LEWIS WEAKENS DEMANDS OF THE M

BOSSES' COURTS JIAL I. L. G. W. U. STRIKE PICKETS

Uphold Ruling of Injunction Judge Sullivan

The sentences imposed on the eighty-seven garment workers, arrested for picketing in the International Ladies' Garment Workers' strike in the Market St. district in 1923 by Superior "Injunction" Judge Denis E. Sullivan and Charles M. Foell and Circuit Court Judge Ira Ryner were upheld by the appelate court.

Mostly Mothers.

Eighty women, most of them mothers, will have to serve from five to forty days for picketing the struck shops in the Market street district in Chicago's injunction judges. The women will be forced to start serving their sentences in the next two weeks. Seven men, who aided the striking girl pickets, will also have to serve the sentences imposed on them.

During the appeal it was brought out that copies of the injunction were not placed in the hands of the pickets that were on the line and that on this ground the cases should be thrown out. The court ruled that the judge before whom a contempt of court charge is raised has wide discretionary powers in the matter of disposition of the cases and that there should not be any interference with his

Left Wing Active.

During this strike all attempts were made by the left wing in the needle trades to have the entire Chicago Federation of Labor throw its support behind the girl pickets, who were clubbed by drunken policemen. During this strike three of The DAILY WORKER reporters were arrested for trying to collect news of the strike on the picket line and for taking down were clubbing the pickets.

Attempts were also made to get Oscal Nelson, a member of the city council, to force an investigation of the police brutality. Attempts were made to get Fitzpatrick and Nockels on to the picket line and to organize mass demonstrations against the injunction and in this way nullify once and for all the injunction law.

Due to the failure, however, of the heads of the Chicago Federation of ing off, the level of production was workers to the limit, the strike was lost and today these pickets, most of from five to forty days.

VARGA EXAMINES CAPITALISM IN THE U. S. IN ITS RELATION WITH THE WORLD ECONOMIC SITUATION

The proper understanding of the economy of capitalism, both in its general aspects and in its form at any given time, is the first requirement of those who claim to lead the struggle for the overthrowal of capitalism. It is not enough to stop at the knowledge of the general trend of capitalist economy, to understand merely that capitalism, like other systems preceding it, is doomed to perish. It is not enough to generalize, in fact it is dangerous to proceed into a conflict with the forces of capitalism in any field, without the general plan of campaign being based upon a minute examination of the relation of forces at the time of conflict and a concrete analysis of capitalist economy. Such analysis of the present economic situation of capitalism in the United States, we give below as written by Eugen Varga, the leading economic expert of the Communist International: . . .

Whilst the states of Europe are all passing thru some special crisis of their own, the United States continues to differ from all these European struggles in that they are enjoying a continuance of prosperity. America is the sole country with a superfluity violation of the ukase handed out by of capital, the sole country whose production has a rapid upward tendency, both in general and during the period

of this report in particular. The depression observable in America in the spring appears to have disappeared once more before the approach of a renewed boom. The upward tendency is however, not yet the following figures, giving a survey North Pole. of economic conditions on the whole:

Build Dirigible for North Pole Flight

(Special to The Dally Worker) STUTTGART, Germany, Dec. 30 .-Dr. Hugo Eckener, who piloted the dirigible Los Angeles formerly the Z-R 3, to the United States, announced that work had begun on the dirigible which will make a polar flight next year. The Zeppelin factory has already started the construction of the

gondolas and engines, he said. The Norwegian explorer Amundsen clearly defined, as will be seen from leader of the Eckner expedition to the has been mentioned as a possible

NEARLY DOUBLES IN TWO WEEKS

NUMBER OF GERMANY'S JOBLESS

BERLIN, Dec. 30 .- The present economic conditions in Germany which reveal the growing failure of the Dawes plan and indicate a trend of events which if continued may well lead to a new wave of revolutionary class struggle, is shown in the astounding growth of unemployment as reported by the government. On December 1 the number of unemployed which are registered and to whom doles of relief are given, stood at 672,000, while on December 15, so rapid has been the decline in productive activity, the Fernandez was formerly a member of All this is done to force these freedom registered unemployed numbered by the governmnt had risen to 1,057,000. Nor is there any prophesy given of a betterment.

PACKING HOUSE WORKER, FOUR MORE DAYS TO SEND IN YOUR STORY TO THE DAILY WOR

Packing house worker, do you realize that there are but four days more night. before The DAILY WORKER special articles on the meat packing industry will appear? Have you sent in YOUR story to The DAILY WORKER yet? Have you answered the questions? The DAILY WORKER wants a story on the conditions that the workers must work under in every city or town where there is a meat-packing plant. Send in your story telling of the conditions under which you must work. Get your wife to send in her story telling what she thinks of the conditions in the "yards" and whether she finds it hard to make both ends meet nowadays. Remember, the time grows shorter and shorter. Get that story in! Then make arrangements to have a bundle distributed in front of your plant.

ELECTIONS IN THE MACHINISTS' UNION AND THE FUTURE TASKS OF THE RANK AND FILE LEFT WING

The district elections of the Chicago district of the International Association of Machinists took place on Dec. 6.

