Gurrent By THOMAS J. O'FLAHERTY FROM Berlin by telegraph comes an

except from a catholic paper predicting that the Mexican government's anti-clerical policy may cost Calles his political head. Thus the international and efficient propaganda machine of the catholic church does its work. Nearer home we have the Knights of Columbus convention assessing its membership \$1,000,000 for anti-Mexican propaganda and very likely more lethal weapons. . . .

- Roman church in the United States standing quarrel between Wall Street can be judged from the fact that and Mexico over the petroleum laws. hardly a single capitalist paper in When Calles had his hands full with the country has the courage to come a mansized scrap with the catholic out and tell the truth editorially of church, Sheffield called at the foreign the causes leading up to the present office and left a note. Then he made imbroglio. Of course some naive rad- arrangements to leave the city for icals will attribute this cowardice to home and an interview with Coolidge. subserviency to the bankers. But it That the ways are greased for a oftentimes pays publishers to beard diplomatic break with Mexico there the Wall Street lion and play up to can be no doubt. The action of the the masses. The explanation is not Knights of Columbus openly demandthere. It is in the power and dis- ing a severance of diplomatic relations cipline of the church machine, with a between Washington and Mexico City following of some fifteen millions that is significant. has bidden good-bye to its brains.

THE church keeps its hands on its L subjects from the cradle to the grave. It is unequalled for organizational efficiency. It taxes the members of the flock when they are baptized, when they get married and exact toll when they die. There are societies and solidalities for practically every one of the innumerable saints, virgins, ghosts and saviors that the pope and his aids have dug out of the graveyard of mythology. Not only dops this system give the church a highly disciplined body of faithful ad- agent of Wall Street. herents, but it trains functionaries for leadership. Of course, the hierarchy has the final say in matters of policy and direction. . . .

THE only reward offered to the rank and file of the church is a promise of heaven beyond the grave, provided they give the priest all that is coming to him, chiefly in money. The more intelligent and better educated of the catholics find the support of organizations, whose members obey the priests without question, extremely useful in politics and business. This system is used effectively by the Knights of Columbus as well as by the ku klux klan. In fact, the former organization rarely canvasses for membership, on the basis of spiritual advantages, but for business reasons.

MANY of the leaders of the Knights by fanatical catholics. An insane girl went thru the city claiming that she devoted to religion. Many of them do was a "virgin." #### Mellon in Rome.

It is also noted here that the presence of Andrew Mellon in Rome bodes no good for the Mexican republic. Mellon is the actual leader of the United States government and represents American "big business" in the Mexican imbroglio. It is believed that Rome did not decide to act against Mexico without the assurance that it would have the backing of Washington. In fact official circles here are confident that Rome is not the leader of the movement, but the

#### Peasants With Government.

The governiment is perfectly well able to handle the situation here. The peasants, among whom General Obregon is popular, are with the administration. So are the industrial proletariat, tho they have no reason to love Calles, who is one day for them and another day against them. The insecurity of the governmental basis of power makes it incumbent on Calles to play the role of a political chameleon. He must cater to various elements in order to hold office. Never theless in the struggle against the church he is sure of the support of the decisive elements in Mexican political life

**British Miners Firm; Delegates** Seek Aid in U.S.

#### (Special Cable to The Daily Worker)

LONDON, August 8 .- The one hundred day strike of the British miners is as firm as on the first day. In spite of the pressure of the leaders, a great majority of the Lancashire, Cheshire and Cumberland miners rejected the so-called church memorandum.

The government is increasing its persecution against the heroic strikers. During the past week there have been 586 new arrests.

The assistance of the international proletariat has reached a figure of 850,000 pounds sterling, 500,000 of which being collected in the Union of Soviet Republics.

A. J. Cook, secretary of the Miners' Federation, has declared that Premier Baldwin's "message to America," alleging that the miners have good living conditions, is an utter falsehood, intended to prevent the miners' delegation now in America from obtaining the financial help America can give and which the miners and their families so badly need to carry on the struggle against longer hours and lower wages.

# **Miners' Delegation Arrives**

#### By ESTHER LOWELL, Federated Press.

NEW YORK, Aug. 8. -- (FP)-- "We'd like to cable back quickly that American workers will contribute one or two million dollars-or five-to the million striking British miners," declared Joseph Jones, general secretary Yorkshire Miners' Association and executive member British Miners' Federation, upon the arrival of the British workers' delegation in the United States. "It is a critical time. We have been out 14 weeks and we need more help from American workers. The Russians, from all their unions, have sent 500,000 pounds (\$2,500,000) already and we'll gladly take as much more as they send."

