\$5,000 Must Be Raised This Week for the Keep The Daily Worker Fund

By C. E. RUTHENBERG, General Sec'y, Workers (Communist) Party. THE DAILY WORKER has received about \$2,000 in response to its appeal for contributions to the KEEP THE DAILY WORKER fund.

This amount has been contributed thru individual subscription for the Keep The DAILY WORKER certificates.

Quick action is needed to raise \$5,000 and to complete the first installment of \$10,000 of the total of the \$50,000 Keep The DAILY WORKER Fund.

The DAILY WORKER has obligations which are overdue amounting to \$10,000. If these obligations are not met immediately our party will be in grave danger of losing one of its most important sources of strength in the class struggle and in building the revolutionary movement in this country.

To meet the situation and enable OUR DAILY to pay its paper bills and thus secure new supplies of paper so that it can continue to appear, The DAILY WORKER must receive at least \$5,000 in contributions to the Keep The DAILY WORKER Fund during the

That means that a thousand dollars must be sent to The DAILY WORKER each day of this week after this statement appears.

Thus far the party units have not gone into action in support of the Keep The DAILY WORKER Fund. The plan of campaign and the Keep The DAILY WORKER Certificates have now been

in the hands of the party units for at least a week.

IT SHOULD BE POSSIBLE FOR THE TEN THOUSAND PARTY MEMBERS TO RAISE A THOUSAND DOLLARS A DAY THRU ENERGETIC WORK IN SELLING THE KEEP THE DAILY WORKER CERTIFICATES AND THRU THE CON-TRIBUTIONS FROM THE PARTY MEMBERS.

If there ever was a crisis which required quick, united, energetic action that crisis exists now.

THE PARTY CAN KEEP THE DAILY WORKER. IT HAS SHOWN BEFORE THAT IN TIME OF NEED IT IS CAPABLE OF CARRYING THRU A BIG ACTION. IT MUST SHOW THAT NOW.

Every party unit must make its first remittance on the Keep The DAILY WORKER Fund during this week. Mobilize the members for action. Collect all the funds possible. Send in \$5, \$10, or \$25, and then go out to sell more Keep The DAILY WORKER Certificates and remit the money raised promptly.

WE MUST KEEP THE DAILY WORKER AT ALL COSTS. WE WILL KEEP THE DAILY WORKER. WE WILL PUT IT ON A SOUND FINANCIAL BASIS AND BEYOND THE REACH OF ITS ENEMIES.

WE WILL RAISE THE \$50,000 KEEP THE DAILY WORKER FUND DURING THE NEXT THREE MONTHS.

But to keep The DAILY WORKER we must do more than that. We must complete the first installment of \$10,000 at once.

Help for The DAILY WORKER must come at the rate of \$1,000 each day until the \$10,000 is reached. Then we will have a breathing spell to remobilize our forces and complete the fund.

This is an appeal to impress upon every party member, upon every party unit, upon every sympathizer with the cause which The DAILY WORKER represents the need of quick action, of sending their contribution to the Keep The DAILY WORKER Fund at once.

Did You Ever See a Boss Get Pinched During a Strike?

You did not. But here is a view of New York garment strike pickets being put into the "Black Maria" to be taken to jail by policemen who would never think of arresting the garment bosses for their abuses and thuggery against the workers.

CALLS FOR A STRUGGLE ON INJUNCTIONS

Garment Union Says were also killed, one of them being a Charges Framed Up

(Special to The Daily Worker) NEW YORK CITY, Oct. 3 .- "A denial of all the fundamental and elementary rights which the law has heretofore accorded to organized labor in its struggles for economic betterment." This was the characterization made by Louis Hyman, chairman of the Cloakmakers' General Strike Committee, of Supreme Court Justice Ingraham's decision to continue the injunction against striking cloakmakers picketing Industrial council shops. paper, what an outcry would be raised

The union charged that the claims of violence against the union are founded on "unjustifiable arrests, wantonly and deliberately caused by the employers themselves." These charges of violence were the basis for the injunction order.

Will Continue Picketing. Declaring that the strike cannot be settled by a court order, Hyman declared the workers will continue their struggle for an opportunity to work and to live." An immediate appeal from Ingraham's decision will be made, it is announced. The statement follows:

Julius Rosenwald and tells us that "We are deeply disappointed by the reading his story, or the story that a decision of Judge Ingraham continu-Chicago Tribune reporter concocted at ing the preliminary injunction by his expense, we find that Rosenwald, Judge Guy. The injunction is unusual-Jr., does not make much of a case ly sweeping and drastic. It prohibits against the Workers Repblic. William Rosenwald accompanied Sherwood Edshops, even if such picketing be conducted in a perfectly orderly and law-abiding manner and goes so far as to enjoin peaceful appeals to would-be dy and an unofficial committee of Americans to Russia. Eddy was unstrikebreakers. As we see it the gress that was being made in making the fundamental and elementary life more pleasant for the population. rights which the law has heretofore accorded to organized labor in its struggles for economic betterment.

been characterized by systematic acts of violence is entirely founded. There has hardly been a single instance of lawlessness committed by our members on the picket line. From the first day of the strike, our employers have rests of hundreds of peaceful pickets of work having to do with the stuffand even disinterested bystanders, on ing and pinning of the refilled dates, the vague charge of 'disorderly con- especially prepared for the candy and duct.' These men have often been discharged by police magistrates who have found no ground for their arrests; in other cases fines have been in wages in the past year of one-half imposed on them wholesalely and ininto the minds of the masses, so that discriminately. It was on these unjustifiable arrests, wantonly and de- tence. These women were receiving liberately caused by the employers themselves, that the charge of violence is mainly founded.

"The extraordinary injunction against our union will serve to arouse organized labor everywhere to the critical and dangerous situation in which it is being placed by the ever extending use of injunctions in labor disputes.

Will Appeal From Order. are concerned, their vital differences with their employers cannot and will not be settled by a court order. They will continue their struggle for an opportunity to work and to live, with greater faith in their cause and reater determination to win than

'HARDY ANNUAL'

Metal Trades Depart ment Loses Steel Toilers

By J. LOUIS ENGDAHL (Special to The Daily Worker)

DETROIT, Mich., Oct. 8. - Organization of the automobile industry has become a football to be kicked back The delegation of the International and forth by the various sections of Metal Workers' Federation came to the officialdom of the American Fedthe United States ready to offer aleration of Labor. The latest kick admost anything, to make any concession demanded in order to win the Union. | nell, head of the Metal Trades Depart This was clearly apparent in the ment, and his fellow officials, who are hearing before the committee that con- the presidents of the various metal sidered this matter. The American trades unions, has sent this problem back into the annual convention of the terms, especially with regard to per American Federation of Labor that convenes here tomorrow.

> The whole question insofar as the ed is set forth in the statement of President O'Connell as follows:

"At a meeting of our executive council the subject matter was given consideration. However, because of large number of organizations not affiliated with our department being interested in and having jurisdiction over certain employes in this industry, and because there were other fields over which our affiliated organizations had more complete jurisdiction where the possibility of organizing the workmen was brighter, it was decided that for the present we should give our attention to these other lines of industry and urge the American Federation of Labor to launch a general organizing campaign in the automobile in-

But the American Federation of Labor is even less equipped than its Metal Trades Department to carry on such an organization campaign.

No Outstanding Accomplishments. President O'Connell began his engthy report to the department convention here by declaring:

"No great, outstanding accomplishments can be reported," for the year that has just passed.

