## The Daily Worker Must Have \$5,000 This Week Or---

THIS is the most critical week that The DAILY WORKER has yet had to face.

Bills long overdue are now crowding us. There are business obligations which The DAILY WORKER must meet instantly. Otherwise we will be out of business altogether—close the shop for good-SUSPEND THE DAILY WORKER.

There are party members, sympathizers, and friends in the labro movement who have been gathering funds to KEEP THE DAILY WORKER. There surely must be considerable money in the hands of The DAILY WORKER army. In many instances this money has been held back so as to enable our friends to make a better showing by forwarding larger sums later.

ALL MONEY THAT IS IN THE HANDS OF THE DAILY WORKER SUPPORTERS AND FRIENDS MUST BE TURNED IN INSTANTLY.

ALL MONEY THAT CAN BE POSSIBLY GOTTEN FOR THE DAILY WORKER MUST BE SECURED AND FORWARD-ED WITHOUT THE SLIGHTEST DELAY.

We must raise one thousand dollars daily for the next week at

least if The DAILY WORKER is to continue. Only our getting ten thousand dollars before the middle of this month—the sooner before Octobr 15 the better—can save The DAILY WORKER.

IF YOU HAVE ANY FUNDS NOW THAT YOU INTENDED TO SEND TOMORROW—SEND IT TODAY—AT ONCE.

IF THERE IS A FRIEND YOU HAVE IN MIND WHOM YOU WERE GOING TO ASK TO HELP TO KEEP THE DAILY WORKER, DO THE ASKING IMMEDIATELY. Rush his or her contribution. We have no time to lose. YOU HAVE YOUR DAILY PAPER TO LOSE IF YOU ARE SLOW.

IF YOU OWE THE DAILY WORKER MONEY-many of our friends owe us many thousands of dollars, long overdue-THEN PAY IT TODAY AND YOU WILL HAVE NO DEBTS TOMOR-

IF YOUR SHOP O RSTREET NUCLEI WAS PLANNING TO HELP THE DAILY WORKER AT A LATER MEETING, GET THE MEMBERS TOGETHER IMMEDIATELY. THIS IS AN MERGENCY. IT'S MORE THAN THAT—WE ARE IN A CRISIS. THIS IS THE ONE TIME TO ANSWER WHETHER YOU WANT THE DAILY WORKER OR NOT.

Just some more push, more energetic effort, is what is badly needed.

The DAILY WORKER army has shown its mettle before in situations less critical. We are confident that every party member; every worker, every progressive trade union, every forward-looking labor organization will answer our call and answer it quickly.

There is no need for panic. There is no panic now. But there will be panic if The DAILY WORKER goes down.

NOW IS THE TIME TO AVOID PANIC AND KEEP THE DAILY WORKER.

SHALL THE DAILY WORKER LIVE OR NOT? THE NEXT FEW DAYS WILL TELL. THIS MEANS THAT YOU WILL TELL.

THIS MEANS YOU MUST WORK AND GIVE TO THE LIMIT AND TELL THE DAILY WORKER TO LIVE. YOUR PAPER IS WAITING. THE DAILY WORKER IS IN

DIRE NEED. MAKE SURE NOW TO KEEP THE DAILY WORKER. JAY LOVESTONE,

## A. F. OF L. CONVENTION OPENS AMID OPEN SHOPPERS' BLAST

By J. LOUIS ENGDAHL. (Special to The Daily Worker)

CONVENTION HALL, DETROIT, Mich., Oct. 4.—Challenging the open shoppers and American planners of Detroit to attend the sessions of the American Federation of Labor, President William Green replied to the threatening editorial of the Detroit Free Press warning the labor officials assembled here not to try to carry on their work of organization in this city of strongly entrenched anti-union employers. This incident coupled with Ford's inauguration of the five-day week, which labor declares the result of its own activities thru many years of struggle, gave color to the opening of the 46th

annual American Federation of Labor convention here today.

## PASSAIC COPS USE VIOLENCE **ON STRIKERS**

## U. T. W. Officials Lead Protest to Chief

(Special to The Dally Worker)

PASSAIC, N. J., Oct. 4. - James Starr, vice-president, United Textile Workers, in charge of the strike, has warned Chief of Police Zober of Passaic that brutal attacks on strikers must cease. Starr led a group of Panniersa, one of the witnesses of brutality, he produced, exhibited an arm in a sling, broken on the picket line. Women told of being pushed about and called obscene names.

Net loss of \$3,558,968 reported by the Botany Consolidated Mills in the American Wool and Cotton reporter for the six months ending June 30, interests the Passaic workers who have been striking the company since January.

Never A Better Cause.

"Never had workers a better case than the Passaic textile strikers. never a cause more just," says the monthly bulletin of the Women's Trade Union League of New York, which is aiding in the relief drive. 'Even in the face of major outrages and abuses they will carry on, provided they can continue to receive the minimum ration of food they have been receiving from the Relief Committee (743 Main Ave., Passaic, N. J.) \$15,000 a week is the price. Will you help?"

Eleven men are still held under \$430,000 bail in the Hackensack and Paterson jails.

Brutal Third Degree. Strikers testified to third degree methods, refuting Captain Turner who denied any brutality by his debeing slammed about the police station and threatened with further violence till he signed a fake confession tending to implicate him in recent bomb explosions.

