## SANITARY CONDITIONS GO FROM BAD TO WORSE IN ARMOUR'S CHICAGO MEAT PACKING PLANT

By VICTOR ZOKAITIS.

The sanitary conditions in the "yards" have gone from bad to worse. The government maintains hundreds of inspectors in the plants. But these inspectors only see to it that the hogs that are sent out for human consumption are not dirty or badly diseased. These inspectors never look into the conditions under which the men must work, their health or the conditions under which they must eat and dress.

Filthy Locker-Rooms.

In the Armour pork department, the company has one locker-room into which over 150 workers must crowd and dress thirty-eight bills of exceptions were themselves. The locker-room used to be a runway for the hogs presented by attorney for the defence, that were forced to the chains to be slaughtered. The floor of William G. PORTLAND, Ore., Jan. 8-The chamber of commerce refused to permit Anna Louise Strong, recently returned from Soviet Russia, to speak at the chamber's forum in a speech to raise funds for caring for the Russian children orphaned by the long years of war and revolution. Her speeches were claimed as being "radical," therefore the chamber refused the use of its forum.

**COAL BARONS IGNORE OKLA.** SAFETY LAWS

Troops Prevent Miners Mobbing the Bosses

(Special to The Daily Worker) WILBURTON, Okla., Jan. 13 .- The open shop has taken its toll of life, a ghastly toll, at the non-union Degnan-McConnell Mine No. 21, early this morning when 125 miners reported dead, were entombed by an explosion. The report that all were dead was made public by State Mine Inspector Edward Boyle of the Oklahoma bureau of mines this afternoon.

Rescue workers first to enter the mine declared they had conversed with miners at the bottom of the main shaft, who said only eight remained alive. Black damp had left the eight in a weakened condition, they said.

Later in the afternoon communication with the men could not be restored, according to sheriff's forces, who with national guardsmen were guarding the entrance.

Murdered for Profit. Coal dust, the danger of explosion of which can easily be avoided by sprinkling, in conformity with safety laws on the books of the state, but which laws are always ignored by the operators when the union is weak and the open shop is strong, is admitted by the mine officials to be the cause of the explosion. Coal dust is supposed to be cleaned out, and if not, sprinkled with water or rock salt when only a little is present. When this is not done it is unsafe, but operators hate to pay for removal and sprinkling.

These officials tried at first to blame the explosion on the unionists who are fighting the company for its violation of agreement and inauguration of the 1917 scale.

A second rescue crew which found the dead, was reported to have entered the shaft at noon thru a manway which had been sufficiently repaired to allow entrance. The first crew, which entered from a diagonal air hole, reported they were unable

VESTERDAY'S issue of The I DAILY WORKER carried most important news to the workers in the mines, the mills, the factories and the railroads.

The workers knew it-and the workers took it to the points of exploitation. Thousands were sent to every section of the striking anthracite field with the Communist call to "Strike! Call out the maintenance men!"

The agitprop (agitation and propaganda) department of the executive committee of the Communist International sends The DAILY WORKER anniversary greetings as follows:

. . . . TO the Editorial Board of The DAILY WORKER-Dear Com-I rades: We send you our sincere revolutionary greetings on the second anniversary of your organ.

Your paper, which is the only Communist daily in the world in the English language, has an extremely difficult, laborious, and responsible mission. You have unfurled your banner in the very heart of the greatest stronghold of world capitalism. In America, the last and strongest hope of decaying world capitalism, with its enormous wealth and its enormous reservoir of forces which seems to defy the general decay of capitalism, you have established a daily organ which from day to day proclaims the inevitable collapse of capitalism also

## **NOW REALIZED MINE STRIKE IS** FINISH FIGHT

### Cappellini Is Opposing Complete Strike

(Special to The Daily Worker) WILKESBARRE, Pa., Jan. 13 .-- The today. On every hand one hears from the lips of the miners, "A fight to the finish." All the hypocritical covering of the priests who tried to get the miners back to work with soft soap about fair dealing by the operators, all the veneer of "peace" is gone. In their stead there is the class struggle, stark and vigorous.