In fact, the steel workers' union, that should be the backbone of this Metal Trades Department has withdrawn from it during the year. The withdrawal is complacently accepted by President O'Connell in these

Open Imperialist Policy Suggested

MANILA, Oct. 3. - Filipinos are profoundly stirred at the cable reports from Washington saying that Colonel Carmi A. Thompson, the personal representative of President Coolidge is considering a recommendation in his report to the president providing for placing the Philippines and all other "outlying possessions" of the United States into a new department of the government or Department of

A Colonial Bureau.

second alternative considered is placing the Islands under the control of a special Colonial Bureau in the Department of State. This is mand independence, as promised them by the United States.

At present the War Department rules the islands, and Filipinos are very bitter against what is called the "Cavalry Cabinet" of General Wood. Even the few who modify their demands for independence detest the present barrack rule.

Firm for Independence. The National Supreme Council has

endorsed this resolution, submitted by Senator Quezon for action by the Legislature:

"The Filipino people are firm in their stand that the only solution of the Philippine problem consistent with their aspirations and the permanent interests of the country is to grant immediate, absolute and complete independence to the Philippines. In other words, any other measure will not satisfy the Filipino people.

"The Filipino people will oppose whatever legislative measure, administrative action or financial project which may in some way postpone, retard or make impossible the concession of immediate, absolute and complete independence to the Philippines."

MILLSTEIN A BAD LOSER; WANTED TWO WEEKS VACATION, GOT ROUGH WHEN UNION MADE IT PERMANENT

The Chicago Furriers' Union Local 45 has again had an example of Millstein tactics. The new business agent elected on the progressive slate o take Milstein's place, arranged with Millstein for a meeting of the old and new executives in order that the new officers take over the administra

Hangs Like a Barnacle.

At this meeting, Millstein demanded that in this meeting he and his gang have all the say. Israelson and Finklestein the new president, warned Millstein that the old officers have no right to decide anything and their only duty and function was to turn over affairs to the new officials.

In spite of this warning, the Millstein group of used-to-be officers carried on some union business, authorizing payment of bills, but particularly granting Millstein two weeks vacation with pay.

A "Friend" from the International. This was objected to by the new progressive executives, since the membership had voted already to give Millstein a permanent vacation without pay. In the argument it developed that Ida Weinstein, vice-president also opposed by the Filipinos, who de- of the Internatonal, was a strong supporter of Millstein, insisting that he get his two weeks' vacation.

Faced with the prospect of a permanent vacation without pay Millstein was furious. Seeing a fur worker, Max Mendelson, reading the Freiheit was too much. Millstein for some reason doesn't like the Freiheit. Possibly because so many fur workers do like it. Filled with rage Millstein spit. He spit in the direction of Mendelson who resented it and said so.

NEW PLAN FOR CONSOLIDATION OF RAILROADS

Coolidge in Favor of Voluntary Unity

WASHINGTON, D. C. Oct. 1-President Coolidge today gave attention to proposed legislation designed to facilitate permissive consolidations of railroads.

Alfred P. Thom, general counsel of the Association of Railway Executives, called on the President and submitted a copy of the testimony heard by the house committee on interstate and foreign commerce last June on the voluntary consolidation bill introduced by Representative James S. Parker (Rep., N. Y.), chairman of the

Voluntary Consolidations.

In his annual message to congress n December, the President in referring to railroads will renew his recommendation that congress amend the present consolidation provisions of the transporation act to the end that proper consolidations, subject to the approval of the interstate commerce commission voluntarily may be effected.

The principles of the Parker bill are approved by a majority of the railroads. The bill does not have the approval in its entirety of all the railroads, but the fact that it contains no element of compulsion is approved

In the testimony left with the Prepersuaded them that the fight was sident, Mr. Thom said he was not au-Millstein then seized a gavel and over and the union could settle its thorized to appear as an advocate of struck Mendelson a vicious blow in own affairs. ON THE EVE OF THE 46TH ANNUAL CONVENTION OF THE A. F. OF L. AT DETROIT

(Special to The Daily Worker) DETROIT, Mich., Oct. 3. - Not even a whisper has so far been heard among the delegates in opposition to the re-election of William Green as president of the American Federation of Labor.

All the big hotels here, instead of being placarded with "Welcome, A. F. of L." carry greetings as follows: "Welcome, A. F. A." The "A. F. A." stands for American Foundrymen's Association meeting here with the Second International Foundrymen's congress. One of the principal speakers before this gathering of open shoppers was Charles F. Kettering, vice president and general director of the research laboratories of the General Motors corporation, the Morgan wing of the poration, auto industry. * * *

Frank Morrison, secretary of the A. F. of L., has established his headquarters in Room 533, Tuller Hotel, which faces the public square most frequently haunted by the homeless unemployed.

The local capitalist press specializes in interviewing the labor officlais concerning the Ford five-day week. The usual run of labor official claims to be much enthused over the Ford five-day week. One local capitalist sheet named the Furriers' Union in New York City as one of the labor unions that had won the five-day week. This only happened in one edition, however. It was taken out in the next. Every effort must be made to belittle the recent strike victory of the New York furriore. and a process of the second se

Morelli Gang Suspected, But Crime Was Charged Against Sacco, Vanzetti

By J. LOUIS ENGDAHL.

THIS morning I picked up a copy of The Detroit Free Press. The first page displays the story of the arrest of Joseph Gomez, 26 years old, alias James Mills, after an unsuccessful holdup of a branch of the Jefferson Savings Bank, Cash, bonds and liquor, valued at \$75,000 were found in his rooms.

The early edition of The Detroit News tells of a payroll bandit starting the day at nine o'clock by getting away with the \$1,200 payroll of the Cameron & King Plumbing Co.

Thus the trail of crime, bank robberies, payroll holdups and what not pours daily thru the kept press. Sometimes the bandits and highwaymen are caught. More often not. Sometimes innocent victims of the police system are taken, framed-up and sent away to penitentiaries for long terms of years.

This last is exactly what happened in the case of the two Italian workers, Niccola Sacco and Bartolomeo Vanzetti, arrested for, charged with and convicted of the murders grown out of the South Braintree, Mass., payroll holdup April 15, 1920.

One of the most damning admissions, that helps shatter the case of the United States government and the Commonwealth of Massachusetts against Sacco and Vanzetti, comes from the lips of none other than Ellsworth C. Jacobs, of the New Bedford, Mass., police, who de-

"At the time of the South Braintree murder, I suspected the Morelli's, and discussed my suspicions with the then Police Inspector Pieraccini, who seemed to share them. I DROPPED THE MATTER AFTER THE ARREST OF SACCO AND VANZETTI."

Thus, from the very lips of the police itself, comes the admission that the Morelli gang of white slavers and freight car thieves of Providence, R. I., was suspected of the South Braintree crime from the beginning. But it remained for one of the members of the gang, Celestino Madeiros, five years later, in prison, to bare the guilt of the Morelli gang while all the time the federal department of justice and the local prosecutors in Massachusetts were trying to use this crime as a means of snuffing out the lives of Sacco and Vanzetti in the electric chair of the law's executioner.

In an affidavit now in the hands of Judge Webster Thayer, who has the power to grant or refuse a new trial to Sacco and Vanzetti, Ellsworth G. Jacobs says he was an inspector of police in 1920. He says that a short time before April 15 (1920) he saw Michael Morelli and two other men in a new Buick touring car in New Bedford; the car

bore the number 154E, Rhode Island. Morelli was then living in New Bedford, but came from Providence. and had a bad reputation, being connected with the white slave traffic. He was an Italian, and the affiant knew him as one of five brothers.

Jacobs says he made a note of the car number and the date in his notebook. He saw that car again on the it passed him near the postoffice, and again noted the number. On the afternoon of April 24, 1920.