PASSAIC, N. J., Oct. 4.—Passaic police who have become very excited over news reports charging them with brutality toward union strikers held in jail in the textile mill area, called a conference yesterday in the office of Benjamin F. ## A. F. OF L. MEMBERSHIP DROPS MORE THAN 60,000 IN YEAR, REPORT TO **DETROIT CONVENTION REVEALS**

By J. LOUIS ENGDAHL. (Special to The Daily Worker)

DETROIT, Mich., Oct. 4—The American Federation of Labor zation of the workers in the great meeting in its 46th annual convention here today was faced with a crumbling membership according to figures contained in the report of Secretary Frank Morrison, showing a total membership of 2,813,910 for the year ending August 31, 1926, as compared with 2,877,297 for last year, a drop of more than 60,000.

Secretary Morrison seeks to cover up this drop by declaring that "the membership reported does not include all the members involved in strikes or lockouts, or those who were unemployed during the fiscal year, for whom per capita tax was not received." Secretary Morrison further declares:

"A survey of the membership of the national and international organizations and the unions directly affiliated with the

American Federation of Labor indicates that because of strikes or unemployment there were at least 500,000 members for whom per capita tax was not paid to the American Federation of Labor."

#### More Strikes in Other Years.

Therefore, Morrison confidently points out, "adding this number to the 2,813,910 paid-up members will give a grand total of 3,313,910 members."

But the same conditions hold true for all previous years, especially for those years of industrial depression and of many strikes, for which the membership appears in the report on a per capita basis, and without any padding.

If Secretary Morrison argues correctly; then he would have to add 500,000 to the total figures for each year, which would then inevitably develop the drop of more than 60,000 for this year just the same.

#### The Figures Don't Lie.

As a matter of fact, the unions that have conducted the big strikes during the past year have paid their usual per capita tax.

The United Mine Workers of America, that conducted the anthracite coal strike last winter involving 158,000 workers, and that has had numerous strikes on its hands in the bituminous fields, paid-per capita on 400,000 members as in 1925. This figure is far above the actual membership of the miners' union, now estimated at not more than a quarter million.

The International Ladies' Garment Workers' Union, that has had several big strikes during the past year and is even now in a big struggle in New York City, paid per capita for 90,000 members, the same as last year.

Many of the building trades: unions that have been engaged in struggles for higher wages during the past year, like the carpenters, the bricklayers, electrical workers, laborers, machinists, painters, plumbers and plasterers. paid a 1926 per capita equal to or greater than in 1925. In fact, the building trades as a whole showed an increased membership.

Most of the unions reporting losses, according to per capita paid to the A. F. of L., showed a membership of 237,600 in 1925, compared to 184,000 for this year, a drop of more than 50,000 members. The drop of members for all the unions affiliated with the railway department was 19,700 from 1924 to 1925. The tabulation of the membership of the American federation for the last 30 years appears in an adjoining column.

The American Federation of Labor at the present time is made up of four departments, 107 national and international unions, 49 state federations, 833 city central bodies, 769 local department councils, 29,417 local unions and 380 local trade and federal labor unions.

does provide for the compulsory arbitration that the council's report says it does not, just as the Clayton act vas not an "emancipation proclamaion of American labor."

Organized Work Discussed. Under the sub-heading, "Organization Progress," the report reviews the number of organizers in the field, tells of the number of cities and states visited by the moving picture first shown Nothing Can Be Won by at the Atlantic City convention last rear, tells of organization efforts among women workers, but lays down no comprehensive plan for the organibasic industries. The executive council promised that the American Federation of Labor will oppose to the full extent of its power the efforts of the employers to compel their employes to join company unions." which, it is pointed out. are more or less patterned after the company stores which prevailed in American industry to some extent a number of years past."

Sees "Open Shop" Attack Weaken. It is declared that the agitation for the "open shop" or "American plan"

has spent its force. It is stated that "American wage earners are the highest paid workers in the world."

Under the heading of "employe stock ownership" it is pointed out that "it is a bad policy for the wage earner to put all his eggs in one basket—to invest his savings in the same company from which he draws his wages falls under this admonition."

The executive council promises to continue its investigation of this development, stating: "We believe that this subject is one which should receive the attention of all workers."

Note of Warning Is Sounded. In discussing the question of union banks and union insurance enterprises, which give rise to other labor ventures in the investment, security cil sounds "a note of warning against attention of the trade unionist from the more primary need of trade union organization and trade union functioning. We decline to give our approval to such tendencies and developments and caution our trade unions and workers to use the utmost care and vigilance in investing or participating in such ventures."

The Citizens' Military Training Camps receive the usual endorsement, because, "in the judgment of the exadvantageous to all the boys of our country to take advantage of the opportunity afforded to them in these camps.

President William Green and most of the executive council recently wisited the Plattsburg encampment in New York state as the guests of the United States government. The council reports that relations with the strike, it gathered only \$31,438.32 in American Legion have been "of a very friendly character."

Under the heading of "international relations" the activities of the A. F. of L. in the Pan-American Federation of Labor are reviewed at length without mention of its present attitude Frank Farrington, the suspended toward the internal situation in Mexpresident of the Illinois coal miners, ico. Regarding the Amsterdam Interhaving signed a contract to work for national, the report says:

> "Tho correspondence has been continued with the International Federation of Trade Unions (Amsterdam), as yet there has been no agreement upon the differences that prevent the affiliation of the A. F. of L. to the Amsterdam International."

The report attacks the Communists and holds out some hope of affiliation

with Amsterdam when it says: "The Amsterdam International has been standing splendidly in defense of trade union principles against all appeals to compromise with Communist groups. The good will and support of American labor are with the organization in this position. We trust that eventually a mutually satisfactory basis for reaffiliation will be develpart both of the workers as well as oped."

