Eurony Events By THOMAS J. O'FLAHERTY

ALBERT F. COYLE, editor of the Locomotive Engineers' Journal, writing for the Federated Press on the Mexican situation, says: "No one but an ignorant religious bigot would condemn the catholic church as such for the present conflict with the government. The same difficulties would have arisen if the baptist church or the presbyterian had been put in its place." No doubt in the world. And nobody but an ignorant fanatic would blame a burglar for stealing the widow's mite, because it is quite obvious that any other burglar in the same position would do exactly the same thing. If this is not the essence of hokum, it is something else.

THE ratcatcher may not have any a particular animus against the rodents he sets out to destroy. The irritated slumberer never had any previous altercation with the bed louse that makes his period of repose everything but reposeful. Yet both do not hesitate to slaughter the vermin that interfere with the general or particular happiness, in cold blood and without malice aforethought. If one adopts Mr. Coyle's attitude nobody is to blame for anything, therefore the working class should pay no heed to those who urge them to struggle against the capitalists because, forsooth, the poor capitalists, like the bedbugs and the catholic church in Mexico, do what they do because they can't help it.

MR. COYLE is not a catholic, tho this report is denied from London. Like all spiritualists, he mistakes the chaff for the wheat. Behind the religious war in Mexico is the ventriloquist voice of Wall Street. Not that Rome has not a good deal to gain or lose in the battle. It has. What has taken place is a united front between Rome and Wall Street for the purpose of looting Mexico. This is quite obvious in the action of Ambassador Sheffield handing a protest note to Calles about the Mexican petroleum laws at the moment when the catholic church is actually in rebellion against the government.

Mexican government is compelled to The Mexican government has fight the church he winds up with the aroused the ire of the foreign oil following twaddle: "When the pres. | magnates because it has refused to ent heat cools down, I am confident violate its own laws to suit the greed that many of the regulations impos- of the American exploiters. Sheffield that many of the regulations imposing a hardship on the church or in- is expected to exert his influence on fringing the religious liberty of the Coolidge in favor of a diplomatic break individual citizen will be modified by with Mexico. Here in Mexico the he government, especially if the great majority of American business church secures a few socially-minded men believe the Washington adminisof Washington to conduct its negotia- ity in the struggle between the church president of the Boston Typographi- mitted to enter the country. tions." As if the Rev. John A. Ryan and the state, was not as willing a tool of the church as the most blatant bishop that ever wore red. The least that might be expected of well-informed persons like Coyle is that they keep their peace on delicate issues they do not feel at liberty to speak frankly about.

TN this Mexican struggle one must I take either one side or the other. If you are for black reaction, you will support the church. Those who are in favor of human progress will support the Mexican government, even the the Calles administration has sinned grievously against the working class. But his educational policy alone entitles him to the support of every revolutionist. Ignorance is the chief ally of reaction. Calles is blasting ignorance out of Mexico, where it has been entrenched for centuries. There is a good deal at stake in the present Mexican struggle. It is likely to be a long-drawn-out and bitter struggle.

THAT Tut-ankh-Amen used cosmetics is the astounding statement made by a professor speaking before the annual meeting of the British Association for the Advancement of Science. This is good news for the cosmeticians. Until now a cake eater required all his guts to powder his nasal appendage in public, but with old Tut setting the fashion in lipsticks the manly art of self-decoration should become as popular as chewing gum. The drug store cowboy is coming into his own.

"MY organization is simply wonderful, senator," testified Morris Eller, a Chicago politician, while on the witness stand at the slush fund hearings. He was telling it to James A. Reed, of Missouri. In reply to a question he admitted that this beautiful organization was composed of job holders. Without the patronage that goes with public office none of the politicians could hold their own for any length of time. Even in Wisconsin, where purity is the watchword of the heirs of LaFollette's political state, the machine is held intact with the ald of patronage.

