FORCES AT BEGINNING OF FIFTH WEEK; EMPLOYERS ARE DESPERATE

By J. LOUIS ENGDAHL.

(Special to The Daily Worker) PASSAIC, N. J., Feb. 21 .- With ranks still growing the 10,-000 textile workers of this district are celebrating George Washington's birthday by holding special mass meetings to inaugurate the fifth week of their strike.

For the first time in the history of the industry the mill owners have declared Washington's birthday anniversary a holiday. They made last Saturday a full holiday for good measure. But it was all a bluff on their part. There were no workers in the mills, with the exception of a few foremen who had brought

their wives to parade as scabs, * so there were workers to enjoy the holiday.

The strikers are standing solid. The struck mills and the number of workers out in each mill are as follows: Botany Worsted mills, 5,500; Gera Worsted mills, 1,200; Forstman-Huffman mills, 2,000; New Jersey Worsted mills, 800, and the Passaic Worsted mills, 1,200.

Others to Come Out.

The Fostman-Huffman concern has several mills. About half of the workers in these plants are out. Efforts are being made to bring out the yet been struck. Many came out during the week-end. Indications are that the workers in the mills of the Dundee Textile company will also

(Continued on page 2.) (Continued on page 2) Organize for the Struggle in 1926

The forces of reaction are not idle. Steadily, surely, quietly, the capitalist parties are preparing for the campaign of 1926 against the working class. Every unnaturalized foreign-born worker is threatened in the various bills now before congress which would register and photograph the foreign-born. The whole standard of living of the American working class, the right to strike, the right to organize, is being menaced.

The Furriers' Union is being attacked; the I. L. G. W. is preparing to resist the drive of the bosses against their union; the hard coal miners after six months of bitter struggle, have been betrayed in the most brutal fashion by the Lewis machine; eight thousand textile workers in Passaic are engaged in a struggle against the millionaire mill owners; the railroad workers are demanding an increase. The workers are reacting to the forces that are moving them into the struggle.

The capitalist courts have not been idle. In Pittsburgh the capitalist dictatorship has made it a crime to belong to the Workers (Communist) Party; in Zeigler the bosses, the bosses' government and the bosses' labor lieutenants have combined to send eight militant, class-conscious miners to jail for fourteen years; in Massachusetts the old laws against blasphemy passed in 1669, are resurrected to send militant working class fighters to jall; the bastiles of California are still crowded with the best working class fighters. The army, the police, the courts, every weapon of the American capitalist government is called into action against the workers and farmers of America.

In 1926 the parties of capitalism will again come before the workers for a vote of confidence in the dictatorship of the bosses—the present government. The increasing resentment of the workers against the brutal attacks and betrayals must be crystalized into action. It is our party's opportunity and its obligation to organize the exploited masses for the struggle in 1926 against the program of the capitalists. Against the capitalists' program the workers must set up their own program. Our party has formulated this program and our party must now prepare to mobilize the workers for the campaign of 1926. The advance guard of the workers-the Workers (Communist) Party mobilizes first. Every unit of the party must respond to the call of the party's general staff, the central executive committee, to raise a campaign fund of \$20,000. Up to date, very little has come in on this fund. Our party cannot take a vacation; our party cannot rest. The class struggle goes on-the capitalist forces are mobilizing to crush the workers and their organizations.

Our members must supply the funds with which our party is to enter the campaign for 1926. Our party is equal to this task and must enter upon its duties with the enthusiasm and determination which marks us

'BLASPHEMY' TRIAL STARTS DEFIANT STRUGGLE AGAINST POLICE

(Special to The Daily Worker)

BOSTON, Feb. 21.—This city is in the throes of a free speech fight. The codfish-textile aristocracy of the back bay district is allied with the shoe manufacturers in a desperate effort to prevent the puritan blue laws being wiped off the statute books. The authorities of three cities have prohibited meetings called for the defense of A. Bimba, accused at Brockton of violating the old puritan law of 1696 against blasphemy. This shows a concerted red-baiting drive conducted at the behest of the owners of the textile and shoe slave pens who fear the rising tide of class

HOME-RENTERS ON INCREASE AS HOME-OWNERS DECREASE IN U. S.