Jacobs claims that Fiore's restaurant had the name of being visited by men of bad reputation. The policeman went in and found Mike Morelli's brother, Frank Morelli, at a table with three other men who appeared to be Italians. They were were extremely nervous at his approach. Jacobs says one was a short, heavyset man, with wide, square face, high cheek bones, smooth shaven, dark brown hair. 35 to 40

seven inches tall. This man; as Jacobs approached the table, reached for his hip pocket and the policeman believed that he was going to draw a gun. Frank Morelli asked why jacobs was picking on him all the time, and what he wanted. Jacobs asked him how it was that the Cole car had the same number as the Buick he had seen Mike driving. Frank replied that he was in the automobile business, and that the plate was a dealer's plat which he transferred from

Thus the U.S. secret service and the local and county police, for the asking, had sufficient clues to lead them to the arrest of the real criminals in the South Braintree job. But the U. S. secret service decided it. was not after ordinary criminals. They are no real danger to capitalists rule. They wanted Sacco and Vanzetti, the organizers of the working class. So the police "laid off" the Morelli gang, in the words of the police inspector, Jacobs, when Sacco and Vanzetti were arrested.

Today the United States government is faced with these facts: The actual criminals in the South

Braintree affair are known. Sacco and Vanzetti are proved absolutely innocent of any connection

with this crime. But the real criminals are not brought to trial for their part in the South Braintree holdup and killing.

Instead Sacco and Vanzetti remain in prison, facing the electric chair, for the crime they never committed.

of the United States and of the world with the challenging question, 'What are you going to do about it?"

fers James F. Weeks, the pal of Celestino Madeiros, a cigaret, as it attempts to persuade him to repudiate his share in the revelations showing Sacco and Vanzetti INNOCENT!

Miners Strike When Four Men are Fired

Cutting Wages.

A special meeting of the local was called and the miners related their grievances. Many miners complained of not receiving the wages they were entitled to. The boss is in the habit of cutting their wages and refusing to pay them for hours of work. After a discussion the members unanimously decided to strike and to demand the dismissal of the mine boss and the reinstatement of the discharged work

Threatens to Smash Union.

Boss Goldstown is known in this region as an arch enemy of the miners' union. This is the fourth place where he is employed with the object of breaking the union. In fact he openly admitted to Thomas Burke. the militant president of the local, that he was going to smash the organ ization, and make it hot for those who are fighting for the miners. Burke was already discharged by the company, but a two-day strike forced the bosses to take him back.

Miners in this colliery organized in Local No. 3076 are well known as fighters. They are sure of winning this strike. When they return to work they will go back with the discharged miners and without boss Goldstown who came looking for trouble and found plenty of it.

Chicago T. U. E. L. to Hold Meeting Oct. 6: All Workers Invited

Chicago workers interested in left wing activity in the trade unions are invited to attend the regular monthly meeting of the Trade Union Educational League local general group which will be held at Northwest Hall, corner of North and Western avenues

at 8 P. M. on Wednesday, October 6. The speaker will be William Z. Foster, who will talk upon the question of the A. F. of L. convention, the growing progressive movement in the mining ndustry and other outstanding situations in the labor movement. All militant workers are invited and urged o bring one or two fellow workers.

ILLINOIS TOWN MENACED BY CATASTROPHE; FLOOD WATER OUT OF CONTROL

NAPLES, III., Oct. 3. - With levees on both sides of this little town of 300 people threatening to give way momentarily, with the entire village under water, and the IIlinois river rising steadily after an overnight rise of fifteen inches. workmen are feverishly busy striving to avert a catastrophe. Citizens are using rowboats to reach the stores and the only schoolhouse is Make it one day's pay to keep surrounded by water. The pumping plant also is flooded

AUTO INDUSTRY UNIONIZATION IS 'HARDY ANNUAL'

(Continued from page 1) for withdrawal was accepted by our executive council."

No Organizing Campaigns.

President O'Connell says that, "No real active general organizing campaign was attempted during the year," altho there were campaigns conducted by local organizations, special efforts eing made in Chicago.

O'Connell is not as enthusiastic about the workings of the Watson-Parker bill on the railroads as are some of the other officials of organized labor. He savs:

"When the individual records of the members comprising the new railway Labor board (provided by the Watson-Parker bill), appointed by the president, are taken into account it cannot be said that they are overly sympathetic towards the hopes and aspiracions of organized labor."

Women in the Metal Industries. Officials of the metal trades are appalled at the increasing number of woman entering the industry. This has been held to be a man's industry, but it is now pointed out that, "There are hundreds of manufacturing plants turning out specialized articles in the manufacture of which female labor is

successfully employed." The department convention declares that, "we should see to it that our organizations make it possible for emale workers to join our unions inder the most favorable considera-

Efforts will be made to organize the flying machine industry in which it is pointed out that large numbers of workers will be employed, especially is a result of the decision of the government to spend hundreds of millions f dollars in building 3,000 airships.

Employers' Schemes Exposed. It is declared that, "Among the most important schemes devised by the employers of recent years solely for the purpose of reducing the ranks of the unions are the so-called open shop, the so-called American plan, company organizations, individual contracts, premiums, piece work, bonuses, welfare work, group insurance, accident insurance, stock selling, pensions and vacations with pay as a reward for special loyalty on the part of the workmen to their employers." These methods are all severely condemned.

President O'Connell condemns the delegation recently sent to this country by the London Daily Mail. When the delegation came to Washington, however, O'Connell complains that they spent only three minutes at the headquarters of the Metal Trades Department. He says, "Altho they spent several days in Washington no further visit was made to our headquarters." It is pointed out that other, similar delegations will be selected to visit

the United States in the near future. A. J. Berres and John Coefield are the delegates of the Metal Trades Department for selection as fraternal delegates of the A. F. of L. to the next British Trade Union Congress.

CURRENT EVENTS

Kuomintang Party Discusses Moving Government North

CANTON, China, Sept. 15 (By Mail) -The agent for the Enlarged Plenum of the Kuomingtang Party which commences on Oct. 1st, contains the following points: 1. Removal of the Canton Government to the newly occupied territory. 2. Organisation of governments in the various provinces. 3. Party work in the freed territory. 4. Demand for the resignation of Wantchenwei from his post as chairman of the Kuomingtang Executive. 5. Organization of propaganda for the National Assembly and the abolition of the unequal treaties. 6. Agitation against British imperialism.

Machinery and Trade Slump Hits Unions of Germany a Hard Blow

BERLIN, Oct. 3.—(FP) -Wage agreements in Germany decreased sharply in number in the two years ending Jan. 1, 1925. The reasons given are that production is being concentrated and that trade has slumped. At the end of the year 1922 there were reported 10,768 agreements covering 890,237 concerns, but on Jan. 1, 1925, there were only 7,009 agreements covering 785,945 concerns.

The number of wage workers protected by trade agreements also fell off to a dangerous degree. At the beginning of the period it was 14,300. 000, and at the end it was only 13,100,000. Reason for this decline is said to be large discharges of manual and other laborers because of the adoption of labor-saving machinery and because the inflation period in the industry was ended. A further factor in reduction was the technical reconstruction of factories.

One favorable development in these wears was an increase in the proportion of agreements made by employers with entire unions, and a decrease in the proportion made with only local associations of workers. On Jan. 1, 1925, some 10,660,000 wage workers in Germany were officially registered as working under district or national wage agreements.

