The above figures once more indicate the measure of the support which has been given to the Keep The DAILY WORKER campaign by the party members in the various districts and the party as a whole.

The Keap The DAILY WORKER campaign was built upon the basic proposition that each party member either contribute \$5.00 or raise \$5.00 thru sale of the Keep The DAILY WORKER certificates.

The Buffalo and Detroit districts show over \$5.00 per member raised to Keen The DAILY WORKER.

Against this we have the fact that in the New Haven, Seattle and Boston tulated to organized might. districts not even one out of every three party members have raised \$5.00 to Kwen The DAILY WORKER.

Kansas City and the Agricultural Districts are running close to \$5.00 per three members to raise the same amount of money that one has raised in

Cleveland, Minneapolis and San Francisco have members who compared those in Buffalo and Detroit are able to do half the amount of work. to those in Buffalo and Detroit are able to do half the amount of work.

Have we one-third, two-fifth, one-half members in relation to their support of the fight to Keep The DAILY WORKER?

We urge the members in those districts which have lagged behind in the struggle for The DAILY WORKER to redeem their record. Their failure to support The DAILY WORKER is keeping our paper in danger, instead of creating a situation which would enable us to Keep The DAMLY WORKER as the organ of the revolutionary movement in the United States.

The DAILY WORKER will not be safe unless we complete the \$50,000 fund. It is the work of the members in those districts which make such a Objectives Attained in disgraceful showing in the above table to give the support that will achieve this end.

We must continue to put the full strength of the party behind the The DAILY WORKER campaign until the \$50,000 fund is completed.

A HALF-WAY JOB WILL NOT KEEP THE DAILY WORKER. WE MUST COMPLETE THE JOB BY RAISING THE BALANCE OF THE \$50,000 FUND.

#### Weisbord Hails Victory of Passaic Textile Strikers; Urges Workers to Fight on for 100 Per Cent Union

The following statement by Albert Weisbord, initiator and leader of the Passaic strike, was addressed to the textile workers of Passaic, N. J., whose long strike is more than half won with the capitulation of the largest mill in the textile region of New

The workers of Passaic have just won a wonderful victory. The latest settlement with the Botany Mills Consolidated Co., employing close to 6.000 workers is a cause for celebration everywhere. Fighting against tremendous odds, against an enemy with agents both inside and outside the trade unions, the workers have displayed a solidarity and unity that had to win.

## Congress Asked for Sacco-Vanzetti Inquiry

(Special to The Daily Worker)

WASHINGTON, Dec. 19.-Investigation of charges that department of justice agents and "certain state officials" in Massachusetts conspired to secure false evidence in the famous Sacco-Vanzetti case, was asked in a resolution introduced in the house yesterday by Representative Sabath, democrat of Illinois. Sabath requested that Speaker Longworth be directed to name a committee of five to make the inquiry.

This action follows upon a campaign conducted by the Sacco-Vanzetti Defense Committee and The DAILY WORKER in circularizing members of congress demanding a federal investigation of the department of justice's role in the famous case.

The DAILY WORKER sent letters to all congressmen enclosing the resolution passed by the huge Madison Square Garden meeting in New York a month ago, which was followed by a similar protest in Chicago and other large centers. This resolution, condemning the conduct of trial Judge Thayer and asking a congressional inquiry, was accompanied by a copy of the resolution passed on the Sacco-Vanzetti case by the

Detroit convention of the American Federation of Labor.

At the same time the defense committee sent to every member of congress copies of the affidavits made by ex-department of justice agents showing conclusively that that agency of the government had really originated the case and had been the motivating force in the frame-up In the Massachusetts state that resulted in the passing or the death sentence upon the two Italian workers.

The evidence presented by the defense and contained in affidavits of department agents shows that the department of justice is intimately involved in every phase of the case from the ghastly death of Andrea Salsedo in New York to the gathering of false evidence on the Braintree robbery and murder which resulted in the death penalty.

Another important angle of the case which the defense wants looked Into is the reason why the department of justice, under instructions of Attorney General Sargent, in Washington refused to open its files to the defense when they wished to present evidence to show the department's activities in the case.

## Victory Nearer In Passaic As New Mill Falls

(Special to The Daily Worker)

PASSAIC, N. J., Dec. 19.—Yet another victory of the Passaic strikers brings nearer the final triumph of unionism in the New Jersey textile industry. The victories so far won mean that half of the 15,000 striking workers have won their battle now nearing the eleventh month. The enthusiasm among the strikers never ran higher. But the relief committee is still stressing the necessity for outside support to assist the remaining strikers until the final victory.

#### N. Y. WORKERS PARTY AIDS THE STRIKE RELIEF OF PAPER BOX MAKERS

The paper box makers are now out for ten weeks. They are struggling for union standards in the industry. They are most bitterly exploited and brutally oppressed. More than half are young girls receiving miserable wages and most inhuman treatment.

The Workers Party has been assisting the struggles, but now more than ever these workers must be assisted by relief so that they may be able to conduct their struggle to victory. The union, in co-operation with other workers' organizations, is carrying on a drive lasting until December 24. The party calls upon all members and all sympathizers to spare no efforts to give all assistance by personally participating in this drive, so as to make it successful and to bring rellef speedily to the striking paper box makers. No member of the party will hesitate one moment to give the utmost help.