DES MOINES, Ia., Feb. 21.-American homes are fast disappearing and those that are still left are fast becoming mortgaged to the limit declared J. B. Hammond, Des Moines representative of the American Homes Association, in one of the local churches.

In order to show that America is fast becoming a nation of home-renters he showed that in 1900 there were 8,365,739 families, or 53.9 per cent of all Due in Soviet Union dition of the United States prevent. the agreement between the union and our families, lived in rented homes. In 1910 this percentage increased to 54.2 and in 1920 to 54.4, 12, 943,598 American families renting homes.

Statistics also show, he said, that whereas in 1890 the percentage of homes mortgaged was 27.7, in 1920 39.7 per cent of all homes, not including farm homes, were mortgaged.

"These figures demonstrate clearly that the increase in the percentage of mortgaged homes cannot be attributed to the purchasing of more homes on deferred payments, else there would be a decrease in the number of rented homes, as the home renter would become a home purchaser," he said.

But each one of these glorious efforts is sufficient in itself in extent and interest to provide a separate chapter in labor's struggle for

ALL that is possible here is to extend a word or two of much deserved praise and encouragement to the hundreds of New York DAILY WORKER Builders who believe in the strengthening of the 'Communist press with the proletarian intensity that spells death to

The example they have set should rouse workers in every city in the land to organize and develop DAILY WORKER clubs.

E. KATTERFELD, manager of The DAILY WORKER New York agency, is the genius who initiated and developed the N. Y. DAI-LY WORKER builders' club idea. In this case, as in so many others, genius is synonymous with hard work. This is said in order to convince DAILY WORKER Builders everywhere that it is not difficult to duplicate the Katterfeld idea.

Volunteer work is the basis of admission and good standing in the club. In order to win membership "The Builder" must sell at least \$10 worth of subscriptions, secure at

least \$10 in donations, sell at least \$10 of rescue tickets, collect from newsstands every week, or work at least 20 hours in the office, which includes the usual folding and stuffing and inserting, with 'addressing, while numerous comrades are gradually developed for more intricate tasks, like the keeping of mailing lists and card indexes.

Then there is the reward! In addition to Communist work well done, a tremendous satisfaction of untold worth, there is the joy of being numbered among the elect at the semi-annual affairs for builders only. Last summer there was an excursion up the Hudson River to Stoney Point. River excursions for New Yorkers in summer are welcome escapes from the prison of torrid heat, frying pavements and towering walls of stone, brick or concrete and steel everywhere, with only insignificant patches of green in the scattered public squares and you can not sit on the grass in aristocratic Central Park. Katterfeld knew what he was doing when he offered an excursion as an inducement to work to New York's DAILY WORKER builders.

This Sunday there was a banquet for 500 builders, the midwinter "affair." More about this will appear in the news columns. This is being written as the list of the 500 lucky ones is being completed here in The DAILY WORKER office. Some have worked hard, qualifying for hundreds of dollars. It said that one builder does his \$10 bit on an average every week. A large number hover around \$20. The records show that the aspiration isn't to just make good on the \$10 but to keep on working to the limit at all times. Non-party members are welcome as builders. But they do not long remain on the outside of the party. The contact once established soon brings them into the party, becoming a party builder as well as a DAILY WORKER builder.

THIS coming summer there is going to be something out of the ordinary for these DAILY WORKER builders. The quota is to be raised to \$20. But the prize is to be a three days' outing. It is expected that 1,000 builders will qualify.

You can take a pencil and piece. of paper yourself and figure just how long it is going to take to establish a New York DAILY WORKER. If you get the pulse correctly of these builders you can feel that that is what they are working for, a DAILY WORKER in New York, for which they have already established thousands of contacts in the shops, the factories and every other place where men and women and children of the working class go down to their jobs to struggle for an existence under capital-

IN another year it should be possible to call the roll of hundreds of DAILY WORKER builders' clubs all over the nation.