The executive council clings closely to its non-partisan political policies, urges the workers to go to the polls play to all economic, industrial and and vote for the best men in the old parties and promises to defend the primary system of choosing candidates. It is on this basis that it is now enterthe "provision in employment con-

ing the congressional campaign. The usual attack against the Communists is made by the executive council in its report.

No mention is made in the report of the council's investigation into the recent successful strike of the Furriers' Union in New York City.

Obligation to Porters.

Miss Mary McDowell, welfare and social worker, stated as her experience traveling for many years in Pullman cars that she felt under obligation to Pullman car porters who have been in charge of the cars where one lies down to rest when he goes on a long journey. She emphasized the necessity of organization, and stated that in view of the fact that the Negroes as a whole had made progress in all lines of endeavor, it is assured that with the proper leadership they could succeed in organizing for their economic welfare, by far the most important work of life.

A. Philip Randolph, general organizer of the Brotherhood of Sleeping Car Porters, was introduced by Chair man Webster as a new type of Negro eadership with efficiency, intelligence, oyalty and honesty in which the Ne gro race was sadly in need.

## SCAB TAXI DRIVER IN HARD LUCK; MUST PAY BAUER FOR LOST GAS

It is reported that Henry Brussing, a scab driver working on the Bauer taxi company's cabs, whose chauffeurs are on strike against a new rule of the company compelling them to pay five cents a galion for gasoline used while on duty, had fallen upon bad luck while operating on the south side.

Brussing appeared in a police station with an Aimee Semple McPherson story of being "kidnapped." His cab, or rather the company cab he was driving was found in ashes at 55th and Normal avenue. The meter was saved. It showed 30 cents. The scab will be expected to pay for the 10 gallons of gas which, like the "kidnappers," had escaped.

(Special to The Daily Worker) CONVENTION HALL, DETROIT, Mich., Oct. 4.—One of the mos vicious blasts ever let loose by the "open shop" press against the American labor movement, was turned full force thru the editorial columns of the Detroit Free Press against the 46th Annual Convention of the American Federation of Labor that assembled here today.

The A. F. of L. delegates were told that Detroit is second only to Los Angeles, "The Unfair," in the general use of the so-called "American Plan" or non-union plan in industry.

"Hands Off Auto Industry!" William Green, of the A. F. of L., The A. F. of L. delegates are told discussed at some length his views not to attempt to tamper with this on the so-called five-day week institut-"American Plan" thru efforts to ored at the plant of the Ford Motor ganize any workers in Detroit during company. He said: the stay of the convention here. They "The Ford plan should not be reare especially warned to keep their garded as a distinct innovation. The hands off the auto industry. short work-week has for some time

In the whole history of the Amer can Federation of Labor, it is doubtful if any convention has ever received such a hostile greeting from the local employers' press. The labor delegates are told that to organize Detroit's workers is a "destructive" proceeding. They are told to "reserve their strength for employment in places where there is real constructive work for them to do."

A Flat Challenge. The editorial greeting under the heading "As the A. F. of L. Convention Opens" does not say where this place is to be found.

On the eve of the publication of this editorial the delegates to the Building Trades Department had pledged themselves to do all in their power to strengthen various crafts during their stay in the city. The delegates met with the local building trades council, and even Robert Dissman, the fraternal delegate from Germany to the Metal Trades Department, met with and spoke before a mass meeting of German-speaking machinists in an effort to strengthen their organization.

The question of the organization of the auto industry has also been referred by the Metal Trades Department to the A. F. of L. convention and will no doubt receive some consideration.

Evidently no matter how slight that onsideration may be, it will not be pleasing to the local open shop intersts and their subsidized press. Boasts of Open Shops.

The Detroit Free Press editorial, after pointing out what it claims to be "the modern character of the factories, the liberality of the wage scales and the general condition of prosperity among both employes and employers and the harmony of their relationships," declares to the A. F. of L. delegates, that "the remarkable situation which awaits their examination has developed under the American open shop plan which, except for Date Plant Strike Los Angeles, perhaps, is nowhere more generally in use than it is in this city."

The Detroit Free Press then issues its challenge to the convention in these words:

Challenges Convention.

"Nothing that can possibly benefit anybody will be accomplished by any workers was \$14 a week. But the attack upon the American plan in Maras company desired to cut their Detroit. We say this because there put upon them. This is to the direct earnings even still more and issued is a prevalent rumor that the heads advantage of the employers. Hope A. F. of L. Heads Understand. "It is to be hoped that the heads of the A. F. of L., generally level-headed men, have abroad enough vision to realize this, and will withstand any temptation to attempt a move for the mere advancement of the size of their organization, and will reserve their strength for employment in places where there is real constructive work for them to do.'

The so-called "American plan" is attacked in practically every report made to the delegates here, whether in the reports submitted by the heads of the various departments and especially in the annual report of the A. F. of L.'s executive council. Labor's open hostility to the "American plan" seems to have gotten under the skins of the local "open shop" interests. They do not relish labor leaders coming among them, even when they camouflage themselves as bankers, insurance and real estate men, which are the new duties assumed by the officialdom of labor, in the words of President James O'Connell of the Metal Trades Department.

Green then declared that the or ganized labor movement thru many vears had fought for child and woman workers and for remedial legislation for all labor. "The organization that cannot protect the economic welfare of the workers cannot live in America," said Green, claiming that the company union could not do this. Five-Day Week.

"The American Federation of Labor is committed to a program and organized for a purpose, the economic, social, political, and cultural welfare of the working class."

