CONFERENCE FOR PROTECTION OF FOREIGN-BORN REPRESENTS MORE THAN 200,000 WORKERS

(Special to The Daily Worker)

NEW YORK CITY, Feb. 18.—Announcements of delegation elections to the conference for the protection of foreign-born workers, called for this Sunday, February 21, 2 p. m., at Central Opera House, 67th St. and 3rd Ave., continue to pour in.

The latest workers' organizations to elect delegates and declare their solidarity with the fight for the protection of the foreign-born worker, are: Trade Union League 201; Workmen's Sick and Death Benefit Branch No. 4; Furrier Cutters' Local No. 1; Workmen's Circle Branches 366 and 150; Williamsburg Progressive Assn. Inc.; Dress Makers' Local 22; Hotel Workers

Branch of the Amalgamated Food Workers; Carpenters' Local 376; International Ladies' Garment Workers' Locals 38 and 45; Workers Party; Bakers' Local 1; Amalgamated Food Workers' Local 1.

Other organizations who had previously signified their intention to attend and elected delegates include I L. G. W. U., Locals 22 and 82; Knitgood, Local 55; Cloak, Suit and Dress. Local 35: Sample makers, Local 3; Cloak and Suit Local; Bakers' Local Cloak and Suit Local; Bakers' Local
3; Furrier, Local 5; Waterproof GarBosses Cannot Break ment Workers; Shoe Workers' Protective Union, Locals 53 and 54; and Workingmen's Circle Locals 155, 86

THOUSANDS IDLE IN SOUTH BEND; COMPANY IMPORTS MANY FROM OTHER CITIES

SOUTH BEND, Ind., Feb. 18 -

The Studebaker Motor company is importing workers here from different distant cities while at the same time thousands of workers, who have large families and have lived here many years, are walking the streets looking for a chance to go to work. The company laid off a number of men and has imported men to take their places.

When one worker asked a foreforeman answered: "I can not do a thing for you. The company is shipping in men from other cities that are half-starved and are willing to work for low wages. You fellows want too much."

Lewis Had Clown As an Ally to Put Over Black Friday Surrender Pact

By J. LOUIS ENGDAHL.

Court jesters are not a thing of 1 the past. They have only changed their clothes. In the days of kings and queens, the jester danced about, in his cap and bells and vari-colored uniform, cracking his jokes at the expense of those high and low.

John L. Lewis, president of the United Mine Workers of America, in his court just held at the Town Hall, in the anthracite coal town of Scranton, Pa., had his jester, provided for the occasion, one Con MaCole, who claims to have been a miner at one time. But that must have been a long time ago.

ON MaCole was presented to the convention shortly after the catholic priest, Father J. J. Curran, had finished with his more serious business of throwing the fear of god into the delegates if they did not accept the "Black Friday" surrender. God still rules as something to be more feared than the mine barons in the anthracite coal fields. But the jester, Con Ma-Cole, also had his purpose.

He was presented with 15 minutes of the time of the convention by its temporary chairman, Chris J. Golden, president of District No. 9. So this is the way he started:

"Fifteen minutes isn't a very long time. And you say you are union men. Well, 15 minutes ought to make up a day's work anyway."

That brought a good hand all round. Even the anthracite miners, stung with the latest sell-out by President Lewis have dreams of a shorter workday.

THEN the clown of President Lewis' court took over the chairman's gavel and announced that he was going to run a convention of his own-a mock convention. Here was his opening:

"You know what we are here for. We are here for the Miners' Annual Convention to accept nothing.

"If there is any man in the hall satisfied with his wages, let him get out now while he can walk out," and then when the laughter had subsided, the comedian concluded, "If he doesn't we'll be walking slow behind him in four days."

HE then told the story of the miners who had come up to miners who had come up to within 10 feet of the surface in a 900 foot shaft, when the car broke away and they were plunged back to the bottom again.

He then mimicked another delegate as declaring, in commenting on the radical's speech, "Well, he's a good union man." That brought forth an unexpected burst of applause that almost put a serious expression on the smiling face of the clown. It caused the officialdom to squirm. Yet that is the real purpose of a clever clown's sallies. Lewis' clown was doing his very best. There was much more of the

Then the funny man tried to turn serious and recite a poem that waved the flag in every line and denounced the Bolsheviks in every syllable. The catholic priest had put in his oar for god. The comedian proclaimed, "I'm boosting for Uncle Sam." That either one of them got a hearing indicates that the miners have some distance yet to go before they rid their gatherings of these stage trappings that are presented by their officials to get the minds of the delegates off the real problems confronting them.

