The Passaic Strikers Have Done Their Bit---YOU MUST DO YOURS!

FOR eleven long months, almost a year, the Passaic textile workers have been battling against the millionaire mill owners of that city. For eleven months they have been fighting for the right to organize and deal collectively with the bosses. For eleven months they have resisted the attempts of the textile barons to slash wages and reduce the living standards of the textile workers. They have faced police clubs, tear gas bombs, jail, icy streams of water and starvation for themselves and their families. They faced these hardships without a whimper. With the surrender of the Botany Worsted Mills, they have practically won their struggle. They have stemmed the tide of wage cuts. They have opened up a new chapter in the history of the unorganized workers of America.

But the Passaic strike is but the beginning of the movement among the millions of unorganized workers in this country-in the rubber, textile, mining, metal, auto and large scale industries. The message of organization must be carried to them. It must be carried to the most advanced elements, to the most class conscious workers in these industries, to the militants, to those who will be the natural leaders of the movement for the organization of the unorganized-to the readers of The DAILY WORKER.

Shall The DAILY WORKER be forced to quit at this critical time? Shall The DAILY WORKER leave the field when the work has just begun? No honest, intelligent worker will permit this to happen. Do for The DAILY WORKER, the organ of the unorganized, what the Passaic strikers have done for the organized textile workers. Carry the message of Passaic to every unorganized industry. Send your donation now to keep The DAILY WORKER. Send it NOW!

THE ku klux klan has been flattered by the sincerest form of that art, namely, imitation. Little klans are springing up all over the land. Local klans, that are content with making an honest dollar and leaving high politics alone. One of those altruistic klaverns is run by one Leanda Caldwell, Montgomery, Alabama. A small poster issued by Leanda is before me.

THE planks in her platform are as I follows: Secession (she does not say from what) the south for southerners only; confiscate all property, paying southerners tax-assessed value in 59 years; transport Negroes elsewhere, giving them one-fourth movable property; co-operation without association; work seven hours a day for an average of \$7 a day; labor checks instead of money; each colony as near self-supporting as possible; the south importing and exporting

COURT SAYS SEGREGATION OF NEGROES BY ORDINANCE IN INDIANAPOLIS ILLEGAL

INDIANAPOLIS, Ind., Dec. 15 .--The city segregation ordinance, passed by the city council here to force Negroes to live in certain districts only, was declared unconstitutional by the Indiana circuit court. The court based its decision on a previous decision of the United States supreme court in a similar case in Louisville, Ky., in 1917.

Indianapolis Negroes were led in their fight on the Jim Crow ordinance by the National Association for the Advance of Colored People.

Nockels then turned to some right wingers of the Furriers' Union who had been in conversation with him and said: "That's the best I can do

NEW YORK, Dec. 15 .- Five women were arrested and scores of other cloakmakers were brutally beaten by mounted policemen, patro! men, detectives of the industrial squad, and gangsters of the Sigman-Beckerman machine at the gigantic demonstration of 6.000 workers held here to protest the demand of the International Ladies' Garment Workers' Union general executive board that left wing strike leaders immediately abdicated.

The Police in Labor Struggles HUGE BROPHY

WHEN the secretary of a central labor body calls upon the police, with whom he has connection because of the support of open shop politicians of the capitalist parties, to aid in breaking up a meeting of a union regularly affiliated with the American Federation of Labor and the local central body, it is a matter of grave concern for the entire labor

Yet this is what Secretary Edward Nockels of the Chicago Federation of Labor did on Tuesday, according to reliable information which has come to us, in connection with

a regular meeting of the Furriers' Union.

Even if this information were not in our possession the

presence of the police at the meeting, the statements they made before the meeting to responsible union officials and their subsequent actions, are proof that they had been ordered to the scene by superior officers who had been advised of the meeting, knew of the purposes of the right wing and were prepared to co-operate with it to the extent of keeping the highest officer of the largest section of the union from speaking.

The unity of the right wing in the needle trades and other sections of the labor movement with the police is now a proven fact. Whence comes this unity with a "special body of armed men" who are the instrument of the enemies of labor in every strike?

Such unity can come only by reason of a compact with the bosses-bosses who realize that the worker-employer co-operation policy of the right wing is good for them and bad for the workers and as a consequence are only too willing to lend their police to aid in crushing the left wing and the Communists who are struggling to maintain the unions as fighting weapons of the working class.

Every sincere worker will repudiate the policy followed by the Chicago labor officialdom in breaking up a meeting of a union regularly affiliated with the American Federation of Labor and the Chicago Federation of Labor.

The police are the servants of the bosses and their gov-

WEISBORD SPEAKS ON LESSONS OF PASSAIC STRIKE HERE TONIGHT

"The Passaic Strike and What It Means to the American Workers" will be the subject of a talk by Albert Weisbord, well-known leader of the Passaic textile strike, now within sight of victory. The meeting will be held at Mirror Hall, 1136 N. Western Ave., tonight at 8 p. m.