New York City promises the nation it will have a roll call numbered in four figures steadily growing of DAILY WORKER builders.

FAKE AMNESTY IN BULGARIA Cabled Protest Asks

Full Amnesty

(I. L. D. Press Service)

A spirited note of protest to the Bulgarian government for its fraudulent "amnesty" was sent to Sofia today by the International Labor Defense, in the name of almost a score of leading liberal, radical and labor men and women.

The cabled protest is in reply to the appeals from Bulgaria against the proposed "amnesty" introduced by the cabinet of M. Liaptchev, the successor to the hangman Zankoff. The cable reads as follows:

NARDONO SOBRAINE, SOFIA. BULGARIA. CABLED REPORT IN-FORMS US THAT YOUR GOVERN-MENT REFUSES TO CARRY OUT PROMISE OF AMNESTY TO ALL IM-PRISONED UNDER ZANKOFF AND GRANTS AMNESTY ONLY TO SE-ECT FEW. WE DEMAND FULL AMNESTY AS PROMISED. SHALL BE COMPELLED TO CARRY ON NATIONAL CAMPAIGN AMONG AMERICAN PEOPLE IF PROMISE IS NOT FULFILLED.

The cablegram is signed by Charotte Anita Whitney, Wm. H. Holly. Eliabeth Gurley Flynn, Robert W. Dunn, Ellen Hayes, Robert Whitaker, A. T. McNamara, Albert F. Coyle, H. W. L. Dana, Roger N. Baldwin, E. C. Wentworth, Eugene V. Debs, Ralph Chaplin, Alice Stone Blackwell, David Rhys Williams, William Bouck, Kate Crane Gartz, James P. Cannon.

The Fake "Amnesty." The proposal of M. Liaptchev, the remier of Bulgaria, came to the naional Bulgarian assembly, after the entire world had raised its voice in norrified protest at the brutal persecutions which marked the bloody eign of Zankoff, and filled the prisons of Bulgaria with thousands of workers and peasants, and the earth of the country with corpses.

M. Liaptchev proposed a bill which provides for the release of thousands of criminals, most of whom were imrisoned under the regime of Stamoulinski, the peasant leader. Those mprisoned were speculators, usurers, war profiteers, and ordinary criminals. The rest are mainly composed of fascist murderers whom even Zankoff was obliged to imprison, so heinous were their crimes and so loud the protest of the people.

While these elements are to be freed wholesale by M. Liaptchev, who bids fair to become an even more cunning Zankoff, the more than 5,000 political prisoners are to stay in jail, with the exception of 1,500 of them who compose the least known and most innocent victims of the teror. And even those political prisoners who are to be released have strings tied to them which makes the release a bitter joke. Some of them must pay big fines, which most of them cannot do and as a result must return to serve their time. Others have similar barriers cast around the road to freedom from the dungeons of the reactionary Bulgarian rulers.

Need Foreign Loans.

M. Liaptchev is anxious to gain a reputation as a humanitarian in order to remove the black stain from the shield of Bulgaria, a stain made by the blood of thousands of brave workers and peasants. Foreign capitalists never dared to negotiate foreign loans during Zankoff's rule because of the extent to which Zankoff was cordially despised thruout the world, a symbol of shameless oppression. Now M. Liaptchev is attempting to gain a reputation with a false "amnesty" bill in order to obtain financial recognition thruout the world.

The officer told the mothers again that they all can go home and that the committee would bring them the answer. The mothers insisted on remaining. At half past four instead of the mayor, the superintendent of the board of education with a staff of assistants came down to see the mothers and hear their demands. The attempts of the miners to form quadruple alliance of metal workers, ransport workers, railwaymen and miners, did not lead to any practical results in spite of the formal consent of the executives of all these organizations. The agreement exists only on paper, whilst in reality it has been sabotaged, thanks to Thomas and Co., who cannot imagine any possibility of action when interests are at stake which are not those of their union. Such an attitude is quite natural for people like Thomas. They are against action when the interests of those sec tions of labor are at stake at the head of which they are; why should they act in defense of the workers of other branches of industry?