Two distinct groups come before the membership to ask for the indorse ment of their candidates. The composition of the groups can be analyzed as follows:

Progressives vs. Johnston. The progressive group had as its backbone the most militant and active group of machinists, whom Johnston is so anxious to drive from the union, because he knows that this is The strategy used by the Spanish the only group that has a definite proand French general staffs, which I gram of militant activity in opposition to his class-collaboration schemes. of the Riffians in two campaigns, con- This group united with the most active part of the Anderson following tion camp and taking advantageous and had the support of the mass of rank and filers, who being disgusted with the inactivity of the district in the last few years, are ready to place the leadership in the hands of any all the artillery, aeroplanes and tanks group in opposition to those who have available. All that the tribesmen had proved their utter incapability and unwillingness to do any organization work during the years that they have

been in office. The reactionary group had as its center the Johnston machine who succeeded in winning over into their camp for the district campaign a group of former Anderson supporters made up mainly of elements which were carried into the struggle against Johnston when the revolt was at its height and now when the conflict has

HOLDING OUT **NOW CHIEFLY ON** THE CHECK-OFF

Ignores Demands Made by the Union

(Special to The Dally Worker) NEW YORK CITY, Dec. 30 .- The negotiations between the United Mine Workers and the anthracite operators for settlement of the long strike were resumed Wednesday at the Union League Club with the latest proposal considered being the one submitted by Alvin Markle, the "impartial chair-

Under this plan, which has such anti-labor features that any acceptance is sure to result in an uproar of the rank and file of the union, the key is arbitration all along the line and a complete surrender of the right to

"No Strike" Plan.

Strikes and lock-outs are barred for en years upon a ten-year contractten years! Under it wages would be the same as when the miners went on strike until next September. After that, the scale would be changed-not necessarily upward, and probably downward-by a board of three union representatives, three from the operators and three from that mythical throng "the public." These "public" representatives would be appointed by Calvin Coolidge. The "public" would have no vote until sixty days after the miners' and operators failed to agree. Then the vote of the entire committee would be final, no appeal and no

The operators are insisting on arbitration as the key question and the mine union leaders are concerned chiefly with getting the check-off, beng willing to sign a contract for any length of time if they get the check-off, regardless of any other provisions. although they are formally opposing WASHINGTON, Dec. 30 .- Fearing a the arbitration idea. The tri-district demands are forgotten, or better to say-ignored.

Bargaining Begins.

When the session was resumed this morning, after a night session lasting until the early hours, many ventured to say that a basis for bargaining had been established.

William Green, president of the Amin rederation of Labor is coming o New York, supposedly for a speakng engagement. Lewis would not say whether or not he would confer with Green on the settlement.

Meanwhile, the department of com merce at Washington issues the astonishing news that the exports of anthracite did not cease during the compared to one year ago at the same time. During November this year party members opposed to the court 31,246 tons of anthracite was sent abroad, against 282,217 tons in Nov. 1924. However, if the howls raised about the "suffering public" have anything to them, it is a proper question to ask why the government allowed have the sessions open at 10 in the any export of anthracite coal at all

TO "INVESTIGATE" THE **BELL TELEPHONE TRUST**

WASHINGTON, Dec. 30 .- An attempt will be made at the next session of congress to force an "investigation" of the Bell telephone trust. Congress will be asked to "investigate" the charge that the mother company takes from the gross operating revenues of its subsidiaries 41/2% as payment for

The New York public service commission declares that it gave the New York Telephone company, the fattest of all the Bell subsidiarles, increases totalling \$11,000,000 yearly in New York City alone on the plea that the money was to be used to increase wages. Wages remain much the same for the majority of workers, the the officials are getting higher pay. The Bell trust received over \$450,000 from this company for certain "services."

Money World Rejoices at ATTEND New Year's Over Great Prosperity It Is Enjoying

By J. LOUIS ENGDAHL.

TODAY, the year 1925 draws to a close. The kept press overexerts itself to prove that the year has been prosperous; not for the workers, but for the bosses. Bankers are interviewed to tell of the rainbow future of the financial world. Railroad magnates, steel barons combined with industrial overlords of every hue, tell of past and future "prosperity." Only the little patch on the map that covers the anthracite coal fields of Pennsylvania, where the workers are on strike, looks gloomy to the profiteers. There labor is fighting to maintain its wages and working conditions, and that makes the coal barons feel blue, even during their hilarity on New Year's Eve.

Of course, just as soon as the workers get busy in other industries, the bosses will immediately plead poverty. The railroad owners have had their best year, but the workers have suffered, their unions broken and class-collaboration schemes foisted upon them. Great profits in steel, oil, automobiles, meat packing and elsewhere are accompanied with new threats of wage cuts to be forced upon unorganized, bitterly exploited workers. The whole subsidized press will have plenty of arguments, in the New Year, to show that labor is getting plenty, that capital must have more.

Figures already prepared tend to show that the country's favorable balance of trade for 1925 will reach \$600,000,-000. It may go to a billion dollars. American great business has sold that much more than it has bought during the past year. That is part of the rainbow. The capitalist economists carefully attempt to explain away the blue streak in it, however. They try to argue away that there is danger that the indebtedness of other nations to American imperialism is increased by that amount. It is pointed out, with great pride, that the nation's business has sold \$865,000,000 worth of goods to South and Central America in 1925. That is about \$110,000,000 more than in 1924. Business claims to see no menace in the fact that European countries are looking with jealousy upon this market; that they will struggle to win it. Business professes no fear that Wall Street's financial domination over these same countries will develop future uprisings among these peoples against dollar degradation. New Year's day is a time specially set apart to look at the rosy side of the picture.

The usual alibi provided by the kept economist is that American tourists in foreign lands will scatter enough gold to wipe out the trade balance, when it is added to other incidentals of Wall Street rule abroad. Thus George W. Hinman, of the Hearst press asks:

What would be thought of a business man who feared to sell more than he bought, who feared to have a money balance in his favor at the end of the year for his profit and pleasure?"