The strike of the 16,000 textile workers that Weisbord organized and led in its most critical period is one of the marvels of American working class solidarity and fortitude. It was a struggle in a field traditionally antiunion and waged in the face of an en-

VOTE CAST AT SPRINGFIELD

Young Miners Boost the Save the Union' Ticket

(Special to The Daily Worker)

SPRINGFIELD, III., Dec. 15 .- Elecion day in the miners' union was a miners' holiday in this town. All day long the men came in from the sixteen mines around the town and crowded into the polling places. The heaviest vote for years was cast in this election, and if any judgment can be made from the common talk around in the halls, no Lewis votes came out of Springfield.

The counting of the votes started immediately after the closing of the polls, which was at four o'clock in some locals and six in others. The sentiment here is entirely for Brophy. Tumulty and the "Save the Union Slate." But the international and District No. 12 vote will not be known for a week or two yet-that is not settled in Springfield.

Sub-district Election Feature

What is settled in Springfield and immediate vicinity is the sub-district election, in the important Sub-district No. 4, Springfield, which has itself ten thousands members. Here a split developed in both the machine forces and the progressive forces, the latter only partly closed by a last minute decision of The Coal Miner, which issued a statement in favor of Hindmarsh for sub-district president, and called on supporters of Wall, the other progressive, to fall in line for the most probable victor over the machine can-

HARVARD LAMPOON RUBS BOSTON FUR WRONG WAY SAYS TO BURY ANCESTORS

CAMBRIDGE, Mass. - The Harvard Lampoon has made another bid for unpopularity. Close on the heels of its Princeton edition comes a "Boston Edition," satirizing the Hub of the Universe.

It says that, altho the popular conception of Boston is a codfish ball completely surrounded with beans, a more logical picture would be that of "a mummy surrounded by its descendants." "Give them a history book and a piece of the Mayflower for a relic and they will work up more religious fervor that whirling dervish on a six-day spin."

It gives the opinion that Boston has run too long on the reputation of its ancestors. "If they are not buried soon, god save the commonwealth of Massachusetts."

BORAH TO MEET WITH STRIKERS IN WASHINGTON

Strike Prisoners Face Sorry Christmas

(Special to The Daily Worker) PASSAIC, N. J., Dec. 15 .- Senator Borah will hold a conference on the situation in the Passaic textile strike district with a committee which is leaving for Washington today to meet the senator tomorrow morning at 7

Wise; Thomas McMahon, president of the United Textile Workers; Gustave Deak and Ellen Dawson, president and financial secretary of Local 1603 of the U. T. W.; W. Jett Lauck, of Washington, and Mercer G. John-

Senator Borah will discuss with the committee reopening the question of an investigation of the textile industry. Negotiations for further settlements with mill owners of the textile strike district will also be discussed. It is expected that the committee will arrange with Senator Borah for a mass meeting to be held in New York soon, at which he will be the principal

men in the Passaic textile strike dis trict are going to have a sorry Christmas if help doesn't come to them very quickly. These are the prisoners that have been held in the Bergen county and Passaic county jails since the week of September 20 on evidence presented only by the police. No charges have been brought against the eleven men by any other persons.

The hatred which the police feel toward the strikers for the nationwide publicity given to the general clubbing tactics of officers of the law is exceedingly bitter. The strikers need legal help and need it badly. Eighty cases are pending on appeal. Picket line arrests mostly on imaginary charges take place continually.

It is to take care of all this work that the Joint Committee for Passaic Defense was established by the American Civil Liberties Union and the International Labor Defense. This committee has started a national campaign to raise funds for the legal defense of the textile strikers. They want to get the eleven men now in jail out on bail before Christmas, if

Hertz Asks City to Abolish Streetcars and Use Busses Only

John Hertz, president of the Chi cago Motor Coach company and head of the Yellow cab interests, has urged the city council to abolish the surface lines in Chicago and give the bus company a franchise to take over all of the street transportation in the city. bor oil contracts. Hertz offered to place 4,000 motor coaches in operation to care for all of the transportation needs, if the street cars are abandoned and the car tracks torn up. He also offered to reducthe bus fare from 10 cents to 7 cents, and give the entire system to the city after 20 years.

The proposal is to be considered by the council. A settlement in Chicago's transportation problem must be made soon, as the surface line con gracts expire Jan. 31.

CALIFORNIA OFFICIAL GETS AFTER COMPANIES VIOLATING WAGE LAWS

SAN FRANCISCO-Labor Commissioner Walter G. Mathewson Is seeking to enforce strictly the semimonthly wage law, which he says is being flagrantly flouted by many corporations, resulting in crews of workers being left stranded while

their pay is illegally held up. He cites the case of a crew of 91 workers in Shasta county, stranded, when \$7,000 in wages was due them: a crew of 25 in Plumas county, with \$2,000 in unpaid wages; 27 workers in Calaveras county with \$3,200 due; 34 men in San Mateo county from whom \$4,000 was withheld in wages; and five men in Sonoma county, waiting for \$1,500.

