SENATORS MAKE PLANS TO GRAB **INDIAN LANDS**

Oil Lobby Paves Way For Big Steal

(Special to The Daily Worker) WASHINGTON, March 7. - By a rollcall vote of 43 to 29, the Senate adopted the conference report on the urgent deficiency appropriation bill, thereby taking from future funds of the Navajo Indian tribe the sum of \$100,000 to cover half the cost of a bridge over the Colorado river at Lee's Ferry, Ariz. The Indians protested that they would never use the bridge. It was shown, however, that oil had been discovered under their lands, and with \$771,000 already charged up by the government against their future revenues, the pressure for opening these lands to private development of oil was intensified.

HUNDREDS CHEER TRUMBULL AT TURNER HALL

American Imperialism Given Severe Blow

Hundreds of Chicago workers cheered Walter Trumbull, U. S. soldler released from Alcatraz Military prison after serving one year in prison for belonging to the Hawaiian Communist League, at the Northside Turner Hall.

Trumbull pointed out that Filipino laborers are brought into Hawaii by the American sugar interests to work on the extensive plantations under a contract which virtually makes them slaves of the sugar barons. He told of how 20 families having sometimes 10 children in each family crowd into four room cottages and live in most miserable conditions. The unbearable conditions of the sugar workers have caused them to revolt many times and each time the American army of 5,-000 that was maintained on the island was used to crush these strikes.

Aid Filipinos Organize.

Trumbull then went on to show that Crouch, himself and a number of other oldiers tried to help the Filipinos organize against the sugar trust. These soldiers who saw that the class inerests of the Filipinos and of themelves were alike, aided as much as possible the Filipino arganizers to or ganize the plantatin workers.

STRIKERS' COMMITTEE VIOLENTLY EJECTED FROM SCHILDKRAUT'S

NEW YORK, March 7 - The fat manager at the Schildkraut's restaurant, 36th St. and 7th Ave., violently ejected the Passaic strikers' relief committee, which had entered this restaurant, patronized mainly by radical workers, to collect funds to aid the striking textile workers. Due to this action of the manager, the radical workers have determined to no longer patronize this restaurant.

N. Y. COAL DEALERS CHARGED OUTRAGEOUS PRICES DURING STRIKE

(Special to The Daily Worker) NEW YORK, March 7-"Unprecedented profiteering" has been going

on in the coal business of this city, according to a special committee of the state chamber of commerce which has just submitted its report. The investigators declare that the profiteering is not confined to the cellar dealer and the peddler but that the large retailers have raked in huge profits during the anthracite strike.

The committee recommends that the state legislature establish a factfinding agency to prevent similar holdups in the future.

WILD CONFUSION GRIPS AGENTS OF IMPERIALIST NATIONS AS THEY **GATHER FOR SPECIAL LEAGUE MEET**

(Special to The Daily Worker)

GENEVA, Switzerland, March 7.-Tomorrow's session of the league of nations is confronted with all the contradictions of imperialism in their sharpest form. Even the most ardent supporters of the league and the "spirit of Locarno" are pessimistic and frankly admit that instead of a league of nations it is nothing more than an arena in which new alliances are being formed, in which individual nations and groups of nations scheme to gain advantages over other nations.

The special session of the assembly was called for the purpose of admitting Germany into the council of the league of nations on the basis of the Locarno pacts signed at London last December 1. To counterbalance Germany in the league, France proposed the admission of its ally and pawn, Poland, to a permanent seat. This would require enlarging the council of the league.

Dream of Japanese War KELLOGG IS NOW Against Soviet Union Is UNDER FIRE FOR AT TSANG CHOW An American Nightmare EXCLUSION ACTS

By J. LOUIS ENGDAHL.

A MERICAN imperialism would gladly use Japan in new attacks from the east against the Union of Soviet Re-

It is certainly this wish that fathers the hope openly expressed in The Chicago Tribune, thru the correspondence of Roderick Matheson, stationed at Tokio, that the Japanese will hunt some good excuse for opening war on Soviet rule in

The Tribune has made itself infamous thru the flock of jingo writers that it has sent into the orient, not the least of these being Floyd Gibbons, who returns to this country with the military decorations of French capitalism on the one hand, and on the other pointing out the dangers of granting independence to the Philippine Islands, and demanding that their enslavement continue. Matheson tries to state the situation for Japan in this paragraph:

"We could drive the Russians back to the Balkal line easily enough, but would we be allowed by the powers to keep Siberia if we' won it?" asked a high official of the Japanese army, in conversation recently respecting the problem of Japan's surplus population and the necessity of an expansion of Japanese territory.

