By a Worker Correspondent

NEW YORK, March 18 .- At a well attended meeting of the Win-Cleaners' Protective Union, dow Local No. 8, a decision was reached by an overwhelming majority vote to tax each member \$1.00 for the relief fund of the Passaic textile strikers. The total sum raised to date is \$800. The local is determined to do all in its power to beat the textile barons.

The striking textile workers in the East have provided themselves with gas masks after the thugs of the mill barons had attacked them with gas bombs. Gas masks are good to have. They may be needed, when the stinking animals, the ilk of the mill barons, are chased where they belong.

ployes. It is thus easy to ascertally told that neither now or ever tain the wages paid by the bosses would they get an audience with Coo-

to the workers in the mills. Here are a few samples. The cards read:

This is to certify that No. 5001 Chorba, Martha, has received the following payments while in our em ploy during 1925: Wages, \$410.65. Then come some envelopes with weekly rates of wages: 54 hours \$23.55; 48 hours, \$14.50; 48 hours, \$15.65; 49 hours, \$19; 22 hours, \$20.65; and thus the list runs.

The girl that got \$410.65 was paid at the rate of \$8.21 a week and she worked 48 hours a week. That is less than 19 cents an hour.

She was cut 10 per cent and that makes her earn another cent an hour less. She wants a 10 per cent increase which would mean a little over 20 cents an hour, and for the year it would mean only \$41.

But the bosses think this is too much and so they refuse to grant this little increase. Is it not about time that the workers got together for a real organization that will strike. This offer of Davis is made give them power to get what the to the strikers after the bosses' reprebosses do not want to give without

FIGHT ON ALL

THE Passaic textile workers' strike, now in its eighth week, is being fought out by the strikers on all fronts. The latest developments of the strike

Some 16,000 strikers are now out of the mills in Passaic, demanding not

only the abolition of the wage cuts but a 10 per cent increase in wages over the old wage scale; the return of the money taken from them by the the picket line and we dara you to snift of a pig," replied the strikers. wage cuts; time and a half for overtime; a 44-hour week; decent and saniturn the icy water on them," came the And the Textile Strike Bulletin keeps tary working conditions; no discrimination against unionized workers; and recognition of the union.

The strike, which is being conducted by the United Front Committee of Textile Workers, is spreading swiftly thru the most important sections of the northern part of the textile industry, the series of savage wage cuts driving hundreds of workers daily into the ranks of the strik rs. One of the push them in the carriages and our every challenge of the bosses we will latest mills to join the walkout is the Lodi Silk Works.

3. The strikers have already felt the combined opposition not only of the arrogant bosses, but of the police officials, with their brutal attacks during which workers-men and women, young and old-were violently clubbed beaten to the ground, attacked with tear gas bombs and soaked by fire hoses. The courts, the usual tools of the bosses, have done their bit against the striksers, by sentencing to jail one striker after another for exercising their The newspapers, forced to take recognition and to protest against the brutality of the police have tried to use the police situation in order to create sentiment for calling in the state militia or troops, which would be even worse for the strikers. 4. The militancy of the strikers has obliged the police in some spots to back down in their brutal clubbings, and the picket line and demonstrations of the strikers grow larger every day as a defiant answer to the mill boss tools who continue to beat up strikers whenever there is an opportunity. The strike of the textile workers has attracted national attention, and a delegation of strikers has proceeded to Washington in an attempt to get the United States senate to institute a commission of investigation of the miserable conditions of the textile workers and the abolition of civil rights in the strike. Some senators have already expressed a readiness to work for such a commission. Coolidge has refused even to see the strikers. Frank P. Walsh is in Washington with the delegation as counsel. The situation in the textile industry and the feelings of the bitterly exploited workers shows signs that the spread of the strike from Passaic is more than likely in the near future. Already men are out in Lodi. In Paterson, strike talk is rife among the textile workers. In New England, many hours. especially in Lawrence, the scene of many historic labor battles, agitation for a strike is going strong.

PARIS COMMUNE Quit Meeting At Geneva

New Imperialist War Is STRIKER GETS **TEN DAYS FOR** Threatening As Powers **BEING BEATE** New Crime Is Invented by Passaic 'Justice'

By J. LOUIS ENGDAHL.