In all these cases, both civil and criminal actions are being taken by the labor bureau, and the commissioner will ask for jail sentence in the case of several offenders who are "repeaters," having before left their crews stranded.

Struggle for Farm Aid Tears At the Vitals of the Capitalist Parties

By J. LOUIS ENGDAHL.

CHARLES McNARY, Oregon sena-tor, new head of the agricultural committee, has introduced a revised McNary-Haugen agricultural relief bill in the senate. It will be the basis for the most intense struggle in the present session of con-

In the old party political game of "give and take," every effort will be made to log-roll this relief measure, in some form, thru congress. The so-called farm bloc, the republican members of which have deserted their insurgency and accepted favors from the "old guard," must have something tangible to calm the discontent of the agrarian west. The Coolidge-Butler-Mellon regime fears the wrath of the "wide open spaces" that lie to the west of Wall Street, and may agree to a satisfartory compromise.

Already the new McNary measure, successor of the McNary-Haugen bill, appears in congress shorn of many objectionable features.

The much fought over equalization fee, that was opposed by the Southerners, remains, but it is assessed against "each marketed unit" instead of against all producers. Chief opposition came from the South, but a compromise was reached. This was shown at the American Farm Bureau Federation gathering in Chicago, where the Southerners agreed to the equalization, fee if the Northerners would consent to the private operation of the Muscle Shoals project. The horse trade was agreed to. The "tariff yardstick" and the 'fair and reasonable" price standards of the original McNary-Haugen bill have disappeared. The new bill contains no reference to price standards or price levels. It is proposed that there be an appropriation of \$250,000,000 for a revolving fund from which loans may be made to commodity stabilization funds in anticipation of collection of equalization fees. It is urged that loans be also made directly to co-operatives for handling the surplus.

The scope of support sought for the McNary bill is shown by the inclusion of five basic commodities to be benefitted, cotton, wheat, corn, rice and swine. Cattle and butter have been eliminated and rice appears for the first time.

The proposed measure has not yet been introduced in the house of representatives. Representative Haugen, heading the house agricultural committee, says he is looking it the McNary measure in the senate (republican) Indiana, and Representative Fulmer (democratic) South Carolina. Thus the democratic south joins hands with the republicans north in boasted political "non-partisanship."

The tendency of this legislation is to set up an agricultural monopoly or trust. The farmers have looked with jealous eyes on the huge profits taken by industry and commerce, with agriculture being plunged more and more into bankruptcy. The demand is made that agriculture be given the same assistance as industry thru the erection of a high tariff wall that serves two purposes:

(1.) Maintaining the home market exclusively for home grown products at high prices; (2) thus enabling American agriculture to compete more successfully with cheaper products in foreign markets. In this way it is hoped to dispose of the surplus crops.

It was this plan that Andrew Mellon, the secretary of the treasury. who piled up his many millions in the highly protected industries of the Pittsburgh district, declared

WOULD ATTEMPT U.S. BUSINESS

NEW YORK, Dec. 15.— American industrial management methods are to be pushed in Europe by the International Institute of Industrial Management in co-operation with the International Labor Bureau of the league of nations, Harold D. "economically unsound" in its application to agriculture. President Coolidge has accepted this view and fought the original McNary-Haugen bill.

Since then the farmers have been fighting Coolidge. They are fighting him still.

If the farm aid organizations and their supporters in congress cannot get what they want, the question of relief may not be pushed to a decision in this congress. Instead it is expected that the fight will then be carried into the 1928 elections, with farm aid supporters striving to get the republican presidential nomination for some anti-Coolidge candidate. The choice is Frank O. Lowden, the former governor of Illinois, who has invested some of his surplus cash in Illinois corn growing and Arkansas cotton raising.

It is claimed that Lowden will get

the support of the republican west and the democratic south. It is difficult to see just how this is to be effected in a presidential campaign. It was interesting to see the Southern democrats whooping it up, for instance, for the Illinois multi-millionaire republican at the recent meeting of the American Farm Bureau Federation, hailing him as a "savior." This comes at the same time that Southern democrats are promising a break with the Eastern democrats under the leadership of Governor Al Smith and Tammany Hall, throwing in their strength with the democrats of the West, under the tutelage of William G. Mc-Adoo. Of course, the democratic divisions also grow out of the fact that "Al" Smith is wet and Catholic, whereas the South is dry and protestant. "Al' Smith, also, in the words of the late William Jennings Bryan, is charged with being "the creature of Wall Street," the enemy of the agrarian South and West.

The farm problem, therefore, tears at the vitals of the two old parties. There is little said in the farm organiations, supporting the relief legislation now before congress, about independent political action. Here and there the threat of a third party is raised. Careful efforts are made, however, to steer shy of Farmer-Labor unity in the political struggle.

