By THOMAS J. O'FLAHERTY

TWO outstanding figures in Ameri can life passed out of the picture recently. They are: Rudolph Valentino, who in the language of the screen, had a "fadeout" and Charles W. Eliot, former president of Harvard University, who made a bid for same Deny Right of Nation to and the gratitude of the capitalist class when he glorified the scab as the highest type of American citizen. Capitalist editors ruefully contrast the acres of space given to the death of Valentino, the movie shiek, with the scanty attention given to the death of an educator.

. .

To include in speculation as to which of the two celebrities rendered the greater service to society is rather futile. But there might be some return from an hour consumed appraising the relative uselessness of Eliot and Rudolph. The worst that the internal affairs of the church that can be said about the male sweetheart of Moronia is that he set a standard in amorous technique which the ordin- tivities inimical to the public welfare ary male finds difficult to rise to. He was at worst a negative nuisance. ties. Eliot on the other hand was a positive nuisance, in that he devoted his life to the service of the ruling class. for a way out of a difficult situation. The earth may be benefitted by an aclagrees to the registration provided cession of dust thru their return to the government states that this inher bosom but the human race has novation is for administrative pursuffered no loss.

I. J. TABE of Columbus, Ohio, vis-ited President Coolidge a few days ago and reported on the agricultural situation. Taber is master of the National Grange. In an interview to the press, Taber declared that the farmers are drier than ever and in the same breath unconsciously explained why. The average farmer has he politicly suggested that they have cider and grape juice, he said. "I recourse to legal means in their atwent to Europe and sampled some of tempt to bring about modification their wines and there wasn't one I of the "religious laws." The church would prefer to Mrs. Taber's home has suddenly awakened to a realizamade unfermented grape juice" de- tion of the fact that it is impossible clared Taber. GREECE HAS CHANGE OF DICTATORSHIPS IN 'BLOODLESS REVOLUTION'

Above is former Minister of War Condylis who intrigued so well with the army and navy that while Gen. Pangalos (below) was on his vacation the former declared a revolution and made himself dictator. In fact, it was a struggle between French and British influence in the Balkans in which France has momentarily gained the victory by the coming to power of one of her tools, Condylis, right hand man of ex-pre-

PRES. GREEN AND THE A. F. OF L. EXECUTIVE ARRIVE IN MONTREAL

MONTREAL, Que., Aug. 25. -President William Green and the nembers of the Executive Council of the American Federation of Labor arrived here today after a week's sojourn at the Plattsburg Citizens' Military Training Camp as the guest of the secretary of war. The meeting of the executive council will convene tomorrow and will be the last one prior to the meeting of the A. F. of L. annual convention at Detroit in October. Green said that the council would continue its policy of "non-interference" regarding the conflict between the church and the government in Mexico.

POLICE TERROR PASSAIC MILLS

Simultaneous with Mill Bosses' Statement

(Special to The Daily Worker) PASSAIC, N. J., Aug. 25. - The announcement by the mill owners that they would refuse to treat with any committee, either the United Front Committee or the new A. F. of L. com mittee headed by W. Jett Lauck, con cerning a settlement of the textile strike now in its thirty-second week was accompanied by a renewal of the police terror that marked the first few weeks of the long battle and that aroused a nation-wide protest.

As strikers were leaving the picket line headquarters at noon they got no more than twenty-five feet when a police squad bore down on them and swung their clubs right and left on the heads of the strikers and their sympathizers many of whom came from New York to assist in the picket

Woman Slugged.

It had been planned to picket the employment office of the "Industrial Council of Wool Manufacturers" at the same time the line formed around the Botany Mill, the largest of the struck plants. When the police charged, one woman, Mrs. Samuel Latchuk was beaten severely over the head and became hysterical. The others were driven back to the headquarters.

Calls Mill Bosses Hypocrites.

PASSAIC, N. J., August 25 - The executive committee of the Associated (Slavic) Societies and Parishes today issued a statement hotly assailing the mill owners for their bourbon and undemocratic attitude towards their striking workers and the United Textile Workers, the A. F. of L. union with which the strikers are to be affiliated.

In their statement, the committee calls the bluff of the mill bosses in putting forward the sham issues of Communism and Weisbord in the attempe to leg div real issues of starvation wages, long hours, child labor, night work for women, etc.:

Bosses' Hypocrisy Exposed.

"From the beginning of the strike the mills yelled "Communism and said time and again 'We cannot deal with it was one, has been removed, The American Federation of Labor has come in, so now the mills do an aboutface and say that they will deal with sons with the right to be interested.

"Is it not self-evident that the mills branding of the strike as Communistic was only a way of befogging the rea issue, and that had they ever dreamt that the American Federation of Labor would ever come to our city, they would never have done so, but that it was done for the sole purpose of misrepresenting the situation to the general public?

Where is Citizens' Committee? "The citizens' committee, at its or ganization, declared the American Federation of Labor as being the only organization which could help in this strike, and used the name of that organization in its endeavors to break the strike. Since the American Federation of Labor has consented to organize the strikers, not a murmur out of these strikebreakers. The public is interested in knowing the present attitude of the citizens committee. Evidently the American Federation of (Continued on page 2)

SOVIET UNION LABOR STRIKES A CONCESSION

Ties Up British Line for Wage Increase

MOSCOW, U. S. S. R., Aug. 25 .-- A strike has been declared at all of the twenty-two stations of the Indo-European Telegraph company within the Soviet Union, because the company refused to grant a demand of the trade union for twenty per cent wage in-

The Indo-European line work in the Soviet Union as a concessionaire, subject to the labor code of the U.S.S.R. which is agreed upon with the approval of the trade unions. Altho not adhering to the trade unions of the Soviet republic, even the English staff of the company has ceased work and there is a complete shut-down.

The losses of the company are con siderable, as all the telegrams from Great Britain to India, Asia and the eastern colonies are transmitted thru the Indo-European cables as the cheapest and shortest route.

Anglo-Russ Committee to IS RENEWED AT Discuss Strike Support; Strike Breaking Beaten

(Special Cable to The Daily Worker)

LONDON, August 25 .- Dispatches from the continent state that at the first sitting of the Anglo-Russian Committee for World Trade Union Unity, the British delegation, after preliminary protests, finally agreed to the demands of the trade union delegation of the Soviet Union, to discuss as the first question on the order of the day, the problem of help to be given to the 1,200,-000 striking British coal miners.

The number of miners who actually went back to work in Nottingham and Derbyshire, where the mine owners made intensive efforts to break the solid ranks of the strikers and destroy the

NEW YORK, Aug. 25-(FP)-British miners' wives seem even more de-

NOT TO DISCUSS GENERAL STRIKE

union, is admitted to have fallen far short of the number boasted of in the capitalist press over the week end.

The same capitalist press now concedes that several thousand miners who at first agreed to resume work in these regions on the tricky compromise of the mine owners to increase the work day only one-half an hour, with wages the same as before the strike, have in fact refused to begin work on that basis.

Defeat Mine Owners' Campaign. The flying tour of the coal towns of

he above regions made by Cook, Varley and other union leaders, has defeated the mine owners and sent thousands of miners into active picketing to stop the stray deserters, who generally returned home after encountering pickets and hearing the speeches of union leaders urging a solid front.

The government has tried to coun er by added police persecution. Great Majority Stand Firmly.

Even this much of a defection ex sts only in Nottingham and Derbyshire. There is not a sign of yielding in Northumberland, Yorkshire and South Wales, tho the mine owners and the Baldwin cabinet ministers cherish hopes that the game tried in the two districts may be more successful in the others.

The capitalist press is mystified at the utterance of Cook, who is saying, 'We've got to make a move, and that move is being made." Both the mine owners and the government state that no her Corollations are in prospect, and are somewhat fearful that Cook infers that a move is on for cutting off coal shipments to Great Britain by a strike of coal miners on the continent.

operatives at present in their own employ because they are the only permitted to be interested.

Supreme Court to Sit on Syndicalist Laws

WASHINGTON, D. C., Aug. 25 .-The supreme court of the United States is expected to hand down decisions in the cases of C. E. Ruthenberg, general secretary of the Workers (Communist) Party, Anita Whitney of California and Harold B. Fiske, a member of the I. W. W. who were convicted under the criminal syndicalist laws of Michigan, California and Kansas respectively.