Green then turned to Ford's fivelay week, declaring that organized labor had always fought for the shorter work-day and the shorter workweek.

"We welcome the efforts of any employer who accepts the shorter workveek," he declared.

403 Delegates. On the first report of the credentials committee 403 delegates were seated. They represented 91 national and international unions, four de partments, 28 state federations, 72 central labor bodies, 16 local and federal labor organizations and seven fraternal delegates. Fraternal delegates are here only from Great Brit-

ain. Canada and Mexico. The local labor officials on the day's program all stressed the declaration voiced by Martel that the delegates wold hear "the complain and howl of those who oppose the labor movement." They claimed, however that in granting the eight-hour day. This this was not an expression of opinion by the people of Detroit, but in spite of the small minority that believes that the labor movement can be broken up.

President Wade was the only speaker mentioning the Detroit Free Press policy has been accurately in line with by name calling forth the laughter of what we felt must come to pass. We the delegates. ## **WORKERS USE WAR EXPERIENCE** TO FIGHT BOSSES

### Soup Kitchens Bolster South Wales Trenches

By BILL ROSS, Federated Press. MERTHYR, Wales - (FP) - "Soup kitchens help us hold the battle lines in Merthyr district," the miners local secretary, hardened in many fights with the owners, informed The Federated Press. "We operate 28 kitchens, feeding an average of 6,300 men a day, at about 4c per meal. Make the round with me and taste one of our meals," he suggested.

There was much to remind one of wartime rationing. World war veterans are using their army experience in rationing food from a central depot and cooking the food on improvised field stoves outside the mess halls. Everyone entitled to the meal presents a ticket and brings his own plate and fork. Boiled beef, potatoes and bread was the fare for the day, all well prepared.

#### Fear Dwindling Collections

"We can hold out as long as we can keep the kitchens going," the secre tary said. "Collections are getting smaller because of the widespread un employment. A lot depends on how your people in America respond."

The men in charge of kitchens tes tifled that those who were too proud to come for meals before were now forced to apply. Asked how long the miners can stick it out, a miner's wife replied: "I can say for the women around here that we are ready to stick it out forever. When the men were voting on the bishops' proposals I told my husband to vote against them. I told him to vote against anything which means worse conditions than before. If we are to submit to starvation we might as well do it without working for the coal own-

#### Merthyr Is Militant Center

Talking about the solidarity of the workers in the district, the president of the central labor body referred with pride to the history of the local move ment. "Merthyr was one of the centers of Chartist agitation and was in the forefront of trade union organization, he said. "Back in the 70's we ran a parliamentary candidate on a labor ticket. Keir Hardie, the father of the Independent Labor party, made his great fights here.

"Our enemies accuse us of being irreligious. For a long time our peopie worried too much about the hereafter and hardly enough about the present. It is the reverse now and we are the better for it. Men we never dreamt would come out joined in the general strike. And we will do it

Speaking about the prospects of American dollars, he said: "Don't think that we are only interested in American dollars. We are also interested in the American movement. Come down to our meeting tomorrow and tell us about it. You will get a hearty welcome."

#### Monroe Doctrine for Canada Gets Retort from British Noble

TORONTO, Ont., Oct. 4-Lord Dariing of Langham, British privy councillor, at a luncheon here, took a shot at the Chicago Tribune's baldly imperialist urge to Canada that it look to the United States for protection under the Monroe Doctrine. British imperialism has ideas of its own on this matter.

"The Tribune evidently thinks Canada is in a parlous condition," said the lord. "England might not be able to defend you-I don't know from whom. Some time ago there was a disarmament conference at Washington. A motion was carried unanimously that ships of the British navy should henceforth be built smaller. They call these ships the 'cherry tree type.' I asked a sailor why, and he said, They were cut down by Washington.'

"The Tribune said that Canada could defend its territorial integrity under the Monroe Doctrine.

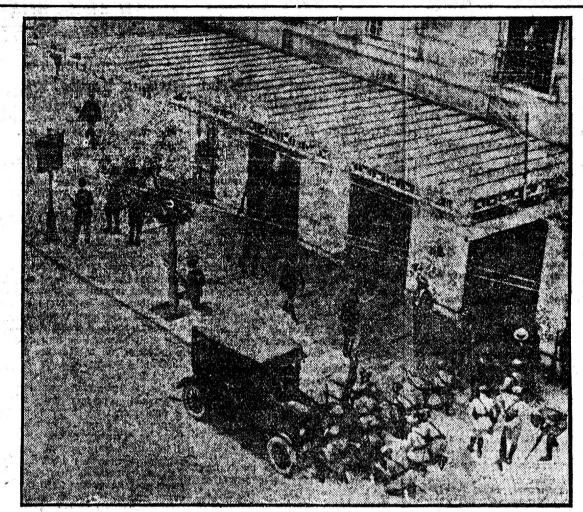

"I was not aware that the Monroe Doctrine covered Canada. So I would advise you Canadians to protect yourselves and not to say when we are in trouble, that you will invoke the Monroe Doctrine."

The enemies of the freedom of the Chinese people are well aware of the far-reaching significance of the defeat with which they are threatened and they are therefore preparing a great counter-attack.

THE danger of a new armed intervention on the part of the imperial-I ist powers is very acute. The British press is already conducting an energetic campaign to this end. Negotiations are already taking place In Tokyo between British agents and the Japanese government with a view to unifying the intervention action.