THE league of nations crumples up at Geneva and the Union of Soviet Republics wins the victory thru receiving another extension of its "breathing spell," as it develops its strength for new struggles with the whole hostile capitalist world.

Austen Chamberlain, the foreign minister in Baldwin's British government, who plotted the capitalist bloc against Soviet rule, returns to London freighted with defeat, unable to solve the conflicts within the capitalist system.

Instead all the old blocs among the contending sections of capitalist Europe are revived, with some new ones added. "Petty nationalism" is what Edwin L. James, the correspondent of the New York Times calls it. But it was imperialism that dictated the terms of the Versailles treaty in 1919; the very terms that spawned the league and found another hideous offspring in "Locarno."

. . . .

Instead of a united capitalist front in western Europe, against Soviet rule in the East, at least four contending groups must now resort to all the secret intrigues that have always featured imperialist diplomacy, in order to develop their own shifting places in the sun. The British, who have been leading the proposed anti-Soviet onslaught, see their hopes shattered and prestige lowered. The French, with treasury bankrupt and wars continuing in Morocco and Syria, can only dream of the now far distant days of the "cordon sanitaire," when Paris was the center of anti-Bolshevik conspiracies that backed Poland, Roumania and other frontier governments in the hope of wrecking the Workers' and Peasants' Republic. Then there is the proposed Mussolini bloc, the Mediterranean entente, the dream of the fascist dictator. In the Geneva atmosphere of "suspicion and strife" Mussolini is credited with instigating Brazil to cause the final smash-up. He also egged on Spain to create fur-ther complications. Only Mussolini's representative refused to join in the mourning that attended the funeral finish at Geneva after ten days of bitter wrangling that postponed everything until September. Mussolini's Geneva spokesman comes home to Rome with acclaim, while Briand returns to Paris, Stresemann to Berlin, and Chamberlain to London, perhaps to see their governments dropped into the same grave with the league and the drooping "Spirit of Locarno,' now a discredited ghost. The six months before September's arrival are filled with many possibilities. It is easy to coceive that the conflicts then will be worse than they are now.

The socialists shouted loudest that "Locarno" was to bring peace to the world. Geneva has wrecked all that. Even a fraudulent disarmanent conference now seems impossible. These revelations will convince new masses of workers, in all west European countries, of the correctness of Communist policies in the present struggle with labor's capitalist foe. The web of delusions so energetically spun by social-democratic betrayers, will be swept aside for many more who labor.

While the workers and peasants under Soviet rule rapidly develop and strengthen their economy, the workers and farmers of western Europe will consolidate their power in support of the Communist leadership that directs the grow-

By J. O. BENTALL. PASSAIC, N. J., March 18 - A new crime has been invented in Passaic. If a striker allows a cop to split his head the striker has committed a crime and is at once taken to the hoosegow and later to the judge and given a sentence of anywhere from ten to 90 days in the county bull pen.

To prove this ask Chester Grabinsky. He knows.

Forceful Police Arguments.

Grabinsky was picketing in a small ine of only half a dozen, among them couple of boys that have worked in the mill since they were 13. When the police stopped Teddy Timochies, 17, and began to search him, Grabinsky asked what right the police had to search a young fellow on the picket line without any reason. He was at once put under arrest. Then after he was in the hands of the police another cop came along and shouted, "Where is that fellow?" When he saw him he knocked him unconscious with his night stick.

Grabinsky's head had been split and he was bleeding profusely. The kind hearted chief who happened around ordered Grabinsky locked up. The ailer saw his condition and ordered him sent to the hospital. Here the doctors sewed up the scalp and got him dressed for the next ordeal. He must now go to the court and see what has been his crime. The judge gets the hang of the affair and promptly gives Grabinsky ten days in jail, explaining that it is a serious crime to get hit by the cop's club.

Apologists for the judge claim that he did this out of pure kindness and argue that it will require at least ten lays for the wound to be healed, and what place could be more safe than the jail where no picket lines are formed and where cops do not break in and split heads?