Violate Constitutional Rights.

The appeals to the supreme court challenge the constitutionality of the state statutes under which convictions were secured. The appellants hold that the syndicalist laws prohibiting free speech, free press and free assemblage violate the constitutional prohibition against restriction of the inalienable rights of freedom of speech and asembly.

Ruthenberg was among seventeen delegates to a Communist convention who were arrested at Bridgeman Michigan in 1922. The trial aroused nation-wide interest. The jury disagreed in the case of William Z. Foser who was tried before Ruthenberg.

COOK PRAISES SOVIET WORKERS FOR SUPPORT TO MINE STRIKERS

MOSCOW, Aug. 10.—(By Mail.)—In an appeal directed to the toilers of the Soviet Union, A. J. Cook, secretary of the British miners, declares: "The British miners enter the fourth month of the Time with the firm determination not to give way to the capitalist constant British miners have drawn new strength from their struggle, that I also continuous assistance of the tollers of the Soviet Union who has U I of T splendid example of international working class solidarity."

CALL STRIKE ON 22-STORY LOOP STORE BUILDING

Few Bricklayers Still Raising Walls

The Chicago Building Trades Council yesterday called for a strike of all crafts on the 22-story store and office building under construction at the northwest corner of Clark and Mon-

oe streets. All structural iron workers immediately left and all building laborers came off.

There are about 20 bricklayers working on the walls, which are up five stories. The dozen or so of heavyset private guards who block all entrance to the job assured a represenrative of The DAILY WORKER that 'some' of them are union men and some ere not." A small sign written in crayon and tacked to a pile of tile modestly intimates that "bricklayers are war ted."

Hadn't Heard of it.

An attempt was made by the reporter to secure from Delegate T. Haley of the Bricklayers and Stone Masons Union some statement as to whether that union had called its men off, but Haley stated: "I don't know a thing about it. So far as the bricklayers are concerned, there is no strike."

Years ago the Building Trades Council had authority to call off all men on building construction without going thru the separate unions and securing strike orders from them, but now well-informed members of the unious say, this is not to be done, except where special agreements have been made.

Fight Over Open Shop.

The Citizens' Landis Award committee and the Building Construction Employers' association have agnounced ed that they will support an attempt to make this job open shop. They claim that this building is a Landis award contract and that the union have adopted a policy of putting an end to all Lancis award construction stated since June 1 of this year. Inion men interviewed by The DAILY WORKER generally take the stand that the Landis award is practically dead in Chicago, and that the ob is struck as any other non-union ob would be.

With the exception of the few brickavers at work, the tieup seemed late

esterday to be complete. The building is erected by Starrett Dills Co. The steel, which is up 18 floors, has been raised by Nils J. Johnson & Co. The architects are

"Labor" Guest of War Department and Dined by President Coolidge

(Special to The Daily Worker) PLATTSBURG, N. Y., Aug. 25 .-(FP)-Seven members of the American Federation of Labor executive council and President William Green have been guests of the U.S. Army and Secretary of War Dwight F. Davis at the Plattsburg citizens' military training camp over the week end.

The A. F. of L. officials are on their way to Montreal for the quarterly meeting of the council before the Detroit convention. Government automobiles took the union officials to visit scenic points and to White Pine Camp where they lunched with President Coolidge

The Mexican situation is one that may be discussed at the executive meeting to forestall any possible fight on the question at the A. F. of L. con-

Labor Defense Meet to Open Sept. 5

Prominent labor speakers from various parts of the country will be present to address the second annual conference of International Labor Defense which is to open here at Ashland Auditorium on September 5.

Elizabeth Gurley Flynn, known to workers thruout the country for her work in the labor movement as an organizer, a strike leader and an orator, is coming from New York to speak at the conference. Comrade Flynn has been one of the leading figures in the textile strike at Passaic and is intimately acquainted not only with the issues of labor defense involved in that struggle, but with the same issue in numerous other cases. She was for years, during and after the war, connected with working class defense organization and activity.

Ruthenberg to Speak.

C. E. Ruthenberg, secretary of the Workers (Communist) Party, will also speak at the conference. Ruththe vatican is not directing the cleri- enberg has served a term in New cal side of the Mexican struggle. It York prisons for alleged violation of a criminal anarchy law, and is now

Negro Leader.

Dr. J. J. Peters, one of the best known men in the Negro movement of America, and at present the third assistant president general of the Universal Negro . Improvement Association, will address the conference and participate in its deliberations.

Besides speaking at the conference, all of these men and women are to speak at the mass meeting arranged on the occasion of the conference at Ashland Auditorium on the evening of September 6. Preparations for a big and successful meeting are well under way now.

"Say it with your pen in the worker correspondent page of The DAILY WORKER."

Wilkinson had to promise not to dis-

cuss the general strike, she said. She

traveled thruout England at the time,

and everywhere the response was

N. Y. State Government Plans Safest Vault That Its Ingenuity Can Devise

By J. LOUIS ENGDAHL.

TAKING its cue from the financial citadels of Wall Street, the state government of New York, established at Albany, is planning in the words of its architect "the safest vault that human ingenuity can

This "modern vault" is planned to hold the \$200,000,000 in cash and gilt-edged securities owned by the state, and will be built into the new 26-story office building to be erected just west of the Capitol. All burglars and safe-blowers, please take

Perhaps it might be well to review briefly some of the qualities that will be possessed by this 50x50 vault that will be proof against fire, safecrackers, bombs or other explosives and mob attack.

In case of fire it can be flooded with water. What a tumult when the alarms go off connected with sirens outside the building and also with Albany police headquarters and the bankers' protective system.

It is declared that the vault's location is to be kept a secret. The specifications and details of construction are supposed to be confidential. No cracksman must worm his way, of course, into the working force that will be called on to build the vault. There must be no "in-

side job." Any job from the outside will be made doubly difficult because the walls, floors and roof will be of flint concrete 48 inches in thickness, reinforced by an armor mat of highgrade cold-drawn steel fabric. The doors will be of the circular type, two feet in thickness, with a time lock opened and closed with a concealed electric engine.

The New York Times, very serious about this matter that so vitally affects its class, gives us additional information on its Erst page as fol-

"The day gate will be of hardened steel, equipped with a spring-bolt cylinder lock. A corridor will run all around it and mirrors will enable guards to see all sides. Three shifts of armed guards will be on duty every hour of the day and night. The expectation is that they will be former service men, former policemen and detectives.

"Only accredited representatives of state departments will have access to the vault, and they will be triply identified by photographs, signatures and fingerprints. State troopers, it is expected, will provide additional guards."

So there you are. The \$200,000,-000 of wealth of the state of New York, part of the capitalist state that rules over all the population of

Tear Gas Is Used on

the United States, is to be safe and sound from all harm. But is it?

The power that will finally seize this precious vault, that will take ovre the whole state government in common with the American canitalist state to end them, will never make the trip to Albany, or to Washington.

This is the power of the organized workers that will abolish the social system that plans so carefully to protect its treasures against fire, thieves and mob attacks.

The New York state government. even under the regime of "Al' Smith who has the support of the reactionary labor officialdom, is a weapon in the hands of the master class to keep the workers in submission. This has been shown repeatedly as in the case of the Buffalo street carmen's strike, and more recently in the furriers, the street carmen's and the ladies' garment workers' struggles in New York City.

It was in New York state that some of the most vicious assaults were made against Communists, resulting in many arrests, convictions and long terms of imprisonment for C. E. Ruthenberg, Benjamin Gitlow, Harry Winitsky, I. E. Ferguson, Jim Larkin and others.

The New York state breed of American capitalism fears the workers. Yet it will not ease its oppression in the slightest degree. It helps the employers keep wages down, conditions bad and the workday long. In the cause of the landlords it forces intolerable living conditions upon millions of workers, thru failure to provide proper housing. The lot of the traction slaves in New York City is paralleled by the agony of the straphangers, mostly workers. And all the time prices are high, keeping up the cost of living. But never for a moment does the great flow of golden profits cease pouring into the lap of the private owners of wealth. Every effort is made by the present ruling class to increase that flow.