Building Concession Is Made by Soviets

MOSCOW-(FP)-House building is the latest field of activity covered by a concession from the Soviet government to a mixed company. The parties are a German construction firm and the Soviet Central Union of Housing Cooperation, says a Tass press service

City pupulation in the Soviet Union is demanding more housing than the existing agencies are able to supply. The new mixed company will apply modern production methods including the making of standard parts of houses by factory processes. A saving in cost of 25 to 80 percent is anticipated by the promoters.

We will send sample copies of The DAILY WORKER to your friendssend us name and address.

GERMAN LABOR DELEGATION BACK FROM JOURNEY TO SOVIET UNION SAYS SOVIETS BUILD SOCIALISM

HAMBURG, Germany (By Mail)-The 19th of September, 1926, will stand out as a red letter day in the annals of the revolutionary movement of the Ferman proletariat, when the second German workers' delegation to the Wu Pei-fu Powerless; German proletariat, when the second German work Soviet Union arrived home on the good ship "Soviet."

SOVIET UNION AND LITHUANIA SIGN TREATIES

Blow at League and the British War Aims

BERLIN, Oct. 3. - The Soviet-Lithuanian treaty of non-aggression, state dispatches from Moscow, was signed a few hours after the Lithuanian Prime Minister, M. Slezevisius, arrived in Moscow. This is a great blow to the diplomacy of British imperialism which sought to build an paration for a new war to overthrow the Soviet Republics.

Hits Poland and Britain. The Soviet government exchanged notes with Lithuania, reacknowledging the right of Lithuania to Vilna. taken by force from Lithuania by Poland and later sanctified by the league member, also handed the Soviet Union a note saying that the treaty "did not infringe on the loyalty of Lithuania to the league." Two More Treaties Coming.

The league of nations, however, may be said to be seriously injured by the treaty, and even greater defeats may be suffered by it, since the Soviet Union is expected to make similar treaties with both Esthonia and Latvia, thus further isolating Poland and checking the British scheme of an anti-Soviet Baltic bloc. It is a challenge to the league.

The conflict with the league of nations may come over Article 16, which provides that league members' armies have the right of passage case of Germany. The small Baltic nations are now demanding that they do not want to be the battle ground is said, £150,000. for any war against the Soviet Un-

NEWS AND COMMENT

This department will appear in every Menday's New of the The DAILY WORKER.

Co-operative Production and Co-partnership

By JOHN HAMILTON. THE Society for Promoting Work-

I ing Men's Associations was founded in 1849, and its aim was thus described: "Theoretically; the idea we endeavored to spread was the conception of workers as brethren-of work as coming from a brotherhood of anti-Soviet bloc in the Baltic in pre- men associated for their common benefit-who therefore rejected any notion of competition with each other as inconsistent with the true form of society and, without formally preaching Communism, sought to form industrial establishments Communistic in feeling, of which it should be the aim, while paying ordinary wages and league of nations. Lithuania, as a interests at the rate I have mentioned (4 per cent) to apply the profits of the business in ways conductive to the common advantage of the body whose work produced them." (V. Neale). Self-Governing Workshops,

All sorts of self-governing workshops came into existence, only in the majority of cases to die a speedy death. Many of these were formed as a result of strikes or lockouts. During the bakers' strike of 1857 the trades' delegates in Glasgow requested the bakers to submit a detailed plan for a co-operative bakery. During the Edinburgh strike (1861) a cooperative building society was formed by the Masons' Union, and a number of tenements were erected. £10,000 was raised by Alexander MacDonald, thru any member's territory. This the miners' leader, for a co-operative was once given an exception in the coal mine. Out of the great strike in Newcastle in 1869 sprang the Ousenburn Engine Works, a most disasbe made similar exceptions, as they trous wenture, the workers losing, it

In 1874, 50 co-operative societies were stated to be in existence. Joint Germany no longer claims the ex- stock cotton-spinning mills at Oldham ception and wants to avoid any dis- and other places were being develop- able concession from the London Gas ed, and much co-operative money was invested in them. liously noted, capitalist development tive bargaining" (S. and B. Webb.)

bilities of success exceedingly small. In 1883 the Labor Association for the Promotion of Co-operative Producnership Association. This is a propagandist body.

Co-operative Co-partnerships.

There are roughly three classes of Co-partnership Societies"; (1) Socieies composed of shareholders who work for it-or are living in hopes of oing so when the capital and trade ufficiently develop. (2) Societies consisting partly of individual shareholders and partly of Co-operative Stores, the latter providing part of the capital and a market for the manufactured goods. (3) Societies which are federations of other societies, as distribitive stores, but which provide copartnership provisions in their rules. Examples of these are: Class (1): Walsall Locks and Cart Gear, Ltd. established 1873); Garden City Press Class (2): Kettering Clothing Manufacturers (established 1893), and some 15 co-partnership boot and shoe factories in the Midlands. - Class (3)! Blasgow United Baking Society (esablished 1868).

The 110 such societies in 1911, were educed to 105 in 1922. Membership, trade, number of employes, and wages all show a decline. Of course, many limited liability companies have what they term co-partnership schemes. where a bonus on wages is paid, or shares allotted to workers employed. These are outside the co-operative

Capitalist Co-partnerships.

In 1889 the Gas Workers' and General Laborers' Union won a remark-Companies, a reduction of the workconducted the workshops even worse shift. A scheme of profit-sharing was used to break up their men's union, But failure generally attended this and induce them to accept individual type of co-operative effort. As prev- engagements inconsistent with collec-

(H. Vivian).

Some Criticisms.

Our objections to capitalist co-partnership are that (1) efficiency of production means excessive speeding up; (2) working-class solidarity is undermined and trade unionism weakened; (3) wages tend to keep stationary; (4) a stumbling block is placed in the way of the ultimate goal of workers' control of industry.*

*"I can understand why some tains of industry have adopted the system. If I were an employer I should want labor to be pliable, diligent, economical. I should utilize the principle of co-partnership as a means of inducing the workers to sweat themselves and reducing the cost of superintendence. My reasoning would run: I am making £5,000 a year. If by granting 25 per cent of the profits to the workers I can make the business yield £10,000 a year profit, that will be \$2,500 for the employes and £7,500 for me. It is a sound commercial proposition. Also I shall earn a reputation as a model employer, and pessibly Lloyd George will slip me an G. B. E. or even a knighthood when he decorates those who help to keep labor in subjection." (J. Penny, Co-op. News, 1922)

Co-operators of the U. S. Convene Nov. 4

Credentials already received at the office of The Cooperative League of the U.S. A. indicate that more than twice as many delegates are going to the national congress in Minneapolis November 4 than have ever attended any previous co-operative congress in this country. Fully half of these cooperators are from Minnesota, Michitions are also going from New England, New York, Ohio, Illinois, Iowa and a few of the Western states. The congress opens on Thursday, November 4th and closes Sunday night, Novauditorium to overflowing at many of the sessions.

Workers (Communist) Party

HARLEM WORKERS TO HEAR PARTY SPEAKERS OCT.

Workers living in Harlem will have a fine opportunity to find out about the Werkers Party and what it stands rally, with the best speakers of the p. m. at the Harlem Workers' Center, 81 East 110 St.

Speakers.

The speakers will be Wm. J. Weinstone, district organizer of the Workers Party; Juliet S. Poyntz, candidate on the Workers Party ticket for state comptroller; Julius Codkind, candidate for the 17th assembly district, and Ben Lifshitz (in Jewish) of the Amalgamated Metal Workers.

The speakers will bring to the workers of Harlem the message of Communism, they will explain to the workers their true class interests, they will tell them why they ought to build their ings. own party to defend their interests.

Old Party Influence.