It is significant, however, that in the very week that these so-called politically "non-partisan" farmers' organiations launched their fight for farm relief in congress, also saw the organization of the Progressive Farmers of America at the first national convention held at Minneapolis, Minn. This organization de-

"The producers of wealth and the great combinations of capital have no interests that are identical. The struggle between these two classes will intensify until the toiling masses become organized so that they take over the machinery of production, distribution and exchange to the end that these agencies may be operated in the interest of the many instead of for the benefit of the

It must be taken for granted that any farm relief legislation that goes thru congress, and that is favored by either one of the old parties, or even by some third party split-off, must inevitably be in the interests of the well-to-do farmers, the landlords, the bankers, the railroads and the grain speculators, with no actual relief for the working farmer. The seething struggle over farm aid in congress and within the old parties will convince increasing numbers of those who actually till the soil of this fact. There is a great field of activity therefore awaiting the Progressive Farmers of America and the independent political action that it champions.

House to Pass Bill Anent Alien Property

WASHINGTON, Dec. 14 .- It is expected that the alien property bill will pass the house before the holiday recess. The bill, a complicated one, aims to use 20 per cent of the value of the alien property in the custody of the government to pay part of the claims of American nationals against Germany. Eventually the aliens will be paid in full.

It is estimated that the value of seized property is \$270,000,000, on which \$26,000,000 of interest has accrued. The value of American claims now total \$190,000,000, to which \$40,-000,000 may be added from claims now pending.

HUGE BROPHY **VOTE CAST AT SPRINGFIELD**

Young Miners Boost the "Save the Union" Ticket

(Continued from page 1) is divided as to the motives of Walker's action.

Machine Asleep.

The feature of this election is the determined fight and intelligent activity of the young progressive miners. The machine seems to have been caught napping. Most of the industrious politicians in this election, the lads standing on the staircases, in couples, passing out marked ballots, the personal cards of candidates, or handing out tiny slips of paper with the sub-district candidates' numbers upon them, are progressives.

Young Miner Busy. The walls of the polling places are gay with the red Brophy-Stevenson-Brennan stickers. Hundreds of marked sample national ballots have been circulated during the last few days, mostly by energetic young fellows, for the first time many of them awakening to the fact that they have a stake in the future of the union, and that honest elections and progressive votes guarantee that future. Young Stands Alone.

The only member of the Fishwick-Lewis machine (built by Farrington and inherited by the other two) to appear very prominently on the scene in this election is the notorious "Jower" Young, present member of the district executive board from this sub-district. In the miners' union a board member is a very important here official. He not only acts in the board itself as a court of last resort for cases appealed from subordinate parts of the organization, but is one of the important negotiators deciding "cases" between employers and individual unionists with grievances. "Joker" decisions are favorable to the boss in 90 per cent of his cases.

On election day "Joker" released another decision that didn't look funny to the members here. The progressives had made a strenuous fight to elect honest tellers, and in many cases had succeeded. But the president of Klondyke local read a letter from "Joker" on election day by which he was granted authority to decide what tellers should count each ballot. Then he decreed that all the honest tellers should be concentrated on the sub-district count, while he and his rats counted the district ballots. The result of what most miners here hope. is the "Joker's" last ruling was an angry jangle, in which for hours the tellers and the local officers argued fercely behind closed doors, and the votes remained uncounted. A muttering crowd of rank and filers applanded the declaration of one of tellers that they had enough of "Joker" and his rulings, and would count their no cause for alarm in the message and

Keep Off Challengers. The sub-district constitution permits the candidates to maintain challengers at the polls to see that the sub-district ballot is properly counted In spite of this clause, the officers of Old Citizen local union refused to edmit challengers. It is certain that there is a majority of "Save the Union' votes in this local, but, due to the treachery of a supposedly progressive teller, the machine captured

the entire vote-counting machinery

here, and apparently intends to steal

the election. If they do their vote will

be contested.

The machine is also expected to throw out on technicalities all the favorable locals it can. The Springfield evening paper calmly prognosticates a complete victory for the 'present (machine) officials, state and na-

Filipinos Lose Hope. in Coolidge Aid for Freedom After Message

MANILA, Dec. 15.—Coolidge's message to the U.S. congress dealing with the Philippines is taken here to mean that Coolidge opposes ever giving the Filipinos their freedom. Newspapers here comment caustically on his message, declaring that it is a warning o the islands to not expect anything favorable from the Coolidge adminisration.

The president's reference to the ubber industry in the islands, in Indicate No Further which he urges for development on a larger scale, is seen as forecasting an attempt to wrest the control of rubber from the islands and place it completely in the hands of American capitalists.

Vuyovitch, of the Young Commun ist International attacked the Anglo Russian Trade Union Unity commit tee. He said the committee was prac tically non-existent and was doing nothing; the English members of the committee had betrayed the working class. It has not helped us, he said and has not served as a tribune for us. Contact with the British workers is possible only thru a united front. He said the opposition was right in demanding the dissolution of the Anglo-Russian committee. He energetically opposed Zinoviev's views on the Comintern's attitude towards the left and the right. He point ed out that everything depends on a given set of circumstances in a given period. 26th Session.