This is a condition, of course, that cannot endure. Labor will in time end it, under a new leadership that will displace the present mislead-

* * *

Labor will then take over the capitalist government to abolish it and establish in its place a workers' government

Not all the schemes devised by capitalist ingenuity, so resourceful in surrounding its treasure vaults with all possible safeguards, will avail against this rising of the workers and the realization of their vic-

dren were patrolling the entrance to the Irvona Coal and Coke mines when a group of thugs rushed up. Constable Keith, a peace officer of the own, was there and everyone was in perfect order.

One of the thugs dashed a tear gas bomb against the fender of the constable's automobile that was parked on the road near the marching women. Then the excitement began. Women fainted and children ran choking and crying. Next morning Mrs. Ire Smyers was still unable to speal and barely able to see.

Beat Up Constable-Then Pinch Hin A warrant was immediately sworn out for the arrest of Teter and Amick, two of the thugs. Constable Keith, in trying to serve the warrant, was peaten unconscious by the thugs.

Later the gunmen, some of whom are deputy sheriffs, had Keith arrested on charges of carrying concealed weaoons-his policeman's pistol-and of pointing this gun at them. Five of the thugs in turn were arrested on charges of aggravated assault. All seven men are out on \$1,000 bail. American Legion Strikebreaker.

CHICAGO LOCAL TRADE COMING

Victory in New York Raises Enthusiasm

The hat frame makers of Chicago are organizing. Anna E. David, secretary and organizer for Local 2 of the Cloth Hat, Cap and Millinery Workers, announces that the present campaign to unionize frame makers in this city is aided by the very definite victory won by Ladies' Hat Frame Makers Local No. 50 of New York, which has detnonstrated the advantages of unionism by winning in a three-day strike increases in minimum wage scales of from \$45 to \$55 a week for cutters, from \$45 to \$50 for operators, from \$25 to \$35 for binders, from \$45 to \$50 for rounders, from \$35 to \$45 for stock layers and from \$20 to \$25 for packers.

Likewise, all week workers have increased wages of \$5 per week if they are getting already above the minimum scale. The rates for piece workers have been increased over 20 per cent. Employers are to be fined if they allow members of the firm or overseers to work on hat frames.

The frame makers in Chicago are being circularized with a leaflet calling their attention directly to these gains of the New York workers. It reads as follows:

FRAME MAKERS OF CHICAGO. The time has come when you must organize yourself into a union,

The higher standard which you will find in the hat frame makers of New York was achieved thru their union. Whatever improvement we find now in the working conditions of any organized industry was achieved only

thru a union. Now is the time to get together into trade union.

The employers have their organization for their own protection. It is up to the frame makers to build their own organization to effectively protect their interests.

The union will do for you that which you cannot do alone. It will shorten your working hours, raise your wages and give you control over working conditions in your shops.

For the purpose of organizing a Hat Frame Makers' Union in Chicago a meeting will be held Monday, August 30, 1926, at Workmen's Circle Lyceum (formerly Douglas Park Auditorium),

Come to this meeting. Bring along fellow worker. (Signed) Organization Committee.

Who Is Behind Military Training?

All the Biggest Financial and Industrial Combines Are Supporters—The Training Camps Association, Their Vehicle—Other Benefits of Training-Education Subsidizers Are Military Subsidizers

By THURBER LEWIS.

THERE is no mystery about who A are the chief supporters of civilian military training. They themselves make no secret of the fact. TOKIO, Aug. 25.—Altho Chang Tso They shout the news to the world. Lin, Manchurian dictator and tool of They seem to feel that in this heydey Japanese imperialism in China, is of imperialism they can afford to seeking a \$10,000,000 loan in Japan, make free with both militarist prothe Japanese bankers are shying paganda and open preparation for

The combined forcpend upon his alliance with Wu Pei es of all the greatest capitalist insti-Fu, which all are beginning to dis- tutions constitute a power to conjure trust. It is seriously questioned that with. And when the big fellows Chang has been telling the truth in speak all the little camp-followers

The war department's program of civilian military training is encouraged and supported by a United Front chun forces are still intact and are of capitalism—the money barons and withdrawing from the Nankow Pass industrial lords cracking the whip and

More specifically: J. P. Morgan & to give active and material assistance to the United States War Depart The so-called "Peking government" ment in a program of military train-

This sounds like a sweeping statement-and it is. But every word of it is true as we shall show.

The Vehicle of the Profiteers. IN previous articles we have review ed the development of the C. M. T. C. (Citizens' Military Training Camps) and the R. O. T. C. (Reserve Officers Training Corps) since their birth in 1920 and their growth into potent in stitutions for the extension of military training and preparation for war out-

he House of Morgan. He is also the ice to coupon clippers. head of the army air service. What could be more obvious?

what connection there is between these military organizations and the powerful combinations of wealth we mentioned above.

First, the C. M. T. C. We have previously had occasion to mention that, outside the War Department it self, the principle promoter of the C. M. T. C. is the Military Training Camps Association. Starting first as Take Third Ave. "L" to 133rd Street an organization of "Plattsburgh Na tional Defense Act in 1920 providing Camps, this organization has grown into a far-flung subsidiary of the War Department.

The business of the association to act as a sort of headquarters for banks and corporations in giving as sistance to the War Department i furthering its program of civilian mili tary training

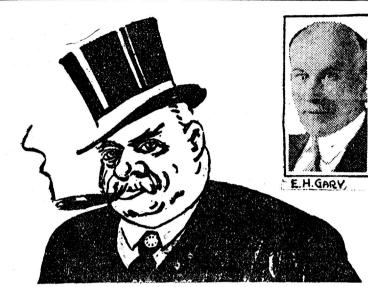

Its national headquarters are Chicago, 705 Tower Building. Each of the nine army area corps and all of the states have separate organiza tions that work under the direction of the national headquarters. The executive secretary is George F. James The president, Charles B. Pike, also bears the title, "Chief Civilian Aid to the War Department."

Openly Subsidized.

THIS association is openly subsidiz ed by a group of corporations and individuals that contains either outright by name or indirectly thru business connections, every important banking and business firm in the coun-

This organization spends most of its money in propaganda. The War Department is given an annual appropriation by congress to care for the in- C. M. T. C.'s. Those are behind them taught in these camps. It is enough creasing needs of the camps in opera- who profit by them. And they profit now to say that the open shop organtion. We have shown elsewhere the in more ways than one. The strictly izations behind the camps are fully kind of misrepresentations and salve military advantages are not the only aware of the anti-working-class nature that are palmed off on prospective ones. It is true that there is being of the "citizenship" courses that are youths in the publicity of the associa built up thru the medium of the C. M. taught by the officers who read from tion. We are interested just now in T. C. a reserve machine for duty in carefully prepared mimeographed out-Phone West 2549 showing in particular who are behind but it is also true that while this mallines issued by the war department.

In this fourth article the writer shows what forces are the chief supporters of the War Department's program for extension of military service. Those support military training who benefit by it. The war profiteers of the last blood-bath and those who hope to profit by the next one, openly subsidize an organization whose purpose is to forward the cause of military training to include as many youths as possible every year. These same capitalists are the subsidizers of the colleges of the country who also give military training on a grand scale with the assistance of the War Department and funds appropriated by congress.

J. P. Morgan and Co., the central cog in the capitalist machine, in this country and practically every other large banking and industrial corporation in the United States has given its unqualified endorsement and aid to military training. And why not? Here we have a caricature of Morgan with inserts of Gary, Baker, Mellon, all powerful figures in the capitalist world, who can't do too much to forward the plans of the War Department in turning out soldiers to protect their millions.

That is clear.

In a pamphlet, "The story of the Camps," gotten out by the association ME refer now chiefly to the Camps," gotten out by the association ness of making better industrial possible contributors, there are prom- slaves. inently displayed on two full pages the Practically every one of the 106 names of 106 corporations and banks powerful business concerns, altogether and 112 individuals who control them. employing untold thousands of men, The Line-up.

If this were war profits, a share of their imperial-the case they would lighten their tasks ist spoil to this willing tool that in the mills, they would shorten their spends the money to build up a big re- hours of labor, reduce the monotony of serve military machine that performs, the daily grind and provide ample even in the making, inestimable serv- recreation. No, it is plain that these are not the reasons.

Army Discipline.