## Labor Reaction Gets Its Answer

Eighteen thousand New York needle trades workers, meeting in Madison Square Garden Saturday afternoon, gave the answer of the rank and file to the strikebreaking tactics of the Sigman machine.

One clause of the resolution adopted at this gigantic meeting without dissenting votes speaks for itself:

"BE IT THEREFORE RESOLVED, that we, the cloak and dressmakers of New York, express our deepest condemnation of the pogrom tactics of Sigman; hereby declare we will not permit ourselves to be terrorized and will not recognize any other officials except those we have legally elected; we view all these machinations as a new and criminal conspiracy against our organization; we condemn Sigman's treacherous action against our strike, against our strike committee, against our Joint Board, against our legally elected Executive Boards, and against our whole union; we demand that these pogrom heroes immediately take their hands off our union and that Sigman, the arch conspirator, immediately resign from his position as President of our International.

This, in the words of the current popular phrase, is "telling it to them."

But it was not only to reaction in the International Ladies' Garment Workers' Union that the Madison Square meeting spoke in emphatic tones—in tones that could be heard and were heard in the dark corridors of the labor movement where the Beckermans, the Greens, the Wolls and the Lewises conspire against militant trade unionism.

The Madison Square meeting spoke to all the leaders of reaction in the labor movement and the echoes of its thunderous reply will still be resounding thruout the New York labor movement when the self-styled "Committee for the Preservation of the Trade Unions" meets on Dec. 21.

This meeting was held after the right wing leadership had sent circulars denouncing the New York Joint Board to every member of the union and after the needle trade journals controlled by the right wing have been carrying on a campaign of slander and intimidation against the left wing leadership with the Jewish Daily Forward and the capitalist press leading the chorus.

The right wing has tried to make the issue "Communism versus Trade Unionism."

They have succeeded beyond their wildest expectations because the masses of cloakmakers have correctly understood the slogan of the right wing as "crooked trade union leadership versus fighting Communist and left wing leader-

The right wing took the issue out of the union and called upon "the community at large" for support of its strikebreaking activities and the Madison Square meeting has given the proper answer to this brazen appeal to the enemies of the labor movement.

The New York cloakmakers are fighting the battle of the whole labor movement. The issue is the clear cut one of worker-employer co-operation plus expulsion of the most loyal fighters for the unions with the inevitable wrecking of the labor movement, versus militant unionism and the right of all workers, irrespective of their political beliefs, to membership and active participation in the trade unions.

These are fundamental issues. The New York needle trades workers will not be left to wage the struggle alone. To their aid will rally every workingman and woman in the American labor movement who wants it to be free from capitalist control.

The resolution adopted by the great mass meeting in Madison Square Garden was, in part, as fol-

We, the cloak and dressmakers of New York, at a protest demonstration held in the New Madison Square Garden Saturday, December 18, 1926, adopt the following reso-

Whereas, the present policy of Sigman and his machine, in usurping control of our union and instituting a program against our Joint Board, our locals, our strike committee and our legally-elected representatives, is nothing else but a treacherous conspiracy to break our organization.

Whereas, during the six months of the strike, when tens of thousands of cloakmakers were engaged in bitter struggle, when we were beaten down on the picket line. when we were thrown into jail. when we were prepared to further stand firmly united to bring our struggle to a successful end, Sigman and Company were secretly mapping out plans to prevent a successful outcome of our bitter com-

Whereas, the fake lockout of the sub-manufacturers was nothing but a maneuver on the part of Sigman, in agreement with the bosses, to terrorize the cloakmakers, break their solidarity, paralyze their morale, to take advantage of the resulting chaos to blame our trustworthy leaders and force upon us a corrupt leadership despised by the majority of our membership. Therefore be it, Resolved, that we, 'the cloak and dressmakers of New York, express our deepest condemnation of these program tactics of Sigman; hereby declare that we will not permit ourselves to be terrorized and will not recognize any other officials except those whom we have legally elected; view all these machinations of Sigman as a new and criminal conspiracy against our organization; we condemn Sigman's treacherous action against our strike, against our strike committee, against our Joint Board, against our legallyelected executive boards, and against our whole union: we demand that these pogrom heroes immediately take their hands off our union and that Sigman, the arch conspirator, immediately resign from his position as president of our international.

We declare that we will continue to support our legally-elected representatives, we will help raise the financial means to save our organization, we will close our ranks behind our union to protect it against all attacks, from enemies within and without, we will drive out all fascisti elements and carry on the struggle until we have completely eliminated from our ranks those who have for years disrupted our union, and we will convert our union into a powerful instrument to serve the interest of the great mass of cleak and dressmakers.

(Continued from page 1.) dred left wingers stood up to see if they could see the right winger but immediately sat down without precip itating a disturbance.

Hyman in his speech announced that he would ask the strikers to return to work on whatever terms were decided upon between Sigman and the sub-manufacturers. This, however, was not to be the end of the battle he said. The business agents and representatives of the international would not be recognized by the cloakmak ers, the joint board and the locals would not be turned over to the international, and the right wing element would be fought to a finish after the workers had returned to the shops.

Vigilance Needed.

