

# WILDLY WHIPPING UP LYNCHING FRENZY AGAINST ANTHONY BIMBA

BOSTON, Mass., Feb. 23 .- For the past week the capitalist press here and in surrounding towns has been desperately working to whip up the mob spirit against Anthony Bimba and the "reds" in general. The arrest of Bimba on a charge of "blasphemy" in Brockton has given the capitalist press the excuse it has been looking for to precipitate a wild campaigning against all foreign-born workers and those belonging to parties and associations not approved by the exploiters of labor.

The Boston Telegram, a bitter labor-hating sheet owned by Doheny, from head to foot in the "Teapot Dome" graft scandal which shook the the oil promoter who was smeared republican federal administration in 1924, to its foundations, published an editorial headed "Squelch the Reds." Those who dare approve of the opinions of Anthony Bimba are referred to as "yapping curs" and a "blackguardly crew." It openly advocates that no hall should be rented to allow Bimba or the International Labor Defense which is defending him to present their views on the case.

The actions of the local authorities of Hudson, Mass., in organizing a campaign of deportation against Lithuanian and other foreign-born workers is another step in the huge campaign workers in Hudson.

In Lawrence, Plittsfield, Providence, and Boston, meetings have been pro-hibited or broken up by the police. In Boston, Scott Nearing, who was to speak in Paine Memorial Hall on the question of recognition of Soviet Rus-sia, was prevented from speaking and threatened with arrest, simply be cause he was suspected with having some connection with Anthony Bim-ba or his defense. ba or his defense.

# POLICE SURROUND BROCKTON **COURT AS EDITOR FACES TRIAL UNDER 200-YEAR OLD GAG LAW**

#### BULLETIN.

BROCKTON, Mass., Feb. 23 .- A heavy police guard today was ordered out to surround the court house here when Anthony Bimba, editor of the Lithuanian paper Laisve (Freedom), goes on trial tomorrow on a charge of violating a 200year old "blasphemy" law. It was stated that the court house would be under an armed police guard as well as all surrounding streets.

The local authorities since the arrest of Bimba have been deliberately creating a tense situation in the midst of which the trial will be held. The armed guard around the court house is a deliberate piece of "staging" for the trial.

With the stage all set, and the population whipped up into great excitement by the press of the entire state, the "defenders of religion and private property" hope to obtain a conviction against Bimba.

The eleven debt settlements thus far signed, he says, involve cancellation of \$8,000,000,000 legally due the American treasury. Howell will ask the senate to repudiate this action by its debt commission, because congress never authorized any such cancellation.

Only a few senators agree with Howell in his economic attitude toward the Italian settlement. A large majority of the regular republicans and at least a minority of the democrats would vote for ratification if that were the only thing involved. But the

political dynamite in voting to give \$3.500.000.000 to Mussolini is another matter. All over the country resolutions have been adopted, calling attention to the fascist terror in Italy. #### By J. LOUIS ENGDAHL.

T is not difficult to see in every issue of the few remaining socialist publications, and in their every public utterance, how the socialists are playing the employers' game.

I have just come from the Passaic strike zone, where 10,000 workers are on the battle line fighting against wage reductions. They came out without an organization. They are waging a brave fight.

In the Passaic strike, the mill owners and their press are using every available means to divide and confuse the workers. Denouncing the Communists and claiming that it is a Communist strike, is one of these methods used by the bosses, in the hope that that will frighten the strikers. Yet it does not have that effect. The strikers keep their eyes on their demands for the 10 per cent wage increase and the shorter work-week, stick together and fight on.

Yet when I return to New York City and pick up a copy of the local socialist sheet, The New Leader, and turn to a page carrying a department with the heading, "The Socialist Party at Work," surely very dirty work, I read the following:

"Miller of Passaic reported that the strike in the Passaic Worsted mills was led by Communists who desired it more as a publicity stunt for themselves than anything else . . . ."

Evidently the socialist editor in New York, who permitted that to get into his paper, thinks it is a light matter to engage in a struggle concerning the lives and welfare of 10,000 workers, men, women and children. This may help account for the deliberate tearing to pieces of workers' organizations, by the socialists when they behold their policies of betrayal being overwhelmingly repudiated.

#### Thus it is natural that in the same issue there should be a glorification of the fact that the left wing spokesman in the Scranton convention of the anthracite miners was denied the right to speak and unseated in the convention. Here is what The New Leader has to say:

"One Communist was ousted by the delegates at Scranton. In June, 1923, another convention in the same city chased several out of town. An organization whose publications continually denounce all non-Communists as scoundrels, fakers and betrayers of the working class . . . , has only itself to thank when it meets retaliation."