THE real reason is, next to the de I sire for a preponderant military machine, that the military training that goes with the camps teaches obedience. Thirty days each year of James A. Patten, Julius Rosenwald, sharp commands falling on the ears

Morgan, Gary, Mellon and all the other war profiteers know that civilla military training and training in schools and colleges is every bit as much preparation for war as the manufacture of one of these glant guns.

ton and David Reed (the Mellon senators from Pennsylvania), Henry W. Taft. Albert C. Ritchie (the Dupont Powder governor of Maryland), Charles G. Dawes, Cyrus H. McCormick, and Guy E. Tripp of General Electric.

In addition to giving contributions, personal assistance in furthering the holy cause.

Rodman Wanamaker, George Whar- I of lads that are still in their formative years instill a discipline that can b appreciated to the full extent only by a slave-driving factory foreman. Well disciplined wage slaves are manufac tured at these training camps besides willing soldiers. This is certainly worth the money and the aid of any large organization that is run for these men are only too glad to be of profit and that gets more profit the better and harder its slaves toil.

Then too there are the courses in Need more be said? What could citizenship. We will talk in another make it plainer who are behind the article about the kind of "education"

Sheriff Peter Hoffman was called before the special grand jury investigating vice and crime in Chicago. asked to sign an immunity waiver so that if necessary indictments could be voted against him, and then questioned for an hour and a half.

The jury wanted to know among other things why the prohibition laws were violated on a wholesale scale why disorderly houses were so numerous, why there was so much Worried at "Safety" gambling so openly apparent around town, and what was being done about of Pangalos, Greeks' the McSwiggin murder, in which a member of the district attorney's staff was shot by one gang of bootleggers while in the company of another The sheriff said he didn't know be-

cause he had so little assistance. torney Robert E. Crowe to appear before it, but has not announced whether he will be asked to sign an immunity waiver also.

Schenectady Defenders of Class War Victims Hold Picnic Labor Day

By JACK SOININEN. SCHENECTADY, N. Y., Aug. 25. at Scotia, Glenolia Park, near the

Mohawk Swimming School. The affair will last all day Sept. 6 and there will be a great time. The program is good, and dancing will continue from the opening of the grounds until they close.

This picnic is the first of the kind that this branch of the I. L. D. has held and the members wish to make it as useful as possible to the class war prisoners. A special effort is being made to get the Albany Young Pioneers to come, and bring all their songs, poems and speeches. All workers from the country around, Troy, Albany, Utica, Clovers and everywhere in the vicinity are invited and expected. Everybody is welcome, children are admitted free, and adults pay 25 cents.

N. Y. State Federation Pledges Aid to Strike of the British Miners

NIAGARA FALLS, N. Y., Aug. 25.-Following an eloquent appeal by Ber Tillet, the State Federation of Labor convention here contributed four hundred and ten dollars A resolution pledging the support of New York State Labor for British miners carried unanimously.

St. Paul Swindle Not Ended, Creditors Say

Chicago Federation of Labor radio Evidence of further high finance in broadcasting station WCFL is on the the Chicago, Milwaukee and St. Paul air with regular programs. It is Railroad reorganization was developbroadcasting on a 491.5 wave length ed in a suit just filed by creditors of the road to the extent of \$18,000,000. They say that Kuhn, Loeb and Co. plan in their reorganization scheme to profit certain creditors at the expense of the others, and plead that Federal Judge James H. Wilkerson postpone the sale of the road which he has already ordered until further examination of the books takes place.

GOVERNMENT OUT TO BREAK LABOR IN AUSTRALIA

Workers Unite to Fight **Dreaded Legislation**

SYDNEY, Australia - (FP) - The Australian Labor Party and organized labor in Australia are engaged in a hot campaign against the referendum put forward by the federal anti-Labor government to secure a closer control over the unions.

The first proposal would give the government power to create, regulate, control and dissolve corporations, including trade unions. If the proposal is endorsed by the electors the government will have power to deal with put its agents into union offices, take possession of their books, interfere in their internal affairs, hold new, elections and secret ballots on questions which the government itself would frame.

Under such a regime the introduction of spies into the unions would undoubtedly follow and the entire fabric of unionism would very soon be

The second proposal would give the government power to introduce legislation to protect the interests of the public in the event of an actual or probable interruption of any essential an agreement between Al Smith and service. Under this proposal the government is seeking legislation on the same lines as that introduced in the House of Commons during the recent British general strike. Under it the government could organize strikebreaking units on an extensive scale, enter the homes of the workers without warrants, arrest union officials and throw them into jails, prevent free speech, call out the troops to shoot down the strikers and their sympathizers and even conscript the strikers and force them back to work at the point of the bayonet.

Ratification of these two proposals would mean the crippling of the Labor movement, politically and industrially. and the subjection of the workers of Australia to the slavery of a judicial dictatorship. That is why the workers of Australia are today lined up in deadly opposition to the federal government's proposals.

GROWING-BUT NOT FAST ENOUGH TWIN CITIES TO HOLD BIG PARTY

108 . . . June 1 1312 . . . July 1 2722 . . . Aug. 1 2941 . . . Aug. 5 3257 . . Aug. 12 3709 . . . Aug. 15 4290 . . Aug. 24 — . . Aug. 31

The above is the record of the United Labor Ticket Assessment payments as its stands on August 24.

It is a bad record. At the rate the assessment is being collected and the money being sent in it will take another two months to complete the

Completed it must be. Every party member who wishes to remain in good standing in the party and have a right to vote at party meetings must have the United Labor Ticket Assessment Stamp in his dues book.

The date for completion of the assessment was set for August 31. We may reach the 5,000 mark by that date, but not the 10,000 mark, which must be reached before the collection of the assessment will be

Secretaries of branches who have failed in their duty in not collecting or remitting the United Labor Ticket Assessment have the opportunity during the week ahead to clear their record. Every secretary who does not wish his name to appear on the list of delinquents which will be sent to every district organizer to take action upon should immediately

The collection of this assessment is not merely a matter of the collection of the funds needed to finance the work of the party. It is a test of the functioning of the reorganized party.

For those reasons it will be carried on until the last nuclei recorded has made a full and complete report.

That will mean hard work and energy used up which could be better used in other work. But it must be done.

The members and secretaries who have made their payments can help lighten this burden and release the energy of the party apparatus for other campaigns by paying and remitting the assessment immediately.

NEW HAVEN DISTRICT MEMBERSHIP RALLIES TO BUILD THE PARTY

NEW HAVEN, Aug. 25. - A large, build up the party strength. part of the membership of the Workers (Communist) Party of Connecticut dicated in the fact that 200 dues was present at a membership meeting stamps were sold during the meeting held here at which C. E. Ruthenberg to members who were not in good reported on the work of the party.

OUTING SUNDAY

Tallentire and Stovel to Be Speakers

MINNEAPOLIS, Minn., Aug. 25. The Workers Party of Minneapolis announces a Twin City picnic for next Sunday, August 29th, commencing at 10 a. m. Minneapolis is well known for its natural beauties and the picnic committee has provided a beautiful spot, quiet and secluded, along the banks of the Mississippi. Good Speakers.

Entertainments and games have been arranged, and also excellent speakers, including Norman H. Tallentire, organizer of the district: Jean Stovel, I. L. D. organizer of Seattle Wash., Axel Ohrn, well-known Finnish speaker and editor of Uusi Kotimaa. Bring Lunch.

The picnic committee has promised beautiful day for the occasion and great numbers of comrades and sym pathizers are expected. Every Min reapolitan and St. Paulite should be n hand, bringing along his family and riends—and not forgetting his lunch

Directions: If you live in St. Paul take the Minn-St. Paul street car to Seven Corners (Minneapolis), change to Lake Nokomis and Camden or 50th & N. Lyndale, going north. Get off at 42 & Washington Ave N. where our auto will meet you.

If you live in Minneapolis, go to 42 & Washington N (known as Camden | terests. Place). A fleet of automobiles has been mobilized to meet all comers at the end of the street car-line, as above directions indicate.

I. FREEMAN CENSURED FOR DESERTING POST IN UNION BY DISTRICT ONE

BOSTON, Mass., Aug. 25.—In view of the fact that Comrade I. Freedman, a member of the Workers (Communist) Party and ex-chairman of Upholsterers' Union, Local 37, Boston, resigned from his post in the midst of a period of negotiations with the employers and previous to a possible strike in the upholstering industry, the Workers (Communist) Party, District One, declares that it considers such action on the part of Comrade Freedman as a flagrant desertion of duty and responsibility.

