wives carried banners, "Our husbands are honest-togod union men."

Lewis Looks to "Public Opinion."

The demonstrations are aimed at the Consolidation Coal company, the Bethlehem Mines Corporation, the Hutchinson Coal company, the Bertha Consumers Coal company, the Pittsburg and Cleveland Coal company and others. Lewis, in his speech, said that the Bethlehem company had agreements Pennsylvania which it lived up to, not explaining why he should not have ordered those mines struck, however. He replied upon "public opinion" and a new spirit among the operators which would induce them to keep the Baltimore agreement they have violated.

Many political observers around

Washington realize that a failure of French capitalism to get satisfactory terms at Washington will mean a failure in floating the French government loan now being attempted by Wall Street bankers. Failure to get money will mean the end of imperialist policy for France. She is badly in need of finances to take care of the gigantic expenditures on the military

campaigns she is making in Morocco and Syria. The viewpoint of observ ers is that Caillaux will not be allowed to quit, but that the American bankers will meet the French commission half way in order to make France safe for the capitalist class.

Bankers' Servants in Confab. imperialist financial commission to bolt from the debt negotiations, President Coolidge has summoned a number of republican party leaders into a conference. Curtis, the republican party leader

n congress, was met by a delegation of the French imperialists with a view to arranging more lenient terms. He then went to the banker satellite, Coolidge at the White House and had a conference on the debt negotiations. William E. Borah, chairman of the senate foreign relations committee, was then called into a secret meeting in the White House. The results of these conferences are undoubtedly forerunners of the capitalist lackeys at Washington for the acceptance of the new offer made by Caillaux in the desperate attempt to get another

lease of life for imperialist France.

German Government Persecution Goes on in Spite of Amnesty

ANGORA, Turkey, Sept. 30. - The Turkish bourgeoisie is carrying on an unrelenting struggle against the Communists of Turkey. In a trial of 16 Communists before the court of independence at Angora, prison sentences of 7, 10 and 15 years were passed. Those convicted had been charged with the publication of a May Day leaflet, and for co-operation with the commission for the elaboration of labor legislation of the Workers' Association.

Try to Corrupt Workers.

The Turkish bourgeoisie is attempting to corrupt the workers' movement in Turkey at its start. The ruling People's Party, following the style of the "czarist agent, Subatov, who, under the czarist instructoins, formed "workers' organizations," has started to do the same stunt. The chairman of the People's Party in Constantinople is a member of the Workers' Association and also a spy in the government service. Every Communist spotted in the Workers' Association is pointed out to the government and immediately arrested.

In the trial of the 16 Communists he played an important part. Every attempt possible is made by the People's Party to clean out the radical elements from the Workers' Association by jailing them and thus make it a movement where government spies can control it and use it as a weapon against the struggles of radical work-

CLASS JUSTICE SHOWS LEECHES STICK TOGETHER

By REGINA MYROSKI.

MOUNDSVILLE, W. Va., Sept. 30 .-Occasionally, we find the capitalist courts meting out "justice" to the socalled higher (?) class of society-the parasites. Not that they want to, no indeed! But they must at least go thru the pretense to save their face and so give opportunity to the mo rons, half-wits, etc., for saying the rich man and the poor man is equal in the sight of the law. Such a case occurred in this section during the September term of court.

ng revelations were made at the Bank of Benwood, Benwood, W. Va., and the assistant cashier. Joe Ward, had been defrauding the bank of funds for a number of years. The assistant cashier fled across the continent and was finally arrested in California and brot back, while Leach also was put under arrest. Seems Irritated at Pesky Communists

By BRUCE T. SMITH (Special to The Daily Worker)

TOLEDO, O., Sept. 29 .- If I should have held the slightest fear that the DAILY WORKER in past issues had misrepresented the faker president of the pressmen's union, "Major" Geo. L. Berry it was entirely dissipated after having had the opportunity of hearing 1924 George explain, or rather defend himself, before a rather small audience at Labor Temple Auditorium, Friday evening Sept. 26.

The major's attitude was purely that of defense; somebody has evidently cornered him on tactics, it would

Consequently his typical bourgeois mind, his opportunism, his egotism, his pay-triotism, his smug satisfaction with things as they are, was brot out clear and distinct and was expressed with grace and apparent sincerity.

All this in spite of the fact that a mischevious Communist down on the street corner had handed him a copy of the DAILY WORKER of back date. in fact a bundle had been kept in store for this very occasion. This little incident had sent the major into a paroxysm of rage which showed conclu-

sively that the merest mention of Communism was to kick the major's coon-dog.