The trick of quoting imaginary "high officials" is one at which America's kept journalism has grown adept. It is not the Japanese "high official" who speaks, however, but the ambitions of American dollars that inject these silly dreams of continental conquests into the brain of the present dominating power over the Mikado's island realm.

Let the Tribune explain why it was that the soldiers of the United States, with those of Japan and a host of other anti-Bolshevik nations, that were once on Siberian soil for the purpose of crushing the workers' and peasants' republic had to be withdrawn. They could not then stand against the Soviet power, even when it was being attacked along its whole western front in Europe, not to mention the foreign invasion of its soil from the Arctic Ocean, at Murmansk and Archangel.

If the united imperialist armies could accomplish nothing but their own defeat in 1919 and 1920, Japan has certainly little chance of triumph now.

Japanese imperialism has confessed it realizes this situation when it took its soldiers off every inch of Soviet soil, when it gave up its dreams for the retention of Saghalien Island, rich in natural resources, when it recognized the Soviet government and sent its ambassador to Moscow, and especially when it bowed repeatedly to the Soviet viewpoint in Russian-Chinese relations. The Manchurian flare-up is but one example.

Japan has ambitions to be sure, both imperialist Japan and working class Japan. Imperialist Japan would like nothing better than to seize Siberia as the best possible place for Japanese expansion, to get control over Manchuria and the Chinese Eastern railroad, to grab the rights over the Siberian fisheries and stake its oil claims in North Saghalien. That would make it much more worth while for the United States to launch its conquering "war in the Pacific" against

But Japanese imperialism has two great factors to deal with. There are the workers and peasants of the Soviet Union who have not the least intention of permitting Japanese aggression to establish itself anywhere in the realms over which the Red Flag now flies. Then there are the Japanese workers themselves more determined now than ever before not to fight against but with their Russian comrades.

The American dollar tries to incite Japan to war against Soviet rule. It will be a bad day for profit rule in both Japan and the United States when that war starts. It wouldn't be a glorious dream of conquest. It would rather be a black awakening in the jaws of defeat.

Shakespeare Memorial Theater at Stratford Burns to the Ground

(Special to The Dally Worker)

STRATFORD-ON-AVON, England,-March 7-The Shakespeare memorial day! The origin of the fire has not been ascertained.

The theater was a brick structure, circular in form, somewhat after the style of theaters in Shakespeare's own day and was built some forty years ago. As the scene of the annual pretions it attracted audiences from all America

The theater was beside the River Avon and just behind the site of Shakespeare's house. Below the theater is Trinity Church where he is buried.

The theater was empty when the fire occurred.

Hungarian Count Fears an Investigation

WASHINGTON, March 7 - Secretary of State Kellogg has been challenged by Sen. Borah, in a star-chamber session of the committee on foreign relations, on Kellogg's legal right to exclude foreigners from the United States by autocratic decree.

Kellogg came before Borah's committee to oppose the Borah bill which would repeal the war time legislation and immigration law amendments under which Saklatvala, the Countess Karolyi and Count Michael Karolyi, among others, have been barred or

Borah pointed out that this made the Secretary of State Kellogg an autocrat, and that it changed the American government from a democratic to an autocratic one whenever an alien approached our shores. However, he declined to agree that any unconstitutional scheme of enforcement could be tolerated.

The committee failed to take up at his meeting the Wheeler resolution calling for a probe of the Hungarian legation's part in the Karolyi exclusion. Within a few days Sen. Western Railroads Select Committee to Oppose Demands

Executives of the western railoads, meeting in the office yesterday of the general managers association, elected a committee of twelve as their representatives in the forthcoming conferences with the conductors and trainmen over their demands for a percent increase of wages.

Eighty railroads had delegates in attendance, representing a total trackage of approximately 135,000 miles. W. M. Jeffers, general manager of the Union Pacific, was selected as chairman, and W. F. Thiehoff, general manager of the Chicago, Burlington, and Quincy was named as vice chairman of the managers' committee. The managers are already on record as opposed to any wage increases.

Tariff Now Becomes Issue in Congress

WASHINGTON, March 7. - After lying dormant for two years, the tariff was revived as an issue in congress when Senator Robinson of Arkansas, democratic leader of the senate, sponsored a resolution proposing a senatorial investigation of the United States tariff commission, introduced a bill reducing the commission's membership from six to four and issued a statement criticizing President Coolidge for "intimidating" the commis-

TRIAL OF SPIES AT LENINGRAD **REVEALS CRIMES**

of Plots

-The trial of the Esthonian spies, held here the early part of this year, was a most sensational event.