The Workers (Communist) Party cannot and will not condone or tolerate the failure on the part of anyone, within or without the party, to uphold loyally his duties and responsibilities to the working class. -Bert Miller, Organizer, District One, Workers (Communist) Party of America.

Seventh Anniversary Meeting in Detroit to Be Held Aug. 28

DETROIT, Mich., Aug. 25. - Cele bration of the seventh anniversary of the formation of the Communist Party of America will be held in Detroit on Saturday, August 28 at 8 p. m. at the Workers' Hall, 1343 E. Ferry Ave. Jay Lovestone, member of the central executive committee of the Workers (Communist) Party will be the principal speaker.

Comrade R. Baker, district organizer of the party in Detroit will outline the plans for future activity of the party. A splendid musical program is being arranged. This meeting will also mark the opening of the state election campaign of the Workers Party Friends and sympathizers of the Work ers Party are invited to attend.

Campaign Committee of Section 6 Meets for Work Next Fri.

All agitprop directors of nuclei in Section 6 of the Workers Party of Chicago are urged to attend a meeting to be held at 19 So. Lincoln next Friday Aug. 27th at 8 p. m. The object of the meeting is to organize the section for work in the election campaign this year. It will be necessary to get some three thousand names on nomination petitions in Section 6 alone.

Correction.

Kindly make the following correc ions in the notice printed in the issue of August 19 under the title, "Party Units, Look Out for N. Paley." Instead of "Nucleus 1 F should sus

L.?

to be off duty. Need to Fight in Camps. In this situation the league realized that it is useless to merely attack the Citizens' Military Training Camps because these men were already there Mail)—Two thousand seven hundred and raising the slogan, "Boycott the workers turned in admission tickets Citizens' Military Training Camps' would do them no good. We therefore evolved a series of demands for the men which they are to use to fight for

and Sunday when they are supposed

better conditions in the camps. Young Workers' Slogans. The demands were put up in stickers and circulars and distributed by our comrades in the camps. We print below some examples of these cir-

"C. M. T. C. RECRUITS! "They told us the camps were for ree one-month vacation. "Do you think that four hours' drill

daily is a vacation? "Demand a maximum of three hours

rill each day! "The government is supposed to b ree from religious influence. "Why are government funds used to

maintain chapels in camp? "Demand the doing away with relig ous services!

"The government is supposed to be impartial in labor questions. "Why do the camp officers lecture

gainst organized labor? worker?

"Defend the workers from attack! Young Workers League of America. "C. M. T. C. RECRUITS. "They told us that the food would

e wonderful in the camps. "It's not wonderful-except the food he officers get.

"Demand the same quality of food the officers get! "They told us that the camps are

ot so strict as the army. "But they don't allow us to wear ivvies on weekends if we want.

"Demand the right to wear civvies n weekends if you want to! "They told us that camps would be run on a democratic basis.

"Why aren't the recruits allowed voice and vote in running them? "Organize meetings to take up you

grievances and opinions! Young Workers League of America. It was thus that the Young Workers (Communist) League fought for the improvement of the conditions of the young men at the Citizens' Military Failure Hurts France Training Camps. Some of our com rades were arrested for leading the NEW YORK, Aug. 25.—Offsetting fight in the camps, but most of those

While we are thus carrying on the struggle on behalf of the youth the workers, begins to take an interest it the anti-militarist work. How? By The crop of grains in the United attacking the C. M. T. C.? Not the ry a leading editorial attacking the for thus fighting for the interests of Citizens' Military Training recruits Y. P. S. L .- a Social Club.

Their tactics, however, are winning no friends among the working youth and children of workers. The sign of this is, that after all their attempts Get a copy of the American Worker they have not succeeded in organizing even a semblance of a socialist youth movement. Their pet child, the young people's socialist league, means nothing to the young workers anywhere Their role is that of a social club where nothing of a class nature is done. We tried on several occasions to get them to unite with us on an anti-militarist program. But every time that we called the conference or attended conferences called by other organizations, we found the represent atives of the socialist party and once

in a while a representative of the Y. P. S. L. refusing to take even the most elementary steps against militarism.

Three years ago at the Bear Mountain conference, the largest of the kind, for example, the socialist party and the young people's socialist league lined up with Y. M. C. A. and the pacifists to defeat the proposal to hold demonstrations against militarism and instead adopted a program to hold hikes and dances jointly.

Absent in Workers' Struggle.

The young people's socialist league was most conspicious by its absence in great struggles of the workers where young workers were involved. have been lured into the camps by In the Passaic strike there isn't even the slogans, "Citizens' Military Train- an odor of them present, either in the ing Camps, Let's Go! and One Month's strike or in the building of relief committees. In the Furriers' strike they were absent. In the coal crisis which involves so many thousands of young and an entirely different situation miners they are absent. And in the struggle against militarism they are

> The only time when they appear is when the Communist youth attacks the military camps, and then they join with the militarists to repulse our attack. Instead of fighting to better the condition of the recruits they devote leading editorials to ridiculing any attempt to do so.

> Thus it is that the socialists serve the boss class. What does the rank and file of the socialist party think about this? And how about the Y. P.

Boston Truck Party Sunday, August 28th

AMALGAMATION ISSUE BEFORE **BAKERS' UNION**

International Takes Up Unity Question

By Federated Press.

NEW YORK, Aug. 25.-Consideration of the New York locals' plea for reaffliation of the three bakery locals which built up the Amalgamated Food Workers' independent union was one of the main tasks undertaken by the 19th convention of the Intl. Bakery & Confectionary Workers. With the bread trust fight and union label agitation, the amalgamation issue became

a most discussed one. Charters were withdrawn by the international from three New York locals in 1913 in a quarrel mainly jurisdictional. The locals stuck together and later joined with independent hotel and restaurant workers to form the Amalgamated Food Workers. The independent group has always been strongest in German and other non-Jewish bakeries; the international in

Jurisdictional Fight.

The jurisdictional fight still stands between the two groups and unity. The trouble arises chiefly where Amalgamated bakers have suddenly found their shop ownership changed and their work requirements to include the other kinds. Amalgamated members have had an agreement for wages under that of the Jewish scale, since Jewish work is better paid than other baking. But Amalgamated bakers say there are more union Jewish bakers in international locals than can find full-time employment work, that most of them are alternating with three or four days' work a week, and the independent bakers fear that re-affiliation with the international will mean the partly Jewish baking.

Other points of difference have been discussed and solution seems not so difficult. The independents want restorights and privileges; the same continued terms and rating of membership in the international as in the independent, especially as to beneficiary members; a real effort to organize all bakery workers in greater New York. The Amalgamated bakers have a sick which they will turn over to the international upon re-affiliation, providing the international recognizes their claims in its own fund. Many of the original 1,100 bakers had been members of the international for years when they were ejected. They want recognition of the amounts they paid into the international benefit fund.

Responsibility for Others.

The Amalgamated bakers feel some sense of responsibility toward the Metal Trades Association, a branch of working under adverse, open shop conbutcher locals, fruit stand workers' the National Metal Trades Associa-Accals, and hotel and restaurant work- tion," said Daly. "This employers' or | continued increase in membership in ers, which they have helped organize ganization maintains an agency for and hold together in the independent | placing non-union labor at much lower | be faster in the near future. industrial union. The Amalgamated has been considered somewhat more labor, of course. It also provides radical than the international, altho guards, private detectives, or company the latter has always boasted of its police.' socialism. Whether the two groups will join depends largely on the work pany guards at the American Oven and of the New York locals' committee Machine Co. were thoroly supported which is to work with an international by the Chicago police, but after union representative toward settlement of officials had gone down and comthe jurisdictional question.

Mexico Entitled to State Its Case.