The other great powers will attempt to secure their share of the spoils in good time. The British armed forces have already been in action on the Yangste and in Canton. Reinforcements are on the way. The complete Intervention is perhaps only a question of days.

N Manchuria, Tchang Tso Lin, whose miltary power has not yet been weakened, has violated all agreements and has undertaken a hostile act against the Soviet Union by confiscating a part of the North China rallway which belongs, after the Soviet Union had surrendered all its privileges, jointly to the Soviet Union and to the East Chinese govern-

THE plan of intervention which has been worked out under the leadership of Great Britain is derected therefore not only against the Chinese people, but also against the Soviet Union.

The intrigues of Great Britain in the far east are in a line with her measures to surround the Soviet Union from the west and from the south. THE Communist International draws the attention of the revolutionary workers and peasants of all countries to the great danger which is threatening the cause of the emancipation of the world from capitalism thru the latest machinations of the great powers.

An armed intervention against the Chinese people and a new war against the Soviet Union would bring immeasurable suffering upon the whole world.

HE workers and peasants of the capitalist countries have shown more than once that they are not willing to permit the imperialist powers to attack the Chinese people fighting for its freedom, nor the Soviet Union of the workers and peasants.

The Communist International appeals to the workers and peasants and the sympathizing elements of all countries who are interested in the struggle for freedom of the Chinese people and in the work of socialist reconstruction in the Soviet Union, to prevent the imperialist bandits carrying out their plans for intervention.

Long live the struggle of the Chinese people for freedom! Long live the free and peaceful work of socialist reconstruction in

the workers' and peasants' state! Hands off China! Hands off the Soviet Union!

### Move for Republic in Spain to Oust Rivera Dictatorship and King

MADRID, Oct. 4. - Within half mile of the office of the secretary of war of the Spanish monarchy, leaders of the Liberal and Conservative parties, together with leaders of the extinct parliament outlawed by dictator Primo de Rivera, have met and planned a republican movement as a last resort measure against the dictator's plan to call a fake assembly of handnicked members.

The opposition has called on all de Rivera's selected members to boycott the assembly. They now plan to send a strong delegation to Geneva to inform the League of Nations that the assembly is a fake and is unconstitutional.

Should the league pay no heed (and the league has never shown any distaste for dictatorships so long as they are reactionary), the opposition intends to declare a republic. This is nearly certain to end in civil war between the two ferces and the custing of Primo de Rivera from dictatorship and King Alfense frem the throne,

BERLIN, Oct. 4.-Foreign Minister Stresemann's speech at the Cologne convention of the People's Party, in vnich he pleaded with the United States for aid in making the Franco-German accord, reached between Briant and himself at Thoiry a success, is construed here as an attempt to line the United States up on the side of the Franco-German continental bloc against the British-Italian bloc. A complete new line-up has now takon place on the continent. The fact that all the leading statesmen of the various countries are giving tongue to their alleged joy over the developments only proves that both combinations are watching each other closely and with suspicion.

(From the N. Y. Times Annalist)

"While the delegates were arriving today for the 58th Trades Union Congress, the General Council was hard at work with the preliminaries.

"One important matter that came before them was the letter from the Home Secretary giving official notice of the ban on the Russian fraternal delegates.

"Mr. Citrine told me tonight that a resolution of protest against the action of Sir William Joynson-Hicks is to be drafted.

"'The Council,' he said, 'takes the view that in interfering with the legitimate international activities of the trade union movement, the Home Secretary has been actuated, not so much by consideration of his office, as by political prejudice.'"

## Here We Have It

The DIFFERENCE in reports between the Annalist, organ of the American bankers and manufacturers, and the Daily Herald, organ of the British workers, is clear.

This is not an isolated incident.

Such unvarnished lies and misrepresentations are regular daily occurrences too many to be counted or even mentioned. Such frauds are the very foundation of the whole capitalist propaganda machinery. This is the way the press owned by the capitalist class misleads the workers to defeat.

The New York Times Annalist tries to make the American workers believe that their British brothers look upon Sir William Joynson-Hicks as their friend and savior and Comrade Tomsky as their arch

The Daily Herald tells the workers the truth about the infamous behavior of the strikebreaker "Jix". The Daily Herald gives the real stand of the Trade Union Congress towards Comrade Tomsky.

The Daily Worker, in the United States, is the organ of the working men and working women. It is The DAILY WORKER that gives the facts and tells the truth about the British Trade Union Congress and all other events and activities of the workingclass.

Those whom the Annalist and all the other bourgeois papers call friends of the workers, are our worst enemies. Page: Sir Joynson-Hicks.

Those whom the exploiters call our enemies, are our best friends. Meet: Comrade Tomsky.

Do you see the truth?

Don't you get the point?

## ONE MILLION COPIES OF WORKERS (COMMUNIST) PARTY PROGRAMS.

These few weeks before the elections are just the time when the large nasses of the American workers and poor farmers become Interested in public questions, when they think about and form opinions on matters of "politics." The more politically conscious workers eagerly discuss the 'issues" presented to them in the press and get quite excited over the "elections" while even the most backward sections of the working class are some what affected by the general atmosphere of "politics."

This is one of the main reasons why the Workers (Communist) Party engages in election campaigns and approaches the workers on the basis of the elections. The general interest of the masses allows an easier approach for our political ideas and our program. It therefore becomes very important for us to make the most of every opportunity that election time

How do we lay our program and our ideas before the workers? First of course, we arrange mass meetings in every city and town where we possibly can and this we have already done in scores of places in this country. Secondly, we place our entire press at the disposal of the campaign and ir this way reach thousands of workers who do not come to our meetings.

