## UNITED STATES SENATE VOTES **GOVERNMENT INTO WORLD COURT** TO DEFEND MORGAN'S INTERESTS

(Special to The Daily Worker)

WASHINGTON, Jan. 28 .- The United States is in the world Morgan democrats adopted the measure that puts Wall Street's government into the world court, thus paving the way for American imperialism more effectively to penetrate Europe with its vast financial power.

The court was put over by a vote of 39 republicans and 37 democrats, with 14 republicans, 2 democrats and 1 farmerlaborite voting against it.

Eurrent Events By T. J. O'FLAHERTY

THE senate jammed the United States into the world court. The international financiers are happy and the nondescript interests represented by Borah, Reed and company are tearing their hair, grinding their teeth and calling on the shade of Washington to save them from those entangling alliances which he thundered against. But considerable water has flowed under the social bridge since Washington passed away and it is not unlikely in the White House instead of Calvin tect their foreign loans.

It is not something artificial that was conjured up from the mind of a renegade socialist, to fade away at the first puff of opposition. Fascism is a product of a certain stage of capitalist decline, when bourgeois democracy has shot its last bolt and the sham freedom of the parliamentary system gives way to open dictatorship. This is the period thru which capitalism is passing now and wherever the decay has reached the point where capitalist rule is endangered, the bourgeoisie have no hesitation in pitching their democratic pretensions to the winds and bringing out the mailed glove.

THE workers are slow to understand 1 this fact. Most of them are still worshipping the fetish of democracy. The capitalists have no such illusions. The socialists lift the hems of their virtuous skirts and chirp in falsetto tones that the workers must not be (Continued on page 2)

Chicago Faces Chronic Shortage of Seats

Little relief is seen in the report of the bureau of building survey of the board of education to provide workers' children in Chicago schools with a sufficient number of seats.

The report points out that the seat shortage in the elementary schools is the greatest, there being a need for 3,184 seats. Most of the workers' children never get beyond the elementary school as they must go to work to aid their parents support the amily so that in the high schools there is a shortage of but 21,312 seats. This makes a total shortage of 74,496 seats.

## American Socialists Are Swinging into Line for Wall Street's League

By J. LOUIS ENGDAHL.

TODAY, the vote in favor of the world court in the United I States senate finds an echo in the sharpening divisions within the socialist party. Thus the American socialists are now more than ever forced into the open on this issue, even as European socialists have already been revealed as mere appendages of the capitalist social order.

The nominal leadership of the American socialist party is found in the name of Eugene V. Debs, the chairman of the party, who is also the official editor of its organ, the American Appeal. But the actual leader of the party is the New York lawyer, Morris Hillquit, who shares that leadership occasionally with the socialist congressman, Victor L. Berger, of Milwaukee, Wis.

Hillquit is in favor of Morgan's court and league, spawn of the Versailles Peace. He takes the position openly now of the "government socialists" of Europe, who helped frame the Treaty of Versailles, and who joined in creating the League of Nations and the world court. Hillquit stands with the traitor Socialist International against the Communist International, born of the workers' victory in Russia.

Both Debs and Berger, however, have leanings against the Versailles treaty. Debs was anti-war on pacifist grounds. He opposed the war and he rejects its peace. But he has had little to say about the world court and the league. While the debate has been raging in Washington, the American Appeal, that Debs edits, has been strangely silent. Debs has a leading editorial on "Youth and the Church," and much space is given to the pacifist utterances of the "Christian College students," who recently gathered at Evanston, III. But there is not one word against Wall Street's court and the league, that are favored by Hillquit, that are instruments of the world imperialists plotting new wars against the Union of Soviet Republics and carefully scheming to maintain their tyranny over oppressed and subject nations.

Berger was anti-war from purely pro-German motives. He was and is against the Versailles peace for the same reasons. Berger has not felt at home in the gatherings of the Second (Socialist) International since the war because it has been in the hands of British-French-Belgian socialist pay-triots, of the type of MacDonald, Vandervelde, Longuet and others. The German capitalist republic is not yet in the league of nations. When it does Berger will doubtless follow.

That many socialists thought they were still opposed, as a party, to the court and league, is shown by the furore created following the announcement that Hillquit is planning to support these two imperialist institutions in a debate with Clarence Darrow of Chicago.

The New Leader, the expression of Hillquit's New York

"socialists," says:
"'Since when do the socialists favor the league?' has been the query heard from many persons who are not familiar with the proceedings of the International Socialist Congress and its large affiliated parties."

It is certain that the few workers who still follow the socialists will have their eyes opened when the real meaning of the socialist-Morgan alliance becomes clear to them. Now that the issue has been definitely raised, these workers will ask, "What is Debs going to do about it?"