CON MaCole did pretty well and Lewis will no doubt reward him for it. Out west the miners' officials make even better use of their comedians. Their latest pet is Oscar Ameringer, who performed for a long time in the socialist party, and has even been substituting for Victor L. Berger on the Milwaukee Leader, the official mouthpiece of the Wisconsin congressman. Ameringer parades as "Adam Coaldigger," thru the columns of the "Illinois Miner," the official organ of the Farrington machine in the Illinois Mine Workers' Union. Ameringer's ambition, self-admitted, is to become jester to the great American working class. But he has not realized, and will never realize that an awakened working class will not laugh at his jokes when the workers learn that he is trying to get them off the main track in the theory of "get something now."

Ameringer has taken some job on his hands when he attempts to put a radical coating on Lewis' ally in Illinois, Frank Farrington, who wants to become president of the United Mine Workers of America when "John L." joins Coolidge's cabinet as secretary of labor.

 $B^{\rm UT}$ the workers will find the right time to laugh and the right time to be serious. They will ious, and act accordingly, is when their officials are trying to put something over on them. Seriousness is always required to fight "Black Friday" surrenders.

Thirty-five bodies had been removed from the debris: 20 persons suffering more or less serious injury were beng treated in the Bingham and sev eral emergency hospitals, and more than 40 others were known to be missing. The property damage in the disaster will be about \$40,000.

It is probable that it will take many weeks before all of the bodies are recovered. Only the spring thaws will allow rescue workers to get at the heart of the tomb of ice and snow in which many of the dead are sleeping.

Italian Discovers New Way to Gold Extraction

ROME, Feb. 18 - An Italian engineer, according to reports here, has liscovered a new gold ore which will creatly increase the world supply of gold. Dalfornite is the name given to the new mineral. It is found in rocky formations both in Europe and in the United States, Mexico and South America.

It comes under the head of a superrefractory ore, and gold can only be extracted by special processes. Unless the ore contains at least thirty to fifty grams of gold per ton, the process of refining is of no use, but the inventor claims that the deposits of dalfornite already discovered contain higher quantities than those just mentioned. As much as a kilogram of gold has been obtained from a ton of dalfornite after the refining process. The inventor, who has already obtained patents from several governments for his process of refinement, proposes to go shortly to the United States to start prospecting there.

The average fatality rate for the 3 years 1922-24 was 1.56 per million hours of exposure. This compares with an average of 1.47 for the 12 preceding years. The fatality rate in the last 3 years for which full records have been published exceeds by more than 6 per cent the average of the preceding 12 years.

The 5 years 1916-1920, in which the influence, were years in which the fatality rate fell far below the averexposure in these 5 years was 1.34 The average of 1.56 in the years 1922-24 in which non-union mines were 16 per cent higher. (Special to The Daily Worker)

NEW YORK, Feb. 18.—That the opposition to the ratification of the Lausanne treaty with Turkey is still hopeful of preventing its approval is shown by the statement of David Hunter Miller, chairman of the American committee opposed to the Lausanne treaty. The committee's campaign is based on the circulation of atrocity stories against the Turks, similar to those published during the world war against Germany.

Mr. Miller feels quite strongly on the subject. The recognition of the miner union was at the peak of its Turkish regime, he complains, would be "un-American." The foreign-born workers of Chicago are becoming aroused against and enslavement advocated by the Coolidge-Mellon government and being spread broadcast by the secretary of labor, James J. Davis. They realize full well that such legislation as the proposed finger-printing of foreign-born workers is only a preliminary to the systematic terrorization of all workers.

Our members many times have been asked by the party to join the trade unions. It is also true that many lectures were given and many articles written on that subject in an effort to get our members to understand the significance of the trade union work and the opportunity this work gives to our party for carrying on Communist propaganda. Still, all this did not bring about the desired result.

The last plenum session of the C. E. C. of our party established that the trade union work is a problem which concerns the party as a whole. The result of this is a campaign by our party to bring all the qualified members into the trade unions.

WITH THE YOUNG WORKERS LEAGUE AT N. Y. FORUM THE MEANING OF OUR DEMAND FOR MORE SANITARY CONDITIONS

IN PASSAIC TEXTILE STRIKE

By MIKE ELASIK, Young Textile Striker. PASSAIC, N. J.-Many thousands of young and old workers went on

strike in the textile industries here in Passaic and the bosses seem not to know why or for what reasons we struck. Well, that's what they all say. Anyhow, I'll be very generous about it and tell them why thru the Young Worker Column. Well, in the first place they thought they would get away with it by

donating to the workers a ten per cent wage cut to their already starvation wages. They simply cut them down to a stage where the workers just couldn't stand for it any longer, so a strike was the result.