#### The Delegates.

# **Into Submission**

PAUL SMITHS, N. Y., Aug. 8 .-President Coolidge is to ask congress for favors to United States rubber capitalists in his message to the next session. Harvey S. Firestone, Jr., tire and other rubber products manufacturer and backer of the Liberia rubber plantation project, has told Coolidge what the rubber capitalists want. Firestone has reported to the president at the summer White House the results of his findings in the Philipit up. pine Islands, where the president envoy, Col. Armi A. Thompson, is now seconding the rubber man's survey. All Firestone wants now is pres-

sure from the United States to change Philippine land laws so that a corporation may hold 500,000 acres on a 75-year lease instead of letting the present regulation limiting ownership to 2,500 acres remain. The Philippine legislature is now considering a bill embodying some of Firestone's proposals, he told reporters. Secretary of Commerce Herbert Hoover, says Firestone, is working out comprehensive plans for the development of rubber in the Philippines.

American rubber plantations in the islands imply the use of thousands of coolie laborers to enable United States capitalists to get the rubber as cheaply as the British do. It has already been suggested that workers will have to be imported-probably ganization designed to develop max- from the West Indies. Philippine workers fear the efforts to make them virtual serfs of American capital.

help to make and enforce.

audience was most intensely interested about what was going on in the Union of Soviet Republics.

All day the Hearst press had been flooding the city with its frequent editions telling of "New Revolts in Russia." While the meeting was going on the Sunday editions were already on the streets with the glaring headline, "Russian Revolt Reported Growing." It is difficult to explain why this hot weather hysteria should have hit

the Hearst press exactly at this moment. The Associated Press papers managed to stop up this hemorrhage of lies a week or ten days ago. They published the fakes, to be sure, in the eager hope that they might come true. But their hopes went the way of all capitalist prophecies regarding disintegration within the workers' and peasants' republic. Yet the Hearst press keeps

. . . The occasion, however, offers splendid opportunities for explaining the actual developments in the Soviet Union. It creates real interest in the work of Felix Dzerzhinsky. who died recently at his post as head of the supreme council of national economy, but who became best known to the capitalist world, during the trying days of the Bolshevik Revolution, as the directing genius of the "cheka," feared and hated by all bourgeois and counterrevolutionists. It rouses interest, and therefore gives a basis for a better understanding of the role that I. A. Stalin, Leon Trotsky, Gregory Zinoviev and other leading figures in

the All-Union Communist Party and the Soviet govrenment are taking in the development of the world revolution. In other words, the capitalist press stirs up the desire of the American masses to understand changing events in the Soviet Union, and at the same time to discover why the capitalist press is so eager to misrepresent and lie about them.

\* \* \*

Regarding this most recent broad side of villification, it is only necessary to publish what the bought press hides. There are three reports, especially, that give the lie to all the misleading headlines. It is well to repeat them here:

ing the nearly nine years of its existence. Capitalist hopes dash as

is made of reports that Trotsky has fled from Moscow and that there is an uprising in the Ukraine." Second, is the report coming from

London, relaying a declaration of the Soviet ambassador in Warsaw as follows: "Newspapers in Warsaw, according to a dispatch tonight, are publishing a statement from the Russian ambassador there protesting against publication of 'false reports regarding military uproar in Russia.' The ambassador flatly denied reports emanating from a number of European capitals to the effect that revolutionary and counter-revolutionary activity had broken out in various sections of Russia" Third, is the statement issued by

the Soviet embassy in London. It is declared that the embassy met all inquiries regarding reports of revolution in Russia with: "We have received no news of a revolt. We cannot think reports are true." \* \* \*

Thus even the capitalist news agencies convict themselves of falsehood. Their fairy tales evaporate in the glare of the truth.

It may be taken for granted that this new flood of vicious propaganda has its basis in the unsettled conditions existing all over capitalist Europe. The reports originally emanated from the trouble zones in the Balkans where Roumania, Jugo-Slavia and Greece are serving new ultimatums on the Bulgarian government, attended by a beating of war drums paralelled only by events preceding the outbreak of the world war in 1914. This week the Anglo-Russian Com-

mittee for World Trade Union Unity is due to meet in Parts. It will not only consider aid to the striking British coal miners, which involves greater aid from the trade union movement over the continent, but also consider the question generally of the solidarity of the world's workers. The make-up of the committee, however, is such that its members will not be confused in their actions, no matted how hysterical the propaganda of the enemy press.