The spectacle of the profit parasites of this country trying to squander the billion dollar trade surplus in riotous living at foreign Monte Carlos should surely open the eyes of the workers. Labor might steal these words out of the mouths of its class enemy and demand that the surplus be used to increase wages and the purchasing power of the workers at home. But that goes entirely contrary to the eager profit hunt of the capitalist system.

Neither does the trade surplus represent the entire flow of alien gold into this country. It does not take into account the vast investments of American capital drawing dividends in foreign lands, of the mounting interest on inuge sums accruing from Wall Street's financial conquest of the world.

The fact is that New Year's, 1926, proclaims America again the Midas of the world. Just as Midas could not live as everything he touched turned to gold, so American capitalism, richest and most powerful on the face of the globe, will succumb to the contradictions within the capitalist system itself. The proud boasting of the American dollar world at this New Year's season should spur workers at home, in alliance with the oppressed peoples abroad, to prepare for greater struggles against it.

CONNECTICUT BECOMES PART OF WORKERS PARTY, DISTRICT TWO: REORGANIZATION PLANS LAID

NEW YORK, Dec. 30 .- The former Connecticut District No. 15 is now part of District No. 2 and the district has become a sub-district. At a meeting of the sub-district committee plans for reorganization,

preparation for the labor party activities and the Lenin memorial meetings and for trade union work were laid.

Split Between "Cal"

and General Pershing

Secretary of State Kellogg, passing

Mr. Kellogg, who is enroute to

Washington from Minneapolis, was ac-

companied by Mrs. Kellogg. He is

returning to the capital principally to

confer with President Coolidge and

Peru plebiscite.

On the reorganization the situation Kellogg Denies Any was thoroly discussed and it was pointed out that at the present time there were possibilities for organizing shop nuclei and international branches, and the committee in New Haven was authorized to proceed with establishing New Haven as a section. The situation in Waterbury, Stamford,

Hartford, Bridgeport, Shelton and sur-

rounding cities was discussed and

Proceed With Reorganization.

plans laid for the work. The sub-district committee of New Haven is trying to arrange a debate between O'Brien of the National Security League and Ben Gitlow. This will be a big event in the life of the New Haven organization.

On trade union work it was decided ference. to move energetically for the organization of party fractions in the unions of New Haven and other cities. Lenin memorial meetings have been

lanned on the following schedule: New Haven-Friday, Jan. 22. Hartford-Saturday, Jan. 23. Waterbury-Sun. evening, Jan. 24. Bridgeport-Sun. afternoon, Jan. 24. Stamford-Sunday, Jan. 31.

The Connecticut district affords a reat possibility for work as it is an ndustrial center with a great foreign opulation, and on the basis of a rerganized party, with good workers' lubs, the Connecticut district can be nade one of the important units of organization in the east.

FARM CRISIS HAS COOLIDGE **RULE WORRIED**

Meetings Arranged to Hold Farm Support

(Special to 'The Dally Worker) WASHINGTON, D. C., Dec. 30 .-The effort to retain the farmers for support of the Coolidge administration is taking the form of a series of meetings arranged by Secretary of Agriculture Jardine for the month of

Jardine will hold conferences with representatives of different groups thruout the month. On January 21, he will speak to an agricultural meeting at Champaign, Ill. But this is only one of a whole series of meeting beginning today at Des Moines, Iowa, in the center of the district most effected by the recent wave of bankruptcies.

Political Threat. The so-called "farm bloc" is trying to have the government actually handle the crop yields by terming it a surplus that should be exported or otherwise disposed of by the all wise government, which either must sell it on the world market at enough to avoid loss, or charge any loss back by an excise tax on that part of the product consumed in the domestic

The pressure upon the administration is taking the form of a threat to withdraw support from the Coolidge

Signs of Worry.

That the Coolidge administration is disturbed by the threat, is shown by the suggestion of Coolidge to establish a division in the agricultural department to help co-operative marketing. This seems certain to be passed by congress. The "surplus commission" may be combined with this anticipated division.

Another symptom of fear by the administration is shown in Coolidge's instructions yesterday to Secretary Jardine and Secretary Hoover, to give government aid if possible to one of the large co-operative societies of California. Which one of these well- German Papers Want known monopolies known as co-oper atives is affected, was not revealed.

SKILLED FOUNDRY WORKERS' WAGES RISE AND HOURS FALL; MACHINES

General improvement in the wages and hours of fundry employes thruout the country between 1923 and 1925 is reflected in a U.S. department of labor report covering 413 establishments with over 40,000 employes. In the two-year period the average wage paid in foundries has advanced five cents an hour while nearly an hour has been knocked off the average fulltime week. Em-

BRITISH PRESS CALLS HERBERT HOOVER BIG **'HOT AIR MERCHANT'**

LONDON, Dec. 30.-American discussions of a possible trade war between the United States and England as the result of British rubber restrictions are attracting wide attention and causing bitter criticism

The Daily Sketch refers to Secretary of Commerce Hoover as a "hotair merchant."

CRISIS GROWS

To Draw Legislative Program

DES MOINES, Iowa, Dec. 30 .- The conference of bankers, businessmen, agricultural interests, the entire Iowa delegation in the senate and house has started to grind out a legislative program to meet the crisis staring them in the face in the agricultural districts. This conference which has been called by the bankers following a series of bankruptcies and the falling of the price of corn to 50 cents per bushel and the farmers leaving their farmers, despite the fact that the yield this year was greater than at any other period.

Many of the senators and congressmen in Washington, who represent the banking interests, are watching the outcome of the conference.