THIS system is universally applied wherever the capitalist psychologist prevails. Even in the labor movement men are induced to favor this side or the other for a consideration. (Continued on page 2)

Catholics Threaten to Shut Down Schools

(Special to The Daily Worker) MEXICO CITY, Aug. 9.—Predictions of a diplomatic break between the United States and Mexico are hinted at here on the eve of Amabassador Sheffield's return to the United States.

Attaches of the U.S. embassy say that the delivery of the latest note on the petroleum laws at this time does not foreshadow any interference from Washington in the religious struggle which is considered a purely domestic affair. This disavowal is meaningless. The public will only see in Sheffield's note indications of a harmonious pol icy between Rome and Wall Street.

Threat to Close Schools. The latest catholic threat is one to shut down the schools. The govern ment is prepared to take more drastic action should the clergy continue in rebellion. The clergy are appealing to foreign governments to intervene in their behalf. The announced intention of the government to nation the protestant schools may give other governments an excuse to interfere. It is reported that the British government has already made representations but

THE STRIKE OF UNORGANIZED SILK WORKERS IN LOWELL, MASS., MILLS CLEMENCEAU

The following story is published in this department because of the valuable information it gives concerning the causes of strikes of unorganized workers, their attitude toward the bosses, their knowledge of organizational principles or the lack of it, the lack of contact of the trade unions with these workers—the general problems of organization work in unorganized industries.

Articles of this kind are of great value to the labor movement as they give the information on which must be based the strategy and tactics of organization campaigns. Let us have more of them. (Editor's Note.)

THREE weeks ago one evening a a textile worker from Lowell came into our office in Lawrence, and informed us that all the weavers of the Lowell Silk mill in which he worked had walked out on strike.

It was a spontaneous outburst. There was not a semblance of organizaion among these workers. Not more tan three of them had ever belonged o a union or ever been in a real strike before. They were at sea as to what to do now that they were out. Would

ve come in and organize the fight? Of course. We would be there in he morning. "But tell us," we inquired of our fellow worker, "how did you all come to act as a body, did you have a meeting before you walked out?" "No," answered the Lowell striker, "there was a little talk among a few of us in the mill, and then we

just walked out. I don't know how it come. Everybody just felt, I suppose. that it was not an individual matter but a general thing, and we acted together." "What are the immediate causes?" "More looms and reduction of the piece rates." "Now tell us sin-(Continued on page 2.)

To Decide on Ticket at Conference Aug. 22

BOSTON, Mass., Aug. 9.- Massachusetts labor is taking a determined step towards placing a labor ticket in the elections this fall. A call has been sent out to labor organizations thruout the state by the Massachusetts Labor Campaign committee urging them to send delegates to the Mexico is leaving here within a few State Labor Campaign convention to days. Sheffield who is a bitter foe of be held in Wells Memorial Hall, Sunday morning, August 22 at 11 o'clock.

Labor organizations are urged to end two delegates to this convention which is to place in the field a labor ticket against the two old parties that are controlled by the moneyed interests of this country.

American Labor NOTE RILES To Aid British, **Green Promises**

MOSCOW, U. S. S. R., August 9 .- According to the figures of the chief bookkeeper of the Central Council of Trade Unions of the Soviet Union, a total of 4,900,000 roubles (\$2,450,000) were received for the relief fund for the support of the striking British miners during May, June and the first twenty days of July.

WASHINGTON, D. C., August 9.- Thru their own delegation, the 1,200,000 striking miners of England put the question to William Green, president of the American Federation of Labor, of what the American labor movement, particularly Green himself, could and would do to aid in feeding the women and children of the strikers and thereby help the strike. The meeting was held Saturday in the office of the A. F. of L.

"We can assure you and the other trade unions in England," Green replied after the delegation had stated the case, "that the American Federation of Labor will give the delegation every assistance in soliciting funds for the miners' wives and children. You have our full support. We feel that the British miners' strike is a challenge to the whole world-wide movement and has as its object a breakdown of the

workers' standard of living. Give Till It Hurts.