Veering to Left. The Scarborough congress did not go any further than what actually exsts and it did not do so because many by means of negotiations and persua- agains, the adoption of new tactics called forth by the growing acuteness of the class struggle. They were particularly afraid to extend the powers the more sensitive leaders feel the of the general council, for under ex-

In spite of this the Scarborough concress is an important landmark in the development of the British labor move ment. In spite of the relics of the old, he progress noticeable within the masses of the British proletariat found n echo in it. Life tself will introduce the necessary alteration into the vague formulae, practical struggle will do what has been left undone by the congress. To understand the trend of development of the British labor movement one must first of all turn to the real struggle of the British proletariat and then only after that to the resolutions of its ongresses. The situation in Great Britain is perfectly clear: the veering to the left is proceeding steadily.

WORKERS' SCHOOL OPENS DRIVE TO RAISE \$10,000

Raise \$4,000 at Student Banquet in New York

ed it raises the \$8,500, necessary to complete the \$10,000 fund, by March the national union. 14, the final date set for the drive.

The ample banquet hall was so badly overcrowded that it was neces sary to hire an additional hall to feed the many friends of the school that came to rally to its support, and amid scenes of the greatest enthusiasm and good fellowship, the sum of \$4,000 was raised in the single evening. This is a political event of the greates importance in the history of the Workers (Communist) Party because it marks the growing mass support that the Workers' School and the type of class struggle education that the party offers is awakening in the ranks of the organized workers of the city of New York.

Make History.

"This night, you have made history," said Robert Minor, one of the speakers at the banquet. "Your splendid drive, which marks the proletarian mass support that the Workers' School has won for itself in the city of New York is an epoch-making event in the sense that it is the be ginning of the end of capitalist ideology and yellow socialist perversion of Marxism in the American labor

to those so-called workers' education movements that wish to bring bourgeois 'culture' to the working class thru the aid of bourgeois professors. We challenge also such institutions as the Rand School which combines courses in appreciation of music, literary criticism and aesthetic dancing with gross perversions of socialist economics, politics and philosophy.

"Nor do we hold the illusion that is Loreites that the American masses cal in the interest of the masses. They intern. Join the union! will learn thru formal education in the class room. There are those who think that the class struggle is so-think that the class struggle is so-the \$8,500 should be raised, provided Big Charleston that the ignorant, incompetent and even treacherous leadership that the American working class has had, have made that path harder and we know ing class.'

The Drive Begins.

After several of the students told of the value of the school's education to them and the needs of the school, Moissaye J. Olgin opened the appeal for funds. He called for a substantial contribution and \$500 from A. Goodman answered his call. Followed a pledge of \$500 from Eugene Schoen, a check for \$100 from Bishop Brown, a check for \$250 from Edward Royce and then \$500 from B. Brodsky

Workers and Farmers Must Unite Forces

KANSAS CITY, Kans., Feb. 12 .-Co-operative farming comprises every co-operative purchasing and when activity of co-operative marketing and groups of these small industrial units, the farms, are placed under scientific management, then, and not till then, shall we see the metamorphosis of the farm into the new and greater power," declares Dr. William J. THE ZEIGLER FRAME-UP

By G. ALLARD.

The Zeigler progressive miners who have been on trial for the last ten days have been sentenced ranging from one to fourteen years in prison for nothing else, but honestly defending the rank and file from the traitorous hands of the Farrington machine represented in southern Illinois by D. B. Cobb and Lon Fox, two useful servants of the corrupted machine. They stop at nothing to obtain their object whether it involves the wrecking of the U. M. W. or not.

It is their villianous acts towards the Zeigler miners that made the fight inevitable. When the officials of the sub-district came to the local uinon the miners saw again that they were being betrayed as at all previous cases that came up for a decision between the pit committeemen and the company. Unfortunately in this battle a progressive miner was murdered by a ku klux klansman and a henchman of the Farrington machine. When the trial came up they tried to indict Frank Corbishley as the murderer.