A whole gang of these mensheviks, whose plight has so much excited the sympathy of the social-democratic leaders and alleged liberals, such as Roger Baldwin of the American Civil unanimously: Liberties Union, have testified one after the other to the fact that they were confessions. Spying is their particular profession.

Most are ex-czarist officers or gendarmes who have served in the Russian White Guard or Esthonian armies. Lieutenant Snarsky, the ringleader, took up the profession of spying after being thrown out of the Esthonian army for drunkenness. He had established a network of agents.

One of these was the spy Gekonen, who told Snarsky later that he was also an agent of the British Intelligence Department, which desired to "utilize the services" of the Esthonian spying organization, and also spoke of a number of explosions being prepared on Soviet territory.

Before being caught these people managed to send "home" important Soviet military secrets. Snarsky smuggled cocaine in his spare time. The Georgian Spies.

A no less illuminating spy case is that of Kapiotn Andjaparidze, former member of hte Georgian Menshevik government. The Menshevik prisoners on trial not only confirm these connections, but also assert that the Georgian Mensheviks in Paris have a definite agreement with the Polish Intelligence Department. The Poles accompany all Menshevik agents across the frontier and in return the Georgians agree to give the Polish General Staff copies of everything they bring out of Russia, before letting any other government have them.

The base and the supports of imperialism both in the advanced countries and in the backward and suppressed nations like China, are being undermined. The same process is proceeding in India and Egypt where the revolutionary forces are mobilizing. Nevertheless, great difficulties and hindrances are still to be overcome before all the oppressed can be led together into the struggle against imperialism. All this demands a still greater firmness on the part of the working class and a further development of the policy of the proletarian united front under the leadership of the Communist International.

THE SEASON

The International Concert that is being arranged by the Chicago group of the Trade Union Educational League on Saturday evening, March 13, at the Aryan Grotto (Eighth Street Theater), Eight and Wabash, promises to be one of the biggest events ever staged by militant trades unionists of Chicago.

The arrangements committee has secured a number of excellent features for the program and a number of pleasant surprises will be sprung on those that attend the concert.

Those who attended the Trade Union Educational League gathering year or so ago, at which a "Night In Scotland" was staged by a group dressed in Scottish national costumes will be able to see the same group present an entirely new program.

Added to the Night In Scotland Night In Ireland that will be presented by the National Irish Dancers The Freiheit Singing Society and

the Freiheit Mandolin Orchestra known to all Chicagoans, will occupy a prominent place in the program. The Lithuanian Liberty Chorus, which has about 50 voices, will sing number of songs.

Fred Ellis, cartoonist for the DAILY WORKER, assisted by Robert Minor and Lydia Gibson, will stage a nov elty that has never been seen in Chicago entertainments.

Sam Lein, well-known Russian ac cordionist and pianist, and Margaret Lewis, pianist, have also been se cured

OLD PARTYITES OF NO. DAKOTA **BREW POLITICS**

Republican Chiefs Trade Nomination Support

(Special to The Daily Worker) By JOHN GABRIEL SOLTIS. WILLISTON, N. D., March 7 .-Rousseau once wrote that the masses of people are always duped by the appearance of things; that the realities have a knack of escaping their

attention. It would seem that the capitalist politicians of North Dakota are familiar with that truth, since what they cooked up last week at Devils Lake in the republican pre-primary convention indicates that they rely entirely upon the appearances of things political to keep the farmers of this state behind the program of the Minneapolis chamber of commerce. Theirs was a master stroke of political foolery.

Nominate An Unknown.

They nominated for governor a certain Mr. Hanley of Mandan. Nobody knows a thing about him. He is as obscure as the man in the moon. His nomination is a wet blanket upon his own candidacy. The Independent Voters' Association does not want his election. Their real candidate is the present governor, Mr. Sorlie. Their nomination of Hanna, who is a strong man from the purely political standpoint, for senator is a striking contrast to the nomination of the weak Mr. Hanley. Deep politics are abrewing in North Dakota.

It is manifest that Sorlie has traded off Nye for Hanna in consideration for the support of the Independent Voters' Association for the governorship. This deal makes Sorlie and Hanna the real candidates for the regular republican organization.

Raising the Bogey.

