# POLICE BREAK UP Million Miners Out; Four Million to Follow 8,000 WORKERS

290

Arrest Speakers at Open Air Demonstration

MAY DAY RALLY

**IN PITTSBURGH** 

(Special to The Daily Worker)

PITTSBURGH, Pa., May 2. - J. Louis Engdahl, editor of The DAILY WORKER, and Abram Jakira, Pittsburgh district organizer of the Workers (Communist) Party, were arrested in an open air demonstration arranged to combat the closing by the police of the Carnegie Music Hall, where the local Communists had arranged to hold their international May Day celebration.

Extensive preparations were made to commemorate May Day. Carnegie Hall, one of the biggest in the city, had been secured. At the last minute the police announced that no meeting could be held without a permit. Efforts to secure a permit met with failure.

## Police Close Hall,

The police instructed the hall manager not to open the building for the May Day celebration. When the workers came in large numbers, ignorant of the action taken by the police, they found the doors of the hall closed and locked. They found squads of police and plainclothesmen stationed in large numbers about the building. The crowds grew as the regular time for the opening of the meeting approached. The police began swinging their clubs and directing the crowds, including large numbers who were on the streets for the Saturday evening, to move on.

### Arrest Speakers.

At this point Jakira took up his stand on the broad stone steps leading up the entrance of the hall. Acting as chairman he was about to introduce Engdahl as the speaker, but he was arrested before he could proceed. Engdahl then took his place and was also arrested. Both speakers were manhandled while being taken to the North Side police, station two blocks away.

Sergeant Mike Carney, the turn-key Machinists in Vote to who locked up the two prisoners,

## Friday at midnight one million miners walked out of the mines in protest against lengthening of hours and wage-cuts.

2. The following morning, the Bald-win cabinet prepared to put the emergency powers act into operation. By noon the king had signed the "Orders In Council" placing England under a state of siege with Baldwin as dictator and the country divided into ten districts, a dictator with full military powers over each.

3. Trade Union Congress passed a motion for a general strike with 400 delegates present from 203 British National Trade Unions. The vote was 3,653,529 in favor and only 49,911 against. Ernest Bevin of the Transport Workers' Union declared the strike as the delegates sang the Red Flag. Three thousand Communists outside the congress hall echoed the workers' song and cheered the action of the delegates.

4. The war once gave into the coal troops to be moved into the coal The war office gave orders for regions. Troops were assigned to guard duty thruout London. Clashes occurred between Communists and fascists at Hyde Park May Day demonstrations. The O. M. S., organization of the British fascisti, mobilized and offered their services to Premier Baldwin. The workers are taking steps toward the organization of workers' defense corps.

5. The strike order antation, power and land transportation, power service, communication and newspapers that are not labor papers. Food supplies will be mantained.

6. An eleventh hour conference be-tween trade union leaders and the prime minister were broken off with no hope of averting the general strike which will go into effect Monday at Midnight.

Arrangements will be made to keep the health service workers on the The machinists' unions of Chicago job and for the transport of milk and ish coal strike and wanted to know if have completed a referendum vote on food. J. Bromley, head of the Engineers, increase in wages. The union demand said that not a train would be run by a union man for the movement of troops to take over the strikers' jobs or to act against the strikers. Martial Law.

# SUMMARY OF EVENTS IN General Strike Order Effective BRITISH CRISIS Midnight Tonight; Dictatorship **Declared; Troops Ordered Out**

## BULLETIN.

LONDON, May 2 .- A committee from the Trade Union Congress in conference with Premier Baldwin, now dictator of England by edict of the King, failed to reach an agreement when it adjourned early this morning. An official statement said efforts would be made to reconvene the conference today, but unless the British mine owners are willing to accede to the strike demands of the miners, the trade union leaders declare that the general strike order will go into effect Monday at midnight.