Currency Inflation to Kill Credit Shortage

Such profits have made possible the more than \$100,000,000 in extra killed in a gun battle with S. Glenn dividends which are adding holiday cheer to the homes of the wealthy owners of industry. But we hear of few instances where this prosperity findsits way into the workers' Christmas

The "Right to Beg" Now Established as a Civic Principle

Thru the effective intercession with Mayor Dever of President John Fitzpatrick, Chicago Federation of Labor, the Fraternal Order of Blind Men is about to regain the right to have blind persons beg on Chicago streets unmolested by the police.

This is a victory against the Improvement Association for Blind People, an organization that offers jobs to a few blind people at \$11 a week withdrawal from political action was On the representation that it was taking care of the blind and training them it induced the mayor to have the police arrest all blind beggars and working farmers to co-operate with peddlers. Supt. O. W. Fremer of the association maintains that \$11 a week is enuf for blind people.

"If I were blind I certainly would not work for \$11 a week," Mayor Dever told Fitzpatrick's delegation of blind men and promised that he would look up the law and instruct the chief of police to act accordingly.

REORGANIZATION IS COMPLETED IN

2,700 Members Registered; Form 11 Sections

NEW YORK, Dec. 30-New York has now completed the task of reorganizing registration at which 2,700 members were present, and has organized 11 sections and 32 sub-sections. Two meetings have been held and the general average attendance shows that the membership has taken enthusiastically to the work of reorgan-

have well begun.

Many of the shop nuclei, because of language difficulties have not yet organized themselves, but the sub-section committees and the district office are making special efforts to organize these units within the next two themselves into regular shop nuclei.

The new sections have been organized covering the following territory in industries:

Section 1-From Battery to Houston street, clothing. Section 2-From Houston to 14th

street, men's clothing. Section 3-From 14th to 23rd street,

women's wear. Section 4-From 23rd to 34th street. needle trades, women's wear, furriers,

Section 5-From 34th to 42nd street, women's wear. Section 6-From 42nd to 59th street.

includes Long Island section, women's wear and leather. Section 7-From 59th to 129th Women's Work street, tobacco and wood industry, residential sections.

Section 8-From 129th to 149th street, wood and metal. Section 9-From 149th up, residential areas.

Section 10-Brownsville, includes omen's wear and leather. leather goods and women's wear. Section 12-Borough Park, residen-

tial area and waterfront. has formed street nuclei in the resi-tion of circles.

NEW YORK WILL HOLD DAILY WORKER SECOND ANNIVERSARY BALL

NEW YORK, Dec. 30 .- The beginning of the third year of The DAILY WORKER'S existence is to be celebrated in New York on Sunday afternoon, January 10, with a grand concert at Yorkville Casino, 86th St. and Third Ave.

Details of the program will be announced within a few days. In the meantime all readers and friends of The DAILY WORKER in New York are requested to keep this date open.

dential territories, in addition to At the first two sub-section meet-street nuclei in the factory districts, ings the officers were elected and the with the understanding that they are formation of the basic units, the shop to act as concentration groups and to Donelan, decorated war hero, pleaded a nucleus is to be formed.

Come Ahead Into the Young Workers League

Workers Write About the Workers' Life

WORKER BESTS IN CONTROVERSY

Soviets

By H. YANKELS (Worker Correspondent)

A couple of painters and myself

When he started on the job all there was, was just the painters. The ents as possible. family was away on a vacation. Ithat this fellow was very active in the "bund," which in czarist Russia was a revolutionary organization, but, today in this country is the mouthpiece of the yellow socialist leaders. I also found out that he makes his living exploiting others.

I was interested to find out how this fellow lived, so I browsed around the house. I saw a lot of magazines from the Literary Digest to the Red Book, lying around the house. In his library of books, there was not a single book on the labor movement or the class struggle. His bookshelves were covered with a lot of cheap fiction in handsome bindings.

Good Advertising.

After noticing the kind of a library and the stuff he reads, I spoke to one of the other painters on the job about it. The other painter, who attends a night college, answered "This guy is in business. His business needs pub-While having a leading role in the Workmen's Circle, the socialist party and the Forwards it brings him good advertising. He himself is very far from being revolutionary, tho he boasts of what he did in czarist Russia ages ago.

One day at lunch-time, while I was sitting on the floor eating my lunch and reading The DAILY WORKER, the owner of the house, who had just returned from a vacation, came in. He saw me reading The DAILY WORKER and said:

"Are you a Red?" "Yes," I answered. "Every class conscious worker is a Red."

It was quiet for a while.

What do you think about Rusia?" asked this socialist. "I wish we had such a government

here!" I answered. "What's wrong in this country?" he

"Probably nothing for you, but and my class," I answered.

"Why, the Russian workers are starving to death, while you are here making a pretty good living."

Russia for Workers.

"Speaking about Russia, it is plain that you, not being a worker, should be against it. The Soviet government of Russia is controlled by the workers and peasants," I explained. "As to the kind of a system that is best for the workers, I will discuss only with the workers. You are very far from being a worker. What's wrong here? If for instance I make \$12 a day and produce \$20 for that day, the boss gets \$8 for doing nothing. Under the Soviet government we would cut out the boss and have a bigger share of what we produce. Your party knows that, but you have become traitors to the working class and that is why, not being a worker, you are opposed to the Soviet government in

Workers Must Join Communists. "The Workers (Communist) Party and the Young Workers (Communist) League are the only organizations for the workers. The socialist party is not for the workers. It is for the middle class and the 'liberals'-that is 'who is who'-and now I must go back to my work."