These are only two developments that would rouse hopes in capitalist breasts that something might go wrong in the Soviet Union. There are plenty of others. But all of these hopes will meet with cruel disappointment. The Soviet Union is stronger today than at any time dur-

crippled unless they are in our fold.

nust go the movement for public ownership of the coal industry, with democratic management, which means with the workers, thru their union, having a share with the public in the control of their industry. International conventions 'of the U. M. W. of A. have twice declared for nationalization, and the time has come to get. action.

"Private ownership has utterly failed. It beggars the worker and robs the consumer. A basic industry is ruined by cut-throat competition. There are idle mines and miners and a loss of all security. The only hope for ourselves and our children lies in reorganization of the industry. The public will follow if the United Mine Workers takes the lead.

Will Revive Union.

"The drive for public ownership will give new life to all our union activities. It will put the union on the offensive and the operators on the defensive. It answers the operators' cry that he cannot pay decent wages under a competitive policy. The answer is that if he cannot, the pub-

lic can. "The workers in our army will carry on with greater courage and hope if they are sustained by the prospect of a new deal in the industry. But as long as we accept the economic theories of the employer we are fighting a rearguard battle."

#### Brophy's Record.

Brophy is 43 years old. He has been president of District No. 2 since 1916 when he was checkweighman at Nant-Y-Glo. His enthusiasm for nationailzation found expression several vears ago when he was chairman of the union's nationalization research committee. With his colleagues William Mitch, secretary of the Indiana miners, and Chris Golden, president of District No. 9 in the anthracite field, he worked out the program called How to Run Coal, which outlines a method for the reorganization and administration of the coal industry under public ownership, with the unon participating in management.

American Minister in Middle of Balcan Row with a War in Offing

BELGRADE, Jugo-Slavia, Aug. 8 .---The American minister is staying at Bled, Jugo-Slavia, the summer palace of King Alexander, along with M. Ninchitch, the Jugo-Slav foreign minister, as the crisis between this country and Bulgaria grows. The Jugo-Slav minister to Bulgaria, M. Rakitch, also is called to Bled for consultation. The note to Bulgaria, not yet sent s probably to be carried to Sofie by Rakitch on his return. The government is waiting, it is supposed, for agreement on identical notes to be sent Bulgaria by Jugo-Slavia and Roumania. Greece also is expected to join in action closing Bulgarian frontiers north, west and south. Jugo-Slav diplomats declare that they do not intend war, but only wish to stop the raids across the border by the comtadji, the Bulgarian irregular MUSKOGEE, Okla. - (FP) - The troops, who act unofficially, but with nouse of God is no place to sleep, ac- Bulgarian government unofficial con-

News and Comment

Labor and Government

Labor Education

THE DAILY WORKER

By ART SHIEDS, Federated Press.

NEW YORK, Aug. 8 .- Losing his diamond-studded police captain's badge and the power to arrest his employes that went with it, spelled defeat for Henry Fruhauf, leading open shop clothing manufacturer, in his contest with the union. A sharp two weeks' strike has ended in a victory for the Amalgamated Clothing Workers. It is the union's most important strike settlement since it signed up the International Tailoring Co. and J. L. Taylor & Co. earlier in the year.

Bitter Open Shopper. Fruhauf was one of the capitalists that Mayor Hylan favored with a special police title-he was a captainand the clothing manufacturer used his power effectively in the unionfighting game. He first broke with the Amalgamated in the 1921 strike and lockout and fought it ever since till the present settlement.

As an officer in the clothing manufacturers' association he preached the gospel of the open shop in and out of season and boasted to his fellow bosses of his ability to go it alone. In 1924 when the general body of clothing manufacturers of New York joined with the union in setting up arbitration machinery, presided over by an impartial chairman, Fruhauf continued to run his shops in dictatorial fashion

Boss Was the Government. When the union struck his plants in 1924 and production ceased Fruhauf displayed his police captain's badge as the pickets passed by and directed patrolmen in the jailing of the more **UNION LOCALS 100 AND 59** active spirits. As a police captain he defeated the 1924 strike that as a simple manufacturer he would have This week the right-wing forces in the International Ladies Garment Workers Union received two severe blows. In the elections in Local 59 the lost.

# WITH THE LABOR PRESS

**Organized Labor—Trade Union Activities** 

THE POSTAL RECORD, Official Organ of the National Association of Letter Carriers. Published Monthly, 48 Pages. M. T. Finnan, Editor, A. F. of L. Building, Washington, D. C.

A S is natural, its members coming under the civil service law, the Postal Record devotes considerable space to congressional procedure and prints the pictures of congressmen who favor the legislation, such as the retire ment pension act, which the union is seeking.

. . . .