Pennsylvania state legislature, summoned into special session by Governbody knows what, to settle the strike. But the miners are not depending on governors or conferences any more. They know now that it is a "fight to the finish" and the agitation spreading from District No. 1, where the Pennsylvania company's union grievance committee has already called out the maintenance men, to repeat this action in all the tri-district, is growing

Cappellini Opposes Complete Strike.

In the face of this demand from the rank and file, Rinaldo Cappellini, president of District No. 1, is fighting tooth and nail against the membership of the union making it a 100 per cent strike. Cappellini wants the maintenance scabs to be allowed to keep on producing coal, to keep on maintaining the mines in perfect shape so that the owners can laugh at the straving miners and then can begin operations again at the moment starvation gets unbearable, and the miners dribble back to work as scabs

The menace of the so-called Watson-Parker bill, to be introduced into congress jointly by the railroad companies and railroad unions, is given incisive exposure as an establishment by law of the class-collaboration that is eating the heart out of the trade union movement of America, in a statement of the National Committee of the Trade Union Educational League issued yesterday. The statement says:

## Workers and Farmers Will Watch Nye in the United States Senate

By J. LOUIS ENGDAHL.

TODAY, Gerald P. Nye, of North Dakota, is a full-fledged member of the United States senate. Yet the equanimity of that august body, once proclaimed over the land as the Millionaires' Club, remains unshaken.

When Nye, young and with some reputation as a rebel, was appointed by Governor Sorlie, it was claimed that he would never be seated. Numerous technicalities were cited to show that he was not entitled to the job Sorlie had given

But that is all over now. Technicalities were swept aside. Not the state of North Dakota alone, nor the United States alone, but the state and federal governments both were declared to have the right to join in handing Nye his senatorial toga. He is both a "state officer" and an "officer of the United States."

What the workers and farmers of North Dakota would like to know, however, is what all this really means to them. Senator Capper, one of the authors of the Capper-Johnson bill, calling for a capitalist dictatorship in time of war, voted for Nye.

Oscar Underwood, senator from "open shop" Alabama, the most backward stone age reactionary the democratic party can produce, voted for Nye.

Senator Johnson, of California, who helps keep Mooney and Billings, and hundreds of other workers in the prisons

of his state, voted for Nye. Twenty-six democrats, most of them from the "Solid South," where children are enslaved in the mills, and where

labor organizations are practically outlawed, voted for Nye. Senator Cummins, of Iowa; Smoot, of Utah, and Mc-Kinley, of Illinois, all staunch defenders of the Coolidge faith, found it convenient to be absent when the vote was taken. If they had been present and voted against Nye, he would have lost his seat by one vote, instead of winning it with two votes.

Nye should have been seated. There should have been no doubt about it. The fact, however, that he was finally seated showed that there was no fundamental objection to him on the part of the capitalist politicians. Senator Borah was against him in the beginning. He finally voted for him, because, it is said, he wanted Nye's vote against the world

But the thing that stands big before North Dakota's plundered masses is that Nye walked down the senate aisle on the arm or Senator Lynn J. Frazier, former governor of North Dakota, an enemy of the drive for the Farmer-Labor Party in his own state. As Nye and Frazier approached Vice President Dawes' dais, so that Nye could be sworn in by Morgan's agent, republican leader Curtis rushed forward to shake the hand of and congratulate the new North Dakota to shake the hand of and congratulate the new North Dakota

senator. Of such stuff is old party politics made.

Nye is already getting the same brand of oats that was recently fed out to young LaFollette, of Wisconsin. It is the prelude to putting the republican halter on both of them.

This interesting proceeding shows that the class lines have not yet been drawn in the senate, not even by the farmer-labor senator, Hendrik Shipstead, of Minnesota, who even fights the militancy of the farmer-labor movement that sent him to Washington. Altho elected as a farmerlabor senator, he, too, wears old party harness.

The new drive for independent political action, that is sweeping west from Minnesota to the coast and south to the gulf, will take all these developments into account. The workers and farmers will realize that in order to raise their class standards and carry them forward successfully, they will be compelled even to direct assaults against Nye, as they have already fought Shipstead, Frazier, Magnus Johnson and others who have forgotten that they were raised upon the shoulders of the oppressed. That is, unless Nye falls in line with the developing movement for class action of the workers and farmers. His senate record in the days ahead will bear close watching.