## . . .

(Special to The Daily Worker) LONDON, May 2 .- England faces revolution. A general strike has been called. The Baldwin government has declared an emergency and set up a dictatorship. Troops are being moved for use against the workers. The entire British labor movement Warsaw Demonstration Pa., voted \$50 to the Passaic Strike

is stripping itself for a decisive struggle with British capitalism. One million miners downed tools at midnight Friday. On Saturday the king issued "orders in council" proclaiming a state of siege. The special British Trade Union Congress in session at the time took up the challenge by voting for a general strike-3,653,529 to 49,911. The order will be enforced at midnight to-

morrow when four million more workers will walk out in solidarity with the miners. Troops have been ordered to move into South Wales, Lancashire and Scotland where the miners have GEORGE. struck. # **STANDARD OIL COMPANY UNION REVOLT** SEETHES Workers Are Rebellious

# and Talk Strike

## By LOUIS FRANCIS BUDNEZ, (Federated Press)

BAYONNE, N. J., May 2. - (FP)-Oil workers out on Constable Hook, 12,000 strong, are gaining courage from the apparently successful strike of their fellow workers in textiles in Passaic, and are showing definite signs of revolt against the company unions in operation here.

"This is another Passaic," was the greeting I received when I first approached the gates of the Standarad Oil company to distribute copies of Labor Age 10 days ago. It was by pure accident we had stumbled on the unrest at Bayonne. Oil workers who had agreed to sell or distribute gratis copies of the April number of the monthly had reported the police had put a ban on the publication.

The article, "A Company Union in Oil" by Robert W. Dunn was the reputed cause of the ban. Dunn and I had agreed, accordingly, to go to the ditions mentioned and many others Constable Hook workers of the Standated. ard and give out the copies in defi-

ance of the police. But Dunn that day was in Passaic jail, so my appearance 22,000 TRACTORS

## Workers Interested.

Chief of Police Cornelius O'Neill denied we would be interfered with; but my appearance with tha magazine and the publicity it brot got the attention of the workers on the Hook. Dunn's clear analysis of the company's methods was read in every department of the oil plants.

## Make Demands.

The next day the entire force of the Vacuum Oil Company made demands, and the laborers of the Standard Oil did likewise. This encouraged us to make a second trip to Bayonne. As I was distributing the magazine in front of the gates general manager, William C. Coler, drove out in a big car and threatened me with arrest. Later Coler decided that discretion was the better part of valor, for subsequent trips have not been interfered with.

### Company Unions Weaken.

Company unionism is by no means sure of itself out here. The strike of the 31 representatives of the men across the way, is still vividly remembered. The men complain they cannot be sure their grievances will be dealt with, under the company union. The representatives themselves are not unanimous on the value of the republic of labor set up here. The men would like to meet as a unit, for example; that is, they would like to years it is estimated that the tractorhave a joint meeting for action be-

# THE DAILY WORKER Virgin Islands Bill

## **Disfranchise Negroes** Who Are in Majority

WASHINGTON, May 2. - That the pending bill for the organization of civil government in the Virgin Islands, to replace the arbitrary rule ing the Negroes, who comprise ninetenths of the population, from the bal-

lot was admitted in testimony before the senate committee investigating the Grapevine messages from London are matter. The admission by Dr. Rufus Tucker, economic expert for the treascourse of his discussion and drew not ally "settled" a few years ago in ne- a single objection from any member of the committee.

"Regarding the suffrage situation." he declared, "nine-tenths of the population are colored and some of the white people are afraid that if universal suffrage were granted there would be widespread race discrimination. The bill, as drawn, guards against this by limiting suffrage to those who can read and write."

## Like Southern States.

This is the same provision, which coupled with the so-called "grandfather" clause, in the southern states has led to the disfranchisement of the Negroes. The white election officials rule that Negroes are unable to read or write, even when well-educated. Any Negro who dares to object gets his head caved in. The result is that with a few exceptions the Negroes are absolutely disfranchised. It is this same sort of a system which the reactionary imperial Coolidge adminisbankers, British capital is leaving tration is proposing for these islands.

Public Discriminations **Go Unpunished** 

A number of Chicago south side restaurants have continually refused to serve Negro patrons. Tho the state law provides that there can be no discriminations in places of public servce, these restaurants tell tre Negro that he must either go into the kitchen to eat or else he will not be served. When the Negro has a warrant worn out and the waitress or waiter who has been instructed by the restaurant manager or proprietor not to

serve Negroes, are brought into court, they are either released with a very small fine, a scolding or discharged because of insufficient evidence."