The republican and democratic parties have the Harlem workers com- 80%. pletely under their influence, promis- one. ing them everything and giving them nothing. The socialist party has some following amoung them, secured thru the usual deception practiced by this yellow crew which pretends to be a friend of the workers, but is working all the time behind their backs to betray them to the bosses.

Followed by Another.

This meeting will be followed by another mass meeting in Yorkville on Thursday evening, October 14th at the Hungarian Workers' Home, 350 E. 81 St. Announcement of the speakers at this second meeting will be made

Come Thursday evening, October 7. to the Harlem Workers' Center, 81 E. 110th St., at 8 o'clock.

Make it a weekly habit. ONE DOLLAR A YEAR.

Donations Sept. 29, 1926

A FUNCTIONING SHOP NUCLEUS.

By MARTIN ABERN.

cated in a manufacturing plant employing thousands of workers, is functioning quite actively. The comrades are enthused over the future possibilities for work.

A Shop Bulletin is now being issued regularly; the third issue has just for at the big open mass meeting and come off the press and was well received by the workers. Difficulty was Workers Party in New York City, to at first experienced in getting the be held by the Harlem Section on comrades and workers to send in shop Thursday evening, October 7 at 8 material, but now the news comes in steadily. 5,000 copies are at present printed. An editorial committee meets to outline each bulletin.

THE shop nucleus, at its incep-I tion, had the usual difficulties, such as getting the comrades from many language elements together and meeting regularly. There was a complete lack of English comrades. A couple of comrades were attached to aid in work. A comrade speaking the language of the largest language group in the nucleus was attached to help these comrades in translation, writing for the bulletin, etc., at meet-

Active in Various Fields.

The nucleus now meets regularly with an average attendance of 75 to The nucles is a fairly large

THE nucleus executive committee I meets before each meeting and prepares the meeting. No communications are read at the meeting except where action is required by the nucleus on every point. Instead a brief report is made containing the gist of the communications. Actions are recommended and discussion takes

Meetings are alive. They are not cluttered up with an endless and needlessly long agenda. One or two points are handled primarily at each meeting. Other points are laid over for another meeting or assigned to individual comrades thru the executive for carrying out. In this manner, the major points are handled well and (this is important too), the meeting adjourns not later than 10:00 P. M.

RECENT meeting for instance, A the immediate campaigns in Illinois, particularly the miners, were discussed. Then \$60.00 in pledges were made by the comrades present, and a third collected immediately. More has

come in since. The other point dealt THOP Nucleus No. 20, Chicago, lo- with was the Workers School of Chicago and the Politminimum course. Seven comrades were gotten for the various classes.

Shop Bulletins Issued.

At another meeting, the entire eve ning, almost, was devoted to reports on shop conditions, writing of news and general preparation for the issuing of the next number of the Shop

THE next meeting will deal mainly with the trade union question. both theoretically and practically; for the meeting will take up the matter of how and when the individual comrades are to join their respective unions. Four have definitely joined

thru previous discussions. This is a very brief report of a shop nucleus which has the same difficulties that are pointed out too often by elements not ready to put the neces sary energy into the job of making shop nucleus really function. There is no excuse for this. The job can be done. The publication of a Shop Bulletin, for instance, even if only 5000 copies are printed at present, alone more than justifies the change to the new form. These pieces of literature, distributed regularly to the workers, mean genuine mass propaganda and agitation—and ultimately organization for the Workers (Communist) Party and for Communism.

LOS ANGELES BAILY **WORKER BUILDERS TO** HOLD PICNIC OCT. 10

LOS ANGELES, Cal., Oct. 13. -On Sunday, October 10th, a United Porkers' Press Picnic will be held. building up their paper are asked to reserve this date and come to Rose Hill Park bringing friends and relatives.

Sports of all sorts, games, and dancing are on the program. A plate lunch and other refreshments will be served. Leave your lunch at home. Admission, fifty cents. PORTO RICANS IN ARIZONA HELPED BY LABOR UNIONS

Action

By LAURENCE TODD, Fed. Press. WASHINGTON, Oct. 3. - Failure has crowned the efforts of the Arizona Cotton Growers' Association to a big success. substitute Porto Rican cheap labor or Mexican labor in the cotton fields. The shipments of Porto Rican laborthe American Federation of Labor be strating spirit of the International cause they cannot earn even 50 cents a day under the conditions prescrib-

ed to them by the growers. Half Starved.

tract with the growers' association to audience. pick cotton. Many of them were not farm workers but were skilled mechanics of various kinds. The climate of Arizona was unfavorable and they had agreed to work for was too selves on their earnings.

years to do this cotton-picking in the address showed the great value of bor agents who visited Porto Rico ally.

had misrepresented the situation. Then Mollie Blum, one of the Piohad misrepresented the situation. Their victims refused to work for less neer members of this district, spoke than the cost of food and threw themselves on the mercy of the labor unions in the vicinity. They also telegraphed to Green and Iglesias the request that they warn other Porto Ricans against leaving home.

Labor Unions Care For Them. At Phoenix the central labor body is now caring for 100 of the Porto Ricans while others of the contract laborers are said to be under guard by local officers who pretend to have the legal right to prevent their "escape." The tradition of slave labor thus follows cotton into the newest of the ed in concluding his speech. states regardless of the fact, that the workers are free men and American

eral government for prompt inquiry and enthusiasm to continue the buildand remedial action. As a result the ing of a strong Y. W. L. in this disdepartment of labor has ordered trict. Francis I. Jones, director of its employment service, to proceed from Fort Worth to Phoenix to attempt an Red Stars Win Soccer adjustment. The cotton growers are to be warned against using false statements in inducing other Porto Ricans to come to Arizona. It was reported in Phoenix that the growers were trying to secure 1,500 men from Porto Rico.

Labor Shortage. been about 178,000 as 000, and that only about 100,000 persons have answered the call for help. Nevertheless, the Arizona growers of fer a starvation wage.

Engdahl Discusses the Issues Before A. F. of L. at Detroit Y. W. L. Meet

(Special to The Daily Worker) DETROIT, Mich., Oct. 3-J. Louis Engdahl, editor of THE DAILY be checked up. WORKER, addressed the members and sympathizers of the Young Workers (Communist) League here in Finnish Hall on the issues to come before the 46th Annual Convention of the American Federation of Labor starting Monday at Graystone Hall. Great interest was shown in the attitude of the A. F. of L. toward the youth workers. Many workers in Detroit are under the impression that the sessions of the A. F. of L. are held in secret. All sessions are open to the public. There is never any crowding since the number of visitors in attendance is always small.

District 8 Activization Group. District 8 party activization group, which has already during its short period of existence accomplished good work, will meet on Tuesday, October 5th at the Greek Hall, 768 W. Van Buren street.

It will take up the future work, particularly in connection with The DAILY WORKER campaign and general activization of Chicago party units. Every active member of the party is invited to participate. Please emember the date and place.

ENGDAHL AND MAGILL FILE PETITIONS FOR STATEWIDE ELECTION

SPRINGFIELD, III., October 3. -Hugh S. Magill today filed his petition with the secretary of state as independent republican candidate for the United States senate. The petition bore 8,740 signatures.

J. Louis Engdahl of Chicago filed his petition as candidate for the United State senate of the Workers (Communist) Party.

1113 W. Washington Blvd. Telephone Monroe 4712

Have Sport Groups

TT must be apparent that a mass workers' sports movement in this country cannot possibly pattern after the workers' sports movements in the European countries, where the class consciousness of the workers, their political level and their organizational experience is on a much higher level than here. The workers' sports organization in this country, if it is to escape the curse of sectarianism, must be based on the most elementary class program—that is, workers' controlled sports as against capitalist controlled sports.