#### Smoke Screen to Fool Working Class

WASHINGTON, Jan. 13-While & re striving to devise a scheme to whitewash the disgraceful conduct of the prohibition enforcement branch of the government and thereby vindicate the meddlesome and fanatic Wayne B. Wheeler, head of the antisaloon league, a senate committee is to conduct another investigation that will endeavor to prove that the main support of the anti-saloon league and other organizations of a religious and semi-religious nature are in reality supported by the big bootleggers who have grown rich and powerful since the inauguration of the Volstead act.

Bootleggers want the country to renain dry so that they can continue to reap big harvests and they subsidize anti-saloon organizations for that purpose according to well-informed peoole at Washington.

The dry committee under the leadrship of Congressman Grant M. Hudon, republican of Michigan, is expected to submit a report favorable to the law as now enforced, while the senate committee, sponsored by Senator Edge, republican of New Jersey, will probably present evidence to show that the Hudson committee is corrupted by bootleggers and other interests who want the law to remain as

Interesting revelations regarding the crookedness of the government and the shining lights on both sides of the controversy are expected. The breweries and distilleries are backing the wets, while the preachers and bootleggers back the drys.

The issue is a smoke screen that will be utilized to the limit to divert the minds of the workers from their economic and political grievances into a fight over the prohibition law.

#### Tour Bishop Brown and Biedenkapp for International Aid

(I. W. A. Press Service.) NEW YORK, Jan. 13.—Mass meetngs are being arranged in most of the Eastern cities for Bishop William Montgomery Brown, who, with F. G. Biedenkapp, will speak on the urgent need of a relief organization for the entire working class. This question has become one of tremendous importance with the breaking out of the Chinese workers' struggle for freedom and the terrible repression of the ris-

ing labor movements of Europe. Bishop Brown is in fine fighting mettle, his recent expulsion from the house of bishops of the episcopalian church because of the evolutionary sed in his book, "Christianity and Communism" having vastly increased his field of activity. Biedenkapp is a forceful and effective speaker and organizer who has become prominent by his work in the interest of labor and as lecturer for the Friends of Soviet Russia.

These meetings will deal with live ssues of the greatest importance and are sure to be well worth attending. Readers of The DAILY WORKER in the localities billed are urged to remember the dates and give the meetings their utmost support by bringing their friends and advertising the lectures as widely as possible.

The dates booked so far as Worcester, Mass., Jan. 14; Washington, D. C., Jan. 26; Trenton, N. J., Jan. 28; Philadelphia, Jan. 31; Boston, Feb. 4; Rochester, Feb. 16; Buffalo, Feb. 18. Further meetings will be listed in The DAILY WORKER as soon as definitely arranged.

## JARDINE SEEKS SLUSH FUND TO **DEBAUCH FARMERS INTO SUPPORT** OF COOLIDGE IN 1926 CAMPAIGN

WASHINGTON, Jan. 13.—Secretary of Agriculture Jardine, who is desperately striving to devise schemes that will fool the farmers into supporting the Coolidge candidates in this year's congressional elections, appeared before the house agricultural committee yesterday and advocated farm co-operative marketing panceas.

He urged an appropriation of \$225,000 to establish in his department a special bureau to promote co-operative organiza- making but when the farmers finally tions, to assist existing co-operatives and to engage generally in co-operative extension work. He estimates it would require from 12 to 22 "experts" to car-

Behind this proposition is seen an effort of Jardine and the republican machine that came into power on the claim to establish an era of unexampled prosperity to debauch the farm cooperatives that already exist by bribing certain leaders of the move-Government officials express the ment with government positions so view that the "disarmament" conthat they can pretend to be formulatference, alias the "limitation of arm-

## COPPER TRUST IN PLOT AGAINST FARMER-LABORIT

#### Sheridan County, Mont., Scene of Struggle

By JOHN GABRIEL SOLTIS.

PLENTYWOOD, Mont., Jan. 13. -Several weeks ago, Attorney General Foote of Helena, a republican politic-

al crook owned and controlled by the Anaconda Copper Co., sent one of his deputies to this county seat of Sheridan county, for the purpose of framng up on the sheriff, who is a farmeraborite in politics, Rodney Salis-

He came here ostensibly representng the federal department for the enforcement of the Volstead law. However, upon his arrival here, he at once went into conference with the local leader of the klan. He did not consult the sheriff's office at all, as was his duty, but immediately commenced to achieve his plan, by breaking into the homes of innocent people, threatening them with dire calamities, and using third degree methods, in a frantic effort to extort affidavits from them, against Rodney Salisbury.