Refuse to Serve Negro. Edward Collins, a Negro insurance gent, entered the Willing's Restauant. at 203 East 43rd street, sat down at the counter and ordered a meal The waitress leaned over the counter and told him and his friend that they lid not "serve Negroes here." Collins had a Mary Doe warrant

sworn out for the waitress. In court the waitress made the preposterous declaration that Collins had tried to a intimate with her in the re

# Berger has the Blues as His Socialist Party **Holds Small Convention**

## By J. LOUIS ENGDAHL.

"THIS is the smallest convention we have ever had."

With this observation, Victor L. Berger, the lone socialist congress-

man in Washington and the editor of the remaining socialist daily, the Milwaukee Leader, summed up his views of the national convention of the socialist party in session on the roof garden of the Hotel Chatham, here in Pittsburgh, opening on the morning of International May Day. "Issues!" Berger didn't know of

any to come before the gathering. "Program!" He stands on the present socialist platform that doesn't need any changing. "Wet and dry!" Berger is wet and wants everybody to know it. The questions of affiliation with the Communist International, the dictatorship of the proletariat, Soviets and similar issues will not come up. Berger doesn't know of a single Communist sympathizer in the whole convention to raise them.

. . .

With this viewpoint, Berger doesn't feel obliged to remain very long in attendance at the gathering. In fact, he planned to return to Washington, D. C., and his congressional duties at the end of the first day. And on this day he gave the better part of an hour to your correspondent for a discussion of labor's outlook in the United States.

Later Berger qualified his statement that, "This is the smallest convention we have ever had." He stated he believed the convention held at Cleveland, Ohio, in 1922, incidental to the gathering of the Conference for Progressive Political Action, was still smaller. It was in this C. P. P. A. meeting that the socialists, under the direction of Morris Hillquit, led the attack against the seating of the Communist delegates in a gathering that was aiming toward the creation of a labor party.

. . .

Berger sees a wave of reaction sweeping the country. He doesn't know how long it will last. But it is here.

The suggestion that the socialists join with the Communists and other working class organizations in united front actions against this black wave of anti-labor tyranny, fell on barren soil. Berger is against having anything to do with the Communists "You just want to bore from with-

in, that's all," declares Berger, and he insisted on differentiating be-

Berger with, when Berger was a regular delegate at conventions of the American Federation of Labor, persistently raising the opposition standards against Gomperism. Berger quit this tactic years ago. He now states that he doesn't believe he has ever met Gompers' successor, William Green.

Berger's views reflect the reception that will be given the open letter of the Workers (Communist) Party suggesting a united front for the coming congressional elections and the placing in the field of a united labor ticket. Claiming a small gain in mem-

bership, and insisting that their financial condition is better now than in years, the socialists are contented to go on alone, as they have been, except for their disastrous fling in the LaFollette campaign last year.

\* \* \* Yet Berger, inconsistent as always, was promising the next moment to attend the national conference of the Councils for the Protection of the Foreign-Born, to be held in Washington, May 15, and to make a speech.

"But I'll state my views clearly," insisted Berger, thus accepting for himself the conditions that he would

deny to the Communists, as clearly set forth in the "open letter" for united front activities, as follows: "Naturally, the socialist party as well as the Workers (Communist) Party would preserve its full right to advocate and carry on its work on the basis of its full program within such a united front movement."

That the most reactionary elements in the socialist party are in control of this convention is seen in the fact that Julius Gerber, New York delegate, spokesman for Abraham Cahan, editor of the Jewish Daily Forward, was made chairman of the first day. Gerber, who led the war against the Communists in New York City before the break in the socialist party in 1919, announced that he was delegate in place of Norman Thomas, recently arrested while speaking to mill strikers at Passaic. New Jersey. It was claimed that Thomas was one of those who could be depended on to lead a fight in this convention against Cahanism in the socialist party, that is the driving force back

of the attempted reign of terror against the left wing in the needle trades unions, especially in New York City.