# FINGERPRINT ALL WORKERS, IS OHIO SENATOR'S GOAL

Canton Central Labor Union Opposes Move

By ISRAEL AMTER

CLEVELAND, Jan. 27-Senator Willis of Ohio is worried about the dien worker in this country. He declares the foreign-born workers run around free and wild and fill the prisons. Why should we not keep him out of the prison by having him report to the police, say, every week? asks this spokesman of the rich.

In Canton, Anne E. Bow, a "social and welfare worker" has been "collecting" material for Senator Willis. She published an article on the material collected and made recommendations in her article to fingerprint foreign-born workers. This same article came to the attention of a delegate to the Canton Central Labor Union who introduced the resolution in part as follows which was unanimously adopted by the Canton Central Labor

"Whereas, We believe such a law would make possible the establishment of a form of industrial slavery, under police control, and would permit capitalists to use these registered aliens as a great strikebreaking agency to the detriment and injustice of organized labor, and make it possible to create a political as well as industrial autocracy; therefore, be it

"Resolved, That the Canton Central Labor Union hereby registers its opposition to the above recommendations, and we solicit the united and solid support of all fellow unionists thruout the United States to use the fullest extent of their power to defeat any attempt to amend the immigration laws as proposed; and be it

"Resolved, That a copy of these resolutions be sent to Senator Willis, to the chairman of the senate and the house immigration committees, the American Federation of Labor, the Ohio State Federation of Labor, and all affiliated labor organizations."

The American working class must awaken to the danger confronting it. An attack on the foreign-born workers is an attack on the entire working class. The foreign-born workers must organize to protect themselves. Councils for the protection of foreignborn workers must be formed at once.

American workers—especially trade union members-must support these

NEW YORK, Jan. 28 - Workers are warned to watch their city and state health departments to see that regulations concerning the manufacture, mixing, distribution and use of tetra-ethyl lead and ethyl gasoline are adequate to protect the human life involved. Following the United States public health service conference at which tetra-ethyl lead investigators reported, the workers' health bureau isues the warning.

Press reports conveyed the impression that the committee saw no danger in the use of tetra-ethyl in gasoline and thus served as a whitewash over the menace of this serious poison, Such grave dangers were recognized by the committee that it stipulated that production of tetra-ethyl lead and sale of ethyl gas be resumed only after the introduction of careful and effective regulations by state and city health departments.

"Few if any substances more toxic than tetra-ethyl lead have been manufactured on a large scale," the commitee reported. This poison is 15 to 20 times as poisonous as benzol, recently condemned in a report of the National Safety Council. ## Organization | Workers (Communist) Party

New York City Has 58 Per Cent of Membership in

nection with the reorganization of food industry is one third that of the party is next to nothing. the party discloses the fact that out of a total of 2420 registered in the city of New York, 1420 belong to the trade unions. The 2420 include many such as housewives, physicians, students, salesmen, etc. who are not eligible to join a union. Of the number eligible about 2,000-1,420 or 70% are members of unions.

This figure is far above the number in the unions only about 6 months ago and shows that during the last few months the industrial department of the district succeeded in making hundreds of comrades join the union. Our aim is 100% of those eligible must become union members. While it is true that many of our comrades find it difficult to join because of the many obstacles such as high initiation fees, the closing of the books of the union for new members etc. Every Communist must make every possible sacrifice and become a member of a union-the mass economic organization of the workers. In What Industries are Members Employed.

There are in all about 825,000 workers engaged in manufacturing in New York distributed in the following industries:

Mens' and ladies' wear, 243,685: metal workers, 113,021; food workers, 82,677; printing trades, 81,454; leather goods, 24,399; wood working, 30,821; miscellaneous, 212,620; chemical and drugs, 26,379.

The percentage of party members in these industries is approximately as follows:

Needle trades, 35%; leather, 60%; food workers, 121/2%; printing, 7%; metal, 12%.

## HONOR ROLL FOR 1926

New York Sets the Pace

THE magnificent success of the Lenin memorial meetings all over the I country show how reorganization on the shop nucleus basis serves to bring our party into closer contact with the masses.

Now the shop and street nuclei must begin to discuss and plan for

The party's program for 1926 must be made the basis for moving large masses of the workers into action.

Councils for the protection of foreign-born must be organized in every city in all districts. The capitalists' scheme for the deportation of militant workers and the smashing of the unions must be defeated by the working class. All workers must be organized to defeat the bill introduced into congress by Representative Oswald calling for the finger-printing, photographing and registration of the foreign-born

Defense and recognition of the Soviet Union must be discussed in every nucleus and all party fractions and brought on the floor of every trade union and workers' organization for action in forming a united front committee.

A united labor ticket for the elections of 1925 must be made the basis for the campaign FOR A LABOR PARTY. Independent working class political action thru a labor party must be discussed in all nuclei and then with the workers in the shops, in unions and everywhere.