The labor character, found even in the most conservative trade union journals, is almost entirely absent in this organ of a union of government employes. Out of five editorials, covreing two pages in the August issue there is not a single one dealing with anything subject of general interest to labor. One editorial stresses the fact of the friendly relations existing between the government officials and the postal employes and opposes a proposal by the comptroller which would deprive postal department officials of expenses incurred while attending conventions of the union.

The National Ladies' Auxiliary of the union has a correspondence department in the journal consisting mostly of reports from branches. The state associations also have a department given over mostly to notices of draft a state police bill this state conventions which are written in well-known "booster" style made famous by real estate advertisement writers.

Twelve to fifteen pages of each issue are filled with letters from local unions and it is here that the political level of the organization is revealed. Like the state association department communications, the letters from the branches are chiefly laudatory comments on the old home town and the jokes are of the kiwanis-rotary club variety. Scarcely a word about the labor movement in the rsepective can found altho there is plenty of baseball news, social items, praise of the local postmaster, etc. Typical of the corrsepondence is a letter from Sherevoprt, Louisiana, which refers to this municipality as the "pep city of America."

The servility which the civil service seems to demand and against which the official organ of the union appears to make no protest is exemplified by a letter from Flushing, New York, published under the title of "Testimonial Dinner to Harry S. New, Postmaster-General, and John A. Rapelje Postmaster of Flushing, N. Y." The letter begins as follows:

There they are, brothers; two of the best postmasters in the United States; yes, and we feel in the entire world. Those of us who had the opportunity to be present on the occasion of this testimonial dinner given to the above gentlemen, and believe me there were some one thousand gathered together from within the ranks of the postal department and civilian life, may well feel proud that we have as our chief and as our postmaster-general a man of the caliber of General Harry S. New. A gentleman every inch of him. Yea, and even more, a real live, honest-to-goodness he-man. And I say this without fear of contradiction. Here is a gentleman holding one of the greatest offices within the gift of the president of the United States, who did not hesitate, when asked to attend this dinner as the guest of he employes of he Flushing Postal District, to fraternize with his employes and with the citizens of the postal district of Flushing. . . . What an example of fraternalism! What a spirit of co-operation! Yes, what a significance.

There is much more of the same sort, but this is enough to indicate that the official organ of the union has a policy of encouraging a sort of bureau cratic feudalism and that the organization is little more than an adjunct of ing girls. the political machine of postal department heads.

#### No Injunctions Issue They Must Have Help Will Seek Real Information.

One of the greatest industrial bat tles in history is being waged by the miners of Great Britain to prevent the further degrading of the already des perate conditions forced upon them by low wages and unemployment.

The organized mine workers are carrying on their fight courageously despite the calling off of the general strike. But they are fighting against desperate odds.

Four million men, women and chilce starvati

Late in August a select group of labor leaders will leave this country for a tour of industrial Europe, in cluding Soviet Russia and fascist Italy, to get actual first-hand information as to labor conditions. Men very high up in American labor circles will make up the group, which will be a personal mission, and not official.

## Pittsburgh Arranges Social to Aid Striking British Coal Miners

PITTSBURGH, Pa., Aug. 8. - A benefit social for the British miners and the Passaic textile strikers will be given by the Pittsburgh branch of the American Negro Labor Congress Monday, Aug. 16, 8 p. m. at the Labor Lyceum, 35 Miller Street, Pittsburgh. The splendid music, refreshments

and the especially prepared program will make this benefit social a new feature in this city. All workers and their families are invited to attend. Admission 25 cents.

#### **Pittsfield Police Arrest Samuelian**

PITTSFIELD, Mass., Aug. 6 .--- H. Samuelian was arrested by the police here and threatened with deportation for selling The DAILY WORKER and the other Workers (Communist) Party literature. When being examined by the police

head he was struck several times across the face and told to pack up and leave the city immediately.

The police head told one of his aides o take away the ice cream license held by Samuelian. International Labor Defense is aiding Samuelian.

Five dollars will renew sub for a year, if you send it in before August 15

who have builded on sand. The New York subway strike re

veals that every worker must join that company "union." Employes have no option. They must affiliate or not work. Dues are deducted by the com pany.

Where are this gentry who write voluminous and ponderous advice to trade unionists?

Do the propagandists call attention to these things? Certainly not. The employer is their best customer. He buys their pamphlets on the advantages of company "unions" to distribute to employes.

To tell the facts of the company "union" is unprofessional. It is too done, efforts are being made to do it. good a meal ticket to be exposed. There is nothing undemocratic in unions insisting that workers in every trade and calling assist in maintaining work conditions.