But both of these methods have their limitations, obviously. The work ers who knew nothing about us, who have never heard of the Communists, do not, generally, attend our meetings or read our press. Yet if we could get our program into the hands of these workers, especially around election times, they would be interested in it and in many cases read it attentively. In order to reach the widest possible circles of workers the party has

#### Congressional Program

in leaflet form-four pages. This gives in simple and easily understood terms the party's stand on the most important national issues of the dayon taxation and the tariff, on farm relief, on anti-labor and foreign-born legislation, on Negro equality, on child labor, on the condition of the working women, on militarism, unemployment, prohibition and a number of others. This leaflet should be distributed far and wide.

One Million Copies Must Be Distributed!

This CAN be done and it MUST be done. Every party member can do nis bit. Comrades in the shops and factories can distribute the leaflet among their fellow workers, individually or thru their shop nucleus. Trade union fractions and fractions in other workers' organizations must see that their fellow members get a copy of our election program. Street nuclei can arrange street and house-to-house distributions. And EVERY COMRADE can see that his fellow workers, his friends, his acquaintances get our leaflet.

Every comrade, every party organization must throw all efforts into this work. The week of

October 10 to 16

has been set aside as

Congressional Program Leaflet Distribution Week.

This is the immediate work before the party now. During this week ONE MILLION COPIES must be placed into the hands of the workers. The leaflets sell for \$3.50 per thousand. If your nucleus is in the city where your district office is then order thru your district office. Otherwise

your nucleus should order direct from the national office. NOW! GET ON THE JOB! DISTRIBUTE A MILLION COPIES! ALL HANDS ON DECK!

LOS ANGELES, Cal.-From indications here it seems that the Amateur Athletic Union is lining up with the other baiters of the foreign-born in this country. A suit for \$100,000 damages has been filed here against the athletic body by Charles Hoff, Norwegian pole vaulter. He charges that the Amateur Athletic Union has influenced immigration authorities to ship him from this country. The large sum involved in the suit also throws light on the commercialized character of capitalist amateur sports.

## SHOW PASSAIC STRIKE FILM

## Proceeds Go to Help in part: Strikers

"The Passaic Strike," a motion picture of the heroic struggle of the 16,-000 Passaic textile strikers for a union and a living wage, will be shown in Chicago on Friday evenng, October 29, at Ashland Auditorium, 328 S. Ashland Blvd. There will be two showings-at 7 p. m. and 9 p. m.

Nothing will so simply, graphically and vividly explain the big strike and its lessons to the working class as will this gripping motion picture of events snapped as they ocstrike curred

#### Strikers Shown in Action.

In this picture, the Passaic textile strikers are shown in action, facing with magnificent courage and superb fortitude the brutal attacks of the mill barons, braving police clubs and shot guns, fire hose in zero weather, bombs, and withstanding the starvation offensives and strikebreaking attempts of the bosses and their tools. The huge mass meetings of strikers are shown, with the strike leaders and outside speakers addressing the strikers. Relief activities are depicted, the food stores, the picket line lunch counters, the Victory Playground for the strikers' children.

The picture has an interesting prologue, acted by the strikers themselves, dramatizing the life of every worker who, hoping to secure by the that are now being made on the sweat of his brow some of the good rights, libertles and consciences of things of life, finds that the exploiting bosses are more than willing to extract even the last drop of blood in order that their 76 per cent profits be maintained.

The proceeds raised by the showing of this picture will go to strike relief. All labor bodies are asked to co-operate in making the showing in Chicago successful.

Progressives in congress believe that the only possible road to a general federal system of pensioning the men and women worn out in industry is thru a constitutional amendment. ### Miserably Low Wages for Pottery Workers, Shown by Statistics

WASHINGTON-(FP) - Wages of men and women employed in the American pottery industry are decidely low. This is shown by a study which the U.S. department of labor has just completed, based on statistics for 46 potteries, most of which were in the region centering about East Liverpool O. For 6,666 men and boys the aver age earnings per week in 1925 were \$26.22, and for 3,657 women and girls they were \$13.27 in the semi-viterous plants, producing common tableware.

Even these wages were double the amount earned by the average worker in each group in the year 1913, according to the report. Piecework is the basis of payment, due in part to an English tradition of contract work coming to this country from the English potteries with the fathers and mothers of these American pottery workers. Much of the production is handled by crews of 5 persons each, speeding up in The employers have frequently order to make a maximum weekly ways had to come back to sign up

In the average pottery the workers lost 2.9 days every two weeks.

NEW YORK, Oct. 4. (FP)-Rent laws put in largely to protect workers and poor tenants were dealt a blow by the decision of judge Charles J. Carroll in Brooklyn that a landlord need give no reason for evicting a enant when the lease has expired.

By Upton Sinclair (Copyright, 1926, by Upton Sinciair)

What Mr .Irving said was that our troops were in Siberia because American bankers and big business men had loaned enormous sums of money to the government of the Tsar, both before the war and during it; the Bolshevik government had repudiated these debts and therefore our bankers and business men were determined to destroy it. It was not merely the amount of the money, but the precedent involved; if the government of any country could repudiate the obligations of a previous government, what would become of international loans! The creditor nations—that is to say America, Britain and France—maintained that a government debt was a lien, not against the government, but against the country and its resources. The amount at stake was one or two hundred billions of dollars, and the creditor nations meant to make an example of Soviet Russia, and establish the rule that a government which repudiated its debts would be put out of business.

