JOE ROSANSKI was the kind of a one hundred per cent American that shouldered a rifle and hied to France to defend civilization, democracy and religion against the kaiser. Had Joe been only a one-half of one per cent American, he would have stayed at home and sold real estate and be now in a position to subsidize a diva or build monuments to unknown soldiers. But he fought or walked thru a forest and got gassed. Now he'is occupying a bed in a local ers in their protest against the offihospital and his picture appears in the papers taken in the act of receiving flowers from two homely women with the red cross insignia on their caps. The double cross is what Joe got. Others please take notice!

H UNDREDS of thousands of dollars are being wasted on the queen of Roumania by wealthy American parasites. This is a rich country. At least Ferdy's spouse has reason to think so. Yet we read the following story in a capitalist paper: "Mrs. Brunette Lacy and her family, saved from eviction by \$40 fund raised in Judge Eberhardt's court, face a cheerless winter unless somebody helps." This is a rich country, no doubt, for those who are made rich by the unrequited toil of millions of wage slaves who are not much farther removed from the sidewalk than Mrs. Lacy.

THE Duke of Marlborough has asked the pope to nullify his 1895 marriage with Conseulo Vanderbilt which ended in a divorce after 25 yearsa long time between. The present duchess, another American parasite, was married to the duke in 1921 by a presbyterian clergyman. So the duke must break thru a lot of red tape in order to prepare the heavenly skids for his soul when he passes away. Therefore he desires to embrace the catholic faith, which is a darn good faith for those who have the embracing complex since old papa in Rome will forgive any deviation as long as you have the dough.

WHEN Barbara Tough, a hard-boiled Scotch girl, intruded on the NY Scotch girl, intruded on the MUSSOLIN was entertaining his favorite choir girl on his knee, the aforesaid clergyman looked daggers at Barbara. So declared Miss Tough at the famous trial which is now taking place in Somerville, New Jersey. Which only goes to prove that since a holy ghost descended on the humble home of a Nazarene carpenter, the flesh and the devil have been engaged in a deadly struggle with most of the honors going to the latter.

21 VICTIMS OF **BOMB FRAME-UP** APPEAR NOV. 19

Passaic Strikers Are Behind Them

PASSAIC, N. J., Nov. 11.-The millcontrolled police of the strike area have tried for 40 weeks to break the big textile strike in Passaic and vicinity. Failing in their efforts to club the strikers back to the mills, they have resorted to all sorts of manufactured frame-ups in the attempt to remove the leadership of the strike.. In these attempts they have had the full co-operation of the so-called law courts, which have been busy doing their bit to please the mill bosses and break the strike by handing out savage jail sentences and, in order to deplete the small funds of the strikers, exacting heavy fines and setting exorbitant bail.

Bomb Frame-Up.

The numerous and various frameups by the mill-owned police have collapsed in the past. Now, however, comes the bombing frame-up, in which 21 good strikers were seized and held incommunicado in jail for five days before bail was set in exorbitant figures. During those five days they were subjected to the most brutal and revolting police third degree tortures. Trial Nov. 19.

The cases of these men come up on November 19. Money must be forthcoming for their defense. Able lawyers must be employed to give them the best defense possible, in order to thwart the efforts of the courts and police to railroad them to prison as a nunishment for their activities in the strike. Organized labor must come to their defense. The workers everywhere must rally to their aid.

The bosses and their police have manufactured another Mooney case, but on a far bigger scale. Organized labor must smash this frame-up in the bud, by rushing money to Passaic for defense of these men. The address of the general relief committee is 743 Main avenue, Passaic, N. J.

Coming to Montreal, one member, alluded to as very important, said the secret they were searching for is probably not to be found, but that American capitalism will before long be suffering the same as the British now.

A lot of Americans are not as well off as the golden stories of high wages and prosperity indicate, said another member. While wage rates are high, deductions for time lost through sickness or unemployment bring down the general average. In England workers are paid, often in full, when ill, and also receive something when unemployed. In one big U. Let the Armistice Days Sound Tocsin for the Preparedness of Labor

By J. LOUIS ENGDAHL.

ARMISTICE DAY is a time for delivering fake sermons on "Peace," while at the same time beating up hysteria in preparation for the next war. It may seem that this is a difficult contradiction to impose successfully upon the people. Nevertheless, it is done. President Cal Coolidge did it again yesterday at Kansas City, Mo., where he dedicated a "memorial" to war, on the eighth anniversary of the signing of the armistice on November 11, 1918.

It is an armistice indeed, an admission that the last war was not "the war to end all wars." An armistice is a time for speedy recuperation and careful preparation for the next bloody encounter. That is the period thru which we are now passing. The next war will end all wars only if the masses who suffer will unite to end the capitalist system that breeds fratricidal struggles as an inevitable accompaniment of its conflicting imperialist ambitions.

No kaiser, on throne or horseback, ever boasted more vehemently of the militarism at his beck and call. than Cal Coolidge, commander-inchief of the American forces of war, -sea, land and air-bragged of the armed might of Wall Street in his speech at Kansas City.

Coolidge painted the glory picture of war preparations. Four billions of dollars appropriated during the last six years. "There is no better navy than our own in the world." The army is "not outmatched by any other of like number of troops." The entire military and naval forces represent a strength "altogether the largest we have ever maintained in time of peace." Coolidge acclaimed the five-year program for improving the aviation service declaring, "It is a mistake to suppose that our country is lagging behind in this modern art." So far as the air program is concerned, Coolidge issued this defi to the rest of the capitalist

"Both in the excellence and speed of its planes it holds high records. while in number of miles covered in commercial and postal aviation it exceeds that of any other country.'