Vigilance and cunning on the part of the left wing leadership alone prevented the disruption of the meeting as planned by the Sigman machine. Four meetings were held by the Sigman forces and a large passes of hired gangsters at the Rand School, Bee thoven Hall, Arlington Hall and Byrant Hall, Saturday morning where elaborate plans to break up the mass demonstration were laid.

Union cards from the Amalgamated and take strikers' cards were passed out to the gangster element to make it easier for them to get into the garden. Whistles were distributed which were to be used to bring chaos to the demonstration. According to the plans the hoodlums were to break loose and throw the meeting into disorder when Hyman commenced his address.

He got his picture in the papers to show he was a fighting president of the international. He didn't say anything about the strike being unconstitutional, then. Why did he permit the strike's continuance all these months?

Framed Lockout.

"But recently he has said it was necessary for him to step in and take control of the strike in order to get the employers to withdraw their lockout. There never was a lockout. It was a paper lockout only and it was framed up purposely to give Sigman a chance to say an emergency existed so that he could seize control of the

joint board and the locals. "But the agreement which Sigman and his forces will get from the employers will look good on paper. It will be worded so that it will look like a victory for the workers. But actually it will not work out that way. Representatives of the employ ers came to me and made the same proposition. They said they knew would be attacked if I signed an agreement which looked like a defeat For that reason they would be willing to sign any agreement so long as they could have a private understanding that the full terms of the agreemen were not carried out. This is the kind of agreement Sigman will get.

Strike Over. "Now as far as we are concerned the strike is over. We will order the strikers back to work on the terms of the agreement which is obtained from the impartial board. But the cloak nize only the representatives which you yourselves have elected."

## EARLY RETURNS

#### Lewis Reports Prepare for Election Steal

SPRINGFIELD, III .- John L. Lewis is worried about this election in the miners' union. For three days after election day (last Tuesday) the international president of the United Mine Workers of America hung around the C. & A. depot at train time in the morning, anxiously assuring miners going out to work that he had won.

"Brophy was beat in his own district." said Lewis in these impromptu. post-election speeches. "I have won the anthracite solid, and I am re-

The reports issued from international headquarters in Indianapolis to the press, and the reports emanating from the district office in Springfield are all to the same effect. There is a tendency to hand out special information to the anthracite that District 12 s for Lewis, and to inform District 12 (Illinois) that the anthracite (Pennsylvania) is for Lewis. No one in Dis trict 12 dares to say that District 12 is for Lewis. But general and sweep ing claims of widespread Lewis enthusiasm, locality vaguely indicated, are filling the papers. Along with this goes a statement that official returns may be delayed for weeks or months.

Preparing to Fake Vote.

Miners recognize this as the pre iminary to a collossal election steal, to be put across by failing to count the ballots until after the convention has adjourned, and then issuing a mere statement that Lewis has been elected by such and such majority, no returns by locals being printed. The constitution provides for the returns by locals to be sent to all locals by January 10, but Lewis ignored this provision when he stole the election from Voyzey two years

The returns by locals are being collected as rapidly as possible and will be printed in The DAILY WORKER, and in The Coal Miner, the "Save the Union" paper in this city. They do not support Lewis' claims.

## American Labor Must Be MINERS OPPOSE OF MINERS' VOTE Better Informed About ALL FOR BROPHY the Revolution in China

By J. LOUIS ENGDAHL.

 $I_{\rm WORKER~publishes~the~first}^{\rm N~today's~issue~The~DAILY}$ news story direct from the information department of the bureau of foreign affairs of the Canton (National Revolutionary) government of China. This is significant.

It is an indication that the Canton government realizes the necessity of developing contacts with the workers of other countries, especially the American working class. The DAILY WORKER greets this developing bond of unity between the Chinese revolutionary masses and the working class of the United States and pledges itself- to do everything possible to promote this growing solidarity of oriental and occidental toil.

The Chinese nationalist revolution combats the blockade of the imperialist powers in many respects, just as the Bolshevik revolution in Russia was forced to tear its way, and still must, thru the cordons of the capitalist enemies to the west. The Soviet Union has been successful in progressively breaking down the food, financial, news and other blockades imposed upon her. China is doing the same.

Canton, formerly the capital city of the Chinese revolutionary government (now removed to Wuchang), has no direct cable cor munication with the world. Cable connections are made at Hong Kong, which is still held in the fist of the British empire.

Canton is inland and has established its own seaport at Whampoa, which is gradually taking all shipping away from the British port. Canton is also building its own wireless station, hoping soon to hurl its news and its views to the world in spite of the British censorship.

But the censorship does not exist at Hong Kong alone. There is a censership and a perversion of all Chinese news in every capitalist editorial office on the globe. Just as the state department, headed by "Nervous Nellie" Kellogg at Washington, acts as the press agent of Wall Street against Mexico, Gautemala and other countries of Central and South America, so it acts as the propaganda medium of American imperialism against the Far East. It is still propaganda that is fed to the American capitalist press as real "news" by the various dollarcontrolled news distributing agencids, especially the Associated Press.

The Chinese national revolution

upon the American labor press, especially upon its Communist and left wing sections.