Bunny found this a novel point of view, and asked many juestions. Mr. Irving said that in Washington was a Russian who nad been the war-time ambassador to our country, and in that capacity had had the handling of the money loaned by our government, and used for buying guns and shells for Russia. At the time of the Bolshevik revolution, this ambassador had just got something like a hundred million dollars, and our government was allowing him to use it to set up a propaganda machine against the Soviet government, with a spy system as elaborate as the Tsar had ever known. Newspapers and newspaper men. government officials and legislators, all were on this ambassador's payroll. Moreover, there were in our state department officials who had married Russian wives of the old nobility and these wives had lost everything in the revolution and it was natural they should hate the new regime. One official was a member of the banking house which had handled the loans and stood to lose a fortune; others were tied up with banks and business concerns which had vast sums at stake. So it came about that America was at war with Soviet Russia, on the entire circumference of that vast republic; and so it came about that an instructor in an American university could not discuss the matter with one of his students, even outside the class room, without fear of losing his

Mr. Daniel Webster Irving denied that he had any sympathy with Bolshevism, or wished to teach such doctrines in America; and Bunny, in his innocence of soul, accepted this statementnot knowing that all Bolshevik agents say that, until they have got the minds of their victims thoroughly poisoned. Mr. Irving expressed the view that what was happening in Russia was a great social experiment. Could a government of the working class succeed? Was democracy in industry a possibility, or only a fanatic's dream? We ought to send disinterested people, experts of all sorts into Russia, to watch what was happening and report it. Instead of that, we were helping France and Britain to starve the Russians out; we were compelling them to spend all their energies resisting our armies, and those which we subsidized; we were making it impossible for the experiment to succeed, and so, of course, its failure would prove nothing.

Bunny, poor little propaganda victim, said that he was beginning to change his mind about these matters. Yes, the Russians sure had a right to work out their own problem in their own way; and certainly we ought to know the truth about what was happening—he wished there was some way to get it. Thereupon, Mr. Irving gave him the names of two weekly magazines, which, as it happened, had just been excluded from the library of the university, and from all the high schools of Angel City, for "dangerous thoughts."

You can imagine what happened then. When you tell a high-spirited lad that he must not read certain publications, he becomes immediately filled with curiosity to know what they contain. Bunny went home and sent in his subscription to these papers, quite openly, in his own name. So there was another entry in the card-indexes of the Military Intelligence Department and the Naval Intelligence Department and the Secret Service Department; to say nothing of many organizations which were using these card-indexes as their own—several patriotic societies and several militant newspapers, and several big private detective agencies, including, of course, the informtaion service of the once-upon a-time ambassador from a no-longer-existing Russian government.

Bunny, groping about for some way to help Paul, was next moved to write a letter to the Southern Pacific "Stude," telling what he had come to think about the Siberian situation, being careful, of course, not to refer to Mr. Irving, not to name either Paul of Jeff Korbitty. His letter was returned to him by the student editor, with a note protesting against a man of his prominence in the university giving such aid to the enemies of his country. The news of this incident spread, and the wildest rumors took wing; Bunny was besieged by friends and others who wanted to read the letter and then to argue with him.

One member of the senior class declared that he agreed with Bunny—certainly the Russians had a right to run their own country. Billy George was this man's name, and his father was wealthy manufacturer of iron pipe. Needless to say, Bunny was glad to have a little sympathy and let his new friend read his letter to the "Stude," and Jeff Korbitty's letter to him, and told all his ideas and troubles; and thus the card-indexes in Angel City, New York and Washington were further enriched. Inasmuch as so many other people were allowed to inspect these indexes, it will surely not be unpatriotic for us to take a glimpse into the file. The cards were six by eight in size, neatly typed on both sides; and when one was full, another was started. Our young idealist's now stood as follows:

## The Merger Period

"Ask and ye shall receive," is the slogan of the Coolidge administration issued for the benefit of the great industrialists and

Merger after merger has not only been authorized but encouraged and the departments of the government have been placed at the disposal of corporations to assist them in avoiding any legal complications. Copper, oil, electric light and power, and coal are a few of the industries in which huge new concentrations have taken that the question of worker control of

The railroads, hitherto prevented from making rapid steps towards amalgamating into still larger system groups are now in motion. Their efforts are to be facilitated by the Parker bill prepared by Alfred P. Thom, counsel for the Association of Railway Executives, which Thom has informed President Coolidge is favored by a majority of the roads and which, it is stated, President Coolidge will recommend for passage.

Now comes the news of a new consolidation bringing the Chesapeake and Ohio and Hocking Valley roads under one head and authorization for 63 miles of new connecting roadbed to be owned by the new combination.

The days when railroads had to fight for concentrations of control which gave them monopolies of the transportation field in their territories have passed. Bigger combinations is the keynote.

But combinations of workers in unions large and powerful enough to fight such huge combinations of capital effectively are outlewed, if not by legislation as yet, at least by injunctions which are as effective inasmuch as they abrogate the right of jury trial for workers accused of violating them.

American capitalism is on the march toward a greater empire cay and to complete extermination. It than the world has ever seen. Coolidge is its puppet for the present and it is his task to aid, not to hamper anything which increases the power of the ruling class.

## FROM PORTLAND TO DETROIT

ARTICLE SIX. By WILLIAM F. DUNNE.

TT is true that the trade union leadership rails at the company unions and "welfare" schemes of the capitalstantly. But neither in speeches or Trainmen, for October. It says: articles by these officials has an appeal ever been made to the class interests of the workers or is it ever ninted that the trade union movement should be a combat unit of the workng class struggling ever for more bsolute control of industry and government or that it has any other funcion than that of securing concessions for workers strictly within the framework of American capitalist society.