The second reason: The bosses just heaved the speed-up system on the workers by saying it is a rush order, or by making one man do two men's work. Third, because the conditions here are commonly known as rotten. I work in the spinning

department. There the machine is run in an up and down motion, that is forward and back.

Seven workers, including children, women and men, take care of two machines, consisting of four sidetenders, each faking care of three hundred teen years of age, each taking care is nothing but a draft. spinner which takes care of the motor being the spinner, the side tenders and spoolers are under his control in a way, besides two foremen and some other work-pushers.

The wages of these workers average from \$9 to \$34 per week of 48 hours. All piece work. The spoolers earn from \$9 to \$14 per week, the side tenders earn for \$16 to \$19 per week, and the spinners who regulate the machines are the highest paid of miserable the conditions of workers all, they earn from \$32 to \$34 per are in the mills here in Passaic. week. And they slave for it too.

Now to speak of the sanitary conditions, I want to say that there's not even a leak of ventilation in the spinning rooms and there's damp, moist and fifty bobbins, and two spool girls artificial air which they try to make or boys, ranging from fourteen to six- the workers believe is healthy, which of the seven hundred spools, and a are also dampers from which steam continually pours out thruout the day and regulations of the machines. As and believe me, you can't work in there with a top shirt without coming home soaked with sweat. The floor is so thick with filth and oil that the room filed with bad odor is such that a dog won't even walk thru for fear he might smother to death, and yet the bosses wonder why the textile workers went on strike.

> The above facts will prove how We will fight until we win.

UNION BETTERS CONDITION OF RETAIL CLERKS

Bosses Fear Militant Organization Drives

By a Worker Correspondent

NEW YORK, Feb. 18 - The purpose of this article is to expose the miserable conditions of the grocery clerks of years ago and the changes brought about by the Retail Grocery and Dairy Clerks' Union of Greater New York and the miserable conditions in the non-union stores of today.

To become a grocer's apprentice 10 years ago was very easy.

Joe gets up 4 o'clock in the morning; pulls on his clothes; wets his hair; slides down the three flights of stairs and grabs a morning newspaper. He walks over to the nearest lamp-post, and turns to the "want ads" page and reads: "Grocery boy wanted. No experience necessary, 555 Hoe Ave., Bronx, N. Y."

Joe gets on the train at the nearest elevated station and arrives at his destination at about 5 a. m.

He walks into the food store of Mr. A wheelbarrow figure on two short legs, bent over a box of rolls: "Young man, you are just the guy I want," grunts Mr. "H." I had no luck with my boys lately. They don't seem to stick, but a fellow, whose ambition brings him here 5 o'clock in the morning is the right dough for me. Deliver these seventy orders. You will then go up to my house for breakfast. You will go up for dinner when you have a chance and for supper towards evening. There is a cot for you in the kitchen to sleep on. My baby's crying wont wake you after a day's work. You start every morning at 4:30 a. m. I am no mean person. I don't keep a boy tied to the store, if there is no work to perform. You will be thru with your day's work quite often at 11 p. m. Of course, you know that on Saturdays you have to work until 1-2 a. m., but for that you will get off on Sundays between 12 and 4 p. m. This batch of orders goes first."

Joe well realizes that Mr. "H" seems to be a liberal boss for on his last job he had to do even more. And being that Mr. "H" is liberal, Joe is sure that at the end of the month. he will get 5 or 6 dollars pocket money.

But time goes on and many changes take place. Today there is a local of the Retail Grocery and Dairy Clerks' Union of Greater New York, which wrought a great change in these almost unbelievable conditions. The member of the union does not look for the job, but the employer is supplied with help from the office of the union.

Since the union has become a factor Joe now walks into Mr. "H's" store which is non-union, neatly-dressed, his hair neatly combed. Mr. "H" motions to him to walk into the back room of the store. He takes a sheet of paper average wage of a chain store clerk

OTTOP GOMENDON 1000 WORKER CORRESPONDENTS BY JANUARY 13 1927

THE WINNERS!

The first prize goes to a grocery clerk in New York City. His article describes the life of a grocery clerk, past and present. He receives the book by James H. Dolsen, "Awakening of China."

The second prize goes to a worker in the Toledo Malleable Iron Works, who tells how the workers there are revolting against the black robed fakers.

The third prize goes to a miner of West Virginia who describes the extreme poverty of the union miners in northern West Virginia. due to the treachery of John L. Lewis and company. He receives "The Russell-Scott Nearing Debate" on the Soviet form of government.

Next Week's Prizes!

First Prize-A valuable fountain pen. Second Prize-Karl Marx's "Capital," Vol. No. 1. Third Prize-Lenin on Organization.