Thus the United States of America prepares against the day when the capitalist armistice will be broken, the dogs of war again unleashed and the world again turned into a welter of human blood and agony, for the glory of profits.

It was hardly a coincidence that, at the same moment that Coolidge started his speech at Kansas City, while guns were booming and whistles shricking over the land, DAILY WORKER editorial office an additional installment of the flood of publicity that comes from the United States Army Information Service at 39 Whitehall Street, New York City, (Release No. 910. Series of 1926). This publicity told of the rapid development of the "young science of shooting down airplanes." This new fire-control system was given an official tryout recently at the Aberdeen Proving Ground. Maryland, with what the war department called "highly satisfactory results." It is declared that by means of this latest apparatus "a stream of high explosive shells, fired at the rate of 27 per minute, may be projected in such a manner as to ex-

plode into fragments the moment they cross the path of the airplane." Thus American militarism carefully and deliberately plans for the next war "in the air."

To be sure, at the same time the belief must be spread that there will be no war, that American "Imperialism struggles for peace. Coolidge propagated this lie, as best he could, at Kansas City. Here is what he said with a straight face and the best show of sincerity that his orthodox New England conscience could muster: "Our country... cherishes no im-

perialist designs, it is not infatuated with any vision of empire," declared Coolidge. "It is content with its own territory, to prosper thru the development of its own resources." The actual history of the develop-

ment of American imperialism, espeduring the last 30 years, effectively ties the indictment of perjurer to this fraudulent Coolidge utterance.

In the Pacific the United States has the Hawaiian Islands where it strengthens continually this midocean fortress looking toward the Orient. The Spanish-American war dropped Cuba, Porto Rico and the Philippines into the lap of American greed. Millions of Filipinos today raise their fists in reply to Coolidge's statement that the United States 'cherishes no imperialist designs."

But the United States does not possess alone the "vision of empire" that sees only new lands added to its domains. It sees the world also financially subjugated to its rule. Four billions of indebtedness imposed upon the peoples of South America is but the beginning. Wall Street has supplanted "Lombard Street, London" as the money-lender of the world and is proud of it. There is only this difference, that Wall Street proves the greater usurer and thus "Uncle Shylock" breeds enemies on every hand, against whom he will have great need for his military

It is estimated that American finance capitalism will this year lend more than a thousand millions of dollars in gold to foreign borrowers. In the three years just past, starting five years after the ending of the world war, the international bankers of this country with "visions of empire" lent Europe four thousand millions of dollars. How will they collect the interest ranging from 13 per cent the first year to seven and eight per cent annually later on? How will they safeguard not to mention the collection of the principle? Only thru the use of the military machine-water, air, land-continuagency. The wer drums beat on Armistice Day, hemalding the preparations for the next slaughter. The imperialists prepare to defend their own.

Yet Armistice Day should sound the tocsin of preparedness for the toiling millions as well. Labor thru preparedness must build its own strength to take over rail power. In place of the anniversary called "Armistice Day," American workers must prepare for their victory that will abolish profit rule and thru co-operation with the workers of other countries usher in the Communist Society that alone can bring universal peace thruout the world.

7TH MONTH OF STRIKE FINDS MINERS STRONG

Hodges, Reactionary, Is Asked to Quit

By BILL ROSS, Federated Press. LONDON-(FP)-Far from breakog down, the resistance of the Britsh miners in the 7th month of the lockout assumes new strength.

tated itself into a council of war, abandoning the national office in London for movable headquarters in the weaker coalfields for the duration of the struggle. Members of the executive pleading with men to abandon the pits succeed in getting out thousands every day.

The 40 miner M. P.'s have been conscripted by their union and sent into The coalfields to get the men out again. According to capitalist sources 200,000 miners out of 1,000,000 have returned to work but the vigorous campaign of the union has checked the breakaway. It is becoming evident the government and employers, hard pressed by the economic repression, that the miners are still a long way from defeat.

When the miners council of war was announced the government sent special police on its heels. At the same time the Tory papers attacked Secy. A. J. Cook of the miners, urging his arrest. They seized on his statement that the miners must win "law or no law," as an excuse.

That Cook's safety is in danger was evident the first day he started on the new campaign. When he arrived at the hotel, 40 young British fascists were in hiding to attack him. The hotel-keeper got the police in time to prevent trouble.

The opposition to the policy of the Miners Federation has been crushed nicipalities joined the general strike by the rank and file. Frank Hodges, the tory council fired them. Ironwood Miners Battle for Compensation

the power of the iron companies, are beginning a move for a federal investigation of the conditions in the iron mine fields that result in such frequent catastrophes and loss of life. Efforts are also being made to interest the Michigan State Federation of Labor and the American Federation of Labor from the point of view of the necessity for and the opportunities for organizing these highly exploited

Make Affidavits.

Six of the twenty-four miners who have decided to take the question of compensation to court have made affiflage of citizens' leagues they sought davits which prove conclusively that the cave-in which entombed them for fices. The Labor Party always scores | 131 hours and placed them for that long in the very shadow of death was preventable. The sole reason for the collapse of the shaft was the uncared for timbering and lack of adequate inspection. To replace timbers costs money. To save this money the comtional organizer of the Labor Party, pany ran its mine day in and day out "our local authorities should be staffed knowing the men were in constant death.

The affidavits show that while the men were entombed in the eighth level, the highest they could reach up the ladder to the point where the col lapsed shaft closed in completely, they themselves repaired the timbering to avoid further collapse. This resulted in an estimated saving to the company of some \$70,000 that would have been expended if the miners had not taken this precaution, even over the protests of the mine boss who, by chance, was entrapped with them.