HAVE mentioned the failure of 1 the trade union leadership to make clear to the masses the difference between trade unions and company unions. This is a fact in spite of the declarations relative to the outright company control of company unions at present. It follows that if workers accept the theory that American industry-capitalist, executives and workers-is composed of one big family unions becomes of minor importance to them and may even be considered contrary to the altruistic spirit with which company union—and for that matter official trade union-literature is saturated.

NONTROL of the unions by the rank and file is a doctrine just as obnoxious to the present trade union eadership as it is to the capitalists.

As railways and their employes go, there is no present danger of interrupted interest or good will; they understand each other better than any other classes of employers and employes; they have confidence in and respect for each other and even if they reached the place where they had to part company, they would still maintain that respect. The employer cannot agree that he will not fight to hold onto his own; he will fight if he has to; that is his right; we stand for the same thing, but most earnestly hope we will not have to exercise it.

We are facing a new proposition; many of the 'social' problems of the organizations have been partly solved by the employers: there are organizations of all kinds, insurance and welfare schemes that are advantageous as long as the man remains in the service: there are stock buying and building and loan associations, co-operative buying associations and in fact everything attractive is offered in some form or another, each requiring dues payments, so many in fact that MANY OF THE EMPLOYES BELIEVE A LABOR ORGANIZATION IS ABOUT THE LAST THING NEC-

Nor should such utterances as the above be taken to indicate even a faint desire on the part of officialdom to stress the difference in interests between worker and capitalist. Such an interpretation must be rejected when we recall that the heads of every railway labor organization without exception aided in the passage of the Watson-Parker bill based on the theory of identity of interests of railway worker and railway capitalists.

THE International Association of Machinists, formerly, at least, the most advanced of the railway organizations, is no clearer on the company union question, so far as its official organ is concerned, than is The Railroad Trainmen. Speaking of company unions, it says:

Just how to overcome this obstacle to legitimate organization is a problem yet to be solved . . . An appeal will, of course, be made to all mechanics employed on com-

fide trade unions. Whether or not such an appeal will bear fruit remain to be seen. It is not going to be an easy matter to accomplish our purpose on company union roads, but an attempt must be made to arouse members of company unions to a realization of the fact that only thru united action, and collective effort on their part . . . can they hope to make any progress toward increasing wages, adjusting grievances and improving working

The freedom of action which the trade union should give to workers has been destroyed by union bureaucracies whose treatment of the rank and file and hatred for new ideas is comparable only to that of the most tyrannical bosses. Ossovsky so often mentioned—an adherent of Comrade Trotsky-has already hinted at this conclusion. He writes approximately as follows: Our party,

THE present controversy within the Communist Party of the Soviet Union is neither a sign-nor will it be the cause -of a retreat of the revolution. Quite the contrary. It is clear indication of its victorious onward march.

To give a clear understanding as well of the present problems of the Russian Revolution as also of the controversy over the solution of these problems, we are publishing herewith a report made by Comrade Bucharin at the functionaries' meeting of the Leningrad organization of the Communist Party. The report speaks for itself and needs no further elucidation. It is clear and convincing and answers the lies about the retreat of the Russian Revolution.

This is what Comrade Zinoviev wrote on Trotskyism. In another place he writes:

"It has often been said that all the misfortunes of the party started from the Tenth Party Congress." Why this? It was precisely the X

Party Congress which declared such discussion within the party to be superfluous.

"The policy of the Tenth Party Congress is the policy of Leninism. The attack made by Comrade Trotsky against the fundamentals of Leninism, on the basis of the balance drawn by the Tenth Party Congress with respect to the freedom of fractions and groups, cannot be acknowledged as right."

THUS Comrade Zinoviev wrote at one time. And now all this has een thrown upon the dustheap. Now all this is forgotten. It was spoken with the greatest enthusiasm, but is none the less forgotten. Trotsky remains as victor in the block established on the basis of withdrawal to a distance from Lenin's ideological principles, tho it was Zinoviev who designated Trotsky's standpoint as nothing more nor less than a variety of Menshevism, containing nuances fundamentally hostile to Bolshevism,

Two millions aint no labor gatethe labor press may gravitate to where their printing shop must close, and we be left to fight our foes without the help of able ginks who slings lot of printer's ink.

Us guys must dig down in our jeans and keep the editors in beans, if we would have 'em throw a hustle to help us workers in our tussle. They aint supported by the guys who scatter dough to advertise. And most of 'em has darn hard sleddin to buy fried liver and sum beddin.

The labor writers in our town should find it easy to shake down us folks who earn our bread in sweat,

## Where Thousands Have Been Roped in by Aimee's Game

T. P. Barnum had nothing on Aimee Semple McPherson. With a few capabilities as a speaker and several more as an actress, the lady has hooked twenty-five thousand suckers in Los Angeles to the tune of many thousands of dollars. Above is shown the revival temple that the faithful presented to their good-looking pastor. Aimee rigged up a new fangled gospel that she calls "four square" and has the petit-bourgeoisle of the Angel City swallowing her bunk hook, line and sinker. But, unlike Barnum, she didn't know where to stop. When she disappeared in a green bathing suit at a beach and then reappeared in the middle of the Mexican desert with her wristwatch (home on the dresser when she departed), her story of "kidnapping" rather took on a doubtful hue, to the C. P. S. U., is exposed to the say the least. Nevertheless, the suckers are sticking by their Almas.