The only crime that these men committed is that they supported the other miners in insisting upon the company to give them decent wages by giving them correct weight on the coal that they produced. The official of the sub-district who robbed Henry Corbishley of his position by stealing sufficient votes to give them the seat, came to Zeigler and upheld the demands of the company against the miners. They were supported by the K. K. who no doubt they belong to. The progressive miners fought against the menace of the K. K. K.

The conviction of these eight men who uncompromisingly fought against the labor fakers and enemies of organized labor, is not only a blow to them, but a blow against the entire labor movement in America and the working class must energetically reply to this open challenge by intensifying their fight for the progressive movement in the unions which has the only program that will better their living standards under the system.

WHY A YOUTH FRACTION?

By I. LAZAROVITZ.

ARTICLE II.

In the first article we have pointed out already the various mistakes that our comrades make in regarding the youth fractions. But in the process of organizing youth fractions and working with them we meet some more

Some comrades claim that the youth fractions in certain unions are unable to do any work, because the comrades are engaged in a general fight worker. (2) That every member of would mean such a revolutionary step against the present leadership. These comrades have again a wrong conception of our role as young Communists.

Let us once for all straighten out one question. What is our role as young Communists in the labor movement as a whole? As a part of the working class, we, the young Communists, recognize the general class strugthe problems in the shop and then Bolshevik and dismissed from the gle that is going on at the present moment, and participate in this struggle as much as possible. But while we participate in this struggle, we realize that the working class youth is confronted with problems of its own. For this reason a separate youth organization is needed, in order to raise the specific youth demands in the labor movement. Therefore, we say, that we the youth, should participate in the general struggle, but it does not mean that while we are engaged in the general struggle, we are unable to react upon the specific youth demands. However, we believe that this struggle as would fit the members of the should not be isolated from the general struggle,

The same applies on the economic field, and when our comrades say that they cannot participate in special youth work on account of being engaged in the general work in trade unions, we say that this is a very poor answer. Our comrades must remember that they are members of the Y. W. "Now that the farmers have been L., and wherever they come in contact with young workers they must try are made that the money be used to drawn into the industrial whirl they to win over these young workers, and this can be done only when our comsubscribe for workers unable to pay must readjust their operations accord-

But now we come to another interesting point. Some of our comrades, is to install proper storage and avoid altho they agree with the existence of youth demands in various trades, wastage. The farmer must enforce claim that their particular trade has no youth demands, and therefore their lower cost of production, steady sale youth fraction has no work. It must be understood that our young comrades and rapid delivery just as any modern in the labor unions should not wait until the youth demands call upon them, industrial institution, and yet how but they should look for these demands. It is impossible that under the the founding of the Comintern and many farmers realize their transforpresent reactionary leadership, there shouldn't be any youth demands. The thing that a youth fraction has to do is to call the attention of the leaders to these various problems.

Even some so-called progressives think that a youth problem is a side issue. The youth fractions, therefore, must develop a systematic activity within trade unions in order to win over the young and adult members of He speaks the truth but the word the trade unions to endorse the youth demands, and to force the bureaucracy "retire" is relative. One can retire to fight for him. In some trades we have the situation where young workers don't enter the unions on account of high initiation fees, and naturally these young workers are not protected by the union, but they are used by the exploiters to cut wages of the adult workers. They are used in time of strikes, trict arrangements be made and halls family, and in this relationship he will etc. In such a case the slogan of our youth fraction should be: Young workers to be accepted on equal terms into the unions with lower initiation fee.

There are a lot of other problems or youth demands which could be touched upon, but let's see what is the political significance of the youth fractions, what does our league gain by having an organized fraction within the unions, why is it so necessary that the Y. C. I. emphasizes time and again that our entire membership should be unionized?