Of course he failed to get what he was after, for the good and sufficient eason that no farmer would assist in the plot to frame Salisbury.

Now a charge of assault and battery is lodged against Foote's deputy by the farmers' government of Sheridan county. As he comes to trial this week in the district court of this county, Foote sends E. E. Collins, his assistant here, to defend him.

#### What is All Means.

All this drama revolves around the act that Rodney Salisbury is a very dangerous person to the interests of the loan and mortgage sharks. He stands foursquare with the farmers ed the clamor of the Iowa farmers for and their interests. He never lets an the matter of mortgage executions. ## BELA KUN SAYS ALL HUNGARIAN **WORKERS ARE DUTY BOUND TO**

Bela Kun, who was the head of the Hungarian Soviet Republic during its brief tenure of power, and who is now at the head of the agitprop (agitation and propaganda) department of the Communist International, sends a greeting to The DAILY WORKER as follows:

. . . . CALLS FOR A "MIGHTY FORWARDS!" N the occasion of the second anniversary of the sturdy daily

paper of the American revolutionary proletariat, a mighty "Forwards!" Great and difficult is the task that you must master. But the strength of the proletariat ever grows with its tasks, hence you have been able to overcome all obstacles and to keep high the banner once raised despite all storms. Published in the English language, The DAILY WORKER is the trumpet not only of the English speaking but of all American proletarians whatever their language. By no means least it is the representative of the interests of the Hungarian workers living in America; they are therefore duty bound to support The DAILY WORKER with the same enthusiasm and joyous spirit of sacrifice with which they stand behind their own Hungarian organ. ### DAILY WORKER WILL FIGHT ITS WAY THRU, SAYS EDITOR OF THE COMMUNIST DAILY OF SWEDEN

COMRADES:—We send you our heartiest greetings on the second anniversary of The DAILY WORKER. Your fight has been difficult, the usual fight of a revolutionary workers' newspaper. It is, nevertheless, our firm belief that The DAILY WORKER will fight its way thru and become the organ of the whole American working class. The revolutionary working class press must enter the homes of the workers and farmers, the world around, and work energetically until the social revolution has been accomplished. Hate and boycott, death and destruction to the lie-spreading bourgeois press.

With Communist greetings, K. KILBIRN, Editor, Politiken, Stockholm, Offiical Organ of the Communist Party of Sweden.

. . . . THE Ukrainian bureau of the Workers (Communist) Party and its official organ, the Ukrainian Daily News, have sent anniversary greetings to The DAILY WORKER as follows: "Greetings to The DAILY WORKER on its second anniversary. May it become always stronger in its fight against capitalist slavery. Long live The DAILY WORKER!"

## **WOULD REPEAL** LAW TO BREAK MINE STRIKE

Safety Law "Menaces" the Government

By PAT TOOHEY

(Special to The Daily Worker) WILKES-BARRE, Pa., Jan. 13 .-The second move on the part of big business to break the miners' certificate law was made here yesterday when a committee of bankers, manufacturers and heads of various conoerns drafted a letter to Governor Pinchot urging him to place this be- Daily Worker Beginning fore the special session of the state legislature which goes into session in Harrisburg today.

The letter written to the governor contains the names of many prominent capitalists of this state. Manufacturers' Club of Philadelphia, thru its secretary, sent the letter. Therein these bosses very bluntly state why they want the certificate law repealed. They state:

"Under the general purpose of preserving life and property in the anthracite industry, this statue has for you, a boss, then it must be the given to one group complete control over that industry, and hence over all users of anthracite coal, by vesting that group with an absolute and unfettered authority to determine who shall and who shall not work in the anthracite mines of this state.

Labor Party Needed.

The question of this certificate will undoubtedly be brot before the legislature. There is a great possibility a concerted move on the part of the bosses will be made in Harrisburg to have the statute repealed. If it comes before the legislature for consideration the miners are out of luck, as there is not a single union miner in that august body to defend it.