STRIKERS PLAN BAZAAR

Passaic Committee Enlists Aid of Many Artists

PASSAIC, N. J., March 18 .-- Plans for the great bazaar to be held in Passaic the latter part of the week are now nearing completion. Artists who will appear in novel numbers during the four-day program are Florence Norman, opera singer; Peggy Tucker, pianist; John Di Gregorio, opera singer; Arthur Cramor, violinst; Ludmilla Torotska, soprano; Ilyana Patov, dancer.

One of the most interesting features of the bazaar will be the Saturday afternoon children's program, which will be staged by strikers' children. Recitations, a toe dancer, inists on numbers, arranged by the children themselves, will make up the afternoon program Articles to be sold at the bazaar may still be donated if sent at once to the committee at 743 Main Ave. Many attractive articles have been received, including two five-tube radio sets, a victrola, clothes, candy, cosmetics, dishes and many small articles, which are especially needed.

Clifton Police and Imported Thugs Block March of Strikers

SPY SYSTEM IN **TEXTILE MILLS**

BOSSES EMPLOY

Company Stools Must Make Lengthy Report

By MARGUERITE LARKIN. Terrorization by the bosses! Terrorization carried on by means of a spy system in which every smallest word; and act of a tired textile worker may be reported. The Passaic, N. J., Council of Wool Manufacturers has done its part with its employment bureau and its undercover spies to put fear into the heart of every worker who needs a job.

A set of instructions issued by the wool council to a worker who needed money badly and who consented to "help the mills" has been discovered by Robert W. Dunn, and is available for publication for the first time now. It tells the spy how to report every detail of a worker's day, every conevery evidence of dissatisfaction.

Spy on Workers in Shop.

"State whether employes work steadily thru the day. If not give the particulars. If they prepare to leave the department before the whistle blows, give the facts. If there is ill feeling among the employes toward the company state why. Give the names, machine number or check numbers and the reasons why they are dissatisfied."

This is the first instruction on the list of ten. The second is more dangerous to the worker. By its provisions the mill bosses are to be informed of the private beliefs and views of the workers, with what results may be imagined.

Seek Out "Agitators."

"If there are any employes in your department who are cranks or agitators on the labor question, Bolshevism, socialism or any other 'ism, write up what they have to say, mention their grievances and give details so that we will know as much about it as you do."

This is the provision that has halted more than one first-hand investigation of the workers' conditions in the mills. Justine Wise, daughter of Rabbi Stephen L. Wise of New York City, who worked in the Passaic textile mills for several months, was fired from one mill and blacklisted in others when a spy like this one reported that she was a "crank," an "agitator," and a college woman working in the mill to better the lot of the workers.

The warning against "cranks" and ors" is linked with a paragraph on "Americanization," for the spy was expected to act as propagandist for the bosses as well as informer. Sples "Americanization" Experts. "An Americanization movement is going thruout the United States. Americanization, when brewed down, is nothing more than the ability to speak some English and use common, ordinary, everyday horse sense," says the bosses' instruction sheet. "When a fellow worker spouts a lot of silly propaganda you should put up a sensible argument based on facts that will make a monkey of the would-be trouble-maker. Eventually he or she will see his or her fault and become sensibly American." A "sensible American," as is made plain by the tone of the document, is an American who is willing to bow down to the tyranny of his boss. "Sen sible Americans" are those that work long hours for low wages, and see their women forced to slavery on the night shift, in the opinion of the bosses. The spy is urged to be "sensible.' A blank is furnished him for his report. "Whom did you meet on way to work (names, checks or machine numbers)? What did he, she or they say? What did you say (always talk sensibly)?" These questions and others like them are to be answered in great detail for every conversation of the day. Must Report Meetings. "Attend meetings. Say where they are held. Give names of speakers and write up what they say. Mention number of men and women present. Furnish complete particulars and details concerning all meetings." These are the instructions by which the spy kept his bosses informed of any little movement that might mean the dreaded union. Any speaker who was not "sensible" would have his words quoted to the bosses. Any worker who agreed with the speaker would be reported by "name, check, or machine number." No detail was to be safe from the spy. No common, human activity of a worker was to be carried on in private. The labor spy was everywhere, mingling with the crowd of men and women going to the mill, listening to what they said when they snatched their hasty lunch, reporting to the bosses if they got so tired that any calamity seemed preferable to the vicious routine.