Workers Starving; But Green Talks Prosperity

By A Worker Correspondent COSHOCTON, O. Dec. 30-William Green, president of the American Federation of Labor, home for holidays, made a statement that all indications point to a prosperous year for 1926, and that labor would maintain its high (?) wage rate.

But every worker here knows the real situation: That hundreds of jobless are walking the streets with no jobs in sight and jobs getting fewer every day. That the union coal miners have been forced out of union mines into non-union ground hog holes. That the Elks Lodge, and other fraternal orders as well as the salvation army have this year distributed Christmas charity to hundreds of workers families here. Yet the president of the American Federation of Labor dares to tell workers here that 1926 will be one of peace between capital and labor, dares to speak of prosperity for big business in the face of the misery the workers are facing.

Watch the Saturday Magazine Section for new features every week. This is a good issue to give to your fellow worker.

TO ALL WORKER CORRESPONDENTS! CARNEGIE STEEL

ON the 13th and 20th, The DAILY WORKER will get out two special editions—one for the second anniversary of The DAILY WORKER and the other to commemorate the death of Comrade Lenin. Both these issues Socialist Exploiter Fears will be bigger and better in every way than anything previously attempted by our party. It is planned to have special articles and cartoons by revolution- Safety First Cards on ary artists and writers of all the principal countries.

We want two things from each worker correspondent and we know you will not fall us.

were working on a residence house of NoT in Eevanston. My boss told me that MORE THAN 250 WORDS dealing with the conditions of the workers the owner of the house, which was in your city or district; living conditions, rents, wages, the attitude of the quite an elegant one, was a member authorities and especially the connection of The DAILY WORKER with of the Jewish Verbund of the socialist these conditions and the struggles of the workers. THE FIRST PRIZE.

HILLMAN RULE TURNS A. C. W. TO WAGE CUTTING RACE WITH SCABS; ONLY LEFT WING CAN ORGANIZE

(By a Worker Correspondent)

In the Amalgamated Clothing Workers' Union there has developed a chronic sickness that is called "readjustments." This means that every now and then the boss files a request to the union that his garments cost too much to produce, and therefore he asks the co-operation of the union to reduce the cost of labor.

The union sends its representative to investigate, and he usually finds that in some other shop, union or non-union, the garment is made cheaper and, therefore, grants the boss a re-+ duction.

And here is what happens. In Chicago we are told that we must give a readjustment to the boss because he cannot compete with the manufacturers in Rochester. In Rochester we are told that our bosses can't compete with New York. In New York we are told that our bosses can't compete with Philadelphia, and in Philadelphia we are told about the many unorganized towns that work for \$12 and \$15 a week and we are "advised" by our union officials to there is a lot of things wrong for me accept a reduction in our wage and keep the work in the city.

> Is this the best way to solve the problem of keeping the work from going to the country? No! And a thousand times, no!

> > Why A Union? 150

We have not labored, fought and suffered, to build up a union and then ask our members to compete with nonunion labor. The only way to solve this problem is to organize the unorganized so that they will not undermine the conditions of the organized.

But then, some one will say, "Has not the Amalgamated spent hundreds of thousands of dollars on organizers trying to organize the unorganizd districts like Philadelphia, Cleveland and other places?"

Yes! They have spent thousands of dollars, and they will spend many paigns; as, for example, in the Furmore thousands, but these workers riers' Union in New York, where the will not be organized until the rank former officials did not have the conand file will be drawn into those or- fidence of the membership. ganization campaigns and they shall It seemed impossible to them that do the organizing.

Why the Left Wing in Office?

FORD DRIVEN WORKERS LIKE THE DAILY WORKER; BUT NO TIME TO READ

DETROIT, Mich., Dec. 30 .- 1 am one of those that is chained to a Ford's job. My experience here is that Ford shop slave driven workers, who have only twenty minutes for lunch, have no time for anything but slave for Ford and to rest up to slave for Ford again. They like The DAILY WORKER and snatch a glance at mine when I point out

an article to them but when I ask them to subscribe they feel they haven't the time to read it. Only a short time ago we worked overtime every night and we worked on Sunday. Now after the rush the workers will be rewarded for their slavery with a lay off for an indefinite period. The last drop of blood of the workers is squeezed

But as soon as the new left wing administration was elected, the Greek Naturally, the leaders of our union workers were organized by rank and must first be of such a type that will filers, and are now not threatening have the confidence of the member- to undermine the union conditions ship so that the rank and file will any more.

respondents' page are awarded as follows:

THE FIRST PRIZE, "The Goose Step," by Upton Sinclair, goes to a clothing worker employed in a clothing factory in Chicago, whose name cannot be given here. His story appears on this page under the heading of: "Hillman Rule Turns A. C. W. to Wage Cutting Race With Scabs; Only Left Wing Can Organize."

THE SECOND PRIZE, "Romance of New Russia," by Magdalene Marx, goes to a worker employed in the Ford automobile plant in Detroit, Mich. His name also must be withheld. His article: "Ford Employs Slick Method to Get Rid of Workers and Yet Maintain Boast of Firm: We Never Lay Off," appears on this page.

THE THIRD PRIZE, Original of DAILY WORKER cartoon, framed, goes to a worker in the Carnegie steel mills in Youngstown, Ohio. His story which appears on this page is entitled: "Carnegie Steel Mill Worker is Badly Injured." We withhold the publication of his name.

