# CHINESE REVOLUTION DEFEATING REAGTON

Eurrent Events

By T. J. O'FLAHERTY

ONE of the socialist party papers, one the few still in existence in the United States is publishing letters supposed to have been written by political prisoners in Soviet prisons. Tho the letters bear every earmark of anti-Soviet concoctions they are issued between elegant covers headed by Mr. Roger Baldwin, director of the Civil Liberties Bureau and very persona grata in the columns of the New York Times since he began "to expose" Soviet Russia to the satisfaction of the American capitalist

THE ex-revolutionists who are now associated with Mr. Baldwin may take to heart the statement made by Daniel O'Connell, the Irish nationalist, when a British government official complimented him after delivering a speech. "I must go home and examine my conscience" said Daniel. The ex-I. W. W.'s who are co-operating with Mr. Baldwin and the Jewish Daily Forward should look with a jaundiced eye on compliments coming from the New York Times and other organs of Wall street.

THE letters from so-called political I prisoners that appear between the covers of the \$2.00 pamphlet are written in the lurid style affected by the dime novel detective or the stoolpigeons of the Palmer red raid period. They leave nothing to the imagination. Mr. William Burns, the gentleman who discovered the perpetrators of the Wall street bomb plots ninety nine times, could not improve on them. It is the most improbable congeries of pipe dreams ever syndicated. The letters are the work of stated, "In effect, it is voluntary arbitexperienced sensational fiction writers. But what if they are true?

THE important point to be considered is whether or not the Russian workers and peasants have a right to the produce of their labor or whether they are guilty in assuming that those who produce should rule and act on that assumption. It might be noticed that those worshippers at the shrine of democracy and pacifism seem to ignore the fact that capitalism, being the system of private ownership of the means of life and the exploitation of the many in the interests of the few is inherently undemocratic, in the sense that democracy is understood, i. e.: the rule of tiations in finding some means of the majority.

the Russian workers and peasants A are the only classes entitled to rule their country thru the fact that they are the only producers of wealth, it follows that they are morally right in using any effective means to safeguard their power. If those who are next Tuesday when the negotiations charged with the serious responsibility of guiding the destinies of 130,000,- the reason for the adjournement is to 000 workers and peasants allowed the ezarists and their capitalist sup- the miners toward the arbitration proporters to return to their old diversion of exploiting those 130,000,000, the Bolsheviks would not have to worry much about filthy jails, lustful wardens and brutal jailers. The workers and peasants would have them hanged drawn and quartered.

FACTS are hard-boiled propositions. Undoubtedly there are some counter-revolutionists in Soviet prisons because they have actively opposed the Soviet government. And let it be understood that there was nothing platonic about the activities of those gentry. Everything went from assassination to lying propaganda and negotiations with capitalist governments looking towards the overthrow, of the workers' and peasants' rule in Russia. Mr. Roger Baldwin and his liberty loving associates who seem to ignore (Continued on page 3)

# LEWIS OFFERS **ARBITRATION TO OPERATORS**

### 'Voluntary' Arbitration Is Proposed

(Special to The Daily Worker) PHILADELPHIA, Pa., Jan. 31-The Lewis officialdom of the United Mine Workers of America surrendered yesterday to the demands of the anthracite operators for arbitration of all disputes between the miners and operators. In order to hide the betrayal of the interests of the miners it is labelled "voluntary arbitration."

The essence of the proposal is that a fact-finding commission composed of Charles E. Hughes, Secretary of Labor Davis and Governor Pinchot should be appointed to make an investigation of wages and profits in the industry. This commission of reactionary republican henchmen shall report to a conciliation committee of three miners and three operators which shall have power to settle the question.

Concession To Operators.

The only objection of the operators o this proposition is that it leaves out the word "compulsory" arbitration. and they renewed their demand that their full demand be granted. The reply of the union officials to this has not been disclosed.

It is recognized that this proposal by Lewis is a definite step toward agreeing to the operators' demand for compulsory arbitration. One operator ration and represents the furtherest concession thus far made by the miners to the operators, who have urged compulsory arbitration from the beginning.