Society itself rests on this theory Neither would it be wrong to apply this principle to the company "union," were it not founded on dishonesty. To compel men to be a party to that dis honesty only expands the deceit. The company "union" is maintained

by the employer. He owns, controls and directs. It is his property. It is intended to pre-empt the field and keep out the legitimate unions.

The company "union" is in expensive. It has often replaced crude spy systems and cumbersome strikebreaking machinery.

With straw bosses and company fa vorites in key positions of the company "union," demands for improved work conditions can be sidetracked. Even wage reductions are secured by having a hand-picked committee "examine the books."

Employeyrs are delighted with their latest anti-union plan. It is so smooth, so simple, so inexpensive. It has the outward appearance of a trade union.

Propagandists complete the job by drugging both workers and the public. -Amalgamated Journal, official organ of the Amalgamated Association of Iron, Steel and Tin Workers.

Willimantic Textile **Mill Rejects State Arbitration Offer** 

HARTFORD, Conn., Aug. 6. -(FP) -State arbitration was rejected by the Americant Thread Co. for its plant in Willimantic, The United Textile Workers have conducted a strike there for nearly two years

greatest menace they have to face.

We in America can help our British brothers win. If they are driven back to the mines to work under terrible conditions and at pitiful wages we cannot escape the consequences of their defeat.

The present lockout comes at the end of a period when earnings ranged from \$11 to \$15 a week. In only a few sections is any lockout benefit being paid. The vast majority of miners are entirely dependent upon relief from outside sources.

The demands for help from home are many and the need is great. Our sible labor executives of this country own miners in the bituminous fields are faced with a situation almost as desperate as that which faces the British miners. But in the face of their own great need the United Mine Workers' Union is sending contributions to their British brothers.

Can workers who are more fortunately situated do less ?- The Railway | tee" from this country. Clerk.

It is to be regretted that in some localities there still remains a tendency to ignore our women workers cure reliable information concerning who are in every respect a vital part of our trade and can and do prove of inestimable value in time of trouble It is a notorious fact that in recent cases our women members have made the good fight, putting our men to shame. They deserve the support of their brothers in the craft in their Federation of Labor status, since it is effort to obtain a living wage, in fact, upon their receiving it will in a large measure depend the wage and conditions secured for our men. Let us not deceive ourselves by following a suicidal course of ignoring our women, we will regret it when too late .-- The

International Bookbinder.

The inconsistency of the man who is opposed to the organization of labor, when he himself depends on his daily wages for support, should be pointed out to him in the fact that he is accepting the wages secured thru the organization of labor, which are in advance of what they would be were it not for unionism, and that, without contributing towards the maintenance of the union in any way; but, on the other hand, arraying himself against his fellow workmen and at the same time against his own interests, and by

accepting the improved conditions brought about by the organization of the workers, is "obtaining money under false pretenses." Surely none are so blind as those who will not see .-Rallway Carmen's Journal ite Cutters' Journal.

LABOR OF N.Y. To hear story MRS. SEMENOFF NABBED AS THIEF; AND SO **OF MINE STRIKE** 

Meet at Central Opera House Tuesday Eve

NEW YORK CITY, Aug. 8 .- On Tuesday night, August 10, at eight 'clock, New York workers are invited to attend the big protest meeting against the British mine owners and government who are trying to stave 1,200,000 union miners and their wives and children into submission to longer

than the dues in our party. The Russian workers pay 2% of their income hours and lower wages. The life of the British miner has been nothing less than hell for years, five years of unemployment and end-

less years of starvation wages. In districts where the bosses made the much to the party. Fifty cents each from ten thousand members means largest profits, the average wage has been only from \$10.32 to \$12.96, for those who could get work steadily They rebelled against a 10 per cent cut and an attempt to get them to work one hour longer a day. "Not a penny off the pay; not a minute on

the day!" is their fighting slogan. The speakers at the meeting will be Assessment should learn from the example of the German and Russian work- Ben Gitlow, Norman Thomas, Louis Hyman and the Rev. Leon R. Land. Everyone is invited. The meeting is to be held at Central Opera House, 67th street and Third avenue, Tues

day evening at 8 o'clock.

### Labor Defense Picnic at Zahora's Grove Sunday, Aug. 22

The Bulgarian, South Slavic, Greek and Czecho-Slovak branches of International Labor Defense will hold a Labor Defense Picnic at Zahora's MORRIS KRVETZ Grove on the Des Plaines River, Sunday, Augst 22.