At the twenty-sixth session of the WHEN HELL enlarged executive of the Comintern opened on December 13 with Kuusinen's report on the work of the political committee including the amendments. It was declared to be the post plenum task of the presidium to give concrete directions for practical party work. The theses on the international situation and the tasks of the Comintern were adopted unanimously with one abstention. Stalin, met with prolonged and tremendous ovation and the singing of the International, spoke for three and a half hours summing up the debate on the Russian question. The next session will be the last

and will end on the noon of December 15. Reports on the twenty-third and FOR AMERICA other sessions are following.

HELLO, CHILDREN!

Dear Chlidren:

You are reading this because your father or your mother or some of your relatives or friends are readers of The DAILY WORKER. That means that they are workers-and workers that know how to stick together and fight the bosses. Ask them about it!

You are workers' children; so are all of us who are reading this. Although our fathers work hard and produce a lot of things, they are poor; the bosses, who themselves do nothing, pay the workers miserable wages and keep for themselves what the workers make That's why the rich kids are so well off and have so many good things! Don't you think we workers' children ought to stick together and stick by the grownup workers and help them fight the bosses? Ask your father or mother about it!

The first thing to do is to get to know each other. And so The DAILY WORKER is giving you this space every week to print letters and stories sent in by YOU. Write us about things that interest yes. Write us how rich and poor people live-especially the children. Write us about your school. Write us stories, puzzles, jokes, everything! Send us in drawings and pictures! Come on-this section is YOURS! What are you going to do with it?

"Merry Christmas—the season of good cheer, joy, and happiness!"
That's what we hear everywhere these days—in school, in church, know. For the RICH CHILDREN for whom Christmas means a happy in the newspapers.

"MERRY CHRISTMAS"-FOR WHOM? That's what we'd like to know. For the RICH children for whom Christmas is a holiday, a fine time, good foods, lots of fun, and many splendid presents; or for the POOR CHILDREN for whom Christmas means a few days, when instead of going to school, they have to go to work in the factories, shops, and department stores because of the Christmas rush?

For whom is Christmas a season of "good cheer, happiness, and joy?" For the RICH CHILDREN in nice warm houses receiving lots of beautiful presents; or for the POOR CHILDREN, cold, hungry, and lucky if they've got something to eat?

Or NEW YEAR'S! For whom is New Year's a time of happiness and joy? For the RICH CHILDREN for whom the New Year means a new year of gladness and good things; or for the POOR CHILDREN for whom the New Year means another year of poverty, hunger and hard

WORKERS DON'T STICK TO BAD JOBS TURN-OVER FIGURES SHOW

By LELAND OLDS, Federated Press. I constitute a severe arraignment of working conditions in the south tend When President Magnus W. Alexanto saddle its textile mills with excessive and expensive labor turnover. This is shown in a U.S. department of labor bulletin on lost time and labor turnover in 18 cotton mills. According to the bulletin, the turnover rate in nine southern mills averaged 189.5 per cent, or twice the 94.9 per cent

average of nine mills in the north. The labor turnover rate shows the number of new workers a mill must hire in a year to keep up its regular working force. A 100 per cent turnover means that workers are leaving the job so rapidly that the mill must hire 1,000 new workers a year for each 1,000 employed; that is, must replace the equivalent of the entire ody of workers.

Costs Money.

The constant breaking in of new workers costs money-estimated by experts to range from \$15 to \$300 per includes not only the direct cost of also the indirect costs, since workers ploying 1,000 operatives might well cost more than \$25,000.

The report shows that mills working 54 hours or less per week had a

Figures like those for the southern mills, running up to where one of the mills had to hire nearly four workers for every one it wanted to keep on the payroll, indicate inexcusable working conditions.

ZAUSNER FAILS TO DEFEND SELF

Gangsters Try to Break Up Union Meeting

By a Worker Correspondent.

NEW YORK, Dec. 15 .- Stilk bombs were used by gangsters an effort to break up a meeting of 1200 union painters, who had assembled at Park Palace, 3 W. 119 street, to listen to a debate between Local Union No. 905 of the Brotherhood of Painters and Phillip Zausner, secretary of District Council No. 9 of New York. Charges of a \$30,000 embrzzlement of the treasury of the District Council No. 9 and misconduct of office, which has been placed by Local Union No. 965 against the officers of the district council were to be debated.

Zauzner, spokesman of the accused gang, failed to appear, and did not send anyone else to debate the sub-

The meeting was then turned over to the spokesmen of the local and other members of the brotherhood interested in the prosecution. The chairman, Brother Wahl, of L. U. 261 stated that the meeting had been called for the purpose discussing the aflairs of the district council openly, since his was not possible at the delegate meeting of the D. C. He informed the audience that Zausner had been challenged by the prosecuting committee to defend himself of the charges, but that, since the accused had not come, he would call on other speakers to tell what they knew of the affair.

Tells of Discovery.