Publicity material, by mail and cable, should be poured into the United States and sent to the whole of the world press, telling of the struggle of the Chinese worker masses thus far, interpreting the meaning of this struggle not only for China, but also for the working class of this and all countries. It must point out the goal toward which the struggle is heading. It must be made clear why, in the words of the Kuomintang (Chinese People's Party) spokesman at the plenum of the executive of the Communist International at Moscow, "the Chinese revolution is but a part of the world social revolution."

The American Federation of Labor has gone on record as sympathetic with the struggle of the Chinese people. This is merely a gesture, however. The last Detroit convention of the A. F. of L. had nothing to say about the most recent developments in China, no word of encouragement for the Canton government, no sign of solidarity with the nationalist revolution that has developed its greatest impetus during the last two years.

The labor press must be utilized to the utmost to win the masses of workers for pressure upon the labor officialdom to break with the imperialist diplomats at Washington and develop labor's own program toward the struggle in the orient.

Chinese workers in the United States can help. They cannot rely exclusively upon the few Chinese dailies and weeklies established in this country at San Francisco, Chicago, New York City and other centers. These publications are read, of course, exclusively by the Chinese, who are probably isolated from the general population more than the workers of any other race or nationality.

Chinese workers here must develop their struggle as a part of the American working class. They must move closer to all other workers. This can be done in part by drawing the attention of labor here to the growing struggle in China and the common effort that must be waged by American and Chinese workers against the forces of all imperialism. China's revolutionary government can help by pouring its publicity into the United States, with its special appeal to the American working class. The Kuomintang organization in this country should place this effort high on its must therefore place its reliance program of major activities.

There are some who do not feel the uplift of Coolidge prosperity.

The Salvation Army came to the rescue of a family of six in this city whose destitute condition was revealed when one of the children collapsed in school from hunger. #### U. S. Won't Relinquish Claims on Germany, Is Statement of Coolidge

WASHINGTON, Dec. 19-Germany will be forced to pay all of the American claims upon her, and there is nothing in the Paris agreement that caused the United States to relinquish or lighten those claims, President Coolidge advises the senate. Coolidge's statement was made in response to a resolution by Senator King asking the state department for the provisions of the Paris agreement and how it affects American claims.

Coolidge said that the United States agreed to accept annual installments of \$11,000,000 for American national's claims and \$12,000,000 for occupation of Germany by American troops, but this in no way releases Germany from complete payment.

He also declared that the government would not underwrite claims, of American nationals on Germany.

## **MOVE FOR COAL CONTROL LAWS**

#### Bound to Be Against the Workers, Is View

WASHINGTON, Dec. 19. - Van I. Pittner, leader of the union miners of northern West Virginia, has notified Secretary of Labor Davis that the miners are opposed to any coal regulation. The Monongahela Coal Operators' Association takes the same position in behalf of the owners.

The opposition of the mine workers is predicted on the assumption which they are believed to have learned from experience, that such intervention would be in a form most likely to aid the mine owners.

Will Try to Mop Up.

The basis for the mine owners' opposition to the proposal is the optimism that the mine owners' spokesmen profess to have that should a strike ensue in the bituminous fields the strikers will find themselves at a greater disadvantage this year than they have been in many years. That is the reason they give. Another reason, but which they do not give officially, is to be found in the successful era of profiteering which a strike

will make possible. What may be the first step in an organized campaign to set the public against the mine workers and to create a spirit of hopelessness in the ranks of the miners was taken today when published accounts, evidently inspired by the mine owners' lobby, appeared in the administration paper purporting to show that in the event of a strike the mine workers' union would cease to function.

#### Forecasts Miami.

It is claimed in these news stories that when the leaders of the two groups meet in Miami on February 12 to negotiate a new agreement in place of the Jacksonville agreement, which expires on April 1, the situation will be different from what it was when the present agreement was entered into three years ago. At that time the majority of the soft coal mines were union operated. Today, it is claimed, the percentage is almost exactly reversed and non-union operation is employed in 65 per cent of the fields where production is in any sense continuous.

Under such circumstances, it is stated, the leaders of the United Mine Workers will be "reasonable" in their demands. A desire to continue the present agreement is all that the workers will express. Another element said to fayor the mine owners is the working agreement which the operators in the central competitive field have made, enabling them to present a united front in any of the differences that may arise at the conference table.

## ANDRE PASCHUK, POLISH M. P., IS ON TOUR OF U.S.

#### Tells Daily Worker of Polish Crisis

Andre Paschuk, member of the Polish parliament from Volhynia and ment of the Ukrainians in Poland, same to The DAILY WORKER office ing class international. on Friday to pay his respects to the "only revolutionary working class paper in English in the United States," as he put it thru his interpreter.

Paschuk is just completing a threemonths' tour of the United States on behalf of the amnesty movement in Poland for the release of the 6,000 or more political prisoners that have been confined and tortured by the reactionary govrenment. He is now on his way east and in two weeks' time will sail for home to again take up his struggle in the Polish parliament against the black forces represented by Pilsudski.

#### Communist Fraction Member.

He is an active member of the Polish fraction in the Sejm. There are six Communist deputies and 26 peasant deputies that compose this fighting minority in the chamber that, ed from Canton to a city in the Yangat great risk, consistently challenges the white terror and the ruthless regime of the land owners and capstalists of Poland.