An answer on all these questions we shall try to give in our next article,

FORD BOSSES WITH SPEED-UP

Klansmen Aid Detroit Flivver Magnate

> By WILLIAM QUEALY, Worker Correspondent.

DETROIT, Feb. 21.-The slave drivers at the Ford plant in Highland Park are experts at handing out pun ishment to the workers who must toil under them.

In order to hold a job one must actually be a sucker. The way to be a sucker is to work like the devil and every time that the form of the boss shows itself-and save us from the superintendent-you must cringe and let them see that you consider yourself an inferior being. They seem to like it and it makes them feel all the more important. The straw boss is somewhat of a sophomore gentleman wearing an imitation diamond ring. From that gentleman you get most of the orders. The sucker who sets the pace must take care that we turn out the production.

Four Others Return.

While the boss was on his way to the office four sawyers come in, one with his ears frozen. The boss entered the bunkhouse with check in hand and the air of a bulldog chasing a kitten. When he saw four more men, he wilted. He quickly folded the check and instead of firing the worker offered him a warmer coat. O, he is a kind. boss, he is! He is kind, like all bosses, when by throwing the slaves a crumb, profits flow into his larder as a result.

Unionize! What is the point, in this incident? It is this: if the workers were united, they would change those conditions but as we are unorganized, we must knecl at the bosses feet and eat the dust from his boots.

Eighty-eight per cent of the membership voted in the referendum. Out of 2,981 members, 2,072 were in favor of demanding an increase in pay, and 385 against. The majority of those voting favored the continuance of the 8-hour day and the 44-hour week. Some voted for a 6-hour day and a 5-day week.

In the meeting of Local No. 7 in Minneapolis at which the increase was discussed and voted upon, the business representative of the district made a plea which did not change the desire of the membership. He thought that a dollar an hour would be enough if it could be gotten, that many contractors would lose money, and that a big increase in pay would be hard on the fair employers. The sentiment was overwhelming against him and there was threats of remov-

ing him from the arbitration board.

Members of the council said that he reports are that the contractors will ask a 9-hour day. This may mean a fight. The left-wing in the organization has the opinion that all nonunion carpenters must be brought into the organization. This can only be done by lowering the initiation fees for a period of ninty days and conducting a vigorous campaign for membership. All leaders that are prone to show any hesitancy should be watched and replaced if they do not conduct a determined fight for this ncrease in pay.

STEEL MAGNATES HIRE NEW BOSS FOR SPEED-UP

Too many of them away with and naturally that left some arabia. . . cannot be sent in. Room for all of extra bosses! These bosses received orders, either to become carpenters again or quit.

One carpenter boss who has been vith the company for the past fifteen years, being a scab and company man, ook it so hard that he became sick from worrying over the job he lost. This should be a lesson to him and other workers. This worker has given his time to the steel trust instead of he workers' cause and his reward was o be lowered in his position.

Big Ruhr Trust.

After protracted negotiations, the Ruhr Montane Trust has been formed under the name of "The Federated Steel Works Company Limited." This company includes the Rhine-Elbe Union, the German-Luxemberg Mining Company, Ltd., the Bochum and Gelsnekirche Mining Co., Ltd., the Thyssen Group; Phoenix and the Federated Steelworks van de Zijpen; and Rheinstahl. At the beginning of last year these seven firms employed nearly 130,000 workers, i. e., 30 per cent of the workers in the whole of the Ruhr territory.

The new company will begin its career as a "research company" with a capital of 50,000 marks.

One totally devoid of principle, an apostate, a prostituted lackey of the bourgeoisie, a murderous poltroon, cannot, by any stretch of the imagination, be insulted. It is not possible to describe this wretch, say nothing of insulting him.

Nevertheless, a Communist, Enrico Templa, has been sentenced ment." to prison for six months and fined 500 lire because a pamphlet, containing matter considered insulting to Mussolini, was found in his possession.

Such a law is unquestionably necessary at this time in the Italy of Mussolini. In spite of United States assistance, thru the 75 per cent debt cancellation and the Morgan loan, conditions within that nation are rapidly becoming worse.