Brother Kosloff, a delegate to the council, was the first speaker. He stated that six months ago he discovered that the payments of initiation fees were not recorded properly, which led him, together with others, to engage a public accountant and have the books of District Council No. 9 audited. The audit showed deficit of \$30,000 in the treasury of the council, which could not be explained. He said that the prosecution was not a personal matter but that it is imperative and necessary for the good of the organization to re move men from office who deliberately wreck its treasury.

Deplores Situation. Thomas Wright deployed the fact that a union should have to spend its energy in an internal fight, when all its vitality is needed against the bosses, but stated that a union cannot continue when its policy and finances are controlled by men of Zausner's

George R. Brodsky, attorney for the prosecution, reviewed the whole case and assured the membership that he would not rest until Zausner & Co. have given a complete account of the missing funds, or failing in that, until they are "Up River."

Would Break up Meeting.

During the three hours of discussion, several efforts were made by Naval Rule in Samoa the Zausner gangsters to break up the meeting, and it was during one of these disturbances that a stink bomb was thrown. For a while it seemed as if, to avoid suffocation, the meeting would have to be called off. However, the entire windows were opened permitting the fresh air to en-

Before adjourning, a resolution was read by the chairman condemning Zausner for not appearing for the debate, and taking this policy as a sure indication of his guilt, the resolution urges every union painter in New York to use all of its influence to remove Zausner from office.

Letters from Our Readers

Dear Comrades: I want to thank you for writing me copy of a letter sent you by Howard F. Hughes, of Hillsboro, Oregon.

Mr. Hughes reminds me of the city man who goes out in the country to hunt rabbits-he shoots at the wiggling grass before seeing the game, or finding out whether there is a rabbit behind the screen.

My article on "The Marooned Farmers," was not half as bad as it could be. I did not tell near all of the things I know about taxes and high cost of farming and low receipts for crops.

The story was written about conditions in Washington-not Oregonand the figures given were quoted from statements made by reliable men, who had carefully examined the records, before making the statements.

Some of the most exorbitant charges against the people of the state of Washington are taxes. In one valley, it is stated the farmers pay \$16 to \$18 an acre taxes. These conditions are in Washington-not Oregon-and the article in question did not mention Oregon.

Again thanking you, I am Fraternally yours,

Joel Shomaker.

EXTRA! COMPANY UNION OBTAINS HOUR DECREASE

But It's for Employes Working 50 Years

By a Worker Correspondent. NEW YORK, Dec. 15. - The West ern Union company union has announced a reduction of an hour a day obtained by workers employed by the telegraph company for fifty years or more. Only five workers out of 7,000 are affected by this new plan.

The company union was organized to replace the telegraphers' union smashed after an unsuccessful fight

The company grants little insignifi cant privileges to the workers thru the "union" in order to boost it.

In one of the recent bulletins issued by the company union, the workers are told in wonderful words of the special privileges obtained for the workers employed 50 years or more. It states: "We made it understood by the company that this reduction in hours for these workers will be without additional expense to the com pany." The company agreed to it, but remarked that this will be granted on individual merit only, and will not be a general rule.

U. S. NAVAL STATION, TUTUILA, American Samoa, Dec. 15 .- The present naval government here is strongly opposed to Senator Lenroot's intention to introduce a bill substituting a civil government and establishing a United States district court in the islands. Former Governor Edwin D. T. Pollock wrote the secretary of the navy that 90 per cent of the natives are satisfied with the present arrangement.

Back in 1921 Capt. Waldo Evans reported to the navy department in favor of naval rule, and proved his sincerity by then accepting the governorship.

At the native congress last month the present governor, Henry F. Brown, told the chiefs that a civil government would cost them more than he was sure they would care to pay, while the present administration was free. No one seems to inquire as to what the chiefs and the people really

With Frazier making his "peace" with the regular G. O. P., and with other insurgents moving in the same direction, the insurgent bloc in the senate is now rapidly diminishing.

Pension Money Paid to War Widows Grows Less, Report Shows

WASHINGTON, Dec. 15 .- (FP)-War veterans and their widows drew \$9.306.364 less in federal pensions during the past fiscal year than in the year ending June 30, 1925, says the annual report of the comissioner of pensions. The past showed a reduction of 19,776 in the number of Civil war pensioneers, and 14,543 in number of Civil war widow pensioneers. But the number of Spanish war veterans on the pension roll increased 20,480, and the number of Spanish war widows increased 2,448. The net reduction was 10,814.

Since the first pension was granted an American war veteran in 1790, a total of \$7,261,346,359 has been paid out on this account, of which the Revolutionary war cost only \$70,000,000.

The Manager's Corner

Proletarian Initiative.

One of the severest indictments of the capitalist system is the fact that it tends to stifle all initiative among the workers. The monotony of the repetitive processes of industry make for the stultification of new ideas. The inhuman exploitation and misery which are part of the capitalist system are also powerful obstacles to the growth of ideas among the workers. Society is thus robbed of the benefit of the thought of a large part of its constituents which should tend toward its betterment.