Thus the national conve

By CHARLES ASHLEIGH

(Special to The Daily Worker) PARIS, May 2. - (By Mail)-The monarchist Russians, exiled from the scene of their former plundering actiivities, pass their time in manifold ways while awaiting the return of the "dear old days," which, however, show less and less prospect of returning. Candidate Cyril,

Grand Duke Cyril, cousin of the late amented czar, is one of the candidates for the throne of Russia. He has proclaimed himself "Emperor of All the Russias." He had to do it himself, because hardly anyone else would.

Cyril is a very merciful would-be ruler. He says that, when he gets back to power, he is going to pardon the wicked Bolsheviks. His magnanimity is unexampled, but we fear he won't have the chance to exercise it. 'Support of the People."

In an interview with the press, the Grand Duke said that his work to restore the throne "depended on the support of the mass of the people in Russia." We are sorry, for his sake,

to hear this, because it means that he is going to be a long, long time getting back. Other noble exiled Russians, in-

stead of drowning their misery in rose-tinted visions of future power, seek escape thru the more expensive dreams of dope. For instance Gen. Serge Roubitoff Vladicho Alexandrovitch has just committed suicide in Constantinople.

He was a general in the army of the czar. Later he commanded a part of Wrangel's army. When the reds drove Wrangel from Russia he and his wife took refuge in Costantinople.

### Dope.

When their hopes of returning to Russia to be greeted by the plaudits of adoring workers and peasants who had overthrown the Soviets began to get fainter, they resolved to reinforce them by resorting to the chemist's shop.

They yielded to the bewitching sway of morphine. Some pleasant evenings were had by all, when. chock-full of dope, they visualised the slaughter of the ferocious Bolsheviks and the return of their broad estates. Slowly they slid down the long, steep road of drugged degeneration until, one night, the general's wife died from the effects of her debauch. No Hope.

This helped to restore sense to the morphia-soaked brain of the czarist general. He came to himself; and the spectacle he saw was too cruel for his bearing. He saw there was no hope; that, under the rule of the workers and peasants, the Soviet Union was growing ever stronger. Fumbling and gibbering-a debased creature of his sordid addictions-he was terrified by truth. And so he purposely took an overdose of the deadly drug and died. His name will probably be honored in the ranks of the White exiles. In Workers' Russia he is forgotten.

ween the workers in the Standard. Union must proceed largely thru the Vacuum and Tidewater companies.

As it is, the companies insist that such meetings must be by separate workers on this point. Another grave complaint of the men is that they have no information on which to base demands. They know only about of irrigation the Soviet authorities exwages in this vicinity. Their data along this line must come from the company. They have long asked for a paid secretary, to represent their interests fully, but the demand has never been met.

May Strike.

A strike is not at all unlikely on the Hook. Two dangers are ahead, Administration Leaders that may prevent such a movement and the forming of a real union, One is the possibility of the companies meeting the present demands, in part at least, and thus striking a diplomatic blow at "outside agitation." The Vacuum Oil Company had refused its men's demands, but it is now said to be reconsidering them. The other is, that certain departments may enthe administration supporters. gage in premature strikes. The only hope of the oil workers is in a unitel industrial walk-out, after careful preparation.

### Want Increase.

The Vacuum Oil Company men's demand is for conditions promised for Easter, 1924. They include granting of the Haughen bill. of paid vacations after, so many years of service, and also an increase in wages. This week, balloting on the company union representatives has been going on. Whether all the elected representatives will receive the O. K. of the companies remains a doubtful matter. Next week will show what the men may expect, and will be critical in the underground fight between the company union and the possibility of real organization. liam B. McKinley.

## **Coolidge Grudge Costs** Brookhart Senate Seat; **President Unforgiving**

(Special to The Daily Worker) WASHINGTON, May 2. - Senator

Butler of Massachusetts, republican national chairman and spokesman of President Coolidge at the capitol, demonstrated his power when he reversed his own position three days before the vote was taken on the Brookhart-Steck election contest, and threw the New England republicans,

and the final decision, as Coolidge wanted it to go. That is to say, Butler executed Coolidge's order to throw Brookhart out.

The final vote on the issue was 45 to 41. Had Butler not switched he would have held three or four New England votes on the side of Brookhart, and the latter would have retained his seat. Steck, a corporation democrat, would not have entered the senate. Cummins would not have been compelled to run against Brookhart in the Iowa primary this year. Coolidge Gets Even.