Paschuk declares that Pilsudski's star is on the wane. At the time of his original coup, Pilsudski had a celebration of the 60th anniversary degree of popularity with the peasantry. They hoped he would oppose in Canton Nov. 12; Work of all sorts, the land owners and put a curb upon the industrial exploiters. This sentiment has now changed, he said. Pilsudski is extremely unpopular everywhere among the masses and has moved steadily to become the most ly half a million people participated, reactionary force in Poland, even to the point of wishing to become king.

350,000 Unemployed.

The lack of faith in Pilsudski among the peasantry and workers of Poland proper is echoed by an extreme hatred of his regime among the 9,000,000 · Ukrainians and White Russians who compose the suppressed national minorities of this artificially created state. The Ukrainian and White Russian movement is gaining in strength and is supported by the Communist Party whose prestige and influence is increasing by leaps and bounds thruout the masses of the peasantry and the workers.

The economic situation of Poland is extremely critical, Paschuk reports. The Polish zloty is being propped up by dangerous inflation, the factories are working only part time, the streets are filled with 350,000 unemployed and the lot of the peasant becomes worse every day.

Predicts Revolt.

The Polish socialist party, he said was nominally against Pilsudski, but since Pilsudski originated with this Pilsudski to seize power, there is, among the leadership of the party a secret admiration of Pilsudski as nificance of the nationalist movement exemplified in the term "Grandfather" (that is, of the party) applied to him under a democratic regime. by the leading socialists.

MOSCOW, U. S. S. "What the farmer needs is a good punch on the jaw to make him show fight," he challenged, and the farmers agreed. Handley went on and said that both labor and the farmers have been altogether too docile. He told the farmers not to be frightened at the scare talk in the newspapers, should the farmers decide to strike to make their demands for a living felt. Farmers Reciprocate.

The farmers, in their turn, sent several of their leaders to a meeting of the Central Trades and Labor Council, which held a special session during the farm convention.

Patrick Stevens of St. Croix county made it plain that the farmers understood that "the conditions which rob the farms of our boys and girls are throwing you out of employment." He explained how the trek of bankrupt farmers to the cities was complicating the city labor situation by adding to the labor surplus and providing green labor to keep down the wage scales.

Paul Schweinberg, Merrill, a farmer vho has been a labor organizer and militant farm leader for years, and who remembers the soup kitchens and bread lines in the most critical days of New York City labor's fight for existence, said "these two producing forces, labor and the farmer, must become the controlling power in our egislatures. All Hogs Not on Farm.

There was a rapid-fire response on the part of other farmers. A. H. Potter, Washburn, a man who was formerly connected with the produce commission business and real estate business in the Twin Cities, and who knows both ends of the farm game, declared that "most of the hogs are in Wall Street, not in the farmers' back yards." He flayed the tax rebate as benefitting the big income holder and not the farmer. ## Workers (Communist) Party

#### Plenum of Comintern Votes to Support Central Committee of Soviet Union Communist Party

(Special Cable to The Daily Worker)

MOSCOW, U. S. S. R., Dec. 17.—As the twenty-seventh session of the Plenum of the Executive Committee of the Communist International was opened on Dec. 15, Thaelmann, on behalf of the German, French, British, Czechoslovakian, and American parties, read a draft resolution on the Russian question which the Plenum adopted unanimously with one abstention.

The resolution declared: Ideolo-+ gically the opposition in the Soviet Union Communist Party represents essentially a right danger, sometimes masked by left phrases.

The negation of the possibility of socialistic construction in the U. S. S. R. is an underestimation of the internal forces of development of the U.S.S. R. and attests to the opposition's social-democratic tendency. The charge of national limitedness against the C. P. S. U. is a libel. The plenum considers that the C. P. S. U. is pursuing the most correct policy of socialist construction, firmly believing that the U.S.S.R. possesses "everything necessary and adequate for the building of socialism," at the same time remaining internationalist in deed and not in words, always maintaining the view of the world revolu-

WITH THE YOUNG WORKERS LEAGUE

#### A DISTRICT AND NATIONAL SCHOOL

By JORMA KANGAS

THE National Training School of the Young Workers League has drawn to a close and the students have returned to take up the work of the eague in their districts. This school, the first attempt of its kind, was held in Chicago and lasted thru November and into the first week of December U puties are urging on Premier of this year. In several districts the eague has been able to establish disrict schools. Many of the comrades are familiar with these schools so we can proceed to compare the two, a district school and the national school.

First of all the national school is view of the fact that he was informed nuch more advanced in curriculum the Soviet government would not appoint a substitute for Krassin in the and composition. The students attending this school come from various parts of the United States, being mostly those comrades who have had THE work at Chesham House would considerable experience in league be carried on by the present staff. work or who show a capacity for lead-In a public statement in support of ing. S. has been most fortunate in securing good lecturers. Chicago at present is the hub of the revolutionary movement in America and because of this fact, the students had at their finger tips the well-known big guns of the party for instructors. This is quite different from the district courses where we had two instructors has gone into shaping and putting the thruout the entire course. This latter pencil together and we judge the quasystem, however, has its advantages in that it gives a better sequence to the studies. There is room for argument here as to which form of faculty is better; one or two instructors who follow closely the progress of their charges, or a faculty of ten or a dozen specialists.

| committee. This committee was directly responsible for the functioning of the other committees. The only other committees were the library committee, the social and recreation committee, the publication committee and the discipline committee. Contrast this with the organization of the district school with its student council committees and sub-committees, and you will see that the organizational form is determined largely by the size of the student body.