In order to get there take Ogden Ave. or 22 St. car, then Lyons-Berwyn car to end of line. Walk west few blocks to grove. Or get bus at the end of 22nd St. car line direct to

# **Mussolini** Orders

ROME, Aug. 6. - A new series of rastic measures handed down by the Cook county jail after serving a 50-Senito Mussolini forbid the manufac- picketing when "Injunction" Judge ure of bread containing more than he manufacture of "luxury" bread nd of pastries and sweets containing heat flour.

The fascist cabinet has decided on a eturn to the war-time bread in an atthe union. tempt to cut down the importation of wheat into Italy and thus overcome the unfavorable trade balance.

Each unit of bread is not to exceed 200 grams and its price is to be fixed by the provincial food committee. Violations of these decrees will be severely punished. A strict system of enforcement is being created.

WAS HER OLD MAN PARIS, Aug. 6. - A woman who claims she is the wife of the notorious Czarist General Semenoff, went off with furs and jewelry that did

not belong to her and sold them. Mrs. Semenoff thus got herself entangled in the meshes of the law. Such practice seem to be first nature with the Semenoff family.

THE value of the carrier delivery 1 and weekly contributor to our pas per. This puts the thin edge of the wedge between him and his past. habits and prejudices. Instead of taking a year's subscription from him and then leaving him in a condition unable to assimilate and use his pur chase unsided, thus creating only dist gust every time he sees the paper, we

begin by helping him to help himself To do this work I find the skill of to read and appreciate the paper, and in this way at once make a convert the salesman and the patience of the readers must be combined. I make a instead of an enemy. The and the running list of all houses visited leav-THE first week I lost 7 out of 14 ing plenty of space for memorandum. L "serves" I had obtained. I nearly quit. I could sell 40 or 50 papers to is put down, whether the door bell is those I met for the first time, but it seemed they just would not read it, successively. The next week I lost 8

out of 21, having obtained 14 new, ones. That was still discouraging. I commenced to study my method of interview. At the next collection, July 24, I had 34 of which I lost 7. July 31, I had 37 and lost only 5. In my interviews now, I stress The DAILY WORKER'S interesting features and the fact that by merely being in the field the pressure of its influence will be worth its price in bringing better wages and shorter hours. I refuse to discuss any other subject, or phase of this subject, except the value of The DAILY WORKER in the struggle for better living and as a paper fit to read and look forward to every day. Subscribers started even on trial, in this way are very apt to stick. Once they read it successively a few times we have them. Also I am paying attention to other members of the family if I meet them. I interview whoever I met just as if they were to decide the matter. Thus by making friends of them and getting some measure of understanding and appreciation from them, I pave the way for success when I see the man himself. Even the prospective Pioneer has his or her influence in the family and can understand if the matter is presented right to them. Very often a slip shod interview with the husband resulting in an order, will be at once wipped in the hand by the wife who has received no explanation and decides adversely without any knowledge what-

Workers to Celebrate Youth Day Sept. 3 Los Angeles Socialists with Pro-Russian Speech International Youth Day will be cel

By L. P. RINDAL. LOS ANGELES, Cal., Aug. 8 .-

James H. Maurer, president Pennsylvania Federation of Labor, at a banquet tendered him and his wife at Tait's by the socialists, gave a shock to some of the hard-boiled socialists with his attitude toward Russia.

He said Russia is the hope of the world. Before world peace can come to stay we must be able to see a worker's government in every coun try under the sun.

"When the soviet government of fered \$2,000,000 to help the British miners the British government said 'No, it can't be done.' But when the Russian trade unionists said: 'Al'

right, we will send it ourselves.' The British government was forced to back down." declared Maurer.

has bought the Ciro night club or "In Leningrad the metal workers de West 56th street. At present the cided to work two hours overtime for Church of which the Rev. the good will of the police, their efforts have not been entirely successful. The conservative Times led by collecting over \$1,000,000 for police pensions "in recognition of their services during the general strike."

many instances of sympathy with the union men. Unlike his American colleague, the British copper is not eager to club strikers and is not a reliable tool of employers. The Liverpool police strike of 1919 is still remembered. Although the strike was lost the leader, Jack Hayes, ran for par-

liament on the issue and has held his seat ever since. In several other towns police unions are in existence.