It is true that the existing workers' sports organizations and clubs have a more advanced program than this, because they are composed of workers who are more politically developed. The Finnish, the Checho-Slovak, the Hungarian workers' sports clubs are of this kind. But if the workers' sports movement is to grow and attract masses it cannot at the present juncture base itself upon the program of this most advanced section since this program would repel the backward workers in the clubs that are of semi-working class nature.

What are these clubs? Outside of the existing out-and-out working class sports clubs mentioned above in America a peculiar intermediary form has developed—the union sports clubs. Thousands of the local unions in this country have sports clubs and teams organized, to which only members of the union belong and participate. Altho the members who take part in the activities organized by these clubs do not consider themselves as work sportsmen-because they do not look -yet these clubs are workers' sports posed of workers who are advanced enough to be organized. The union sports clubs, along with some of the independent neighborhood sports clubs as are composed of workers and are somewhat advanced, and some of the gymnastic and nature societies, these will compose the bulk of the mass sports organization when it comes into

Young Farmers Are Forced to Work Out

BELDEN, N. D .- The Young Workers' League out here is composed of Match; Score Close young farmers who are either working for their fathers or are hired by someone else. However, few of the farms over here are owned by the farmers. They are only renters for the bankers own farms have had the mortgages

All the dreams of the early "home which they put many years of hard labor. This is the fate of hundreds of families in North Dakota. We feel the same dire exploitation of the workers. So, forward to the strengthening of the Y. W. L.

TWO FEDERATIONS OF LABOR ENTER PRIMARY BATTLE

Chicago and Ill. Bodies Join in Fight

SPRINGFIELD, Ill., Oct. 3. - The Illinois and Chicago federations of Labor, thru their attorneys, today injected themselves into the battle being waged over the validity of the state primary act. filing petitions to file briefs and arguments amici

validity of the primary act for election of circuit and superior court judges in Cook county. The two federations wish to submit arguments upholding the constitutionality of the

Cases Involved.

Cases involved are: decision of the Lee county circuit court holding the primary act invalid: the mandamus suit of A. J. Cermak against Secretary of State Emmerson to compel Emmerson to call a convention for nomination of judges in Cook county, which Emmerson refused to do; and the case of William H. Stewart vs. Patrick J. Carr, Cook county treasurer.

Reports Independent Shoe Workers' Union Progress; Has 16,000

ROCHESTER, N. Y., Oct. 3.-Two thousand new members have joined the Shoe Workers' Protective Union. a national independent organization. Secretary Daniel F. Fitzgerald of Haverhill told the union convention. A new local had been gained during the year in Brooklyn, N. Y., and one in total membership of 16,000. Increased appropriations for organization work were recommended by President John

There is little rivalry between the Protective and the American Federation of Labor union-Boot and Shoe Workers-he said, since the Protective is chiefly of women's shoe workers and the A. F. of L. union of men's shoe workers.

Several complications of the constitution, due to the merger of the United Shoe Workers' Union in 1924 with the Protective, were straightened out by the convention. Over 50 delegates from eastern and western shoe centers attended.

B. of L. E. Division 473 Sends Money for . British Mine Strike

EVANSVILLE, Ind., Oct. 3. - Although forbidden by union law to appropriate money from the treasury, the Brotherhood of Locomotive Engineers, Division 473, at its recent meeting took up a collection of \$23.60 in answer to the appeal of the grand office to help the British miners. This will be sent to the grand office.

New Hampshire Labor Federation Convenes

NASHUA, N. H., Oct. 3. - New Hampshire State Federation of Labor elected John L. Barry of Manchester president at its 25th annual convention. The program endorsed included: 48-hour law, carrying forward the lection of \$26.09 was taken up. fight against child labor, and adequate compensation for workers injured or Italian groups of Chicago and works killed. Support of the striking Brit- in accord with the executive comish miners was urged on central labor mittee of the large Chicago conferunions.

CANADIAN LABOR'S CONVENTION SCENE OF HOT FIGHT OVER THE QUESTION OF STRIKE PICKETING

MONTREAL, Quebec, Sept. 24—(By Mail)—The sessions of the Canadian Trades and Labor Congress convention have proven it to be one of the most reactionary conventions held in recent years, particularly in the convention's surrender of the right to strike, which was involved in the question of the right to picket, which has been declared illegal by the Canadian highest court under Clause No. 501 of the Criminal Code.

Left Wing Battles.

man of which is "Jimmie" Simpson of the Canadian Labor Party.

The committee recommended that "pending enactment of legislation," to protect peaceful picketing, unions should follow the advice of J. G. O'Donoghue, K. C., as made in 1919. Perfectly Legal-and Useless.

This gentleman's counsel was that o more than three pickets work to The cases involved also include the gether; that they move when ordered to by the police; that they speak to scabs, but if the scabs object they be left unmolested; that no threats be made nor violence either used or condoned; and that the law be respected in every way. By doing this, Mr O'Donoghue had opined that the

strikers might have a "legal right" to won on that program was apparently not the issue.

Tim Buck's Amendment. Tim Buck of the left wing introduced an amendment that: ized workers on no account forego the right to picket, regardless of injunctions and court decisions."

Delegate Buck, who comes from the Machinists' Union, in arguing for his amendment said that the very life and strength of the trade union movement was bound up in the right to had its present power if there had mer and sickle. "A consumptive," my activity of organized labor and organstrike, and without the right to picket the right to strike was useless. Will Picket Anyhow.

Are Millionaires of Any Social Value? Ask the night gown brigade. The word Walter Ward, He Knows

NEW YORK, October 3. - Walter Ward, mysteriously missing for months, has returned to New York City, and is in hiding in Harlem, according to the latest report concerning his whereabouts.

The ubiquitous Ward, who is the son of the millionaire Baker, recently has been reported seen in several places. A few days ago he was reported to have been located on the Pacific coast, where he was said to have disguised himself by wearing shell-rimmed glasses and dyeing his hair.

Today, however, a policeman, Joseph Windham, reported that he saw Ward eating breakfast at three o'clock yesterday morning in a broadway rest aurant.

The return of Ward has revived curiosity along broadway as to the reason for his mysterious disappearance early in May when his automobile was found abandoned in Trenton, the present incumbents, Means and N. J., with the glass windshield shattered by a large rock. Prior to that time, Ward was given considerable into the kingdom of heaven and the publicity when he was arrested charged with the slaying of Clarence Peters

Vessel Steams on with Fire in Hold

SANANNAH, Ga. Oct. 3.-With the fire in her hold under control after a Party has succeeded in getting the desperate battle at sea by her crew of necessary petition signatures among 39, the freighter New Britain was the workers to put a full ticket in the proceeding to Savannah under her own steam today, according to a radio message received by the naval radio station here.

"Fire still burning but under control", the New Britain's message said. "Plates of vessel very hot. Making ten to twelve knots. No one seriously

Why not a small bundle of The writing to Bertram D. Wolfe, director, met today and signed a five-year pro- DAILY WORKER sent to you regularle to take to your trade union meeting?

Bunny took this letter to Dad, and it disturbed him very much, of course, but what could Dad do about it? He had three wells to bring in that week, and one of them broke loose and smeared up a couple of hundred acres of rocks. Also he and Mr. Roscoe had to deal with the amazing gyrations of the oil market. It seemed as if all the nations in the world had suddenly set themselves to buying up gasoline; perhaps they were making up for the shortage of the war, or perhaps they were getting ready-for another war-anyhow, the price was up sky-high, and Southern California was being drained. It was truly amazing, the gas-stations were refusing to sell to any but their regular customers, and then only five gallons at a time; other stations were clean empty, and cars were stalled for days. Dad and Mr. Roscoe were making a tremendous killing; they were getting real money too, Dad said with a laugh, none of these foreign bonds for them!