In the meantime the prostitute press of the state is beating the tom-toms about everybody having fused to lick the "Socialistic program" in the state. This is calculated to solidify support for Sorlie. However, every politically conscious farmer and worker in the state knows that Sorlie, as governor, by following a passive policy toward the Bank of North Dakota, and by his downright sabotage of the Mill and Elevator Association was merely doing the bidding of the Minneapolis chamber of commerce.

Auspicious for Farmer-Labor Party. The Farmer-Labor Party will enter into the battle under the most auspicious circumstances. The great work of clarifying the farmers will proceed at a much quickened pace, as the result of the Sorlie-Hanna pact.

This mistake was committed under the influence of the ultra-lefts and affected the whole Comintern. This error was, however, overcome and the German Party learnt to apply the tactics of the uni-

"The most important successes which were achieved in the year under consideration fall to the account of the English and the Chinese Parties. The comparatively young English Party in one of the most important capitalist countries learnt to exercise a definite influence upon the masses even tho it does not yet lead them. The young Chinese Party was also able to exercise a decisive influence upon the events in the East events which were of world historical importance. In the past year the Communist Party of China has tripled its membership, and the Kuomingtang Party with which our Party works together, has increased its influence sevenfold. These young parties show that the Comintern has found a foot hold apart from the West.

Overcome Crisis.

"The Czechish Party has consoli dated itself and completely overcome the crisis. It proved itself to be one of the staunchest sections of the Comintern which sends it its warmest greetings.

"In connection with the war i Morocco the French Party provided an example of how the Communists fight war, whilst the socialists proved themselves once again to be social patriots.

"The decisions of the last congress of the Italian Party finally settled the danger from the ultra-left in the Party. The blows of fascism have wrought the Communist Party of Italy into a strong and united proletarian party. In almost all the decisive centers the Party has won over at least the relative majority of the proletariat.

"The Bulgarian Party in particular has suffered severely under the white terror. Physically it has lost a whole generation of fighters. It is, however, beginning to overcome these serious losses and to rally the workers once again around the banner of Commun-

On the other hand, Bubnik, who hoped to destroy the Party, is now reposing on the rubbish heap. With the assistance of the Comintern, the Party succeeded in overcoming the dangers which threatened from the right.

White Terror Victims.

"The year has cost us great sacrifices. In 38 countries 40,457 Comrades were arrested, 30,286 wounded and 4,553 either murdered outright or tortured to death. In Bulgaria alone a thousand comrades were murdered. In England, for example, almost all the members of the Central Committee of the Party are in prison. The General Staff of the world revolution sends its warmest greetings to all comrades in prison.

Call on Unions and Shops for Support

NEW YORK, March 7-The drive for a \$10,000 fund for the Workers School is being carried into the unions and shops. A special effort is being made to extend the influence of the school to the shops, something which the new form of organization, with the shop nucleus as its basis, makes possible. The shop nuclei are receiving lists with instructions to make a special effort to get non-party members in their shops to contribute sums, The Workers School. It is not merely a question of filling the drive quota but much more of extending the mass influence of the school to all of the workers in New York City and surrounding territory.

The closing date of the drive. March 14, with its big concert and mass meeting and Moscow Art Theater performance on behalf of the school, is approaching. On that date, \$8,500 must have been raised if an additional \$1,500 is to be secured from B. Brodsky, as per his promise, to make up the \$10,000 fund. Therefore, every contribution reported before that date is worth far more than if turned in late. The drive should have a whirlwind finish during this final week in which every worker should set aside less important matters in order to concentrate full attention on the drive and to bring in his list well filled up, in time for the concert at Central Opera House. There will be a committee at the hall to receive lists and donations, or they can be turned over to the director of the school or the director of the drive, A. Ravitch, at the Workers School, 108 E. 14th St

During this week, every unemployed worker and housewife or other friend of the school, who has an hour or so to spare, should come up to the office of the Workers School and aid in the addressing of envelopes, mailing of lists, visiting of unions and other workers' organizations.

Party recognized that his association there is intended as support for that paper, which is working against the interests of the rank and file of the working class and is an organ in the hands of the bureaucrats of the labor movement.

Anticipating his expulsion, Cannata sent a resignation, giving as pretext for his desire to withdraw that he is not in harmony with the policy of the Party. His proposed resignation is only proof of the correctness of the Party in expelling him as having gone over into the camp of the labor bureaucrats, and the betrayers of the interests of the working class.

QUESTIONS FOR CLASS IN HISTORICAL MATE-**RIALISM FRIDAY NIGHT**

The class in Historical Materialism Friday evening will have as its text pages 67 to 93 of Bukharin's book. All the notes in smaller type should be read in connection with this lesson.

