ANTRACITE WAR AT DOORS OF WHITE HOUSE

TRIAL RESUMED; **COBB ON STAND**

Makes Flimsy Alibi for Having Black-jack

(Special to The Daily Worker)

COURT HOUSE, Benton, III., Feb. 9-The trial of thirteen Zeigler miners on the frame-up charge of assaulting D. B. Cobb, sub-district vice-president, was resumed with the examination of prosecution witnesses. The first witness on the stand was Cobb, on whose beating at Local 992 in August 11 has been hung the attempt to railroad the progressive miners' leaders to the

His testimony followed the pattern set by Lon Fox, sub-district president, last Friday, with a few added frills. Like Fox he stated that Stanley Paurez had said something in a foreign language just preceding the attack, and that Henry Corbishley had shouted: "Kill the sons of b---," and that some of the defendants had struck him. It was the very same stuff that the others had memorized and repeated at this trial so carefully.

Produces Alibi.

The high-light of his testimony was his attempt to produce an alibi for having a blackjack in the hall. His alibi is that while he was being beaten he pulled a blackjack from the hand of man and with an innocent air cools admits having used it to strike cooly admits having used it to strike someone during the battle. He does not "remember" whom he took it from. Many miners testify that Cobb started the fight by using his blackjack which is now in the possession of the Zeigler police.

During cross-examination, the defense tried to squeeze from Cobb the cause of the trouble in the local union. The prosecution objected and was sustained by the judge.

The very mention of coal weighing is sufficient to send the whole crew into a panic. They know that the whole trouble started because Fox and Cobb sided with the operators to swindle the miners on the coal weighing and deposed the progressive local officers at the demand of the company. trict office at West Frankfort on Aug-11 preparing strong-arm plans for the Zeigler meeting that night.

SENATE REQUESTS COOLIDGE TO CALL COAL STRIKE CONFERENCE; FEARS POLITICAL CONSEQUENCES

(Special to The Daily Worker)

WASHINGTON, Feb. 9.-The senate today requested President Coolidge to intervene in the anthracite coal strike, by calling the operators and miners to the white house for a conference. The senate's action was taken by the adoption of the Copeland resolution, which it twice voted down last week.

Its adoption followed a flurry of debate, in which administration leaders characterized the move as "futile," and sought to prevent its passage as an embarrassment to the administration, but the democrats rallied around the resolution and supported by the insurgent republicans it+

The resolution specifically requested Pres. Coolidge to initiate action which will settle the strike.

The president, informed questioners that he did not see wherein the situation was changed any by the senate's action, for if it had appeared to him that his intervention would have made peace in the anthracite industry months ago such action would have been taken.

The fact that 55 senators voted in favor of his interceding, however, constituted a serious factor to be considered. The governmental policy has been to regard the situation well in hand as the mine union officials have been allied with the Pennsylvania police in order to crush any militant opposition that may arise and threaten the mine barons. Because of coming congressional elections Coolidge has refrained from intervention. Now, however, the senate insurgent republicans and democrats are forcing his hand. If he refuses he will be accused of cowardice. If he acceds to the request he will antagonize organized labor. Progressive Miners' Committee Fights D u a l Unionism

Railroads Show Biggest Profits in History, But No B. & O. Wage Boost See Modification Fight

By J. LOUIS ENGDAHL.

TODAY, two giant facts stand revealed to America's workers who have been drugged with the class collaboration

dope of the labor bureaucracy. They are:
FIRST—The Bureau of Railway Economics at Washington officially records the fact that the principal railroads of the country earned \$1,136,973,477 net in 1925, the largest total in their history.

SECOND-The Baltimore & Ohio Railroad officially admits that it has not granted any increases in wages to its shop-craft employes since March, 1923, which is nearly three

The railroads push their profit loot above the billion mark but the railroad on which the "B. & O." plan of class collaboration is put into effect announces that not one penny has gone to its shop workers in increased wages.

That is something for labor to think about. William Johnston, president of the International Association of Machinists, with others of his kind sponsored the "B. & O." plan, deluding the workers into believing that if they would co-operate with the bosses, work a little harder, then the resulting increase in profits would make it possible for the "kind employers" to raise wages. This fake received the official "O. K." of the American Federation of Labor at its recent Atlantic City convention. More than that, the A. F. of L. pleaded with the employers that with the increase in production and the elimination of waste, the workers be granted increased wages, so that their purchasing power would not be reduced.

Thus the A. F. of L. stands back of "B. & O. Bill" Johnston and Bert Jewell, president of its railway department, in seeking to spread the "B. & O." plan to other railroads, notably the Chicago & Northwestern. Thus the policy of class collaboration instead of class struggle is being energetically developed.