Coolidge was nursing an old grudge Brookhart, nominated by a big majority in the republican primary in 1924, had denounced the Coolidge policies and flayed Dawes in a speech shortly before the election. He recalled Coolidge's attempts to protect Fall, Daugherty and Denby. The republican reactionaries were fighting Brookhart anyhow, but his act of selfdefense infuriated the New Englander in the White House. When Coolidge learned recently that Butler had been

persuaded that it was better to keep Brookhart in the senate than to seat a corporation democrat, he became intensely interested. Butler suddenly reversed himself and began canvassing for the democratic contestant,

ist armor was made in 1917 when the Russian farmers and workers got rid of their czarist exploiters and established their Soviet form of government. This was the first great challange to the rule of world capitalism

over the workers and it will be followed by others. Emancipation of Farmers and

### Workers.

The emancipation of the farmers and workers everywhere cannot be stopped but must go on. The farmer and worker in Europe and America as well as the millions of oppressed in India. China and other colonial countries are on the march against their exploiters and will win their freedom They cannot lose. The day of victory maybe postponed, or retarded, but ome it must.

The first of May is a big day for he workers, and the farmers of the United States have as much interes in this international workers' holiday as the city industrial workers because it is only by forming a political and economic alliance with the latter that the exploited farmers ever will be able to abolish the robbery of the banks and the grain gamblers. On May Day they should, in company with their allies, the workers, demonstrate their solidarity and challenge the rule of the capitalists, their exploiters.

Farmers Lease Capitalist Parties

## "Study" World Court,

Having pigeon-holed the question of the league of nations, the convention dealt like treatment to the affiliated subject of the world court, while in declaring a state of siege and in the problem of the war debts was referred to the resolutions committee.

The convention adopted resolutions of sympathy with the Chinese work- complete. All transportation will be ers, protesting against the use of American gunboats against the Shanghai strikers; sent fraternal greetings to the Calles government in Mexico, protesting against the support given by the United States government to those who would exploit the Mexican people; demanding the recognition of opening of trade relations with the Workers' Republic.

Bitter Battle Over "The League."

thru unanimously, it was an artificial to give official colors to the O. M. ers are known for their militancy. calm that settled down after the bitter battle over the league of nations. Thile Berger denounced Hillquit with the into a league and do the same thing to ally himself with the While Berger denounced Hillquit with dead Wilson, other speakers charged Berger with rubbing too close shoulders with the Washington politicians. It was charged that he had thus forgotten his Marxism and his socialism. The speakers evidently intended to infer that in opposing the league of nations, Berger was merely playing the role of political opportunist, having an eye to the recent primaries in the neighboring state of Illinois, where U. S. Senator William B. Mc-Kinley, one of the league senators, was disastrously defeated by Frank L. Smith, who took an anti-league position. Berger has half an eye on the United States senatorship from Wisconsin, where the LaFollette organization, that admittedly controls most of the votes, is anti-league,

# Coliseum Meeting Cables Greetings.

8,000 Chicago workers at a May Day demonstration in the Coliseum, one of the largest halls in Chicago, by a unanimous rising vote decided to send the following cablegram of support to the striking workers of Great Britain:

"To the British workers on this international May Day. Greetings to you from 8,000 workers of Chicago in demonstration assembled. "Your heroic resistance against the greedy onslaught of coal barons is a struggle to free the world working class.

"We pledge our solidarity and full support."

# Miners Pledge Support.

. . . .

Saturday midnight the huge structure was ablaze with light and running full force. The Westinghouse plant did not recognize May Day any more than the police of Pittsburgh. Reserve Decision.

"Is It The Jail?"

Decision in the cases of J. Louis Engdahl and Abram Jakira was reserved by the local magistrates' court until Monday, when the arrests of the two Communists at Saturday's May Day meeting came up for hearing. Communists and sympathizers were in court with Engdahl and Jakira.