1-Explain briefly the fundamentals of the dialectic method as applied to society.

2-Why do bourgeois historians refrain from applying this method? 3-How did Marx, starting from the Hegelian dialectic, arrive at dialectic materialism?

4-Is there such a thing as stable equilibrium?

5-Is it scientific to speak of evolution, to the exclusion of evolution in nature or society?

6-Can we understand capitalist society by analyzing it in itself? 7-Are the philosophers who view

society as an organism correct? 8-What is the basis of the structure of society?

STANDARD OIL HAS NEW SLAVE PLAN FOR LABOR

Announces Stock Sale to **Hoodwink Workers**

With the end on March 31 of the five-years employes' stock-purchasing plan of the Standard Oil company of Indiana, announcement was made today that the directors have inaugurated a new plan, slightly different from the first. Employes of the Midwest Refining company, with headquarters at Denver, and of the Dixie Oil company, with headquarters at Shreveport, La., subsidiaries of the Standard, are included.

Under the expiring plan 15,300 employes have purchased 390,000 shares of capital stock, valued at \$25,350,000. making them owners of 4.2 per cent of the total stock. The new plan will run three years. Employes may subscribe up to ten per cent of their entire working class listen to the call wages or salaries for stock. 50 cents for every dollar invested in a punishment instituted by the multistock by employes.

As the total of 390,000 shares owned by the employes was, according to the company's own statement but 4.2 per cent of the stock. this would make the total number of shares approximately 9,300,000. An individual employe stockholder would be lost in such a total like a needle in a haystack. Even the whole 390,-000 shares, if voted as a unit,—which they are not,—would not have the slightest influence.

Minneapolis, Minn., March 5 .- The Minneapolis Junior group will stage a play, "School Days,' on April 3, in which all the thirty members of the group will take part. Aina Rask, Aune Sandback and Aina Willanen will have the leading parts. Other selections will be given before the play. Following the play there will be a dance. Funds which are received will be used to pay up the debt of the Junior group to the national office.

This group has been very active in the last year. It had circulars printed for anti-education week, which it distributed among the school and neighborhood children. Christmas it gave a thoroly Communist program which was attended by a full house. This coming spring it will conduct several hikes and picnics to the lakes about the city. NEW YORK, March 7.-In all modern department stores wages and hours are pretty nearly the same. The hours are long and the wages range close to the point of a mere subsistence ration. Many stick it out and prefer an indoor shop existence to that of any other calling; the younger people being assisted by their parents providing a cheaper room and board than they would otherwise get by living elsewhere.

One of the methods used by the department store owners in treating their employes is that of patriotism, a kind of fatherly, feudalistic, social aid type accompanied with low wages. When, at the end of the day, the boss saw that his expenses were greater than his income and that his business was falling off, he came to the union headquarters the next morning and settled. The boys all went back o work in a 100% union shop.

WORKER CORRESPONDENTS IN THE SOVIET UNION NUMBER 220,000

Reprinted from the Worker-Peasant Correspondents' Magazine. (From a report by Comrade W. M. Molotov, Secretary of the Central Executive Committee of the Communist Party of the Soviet Union given at the last congress of the Party.)

The worker and village correspondents' movement lately achieved colossal influence. Since the last congress of the party the movement has grown from 48,000 to 220,000. It is difficult to state the percentage of party members among them.

In the 45 newspapers of the Central NEW YORK, March 1.-The Hotel Executive Committee we have 40 per cent of party members among the worker correspondents and 26 per cent among the village correspondents. Of course, the question is not how to raise the percentage of party members among them. The main thing is to help develop the initiative of the workers and active peasant masses, to get from among them new thousands and tens of thousands of active workers for the Soviet power and our party.

Army of the Press.

We should not look upon the worker and village correspondents as merely workers of the press. It is an army of over 200,000. Youngstown Lawmakers Pass Blasphemy Law at Behest of Bosses

By a Worker Correspondent YOUNGSTOWN, Ohio, March 7. The case of Anthony Bimba is likely to be repeated in Youngstown in the near future, for the ku klux klan of ficials have surreptitiously put on the ordinance books of the city a law which can be used by the capitalists and their defenders against the workers at any time they see fit to use it.