Lewis Gives In.

The operators by standing pat on their demand for surrender have forced Lewis to agree with their demands However they will agree to certain verbal concessions to enable Lewis to put the deal over on the miners. The operators have not budged an inch from their demands for a five-year agreement, resumption of work immediately at the old wage scale, and compulsory arbitration. Lewis has concerned himself solely during the negoagreeing to the demands of the operators and fooling the miners into accepting them.

Conference Adjourned.

PHILADELPHIA, Pa. Jan. 31-The conference of miners' officials and anthracite operators has adjourned until will be resumed. It is understood that allow Lewis to find out the attitude of posal he has made to the operators.

### Pardon Wealthy Booze Seller Before He Even Reaches Penitentiary

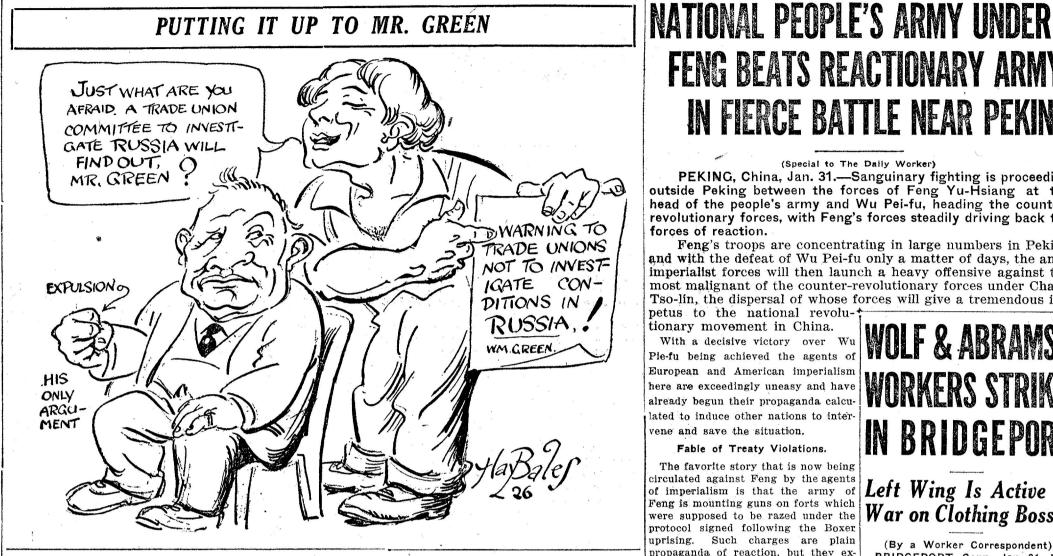

SEATTLE, Wash., Jan. 31.-Ray Zbinden, son of a wealthy family and prominent in republican party politics here, was pardoned by Governor Hartley before he reached the penitentiary to serve a from six months to fifteen years' sentence for forging \$10,000 worth of automobile contracts to raise funds to go into bootlegging.

He had been brought to trial in April, 1925, when he admitted to his forgeries before Judge French of Kitsap county. He was then given a suspended sentence. The district attorney protested and had him arrested for another forgery. Zbinden pleaded guilty. Judge Mills of Seattle gave a suspended sentence. The case was then carried by the district attorney to the state supreme court, which Japanese Voters ruled that since Zbinden had been convicted of a felony he could not be granted a suspended sentence. Mills been taken from the Seattle jail.

What are the reasons they give? First, it is a "Communist maneuver." It was proposed at the Atlantic City convention of the A. F. of L. by A. A. Purcell. # Labor Must Expose the Many Fairy Tales Told About Geo. Washington

By J. LOUIS ENGDAHL.