Be sure to send your name and address with the story. We cannot forward prizes if we do not know how to reach you.

"How much do you expect to get per week?'

"Alright. I will let you know. Good morning.'

And if everything is satisfactory, Joe lands the job at \$20 to \$22 a week. His working hours are from 6 a, m. to 8 or 9 p. m. and a half a day off Sunday for which he has to make up Saturday night.

The average number of months the clerk works thruout the year are 6, 7 or 8 months, due to slow business during the summer.

Unions' Retail Store Clerks.

After eleven years of ceaseless fighting the union clerks have gained a nine-hour work day and a six-day work week for their members. Despite the fact that the labor laws of the state of New York, prohibit a seven-day work week, they have to strike for a six-day week and are quite often confronted with injunctions for trying to enforce the law. The union also obtained for its members a minimum wage of from \$35 to \$45 a week as clerks and from \$50 to \$60 for man-

(By A Worker Correspondent.) TOLEDO, Ohio, Feb. 18.—The most despicable double cross in the history of this city has just occurred. The Toledo Malleable Iron Works employing over 500 Hungarian workers has been in the hands of a receiver for the last three months. During December the receiver informed the workers that there was no money pected to pay them in a few weeks. out. When December was over the workers having been without pay for five weeks, threatened to quit and go to a neighboring foundry. The receiver then solemnly promised them their wages before the end of the week. Still there were no wages. Hundreds were going into debt. Scores were on the verge of starvation, and yet the receiver kept on promising

Priests Get on Job.

Catholic and Greek Catholic priests forcing the hands of the biggest chain stood up before their congregations and demanded that the workers who better conditions to their employes had left the Toledo Malleable Iron Iron Foundry quit their new jobs and return to their former employment.

> Meanwhile the Malleable Works could not get any workers to replace the ones who had quit as no one desired to work without wages. Mi. asked the men why they were strikraculously they found money and began to pay wages. The workers who had quit reported Monday morning at the Malleable plant, on the advice of their priests. Lese Majesty Against Wood

Antonio Paguia, city councilman of Manilla, Philippine Islands, attacked Major General Leonard Wood, watchdog and gunman of American imperialism, for his despotic regime in the islands. For this "crime" he was sentenced to prison for four months, sentenced to pay a fine of \$100 and disqualified from holding office.

This latest act of despotism against the Filipinos was conducted by the American chief of police in Manilla. The reptile press their membership during the last assessments? These are the questions reports that "Wood had nothing to do with the prosecution." Those who know the character of the liveried thug who placed the iron heel of militarism upon the necks of the steel strikers of Gary in 1919-20 realize what a gentle, retiring, modest creature the general is. The fact that Wood is dictator of the islands proves that no of the American Federation of Labor And in some instances, their pay as prosecution of such a nature could start without his consent.

A servile native judge, corrupted by American imperialism, decided that Paguia, for criticism of Wood during an electoral cam- be drawn into the organization campaign, was guilty of "sedition" against the United States "to which paign. Men, women and young workhe owes allegiance."

If ever an oppressed people had good cause to rise and throw off the tyranny of an invading power it is the Filipinos. This conviction of the Manilla councilman for the crime of "lese majesty" against Wood is one more indictment against American imperialism in those islands and enlightened American workers will sympathize with and support any move the natives of that oppressed part of the world may take to expel Wood and everything that he represents.

By JAY LOVESTONE.

II. THE McCLINTIC BILL.

THE bill introduced by Congressman J. V. McClintic, of Oklahoma is an out-and-out deportation bill. It makes no pretense whatsoever at del told by this judge: "Go back to work laying persecution of the foreign-born and I will grant you papers." worker by giving the latter an opiseless due-process of the law provided for in other measures.

The McClintic bill fits in very well with the bill introduced by Congressman Aswell. We have seen that the bill introduced by the gentleman from Louisiana provided for certain arrangements which made it much more difficult for foreign-born workers to become citizens of the United States. The McClintic bill follows right on the footsteps of the Aswell bill and declares that any foreign-born worker who has failed to become a citizen, into account the difficulties in the path of becoming a citizen, is to be punished very severely thru deporta-

WE find that the bill declares that all workers who have been five years or more in the United States ship papers shall be deported if an application for citizenship is not filed within six months of the enactment of this bill as a law.

This declaration is as effective a strike-breaking weapon as that proposed by the Aswell bill. It gives the Department of Labor unlimited power bor into an open strikebreaking agency

Little time need be spent here in examing the difficulties that interfere with foreign-born workers becoming citizens of the United States. We simply want to cite one incident the foreign-born workers by the ruling class of the United States.