The case was called at eight o'clock Sunday morning. "What would you do in Chicago if you

were denied a permit to hold a meeting? would you go ahead and violate the law?" the magistrate asked Engdahl. "In the first place no permits are demanded for hall meetings Opera Ballet and the Freiheit Singing in Chicago," replied Engdahl, "if they were demanded and denied, as they are here, I would certainly hold a protest meeting and test such an ordinance in the courts."

To Test City Ordinance.

Attorney George J. Shaffer appeared for the Communists and announced that the ordinance under which Carnegie Hall was closed against the local May Day meeting would be challenged in the effort to maintain the right of assemblage for Pittsburghs' workers.

"This is just the kind of a case that we have been waiting for," said Shaffer. "It will be fought to a finish." No interference has been encountered so far by any of the other May Day meetings in the Pittsburgh district according to all reports received.

# LAND ON THIS BRICK!

## Page Four

## By BERT MILLER, District Organizer, Boston.

FOR many years the American Federation of Labor bureaucracy has maintained a policy of total disregard of the unorganized workers. It has catered consistently to the privileged upper strata of the workers endeavor ing to safeguard their monopoly over a few crumbs with which American imperialism has deigned to part. It has ignored completely the demands of the unorganized workers, the most exploited section of the working class. In the spring of this year the Central Labor Union of Boston, with the full support of the Massachusetts State Federation of Labor, issued a general call for a conference for organizing the unorganized.

An impressive demonstration including 7,500 workers was staged on April 11. One hundred thousand membership cards are being printed to enlist new members for the labor movement. Three important and unorganized industries have been chosen as the starting point of an organization campaign. Have the reactionaries chosen to mend their ways? Have they reformed overnight? What is the explanation of this remarkable change of front?

The Federal Reserve bank of Bos-"the key industries of New England continue to report a relatively small volume of new business." James H. Hustis, retired president of the Boston & Maine railroad, in an interview published April 4; says: "New England may no longer dominate to the extent that it did some years ago in such important industries as textiles. shoes and so forth." Senator Butler of Massachusetts, in a recent speech, is totally unprepared. speaks of the "adverse conditions now existing brought about in large part by the importation of vast quantities of foreign goods to our markets, taking away the employment of our workers and the prosperity of our people." Speaking of the textile situation, C. an organized, intelligent manner.

T. Revere of Munds & Winslow comments: "Without a deliberate excursion into pessimism, we feel that try over is relatively low."

## **Tribesmen Refuse to Lay Down Arms**

(Special to The Daily Worker) OUJDA, French Morocco, May 2 .--The proposals of the French and Spansh imperialists that the Riffians disarm, submit to the imperialist tool, the Sultan of Morocco, agree to the exile of Abd-el-Krim from Morocco and all other Moslem countries, and agree to advance of French and Spanish troops six miles into the territory taken from the French and Spanish armies by the

Riffs, were rejected by Abd-el-Krim and counter proposals presented. **Reinstate Former Demands.** 

**RIFFS REJECT** 

The counter-proposals are a reiteration of the demands of the Riffians made at the beginning of their revolt

against the French and Spanish imperialists. The Riffs, in their counterproposal, insist on the autonomy of the Riff country without submission to the Sultan of Morocco, absolute re fusal of Abd-el-Krim to go into exile acknowledgement of Krim's right to exploit the Rifflan territory by the use of foreign capital, and disarmament of Riffians only on their own initiative.

Reject Imperialist Proposals.

This counter-proposal of the Riffians and the absolute rejection of the terms of peace offered them by the French and Spanish delegates came close on the ultimatum of the French take the Free State oath and on driv- and Spanish generals, which declared ing the British flag from Ireland and that Abd-el-Krim must either agree to the four proposals made by the imperialists or else the war would be renewed.

> The counter-proposal of the Riffs vas brought to the Riff delegation by a Riff warrior, Hammouch Ben Hadge, 67, who ran seventy miles, leaving Krim's headquarters at sunset and arriving at Oujda at sunrise.

The Spanish delegates have been very restive and have insisted time again on breaking off negotiations and advancing their army into the Riff country. Both French and Spanish generals have had their troops ready to march against the Riffs and the ultimatum to the Riffs that they must either accept the terms of the peace that the rank and file of the unions in or that the war would be renewed is made two weeks before the Riffian harvest.