The capitalist press is doing its best to perpetuate the fiction of the labor bureaucracy and the railroad barons that the "B. & O." plan benefits the workers. It was the press of the employers that recently spread the story that the Baltimore & Ohio railroad shopmen were enjoying an increase of ONE CENT PER HOUR.

Even if this were one hundred per cent the truth, it would mean very little—less than 50 cents per week. This is hardly enough to pay a single admission to a decent "movie" performance. But this was also a barefaced lie.

The Federated Press made inquiry at the office of F. E. Blaser, assistant to the vice-president in charge of operations and maintenance, of the Baltimore & Ohio Railroad Co., and got the following authoritative reply:

"REFERRING TO YOUR LETTER OF THE 2nd INSTANT WITH REFERENCE TO THE DAILY PRESS CARRYING A NOTICE SOME WEEKS AGO OF A ONE-CENT-AN-HOUR INCREASE IN WAGES OF B. & O. SHOPMEN, THIS INFORMATION WAS INCORRECT, AS WE HAVE NOT GRANTED ANY INCREASES TO OUR SHOPCRAFT EMPLOYES SINCE MARCH 1923."

Fewer men are doing more work at less expense on the railroads than ever before. But the promised wage increases do not materialize. "B. & O. Bill" Johnston may talk long and loud about his class collaboration scheme. Matthew Woll. vice-president of the A. F. of L., may argue himself black in the face about the "new wage theory" that is going to hit the class struggle on the head and bring about "peace and harmony" in industry.

The Bureau of Railway Economics at Washington states the facts, however, as follows:

"It is an interesting fact, in connection with the increased efficiency with which the railroads were operated in 1925, that while gross open ating revenues in 1925 were approximately three per cent above those of the year before, there was only an increase of one-half of one per cent in operating expenses altho there was a gain of approximately six per cent in the amount of freight traffic handled."

In spite of all this the railroad barons are determined to continue their struggle against any wage increases for labor.

They offer the argument that the increased earnings come as the result of additional investment in roadbed and equipment, says the New York Times, and therefore claim that the stockholders ought to get the increase because "the railroad stockholder is still far from a fair return on the capital he has supplied."

This ought to be plain enough to make the railroad workers understand that they will get nothing from the great railroads that they do not fight for and take. The parasite stockholder never has received enough, from his viewpoint, in all the history of capitalism.

That means that the workers must develop their unions into militant organizations for class struggle action. Bitter experiences will force them to realize this fact. Labor must triumph over the class collaboration schemes of employers and traitor officials by welding its power under the standards of working class solidarity. Only that way lies victory.

Clergy Argue on Light Wines and Beer; Forget Unemployed Must Eat

NEW YORK, Feb. 9 - Bishop Wiliam Manning in a sermon on prohibition at the Cathedral of St. John the divine denounced and repudiated the Church Temperance Society's "change of policy" favoring light wines and beers. He declared the society did not speak for the Episcopal church either of the nation or of the New York diocese. Manning came out for stricter enforcement.

Dr. James Empringham has declared that he will answer the sermon by Manning and defend the position favoring light wines and beers.

May Be Held in France

GENEVA, Feb. 9 .- Following the refusal of the Soviet Union to attend any league conference on disarmament if it is held in Switzerland, as they do not want to have any of their representatives assassinated as one of their delegates to a conference in Switzerland was, France is offering the disarmmaent conference Evian les Bains and Aix les Bains as

sites for the conference. The muncipal government of Geneva is urging the Swiss government to right the wrong that was done the Soviets. They call on the federal government to punish the assassin and not allow him to remain free. The municipal government here had contemplated to make a goodly sum of money thru the conference being held here as there would be many delegates and visitors. Now Geneva will lose all this.

As the European powers insist that Russia be one of the participants in this conference as nothing definite can be decided without her participation, the conference will have to be held outside of Switzerland. Evian les Bains is gaining in favor as it is near the Swiss border and not far from the secretariat of the league.

The fact that the movement originated in China and has its central headquarters in revolutionary Canton is vastly significant. Not only does this mean that it has a definite base of operations but that it springs directly out of the anti-imperialist struggle which has already attracted the enthusiastic admiration of oppressed peoples in all parts of the globe. All small or weak countriesespecially those of Asia-are subjected to the economic and political

rule of imperialism. The imperialists have turned our territories into colonial or semicolonial countries. They compel us to buy their surplus goods. They compel us to supply them with raw materials. They rob us of our wealth. They exploit our labor. They deprive us of our political and social rights. They slay our innocent brothers. They not only enslave us, they

threaten our race with annihilation. The only means to save us from this oppression is to gather together all oppressed peoples and the exploited proletariat of the whole world and to overpower our common enemy, imperialism.