American newspapers are filled with news about the controversy over church conduct in Mexico. Much of the news is so written as to arouse hostility toward the government of President Calles. It is made to appear that the Mexican government is making war on religion itself and making the practice of religion impossible. There are a great many facts about the religious situation in Mexico which have for a long time been in existence and available to any seeker after information. Had they been sought before the present "crisis" they could have been fairly weighed. In the present situation there is not likely to be much fair weighing. The wise course for Americans to pursue is to forbear until there can be calm judgment. Mexico is entitled to that. A government based upon a ten-year fight for freedom from slavery and oppression is entitled to that forbearance. A government that has from the start given its first thought to the welfare of the great mass of wage earners and tillers of the soil is entitled to state its case and to have its case heard at a time when it can be heard fairly. The Mexican Federation of Labor is solidly back of the government in the present situation and that must be kept in mind. The Mexican Federation of Labor is as filled with religious feeling as is any other portion of the population—and the population of Mexico is probably religious to as high a percentage as any other population in the world. The government of Mexico is based upon the suffrage of the people. It is constitutional. It is obeying its constitution. Its procedure is orderly. Those are facts which must count among all democratic peoples. There can be no fair or proper appraisal of the present situation unless the background, going back even to the days of Hernandez Cortez, is taken into account. Of course the masses of the American people are ship Clerks, Freight Handlers, Express not doing that just now. American people who form hasty judgment on the basis of present newspaper dispatches are extremely unlikely to form judgments that will stand later in the light of a full survey. Newspaper dispatches from Mexico have never been any too good. Why should they be considered angelic on the spur of the moment? Americans will do well to bear in mind the fact that the religious history of Mexico is no more like making of some Jewish bread with the religious history of the United States than its industrial history, or the history of its land tenure. Land and church in Mexico have been very intimately related thruout the decades. The great struggle of the Calles government, with labor ever at the council table, has been for freedom, for economic and social justice, for human betterment, for the organization of the workers in trade unions, for the intelligent tilling of soil and the proper rewarding of those who till it, for the education of children and for the encouragement of the arts of peace and productivity. Such a government in this world at this time is entitled to something more considerate than off- Federal Employee, organ of the Natl. hand condemnation, more friendly than blanket criticism. It has its story to tell and it is entitled to have its story heard and weighed at its full value. loss of jobs where they are doing if that is not done, surely the great exploiting interests of the realm of oil and finance will rejoice—and probably plot new rebellions.

PASSAIC BARONS ATTEST TO LOW **WAGES IN MILLS**

Starvation Pay Proven by Own Figures

(Special to The Daily Worker) PASSAIC, N. J., Aug. 25 .- By their own admission Passate woolen mill Workers to Build New owners attest to the low wages paid Home on Ashland Blvd. in their factories. In another desperate attempt to break the seven-month strike of the 15,000 wool textile work-Ashland boulevard, which became ers they are falling into line with anfamous as the Bolshevik boulevard of nouncements that they will not deal Chicago immediately after the war with any organization of the strikers, when the socialist party, the then United Front Committee, Lauck comradical machinists and many other mittee, or United Textile Workers. unions bought up old-time mansions Botany and Garfield mills led off. on the street, will add the long await-Forstmann-Huffmann followed, all proed building of the Amalgamated Clothposing to deal only with their company unions. On an \$85,000 site directly opposite

Fake Figures.

Forstmann-Huffman promises to pay as good wages as those prevailing in the industry. Botany Mills spokesman, Col. C. F. R. Johnson, said that the average hourly wage for workers in his mills has been 49. cents. Multiplying this rate by 48 hours, he gets \$22.71 for weekly earnings. But, as Furstmann-Huffmann admit, they are not able to give full time employment. The mills were on part time for months before the strike, halving the workers' earnings often.

Forstmann-Huffmann offers \$18 min-Men Out for a Raise mum weekly to the least skilled workers and their company union, "industrial democracy" form. In figuring the average hourly wage, the mill owners do not say how many grades of straw posses are included.

Pay Envelopes Are Proof.

Pay envelopes collected from strik-H. J. Chapman, representative of ers by the United Front Committee earlier in the strike show actual earnthe Brotherhood of Railway & Steamings of the workers. Seldom, even in full weeks, were earnings for men \$20 & Station Employes, says 800 men are or more. Women earned still Tess. now striking for 75 cents an hour pay, The strikers are lining up on the time and a half for overtime and other United Textile Workers' applications improvements. The men were employed unloading freight, mostly fruit and have no intention of abandoning their fight because of this fresh attack by the mill owners.

They are confident that their chosen committee, W. Jett Lauck, Henry Hunt and Helen Todd, will have something to tell Senator Borah about the Passaic mill owners and their property charwomen in federal buildings now during the war.

> Strikers' Playground a Success. PASSAIC, N. J., Ag. 25.—That the opening of Victory Playground by the textile strikers for their children will have an important effect upon this community as a whole now begins to

\$1,140 to \$1,260; coalpasser, \$1,140 to appear likely. Quick Change. In their panic lest the equipment and organized play at Victory Playground would show up the miserable playgrounds maintained by the city, the Passaic authorities rushed to put \$1,500; helpers of carpenter, plumber in a wading pool and showers at the and steamfitter, \$1,320 to \$1,500; fire- First Ward Playground. Prior to the man with plant, \$1,500 to \$1,620; jani- opening of Victory Playground none of the local politicians had ever to \$1,860; carpenter, steamfitter, thought it worth while to give the chilplumber, electrician, painter, machin- dren such hot weather comforts as a ist, ironworker, \$1,680 to \$1,860; fore- wading pool and showers.

Even now they don't think it is necessary to give the children a dressing room, but leave them to change their clothes in a clump of bushes. Of course this isn't so bad as at the other municipal playgrounds, where there are neither showers nor wading pool, And certainly not as bad as the Wilson school playground at Louise and Monroe streets, where there is no comfort station.

Organize Playground Spies. That the city authorities are in a

panic over the existence of Victory Playground is further indicated by the recent swearing in of twenty boys Strikes should be the last resort in infrom the city playgrounds as "playdustrial disputes, Matthew Woll told ground police" for the remainder of the season, which, by the way, is al-Union convention. Get results withmost over now. warned the unionists, whose president

While the city authorities declare that these boys are organized as play leaders, the union officers maintain that the purpose of this move is to have a corp of youthful spies at the municipal playgrounds in order to discourage strike games and the singing of strike songs, which are very popular even among the children of nontextile workers, most of whose parents are in sympathy with the strikers.

Huffmann Threatens Also.

NEW YORK, Aug. 25. — Following | wouldn't do!' the lead of Col. Johnson of the Botany Mill, Julius Forstmann, president of the Forstmann & Huffmann Co. announced that his firm also would deal only with the employes now working for the company and that those on strike are considered off the pay-roll This is taken to mean that the mill owners have agreed among themselves to refuse to accord recognition to the American Federation of Labor committee headed by W. Jett Lauck and commissioned by the executive council of that body to organize the textile strikers into the United Textile Workers' Union.

This announcement was made by Huffmann while speaking to the company union in his plant, composed of the scab workers who have been hired to take the place of the strikers. The Botany and Forstmann mills employ 75 per cent of the workers in the Passaic textile industry. The threats of the mill owners against the new committee, which is being organized with the consent of the United Front Committee which it is to displace, are for the purpose of weakening the morale of the new leaders and the workers against the time when negotiations are entered into

(Copyright, 1926, by Upton Sinclair) WHAT HAS GONE BEFORE.

When "Bunny" Ross, son of J. Arnold Ross, California oil operator, is thirteen years old, he goes with Dad to Beach City to sign an oil lease. There he meets Paul Watkins, near his own age who had run away from his father's poor ranch in the San Elido Valley because the family were "holy rollers." His brother Eli is a cripple who has fits and "heals" people. From time to time Bunny hears from Paul and sends money to his family. In the meantime Bunny is learning the oil business with his Dad who, along with other oil operators is profiting by the war that had broken out in Europe. Bunny persuades his Dad to go for a quail hunting trip to San Elido Valley. There they meet the Watkins family and Bunny becomes acquainted with Paul's sister, Ruth, whom he likes. While hunting, they locate oil on the ranch and Dad wheedles it out of old Watkins and also buys adjacent property secretly. In the meantime Bunny family and Bunny becomes acquainted with Paul's sister, Ruth, whom he likes. While hunting, they locate oil on the ranch and Dad wheedles it out of old Watkins and also buys adjacent property secretly. In the meantime Bunny starts to high school at Beach City and falls in love with a fellow student, Rose Taintor. When they are ready to drill Bunny and Dad go back to the ranch to direct the work. They persuade Paul to come to live with them and work as a carpenter. Paul had been living with a lawyer who took an interest in him and left him a legacy of books when died. Paul and Ruth live in a shack near the well sight. Eventually the well is begun and Eli, now turned prophet and the pet of wealthy adherents to the faith, makes a blessing as the drilling begins. Bunny goes back to school and finds himself tiring of Rose Taintor. But soon the glad news comes that Bunny's well in the San Elido Valley has struck oil lands. A new field is started. As Bunny and Dad watch the drilling the oil suddenly pours out in a great jet—and it catches fire. Everyone runs for their lives. Dad drives in great haste to town—for dynamite. He returns and the blast is quickly gotten ready. When the charge is set off, the blaze is snuffed out and the well saved. Bunny is a millionaire ten times over. The boy is now eighteen years old and begins to worry about the administration of his field, now grown to 14 derricks. He begins also to wonder about the relations between capital and labor and asks his Dad some embarrassing questions concerning his relationship to his workers. In the meantime war with Germany looms and at the the same time the men in the oil fleld under the inspiration of an organizer for the Oil Workers' Union, named Tom Axton, prepare to strike for an eight-hour day and a raise in wages.