Organization of the trade union fractions and their proper functioning in the trade unions; every member of the party a member of a trade union; get the non-party workers to join the union; this will tie our party up to the mass organizations of the workers.

Here is work to do-mass work-the kind of work that counts. Let there be an end to sterile factional discussion.

Throw the whole party into mass work upon the basis of the party's

The way to begin is to raise the \$20,000 campaign fund for 1926. "Every member of the reorganized party must be an active member."

Every member should be given a party contribution list and a record kept by the nucleus secretary of the activity of each member in the raising of the \$20,000 campaign fund. The speed with which our reorganized party will raise the \$20,000

fund will be a proof of its effectiveness for the campaign of 1926. Loyalty to the party and to the Communist International will be

proven not by words but by DEEDS.

The party now calls all Bolsheviks to action.

Get your section and nucleus on the party's HONOR ROLL FOR 1926. Raise the \$20,000 fund. This is the immediate task of the party. NEW YORK AND PITTSBURGH FALL IN LINE

Must Draw the Best Workers From All Industries Into Party.

THE influence of a Communist Par-I ty can not be measured by mere numbers only. A party of 100,000 members consisting of mostly needle trades workers, shoe workers, and others, in non-basic industries has or even less that has within its ranks workers of all basic industries. > By SYLVAN A. POLLACK. (Special to The Daily Worker)

NEW YORK, Jan. 28-A debate on the "government and the new social workers. The party must devote more order," was held by the league for industrial democracy at the Rand School between Bertram D. Wolfe, director of the Workers' School and the Rev. Norman Thomas, socialist leader, before a select audience of smug and self-satisfied liberals and socialists.

Rev. Thomas prated about demo cracy as the only salvation for the world, making one think that they were in a church. He criticized Comless influence than a party of 20,000 munism and bemoaned the fact that counter-revolutionists are today in the jails of the Soviet Union. ### Omaha Ice House Workers Driven and Cursed by Bosses

By a Worker Correspondent.

OMAHA, Neb., Jan. 28.—Carter Lake Ice House, owned by the Omaha Ice and Cold Storage company, supply ice to almost all of Omaha. Most of the workers get their ice from that company altho the conditions of work there are known as the very worst in the city. Only men who have been out of work for months take a job

I never saw men driven and cursed as on that ice jcb. One poor Negro was forced off the ice by the boss with the pike pole because he pleaded for his job after he had been discharged.

While on the job one morning I fell in the lake. I saved my life by catching hold of a worker's legs. All that day I stayed on the job altho it was below zero and my trousers froze on me. The next morning I was too sick to report for work. When I came to work on the following morning they fired me, altho they knew why I had

## ANNOUNCEMENT OF THE **WOMAN'S DAY EDITION**

"HE Communist International has set aside March 8, each year, as Woman's Day. Special propaganda is carried on and an intensive effort is made to enlist new masses of the women of the working class in the Communist movement.

The DAILY WORKER is planning to get out a special issue in connection with Woman's Day. A whole page will be given over to worker correspondence stressing the special problems and narrating the experiences confronting women in industry.

It is not too early to begin sending in this material. Women today constitute a large percentage of the workers in almost every industry. Eight million women are employed in Industry in the United States. They are a big factor in many trade unions. The wives of workers have organized auxiliaries to many trade unions. Then there are organizations of housewives that help draw the women in the home into the broad stream of the workers' struggles.

Here is a wide field that should enlist the best efforts of an increasing number of worker correspondents. Make the items short. The shorter the items, the more will find room on the page. Send in all contributions marked Woman's Day Edition, The DAILY WORKER, 1113 West Washington Blvd., Chicago, III.

## RUSSIAN COMMUNIST PARTY SECRETARY PAYS TRIBUTE TO WORKER AND FARMER CORRESPONDENTS

OLOTOV, organization secretary of the Russian Communist Party, told the recent Fourteenth Congress of the party held at Moscow, that, "The movement of worker and peasant (farmer) correspondents plays a particular role in building up socialism." One of the big problems before the congress was the strengthening of socialist forces to combat and overcome the forces of capitalism.

Tomsky demanded that the critics of the central committee should remain disciplined and work as comrades and he pointed out that Zincviev and Kamenev had never put the questions of the party leadership inside the central committee which they now put to the party congress. Zino viev and Kamenev had never made any concrete proposals for alterations to the important proposals of the central committee. The party can see the difficulties, but the critics of the central committee should not create fresh difficulties thru their attitude. They should recognize their concrete measures for testing the of the party. (Protracted and stormy

## SMASHES COMPANY UNION IN SOUTH: **WORKERS ARE NOW OUT ON STRIKE**

By ART SHIELDS

NEW YORK, Jan. 28 .- A company union that failed because it did not cut wages deeply enough to suit the boss! It took the worker's shirt, but mitting new great masses of the work. the boss needed his skin too. It happened in the south where even company unionism was not conservative enough for the employer.