### Fear Riff Harvest.

The impatience of the imperialists to war now on the Riffs is due to the fact that in two weeks the Riff harvest will have begun. If negotiations are protracted another two weeks the imperialists realize that the grain will have ripened and the Riffs will have enough food to carry on the war for another year.

### Tribe Revolts.

Beni Mestara, who accepted the French rule and did not join the Riffian forces, has now revolted. The French sent a strong army detachment to put down this rebellion. The French troops were able with the use

Labor Demonstrates

Paris Celebrates May Day. PARIS, May 2. - Thousands of Parisian workers demonstrated in the streets of Paris. Open air meetings were held in the different sections of the city. All taxi-cab drivers were on strike as well as barbers, carpenters, painters and workes in other legal Labor Day of France.

## Austrian Workers Demonstrate.

VIENNA, May 2. - The May Day elebrations in Vienna were the most imposing in history. Virtually all of the workers and their families paraded under red flags. Despite police provocations the meetings ended orderly.

## \* \* \*

Fascisti Forbid Demonstrations. ROME, May 2. - The attempt on he part of the fascist butchers to prevent revolutionary workers from elebrating May Day met with dismal failure. Thousands of workers in Turin, Milan, Rome and other industrial centers refused to work on that day and participated in May Day demonstrations. Arrests were made by the fascists in many towns. In Rome

Deputy Bendeni, a Communist, and a group of workers were arrested by the fascist police. The fascisti threatened all workers that celebrated May Day with jail. Mussolini's gang has decreed that April 21, Rome's birthday, shall be the

### legal labor day. . . .

Mexicans Unions Celebrate May Day. MEXICO CITY, May 2. - All Mexcan labor joined in the celebration of May 1. The Mexican unions called on their membership to cease work and participate in the demonstrations. Even the weiters in hotels and cafes joined the celebrations leaving many American pleasure seekers go hungry for the day. No newspapers were published as all printers joined the celebration. The telegraph and telephone services were suspended. A parade of

100,000 workers showed the strength of the unions in Mexico City. Even drug stores were closed. The physicians also joined in the celebration of May Day. Emergency stations were created in various parts of the city by the trades unions to care for any calls for medical aid.

10,000 Parade in Tokio. TOKIO, May 2. — In spite of the drastic powers given to the police to crush all May Day demonstrations and proclamations issued many days before May 1 prohibiting demonstrations, 10,000 trades unionists marched thru the street of Tokio carrying ban-

ners demanding better living conditions.

Similar demonstrations were staged in Osaka and other cities. Tokio is facing a strike of the electrical workers employed by the Tokio Electric

SUB-SECTION 4 B. situated in the

FUR WORKERS' DISTRICT.

John Garibush was considered by the Alicia Mine company as one of the best coal diggers for the company. Today his children and wife are facing starvation. The company has no use for Garibush. He is no good to the company because they cannot get profit out of him. The reward of the Pittsburgh Steel Coal company to Garibush after he had worked for more than six years was an order to get out of the company house as the company needed the house for another worker.

six children.

Garibush now receives only the state compensation of \$12 a week. Out of this he pays \$2 a week for traveling expenses from Alicia mine to Uniontown, Pa., to see the doctor.

Can a man, wife and six children live on \$10 a week with the high cost of living in this part of the country? There are many crippled miners in this or any other coal mining section of the country as the result of the despotism of the coal companies like

the Pittsburgh Steel Coal Co. They not only paid the 1917 wage scale, but they also force the coal diggers to drive their own coal wagons out from their digging places indirectly.

### Dare Not Protest.

If the coal diggers make any protest they will get fired. To drive a horse in the mine you must be experienced men. An inexperienced driver is likely to cause an accident. Lack of timber supply to the diggers to make their working places is the cause of many more accidents.

Cheap production of coal by such greedy companies is more important than the life of miners and starvation of their wives and children. Who is to blame for this condition? I say that it is workers who disregard organization

Wake up, workers! Let's organize in a solid mass. We must fight the 1921, when the civil war which had master class sooner or later to better our conditions, so why wait until tomorrow? Why don't you think for yourselves?