Workers may be prepared to have the socialists rewrite their attitude in years past in other labor disputes. At the present rate, they may be expected soon to glorify the kidnapping and placing on trial for murder of Moyer, Haywood and Pettibone, for instance, for waging a struggle against the enemies of the metal mine workers of the west.

\* \* \* \*

Anything is possible it seems, for the socialists. Their entire change of policy within a few years on the question of the league of nations is a very good example. In the manifesto of the socialist party adopted in 1919 there is found the following:

"The so-called league of nations is the capitalist black international against the rise of the working class. It is the conscious alliance of the capitalists of all nations against the workers of all nations."

Yet already in its convention of 1920 it is calling upon the capitalist government of the United States to "initiate a movement to dissolve the mischievous organization called the 'league of nations' and to create an international parliaorganization. ment, composed of democratically elected representatives of all nations of the world." This would of course still be a capitalist international warring against the only workers' international, the Communist International. Now the socialists throw off the mask completely and thru their chosen spokesman, Morris Hillguit, announce that they want the United States to join the league of nations. as much as the nationalists them-Further comment should certainly not be necessary. selves. (Special to The Daily Worker) BERLIN, (By Mail)-The secret trial of the eleven members of the 'Black Reichswehr" charged with the murder of a German soldier named Panier ended in the imposition of four death sentences, sentences of imprisonment against two for three years and nine months, respectively, and five acquittals. The fact that the trial was secret prevented the full public exposure of the methods of this fascist organization but from the nationalist press itself sufficiently repulsive details have been gleaned.

The "Black Reichswehr" is an illegal military organization formed with the connivance of the governmentparticularly of Dr. Gessler, then, and now, minister of defense-to forestall the threatening revolution in 1923. Incidentally, it provided the allies with their grounds for last year's postponement of the evacuaton of Cologne.

"Teutonic Law." Within the "Black Reichswehr" there existed a gang nicknamed the 'Black Hand." That body's function was, in the words of a nationalist newspaper, "to carry out the sentences dictated by Teutonic law" against traitors within the ranks of the "Black Reichswehr."

Thru the agency of the "Black Hand" nearly 100 young men are estimated to have disappeared. One of these was a soldier named Panier. For his murder the 11 were brot to trial

He was suspected by the "Black Hand" of being a Communist spy, and was placed on the condemned list. He got wind of the plan to kill him, and escaped to Berlin. But he was pursued by the "Black Hand," and arrested by three of its members, clad in Reichswehr uniforms.

#### Appeal to Police.

On the way back to the railway station Panier appealed to a policeman for protection, and was, with his three captors, taken to the nearest police station. Here the officer in charge telephoned to the headquarters of the regular Reichswehr, and was instructed to send the four men there.

The Reichswehr authorities sent Panier and his guard back to the barracks of the "Black Reichswehr" in Doeberitz. Thence Panier was transported to an isolated barrack in Elsgrunf, where the executors of the "Black Hand," one Klapproth, carried out the death sentence with an iron bar. After Panier's clothing had been rified the mutilated body was buried and the ground carefully levelled. However, the deed leaked out, and the body was recovered. It was impossible to avoid trial. NO MAN IN RUSSIA ADVOCATES WAR, SAYS CHRISTIAN RAKOVSKY, SOVIET **AMBASSADOR IN PARIS INTERVIEW** 

PARIS-In a special interview published in the L'Humanite, organ of the Communist Party of France, Christian Rakovsky, Soviet ambassador to France, took a categorical stand on the question of war and the Soviet Union by stating, "There is not a single man in Russia who preaches the doctrine of war." This statement is of the greatest significance at this time when the capitalist spokesmen are advocating disarmament on the basis of the "Locarno spirit" which is the new name for the old "balance of power" theory and the same conditions that precipitated the world war of 1914-18.

In discussing the relations of Soviet Russia with the capitalist nations, Rakovsky predicts that negotiations with Britain seeking the de jure recognition of the Soviet Union will be resumed, and that the negotiations with France will result in recognition.

The interview as printed in L'Humanite is as follows: . . . .

CLEVELAND, O., Feb. 23 .- The Cleveland Workers' Conference for Miners' Relief unanimously adopted a resolution condemning the action of the president and secretary of the Cleveland Federation of Labor for issuing a slanderous, baseless statement against the Workers Party.