Clifton police and imported gunmen, now wearing the uniform of the forces of "law and threatening to use riot guns on the strikers when they attempt their march on the National order," bar the Passaic strike pickets, from marching down Randolph Ave. A double line of Silk Dyeing company to convince the workers in that plant of the need for them to join the police with nightsticks ready to descend on the heads of the strikers can be seen. These scenes strike and fight for an improvement of their conditions. The Associated Silk Workers have versation on the way to the mills, are becoming commonplace in the Passaic strike district. The East Paterson police are now promised the strikers to co-operate in every way possible to organize the dye workers.

PASSAIC WOMEN MUST TOLL 20 HOURS EACH DAY Work at Home and in **Textile Mills**

Page Three

Twenty hours a day, a one-hundred and-twenty-hour week. These are the working hours of hundreds of women in Passaic, N. J. They are the young mothers who work all night in the mills and all day taking care of their families, and who never get more than four hours of sleep a day.

They are striking now with the men for a living wage for workers, so that men can make enough to put food into little mouths without mothers needing to work all night long for the few extra dollars that mean enough to

Young Mothers Toil at Night.

It is the young mothers who work at night because they cannot leave their children during the day. Among 100 women who were visited by an investigator for the New Jersey Consumers' League, 92 had children and over half the children were under 7 years of age. Thirty such mothers had more than 4 children.

"The mothers are driven to night work by the low wages of their husbands," says the official report of the investigator. "They choose night work in order to be with their children by day, and they are condemned to 20 hours of daily toil, for clearly no mother with 3, 4, 5 or 6 children can secure much rest by day. Not one of the hundred women visited reported getting 8 hours of sleep. Most of them slept not more than 4.

Altho the practice of allowing women to work at night is repudiated by the entire civilized world, the bosses of Passaic are indifferent to its evils. "They must like it or they wouldn't do it," the secretary of the wool council told the investigator.

Work Cripples Health.

But the women do not like it. 'Working nights isn't healthy for a woman. All the time I work at night I can't eat anything," says one Polish widow who has to support three little girls.

"Night time in mill drag so long, so long; day time in home go so quick," says a Hungarian mother with five.

"When I get home at six in the morning I fall on the bed. I'm so tired." Her husband prepares coffee or himself and the children, and the lder ones go to school. Even the baby of four is on a diet of coffee. When the investigator suggests that ailk would be better, the mother tells her that since the wage cut milk costs too much, even for the baby. After the children go to school mother tries to sleep again, but the baby bothers her. "He pulls the bed clothes." She must get up in time to clean house, to wash, to iron, mend and sew, and prepare the dinner. Perhaps she rests in the afternoon; often there is too much to do. By ve o'clock supper must be ready, for she must be at the mill at seven.

"Keep the closest watch on any and everything." The labor spy was both the tool and the weapon of the Pas

This photo shows a number of Passaic textile workers on the picket line fighting against a ten per cent cut in wages and for more sanitary conditions. These pickets have had to don gas masks and steel helmets due to the police. brutality in this strike. Union workers can take a good look at this picture as strike lines of the future will look something like this. When a union decides to go on strike, it may have to consider the purchase of gas masks to protect its members from deadly and harmful gases.

"On to Clifton!" Is Strikers' Battle-Cry

babe. The Clifton police brutally attacked a humber of mass picketing demonstrations at the Foretmann-Huffmann sain Council of Wool Manufacturers. mill, which has joined the Passale strike. This demonstration of pickets was also attacked by the police.

This picture shows the police blocking the mass picket demonstration of the Passaic strikers at the Ackerman Ave. bridge. These police thugs have beaten and slugged striking textile workers at every opportunity making release for themselves, and that is the the Passaic strike one that will not be soon forgotten. These police sluggers success of the strike. YOU help the are threatening to fire on the strikers if they dare to cross the bridge.

Life of Slave.

This mother never has time to go anywhere. She never goes to see friends, or to a picture show. "Just to the mill and then home," she says. But on the holidays she can go to the cemetery. "I got some children up there," she says, "and the same time I can get some air."

.This is the slavery that mothers endure, and will have to endure again if the Passaic strike for living wages and a protective union should fail. This is the heart-breaking, healthbreaking kind of a double job that starvation wages paid by rich mills are imposing on helpless women. These women see only one hope of strike to win!