As our masters have united to

oppress us, so we must gather together to defeat them . . We revolutionists of China, India, Korea and Annam have today founded the International Union of Oppressed Peoples. In this historic moment of the awakening of the oppressed masses of Asia, we appeal solemnly to you.

Oppressed peoples of the colonial and semi-colonial countries! The imperialists can exploit us and treat us worse than cattle so therefore unite! Union will be our strength, and we shall be as strong as lions. We are hundreds of millions against the small minority of tyrants! Do not fear! Even with their poison gas and their guns they can never kill all of us. Unite your forces with ours in a fight for justice and fraternity and the annihilation of imperialist tyranny!

Workers of the whole world! You know that those who exploit and oppress us are the same who exploit and oppress you. The capital-

ists make use of you to oppress us; they make use of us to oppress you. In the late war, they brought Negro and Asiatic troops to Europe to kill Europeans. And now they are introducing white proletarians into our countries. You will not be free as long as we are under the imperialist voke. And we shall not be able to emancipate ourselves until you are free. Help us to emancipate ourselves! By helping us you help yourselves! Our cause is yours. In

fighting for our own freedom we fight at the same time for yours. Comrades! Let us break the imperialist power by our revolutionary

NEW YORK, N. Y., Feb. 9.-His onor, Chief Justice Czar Hutcheson, made two famous decisions, pertaining to Carpenters Local Union 376. This is the local that circularized the progressive carpenters program, when Rosen was a candidate for general president. Since then, the local has been found guilty of witchcraft, and the heresy hunters have been busy in their efforts to bring their victims to

Carpenters local 376 elected Rosen as a delegate to the district council of carpenters and the only objection raised in that body was that he was candidate for general president. Two months later the local was informed that Rosen "wasn't a carpenter," therefore he is disqualified.

Local Appeals for Rosen.

The local carried on a big fight exposing this fake to the membership with a circular letter and resolution to all the locals. It later appealed to Hutcheson. In the appeal it was pointed out that the reason Rosen wasn't seated was because he was a candidate for general president, and fights for amalgamation, a labor party, world trade union unity, job con-

trol, and other progressive measures. Hutcheson asked the local to let him know what they meant by amalgamation. The motive was to catch clared to coal drivers. JOHN LEWIS LEADS THE MINERS TO STRUGGLE

AMALGAMATION OF TWO MINNEAPOLIS PAINTERS' LOCALS IS PROPOSED

MINNEAPOLIS, Minn. Feb. 9 .-Local No. 186 Painters' Union, voted unanimously to give its charter as a first step toward amalgamation with Local No. 586 with whom there has been trade disputes for over 25 years to the detriment of the painters' conditions on all sides. Local 586, which is dominated by reactionaries has gone on record as opposed to this amalgamation, evidently prefering to continue the guerrilla warfare between the locals and so demoralize the union.

About 25 years ago, a group of painters broke off from Local No. 186 under the influence of a few leaders who considered their personal interests above those of the painters' as a whole. Now the sentiment is so strong to amalgamate that it is commonly understood that the two locals will be united under a new charter before long.

IN OPEN DEBATE

Audience Agrees With Communist Speaker

CLEVELAND, Feb. 9 - The debate between I. Amter, district secretary of the Workers (Communist) Party, and M. C. Harrison, an attorney of this city, demonstrated that the foes of Communism know little about the country they praise so much and less about Soviet Russia.

Workers Protect Their Interests.

Amter, who took the affirmative on the question "Resolved that the Workers (Communist) Party has the only program for the working class." de monstrated that the premises for the revolution are presenting themselves in the European countries and are developing in the United States. PIERCE-ARROW SHOP NUCLEUS ISSUES PAPER

Buffalo 'Workers' Point' Too Sharp for Bosses

The Workers (Communist) Party Shop Nucleus in the Pierce Arrow Motor company, Buffalo, N. Y., issued the first number of its shop bulletin, The Workers Point, on Feb. 5. The bulletin is headed with a cartoon depicting a gleeful worker jabbing an arrow into the back of a fat, frightened boss. The bulletin consists of one sheet paper, neatly and attractively mimeographed on two sides.

The leading article deals with the walkout of seventeen metal finishers in the body department of the plant, due to delay and failure in supplying them with stock. These workers are piece-workers and when they do not receive materials they have to stay in the shop without being paid for their time. The article also goes into the evils of the piece work system as a whole, and calls for its abolition and for a 44-hour week.

A short snappy editorial takes up the "dynamite plot" trial of ten members of the Street Car Men's Union and their acquittal. It points out that the workers must not be misled by the verdict of "not guilty," and recalls to the workers the cases of Tom Mooney, Sacco and Vanzetti, and the 106 other class war prisoners who are in jail for their working class activity. defense organization and calls upon al Labor Defense protest meeting the labor spy by the enemies of la-

PRISON RULES FOR WORKERS AT MILLER SHOE CO.