TODAY, the beginning of the month of February, the paytriots are beginning to go into action again to make the most of the birthday anniversaries of Abraham Lincoln, Feb. 12, and George Washington, Feb. 22. Thru an insidious use of the whole public school system of the nation, for the past century, the ruling class, jealous of its heroes, has all but succeeded in placing a saintly halo upon the brow of the socalled "Father of His Country." While another stimulated outburst of this fake idol worship is again being lashed to fury, it is well to point out a few facts concerning the "cherry tree hero."

Rupert Hughes, the playwright and author, who never wrote a line to injure the "right" of the bosses to plunder labor, discovered some of the truths about Washington's life and tried to incorporate them in a speech to the sons of the American revolution at a banquet held recently in the fashionable New Willard Hotel in Washington.

He chose a poor place where the munitions profiteers nested during the war, to be near the fat contracts issued by the government. The audience was even worse, being constituted of super-pay-triots of the American legion type.

Hughes pictured Washington as a "profane, irreligious, and pleasure-loving man," putting emphasis on the fact that the "boy who couldn't tell a lie" developed into a "great card player, a distiller of whiskey and a champion curser," and that he "danced for three hours without stopping with the wife of his principal general." America's church-going population, which is not inconsiderate, will also be shocked to learn that Washington "never prayed and consistently avoided participating in communion."

It is reported that Hughes' speech came to a close amid imprecations worse than anything that Washington himself could have uttered, even under the influence of his own fa-

vorite Madeira or corn whiskey.

It is more worth while emphasizing, however, the blow dealt the fairy tale about "The Winter at Valley Forge." The troops are pictured as freezing while Washington kneeled in the snow and prayed. Many movie films are doing their best to popularize this fable.

There was plenty of timber about Valley Forge. The soldiers were housed warmly in snug huts with plenty of wood to burn. They could get that for themselves. But there was considerable hunger. Not because there was a lack of food in the neighborhood. It was because the food profiteers would rather sell at a high profit to the British in Philadelphia, who had real money. The profiteers were thus conspicuous even in the war thru which the nation won its independence from Great Britain, just as they have been very active enriching themselves in every war since. Washington was considered the richest man in all the colonies, so he could not have been very distantly related to the profiteers who seized upon the war as an opportunity to pile higher their hordes of gold.

Historians whose researches are not popular with the writers of public school textbooks, point out that Washington, America's first millionaire, had no conception of democracy, or of a society founded on anything but property. This will probably disturb those "liberals" and "socialists" who joined the late LaFollette last year in his drive "Back to '76."

When Washington was elected president he wanted to be called "His Mightiness the President." To destroy the mighty myth that has been woven about him is the task of class conscious workers who refuse to determine their destinies by musty misconceptions of what transpired in the world more than a century and a half ago. The month of Washington's birthday offers an excellent opportunity to clear away some of these cobwebs of

history. Labor should make the most of it. Workers in Bridgeport, Conn., Go Out on Strike Against Wolf & Abrams

(Continued from page 1) came to Bridgeport and made the issue clear to the workers. He called upon the workers to follow the correct policy of the left wing, namely to support the strike and to participate act ively in bringing it to a complete victory for the workers. He further stated that whatever differences there are in the union must be taken up within the organization. Since the Bridgeport committee did not conform to this rule, the left wing denounces them and their action. Since this declaration and in the process of the struggle many individuals realized that they were misled and have now

giving it energetic support. A certain number of individuals including some of the men who scabbed in the last strike tried to masquerade as friends of the workers and were soon exposed as agents of the bosses. The workers are beginning to understand the treacherous role these scabs are playing and have isolated them. Workers who realize their mistake are gladly accepted by the strikers. The bosses who tried their clever game were quickly exposed by the left wing.