Jack Hayes challenged in parliacapitalist production was dependent ment the subscription raised by the on handicraft its expansion was ne Times. "In the list of Times sub- cessarily limited. The commercial scribers, one finds an overwhelming wars of the 18th century stimulated perponderance of business interests demand; they were wars waged for represented," he stated. "If police the mastery of world markets. The opinion were sought, it would be to problem to be solved, therefore, was the effect that the money should be "how to make industry adequate to given to the relief of miners' children. The mayor of Nottingham," Hayes was the stimulus for the Industrial universally introduced. This compepointed out, "made an appeal for a Revolution. police fund. But at the request of the The Essential Social Conditions for

Nottingham force the fund was closed and the money, about \$12,000, was

given to local charities." In several instances where the Labor party has majorities on local gov- tal accumulated in few hands (always the result of Britain's repressive polernment bodies, it was possible to remove police chiefs who showed an antilabor attitude. The latest in- bor.") stance was the dismissal of the chief

of police by a county council in South Wales for "trying to break the peace."

**Filipinos Fear for Liberty** 

MANILA-(FP)--"Unless we are sadly mistaken," editorializes the Philippines Herald on the Carmi Thompson mission from the United States, "the American people will be greatly enlightened on how many thousands of tons of rubber could be grown in the Philippines. The effect on American public opinion is not hard to imagine: that it will become necessary to revise America's avowed policy concerning the political future of the islands."

The Industrial Revolution.

The Industrial Revolution is the phrase used to describe the tremendous economic changes of the 18th and early part of the 19th century. Like other revolutions, it was the product of a long period of evolution. It neither commenced nor ceased at the dates usually given, e. g., 1760-1830. There had been inventions of an epoch-making character long before 1760-many of The police were generally impartial the most outstanding in the infancy of the human race-and inventive

during the struggle, while there were genius has flourished ever since. But it was in those momentous years, however, that machinery and science created large-scale industry. In that short period the inventions of Hargreaves, Arkwright, Crompton, Watt, Cartwright, and Whitney, with all the subsidiary ones, had been completed, and the face of industrial Britain completely changed. The production of wealth was increased tenfold, and only very much later in the 19th century did industrial development follow to any great extent in other nations.

These changes brot about the mod-4 ern wage-earning proletariat, and the destruction of the peasantry. It is clearly to be seen that so long as

meet commercial requirements." This ly intensified when machinery was

Capitalism. There are two essential social con

ditions for capitalist production: (1) labor-was the general emigration of A propertyless proletariat. (2) Capi- the Irish at the rate of 50,000 per year, bearing in mind that "Labor made icy in Ireland. The depreciation of capital before capital employed la-The widespread "enclosure" move ment provided the necessary "hands"

expropriated first, and the theft legalized afterwards.

Why prosecute the man or woman, Who steals a goose from off the common,

And let the greater felon loose, Who steal the common from the goose?" The Expropriation of the Peasantry.

In thirty years alone, 1801 to 1831, no less than three and a half million acres were stolen from the common people. This was justified by the plea of social necessity; note what one capitalist apologist has to say: "That,

the indispensable condition and the and civilized society, this is the state result of more scientific and economic agriculture; that in the long run it the great body of the people, must added enormously to the productive necessarily fall." How comforting this resources of the nation; that without latter paragraph to the souls of the it the new population could not have Henry Fords!

stimulated, and the strain of the great war endured, is generally accepted." The Workers' Share of Social Wealth, But how did the common people fare in the enormously increased "pro ductive resources of the nation?" The chief factor of capitalism is competition, and this results in wages being depressed to the mere level of subsistence. This competition was greattition was greatly intensified when machinery was universally introduced A further factor in depressing wagesby providing a steady source of cheap

#### . . . . .

And Mr. Coffey puffed several more clouds of smoke and studied them, and said he felt friendly to Dad; but he thought it would be better if Dad would contribute two thousand dollars to the campaign fund, and carry five thousand for Mr. Coffey personally. And Dad, looking him in the eye, inquired, "Can you deliver the goods?" Mr. Coffey said yes, he could deliver them all right, Dad needn't have any worries. So it was a bargain, and Dad took out his check book and wrote out two thousand dollars to the order of the treasurer of the county campaign committee of the Republican party. Then he asked Mr. Coffey whether he held any public office, and the latter replied no, he was just a plain business man; so Dad said all right then, the agreement could be in Mr. Coffey's name; and he wrote a memorandum to the effect that he had received the sum of one dollar and other good and valuable considerations, in return for which Mr. Coffey, was owner of five per cent interest in the net profits of a well to be drilled on the Abel Watkins ranch near Paradise, to be known as the Ross Junior-Paradise No. 1. But it was understood and agreed that the said well was not to be drilled until there was a good hard road completed from the main street of Paradise to the entrance of the Abel Watkins ranch, and if the said road were not completed within sixty days the said J. Arnold Ross was under no obligation to drill the said well, nor to return to the said Jacob Coffey the said one dollar and other good and valuable considerations. And Dad handed that to the said Jacob Coffey, and smiled, and remarked that he hoped it wouldn't fall into the hands of the "Watch-Dog." Mr. Coffey smiled, and laid his hand on Bunny's shoulder, and said he hoped this little man wouldn't make any mistake and talk about it; and Dad said Bunny was learning the oil business, and the first lesson he had learned was never to talk about his father's affairs.