Bunny shipped a dozen cartons of cigarettes to Jeff Korbitty; and day and night he worried over the problem of Paul. Somehow the putting down of Bolshevism took on quite a different aspect when it meant keeping Paul in Siberia! Also, Bolshevik propaganda seemed a different thing when it came from the pen of an ex-cowpuncher from Salinas valley! Bunny simply had to do something, and finally in desperation he sat himself down and composed a letter to his Congressman, Mr. Leathers, telling what he had heard about conditions in Siberia and requesting that functionary to ascertain the War Department's reasons for censorship of soldiers' mail in peace time; also to urge an investigation by Congress of the reasons for keeping American troops in Siberia.

That letter was due to reach the Congressman five days later. Seven days after Bunny had posted it, a well-dressed and affable gentleman called at the Ross home in Angel City, stating that he was the owner of an oil concession in Siberia and wanted to interest Mr. Ross in it. Dad was up at Paradise, so Bunny talked with the gentleman, and finding him humane and catholic in his interests, told him all about Paul, and showed him Jeff Korbitty's letter. They discussed the situation in Siberia, and the gentleman said there had been no declaration of war against the Russians, so what right did we have fighting them? Bunny said it seemed the same way to him; and then the gentleman went away and no more was heard about the oil concession, but a couple of weeks later Bunny received a second letter from the ex-cowboy soldier, bitterly reproaching him for having "throwed me down," as he must have done, because Jeff hadn't wrote to nobody else. but the army had got onto him and they had throwed him into the can just like he had said, and he was smuggling out this letter to tell Bunny that he could go to hell and stay there. Which was one stage more in the education of a little idealist!

Bunny simply had to talk to somebody about this episode. Next day, as he was driving away from the university in his sporty new car, he noticed a young man walking with a slight limp, and it struck him as impolite for a student of the university to drive in a sporty new car, while an instructor of the university had to walk with a slight limp. Bunny slowed up, and inquired, Will you ride with me, Mr. Irving?'

"If you're going my way," said the other.

"What ever way you wish," was Bunny's reply. "As a matter of fact, I've been hoping for a chance to talk with you, and it would be a favor to me.'

The young man got in, and stated the address to which he wished to go; then he said, "What is on your mind?"

"I want to ask you why you think it is that we are keeping an army in Siberia."

Mr. Daniel Webster Irving was a peculiar-looking person; his head came up a long way out of his collar, and with its quick alert movements it made you think of a quail sitting in a tree and looking out for you and your gun. He had a brown moustache, rather bristly and rebellious, and grey eyes which he fixed upon you sharply when you said something stupid in class. He fixed them now upon Bunny, demanding, "What makes you interested in that?"

"I have a friend with the troops there, nearly a year, and I've had some news that worries me. I don't understand what's going on."

Said Mr. Irving: "Are you asking me as a student or as a friend?"

"Why," replied Bunny, a little puzzled, "I'd be glad to be a friend, if I might. What is the difference?" "The difference," said the other, "might be the loss of my

position in the university.' Bunny flushed, embarrassed. "I hadn't thought of anything ike that, Mr. Irving."

"I'll put it to you bluntly, Ross. I spent all I had saved on relief work in Europe and came home broke. Now I am educating a young sister, and they are paying me the munificent salary of thirteen hundred a year. I am due to get a raise of two hundred next year, and the matter of contracts comes up this month. If it is reported that I am defending Bolshevism to my students,

I won't get a contract, either here or anywhere else." 'Oh, but Mr. Irving, I wouldn't dream of reporting you!" "You wouldn't need to. You'd only need to tell your parents or your friends what I think is the reason our troops are in Siberia and they would consider it their moral duty to report me."

"Is it as bad as that?" said Bunny. "It's so bad that I don't see how it could be worse," said Mr. Irving. "I will answer your question provided you agree that I am talking as a friend and that you won't mention the conversation to anyone else." And you can see how deeply Bunny had fallen into the toils of Bolshevism, when he was willing to agree to a proposition such as that!

President Green, the Five-Day Week and the Furriers' Union

President William Green hails the five-day week announcement of Henry Ford as a victory for organized labor.

We have already dealt with the real meaning of the Ford scheme and will deal with it again in a special issue of THE DAILY WORKER devoted to this one question.

But what interests us is the statement of President Green to the effect that the Printers' Union and the Furriers' Union are pioneers in the establishment of the five-day week.

Does President Green recall that he, in company with Hugh Frayne, A. F. of L. organizer, moved heaven and earth to get the Furriers' Union to abandon their struggle for a forty-hour, five-

Has President Green forgotten that it was necessary for the New York Joint Board of the Furriers' Union to call a meeting of shop chairmen to combat the efforts of Hugh Frayne to end the strike on the bosses' terms?

Has President Green forgotten that he has ordered an investigation of the Furriers' Union and that in correspondence which has been published he makes serious charges without any basis in fact? cerns of Siemens & Halske A. G. and

If the Furriers' Union has not only upheld the best traditions Siemens-Schuckertwerke G. m. b. H., of the trade union movement but has shown the way to the rest of in the form of twenty-five year 61/2 the labor movement in securing the five-day week, why is President Green making war on the Furriers' Union?

Why has he appointed an investigation committee one of whose members is Hugh Frayne, while at the same time refusing to give rope and in Germany itself approxirepresentation on the committee to the New York Joint Board of mately another \$6,000,000 in debentthe Furriers' Union which led the strike and registered the achieve sum of the issue amounting to some ment which President Green now characterizes as one of the great 147 million Reichsmark, is being victories of labor?

These are questions which demand an answer.

Either the latest statement of President Green is wholly insincere and made for public consumption only or the investigation of the Furriers' Union, without precedent in the A .F. of L. annals, the fiscal year ended Sept. 30, 1925 is an attempt to discredit without reason a leadership whose ability and militancy afford a striking contrast to that of other international unions which subscribe to the "worker-employer co-operation" theory which the Furriers' Union correctly rejects.

Miami and Louisville

Two recent instances bring sharply to our attention the ever present danger the Negroes in America face.

In Miami great numbers of Negro workers have been conscripted at the point of the bayonet and altho news from there on this subject is very meager it is evident that the Florida capitalists and their hangers-on are trying to reduce wage costs in reconstruction work following the storm to a minimum, by establishing virtual slavery for the Negro population.

The Negroes have resisted and every worker in the United States should rejoice at the fact. Slavery for white workers as well as Negroes still prevails in the turpentine camps of the south and in Florida the enslavement of the Negro workers would mean the slave conditions for white workers as well.

In Louisville, Kentucky, two Negro editors have been jailed for protesting against racial discrimination in the courts which produces such results as a white ravisher of a Negro girl being declared insane and given a chance to "recover" his sanity in an asylum, while a Negro alleged to have attacked a white woman is

The prosecuting attorney first charged the two editors with "creating race friction and hatred," but this was a little too obviously sinister so the grand jury has indicted them for criminal

The Negroes need organization more than any other section of the population. Composed overwhelmingly of workers and working farmers the Negroes are easily victimized. An organization the idea of two paries. This same which can and will bring forward a practical program for consolidating the strength of the Negro race in the United States, uniting with the most conscious elements of the white working class for struggle in industry and on the political field will attain to leadership of the Negro masses.

Instances like these in Louisville and Miami must be used to arouse the whole American working class to action against the agines that socialism can be built up constant menace which 10,000,000 Negroes face daily.

go in for housing due to obvious rea-

The increase in group insurancethe policy of insuring blocs of workers by corporations—against loss of o the capitalists.