Next Week's Prizes:

Next week's prizes are as follows: FIRST PRIZE-"Historial Materialism-A System of Sociology," by Nikolai Bukharin, in this valuable book all the social sciences closely scrutinized and interpreted from the materialist viewpoint. SECOND PRIZE-"Russia Today," the official report of the British

trade union delegation on social and economic conditions in Soviet THIRD PRIZE-The original of a DAILY WORKER cartoon.

THE THIRD PRIZE.

FORD EMPLOYS SLICK METHOD TO GET RID OF WORKERS AND YET MAINTAIN BOAST OF FIRM: "WE NEVER LAY OFF"

By A Worker Correspondent.

DETROIT, Mich., Dec. 30.—The talk in our shop always has been that how to lead, leaders the bosses do not now commenced fighting against this Mr. Ford never days off his employes and that, in spite of a slow-down in production he will keep all on their jobs.

The slaves that sweat for this notorious automobile baron believed this hokum. In the Ford News we used to read:

"Wages must be earned; no mat-+ ter how small they will be earned. There will be no discharges."

This and similar catch words drew hundreds and thousands of workers from many parts of the country to look for a job in Mr. Ford's famous automobile factory. As early as the evening before the day when they expected to be hired thousands of workers stood at the gate of the River Rouge plant to have the chance off slaving for Mr. Ford.

But after Mr. Ford has filled his orders, after his work had been done he doesn't need us any more. So he begins to discharge and lay off as every capitalist does when he has squeezed in as little time as possible every bit of work he needed out of

From the River Rouge plant Mr. Ford started to lay off by the thousands. Mr. Ford proceeds in the matter very cleverly. He has placed his watchdogs-"service men"-to watch every worker. These "service men" discharge workers for the most trivial things. One is discharged for not carrying his badge with the slave number on, another one is discharged for running in the factory and others for not working fast enough, and so

Those of us not discharged, are forced to work beyond our endurance, frightened lest we lose our jobs and that is our fate, slaves of Mr. Ford, driven to sweat and when not needed, thrown out to starve. Ttat is the present Mr. Ford offers to his slaves for the new year. And the discharged working men, of course, will offer no presents to their families. They will be glad if they have what to eat. This slave system will continue

until the workers organize. We, the slaves of Mr. Ford, have no organization at all. We must organize and strive to better our lot and finally to overthrow the whole capitalist system that permits a Mr. Ford to hire and fire at will without consideration of the misery in which we live. We must on the ruins of this rotten system establish the Communist society in which the workers will work for their own common good and will not starve when they have worked too well and produced too much, but on the contrary, will have a well-paid vacation like the workers in Soviet Russia.

POLICEMAN BLACKJACKS **NEGRO WORKER WITHOUT** CAUSE AND GOES FREE

GEORGE PAPCUN. (Worker Correspondent)

WOODLAWN, Pa., Dec. 30-A Negro worker was beaten up by a policeman on Dec. 20th, just before quitting time, in a steel mill here in Woodlawn.

This worker was employed in a gas production plant in the mill, where it is impossible to remain at work for more than fifteen minutes at a time without coming out for air. The worker had just been out for air, as is the custom, when the policeman came along and commenced beating him over the head with a blackjack. The worker was so surprised that he did not even have a chance to defend himself. He was so badly beaten up that for a week afterwards he was unable to

Immediately following the beating, he demanded that the slugger be arrested, and when the case was brot before the justice of peace, the so-called police which is controlled. by the steel corporation, went after the section foreman, who had seen the worker beaten up and tried to get him to agree to testify that the Negro was drunk. This he refused to do, continuing to tell the truth about the affair. As a result of this he was kept away from the hearing. This is a sample of the methods by which the employers maintain the rule over the workers in the steel industry, and the Negro workers in particular.

Even if the section foreman had not been prevented from testifying in the Negro's behalf, there would have been no benefit resulting from this, to the worker, inasmuch as the justice of the peace is controlled entirely by the steel corporations.

The steel mill at Woodlawn is owned by the Jones Laughlin Steel corporation. The Negroes do the heaviest and worst kind of work there. The workers in this mill are all indignant over this outrage.

'TAKE LEWIS OR YOU GET HOWAT,' ADVISES CAPITALIST PRESS TO THE ANTHRACITE COAL BOSSES

BY PAT TOOHEY.

(Worker Correspondent)

PHILADELPHIA, Pa.-The Progressive Miners' Committee time and again have stated the leadership of John L. Lewis does not serve the best interests of the American mine workers, that this policy of class collaboration pursued by Lewis is rapidly smashing the United Mine Workers of America. We have said many times that the Lewis type of leadership is the type the bosses want, the type they are always anxious to deal with, the type the

The progressive miners cannot agree with the Philadelphia Public Ledger in regard to the type of leadership best fitted to deal with the perators, and with that understanding will continue their militant struggle to organize the forces of the miners' union to place in leadership of the organization leaders who know

WICKS ORGANIZES GROUPS OF CORRESPONDENTS IN **EVERY CITY HE VISITS**

Harry M. Wicks, editorial writer of The DAILY WORKER, while on a lecture tour to eastern cities has been organizing worker correspondents groups in each city he stopped at. He sends an enthusiastic report stating that these groups are now organized for effective work.

On Saturday night, Jan. 2, at 8, Wicks will speak in Pittsburgh, Pa. at the Labor Lyceum, 35 Miller St. Worker correspondents now writing for The DAILY WORKER and those interested should get in touch with

On Sunday afternoon, Jan. 3, at 2, he will speak at Insurance Center Building, 1783_E. 11th street. This is Cleveland's opportunity to get started on this important party activity. Every worker should take advantage of the opportunity to talk this over with him.