Section 5, chapter 11 of the revised ordinance says: "No person shall act exhibit, show or perform or be in any manner concerned in the acting, exhibiting or performance of any indecent or blasphemous play, operetta, public exhibition, show or entertain-

Not only will the ku klux klan offi cials use this law at any time to persecute workers, but so will the chamber of commerce, the rotarians, kiwanis clubs and the open shoppers. They will use this law as one of their weapons against the workers.

One of Youngstown's papers the ther day stated that Bimba would be subject to prosecution under this ordinance. If the light of publicity is thrown on the actions of city lawmakers, like ordinances will be found to have been passed at the suggestion of the chamber of commerce, which is behind the campaign for the suppres sion and persecution of the workers.

Worker Tells How His Nucleus Aids Daily

By a Worker Correspondent.

NEW YORK, March 7.- I want to tell about how my shop nucleus is boosting The DAILY WORKER. At our first meeting we decided that every member must be a subscriber, and must try to get at least one worker in his shop to read The DAILY WORKER. We gave the nearest news dealer in the district an order for seven papers daily. These we distributed among the workers in one shon every day

We did this for two weeks in succession. The result was that three workers in that shop subscribed for the paper. The others are deeply interested and read it every day. The whole shop is now ready to support us in the fight against the boss and are beginning to understand the Communist movement.

"Say it with your pen in the worker correspondent page of The DAILY WORKER."

The Reptile Press in the Passaic Strike

Contrary to the usual practice of the capitalist press, a portion of the daily newspapers of the metropolitan area seems to be taking the side of the strikers in Passaic. Sympathetic articles accompanied by photographs of the cossack brutality inflicted upon the of the socialist labor party. But times strikers by the police appear in the tabloid paper, the Mirror, published by the Hearst concern; another sheet published by Banaar McFadden, the "physical culture" capitalist, called the Graphic, also publishes similar material.

These papers compete for circulation. Cheap in appearance and socialist bureaucrats, made their content, they try to appeal to the mass of workers who have but little time to read. Their columns, under ordinary conditions, reek with the most vile capitalist propaganda; all the most poisonous tool in the hands of the Tammany mental machinery superstitions are popularized in order to make their readers subservient to the exploiters.

The role of Hearst and his publications is familiar. He obtained his start as a publisher by pretending to appeal to labor, but as soon as his papers were established he stabbed labor in the back. His lockout of his employes in Seattle recently is an example of his great friendship for organized labor. In Passaic his papers expose the police terror, but in the pressmen's strike in New York against his own striking workmen. Last year there was another strike in the press rooms of his sheets in New York and the office of the Mirror presented the appearance of an arsenal with police and thugs swarming the neighborhood and beating back the strikers who even dared appear in the vicinity.

In face of this very meager record of Hearst's anti-labor activity no Passaic striker should be fooled into believing that these papers are friendly to organized labor. They simply use this strike to get the millowners, was the general decirculation so that their poisonous propaganda may more easily pression of the industry, the cotton be instilled into the mill workers after the strike.

The strikers should remember that there is only one labor daily The workers at once raised their pro published in the English language in America and that is THE test to the millowners, to the Gov

We fight for the Passaic strikers because they belong to the working class. It is a part of the CLASS STRUGGLE that we relentlessly wage at all times on all fronts against the capitalist class; whether it be a strike against the mill barons of Passaic or against the Hearst publications in New York or against the anthracite trust in Pennsylvania or anywhere else.

To the extent that these enemy papers, for their own sordid in four out of eighty mills working. terests, publish pictures and stories of the assaults upon strikers, we can utilize them against the immediate enemy; we can take advantage of the antagorisms within the capitalist class itself, but never, for one moment, must we forget that they were on the other workers left Bombay. At the other end of the social scale there is a group of corruptionists known as the Better Government Association. This gang professes to be able to deliver the votes of the uplifters of the city to the highest bidder. While the Crowe-Barrett-Thompson-Deneen republican outfit were performing rites as godfathers to the spawn of "Diamond Joe" Esposito, Mr. George E. Brennan, democratic candidate for United States senator and boss of Chicago's Tammany outfit, was donating \$23,000 in cash-"checks not acceptable"-to E. J. Davis of the Better Government Association, of which Dean Edward T. Lee of the John Marshall law school is the chief, on the promise that this holier than thou 100% American association could deliver a greater number of votes than the terrorists who try to rule the foreign-born voters of the city.

There are all sorts of cliques of hungry adventurers who claim they can deliver votes of various elements of the citizenry. For years Hinky Dink and Bath House John in their heyday had their henchmen who delivered the votes of the cheap lodging houses-or at least counted their votes in elections. Then there are the labor fakers, ists. THE DAILY WORKER INTO THE LABOR COUNCIL

AT this moment, when the Party is engaged in bringing its entire membership into the unions, it is opportune to raise the slogan "Into the Labor Councils."