# The Class Conflict in England

Labor thruout the whole world is eagerly watching the development of the great struggle that is now convulsing the British Isles. Long awaited, this May Day brought to England the strike of one million miners. For months both labor and capital have been pre paring for the outbreak of this conflict. Up until the last moment every device known to tyrannical capitalism, short of yielding to the demands of the miners, was used to thwart the strike.

When the government, as the agent of the British imperialists, ed but as a political stunt, or as a milch-cow for some able legal climber perceived the gathering storm it struck out in desperation at the vanguard of the working class, the Communists, arresting the leaders of the party, thereby hoping to smash thru to the main body of scramble for jobs, like jackals over a variety for different posts, but there workers.

In preparing for the drive against the front line fighters, the master class was aided and abetted by J. Ramsey MacDonald, former premier, and his satellites, but the mine strike came in spite of the combined efforts of the government, the employers and the yellow leaders.

Now that it is a reality the terrific momentum of the mass movement has swept even the reactionary leaders along with it. Much as they deplore the threat to the established order of things that is contained in the present struggle they dare not oppose it as they know they would be swept aside as derelicts upon the raging seas of class conflict.

The walkout of the million miners was the signal for immediate action on the part of the government. Under the emergency act of 1920 a virtual dictatorship was set up by Premier Stanley Baldwin, with himself as political dictator and with the postmaster general as "economic dictator" in command of ten "civil" commissioners in charge of ten districts. It is significant that most of these ten are men of experience in military leadership. Troops have already been rushed to the mine strike areas.

When the morning of May Day dawned and the workers started THE serious outbreak last week of Hindu-Muslim riots in Calcutta is their celebrations the trade union congress met and answered the government's dictatorial action by a vote for a general strike at mid-ties of upper-class Indian politicians night Monday, unless the demands of the miners are met before in the legislative councils. that hour. Such a strike will involve four million more workers and will mark the greatest labor upheaval since the series of revolutionary struggles following the Russian revolution.

Regardless of the outcome, one thing is certain and that is that this May Day is a landmark in the history of the world labor movement. Never again will Britain be as it was before. In case the government and the mine owners yield to the demands of the miners, who are resisting a wage cut of one-third of their former pay, it will revolutionary enthusiasm of the tremendously strengthen the power of labor so that the ruling class will long hesitate before they precipitate another such upheaval.

If midnight tonight brings the threatened sympathetic strike of five million the very existence of British imperialism is threatened. lar press and the bazaar propaganda. The army and the fascists will strive to provoke bloodshed, thereby The consequence has been these peunleashing the elemental power of the working class, which may culminate in the overthrow of British capitalism.

The third possible outcome may be a period of fascism in Britain. But fascism in that nation will not repeat the history of fas- TT is a significant fact that the lead-

LGOINDE 1

## **Christian Education and Crime**

Every fresh outbreak of crime furnishes the ministers of the gospel new opportunities for their stupid sermonizing. The sensational murder of the star prosecutor, McSwiggen, and two of his beer running companions, is now the chief topic with the clergy. and failing to get the support of their abolished in 1922, which meant great cesses, were getting 11.3 per cent dictional dog fights between the No matter what new facts may be deduced from criminal annals, the ministers always indulge in the usual banal clap-trap of propagandizing their particular superstition.

Bishop Thomas Nicholson of Detroit came to Chicago and addressed the methodist laymen's annual convention, taking advantage of the recent murders to unburden himself of the following ent policy of craft organization, the all too successful in their efforts. Ac- out of employment, the railway comabsurd claim:

"I believe the best way to meet this outbreak of law violation is to strengthen the work of christian education. It is a rare thing to find a graduate of one of the church colleges among criminals."

The bishop is either ignorant of the facts or a liar, or both. tions not directly engaged in strikes. Especially unfortunate is this observation as applied to Chicago.

According to the statement of the Rev. George R. Thomas, rector of St. Paul's church, Kenwood, who cannot be accused of being prejudiced against christian education, forty-five ministers of god were arrested in Chicago the past year for sundry high crimes and misdemeanors.

The percentage of crime among the envoys of god exceeds that of most occupations and is rivalled by few.

But then no one expects preachers and bishops to know what they are talking about.