Old age pension systems show apid increase as well.

BRAHAM EPSTEIN (from whose article on the industrial welfare novement I have quoted before) says in connection with corporation enter

Only 15 years ago group life in-

surance (by corporations) ... was

hardly known. In 1912 the total amount of insurance written under these policies amounted to \$13,172,-198. In 1917 the total group insurance in force was \$346,525,472 . . . At the end of 1924, 61 insurance companies had written \$3,264,638 of group insurance, nearly DOUBLING In TWO years the amount issued

in the FIRST ELEVEN YEARS.

gether with the Western Union, purber of workers covered by this form America as the dominant capitalist sues the same line altho it does not of insurance amounted to 3,500,000 in nation of the world after the world 1925 and there has been a rapid inrease since that time.

Old age penisons come in for a sent an appeal to that fear of povwages during illness and injury, and erty and dependence in old age which the extension of this to provide in obsesses every worker. There can be surance for dependents, is another no question but that the fear of los- ployers: method of drawing the workers closer ing old age pensions and the benefits of insurance for illness and accident acts at present as a strong brake in preventing the development of organization and strikes.

QUOTE again:

In the establishment of old age pensions also, a study just com pleted by the writer of 310 formal pension schemes discloses the fact that, the before 1900 there were but FOUR such systems, and only 126 additional plans were started up to 1915, 180 NEW systems have been added since . . . Moreover, 200 concerns reported that, tho they had adopted no formal rules, they did provide pensions. . .

It will be noticed that the period in which the decided upward tendency appears in both the health and

war.

That the capitalists regard cost of these schemes as a real investment which pays good dividends there can be no doubt.

EPSTEIN quotes from a survey made of a large number of em-

The opinions of employers, with but few isolated exceptions, are solidly in favor of welfare plans . . . 'no doubt as to the benefit derived . thru having, healthler, better

satisfied workmen and families' . Numerous establishments feel 'that our labor turnover is less and that the big family" feeling is much more evident . .' Most corporations which have adopted these activities find that they fresult in a decidedly different attitude on the part of employers who heretofore believed they received but very little consideration; that they 'point a way for real personal respect and understanding and as a beginning of ipdustrial harmony, happiness and success both for the employes and the company.' They are convinced life insurance and pension schemes that welfare plans act as a check

labor turnover, materially re duce industrial troubles and that attempts to organize their workers invariably fall.

PROM the foregoing it is clear that "welfare" schemes are directed against the labor movement, that they are used consciously and deliberately by the capitalists to undermine the existing trade union movement, discourage anything smacking of "radicalism" and to produce a race of capitalist-minded workers whose irst thought will be for industry

rather than for himself and his class. The American Federation of Labor nas not answered this challenge in the only way it can be answered i.e. stressing the complete difference in interest between the abstraction known as American industry, but which is in reality the capitalist class, and the American workingclass.

There are plenty of instances showng that this failure plays into the hands of the capitalists with telling force. It will be necessary to give only one or two illustrations of the ingenious manner in which the capitalists, thru their employe journals, take advantage of this basic weak ness of the labor leadership.

The C. P. S. U. and the **Opposition Block**

By N. BUCHARIN. (Continued from previous issue)

TT is to be observed that oppositional circles seem to like to dally with Ossovsky prophesies that we shall have two parties in the immediate future, both which will call themselves Communist at first: One party which will be in favor of withdrawal from the Anglo-Russian committee and will stand for a very "international standpoint." and another party which imin our country alone, a sort of "national-Communist" party. This entertaining of the idea of two parties has already become extremely popular in oppositional circles. The standpoint taken by the opposition on the freedom to form groups and fractions is WASHINGTON, Oct. 3. - Health which in its actual essence is the idea of the justification of a split in the

This is in our opinion the fourth the plenum of the C. C., and I believe dered completely from the path of the portant health conference in many ABC of Leninism with respect to the ital, etc. This standpoint inclines furyears. Committees were designated importance and the character of the to work out various phases of public party in our country, and from the ABC of Lenin's teaching on the organ-President and Mrs. Coolidge will izatory character of our united and receive the delegates at the White sole party.

Results and Conclusions. COMRADES, I now come to the question which must have occurred to every one of you: In what direction is the ideology of the opposition developing, what is its ideological marching route, where it it going? I must refer once more to Medvedvev's standpoint, but shall not repeat its outlines, as these are already well known to you.

TT was not for nothing that the cenn in New York, where he is con-strikes against the smaller houses if 1 tral organ of our party entitled its with the anti-fascist newspaper | they do not sign the same agreement, | article against Medvedyev's standpoint: "The Right Danger in of viewpoint, and to publish this ar-

THE present controversy within the Communist Party of the Soviet Union is neither a sign-nor will it be the cause -of a retreat of the revolution. Quite the contrary. It is clear indication of its victorious onward march.

To give a clear understanding as well of the present problems of the Russian Revolution as also of the controversy over the solution of these problems, we are publishing herewith a report made by Comrade Bucharin at the functionaries' meeting of the Leningrad organization of the Communist Party. The report speaks for itself and needs no further elucidation. It is clear and convincing and answers the lies about the retreat of the Russian Revolution.

Party." Nobody with ordinary common sense can deny that the extreme right is represented in our party by a group of the one-time Workers' Opposition, for it is impossible to imagine a more extreme right in the sphere of international revolutionary one step on the road to this idea, politics than a standpoint in favor of the liquidation of the Comintern, a standpoint which names the West European Communist parties a "rabble of petty bourgeois lackeys" living "on fundamental problem dealt with at Russian gold," which demands the liquidation of the Red International of that the opposition has here too wan- Labor Unions, the abandonment of our socialist industry to foreign capther to the right than any other in our party, strictly speaking, it is ideologically already quite outside of our party. And we must never forget that the present opposition, which represents a block comprising various oppositional currents, includes as one constituent the group around Comrade Medvedyev. The opposition has given us no sensible reply to our repeated requests to turn aside from the Medvedyev standpoint, at least at the plenum of the C. C., and join hands with us for a determined attack upon

> BUT this is not all: About a year ago a group of comrades commissioned Comrade Zinoviev to write an article against a letter in which Medvedyev explained his

ticle in the names of a number of comrades. Comrade Zinoviev did not execute this commission. When he was asked at the C. C. plenum why he did not fulfill this duty, he replied literally: "Since you are directing your fire against the left, I did not think it suitable to attack the left comrade Medvedvev." Thus Comrade Zinoviev regards the standpoint of Comrade Medvedyev as a "left" standpoint. Thus it would appear that, if Medvedyev is of the "left," then Comrade Zinoview stands to the right of him. I do not know what is to be thought of this logical conclusion. In reality Comrade Zinoviev is of course not right of Comrade Medvedyev. This is happily not yet the case, but if we regard the ideological position of the various oppositional groups, objectively and without consideration of persons, we can find an ideological bridge connecting the components of the opposition block. (To be continued)

A CORRECTION

Permit me to ask space in your columns for a correction of a misprint in the title of an article of mine published on Thursday, September 23. The article as printed was entitled "The Socialist Party Furnishes its Insurgents." It should have read: The Socialist Party PUNISHES its Insurgents." I would not trouble you o print this correction were it not for he fact that the change of title changes the political meaning of the article, Fraternally, Bertram D. Wolfe.

Railroad Clerks Get Wage Increase. NEW ORLEANS-(FP)-About 200 clerks of the Louisville & Nashville railroad in New Orleans will share in wage increases totaling \$400,000 annually over the entire system. The new agreement provides a minimum