Klintzy Leather Workers Report on Progress

By ELIAS LIFSHITZ. (Worker Correspondent)

KLINTZY; Comel Province, "Red Giant" Leather Works, U. S. S. R .--Let us take an example from the town of Klintzy in the Gomel province. The population of Klintzy is hardly 25,000, altho it is an industrial town where the majority of the population are workers.

What achievements may we place on record at the eighth anniversary of October? One of the main attainments is the opening of a textile factory. This is one more victory in the field of extending industry. The opening up of this factory is of very great significance in particular for Klintzy, Up to a 1,000 workers will be absorbed by this new factory. No small sum was spent in preparing this factory This is illuminating. The Howat and in setting it in order, but it will

Another victory is the opening of the Stodolsk club. This is a very important victory on the cultural front Stodolsk factory and leather works alone will have to sharpen their wits, be able to cope with this tremendous task. This club is one of the best in the whole Gomel province. The club is composed of a big meeting hall (in

a library and reading room, and a large number of various rooms for various circles and classes. The club is comfortable, agreeably fitted out, with good taste and every convenience and it is a forge for educatnig our workers.

At the present time we are experiencing a housing crisis everywhere inhousing crisis. Twenty apartments have already been constructed for workers' families, not to speak of the communal dwellings fitted out this year. This is also one of our great achievements for the occasion of the eighth anniversary of October. We have also a number of smaller achievements to record in Klintzy. which the unnoticed, play a dominating role in the actual life of the town. With these achievements we will march forward for attaining still more important and bigger successes by the ninth anniversary of October.

Building Trades Union Heads Postpone Strike

NEW YORK, Dec. 30. - Possibility of a strike in the building trades industry on January 1 was removed when representatives of the building trades agreed that increases averaging \$1.50 a day were to wait the outcome of a special meeting January 6 of the employers' association,

Supreme War Council in Turkey

All indications point toward preparations for war between Turkey and England over the question of the Irak boundary dispute. tic*, and expresses the opinion that surplus in June is of no special signi-The decision of the league of nations granting Mosul to the mandate business is based to too great an exterritory of Irak held by England has forced the Turkish govern- tent upon the instalment payment in the early summer months of late ment of Mustapha Kemal to prepare to resist the enforcement of the league decision.

Mr. J. A. Spender, formerly editor of the Westminster Gazette reserve banks having increased by the first eight months, are as follows*: who is in Turkey, writes to his paper that the supreme war council 300 million dollars during the last has been called in session by Kemal and that all army commanders of unsound land speculation, etc., and will attend.

Not even the most persistent supporters of the so-called "spirit nomic influence is the fact that the of Locarno" can fail to perceive decisive preparations for war. Mus- income of the farmers is somewhat tapha Kemal and his Angora government finds itself in a position where it is forced to act against the belligerent threats of Great grain. Britain. The inhabitants of northern Khurdistan rose in revolt last spring against what they considered the weaknesses of Kemal in dealing with the European imperialists and are still to be toms are only a temporary nature, or reckoned with. If Turkey submits to defeat before the subter- signs of an approaching crisis; it is renean diplomacy of Austen Chamberlain of England and M. Briand symptomatic of the decay of capitalof France it means weakening of the Kemal government, loss of prestige and possible revolution at home.

A new revolution in Turkey will bring to power elements that and incalculable. will turn farther toward the Soviet Union than Kemal has thus far This annual spring depression im- countries which are now just begin- spectively. gone. Pressure from the discontented population has already forced poses a heavy burden upon the Amerining to develop, the connection be-Mustapha Kemal into a treaty with the Bolshevik government of least the index flores showing

Britain looks with grave apprehension upon this treaty and a the federal reserve board and calcu- ket for industrial products is so limitpowerful section of the British press openly demands substantial lated on the same basis—were given ed that every country has to compete as to the advisability or non-advisaconcessions to Turkey to avoid throwing that nation into the arms of at 118 for October, 1923, 109; fo

But even the Kemal does accept a compromise promised by Britain he will be placed in the position before his own people of having bartered Mosul for concessions that Britain could well afford to account the reduction in the num-dustrial export country of competing and demands that the tariff wall prein exchange for the disputed territory.

Regardless of the outcome of the strife over Mosul one fact stands forth clearly and that is a diplomatic triumph of the first magnitude for the proletarian statesmen of the Soviet Union. The treaty with Turkey proves to the working masses of that nation of industry: that at a time when the league of imperialist nations is endeavoring further to dismember what was once the territory of Turkey its powerful revolutionary neighbor extends the hand of friendly support.

All nations and all peoples on earth who are threatened by the ferocity of the imperialist brigands find in the Bolshevik government their only friend. Tho the rulers of nations may at times for get that they owe their very existence to the friendship of the Soviet Union the working class of the oppressed countries will, in ever greater numbers, come to learn that the one formidable enemy of imperialism is the revolution.

Coolidge's Fake Farm Relief

The republican press continually harps on the developing farm elief program of Coolidge. The latest suggestion is for the creation of an export commission to supervise the disposal of the surplus products of the farmers. This is on a par with the other fake nostrums of the administration. Not ten thousand export corporations working in unison and composed of the best brains of the republican party could affect the world market sufficiently to keep prices up at a time when the grain crops of the whole world were abundant.

The creation of an export corporation would create new jobs for the faithful republican party henchmen, but would not put one more dollar in the pockets of the farmers.