4,000 Workers Must Join Union

(By a Worker Correspondent) NEW YORK, Feb. 9-Miller's Shoe factory, in one of the largest openshop establishments in New York, employing over 4.000 workers. The average wage that is paid these workers is \$12 a week regardless of whether is a boy or girl, man or woman or whether they have worked three ways the same.

The rules that are enforced in the factory remind one more of a prison than a shop in which shoes are made. We work in dark rooms all day long on black shoes. After working a number of hours in such bad light, the eyes weaken and many of the workers here are always complaining about their eves.

No Pay for Overtime.

Every worker must be at his work comes in five or six minutes late that is taken from his pay. During the day every effort is made to have the workers work a few extra minutes before they quit for lunch and before they leave for the day. They are not paid for this time. They do not pay for

One worker who had worked in the shops for nearly a year and had never missed a day, came in fifteen minutes late one morning, not thru any fault of his, but because the trains had been delayed. He was fined for coming in late.

The company does not supply drinking glasses or paper cups to the workers. The worker must furnish his own glass.

No Towels in Washrooms.

There are no towels or soap in the washrooms. The facilities for washing one-self are so poor that the workers are forced to eat their lunch without washing off their hands after handling leather and other materials all day

There are no lockers in the dressing rooms. If you miss anything and tell the boss about it he just says: "well if I found who took it he or she will be fired." One worker lost his sweather in the dressing-room and when he threatened to make the company pay for the lost sweater, the boss answered "why don't you watch your sweater."

Conditions in this shop are so bad that it would be impossible to find worse conditions in any other shop. The workers in this shop must organize and show the bosses that we will not work all week and overtime when he wants it for just \$12 but that 'e want more and if we organize we

MAKERS FROM PICKETING SHOPS

This Week's Prizes!

This week's prizes for the best contributions by worker correspondents will differ somewhat from those previously offered. The first prize will be a valuable fountain pen. In the near

future when the increased circulation thru the co-operation of our worker correspondents will permit we promise to offer a portable typewriter. Now we must confine ourselves to a fountain pen, but even that is not a gift to be sneezed at by a worker correspondent, since it is a useful tool in the trade of writing.

The second prize will be Karl Marx's Capital, Volume No. 1, because we feel that every worker correspondent should familiarize himself with Marxian economics.

The third prize will be Lenin on Organization, Volume 1, a valuable and necessary book for every worker correspondent's library. It needs no further recommendation.

MARX AND ENGELS

REVOLUTION IN AMERICA

No. 6

IN THE LITTLE RED LIBRARY

More than fifty years ago the men who first clearly formulated Communist principles, foresaw also the development of American labor.

This booklet, written by one of the outstanding figures in the revolutionary movement in Germany, gives us the letters in which the two great minds pointed out the road for American labor.

The lessons of Marx and Engels written many years ago still hold good today and should be carefully read by American workers for their immediate as well as historical value.

PENNSYLVANIA RAILROAD MAKES PROFIT OF MORE THAN \$100,000,000 **DURING 1925; WORKERS SPEEDED UP**

By LELAND OLDS, Federated Press.

The Pennsylvania railroad, leading off in the railroad industry with a 1925 profit of more than \$100,000,000 reveals the capacity of the carriers to share their record prosperity in substantial wage increases to their employes if they cared to. The Pennsylvania report is just one in the series of annual statements now coming out which strike the prosperity note over and

ization that under certain conditions liquidation of the European Communthe bourgeoisie, because they proved liouaire interest sin control. Altho \$26,837,786 more business was done than in 1924, transportation costs (of which wages make up a considerable part) were actually \$5,137,916 less. The journal comments:

"Probably one explanation is the increasing stock interest being taken by the employes. Most of the railroad dollar has always gone to labor, and employes are now benefiting to an increasing extent in the much larger segment which is distributed in dividends."

The statement that most of the railroad dollar has always gone to labor Three of the 70-year old teachers is not accurate. Awakement

Listen! It is sounding.
Over the world, clear,
Comes the noise of the clamor
Tyrants fear.

Hearken! It is saying Patiently build For the hour when the vision Will be fulfilled.

Like a red thread running From land to land. The whole world binding In a crimson strand, Run the ships of the Masters Fleet and strong, Bearing the Revolution along.

Like a red storm shouting
O'er land and sea,
Heard in China and Italy,
Heard in England and heard in Spain,
Over the world and back again,
Shout the guns of the Masters
Hoarse and strong,
Speeding the Revolution along.

Tramp, tramp, tramping
The soldiers go,
Flaunting the slavers' flags of wee
Hep, hep, hepping
With steel and lead
The sea-dogs come, and the ground
is red is red,-From Port au Prince to far Hone

Rearing the Revolution along.