In New York, for example, where over 50 per cent of the Party membership already belong to unions, and where, within the next few weeks, it is expected to raise that percentage to well over 90 by the intensive cam paign that has now been started by the Organization Department, the Inlustrial Department and the Agitprop Department, the question of the Cen ral Trades and Labor Council is a sorely neglected one.

Time was when the New York Cena standard bearer of militancy for the American Labor movement and when it was a definitely "socialist" council under the ideological influence have changed and our left wing missions" and governmental interferunions for years have neglected the Central ,Trades and Labor Council; have, sometimes by accident and centralization of all of labor's forces sometimes by the design of yellow meeting nights conflict with the nights on which the Council meets oureaucracy in the labor unions of the City of New York. Thus, in place THE members of the local unions in of being, as it should be, the co-ordinating body which unites all the New Party are inclined to underestimate York local unions into a combined force for the defending of those common interests of the city's workers

of ham-stringing the workers of New York City and tying them to the political chariot of Tammany Hall. This New York City's workers since Smith has gotten control of the New York "democracy" and thus delivered the Democratic Party directly into the hands of the House of Morgan and with it the New York trade union bureaucracy. Smith himself is the direction of the Electric Transport Co., which thru interlocking directorates is tied up with the Interboro Rapid Transit Co., the New York Central and most of the other leading railroads of this country, the United tral Trades and Labor Council was States Steel, the International Harvester, the Bankers' Trust, the Guarantee Trust Co., and the House of

Without the manifold endorsements of labor councils, the labor party movement of 1922-23 would have been immeasurably weakened. Without the utilization of central labor councils, the formation of a labor party will be in definitely postponed.

Every active unionist, who has ever been a labor council delegate, can testify to the manifold uses of activity in the central labor body. In Chicago, for example, the Central Labor Council was used as a lever for the initiation of the big organizing campaign in the steel industry which led to the steel strike, and the organizing campaign in the packing house industry which led to the packing house strike and the forming of Pack ing House Councils.

In San Francisco, where I was delegate to the Central Labor Council, our fraction was able to utilize the council as a weapon in the fight against the "American plan" open shop drive; to bring the labor movement of San Francisco to the verge of a general strike which was only prevented thru a mistaken secession-

WORKERS' SCHOOL PREPARES FIGHTERS FOR WORKING CLASS

By PAULINE ROGERS,

Instructor in the New York Workers' School. NEW YORK, March 7.—In a land where the schools are in-

struments of propaganda used by interlocking directorates of big combines, where the moss-covered curriculum is outlined by the poard of trustees, and where there is no freedom of expression for the teacher or student, the Workers' School is like an oasis in the desert. The Workers' School of New York is still a small seed fighting its way thru the ground, but already it sees the light and

has made such strides, that its influence before long will be very far-reaching.

This school differs from the usual capitalist school both in the subjects taught, and in the methods of teaching. The professional lecture method has been relegated to the background. The lecture method gives the teacher an opportunity to make a fine speech -if he is a good orator-but it rarely process other than day-dreaming The Workers' School has departed entirely from the lecture system. It has sub stituted the question method. The teacher presents the lesson in the form of a few carefully worked-out questions. The students do the re search work from the prescribed books and draw from their working class experience, and then answer and discuss the questions in class.

The function of the teacher is to ask questions in order to bring out to guide the discussion in the proper direction. This method not only makes for real democracy in the class room, but helps the students to do their own thinking and clarify their

The aims of the Workers' School are to teach working men and women to see conditions as they really exist, and to train the more capable workers to take up the cudgels in behalf of the exploited working class. All CLEVELAND, March 7.-Four thou- the courses which are given at the school have these aims in view. The courses in economics and politics dea directly with the origins and aspects of Marxism and Leninism. The trade union courses present the growth and structure of the American trade union movement and correlate past prob lems with the present ones in the unions. American history is studied not from the doctored and mythical capitalist text-books, but from a real working-class standpoint. The struggles and role of the workers during the various eras of American history are portrayed with startling deviations from the usual history lessons of the usual school. There are many other interesting courses dealing with the vital problems of past and present life, and in addition to these a well erganized English department which helps foreign workers to overcome the difficulties of our language in a live and vital manner.