When it comes to recreation we will find that there is a sharp difference indeed. The district school students will always remember the almost unlimited opportunities for sport and recreation which they enjoyed while attending the courses. In Chicago, as is to be expected, such chances are slim. What time was not taken up in studies was spent in attending important meetings and affairs of the league and party. In this way the students were well informed concerning the day's activities and involved themselves in the work of the league there. The national School is different from the district schools in the fact that in the former the studies were supplemented by education instead of recreation.

However, curriculum, faculty, organization, recreation and other details are not all-important in themselves but are only a means to an end. When we pick up a pencil, we forget for a minute the time and machinery that lity of the finished product. After the pencil is completed, it must be shar pened and only then does its usefulness begin. ### **EVICT STRIKERS** FROM HOUSES TO FORCE YIELDING

#### Bridgewater Foundry Workers Firm

(Special to The Daily Worker) HAST BRIDGEWATER, Mass., Dec. 19.-Families of members of the Iron Workers Union who were locked out by the Old Colony Foundry company when they refused to accept wage decreases of 50 per cent have been ordered evicted from their homes. This is the latest attempt, following attacks on the workers by company gangsters and town police, to coerce the workers to accept the wage scale

of the company. The Old Brown House, tenement owned by the company, houses a number of families of the strikers. The families received notice by the company to vacate the premises by Dec. 20, the same date the company has set for the closing of negotiations with the union.

Families Threatened.

Prior to the delivery of the eviction notices, families in the tenement received anonymous telephone calls that their homes would be dynamited if the unionists did not accede to the demands of the company.

The number of pickets around the foundry is being increased by the union, despite the court injunction procured against picketing by the

The company is operating with half force. Strikebreakers were imported from Brockton. They are taken back to Brockton each night in a company bus, escorted by armed guards, as the scabs are afraid to remain in the city overnight.

Sentence Unionist.

Two of the strikers arrested after the fight were sentenced to two months in jail, charged with assault, and fined \$50 each. Both entered appeals from the decision. They were William Harris, president of the union and Romanti Duranti. Albino Henrique was fined \$45. The other 12 arrested were dismissed

#### **Boston Electricians** Strike Against Scab Telephone Co.'s Work I. L. D. in Twin Cities

BOSTON, Dec. 19 .- Boston electrical workers docal 103, has won for the time in its fight with the New England Telephone & Telegraph Co. for the right to install phone wires in new buildings. Company unionized telephone workers are the losers, unless the phone company appeals to the courts against the decision of the Massachusetts public utilities commission. In the Hotel Statler, Inc's. appeal to the commission to compel phone service, it was ruled that the phone company's policy must be acceptance of properly installed and suitable wires deeded to it when phone connection is asked and that service must be given.

Building trades workers of Boston supported the electricians by threatening a general walkout from the new Hotel Statler job. The electrical workers had a contract with the builder to put in phone conduits and pull the wires thru along with the rest of the electric wiring of the building. The phone company refused service to the hotel, which began renting its office floors before the residential floors were finished.

PITTSBURGH, Dec. 19 .- The fivelay work week for building trades workers and wage increases are emchatically opposed by the National Building Trades Employers' Association, meeting in Pittsburgh. Resolutions against both were adopted by the 150 delegates from all parts of the country. The five-day week resolution of the

American Federation of Labor is stated to be of profound economic significance to the building industry. The resolution against it cites various reasons: that the building industry is seasonal and needs to have work done every fine day: that the shorter workweek would increase costs, especially since overtime rates would commence more quickly; that the amount of available labor would be that much reduced: that the workers might be extravagant spenders in their in-

## M. D.'S ATTEMPT OF NURSES HERE

#### Doctors' Society Sets Up Scab Registry

The Chicago Medical Society has launched a drive to slash the wages of the graduate nurses of the city and have set up what amounts to a "scab" nurses' registry to force the nurses to submit to what the doctors say are fair working conditions and wages. This is revealed by the meeting of the society this week, when the organization's council decreed that "it was the duty of the medical profession to interfere in behalf of the sick against prices charged by the nurses.'

Want Them to Work 24 Hours,

That the nurses should be on duty 24 hours a day and that they be forced to care for more than one patient at a time is demanded by the doctors. The nurses now receive \$7 a day, and the majority work 12 hours a day. The medics seized upon an extreme case, where a patient demanded two graduate nurses to be in attendance tion of Street and Electric Railway at all times for 24 hours, which, including board, brought the total cost

to \$119 weekly. The doctors point to this case as showing that the "poorer" persons cannot afford such retailing as well as wholesaling, and expenditures for nursing. But the doctors admitted that such special nursing was in most cases unneces sary in Chicago hospitals.

#### Have Own Registry.

The nurses now have a registry of their own, which serves as an employ ment exchange. But the doctors have set up another registry in competition with the nurses, which will recognize only graduate nurses from "recognized schools" and those who will abide by the wages and working conditions approved by the medical society.