Workers of the anthracite now are seriously waiting to see what happens at Harrisburg. If the law is repealed, which will permit the bosses to flood the mines with scabs, permit them to blacklist, and discriminate against the union miners, the workers then will realize what class political action means as far as their interests are concerned.

Ford's Passion for Music Only New Way for Boosting Ford

By a Worker Correspondent.

JERSEY CITY, N. J., Jan. 13 .- The musical taste of Henry Ford has suddenly become a matter of wide publicity. Old-fashioned dances are his devotion with a dancing teacher paid to instruct the auto king court at Detroit. Also a hay-making fiddler of the right age and temperment is called from Maine in the full blast of publicity with parades, moving pictures and the press free to Henry.

The why and wherefor is all in the fact that Ford is going to use the radio on a large scale to advertise his automobile show in New York and in order to do it pretty a dose of music and old-fashioned dances is to be handed out between talks.

So the campaign of Ford's musical taste carried over thru months culminated in the Ford auto show to sell cars at 1710 Broadway.

#### Leninism in the United States

Thruout the whole world the latter part of this month the advanced section of the working class will participate in Lenin memorial meetings and demonstrations. These meetings are not for the purpose merely of reviewing the life and achievements of the in- government, which has bowed so peatedly prevented by pressure from leave no stone unturned to maintin of Mexico, and arranged for payments on the American continent will supvincible leader of the proletarian revolution in this, the final stage of capitalism—the era of imperialism. His illustrious contribution to working class emancipation looms so large that mere demonstrations can add no lustre to it. And as the revolutionary tide rises ever high the influence of the life and work of Lenin will increase. We commemorate and review the history of Lenin in order that we may learn to apply, in the preparatory struggle for the revolution, prompted Mr. McAndrew to beard his tactics and strategy to every problem that confronts the working the militaristic lions of this tough class. #### Pacifism in Schools and Colleges

A tempest has been aroused over the recent publication of an THE proponents of military training article by Superintendent of Schools William B. McAndrew, of Chi- 1 in the public schools insist that cago, to the effect that certain pictures regarded as patriotic should the youth of the nation will not be be kept out of public schools, because of their effect upon the child brutalized as a result of it, and in an mind. One of these objectionable pictures is the fife and drum capitalist newspapers published a picillustration called "The Spirit of '76." In a somewhat vague statement Andrews objects to similar pictures.

Publication of his objections evoked the wildest denunciation from all the patriots for profit—agents of the military intelligence department of the government, posts of the American legion, daugh- ing officer advised them to act as if ters of the revolution, military officers, agents of the armament and they were about to drive their baymunitions manufacturers—who joined in one clamor of denunciation. onets into the flesh of a number of

It seems, however, that McAndrews himself is not a pacifist, but a militarist, an officer of that strikebreaking, scab herding aggregation know as the state militia. He advocates military training in swords will be turned into ploughthe public schools and upholds other forms of perverting the youth shares as long as capitalism exists. of the nation so they will be ideal soldiers-cannon fodder for im- Our objection to military training in

At present it seems that McAndrews is one of the more modern militarists. He refers to himself as a "military pacifist." This is coming to be a familiar phenomenon in American politics. Pacifists, almost without exception, are the most effective supporters of imperialist aggression, because they conceal war preparations beneath pacifist phrases. This is clearly revealed by the role of the pacifist crew in support of Morgan's proposal to get the United States into the world court where new and more devastating wars will be

More significant than the furore over McAndrews is the action of student bodies at Coe College, Cedar Rapids, Iowa, demanding abolition of military training in colleges. This anti-militarist senti is rising in all American colleges. The slightest familiarity with the history of the last war and a superficial observation of current his tory is sufficient to expose the real character of the imperialist wars of aggression today and create hostile sentiment against them.

Nothing is more destructive of every semblance of manhood and intelligence than the life of a soldier in an imperialist army. The most degraded, unthinking and mentally undeveloped dolts make the best soldiers and it is not surprising that people with even a modicum of intelligence resent being barked at by some imperialist satrap in shoulder straps. This revolt against militarism is only lavish scale that made it memorable. ties. The Communist Party of Gerbeginning and will ere long give the pay-triots much uneasiness.