The government of the United States that at one stroke can cancel billions of dollars in loans to the Italian government in order that Morgan may safely invest his surplus capital has not one cent for real relief of the farmers. Instead of creating a brigade of new jobholders in order to fool the farmers into believing that the republican party is trying to do something for them, why does not the government evince as much interest in the welfare of its own citizens as it does in the Italian government of the black-shirt despot and increase of population compensating 1925, p. 1627. brigand, Mussolini?

Such a question cannot be answered by the United States government. Instead of relieving the farmers as it relieves Italy the government tries to force the farmers to help pay in taxes the amount Mussolini's government ought to pay if it expects to maintain itself! among the capitalist nations.

But then Italy has heavy industries that can be chained to the chariot wheels of finance capital, while the farmers of this country control no such fields of investment. That is why Italy gets the debt cancellation and why the Morgan banks that hold farm mortgages Union has, to a large extent, other than 7,000,000 (exact statistics are not drive the farmers from the soil thru foreclosure of the mortgages instead of cancelling their debts and enabling them to recover. Mil- from unemployment in the capitalist lions in cancellation of debts for reconstruction in Italy, but not one cent for reconstruction of the shattered farmers who helped win Morgan's war in order that he might have the power to collect ment in the Soviet Union must have or cancel at will the debts from European countries. Such is the quite a different cause as, in spite of politics of Coolidge.

Berry Mourns for Munsey

E. W. Edwards, agent of George L. Berry, president of the International Printing Pressmen's and Assistants' Union, sent a letter to is so great in its extent, that even this crease in those employed in producthe New York Sun, one of the Munsey properties, on behalf of the major expressing sympathy with "the nearest of his (Frank L. Munsev's) bereaved relatives."

It is eminently fit that Berry, the scab herder and strikebreaker, who aided Munsey and his fellow publishers in New York crush the proportion between the agricultural year, a total of about a million new web pressmen in the printing trades, should mourn the death of the and industrial population. The peas- workers will be employed in all

Berry's lackey speaks of the "great loss" to the printing and publishing industry that has been sustained thru the death of Mun-duction which employs 7,000,000 worksey. It is noteworthy that on the occasion of the death of John ers. McParland, a man who, as president of the International Typographical Union, fought the Munsey outfit, there was no, such profuse enlogy forthcoming from Berry and his corrupt crew of union wheekers.

The Investment of Capital Abroad.

The solution of these-in part only America, for instance: apparent-difficulties is obviously to be found in a continued rapid increase of the American capital invested abroad. The trade balance surplus will be devoted to further investments abroad. This process can as was the case with England before the war, until such time as a fresh imperialist war consumes the capital order that the export of special industrial goods, and the import of others, pletely settles the whole question by the expropriation of the bourgeoisie. The present political tariff dispute | America, by virtue of the power of relates chiefly to the alteration of the her capital, at present actually rules present rigid system. Up to now the the world's economics and the world's United States has concluded trade politics. All disagreeable problems are agreements, only on the most favored smoothed over by means of money, country basis, and have not entered America is to be freed from her deinto tariff conventions, that is, they pendence on English raw rubber by have not taken any active steps to the projected vast cautchouc plantawords inducing the other party to tions in the Philippines and in Li-

tal is sweeping away every obstacle. Evidence as to America's influence in the fact that, one after another ter-allied debts and fresh loans; furties increases with the funding of the state and municipal loans, Japanese electrical works, radio plant in China, time the amount of the inter-allied railway building in Persia, potash debts, according to the White Book trust in Germany. One and all seek capital in America, seek the economic is 12,088 million dollars. This sum and political good will of the small dividuals in this question. clique of American capitalist mag-

Ident, Coolidge, is nothing more nor 1925 less than the executive organ of this 18.6 chique

The sum total of the loans granted 39.8 by private persons to foreign countries amounted* on June 1, 1925, without the intel-allied debts, to:

To States Mill and with State To guarantee un	lion dolla o private dertakin	Total
Canada1125	1420	2545
South America 915	3225	4140
Europe1665	450	2115
Asia & Australia 422	280	722
4147	5375	9522

It will be seen from this that the United States continue to invest large amounts of capital in the continent of America Two thirds of the capital privately invested is placed there. According to the same source, the capital freshly invested in foreign loans in the first six months of the year amounted to 552 million dollars, of which less than one-half went to Europe: 237 millions, whilst America (Canada and South America) re-

Capital Investments Abroad and the Question of Emigration.

The Aries		thing Ohis	a Toman	

India, as well as Australia, New Zealand, etc., also show greater reemigration than emigration

This state of affairs is obviously due to the fact that a larger section of the emigrants from these countries do not settle permanently in America, but return eventually to their native countries-generally after they have scraped together enough money to buy a piece of land at home. This process takes place independently of the number of immigrants permitted from the country concerned. The laws restricting immigration thus attain their object: they diminish the number of those working class elements fer to reduce duties on certain cate- America. On October 1, 1925, the number of surplus agricultural population and partly from the classes employed in the specially bourgeois occupations which have become superfluous in conequence of the revolution. Only the smaller part consists of industrial workers (mainly unskilled) and officials. Thus, in another country, a large number of the unemployed would not be included at all in the statistics of unemployment. The significance of unemployed must not be overrated.

Lack of Skilled Workers. There are hardly any skilled work-

ers among the unemployed. In many branches of industry there is indeed a lack of skilled workers.

In spite of all, the question of pnemployment in the Soviet Union is of course an important problem winch urgently demands solution, all the more because the proletarian state, in contrast to capitalism, has really not the slightest interest in the existence down wages. The Soviet Union therefore devotes more attention to combat ing unemployment than any other country in the world.