The Conference which met on Saturday night decided not to continue the work for miners' relief in view of the fact that the strike is over. The campaign was hardly begun, when the socialists in the conference, who were also elected to the committee of action, denounced the Workers Party in true social-democratic fashion and decided not to participate in the conference any longer. # LIAPTCHEY "AMNESTY" IS FOR FASCIST MURDERERS AND WAR PROFITEERS, NOT FOR POLITICALS 'LABOR'S REWARD'

SOFIA, Bulgaria, Jan. 26-(By Mail.)-The Bulgarian parliament held its first session after a long "vacation." The cabinet of Liaptchev appeared in ts whole democratic glory and presented an "amnesty" bill.

This bill provides an amnesty for speculators, usurers and war profiteers Film Spreads Class Colsentenced under the peasant government of Stambulinsky, also for the police officials and fascists whose crimes under the Zankov government were so terrible that they had to be sentenced. It includes only a ridiculously small number of revolutionary political prisoners. The minister of justice, Kuley, American Federation of Labor has inhimself admitted that of the 5,000 political prisoners in Bulgarian jails only augurated a stupendous program for Union Leaders Beg 1,500 would be included in the amnesty. The paragraphs of the bill which

Seeks Foreign Loans. With this bill the Liaptchev government hopes to get a democratic and humanitarian reputation abroad and thus get foreign loans, which the capitalists did not dare to grant to the terrorist Zankov government. According to the formulation of the Bulgarian amnesty bill a distinction is made between "leaders" and "masses." People whom the Bulgarian authorities declare to be "lead-

ers" can under no circumstances get an amnesty. Thus the members of In pleading the case for labor, Mr. the central committee of the Communist Party of Bulgaria with Kolarov at their head will get no amnesty. Furthermore all actions against the law of protection of the state will not be amnestied. As this law makes any statements against the government a crime, there are thousands in prison sentenced on the basis of this law. All those workers and peasants who joined armed groups against the government will not be amnestied.

Under the pretext to "broaden" the amnesty, the government commission added the following paragraph to the derstanding of the invisible universe

ARMY OF UNEMPLOYED TEACHERS SHOWS NECESSI

Activities of the Chicago Board of Education have within the last two weeks dealt a solar-plexus blow to the most sacred theory of the traditional schoolmarm-that teachers are "professional people, not workers." The shattering of that theory is to be greeted with great rejoicing. It has been the basis of the reactionary attitude of teachers as a class and of their antipathy to organization along trades union lines.

Within the last week, William McAndrew, superintendent of the Chicago schools, issued to his division superintendents a forty-page document containing a detailed program of activity by the superintending force in the premonth strike, left the Jewelry Work- sent semester. This document has+

The superintendent further orders that there be no wasted time in the schoolrooms. He suggests that the older teachers especially be watched for signs of interference with the smooth progress of the work of the school. Mr. McAndrew probably bears well in mind that it is the older teachers who draw the highest salaries and are eligible for pension in the not so far distant future.

#### Temporary Injunction Vital.

While on its face, Bill No. 469 is apparently a forward step for labor, it indicates no real advance when subjected to a close analysis. Nine out of ten injunctions against labor are temporary and are issued upon the mere presentation of so-called "facts" by the employer. These "facts" are not questioned. Labor is given no chance to be heard before the tem-

porary restraining order is issued. In nine out of ten labor disputes involving injunction proceedings, it is the temporary restraining order which is effective in defeating the workers. To formulate such legislation without at the same time limiting the power of the employer to secure a temporary injunction is to overlook the most vital phase of the case.

## Shows Needsfor Labor Party.

While the jury feature may or may not be an advantage in cases where the employers are trying to make a temporary injunction permanent, it has certain aspects which are not advantageous to labor. Some towns costs.

# SENDING IN YOUR ARTICLE

Due to the volume of Worker correspondence that comes to our office every day and the necessity often to ask for more detailed information and send suggestions and instruc-

tions, we make the following request from our Worker Correspondents: At the top of each page of your manuscript, in the right hand corner, write in plain hand, if you do not use typewriter, your name, address and date. At the end of your manuscript add a note stating whether you wish your name to be

used and any other instructions regarding the signing of your article.

The story about his arrest which appeared in The DAILY WORKER and Trybuna Robotnicza, and other papers, aroused the miners in Eastern Ohio and they demanded that the United Mine Workers defend Kurowski. These facts about the Kurowski case were given such wide publicity the company thugs and deputy sheriffs were afraid to carry out the threat to murder Kurowski. Upon release from the jail he was told that if he will be found in Logan County they will hang him.