Tom Axton made a speech, in which he set forth the grievances of the men, and told them, out of his previous experience, how a strike must be conducted. One thing above all others, they must keep public sympathy with them, by obeying the law and avoiding every suggestion of disorder; this would not be easy, because the Employers' Federation knew this, as well as the strike leaders, and would do everything possible to provoke the men to violence; that was the purpose for which the "guards" were coming, and their main difficulty would be to resist the efforts of these "guards" to provoke them. They must understand, and the people of the community must understand, they were dealing with men of a low type, hired by the big detective agencies out of the city's underworld, and supplied with a gun on their hip-pocket. Whether the whiskey-bottle on the other hip-pocket was supplied by the employers, or got by the men themselves, was something Tom Axton did not know. Anyhow, they were brought here by the truck-load, and on the way they stopped at the sheriff's office in San Elido—kept open day and night for the purpose -and were sworn in wholesale as "deputy-sheriffs," and supplied with a silver shield to wear on their coat-lapels, and after that, anything they did was according to law. A few of these deputies were standing about, listening to Axton's speech, and needless to say, they did not appreciate it.

The president of the union, who had come to the field to conduct the strike, also made a speech; and the secretary of the union, and the organizer of the carpenters' union-there could not be too many speeches, for the men were full of enthusiasm, and their minds were open to ideas; it was an education in the meaning of solidarity. They signed up by hundreds and paid their assessments out of their scanty savings. Committees were appointed, and these got down to work in an old barn which had been hired for headquarters, the only vacant place of any size to be found in the midst of this oil boom. The place was crowded with men coming and going, and there was not a little confusion, officials and volunteer helpers working as if such things as rest and sleep were unknown to the human organism. There were emporary lodgings to be found—for no other oil operator was being so generous as to provide shelter for strikers! The union had ordered a lot of tents, and would need more yet, when leases expired on shacks which had been rented on company property. Fortunately, not many of the men had families in this field; your oil worker is a migratory bird—he moves to a new field, and has to work quite a while before he gets enough money to bring his wife and children from the last field.

Bunny drove up on Saturday morning; by which time the first flush of excitement had passed. It was a rainy day, and the men had no meeting place, and you saw bunches of them crowded into doorways, or under awnings, wherever there was free shelter; they looked rather melancholy, as if they found being on storing strike less romantic than they had expected. In front of the oil properties, especially those of the big companies, you saw men pacing up and down, wearing rubber coats and hats, from under which they eyed you suspiciously; some of them carried rifles on their shoulders, like military sentries. Bunny drove up to his father's tract, and there he saw the same sight, and it cut him to the heart—the very personification of that hatred which so pained him in the industrial world, and which he had fondly dreamed he might exclude from the "Ross Junior" field. But the truth was, the "Junior" aspects of the business were fading temporarily; "Senior" was in control, and giving the impress to

Sitting in the office on the tract. Bunny pinned his father down on the matter of guards; did they really have to have guards against their own men?

"But surely, son," protested Dad, "you can't be serious! Leave three million dollars worth of property unprotected?"

'Where did we hire these guards, Dad?' "We didn't hire them, son; the Federation is handling that." "But couldn't we have got guards of our own?"

"I don't know any guards, or where to get them. I'd have nad to go to some agency, jist the same."

"And we couldn't have used our own men, that we know?" "Turn strikers into guards? Why, son, you must know that

"Why not?"

"Well, for one thing, the insurance companies—imagine how uick they'd jump to cancel my fire insurance! And then, suppose was to have a fire, I'd be ruined. Don't you see that?'

Yes, Bunny saw; it appeared as if the whole world was one laborate system, opposed to justice and kindness, and set to making cruelty and pain. And he and his father were part of that system, and must help to maintain it in spite of themselves!

"Do we pay for these guards, Dad?" "We're assessed for it, of course."

"Then what it comes to, is this: we have to put up the money for Fred Naumann to break the strike; and even though we may not want the strike broken!" To this Dad remarked, it was devilish inconvenient to have all those paying wells shut off all of a sudden. He turned to some papers on his desk, and Bunny sat in silence for a while, thinking his father's thoughts. They were elemental thoughts, not requiring any subtlety to interpret. There were eleven producing wells on the tract which on last Thursday morning had been flowing at a total rate of thirty-seven thousand barrels of oil per day. That meant, at present boom prices, a gross income of close to two million dollars a month. Dad's mind had been full of all the things he was going to do with that money; and now his mind was full of problems of how to get along without it. His face was still grey and lined with care, and Bunny's heart smote him. He, Bunny, wanted the men to win; but did he want it at the cost of having his father carry this extra burden?

Real Relief for the British Miners Is an Embargo on Coal for Britain

Great Britain, up to the first of August, had imported ap-proposal to divide the islands and also proximately 2,000,000 tons of coal from Germany, decreasing the surplus stocks of coal held by German capitalists by about 33 per cent. June 19 said in part: The German mines increased their output in June 900,000 tons and are still unable to supply the demand for hard coal and gas coal.

This coal is being used to break the strike of the British miners altho the Federation of British Industries sometime before the strike began had raised the slogan of "Buy British Goods." The slogan has been amended now to exclude coal.

Two things are apparent:

1. That while the British government howled to high heaven about the money sent by the Russian trade unions to feed the strikers, it is trying to break their union, starve the miners and their families and drive them back to work at starvation wages by coa secured thru the aid of the capitalist class of other countries.

2. The complete failure of the official leadership of the British Trades Union Congress and the International Federation of Trade Unions (Amsterdam) to counteract this move of the capitalists by declaring an embargo on coal for Great Britain.

An embargo on coal would be worth more to the British miners than \$50,000,000 dollars in strike relief. But because it carries with it the possibility of another general strike, would bring a revival of the militancy of the working class displayed during the general strike and be a challenge to British imperialism, the leadership of the Trade Union Congress and the I. F. T. U. salve their consciences by urging-not very energetically-financial support of the strike.

This is a duty that every worker must fulfill, but it should not be allowed to blind us to the fact that more effective weapons are at hand, but that the official leadership is too cowardly to use them. viet Union. Perhaps you don't get the

Let's Have a Statement on Passaic!

The Passaic textile barons not only have demonstrated since the affiliation of the strikers with the United Textile Workers (affiliated with the Amreican Federation of Labor) their intention to they want to have. allow no union except a company union find a foothold in the mills, but they have made the executive council of the A. F. of L. appear riage codes have been handed down ridiculous in the eyes of every worker who has been following from a higher authority. Even in a developments in Passaic.

The mill barons complained of the fact that Communists were people vote on legislators and legisactive and occupied leading positions in the strike committee and lators occasionally tinker with divorce gave this as a reason for their refusal to deal with the strikers. Will the executive council, now that the strike is an A. F. of L. strike, discontinue the publication of the Botany Mills advertise- benefits to the woman. Then there ment?

It seems to us that these two things should be done by the A. F. of L. leadership if it wants anyone to take seriously its expressed desire for the organization of the unorganized and the upbuilding of the trade union movement.

Moros Are Not for the Bacon Bill

Colonel Carmi Thompson has had a conference with Moro leaders and it is evident that some one has blundered. Not a single cutive committee, opposition develop-Moro spoke in favor of the division of the Philippines and the crea-ed. The framers of the bill, rather tion of a separate "Moro Province" proposed in the Bacon bill. than push it thru with anything less Many Moros spoke against the division of the islands.

One, Sultan Rambin, said according to a New York Times dispatch, that "Mindanao will fight and die rather than be separated over the Soviet Union, common folks from the Philippines."