Several quotations from the affidavits made before an Ironwood notary public follow. The names of the signers cannot be used. Until the case is presented in court and becomes a matter of court record, the miners making the affidavits are at the mercy of the companies. As it is, the men are taking a risk. The entire destiny of the mining camps of Michigan and Minnesota is ruled by the companies. The fact that these victims of company greed are taking united action against the company is one more indication that the iron miners are desperate and are realizing that in organization against the company is their only way

One miner swears to the following: The county mining inspector claimed after the disaster that he had inspected the shaft six weeks before the cave-in occurred and that the shaft was in A No. 1 condition. I do not know on what grounds Mr. Michael Collins, the inspector, made this statement. I hever saw him

The only times I have seen him in the shaft he was riding the cage like all the other men, fast, and with the lights out.

When the cave-in took place, I was on the eighteenth level. There was a sudden strong air pressure. dust and small rocks flew and Immediately after a roar of falling rocks could be heard. I was at the shaft and I ran quickly into the drift. I tried to telephone to all levels. The only reply was from the eighth level. The shift boss of that level informed me that the shaft was caving in from above that level. That afternoon, the men from the eighth level came down to the eighteenth and later on we climbed down to the twentieth. Here we found the shaft caved in and we could get no farther. We were trap-

The same afternoon J---- Sand I tried to penetrate along the tunnel to C Shaft. This is an old drift partly caved in. The trip was risky, we had to crawl on our hands, and knees. We came to the old C shaft. Here we found the shaft full of rocks. Thru the negligence of the company, the only way out of our imprisonment was blocked.

Another worker testifies, after reating his knowledge of the bad repair n which he knew the mine timbering

The shaft was blocked below. We had to ascend back to the eighteenth level and the shift boss commenced to holler about the blocking of the shaft at the eighth level, tho we by this time saved the company six hundred feet of the shaft from destruction that would have meant a loss of \$70,000.

Australian Government Spends 56% of Money ZEALAND SCABS on Military Program

MELBOURNE, Australia, Nov. 11 .-The federal government's budgeted expenditure for the current years will be \$302,598,095, equal to more than \$50 per head of population. Of this They Are Sorry They amount no less than \$170,099,530 (56 per cent) is to be spent on war services and defense.

This huge amount-more than half the total revenue-will be an everrecurring charge against revenue for many years to come, and the net result to the people is practically nil. No satisfactory explanation is made as to why this enormous amount should when John Coutts and 24 other nonbe budgeted for war services.

Threaten Students with Execution

By ANNA ROCHESTER.

PEKIN, China-(FP)-Ten of the 38 students arrested in Pekin at a meeting of the Progressive Society of Students from Shensi Province are threatened with execution. The son of Chang Tso-lin, now in command at Pekin, has promised the 9 government schools a chance to talk with him about the case before the students are beheaded.

The controlling policies in Pekin are wholly reactionary. Nationalist leaders are in hiding. Labor leaders have left temporarily. ADMIT THAT IT DOES NOT PAY

Scabbed Now

(Special to The Daily Worker)

WELLINGTON, New Zealand, Nov. 1.-An echo of last year's strike of British seamen in New Zealand was heard in the New Zealand parliament during the first week of September, unionists petitioned the government for a grant of money as compensation against pecuniary loss incurred by them when they volunteered as strikebreakers to do work on the steamer 'Arawa" during the strike.

Admit Strike Justice. It seems that despite the plausible assurances of the ship owners that the work was "easy" and the wages "high," their sufferings were "excruciating." The work they had to do was "most disagreeable" and "overstrenuous," with the result that some of them were broken in health at the end of four months. The men were manly enough to say that they were now convinced that the British seamen were justified in striking against

such awful conditions. Coutts and his fellow-workers said they acted as strikebreakers for 112 days and the aggregate amount of wages received by them for that time was \$2,750. To take on this work to "stand by the British empire" during the strike they had sacrificed jobs for which their wages would have aggregated at least \$17.50 per week, or an aggregate of \$7,750 for the 112 days. Their strikebreaking venture thus left them \$5,000 out of pocket besides ruining their health.

Treated Like Dogs.

They said that when they approached the ship owners and pointed out the injustice that had been dealt ship owners told them they had been paid the current rate of wages for the work, and if they now complained they were simply a lot of "Bolsheviks."

The New Zealand government, being sympathetic with the ship owners, turned a deaf ear to the petition, and left the men to slowly realize that it doesn't pay to engage in strikebreaking these days.

Standard Oil Talks Softly HONGKONG-(FP)-Labor trouble

By WILLIAM Z. FOSTER

ARTICLE XIII

DRAMATIZING THE STRUGGLE

An essential of good strike strategy under present day conditions in the United States is to lend a dramatic character to strike and organization campaigns, especially those among unorganized workers. These see in a dramatic strike a living strike, and they are not far wrong. This dramatization may be accomplished in many ways, such as mass picketing in the face of police terror, mass violations of injunctions, free speech fights, marches such as those of the Kansas and West Virginia miners, spectacular exposure of the workers' poverty and the employers' riches, militant resistance to violence, transfer of strikers' children from the strike district, nation-wide relief campaigns, national and local protest meetings, state investigations, parades, pageants, tag-days, etc., etc.