So then they shook hands all around, and the two got into their car, and Bunny exclaimed, "But Dad, I thought you were a Democrat!" And Dad laughed and said that he wasn't deciding owners of stocks and bonds crossed to investors the corporations are salt the tariff on hyperchlorides, nor the independence of the Philippine Islands, he was jist gettin' a road to the Watkins ranch. Bunny said, "There's one thing I don't understand, how can Mr. Coffey do all that, if he hasn't any office?" To which Dad answered that the big fellows as a rule avoided holding office for of increase, bringing the 7-month total been lost sight of and that is the large that very reason, so they were free to do business. months of 1925 the total was \$2,049, cumulated. In other words, not only from Dad, but nothing could be done to Coffey, he was jist the "boss." The office-holder, said Dad, was either a poor devil who needed a fifth rate salary, or else he was a man actuated by vanity, he liked to make speeches, and be applauded by the crowd, and see his picture in the papers. You would never see pictures of Jake Coffey in the papers, he done his work in his back office. and never in the lime-light.

Bunny, of course, remembered what he had been taught in the "civics" class, and asked if that was the way the business of government was always run. Dad said it was practically the same everywhere, from the county up to the state, and on to the national government. It wasn't really as bad as it seemed, it was jist a natural consequence of the inefficiency of great masses of people. It was all right to make spread-eagle speeches about "democracy," but what about the facts? Who were the voters here in San Elido county? Why, the very boobs that Bunny had seen "jumping" and "rolling" and "talking in tongues" at Eli's church; and could anybody pretend that these people could run a government? They were supposed to decide whether or not Dad. should have a road and drill a well! It was a sure thing they couldn't do it; and Jake Coffey was the feller that done the deciding for them-he provided that promptness and efficiency that benefit of labor is to be the rule of the business men had to have, and that couldn't be got under our American system.

# The British Trade Union Delegation and an Embargo on Coal

The British trade union delegation, headed by Ben Tillett, A. A. Purcell and Ellen Wilkerson, is here to raise funds for the striking miners. This is an important task, but still more important is that coal shipments from America to Great Britain be stopped. The British coal owners and the British government are carrying out a plan which if successful will make the strike of the miners futile; it is to flood the country with foreign coal, for which purpose the government already has made an appropriation, and let the miners starve. When they are sufficiently hungry and miserable they will be invited to go back into the mines on the owners' terms.

The miners and their families can be fed and clothed for a certain length of time by the rest of the British trade union movement, the generous contributions of the Russian workers and with supplies from other countries like America.

But the steady increase in shipments of foriegn coal to Britain is something that food and clothing, no matter how large the supply, can overcome. Unless the British trade union leadership declares an embargo on coal into England, calls upon the international labor movement to prohibit coal shipments, and takes the lead in an international boycott against British capitalism, they will have added to the disgrace of the desertion of the miners by ending the general strike, the additional stigma of failing to adhere to the first rule of trade union ethics-the boycott of scab goods.

The British trade union delegation can give a powerful impetus to the movement in aid of the miners if they will call upon American labor to refuse to handle coal destined for England. We believe that organized labor will respond to such a call and the mere fact of its being issued would put sharply the question of how best to support the British miners.

world, and how man came into being,

There was, in fact, no questions of it.

von Humboldt delivered, in this very

zoologist, Keferstein, called it.

By ERNEST HAECKEL. The extension of the theory of evo-

the most interesting and momentous isms arose, not by a miraculous creation, but by a natural modification of earlier forms of life, the presumption is that the human race also was developed by the transformation of the most man-like mammals, the primates of Linne-the apes and lemurs. This natural inference, which Lamarck had drawn in his simple way, but Darwin had at first explicitly avoided, was first thoroly established by the gifted zoologist, Thomas Huxley, in his three lectures on "Man's Place in Nature" (1863). He showed that this "question of questions" is unequivocally answered by three chief witnesses-the natural history of the anthropoid apes, the anatomic and embryological relations of man to the animals immediately below him, and the recently discovered fossil human remains. Darwin entirely accepted these conclusions of his friend eight years afterwards, and, in his two-volume work, The Descent of Man and His Sexual Eelections" (1871), furnished a num- The great question of creation, the ber of new proofs in support of the dreaded "descent of man from the plants and animals came into the ape."