By the way he diverted once in his talk from his smug and affectionate attitude. That was when he paid his respects to the Communist movement, he became at this juncture vehement. vitrolic, and unmistakably exasperated. And if it is true, "Whom the caused a great deal of sensation and gods wish to destroy they first make thru the whole summer the capitalist mad," the major is doomed for destruction.

Don't Let it Worry You, George.

He finished his little tirade with an attempt to be cute. He said that if mittee appointed to look him over to to see what had happened to him. But I don't think he will need a com-

These figures show that in the last 30 years while the population of the United States was increasing by 102 per cent the value of manufacturing production increased by approximately 600 per cent. sult of the speeding up tactics of railroad management and motor competition threaten the close relations between the two big engine service brotherhoods that have existed ever since 1912. A ballot is being taken by divisions of the Brotherhood of Locomotive Engineers on the abrogation of the Chicago joint agreement. This agreement regulates the job relations between members of the engineers' and firemen's organizations.

Craft Leaders Unable to Agree. After months of fruitless negotiations, committees representing the two unions have been unable to agree on a revision of the Chicago agreement. The firemen in their recent Detroit convention · backed up their committee in requesting certain concessions from the engineers. The engineers' committee soon after decided to ask the membership to determine whether to continue negotiations or end the pact.

If the latter proposition carries the engine service brotherhoods may return to the chaotic conditions which existed prior to the joint agreement when unfriendly competition was the order of the day. The firemen dur-

ing that period added the words "and enginemen" to their official title to show that they meant to make their order include all men in the engine cab.

Riffs Attack French.

A fierce attack has been made against El Bibane in the central part of the front and a counter-attack has been made in the Kel-el-Loun sector. Motor transportation and telephonic connections between Fez and Taza have been severed on the eastern front by the continued rains. Marshal Lyautey has asked to be replaced and leaves French Morocco soon. He has been one of the empire builders of imperialist France and the methods that he used are now

being resisted by the Riffians in their struggle for independence.

Airplanes Riddled by Riffs.

The American mercenaries in Morocco are finding that the Riffs are better shots than they thot they were. American flyers have had the habit of taking bombs, painting them red, white and blue, putting their name on them and then circling low drop the bomb. Then they would circle back to see what havoc they engines go dead on them. Some of them were able to escape, and they never tried the stunt again as their airplanes were riddled by Riff bullets so that they looked like sieves.

Riffs Excellent Shots.

"The Riffs are excellent infantry and first-class shots" writes Col. Charles Sweeny, one of the mercenries in thesemploy of French imper-

More Gunboat Diplomacy in China

The American gunboat Palos has been rushed 1,400 miles up the Yangtze river following the alleged firing of 200 shots by consideration of objective conditions. Chinese soldiers at an American-owned steamer-the Chi Chuen. What bloody possibilities there are in incidents such as this! The "gunmen of American diplomacy," as an American writer has called the naval detachments recently, are responsible to no one but the war department and in the past they have presented the American of view. In plain words, it had no business there, yet no sooner are its owners notified of its being looked upon as an enemy by the Chinese than a gunboat is dispatched to terrorize the natives.

Of late there has been a let-down in the news carried by the capitalist press on the Chinese situation. The popular opinion seems to be that the crisis has passed and that pending the conference of the Chinese government and the great powers over the question of custom duties and extra-territoriality the aggressions of the imperialists will cease.

The dispatch of a U.S. gunboat to the interior of China shows that this is a wrong idea. American troops and warships are still in China. The French Debt

The middle class spokesmen can yip their heads off about the huge sums owed to "their country" by European nations, France in particular, but the kind of settlement that is indicated by the negotiations now in progress between Caillaux and Mellon is fairly convincing evidence that American finance-capital is not going to force the French ruling class into bankruptcy. That.ruling class is still, with its hostility towards British imperialism, too valuable an asset for Wall Street to dispose of for a matter of a few billion dollars.

American imperialism prefers to keep France under its thumb and it allows her therefore to pay at the rate of \$40,000,000 per year on a total debt of over \$4,000,000,000. This is at the rate of one per cent per year-certainly very generous terms as any debtor will admit.

But these generous terms can be revised at any time and they mean that the House of Morgan will continue to be the real ruler of France. The French national economy will be forced to adjust itself to the needs of Wall Street.

The needs are just the opposite of those of the French working class and peasantry and as in Germany a Dawes plan under some other name will throw the whole burden upon their shoulders.

Overshadowing all the fine phrases of the diplomats and financiers put out for public consumption is the one basic fact-that in the trade union question; that a France is an appendage of American imperialism and favors in the matter of money payments will have to be repaid a hundredfold partment be demonstratively elected by still more brutal suppression and exploitation of the French tions to this effect given to the new masses.