Good strike dramatization is closely related to militant fighting on the offensive. Classical examples of dramatic of a national conference of packing house workers in the strikes were those of the steel workers in Homestead in near future to formulate demands to be presented to the 1892, of the Colorado coal miners and Lawrence Textile packers. This was blazoned in the capitalist press as workers in 1912, and the present struggle in Passaic,

campaigns as in strikes. Often it can be strikingly ac- electrical. They poured into the unions in tens of thouscomplished by the simple expedient of transacting with a ands. It was the turning point, the thing that made this fanfare of trumpets and mass participation union business historic campaign a success. This was also a good example and maneuvers which, were no dramatic effects desired, could be handled easily and shortly in committee, such as the formation of demands, election of negotiation commit- not of a character which merely provokes capitalist countertees, taking of strike votes, etc.

For example, in the steel campaign of 1918-19 one of our best organizing strokes was the holding of a national con- masses of other workers to support the strike morally. ference of steel workers in Pittsburgh for the express pur- financially, and otherwise by making the class character of

The left wing will do well, conference we could have transacted, had we been so minded, in 10 minutes in committee. But we advertised the conference so widely that the workers of all the industry had unless they are of the most powerful capitalist combinatheir eyes focused upon it. It dramatized their hopes tions. Strike dramatization is a necessary feature of our and aspirations in the struggle. It had a splendid organizing effect.

STIRRING THE MASSES

Likewise, when we came to decide on the question of a strike, which we could also have done in committee, we necessary for the carrying on of strikes successfully. Neverdid it dramatically by taking a spectacular mass strike vote all over the country. This exercised an enormous effect in acquainting the steel workers with what was going necessities, on and in rallying them into the struggle.

Just another example from the 1917 campaign to organize the packing workers: The campaign, in its early stages, had come to a halt. It threatened to collapse, The workers, discouraged from long years of oppression and union misleadership, refused to respond to ordinary organizing methods. They wanted a definite sign from us that we had some power and that we meant business,

We sensed this, and in response announced the holding presaging a national general strike in the industry. The Dramatization is equally as effective in organizing effect upon the workers of this dramatic maneuver was of effective offensive tactics,

Strike dramatization, when skillfully carried out and attacks, is highly beneficial in many ways. It enormously stimulates the morale of the strikers. It tends to rally pose of considering and acting upon the critical situation the struggle stand out in graphic clearness. It often checks and efficiency. It should be made up of the very best

in silence and darkness in crushing the revolts of their workers, usually shrink back from the blaze of publicity, strike strategy.

STRIKE STRATEGY

It is not within the province of this booklet to outline a complete system of the special organization machinery theless it is timely to state a few of the general principles of organization and to indicate some of the more urgent

The strike committee, whether the regular executive board or a special body, is the general staff of the strike and it must be properly organized to carry on its work. It must be divided into sub-sections to correspond with its various tasks. If the strike is national in scope the strike committee must contain various departments, Finance, Relief, Legal, Publicity, etc. The local strike committees must have sub-committees on Policy, Picketing, Publicity, Defense, Halls, Speakers, Finance, etc.

In the case of unorganized workers every effort must be made to establish a real basis of trade union organization. Too often the only organization of the masses must be brought into the active strike meetings. This is a mistake, It gives them a sense of responsibility and a feeling that the strike is really their own. To thus draw them in, the numeroous committees should be built on a broad scale, T, U, E, L, formations of various sorts may also be used

CHARACTER OF COMMITTEES

The picket committee, in most industries, is the very heart of the strike. It is the cutting edge of the workers' organization. It is the first line of defense and attack. It must be developed to the highest degree of militancy their instructions in the battle,

in the organization of its picketing, to beware of employing professional gangsters. The right wing leadership has thoroly discredited this system. The gangsters not only tend to move in and capture the unions after the strike is over, but they poison it to the heart with their very presence. They are a constant source of corruption.

The legal committee is also essential, but the left wing must always be careful to hold the lawyers in check. They have a rather fatal habit, once they are engaged, of trying to run the whole strike as well as their legal department. If they succeed in this they soon strip it of all militancy and reduce it to a state of impotent legalism.

The publicity committee is very vital. To give out the news of the strike is fundamentally important, not only for the information of the workers at large, whose support is wanted, but also for the strikers themselves, whose solidarity must be maintained. Yet in almost every strike. whether conducted by rights or lefts, the publicity arrangements are primitive and inadequate in the extreme.

DISCIPLINE

Good discipline is as necessary in a strike as in . battle. It is the task of the strike committee to maintain this discipline. To do this it must carry on its work in a spirit of firmness, decision, and resolution. It must give careful attention to detail work as well as general policies. Violations of instructions and failures in duty must be swiftly punished, Incompetent corruptionists, and weaklings must be pushed from official positions.

The whole strike organization must be shot through to actively enlist the livest elements in the conduct of the with a spirit of determination and seriousness. Bosses, strikers, scabs, and all others connected with the strike directly or indirectly must be given to understand unequivocally that they have to deal with a real body of fighters. Then the vital necessary discipline will prevail among the strikers. The workers will respect their leaders and follow

Glove Workers Rejoice Over Wage Raises Won

GLOVERSVILLE, N. Y., Nov. 11.-Fulton county glove workers, numbering nearly 10,000, have ratified the wage schedule offered them by the conference of their own committee room and the employer. Wage increases of 10 per cent and more have been won. Equalization increases of 2 per cent to 6 per cent have been given certain classifications of workers, but all get at least 10 per cent cut leather into gloves.

PITTSBURGH, Pa., Nov. 11. - The election campaign of the Workers and white guard hoodlums of this city. Comrades Ben Gitlow and Harry M. Wicks were to speak at a mass meeting in the N. S. Carnegie Music Hall October 12. On the day of the meeting several fascist representatives of Pittsburgh called upon the superintendent of the North Side Carnegie Library, who is in charge of the meeting hall, demanding that the hall be closed to the Party and that the meeting be stopped, threatening with a riot in a real fascist fashion if the meeting was allowed.