"We want to help in every way possible. We urge our people to give until it hurts and to give cheerfully and generously. We urge all public spirited citizens to join in this cause.' Green stated that he would give the lelegation members personal credenials to all affiliated national and state organizations and would draw up an tinerary for the delegates to follow.

German Socialist Party Heads Oppose. In an interview with a representative of the "Tass" news agency, the chairman of the second German workers' delegation, the Social Democrat Korber, and the Social Democrat Besser, member of the presidium of the delegation, underscored the hostile attitude of the official social democratic party organizations towards the journeying of social democrats to the So-

viet Union. They mentioned a number of cases in which the district executives of the party warned the participants in the trip to the Soviet Union of their eventual expulsion from the party, which warnings were endorsed by the superior authorities of the party.

Like Russians-Want Unity.

"Our first impression of the Soviet Union," said Korber, "is overwhelming as a result of the moving cordiality and hospitality of the Russian workers towards their foreign comrades." It is one of the tasks of the delegation, according to Korber, to promote as much as possible to coming together of the trade union movements of Germany and the Soviet Union.

The Social Democrat Lenz, member of presidium of the delegation, declared that he is especially interested in studying the organization of the physical culture movement in the Soviet Union. The delegation will spend

would turn over the country to them. Reports of violence continue to pour in from all parts of the country but most of them are without foundation. The situation is well in hand and the federation of labor is carrying on a vigorous propaganda thruout the nation against the clergy.

K. of C. Appeal.

WASHINGTON, D. C., Aug. 9. -The appeal of the Knights of Columbus to the American Federation of Labor urging the co-operation of the labor body with the campaign against Mexico has not made a favorable impression here.

Regardless of the personal opinions of individual members of the exectuive council on the controversy between the Mexican government and the church the council as a whole feels that any action on its part either for or against, would be liable to open a religious discussion in the federation which might tear it to pieces. It is pointed out that Terence V. Powderly's relations with Cardinal Gibbons was partly responsible for wrecking the Knights of Labor.

Loyat But Not So Ready.

Many of the leaders of the A. F. of La are members of the Knights of Columbus but it is by no means certain that they are willing to jeopardtheir organizations even at the behest of the church. Self-interest comes first with most of them. While quite ready to appear in public as loyal children of Rome, they also realte that the first attempt on their part to use the unions in the interest of a catholic attempt to overthrow the Mexican government would raise such a storm in the ranks of the unions that would either smash the organizations or drive them out of office.

Mussolini, the blackshirt dictator of Italy, who has destroyed the Italian trade unions was eulogized at the opening session of the K. of C. convention. The American labor officialdom is extremely reactionary it has rather light hearted, agog with cu gone on record against Mussolini.

London Denles Report.

LONDON, Aug. 9. - The foreign office today denied Mexico City reports that Great Britain has made diplomatic representations to Mexico, protesting against the seizure of English owned church properties.

Mexican Consul Flays Talley. NEW YORK, Aug. 9. - Arturo M. Elies, consul general of Mexico, issued a sharp rebuke to Judge Alfred J. tee. MINE UNIONISTS REVOLT AGAINST RULE OF MOYER It's Blue Monday for the Menshevik and Capitalist **Enemies of Soviet Rule**

By J. LOUIS ENGDAHL

TT is "Blue Monday" morning so far | that he earned during a brief visit as the blackguard capitalist press is concerned in frantically developing its hysterical anti-Soviet campaign. All that is new consists of repeated denials from the Soviet government at Moscow of the flood of "shameless fakes" that ebbs and flows with each new edition.

Thus Hearst's International News Service starts the week with several hundred words of rehash, every word being mere repetition of what appeared over the last week-end.

Definite denials, however, come from Moscow for those capitalist sheets that care to publish them.

It seems that the Soviet government didn't bother much about the original fakes. It doubtless took it for granted that the world had been fed up on these lies and that they would quickly sink into oblivion of their own weight. But the capitalist press knows no depths of infamy. . . .