The conditions that the doctors approve include that the nurses should work 24 hours a day with the same pay (sleeping when they get a chance), accept half-time jobs at half pay, and accept group assignments. Group assignments are those in which the nurse will accept more than one patient at a time and work for the pay of one patient.

The Chicago nurses are expected to fight this attempt of the doctors to control their wages and working conditions, especially the competition of

The letter, written to Sen. Sheppard was introduced on the floor of the senate and ordered published in the Congressional Record.

Mention Kollantai.

It is interesting that the name of Mme. Kollantai, Soviet envoy to broken up by the Passaic police just Mexico, recently barred from the U. S. by Sec. Kellogg, was brought into the controversy between the magazine and Mrs. Abbott. The children's bureau recently published a bulletin in which it stated: "The most comprehensive study on maternity benefits and insurance which has yet appeared in any language is the volume by Mme. A. Kollantai." The Woman Patriot seized upon this statement as government. The name of the com- showing that the children's bureau was "communistic and supported the union officials say they have a good Bolshevik government." Mrs. Abbott then points out tha the magazine launched an attack or the bureau for not denouncing the 'Bolshevik corruption and national ization of children - the greatest crime against childhood and mother hood in history." Mrs. Abbott answers this ridiculous statement by saying," A reply to this is unnecessary. The children's bureau was not established to expose political corruption in other countries."

#### The Color Cure.

Dr. Ponza of Piedmont reports some interesting results with the use of color in treating patients at his hospital. "He placed a patient afflicted with morbid taciturnity in a red chamber. After a period of three hours, the patient became gay and affable. Another patient who had refused all food until he had reached the danger point asked for breakfast after twenty-four hours in the red room."

From a London physician we get the following: "Into a cottage with red walls, red carpet and red incandescent lamps with red shields, he placed a number of despondent melancholy women. A growing spirit of cheerfulness and contentment gradually overcame the great depression."

Why not try the red color cure on some of your fellow workers and friends? There is nothing like a stirring issue of The DAILY WORKER, the red labor daily, to jog into activity, life and spirit the fellow who is indifferent. There is nothing like & good red pamphlet of the deepest hue, to stimulate the thought and the temperament of your fellow worker.

It is this stimulation that the capitalist class fears. It is the aroused intelligence and activity of the workers which they dread. It is for this reason that they encourage the workers to read the black publications, those which are clearly depressing and nonstimulative in character. Boost the red press among your fellow workers. Get them to shun the black press, the press of reaction, the press of the exploiters and enemies of labor.

Deuther has made an intensive study of traction problems. In 1913 he formulated a plan, and has issued at different times three editions of a handsomely printed booklet, "Civic Questions.

In his opinion, subways are impractical for Chicago, for the reason that there is not as dense a population as in New York to supply the revenue

once pointed out to the elevated interests that the Halsted street surface line alone, a main north and south Commercial Association, "and that is artery, carried half as many passengers in one year as the entire elevated system. He, therefore, urges the necessity of a north and south elevated line to parallel that route.

"In 1913," Deuther said, "cqws actually pastured in the vicinity of Logan Square. At that time extensions of elevated lines could have been made at reasonable cost, but the entire question was muddled up by one scheme after another of subways and consolidations. Today every terminal of the elevated is blocked by highpriced property. It will now take millions to break thru where earlier it would have required but tens of thousands. But it must be done."

Deuther has no objection to terminable franchises.

#### Ship Owners Prepare to Rob Sea Workers of Legal Protection

NEW YORK, Dec. 19.-American seamen are faced with another attack upon the standards set up by the La Follette seamen's act. The New York poard of trade and transportation is considering the report of its committee on harbor and shipping to ask congressional modification of the act.

The clause particularly objected to is that which provides that ships' masters must pay any seaman on an American vessel half the wages due him while the vessel is loading or discharging in foreign ports.

The amendment the board proposes to substitute would give the master discretionary power to withhold wages "for the safety of the vessel and cargo" or "for the preservation of discipline" and for other causes.

#### Preparing a Break with Mexico

The offensive against the Mexican people is gaining impetus as the date-Jan. 1-approaches for the enforcement provisions of the constitution of 1917 relative to oil land ownership.

In the last period there have been the following developments: (1) The pastoral letter sent out by all cardinals, archbishops and bishops of the catholic church in the United States denouncing

(4) The announcement of the American Petroleum Association Dec. 21: that it will not abide by the Mexican oil laws.

When we connect the above developments with the increasingly hostile attitude of the capitalist press and the insulting expressions of the state department and its recent secret negotiations with the big press service for anti-Mexican propaganda, it is apparent that preparations are being made to dramatize the breaking of diplomatic relations after the first of the year unless Wall Street gets its

### Introduction.

THE purpose of these articles is to show by documentary evidence, whose authenticity no one can impugn, that the campaign against all progressive tendencies in the labor movement which was launched at the A. F. of L. convention in 1923 has entered a new phase in which there is a more open combination than ever before of the trade union officialdom, the capitalist press, the employers and the government.