Workers' School Offers Important Course

PROBLEMS IN

MARX MANNER

ANALYZE U.S.

NEW YORK, Nov. 11. - The most advanced course offered at the Workers' School this year is "Problems of American Marxism," Bertram D. Wolfe instructor. Only those will be admitted to this course who have already completed a course in Marxism-Leninism and who have a fair knowledge of American history. However, a limited number of students will be admitted who can pass an examination given by the instructor or who can show the equivalent of the training indicated above.

Sketch U. S. Problems.

The aim of the course is to sketch the problems that American Marxists Party aroused the ire of the fascisti are called upon to solve; to develop a program of work for Marxism in the U. S. and to apply the Marxian method to such problems. There has been comparatively little done in this field. "American Marxists" for example, are able to give a Marxian explanation of the Protestant Reformation; of the Anabaptist movement; the Moravian Brotherhood; the Waldenses and Albigenses. They can give an explanation of why certain districts of Switzerland remained catholic or the North of Ireland protestant; why the protestant Reformation centered in Germany; the significance of the Lollard movement and the like.

> But there is no American Marxist Mormonism or Christian Science or American Evangelism or Hard-Shell Baptism or any of the specific reli gious phenomena that bear the stamp "Made in America." In the same know much more about the peasant in certain European countries than about the situation in the United States and can give a clearer picture of class relations and class divisions States in 1926.

In the field of philosophy, German idealism is much more familiar than American transcendentalism and a Marxian analysis of pragmatism has not been undertaken.

The course in "Problems of Amer ican Marxism" has as its sub-title "America Today." It aims merely to open up all of these indicated fields of study and similar related ones; to plant the problems, to make the stu dents in the course sharply conscious of them and to direct them along the lines of investigation which will lead to the solving of some of them.

This becomes doubly important at a time when "Americanism" has be come a European and a world problem murdering, blood-sucking capitalists of and when the European proletariat is Marxism." Workers Join Party After Meeting

CLEVELAND, O., Nov. 11-"If you are ready to fight for the same kind of a government in the United States as in Soviet Russia then all of you who are not party members raise your hands and show your willingness by joining the Workers (Communist)

Forty workers raised their hands amid the plaudits of the 1,000 workers present. They were furnished with application cards and will be enrolled in the ranks of the party.

The young boys and girls present, carried away with enthusiasm by Comrade Bert Wolfe's speech, clamored to be taken into the party. Seventeen of they were enrolled in the Pioneers and will work to build it up.

The celebration of the Russian Revolution was more enthusiastic than in many years. The district committee prepared a fine program, especially distinguished by revolutionary tabeaux staged and arranged by Sadie Amter, to poems read by Mr. Leteira. The effect was tremendous and the applause overwhelming.

The Freiheit Singing Society and Freiheit Children's Chorus, the Ukrainian Singing Society and the Hungarian Workers' Chorus furnished the music part of the program, together with soprano solos by Mrs. N. Gross.

is inspiration to All.

Comrade I. Amter, district secretary of the party, called upon the workers to realize the importance of the Russian Revolution, not merely as an achievement of the Russian workers, but as the inspiration of the workers the world over. The Chinese problem is an American problem and until the American workers under stand that they will continue to be exploited as they are today. J. & L. STEEL CO. **KEEPS WORKERS** IN SUBMISSION

Uses All Tricks to Enslave Them

By HENRY X. VON ARAT (Worker Correspondent)

WOODLAWN, Pa., Nov. 11.-Woodlawn is a steel town Jones and Laughlin Steel corporation owns the town and the people in it, as well as the three miles of mills along the Ohio

central employment bureau hires the men for all the mills. If you ever go there to get a job try not to look intelligent. No one suspected of having brains is ever hired. When you enter the employment bureau you generally find the place crowded with "job seekers" of all nationalities. One look at their faces tells you they are wage slaves, waiting at the mouth of Moloch to be devoured. An inner door opens and out comes the employing agent. The men crowd around him like a lot of hungry children, while he looks them over to see which ones of them look the least intelligent.

Submit to Inquisition.

The ones picked by him are given a slip of paper and are sent into the inner office, or inquisition booth, as It should properly be called. Here the prospective employee is questioned at length. Special inquiries are made about the applicant's church affiliation. Now, do not ever make any mistakes about this question. It is necessary that you believe in some form of superstition or another if you want to get your job. This is one of the great secrets of getting a job in the J. & L. If you are a member of a certain church, you are given what is called a rating. They know just what your mental capacity amounts to and how much exploitation you will stand for and how you will vote.

If you are a member of some flock they know you will stay put. Few have any idea about the influence the local mass houses exercise over the people of Woodlawn. When you work in the mills and have seen the intolerable conditions under which the steel men slave you really wonder why it is that they do not revolt. A look at the masses on Sunday answers your question. They swarm to the churches like bees around a honey comb, to listen to that ancient lullaby "Ple in the sky by and by." "It is said that the best way to get a "good" job at the J. & L. is to get a letter of introduction from father Garney or that orthodox priest, the one with the billie goat whiskers. Any of the protestant clergys' O. K. will do just the same, however. They are all John and Laughlin's lackeys and one can direct your attention to the pie in the sky fust as well as the other. Yes, this is a goose step town. Unless your feet are guided that way, don't come here.