Militant Spirit Prevails. All of the workers are militant and cheerful. Most of them go on the picket line at six o'clock in the morning and urge the misled workers to stay away from work. The scabs are having a hot time particularly from the women and young girls who suffered the most from exploitation and low wages and who are now fighting for their livelihood as well as for the right to maintain their organization. The workers realize that they must defeat the attempt to crush their

# **COUNTY SHERIFF** USES OFFICE TO **SMASH STRIKES**

Gunmen, Landis Award Men, Made Deputies

Sheriff Peter M. Hoffman, who was ecently sentenced to serve thirty days in jail and pay a fine of \$2,500 for his part in allowing two Chicago millionaire bootleggers use the jail as a business office and roam thru the cabarets on Chicago's south side to their hearts content while supposed to be "doing time" in the Cook county jail, in defense of his appointment of thousands of special deputies declares that "when I appointed these men I had in mind an army to assist me in case of labor or race troubles.'

Commissions Landis Award Men. In an excerpt from his letter which follows, which was sent to all the special deputies telling them to turn in their badges and commissions, he points out that he has handed out these commissions to Landis award men, thus showing up the nature of the strikebreaking crew that he had formed:

"The statutes of the state of Illinois authorize the sheriff to appoint special deputies in his office, and after my election, following the law and practice of my predecessors, I appointed a number of special deputies, including employes for express companies railroad special agents, bank messengers, payroll carriers in large manufacturing institutions. Landis award men, physicians who are out late at night and men in large and small business industries who had been robbed, etc., having in the mind only the protection of property."

Easy Money.

This action of Hoffman revoking the commissions of the army of company officials and faithful company 'employes" to be used as strikebreakers, came following an expose of Hoffman's connection with an insurance company, the Carolan, Graham and Hoffman, Inc., thru which more than \$60,000 was made annually insuring the special deputies.

Gunmen Are Deputies. The in his letter Hoffman tries to hide the character of his special deputies, the character of these deputies has been disclosed in a number of Chicago municipal courts as nothing more than gunmen using the office as a blind to carry on their work for bosses' associations, etc. A number of arrests of Hoffman's special deputies were made in the past week in which these gunmen were caught running booze. These are the type of men that were to be used to break

### Congressman Praises Dictator Mussolini as Union Destroyer

WASHINGTON, Jan. 31.—Congressnan Bloom, representing the theater district of New York City, claims the title of direct spokesman in the house for the pro-Mussolini forces in Ameriea. He punctuated the debate on the Italian debt settlement by frequent protests against any criticism of the dictator, and by claims that he, Bloom, was personally familiar with all the story of fascism, and knew it to be pure, noble, humane and lawabiding in the finest sense.

When Bloom's turn to make a speech arrived, he explained that Mussolini had favored Bloom's daughter with letters of introduction to D'Annunzio during the latter's occupation of Fiume in 1919, when Miss Bloom wanted to get some magazine

The daughter wrote an article comparing the fascist seizure of power in 1922 to what might have happened in America had the American legion, under fiery leadership, decided to establish a strong and "sane and strict" and financial ruin."

Bloom boasted of Mussolini's crushing out the labor movement of Italy, and unblushingly asserted:

"You do not find any strikes," he added. "Italy has not had a strike in 22 months. Everybody over there s working, and it is all due to Musso-

the 100,000 workers in capitalist jails employed a Hearst journalist to collect the garbage scooped up in Soviet Russia about the paid agents of the international bankers. They dumped this offal on the American workers under the American camouflage of a drive for class war prisoners.

THE American workers however, are 1 too accustomed to the harsh realities of life to be fooled by the clever device's of Baldwin and his pals. The class conscious worker may not believe in the infallibility of the personnel of the Russian government. This is a papal prerogative and the workers know that all human beings are very falible and liable to err. But they know that in Russia the workers and peasants rule and that covers a multitude of sins. The British trade union movement sent a delegation to see what was going on in Russia. The delegation was not composed of Communists. Neither was it composed of Greenwich village anar chists masquerading as radicals.