When workers attempt to picket textile plants in the Passale district all of the available police with night-Passaic strikers are marching towards the Forstmann-Huffmann mills in Clifton, led by a mother and her sticks, tear gas bombs and riot guns are placed in their way. This scene shows some of the police thugs threatening to fire on the first worker that dares to attempt to proceed to a mill that the United Front Committee of, Textile Workers is trying to pull out

WAR CAUSE IS **ECONOMIC, SAYS** ESME HOWARD

Ambassador Says Cash **Rules the World**

"Naked and unashamed," the dollar, the franc and the pound dominate world diplomacy today as never before, Sir Esme Howard, British ambassador to the United States, declared upon his arrival here from Washington.

Sir Esme, referring to the impasse at Geneva, insisted that "the Locarno pact must hold the league of nations together until they emerge intact from the storm."

The next great world struggle, de clared the British ambassador, will be a struggle for markets, boldly out lined in the diplomacy to come for just what it is-a battle for cash. "When a great man goes wrong," said Sir Esme, "look for the woman; when great nations go wrong, look for the dollar.

The Communist Convention.

"In the short forty years in which I have been engaged in the business of diplomacy the outlook of the va rious foreign offices of the world has perceptibly altered. The great change has been an altered conviction-the conviction that economic causes dominate history.

"The economic causes underlying war were not in the past so naked and unashamed as they are today. Formerly the people of the world struggled unconsciously, the governments subconsciously, for security, for their 'place in the sun.'

Killing for Dollars.

Beats Germany.

The American youth, young workers, peasants, students, soldiers and sailors must turn their eyes to the present grave crisis in the Chinese situation! In the landed territory surrounding the Gulf of Liano-Tung, the germs of the next imperialist slaughter are being hatched. Pretty soon we, the youth of America, will be called to arms to fight against the "yellow peril" (the investments of the American imperialists in China) and incidently against the work-

ers' and peasants' government of the Soviet Union. Already the five so-called Boxer protocol powers, the United

States, Great Britain, Japan, France and Italy have handed out an ultimatum which is primarily directed against the Kuominchun (the national revolutionary armies) which is the dominant group in the territory around Peking. The American imperialists whose ongues wag thru the Coolidge administration in Washington has tepped from behind its mask of neutrality, its so-called passive atlitude on the question of extra-territoriality rights. It now steps on the stage as the bloody butcher of the millions of young and adult workers, peasants and students who are fighting for their national independence in China.

The ultimatum demands the abandonment of all hostilities between Taku and Tientsin; the removal of the mines from the river Pei-Ho; the cessation of all molesting of navigation signals; that all combatant naval craft remain outside the Taku bar, refraining tested against it. A simple statement from interference with foreign shipping; and the discontinuance of the searching of foreign vessels.

This bloody ultimatum can mean only one thing. Complete capitulation of the national revolutionary armies of China to the en-croachments of Chang Tso-Lin, the Manchurian tool of Japanese large fine because he has published capitalism and to the other foreign imperialist invaders. It can only articles against the Morocco war. The mean a great setback to the national revolutionary forces of China who have, especially in the south, so heroically struggled for their freedom. Unless the ultimatum is conceded to by Thursday a blood-

bath is promised by the imperialist powers to the Chinese people. The Taku forts will be fired upon and the mines in the Pei-Ho river swept

Young workers of America! The Young Workers (Communist) League calls upon you to protest en masse against the bloody intervention of the United States government in China! We demand the immediate withdrawal of U.S. gunboats and marines from China! Demand the withdrawal of foreign imperialist intervention in China! We will not shoot down the workers, peasants and students of China for the bloody profits of Morgan and the other American imperialists.

Only the Soviet Union is the friend of the Chinese people fightng for their freedom! Only the workers' and farmers' government f Russia has signed treaties with China, in which China is conidered a completely and perfectly equal party. The other imperialst nations do not regard China as an independent sovereign state ut as an object of exploitation.