But fortunately the very oppression under which the workers groun acts as a stimulant to the more advanced elements to concentrate their efforts and their thinking upon the ways and means of ridding society of the capitalist menace. And the greater this oppression the greater the exploitation, the more virile and active these minds become, especially if they hit upon an outlet for their activity. The DAILY WORKER and the Communist movement in general offers just that happy combination which the more intelligent and militant worker is seekinga way out of the present exploitation and a field for the development of new ideas and proletarian initiative.

The promotion of The DAILY WORKER and the distribution of Communist literature has afforded an excellent channel for the display of proletarian initiative. Examples come to us from various fields of industry almost daily. We shall publish in this column from time to time the experiences of our field agents, the schemes they have devised, and the methods they have used to spread The DAILY WORKER and Communist literature to the workers. In fact the progress of our work depends to a large extent upon the contribution of ideas from our supporters in all parts of the country. We urge the sending in of suggestions and ideas from our army of supporters.

This is made clear by a dispatch from the home of John L. Lewis and the headquarters of District 12-Springfield, Illinois. The dispatch states that the results of the district election will not be known for six weeks and that it cannot be stated when the results of the election in the international union will be made public.

This means that the Lewis machine will claim election by an overwhelming majority from now until the convention of the U. M. W. of A. next February, altho it is well known that Lewis has been defeated by actual ballots cast in every election since he took office.

The New Drive on Militant Trade Unionism

ARTICLE I.

By WILLIAM F. DUNNE.

A SERIES of recent events indicate in an unmistakable manner that new systématic and well-organized offensive against the left wing in the rade unions has been launched.

The tone of the capitalist press, the socialist press and the official trade mion press leaves no doubt as to the ntentions of the forces for which they peak. All are united in asserting that the Communist menace" in the trade mions must be destroyed. In the tone of these articles there is nothing new but in their volume and intensity there is evidence of a method, mutual understanding and termination that shows this campaign to be of sufficient movement between the "worker-emoloyer co-operation" policy and the olicy of class struggle.

THIS is not to say that all the ele-I ments which support one side or he other are fully conscious of the colicy to which they give allegiance. The contrary is true and in general t may be stated that only conscious reactionaries of the type of Lewis (United Mine Workers), Woll (vicepresident of the American Federation of Labor), Sigman (International

Ladies' Garment Workers), understand the full implications of the right wing position, and only the Communrealize that the struggle is actually one for the maintenance of the trade

Introduction.

THE purpose of these articles is to show by documentary evidence, whose authenticity no one can impugn, that the campaign against al! progressive tendencies in the labor movement which was launched at the A. F. of L. convention in 1923 has entered a new phase in which there is a more open combination than ever before of the trade union officialdom, the capitalist press, the employers and the government.

It will also be shown that the main motives which prompt the intensified attack, centering first on the Communists and second on the left wing, are (1) the desire of the capitalists to suppress all struggles which interfere with the development of American imperialist prosperity and either destroy the trade unions or force them to a general dead level of docility, (2) the desire of the trade union officialdom to force on the unions a policy which will make of them the docile organizations which the capitalists will accept. (3) the desire of both the capitalists and their labor agents to drive the Communists out of the unions and destroy their influence in the labor movement because they are the most conscious and best organized exponents of fighting unionism who are trying to rally all workers for struggle on a program of immediate and necessary demands.

Finally, these articles will show that the policy of the trade union officialdom, of which the latest attack on the left wing is a logical result, is based on one phase, and one phase alone, of American capitalist development, i. e. its present temporary upward swing, and that because of this neglect of other fundamental factors, can bring nothing but disaster to the labor movement.

The more "successful" this policy is, i. e. the more endorsement it receives from the masses now, the more disastrous will be the ultimate result. The Communists and the organized left wing therefore are fighting the battle of the whole working class when they resist to the utmost the new offensive of the combined forces of American capitalism which, in the period of imperialism, include with some minor exceptions the whole bloc of trade union officialdom.

It restill remains true that the greatest cites a number of alleged Communist weakneses of the union was the misdeeds and states that the Furriers and Cloakmakers' unions in New York have Communist leadership.

The time has come when the preservation of the trade unions demands the expulsion of these elements from offices and control.

The unions must remain free from outside domination and from the interference of all political parties! Individually every worker may follow any religious or political creed, but the unions must remain independent of all.

We therefore call for war upon Communist disruption. We call for all workers in all unions to unite against the internal enemy, the disrupter, who is destroying the unions for the benefit of the external enemy, the capitalist. It is a common fight for all workers who believe that their protection lies in

the preservation of their unions. The division between the Communist adventurers and the trade union movement shall be definitely established! There shall be nothing common between these irresponsible elements and the trade unions. The labor movement shall lend no to any undertaking which, directly or indirectly, shall include the Communists. It shall be war to their finish. Down with Communism! Long live the trade

and savs:

What has happened since the beginning of the cloakmakers' strike and what is happening in the Cloakmakers' Union now is but the inevitable outcome of the way in which the Communist Party plays trade union politics. It is the inevitable outcome of the initial sacrifice of industrial policy to politics.