It will also be shown that the main motives which prompt the intensified attack, centering first on the Communists and second on the left wing, are (1) the desire of the capitalists to suppress all struggles which interfere with the development of American imperialist prosperity and either destroy the trade unions or force them to a general dead level of docility, (2) the desire of the trade union officialdom to force on the unions a policy which will make of them the docile organizations which the capitalists will accept, (3) the desire of both the capitalists and their labor agents to drive the Communists out of the unions and destroy their influence in the labor movement because they are the most conscious and best organized exponents of fighting unionism who are trying to rally all workers for struggle on a program of immediate and necessary demands.

Finally, these articles will show that the policy of the trade union officialdom, of which the latest attack on the left wing is a logical result, is based on one phase, and one phase alone, of American capitalist development, i. e. its present temporary upward swing, and that because of this neglect of other fundamental factors, can bring nothing but disaster to the labor movement.

The more "successful" this policy is, i. e. the more endorsement it receives from the masses now, the more disastrous will be the ultimate result. The Communists and the organized left wing therefore are fighting the battle of the whole working class when they resist to the utmost the new offensive of the combined forces of American capitalism which, in the period of imperialism, include with some minor exceptions the whole bloc of trade union officialdom

WE have here a new principle laid down for the trade union movement-the principle that Communists THE official trade union press, and per se (by the fact of their belief in the public statements of prominent the political and economic theories of trade union officials are even more the Communist Party), are ineligible to both membership and leadership in trade unions irrespective of the fact that they may be (and generally are) working at the trade over which the union has jurisdiction.

There have been expulsions of Comsale and individual basis. A number of unions have made membership in the Communist Party adequate grounds for expulsions, but for the modern developments in the labor tions. The difference between trade most part these expulsions have been movement.

But this is the first time that the head of the American trade union novement has made the categorical statement that the trade unions and trade union positions are closed to Communist working men and women. #### Will Fight Return of Alien Property Until Americans Get 'Share'

(Special to The Daily Worker) WASHINGTON, Dec. 19.-Notice has been served upon republican leaders in the house by Representative Fish of New York and others that there will be strong opposition to the

alien property bill which is to be taken

up Thursday. Representative Green of Iowa, chairman of the ways and means committee, asked for an early consideration of the bill, which attempts to settle the long standing question of the return of German national's property seized during the war and payment of claims of American nationals against the German government.

The opposition will demand no German property be returned until all American claims are paid in full.

as one far above the governor's commission recommendations. The fact that the cloakmakers were able to force such a settlement despite the great support, covert and open, the manufacturers received from the state government and the right wing, is indeed as great a victory as could have been achieved. It is true that the cloakmakers suffered a partial defeat on the point of 10 per cent reorganization, but they fought against it and under the left wing leadership will yet defeat the manufacturers on this point if, in the course of the next three years, the right wing is eliminated as a dominant factor in the needle industry and the various needle trades internationals are consolidated thru amalgamation into a powerful industrial union covering the entire industry. The partial defeat on the reorganization must be placed squarely on the right wing, which, thru the governor's commission, brought it into the industry and then connived with all the enemies of the union to impose not only this point upon the cloakmakers, but intended to force a settlement below the governor's commission recommendations upon the strikers. In this, no matter what the right wing may say, they were definitely de-UNDER these circumstances we can feated. The strike settlement thus marks a defeat for the right wing. It

Meanwhile the fight against the lefts came to a head and the re sult was a defeat for Sigman. As a result of this policy the cloakmakers lost two years and entered the struggle for these demands under left wing

The employers, of course, were not so foolish as not to understand this stand of the leadership of the international and to stubbornly insist on the right of discharge thus gained and endorsed by the right wing. Despite leaders of discharge rights, the new leadership rejected the governor's commission recommendations and called a strike. THEREUPON the right wing brought

in the governor once more as a strikebreaking force, which resulted in the insistence of Governor Smith on what amounted to compulsory arbitration. This move was again en-

to what would have amounted to a surrender of the workers' demands to a commission this time functioning openly as an arbitration board. The next move against the union was to compel it to surrender by the use of the full force of the state, which resulted in the issuance of the most sweeping injunction ever issued in the

history of organized labor in the needle industry, and again the right wing demonstrated that it was in covert agreement with this last strikebreaking move of the governor by the way old policy and accepted this unfait sabotaged the mobilization of forces to break down this injunction. breaker with the sharpest pressure they could bring upon the union without openly exposing themselves. Not only did they discourage any

militant action of the union to combat he strike-breaking methods of the governor, but it was quite apparent that scabbery was greatly encouraged by them outside of New York, as well as in New York itself, a role in which Ninfo and Dubinsky played no small part. It was also quite evident that he manufacturers were well informed about the union's plans, which made it possible for them to hold out against the union's demands and gave them tremendous advantage in the settlement negotiations and thus made the strike such a prolonged struggle. Every happening in the settlement committee was known to the leaders of the Industrial Council and it was apparent that the propaganda they put forth in paid advertisements, etc., was inspired from sources close to the innermost circle of the union. All this was accompanied by a deliberate sabotage of relief sources, in all of which they had the full support and co-operation of the entire A. F. of L.

bureaucracy. The distinguishing feature of the right wing's strike-breaking policy in this strike, which differentiates it from the policy pursued by their colleagues in the furriers is that outwardly, once the strike was declared, they camouflaged their dangerous strike-breaking policy with an attitude of militantly speaking for the worker demands, which to a considerable extent deluded the workers and made their treachery so much more dangerous for the union.