Young workers of the United States! Rally to the aid of the Chinese people-the national revolutionary movement. Arrange mass meetings and demonstrations thruout the country against this threat of a new war. Send your protests to the representatives in congress.

what kind of news to send in. There will be articles telling how to go after such news. There will be manuscripts by worker correspondents in the rough and the corrected copy right beside it, with the reasons for the changes made so that any worker will learn by that worker correspondent's mistakes. There will be articles about worker correspondents and their activities in other countries. There will be short snappy lessons to help worker correspondents.

it is on its way. April 1st it will be here. But one feature of this magazine cost some money to get it out. Not

N. Y. Police Line Up with Textile Bosses to Kill Strikers' Tag Day

By MICHAEL CHATSKY (Worker Correspondent)

NEW YORK, March 18-New York City had a tag day for the benefit of the Passaic strikers. The strikers were arranged in groups with one New Yorker as a guide and they were sent into the needle trade section during the lunch hour.

I was in a group of thirty assigned to Seventh Ave. from 24th St. to 40th St. When everyone was in his assigned place I made the rounds to Superint ndent to Spy encourage the collectors. To my astonishment I could not find a single on Girl's Lavatory collector. I learned later that the police had chased them away.

With the remaining few in the neighborhood, I started back for the PASSAIC, N. J., March 18 - The | headquarters. We were stopped on working conditions in the New Jersey the street by a policeman and taken spinning mill is something awful. The to the police station for no reason

THE winner of the first prize this week, a cartoon framed, is Hannah L. Sigel, who wrote about collecting funds for the Passaic strikers on a tag day. Her experiences are very interestingly told in the article, "New York Workers Respond Readily to Passaic Strikers" which appears on this page.

The winner of the second prize, "Social Forces in American History," by A. M. Simons, goes to a leather goods worker in Los Angeles, Calif., who in his article, "Brutal Speed up System Used in California Fancy Leather Goods Company of Los Angeles," depicts the tragic helplessness of the unorganized worker.

The winner of the third prize, "Lincoln, Labor and Slavery," by Herman Schlueter, goes to a New York Millinery Worker who writes about the new conditions in the millinery shops since the girls have organized and should be an inspiration to the Chicago millinery workers in their present organization drive.

All three articles appear on this page.

Next Week's Prizes

The prizes offered for this week's best Worker Correspondents' articles will be somewhat different from those previous.

First Prize: A six month's sub to The DAILY WORKER which may be added on to the winner's subscription if he is a subscriber.

Second Prize: The choice of any \$2.00 book from the Books for Workers' catalogue which will be sent to the winner as soon as he is awarded the prize, and the book will be mailed to him immediately upon receipt of his choice.

Third Prize: Education in Soviet Russia, by Scott Nearing.

Write as You Fight!

Send in your contributions. Many are coming in but we should get more. We want a full page of Worker Correspondence EVERY DAY, not only on Friday. Write about the shop, factory and job. Go out and interview other workers. Talk to them wherever you meet them always with the thot in mind of getting a story for the Worker Correspondent's page. Get the facts and send them in. Everybody likes to read the Worker Correspondents' page because it is written by workers for workers. If you enjoy reading it, then write for it, too. The DAILY WORKER CANNOT HAVE TOO MANY WORKER CORRESPONDENTS!

AND PAY FOR IT TOO By W. BURCK

(Worker Correspondent) DETROIT, Mich., March 18 .--- A new way of doping the workers has been inaugurated by the officials of the Detroit Street Railway, which

DETROIT STREET CAR

EMPLOYES MUST DANCE

is municipally owned. This new class collaboration scheme is in the from of dance socials given under the direction of the superintendent of personnel. The expense of these affairs,

which are given in rented halls, is borne by the conductors and motormen thru a collection at the various

car barns. The men are checked off as they donate. Those who do not contribute are called into the super-

on that they must accept this henchman of theirs, but the local union showed by its vote that it is out to get rid of its crooks and labor fakers. Teneski is the gentleman who tole \$1,400 from the union for burying members who are still living. The district union has a death benefit whereby it pays \$250 for burial to the dead member. Teneski was financial secretary of a local union and he would forge a death certificate and with the aid of the district officials would collect the death benefit. He was exposed by his local union and expelled from the Miners' Union for 99 years. For embezzlement of the local union funds Teneski was convicted to 10 years in a state penitentiary.

After a few months in the penitentiary, the wheels of Farrington's corrupt machine began to move, and Teneski was pardoned by Gov. Small. Then Teneski was employed at the Capitol Mine by Supt. Smith upon the recommendation of A. D. Lewis, state appointee of Gov. Small and brother of John L. Lewis, the president of the International Union.