"Justice" says:

members, stunned by the terrific blow they have received as a result of the outcome of the cloak strike in New York, and boiling with indignation over the terrible mismanagement of the strike by its Communist leaders and directors, are searching for an answer to this calamity which has befallen their organization and are seeking light and guidance that would lead them out of the morass into which the political adventurers have dragged

The searching analysis contained in the G. E. B.'s statement supplies this light abundantly. It lifts the curtain over the New York cloakmakers' tragedy and exposes mercilessly the hypocrisy, insincerity and blatant incompetence which its principal actors, the Communist camarilla, have displayed from the first day they became the masters of the destiny of the 35,000 cloakmakers involved in it.

THE stage having been set for an attack all along the line it needed only some rank and file camouflage to allow the officialdom to appear as saviors of the union. A farcical "investigation" was held by the General Executive Board of the L. L. G. W., the poard then met in solemn session and passed a resolution ordering the reguarly elected members of the Joint Board strike committee to surrender their positions and turn over all books and property to the G. E. B. Local union executive committees were removed from office and all posiions filled by appointment by the G E. B.

But the new offensive of reaction is not confined to New York or to the needle trades and its official press. It was planned as a nation-wide movement and it is developing rapidly in

She put her arms about him, but he hardly knew she was there, so cruelly was his spirit wrung by the vision of Paul in Jail. And he, Bunny, running away from the trouble, loafing about and pretend ing it was a "vacation." He that thought he understood the social problem, and had an ideal, at least a glimpse of what was kind and fair. He broke loose from Vee's arms and began to pace the floor, storming, half at himself for a renegade, and half at the dirty crooks that ran the government of San Elido county, and stole the funds that were supposed to keep the iail clean and feed the prisoners. Bunny was twisting his hands together in his misery, and Vee watched him; startled; it was a new aspect of her Bunny-rabbit, that she had thought so sweet and soft and

"Listen, dear!" she broke in, suddenly. "Stop a minute and talk to me quietly. You know, Ldon't know much about these things."

"What is it?"

"How can you be sure that Paul hasn't broken any law?"

"Because I know him. I know all his ideas. I've talked the thing out with him from A to Z-all about this strike, and how it's to be handled, the importance of getting the men to stand as a unit, how everything else must be subordinated to that. That's what he's been doing, and that's why Verne has thrown him into jail.'

"You're quite sure Verne has done

"Of course-he and the rest of the operators' committee. What are those officials in San Elido but office-boys for the oil men? Before Verne came in there Dad ran that county. I've seen him pay the money with my own eyes, and more times than one.'

"And you don't think they may have evidence that Paul has been conniving at violence?"

"I don't know what evidence they've got. Verne as good as told me he had spies on that bunch, and I don't know what those spies may have planted-and neither does Verne know, for that matter. That's one of the damnable things about it. Another is-you see that charge, 'suspicion of criminal syndicalism? What they call 'criminal syndicalism' means that you advocate overthrowing the government; but you notice they don't arrest you for that -they arrest you for 'suspicion' of it! In other words, you advocate some idea that some ignorant cop or some crook in office chooses to think may be dangerous, and then they throw you into jail, and there you stay-the courts are crowded, and they can keep you a year with-

out trial or any change at all." "Oh, surely they can't do that Bunny!"

"They're doing it right along. I know fellows it's been done to. They put the bail high on purpose, so that workingmen can't get it. And they think they're going to do it to Paul Watkins, the best boy friend I ever had, the straightest fellow I ever knew-yes, by God, and he went to Siberia and served in that war, and came out sick-that boy was as tough as a hickorynut before that, a country fellow, simple and straight, and with no vices. And this is the reward he gets for his services to his country-by Jeeng I'd like to see them get me to fight for a country like that!"

Bunny had to dash a tear out of

his eyes, and he began to pace the

floor again, and stumbled against a chair. Vee put her arms about him and whispered, "Listen, dear, I know some people that have got money, and I may be able to help you. Leave it to me for a few hours, and don't say anything to Dad about it-what's the use of worrying him to no purpose? If I can arrange it, he'll be able to tell Verne that he knew nothing about it. and that'll be so much better all round? She went off, and a couple of hours later came back. Bunny was to wire Ruth that neither he nor his father could do anything, but a friend had taken an interest in the case, and the money had been deposited with the American Bonding Company, and their office in Angel City would obtain Paul's release. Bunny said, "How did you do it?" and she answered, "The less you know about it the better. I know somebody that owns some real estate in Angel City, and has a salary coming to them, and employers that are anxious to keep them happy and contented." Bunny said it must have cost a good deal, and he ought to pay it back, and Vee said, "Yes, it cost a pile, and you're going to pay in love and affection, and you can start right now." She flew to his arms, and he covered her with kisses, and it was like an orchestra that went surging up in their hearts. It is an extremely unsettling thing to have a whole orchestra inside