Medical Examination. From the inquisition room you are sent to the doctor's office. Here you generally have to wait for some time for your turn as a number of men with bandages on their arms. legs. eyes. smashed fingers are usually waiting to receive their medical attention. My, what a lot there are! If the sight of all these human wrecks doesn't weaken your stomach, you proceed to wait ing cloakmakers of New York was for your turn. Here you are asked more questions and if you pass your Pittsburgh Central Labor union by

He represents the law, the law of John and Laughlin. From the guard you proceed to the foreman. He gives you a pencil, shows you the dotted line on the card and says "sign here." You obey, you sign acknowledging that the foreman had explained all the details to you concerning the dangers in the mills and that you therefore absolve the company from all blame in case you are hurt or killed.

Thus, like Daniel in the lion's den, you proceed to whatever task you are assigned, to grind more profits for the steel corporation.

Why don't you write it up? It may be interesting to other workers.

THIS WEEK'S PRIZE WINNERS

Three Winning Worker Correspondents!

Henry X. Von Arat, worker correspondent of Woodlawn, Pennsylvania, home of the Jones and Laughlin Steel corporation, is the first prize winner of this week's worker correspondent stories. Von Arat receives a copy of the book by D. J. Saposs, "Left Wing Unionism." His story is a vivid description of methods used by the steel corporation to crush the spirit of the workers and to keep their spirit crushed.

"Andy," worker correspondent of Wilkinbury, Pennsylvania, wins the second prize, "Flying Osip," a collection of short stories by leading Russian revolutionary writers, for his story on how an aged worker is victimized by greed of the Carnegie steel company and of a medical doctor.

The third prize is awarded to the worker correspondent of Perth Amboy, N. J., who describes the effect of a speech by Albert Welsbord, on young workers of the town. He is awarded six month's subscription to the Workers Monthly.

PARALYZED WORKER TELLS STORY OF DOCTOR'S AND STEEL COMPANY'S GREED

By ANDY (Worker Correspondent) Wilkinsburg, Pa., Nov. 11. - A tall, ragged worker, paralyzed, tells the following story:

"I worked 18 years in the Carnegle Steel mill in Duquense, Penn. One evening, after taking a bath, I went to bed. The next morning could not get up. My one side was paralyzed. I went to the doctor in Wilkinsburg. The only hope for you is God,' said the doctor. 'Pray and pray hard until you get cured.' The doctor told me this, after taking as his fee \$500 that I had saved in 18 years. It was all the money I had for working in front of the furnace for 18 years.

"My wife died. I have three children who are with my sister in Ohio. And I-well, you see what I am-a beggar." There were big tear drops in his eyes when he concluded his

He also related that the company did not give him a cent, for they blamed him and his carelessness (in taking a bath) for the result.

WEISBORD TALK

(By A Worker Correspondent) PERTH AMBOY, N. J., Nov. 11. -Albert Weisbord spoke at an enthus astic meeting here on his tour from city to city to tell the unorganized workers about Passaic and the labor novement in general.

There were about 150 workers present at the meeting in Columbia Hall. Quite a few of them were young workers. The writer happened to sit near a group of young workers. These young workers had not even heard of the words "Communism" or "Bolshevism." and yet they were heard exclaiming to each other: "We ought to go out on strike, too, in our factory. Our bosses made a company union for us in order to make us do whatever they want. We must build our own workers' union.

Meet Weisbord.

The Pioneers were there and greetd Weisbord with all kinds of cheers and songs. Weisbord's flery speech left a good impression on the workers. Especially did he impress the young workers as he told about the part aken by them in the Passaic strike In closing his speech, Weisbord urged all workers to take Passaic as

an example and also made an appeal to join the party. The meeting closed with the song "Solidarity forever." And there was a real spirit of solidar-

WRITE AS YOU FIGHT!

WORKERS WHO WANT TO LEARN TO WRITE SHOULD BE AT CLASS TONIGHT

Every worker in Chicago who wants to get training in writing, and who has not attended the first two meetings of the worker correspondence class, should be at the meeting of the class tonight at 8 o'clock. The class meets in the editorial rooms of The DAILY WORKER, 1113 West Washington Boulevard (third floor.)

Every Friday night Chicago workers who realize the power of the labor press and of publicity in winning the struggles of the workers gather there to learn how to write stories of general interest that they discover in their shops, factories, union affairs, etc.

The class is open to all workers. The only qualification is that they have desire to learn. Practical work is given the members of the class in writing. The discussion method is used, so that each worker can get the most out

Be there tonight at 8 o'clock sharp.

Denver Mass Meeting Responds Liberally for Passaic Relief

(By A Worker Correspondent) -DENVER, Colo., Nov. 11. - On last Sunday evening, a mass meeting was neld in the Waiters' Hall at which 'Mother" Bloor spoke on "The Passaic

She told what the conditions were n the mills which led up to the strike as well as how the strike has been carried on. She told of the relief work being done for the strikers by union men and women thruout the country and especially about the work that a number of the larger unions in the East are doing.

A member of the Waiters' Union acted as chairman of the meeting, and the Waiters' Union donated the use of their hall for the striker's cause.

Altho an admission was clearged to hear the lecture vet the audience donated liberally when a collection vas taken up.

Before the meeting began a young ady from Cleveland, Ohio, who is traveling with "Mother" Bloor, gave a audience.

Many of the unions are sending delegates to a conference, for the relief of the Passaic strikers, which was organized by "Mother" Bloor for the task of soliciting funds and clothes from various unions

She also announced that the conference has decided to have the "Passaic strike" film shown in Denver during the month of December.

On Monday, Mother Bloor went to Colorado Springs to speak to a mass meeting arranged by organized labor of that city. About \$50 was realized by the meeting.