The Workers' School does not con cern itself merely with the theory o learning; it also believes in making its education practical. This has been accomplished in many ways. First students get the facts for public strikes, and any other organizations which may call upon it for this mate rial. Then the School offers a public speaking course, which trains students to talk to large numbers of workers. It sends these speakers into strike areas, such as the anthracite field and Passaic, to point out to workers their true state of serfdom. Finally, there is the workers' correspondents course. This course gives the students, briefly, the fundamentals of good working-class journalism, so that they can write articles about conditions in the factories. Students are ent out to areas of industrial agita- no coal is being mined in the mine. tion to get stories, or they become Coal needed to operate the plant is

LONDON CHILDREN TO **LOSE TONY AND JOCKO** BY MUSSOLINI ORDER

LONDON, March 7 .- One of the colorful features of the rather drab life of this city is threatened with extinction due to Mussolini's latest efforts to uphold the dignity of Italy. The Italian foreign office has issued an order to all passport authorities to refuse passports to "all ambulant musiclans intending to live abroad by the exhibition of monkeys, thereby lowering the prestige of the Italian nation."

The itinerant Italian organ grinder with his gaily dressed monkey has long been a delight to the children of London. He returns to spend the winter in Italy and comes back in the spring to pick up stray co in the busy streets of the metrop

Such a well rounded institution is Workers' School of New York-the only real workers' school in the east. Let us hope it will not be long before all the present so-called institutions of learning will be supplanted by schools such as these. Only then can the people of America hope to attain a real education!

Cut Wages of Street Carmen to Guarantee Traction Co. Profits

PHILADELPHIA, March 7-Wages of the 10,000 motormen and conductors on the Philadelphia Rapid Transit company are 31/2 cents under the 1925 hourly rate because of the new "market basket" method of regulating pay according to cost of certain picked commodities. The company announces that the change is not done to reduce wages but to make part of the workers' pay "dependent upon the continued efficiencies and economies of the men, thus reestablishing the principle that increased wages should reward increased productive effort."

Wheeling Steel Co. Closes La Belle Mine

STEUBENVILLE, O., March 7. -When the Wheeling Steel company, which operates the non-union La Belle mine, heard that the miners had commissioned a deputation to demand higher wages and better living conditions from the company, the bosses posted a notice stating that the mine was closing down and that the men would receive their dollar back if they turned in their check numbers that afternoon.

This move of the company threw many workers out of a job. Tho the mine was run in conjunction with the plant and the plant is still operating. self-constituted reporters to gatner imported from outside districts.

KUOMINTANG RESOLUTION ON LABORERS AND PEASANT QUESTION SHOWS PARTY IS USING REALISTIC METHODS

(Special to The Dally Worker)

CANTON, (By Mail.)-The resolution of the 2nd Kuomintang national congress on the peasant question illustrates the increasing clarity of the organization upon the problems which confront it. The great mass of the Chinese are peasants and the party must be able to satisfy their needs if it sand painters and 3,000 building labors to make real progress.

Resolutions Summarized.

The resolution, briefly summarized, is as follows: 1. 90 per cent of the Chinese populatino are peasants. Consequently, the Chinese National Revolution can be accomplished only with the co-operation of the toiling classes.

2. The party is a party to fight for the interest of the oppressed classes against the imperialists and militarmasses are composed of workingmen and peasants who suffer the most. fight for the proletariat. That is the

DECLINE IN U. S. BABY OUTPUT LESSENS THE **DEMAND FOR BUGGIES**

NEW HAVEN, Conn., March 7-The baby buggy industry is in the dumps, according to Frank Adams, president of the Ideal Baby Carr age company. The widespread use of the auto and the increasing knowledge of birth centrol are the causes, he declares.

Adams states that baby buggy manufacturers have seriously curtailed their schedule of product on for the current year because a large proportion of the carriages still remain over from last year.

The falling off of sales to working people, Adams believes, is due to their practice of birth control. Sales to them now are in the same ratio as to the wealthy class, he

ers have gone on strike tying up all building operations. 35,000 men are off the job and the outlook is that the strike will be won, despite the declarations of the chamber of commerce that it will not consider the demand of the building laborers for a raise of wages from 871/2 cts. to \$1 an hour.

The men declare that they work only 200 days a year, and are entitled to a decent wage while they are working. The bosses threatened they could get all the unskilled labor they wanted at far lower prices than 871/2 cts. an hour. The laborers answere by going on strike.

Seek Police Aid.

The master builders have already appealed to the police for aid in breaking the strike. Altho a big part of the independent employers have signed up, the association refuses to consider the demands of the laborers.