WHAT the British trade union delegation saw can be read in a book published by the Daily Worker Publishing Company. They did not find with coal camps where mining com- a utopia. They found a workers and peasants' government struggling to reconstruct the country's economy on a socialist basis. There were slips here and there. That was inevitable. The trade unionists, not having spent their lives sucking some bourgeois financial pap, expected accidents and miscarriages. But incidental accomemployed \$20,000 a week from the panients were ignored in face of the dominant fact, i. e.: the existence of a workers' government. ## TWENTY POLISH **WORKERS GIVEN PRISON TERMS**

### Held in Jail 1½ Years Before Trial

WARSAW, Poland .- (By mail.)-Following the May 1 demonstration of 1924 in the city of Lodz, Poland, twenty comrades and sympathizers vere arrested and accused of seeking to overthrow the government. They were held in jail for eighteen months until their trial took place October 26, 1925. It lasted but a week and the sentence was pronounced Nov. 2.

A correspondent for "Glos Polski," a aily published in Lodz, describes the last day of the trial in these words: Before the court house are police, guards and groups of people, anxious o get in. It is difficult to enter. At the door stand two policemen, who let in only relatives, judges, lawyers and press representatives. On the stairs all the way to the hall on the third floor there are 56 police guards! The ages of the accused ranged from 16 to 23 at the time of their arrest. One admitted being a member

of the party, some admitted having Communist ideology, the rest denied any connection with the party or the Communist youth. Comrade Abe Tenenbaum in his

speech to the jury declared:

"I confessed to being a member of the Communist Party right after my arrest and I really can not understand why I have been jailed for such a ong time awaiting my trial."

Comrade Tenebaum was sentenced o 8 years hard labor with loss of civil rights.

The other sentences are: Wincenty Dmowski 6 years; Leonard Maciejewski 3: Bonifacy Swierczewski 3; Edmund Wawrzynski 2: Stanislaw Rachlewski, Stanislaw Mroczkowski. # CO-OPERATIVES FIGHT FASCISTI **RULE IN ITALY**

### American Society Joins International Protest

(Special to The Daily Worker)

CLOQUTE, Minn., Jan. 31-The Cloquet Co-operative Society, consisting of 818 members of different nationalities, at its annual meeting, most emphatically protested against the fascist terror in Italy. Fascists have not only destroyed local co-operatives in Italy, but on November 15, forcibly occupied the offices of the Cooperative League of Italy and dissolved the organization.

The annual meeting of the Cloque co-operative also demanded that the International Co-operative Alliance should take the initiative to call an international conference of the Red International of Labor Unions, Amsterdam International of Trade Unions and International Co-operative Alliance, to formulate international measures to fight fascism. The resolution follows:

"WHEREAS, the present fascist government of Italy has destroyed the co-operative societies of Italy and forcibly occupied the offices of the Lega Nazionale:

'We, the members of the Cloquet (Minn.) Co-operative Society assembled in our annual membership meeting, join in the protest of the International Co-operative Alliance, and extend our sympathies to the persecuted Italian co-operators.

"Further, we heartily endorse the proposal made by the Red International Labor Union that the International Co-operative Alliance take the initiative to call a conference of the Amsterdam International of Trade Unions, the Red International Labor Unions, and International Co-operative Alliance, to formulate measures to fight fascism."

Send Resolution Broadcast. A copy of the above mentioned reso lution was sent to the Co-operative League of America and Internationa Co-operative Alliance, London. A protest was also sent to the Italian am bassador at Washington.

NEW YORK, Jan. 31-Sub-section 9B of New York of the Workers (Communist) Party is having a get-together, Saturday evening, Feb. 6, at 56 Manhattan Av. Brooklyn.

Various comrades come together in their units to do Communist work. Many of them have not known one another, but the comrades are getting acquainted very rapidly and are even growing intimate. Therefore the 9B comrades feel that conditions are ripe for a good time. The committee prepared an excellent program.

Factory Sport Clubs.