It is thru this same A. D. Lewis. the director of the state department of mines and minerals, that eight members of Farrington's district executive board and three of Farrington's sub-district officials, received their state certificates for first class mine managers. Evidently, these labor fakers are beginning to realize that the progressive miners are determined in their work of cleaning out the corruption and so these labor fakers are preparing themselves to serve the coal operators.

Passaic Weavers Are Thru with Boss-Ruled. **Company-Owned Union**

By A Weaver (Worker Correspondent)

PASSAIC, N. J., March 18 - Forstnann & Huffmann is supposed to have union for the workers. This union is composed of bosses, a foreman and a few workers.

The workers are there as ornanents. They are afraid to open there mouths because the foreman and boss are standing there taking note of all intendent's office the next day and that is being said, and ready to pick

still new to the boss and he feels uncomfortable. Every Monday evening he finds himself battling with union members over the price of a dozen hats. Several times our wages have been delayed because the price committee and the boss have been unable to reach an agreement. The organizer of our union had to be called in before we could receive our wages. Often the members of the

price committee have thrown up their hands in despair and have vowed never again to waste an evening haggling with the boss over prices, but they have persevered for the sake of their fellow-workers. The other day our forelady failed to divide the work equally among the girls. One of the girls protested, and the shop was full of

excitement. The boss came running in like a wild man, shouting: "What is this rumpus all about! I don't For all these brutal conditions, the want girls here who raise a rumpus. young boys and girls that work there, Any girl that will do it again will get as little as ten and twelve dollars be fired." TEXTILE WORKERS! BECOME DAILY WORKER CORRESPONDENTS

TEN THOUSAND extra copies of this Special Textile Strike edition will be circulated in the big textile centers of the country. Most of these will be distributed among the Passalc strikers.

Thousands of textile workers will therefore read The DAILY WORKER for the first time. They will get acquainted with our Workers Correspondent's department. They will learn what a fighting working class daily newspaper is like. The DAILY WORKER extends an earnest invitation to all those workers to join our growing army of worker correspondents.

Hundreds of textile workers should become Worker Correspondents, like other hundreds of workers who write for The DAILY WORKER.

Perhaps you do not think you can write. But other workers have thot like you and have learned differently since they have started to write for The DAILY WORKER.

Writing is a habit. Get it. Every worker must cultivate it. Once you have acquired it you will want to tell about everything that happens to you to other workers. Send all contributions to Workers Correspondence Editor, DAILY WORKER, 1113 W. Washington Blvd., Chicago, III.

offered its services as mediator in the strike; the Hearst paper, the Mirror, called upon the Tammany Hall democratic governor of the state to send in the militia as a pretext for suppressing the violence on the part of the police. All this was good capitalist party politics as the new governor of New Jersey, A. Harry Moore, is one of the pets of the old guard in the democratic party and hopes to go to the senate from the governor's chair. He can play his own political game and at the same time pose as a friend of labor.

Nothing would be more disastrous than the calling out of the militia, as the state executive would soon step in and force the workers to yield while some sort of spurious agreement were put into effect thru negotiations conducted to the disadvantage of the workers and which would leave them without a union and defenseless before the employers. There would be no press but the workers' papers to defend them against the governor of New Jersey. The textile strikers, in the process of the struggle must come to learn that only the revolutionary working class press defends their interests at all times.

Other papers defend certain interests of the capitalist class and, in the last analysis, they are all enemies of the workers. So long as the struggles of the workers can be used to further their sectional political aims so long do they print favorable reports regarding workers' struggles, out when workers go on strike in industries which these papers must protect they change their tune and join in the general anvil chorus against us.

Of all the daily newspapers covering the strike, The DAILY WORKER is the only one in the English language that can be relied upon to at all times defend the working class. We have no interests except those favorable they may appear today, will

And in the Passaic strike the only branch of the labor press that has played any role whatever is the Comnunist press, both English and foreign-language.

Hence when the strike is over the workers who fought in the ranks ought to remember that the one branch of the press that consistently

The united front committee of tex- organizing the industry. The call of tile workers is the one organization the united front committee for united

country.