His place was taken by Harvey Manning, who was no longer able to stand up, but sprawled over a chair, and in a voice of the deepest injury declared, "I wanna know whoze been tellin bout me!

"Telling what?" asked Bunny.

"Thatz what I wanna know. What they been tellin?"

"I don't know what you mean, Harvey."

"Thass it! Why don't you know? Why don't you tell me? Mean say I ain't askin straight? You think I'm drunk—that it? say, I wanna know whoze been talkin bout me an what they been sayin. I gotta take care my reputation. I wanna know why you won't tell me. I'm gonna know if I have to keep askin all night." And accordingly he started again, "Please, ole feller, what they been tellin you?"

But just then the Chinese spectre flitted past, and Harvey got up and made an effort to catch him, and failing, caught hold of a lamp-stand, slightly taller than himself. It was not built like lamp-posts that he was used to clutching on street-corners: it started to fall, and Bunny leaped and caught it, and Harvey cried in alarm, "Look out, you're upsettin it!"

Then a funny thing happened. Bunny had noticed at the dinner-table a well-groomed man of the big Western type, polite and unobstrusive; the superintendent of the estate, and one of the few who kept sober. Now it appeared that among the duties of superintendent at a monastery was that of the old-fashioned bouncer" of the Bowery saloon. He came up, and quietly slipped his arm about Harvey Manning; and the latter evidently having been there before, set up an agonized wail, "I d'wanna go to bed! I woan go to bed! Dammit, Anderson, lemme lone! If I go to bed now, I wake up in the mornin and I can't have a drink till evenih and I go crazy!"

Against that horrible fate poor Harvey fought frantically; but apparently the material inside the shoulders of Mr. Anderson's dresscoat was not the ordinary tailor's padding, and the veeping victim was helpless as in the grip of a boa-constrictor. He went along, even while proclaiming loudly that he wouldn't. "I'll get up again, I tell you! I woan be treated like a baby! I woan come this damn place again! It's an outrage! I'm a grown man an I got a right get drunk if I wanna-" and so his weeping voice died into the elevator!

"Mr. Ross," said Vee Tracy," there are two cries that one nears at Hollywood parties. The first is, I don't want to go to oed; and the second is, I do.

When Bunny made his appearance on Sunday morning, he and the Monastery all to himself. He breakfasted, and read the papers, which had been delivered from the nearest railroad staion; then he went for a stroll, and renewed his acquaintance with the "reds" in the eagle cage. He walked down towards the ocean, and discovered a combination of fire-break and bridlefor their refusal to promote these path, leading over the hills along the coast. He followed this for couple of miles, until it led down to a long stretch of beach. The owner of the Monastery had erected a parrier here, with signs warning the public to keep out; there was a gate with a spring lock, and on the inside a board with keys hanging on it, and instructions to take one with you, so that you could return. Bunny did this, and continued his walk down the beach.

Presently he came upon a Rhine castle, set upon one of these lonely hills; and in front of it, coming down to the water. a series Garment Workers' Union; John P. of terraces and gardens. There were paths, and water-courses. Coughlin, secretary Central Trades "bridal-veil" falls, and fountains with stone-carved frogs and storks and turtles and tritons—all suffering from drought, for York; Thomas J. Curtis, president the water was shut off. You could guess that the owner was traveling with "Mother" Bloor, gave a number of selections on a violin, which has greatly appreciated by the wind a greatly appreciated by the Central Trades Council; John A. Hickey, secretary Commercial Teleg- lumps of white sheeting, evidently wrapped about statues. Some raphersi Union; Jerome B. Keating of of these were on pedestals, and some perched on the stone walls; the molders' union; William Kohn, up and directly over the head of each hung an electric light.

It was such a curious phenomenon that Bunny took the trouble to climb into the garden and lift up the hem of one of these sheets, and was embarrassed to discover the entirely naked round limbs of a large marble lady—presumably a Lorelei. or other kind of German lady, because you could tell by the shape of the cloth, and by feeling through it, that she had a goblet uplifted in one hand, and behind her head a thick marble rope, made by her braided hair. With golden comb she combs it, you remember, and sings a song thereby, das hat eine wundersame gewaltige Melodei; and Bunny was the fisher-boy whom it seized with a wild woe. He peered under half a dozen of the sheets, and counted the rest, establishing the fact that the gardens contained no less than thirty-two large, fat marble ladies with braided hair hanging down their backs. An amazing spectacle it must have afforded, at night when all the lights were turned on—and no one to behold it but seals! Yes; Bunny looked out over the sea. and there was not a sail in sight; but close to the shore were clusters of rocks, and on these the seals sat waiting to see if he were going to unveil the statues, and bring back the merry days before prohibition ruined America!

He turned to the beach, and walked on. The sun was high now, and the water tempting; there were more rocks with seals on them, and green-white breakers splashing over them, not high enough to be dangerous, but just enough to be alluring. Bunny made sure he was alone, and then undressed and waded into the

The attention of the seals became riveted upon him, and with each step that he took, one of them would give a hump, hump, and get nearer the water's edge. Some of them were rellow and some a dark brown, little ones and big ones, each of them enormously fat—having consumed his own weight in fish in the course of a day. As Bunny swam near, they slid silently off the rocks, politely yielding place to him; when he clambered onto the rocks, they would bob up and form a circle a few yards away, yellow heads and brown eyes staring. They were strangely human, a circle of foreign children, watching some visitor who does not know their language and may or may not be dangerous. (Continued Tomorrow.)

A Dictatorship for the Philippines

The United States government has established a dictatorship the Philippine Islands.