A typical form of bourgeois sport organization, a form which in its harm to the interests of the workers ranks next to the company's union, is the factory sport club. Thru the factory sport clubs the capitalists manage to hind the workers more closely to their jobs, to throw a cloud of "good fellowyear old youth by the ear which was tion, to control the thoughts and activities of the workers after working hours, and to prepare the "loyal athswallow it. ### **NON-UNION CANDY WORKERS ABUSED** BY FORELADIES

### Low Wages, Bad Sanitary Conditions Prevail

(By a Worker Correspondent) BALTIMORE, Md., Jan. 31.-Low wages and bad sanitary conditions are what the girls in the Chocolate Prodto suffer while making "Happiness"

The place is not unionized and the boss does as he pelases to the girls that are working in the shop. During one of the busy seasons this company advertised heavily for a number of girls. In a week's time they had 200 new girls at work in the plant working from 8 in the morning until 5 in the evening for \$12 a week. After of co-ordinating this work with other they had been there one week, the party activities. boss lengthened the work hours from 7:30 in the morning to 5:30 in the evening. Some of these girls stayed on in Chicago, for instance, in setting few months the basis for future work were laid off.

\$14 Highest Wage. In the shop there are but few girls BOSSES TRY TO CHASE DAILY who have worked many years for this company. One girl who has been with the company a number of years is earning \$14 while another who has worked there ten years is receiving the same. This is their highest wage.

Conditions are the worst in the packing room. Here the girls must stand on their feet thruout the entire working day. If they sit down for a few moments, the forelady bellows: "Don't fall asleep there!" The girls were not allowed to speak to each other. If any of the girls started to whisper or talk to each other the forelady would shout: "Cut out your talking! You are paid to work not talk.' Abuse Beginner.

One girl who had started to work in this plant tieing packages was not performing the work as quickly and as skillfully as the assistant forelady that day. wanted her to. Instead of showing the girl how to do the work the assistant forelady began to call her "dumbell," "horse," "clumsy fool" and a number of vile names.

One of the girls took a few pieces of candy and put them into her pocketbook. She was going to eat the candy when she left the plant. As she was punching the timeclock her purse opened and the candy dropped out to the floor. The forelady saw this and began to call the girl a thief. Every one of the girls were searched as they punched the clock that day to big cut some time last fall and we see if they were carrying candy home with them.

Eat Lunch Near Toilet. During the half hour the girls get for lunch, they sit in a small room next to the toilet. Disagreeable odors of all kinds assail the girls as they eat their noonday meal. The boss in order to show he is "alright" gives the girls a cup of coffee every noon hour free. The coffee is black and is served out of a dirty tin can into tin speed-up system no longer. ### Prizes for Contributions

Every week valuable books are offered as prizes for the best worker correspondents' contributions. These prizes go to the worker whose work shows an effort to produce an article that will interest other workers. The article should preferably point out the conditions of labor in factory, mill or mine.

The winners' articles appear in the Friday issue every week. Read them. They will give you ideas as well as show you what splendid articles are written by workers.

### This Week's Prizes!

FIRST PRIZE: "Historical Materialism-A System of Sociology" by Nikolai Bukharin. In this valuable book all the social sciences are closely scrutinized and interpreted from the materialist viewpoint. SECOND PRIZE: "Capital," by Karl Marx, 1st volume.

THIRD PRIZE: "Russia Today," Report of the British Trade Union Delegation.

All three are valuable books for every worker's library.

"The American farmer must have an American price in the American market for his American products."

We are tempted to appply to Lowden the observation that language was invented to conceal thought, but that would be undeserved flattery as it would imply that Lowden is capable of that chemical and molecular motion of the brain required to produce thought. Neither Lowden nor anyone else can explain what constitutes an American price for anything, least of all the price of farm products which is regulated by the condition of the world markets. Tomorrow will appear the third of the series of articles by H. M. Wicks on the world court. This article exposes the hand of American imperialism in creating the court, and reveals the conquest of Europe by Wall Street.

Other articles in the series deal with the decisions of the world court against labor; its attacks on the Soviet Union and its legalizing of

Reasons for a Delegation.

1. Since 1917 the United States has been flooded with reports and counter-reports concerning the state of affairs in the Soviet Union. These rumors and stories have contradicted each other in such a fashion as to make an understanding of the actual situation in the Russian Republic impossible.