Workers in the textile industry will learn in the strife of the industrial battle the necessity for effective industrial organization. This agitation for an investigation of the whole industry ought to be accompanied by an intensive drive to bring all the workers into a union embracing the whole industry. Any local textile union that stands in the way of such an organization of the industry is playing the game of the bosses and the workers should reputate any reductlailed ship that does not wholeheartedly get behind a drive to consolidate the power of the workers into an industrial union. The struggle has also developed distinct political characteristics that any worker can understand, which emphasizes the necessity for independent political action on the part of the working class against all parties of capitalism. So, on the order of the day in the textile industry are two demands that the Communists constantly emphasize-amalgamation of the various crafts and localized unions into industrial unions and a labor party.

Tammany Arrests Passaic Strikers

Thirty-three Passaic strikers were arrested in New York City last week for endeavoring to conduct a tag-day drive for strike relast week for endeavoring to conduct a tag-day drive for strike re-B. S.) Coler, commissioner of public welfare, who insisted that no tag days could be held without his consent. Coler is a part of the Tammany Hall machine, that superlative organization for extortion that enables it to survive as the best organized group of political and instrument of a minority of so grafters in the country.

Even collections for charitable institutions have been brot into the sphere of plunder. Special permits are granted by the Tammany machine for "tag days" and those favored institutions must "sce" the proper Tammany connection and pay him his graft in lation as the instrument of the smallorder to secure the permit. This small, but essential, preliminary was overlooked by the strikers, hence Coler, of Tammany Hall, at the head of which is Al Smith, supported by most of the labor fakers in New York, ordered striking girls thrown in jail because they didn't kick in with the graft. Again we have a concrete example of the folly of supporting "friends" of labor because the labor officials who devote their lives to selling out the working class endorse such candidates.

Hereafter if labor tries to conduct tag days they will have to recognize the fact that Tammany has all privileges for sale; even the whole city if it can get enough pelf for it. One must bribe officials to get permits for tag days, to erect a building, for chauffeurs' licenses, auto-drivers' licenses, to operate a fire-trap tenement, comduct unsanitary restaurants, operate vermin-infested rooming fuse to have any dealings with Rushouses or filthy food stores. In fact everything is reduced to plain sia; to endeavor to isolate, starve and fancy graft. To do anything in New York City one must pay and eventually to crush the revolutribute to the Tammany slush fund and help support its army of ward heelers whose allegiance to the machine is based upon their not apparent to the statesmen of the privileged positions as grafters and petty thieves. Labor in New York as well as in other places will be able to invincible, that it could defend and the office of secretary of state, the objections are overlooked. This

Spite of Secretary Kellogg

THE United States government, like all capitalist states, is the organ ciety against all the rest of societythe agent and defender of the big bourgeoisie against all other classes in this nation. But it dare not openly stand forth before the whole popuest strata, but withal the most eco nomically powerful, of the capitalist class of the United States. Thru the

quered.

leception of parliamentarism, the practice of chicanery, fraud and vio lence, the government of the ruling class retains power from election to election. It is this necessity for concealing its real character as a class government that frequently prevents its immediate response to the changing demands of the class it serves.

As a concrete illustration, take the case of the recognition of the Soviet more or less openly obtaining access Union. Under the late Wilson the policy of the government was to retion. That policy was realistic for

tors that created great reserve forces of the revolution in every part of the world. But when even the most rabid of the white guard adventurers had to admit that the Bolshevik govern ment possessed incalculable vitality then the imperialist statesmen of most countries dared face the reality of the situation and proceeded to recognize the government of Russia and to endeavor to conduct business with that power.

When that, change came about the government of the United States was blessed with the administration of the late Harding, with the eminent baptist layman, Mr. Charles Evans Hughes, as secretary of state. Hughes adopted, without ryhme or reason, the policy of Woodrow Wilson and proceeded, parrot-like, to repeat all the banalities against recognition of the

Soviets, while other countries were to the inexhaustible supplies of raw

materials in Russia and disposing of millions of dollars worth of manufactured products. Meanwhile the American capitalists, who were finding it case, but upon abstract moral grounds. profitable to trade with Russia, had It is indeed a precarious position as imperialism just so long as it was to devise indirect methods.