There was objection from some Moros to rule by Christian Filipinos, but a provision for Moro autonomy would doubtless remove such friction as exists.

The Bacon bill propagandists seem to have failed to organize guage what it is all about. their Moro support for this conference and the result of it is a victory for the national liberation movement and a blow at Wall I Soviet approach to marriage is that Street's pet measure.

But this failure will not stop the drive against independence to which man must submit his indifor the islands. The whole plan is conceived on the basis that op-vidual will, but as a human relation position to it must be crushed (this is plain from the speeches quoted in the series of articles we have been publishing on this page ing itself only with protecting the and from the language of the Bacon bill) and the nationalist move- weak and safeguarding the interests ment must broaden and strengthen itself to meet the strongest re- of children. No law sets out to punsistance it has yet encountered.

American labor must prepare to prevent annexation of the hearts into hotels to discover if they

ARTICLE VI. The Independence Struggle Sharpens By WILLIAM F. DUNNE.

ALL STREET certainly wants the Philippines-not as a colony which is buoyed up by hopes of independence promised in the Jones bill out as a colony or colonies which American imperialism has no intenion of relinquishing.

The Harriman Nacional Bank has been publishing advertisements in the New York Press favoring the Bacon to annex both portions of the archi pelago. The advertisement published

Representative Robert L. Bacon is doing fine work for the Philippines in congress. All good citizens should read the bill Mr. Bacon has just introduced in the house. It denotes careful study of conditions in the Philippines. . . The Moros are having the day in court. They want to be permanently under the American flag, free from rule by the Filipino government. . .

THE Harriman National Bank does not appeal to us as an impartial spokesman for the Moros or any other section of the population of the Philippines and that its eagerness to include the Moros as part of the 100 per ent American citizenry is dictated by ts desire for weakening the struggle or Philippine independence rather vond helief

than by its regard for the truth is THE Wall Street propagandists do We think not at least not a strugshown by the fact that on March 24 Philippine Commissioner Pedro Guevara placed in the congressional record six documents signed by more than 170 Moro leaders repudiating statements that the Moros were against Philippine independence.

ACK of space prevents our giving Lall these documents in full, but they are of a similar character and one will serve as an illustration of heir general tone:

We, the undersigned, affix herewith our thumb-marks with our own initiative, willingly and voluntarily. We do not like that our land be segregated from Luzon and the Visayan Islands. We want independence, Nevertheless we must govern our land like our brothers in Luzon and in the Visayan Islands. We do not want a territorial form of government like that of the Hawaiian Islands. We want independence. March 5, 1924. (Signed by 60 Moro

THE demand that "they be permanently under the American flag" loes not seem to be made by any conerable section of the Moros themelves. They may desire some sort of an independent or autonomous status within a Philippine republic, and this they are entitled to, but that they suddenly have become desirous of being serfs of American imperialism is be-

not believe this either, because the Bacon bill, as has been noted in previous articles, provides for a military dictatorship and excludes all Moros from participation in either its legislative or executive wing except by apcan imperialism or the president of the United States.

The Filipino leaders are beginning to understand that the Bacon bill is no mere gesture, but that it expresses the policy of the American government. Speaking a few days ago to the Philippine senate, of which he is president, Manuel Quezon said, accordng to an associated press dispatch:

The Washington administration could not have made clearer its reversal of policy in the Philippines than by its failure to counteract the presentation recently of reactionary measures in congress. . . . If we care to see independence for the Philippines we cannot fold our arms and wait for the good will of the administration. We must fight for our quests within the domain of peace, law and order to prevent the United States committing an act of injustice against the Philippines and to compel it to fulfill its solemn pledge given in the Jones law.

BUT will American imperialism allow the Filipinos to carry on their fight for independence "within the do- possible for it to do so. main of peace, law and order?"

gle that welds the mass of the native population into a powerful weapon of the independence movement So far the Filipino independence

movement has been conducted as a sort of legal parliamentary opposition pointment by the pro-consul of Ameri- It is thoroly respectable and its lead ership is entirely of a middle-class haracter.

Even its correct policy of opposi tion to the division of the islands as provided by the Bacon bill has shown certain weaknesses in method which a militant nationalist liberation move ment should not have. FOR instance:

not hesitate to appeal to Christians as on the ground that the Moros are Morefers to the proposed division as "The Baconian formula for penalizing chrisianity."

This sort of argument merely trengthens Wall Street in its contenion that christian Filipinos and Mohammedan Moros cannot get along with one another

The movement for national liberaand must strengthen itself both politically and organizationally and it is

Thruout the land in labor meetings and women's meetings, they are discussing and deciding what sort of marriage

This is the first time in history such republic like the United States where

breaking the hold of the church on have all the rights and duties of marmarriage. It provided that only those illegal children, that a man was obliged to look after all his children

Life Changes Fast, courts, especially around the question the children were entitled to all the benefits of a regular marriage relation. The court began also to extend these arose complications. Suppose a man was registered as married to one woman but actually for some years had lived with a different one, and had children by her,-who got his property when he died. The registered

wife, or the "actual wife." So the high officials of the Depart ment of Justice prepared a new code to take care of these matters, but when it came before the central exethan practically unanimous support, withdrew it, and sent it out to the people for discussion. And now all are discussing what kind of marriage they want,-right from the ground up. And this leads to another one of those little "soviet primers," put out to inform everyone in the simplest lan-

To Make Marriage Convenient

THE striking fact about the whole it does not treat it as a sacred mystery which the law must make as orderly and convenient as possible, concernish personal immorality as such There is no Mann act, following sweethave a certificate. The law merely holds everyone responsible for the results of his acts and for the support of all his children and for the care of any woman with whom he may have been in relations. The law sets out might lawfully take possession of her to make sex relations responsible, but against her will. Now neither is not necessarily of any one pattern. obliged to submit to the other.

runs the little primer. "The parents of a girl and boy arranged matters was a sacred mystery with which man in a marriage relation" says the statmuch suffering to innocent children.

. . Even if a young man wanted to marry the girl he had seduced in the village, the priest would not perform the ceremony without the parents' and those in which only one party he does his duty by them. consent. Such a girl, who might have become a good mother, had no choice but to commit suicide or become a

"Today church marriage does not marriage legal. What makes marriage legal is being registered in the proposed law, even this is unnecesistration is the easiest and quickest proof of marriage. But it is not the only proof.

Health Certificate Required.

PERSONS who wish to register marriage go to the county committee where there is a special department for this. The man and woman must each give a written statement that each of them knows that he is in full health, that he enters the relation of his own free will, and that there are no legal hindrances to the marriage (brothers and sisters, uncles and nieces, may not marry). He must also state in writing how many times he has already been married and how many children he has.

"Why do the marrying couple as sure each other of their health? Very simple. One of them might have an infectious disease which would infect the other, or cause blindness or weakness in the children.

"Why do they write down how of ten they have been married and how many children? Again very simple. A person who has been too often married shows perhaps that he is unstable or hard to live with, and the other person can take warning. Also, since every person must support his children, both parties must know fairly how many previous children can claim support.

Marriage Is Free?

VOU don't pay anything to register I a marriage" declared the little primer in italics, as an inducement to the poverty-stricken peasant who avoided the expensive church ritual. . . Marriage may be registered in the book of marriages either before or after it has actually begun. If registered afterwards, then the marriage counts from the time when the two began to live together."

Surely never has a marriage law been arranged with such reasonableness and convenience, so corresponding to the actual situations and serving actual needs of human beings.

Feminists in all lands will note the ensuing paragraph which states that 'a man and woman may take one name after marriage, either his or her name, if they register this at the time. otherwise each keeps his own name." ... Until the revolution, a wife was

"Republican Germany" Celebrates Constitution Day With Almost Pre-War Pomp and Military Display

Inset photo of President von Hindenburg and troops reviewed by him in Berlin on the seventh anniversary of the founding of the republic. Germany's over-worked and under-paid workers and her army of 2,000,000 unemployed cannot have been very well pleased with the return to Kalserism that marked the celebrations of the day. Hindenburg, leader of the worst reaction and still loyal to his Kaiser, is the president of the so-called republic while the Industrial and financial rulers of Germany, aided by the Dawes plan, are engaged in exploiting the German

workers at a more intense rate than ever before