There is no other conclusion possible from the news that by an executive order Governor-General Wood has abolished the Board of Control, consisting of the president of the senate and the speaker of the house of the Filipino congress.

Manuel Quezon and Manuel Rexas, both leaders of the movement for Philippine independence, are president of the senate and suppression by force of the ultimate speaker of the house respectively. They have been stripped of their sear of revolution, Soviet Russia, there given.

The Board of Control, authorized by the legislation, had wide bowers. It appointed the executive boards of all the Philippine finally be formed, from the inside, make an attempt, sooner or later, to a position as the sole state whose territory in the Far East, occupied against imperialist violence government enterprises such as the National Bank, the Manila Rail- Now that a new type of state has enter into relations with the Soviet friendship is anxiously sought after during the intervention. The question of North Saghalin was an obstacle A state has enter into relations with the Soviet friendship is anxiously sought after during the intervention. The question of North Saghalin was an obstacle of North S way company, coal mining company and other corporations.

It is understood that the decision abolishing the Board of Control has been upheld by the advocate-general of the army and by the attorney general, Sargent. They declared the legislation authorizing the board and determining its powers was illegal.

All powers formerly vested in the Board of Control are now the powers of Governor-General Wood. He is a dictator. The elected representatives of the Filipinos can exercise no check on his activities.

This is the answer of American imperialism to the demand for the fulfillment of the promise of independence contained in the Jones bill and an indication that the Coolidge administration will make an attempt to force passage of the Bacon bill which proposes to divide the islands and gives far wider powers to the colonial government to be set up under its provisions than are now possessed even by Governor-General Wood.

There is no doubt but that the recent sweeping victories of the forces of Chinese national liberation which has placed more than half of China in which are included the richest agricultural districts and the most advanced industrial centers-in the hands of the Kuomintang government with its base among the workers and peasants, has had much to do with this open and sudden change from a policy of conciliation to one of intimidation and suppression. The ident Obregon was surrounded by about growing possibility of a powerful and militant nationalist government in China, having a tremendous influence upon the other nationalist movements in the Far East, has thrown a scare into the imperialist ranks.

They have done exactly the thing which will strengthen the in dependence movement in the Philippines and which will rally to the support of this movement large numbers of middle class and working class sections of the American population.

In the light of the suppressive action by the Coolidge administration the coming Conference for Filipino Independence to be held in Washington, December 17-19, assumes great importance for the American labor movement.

It must give to the opposition to subjugation of the Philippines a militant program based on the new developments which show that the Filipinos face no different problems than do other colonial peoples altho deceived greatly up to the present time by the democratic pretenses of American imperialism.

The Soviet Union and the Imperialists

In the first article, Yavorsky recounts the difficulty with which the imperialists maintain their alliances in both Europe and the Far East. The Yaqui Indian Uprising

(By Our Special Correspondent.) TEXICO CITY. Sept. 24.—(By Mail.) On Sept. 13 a train bearing ex-Pres a thousand Yaqui Indians between Hermosillo, the capital of Sonora, the rich northwest state of Mexico, and the town of Cajeme, which is the center of Obregon's large agricultural in

This was followed by the announcenent, a few days later, that the government intended to inaugurate an exermination war against this tribe, which occupies the rich valley of the Rio Fuerte and the mountainous region up to the border of the United States. These events caused surprise, ecause the backbone of Obregon's military power has always consisted in trained Yaqui troops, who have often been called the Mexican Cos-

For some months there have been the Yaquis-that "state within a state" -as El Excelsior, the leading conservative newspaper characterized the Yagui race bloc. The nature of these difficulties has never been officially disclosed.

TT WAS generally understood that negotiations of some sort had been going on for some time, and that Obregon and Gen. Manzo, head of the local military division, and the state authorities were in conference with Yaqui leaders in Hermosillo the day pefore Obregon's train was held up. one of the reasons for the intercepting of his train being that the Yaouis feared their leaders had met foul play.

Various causes have been ascribed to the difficulty that has caused the Mexican government to resort to a dangerous war which cost the older dictatorship of Porfirio Diaz, millions of pesos, and was never successfully terminated even after twenty-three years of almost continuous combat.

THE principal crop of Cajeme is the garbanzo, or chickpea; second to this are rice, corn and beans. Rice, the Indians will not cultivate nor eat. Obregon ocntrols the entire market for he garbanzo and, it is claimed, has made millions of dollars since leaving the presidency as a result of his speculations in this crop, buying up the products cheaply and selling them in the United States.

MUCH of the present warlike spirit has been stirred up thru fanatical propaganda. The situation is further complicated by the fact that the various governments, beginning with Madero, have supplied the Yaquis with arms. Thousands of them were well equipped with arms by the governnent during the de la Huerta rebellion several years ago, and most of them returned to Sonora with their arms. Letters From Our Readers

Commends "Marie" Editorial. Comrades: I desire to commend the editorial, "Romany Marie," contained in The DAILY WORKER of October 13. These people need to be told who and what they are in plain and unvarnished language: also a stray proletarian here and there may get the idea f he sees it reiterated.

Likewise, I commend "The 'Y' Gets Away with Murder Again," in The DAILY WORKER of October 12. In my judgment, no better work can be done than to undermine and bring into disrepute the various fads that superstition has built. As long as man believes in an all-powerful god he will rely upon that god to do for him, instead of doing for himself-and why shouldn't he? If people can get the god idea out of their heads then they will be able to do something for themselves, and the leaven is working.

A young lady of my acquaintance who has reached the mature age of 11 years, being requested by her teacher to submit an original contribution of her own selection, turned in a paper which she irreverently headlined "Jehovah Advertises."