Denials of the fraudulent reports originating in all the emigre capitals along the Soviet border, from Bucharest to Riga, come from four sources. These are as follows:

First:-An official denial by the Soviet government at Moscow of the reports circulated "thruout the world," in the words of the International News Service, "that revolution has broken out in Leningrad or that there is a mutiny in the Kronstadt garrison."

Second:-Another denial from the Soviet foreign office at Moscow. "declaring," in the words of the United News, "that rumors of mutinies and revolts among its troops are absolutely false. It categorically denies reports of rabellions in southern Russia and elsewhere, and asserts that the recent rumors of such trouble result from the anti-Soviet campaign started abroad."

Third:-An announcement by the Soviet embassy in London that it had received a message from Moscow this morning (August 9) reiterating the government's denial of the report that a revolt was taking

Fourth:-Then there is the report of the anti-Soviet Baldwin government in England. The announcement was made at London that the "official dispatches received of the British foreign office (Chamberlain) today failed to carry any confirmation of the report of revolts in Russia." The foreign office announced that it is discounting all reports of disorders.

One of the most wretched exhibitions incidental to this anti-Soviet campaign is offered by the delapidated anti-Sovietist, Isaac Don Levine, who tries to boster up the Hearst attack with the passing reputation

to the Soviet Union and the writing of a book on the Russian situation. But even Levine is forced into making statements that kick his carefully written endorsement of alleged "disorders in Russia" into the gutter where grovels the press for which he writes. He confesses:

"There is nobody outside the Communist Party in Russia capable of initiating a serious insurrec-

"Trotsky is too disciplined not to follow the orders of the central committee of the Communist Party."

And much more to the same effect. Even this "bought and paid for" scribe must admit that the mighty power of the Communist Party in the Union of Soviet Republics stands unchallenged.

One of the elements that finds great joy in the avalanche of malicious falsehood that is being spread over the the earth is made up of those Russian emigre mensheviks who pray for the return of "democracy" in the Soviet Union, much as catholics are praying for the return of "religious freedom" in Mexico. They seek the "democracy" and the "freedom" that will enable them to stab Soviet rule in the back, if they can, much as they sought to overthrow the rule of the workers and peasants in Soviet Georgia. But they met with miserable faflure there. Every new attempt will also fail. Alexander Kerensky, who tried to betray the Russian workers and peasants into the hands of the Versailles allies in the last war, shakes off the cobwebs and emerges in vain from his retreat in Paris. His call to the forces of the "white terror" to rally against Soviet rule is no threat to the Bolshevik power.

As has already been pointed out in these columns, whatever differences there are in the policies proposed by Stalin, Trotsky and Zinoviev, will be given careful consideration in the future, as they have been in the past, in the councils of the All-Union Comunist Party. The party will arrive at its decision and enforce it. The party builds the Soviet Front against world capitalism. That menshevik socialists and great capitalists should try to find some comfort out of alleged "disorders" in the Soviet Union is inevitable. They are both enemies of the social revolution. Behind the barrage of infamous misrepresentat'on laid down by the capitalist world against the Soviet Union, the workers and farmers may behold the enemies of their struggle for emancipation. In bringing this knowledge to forefront the present incident will develop some good for world labor

INFLATION GETS O. K. BY FRENCH; BUSINESS UPSET

Secret Deal Shown in U. S. Confidence

(Special to The Daily Worker) PARIS, Aug. 9.—The senate has ratifled by a vote of 281 to six, Poincare's project for a sinking fund and for the so-called "industrialization" of the government tobacco monopoly, meant

to place it upon the basis of a semiprivate corporation.

Some of the dictatorial measures Poincare is whipping the chamber of deputies into granting include the right granted to the bank of France to issue unlimited paper money to buy foriegn currency, without having to report such dangerous inflation in its weekly statements.

Afraid to Press Issue.

The government has been hesitating between proposing and withholding the proposal to ratify the debt agreements. Strong blocks of deputies have notified the cabinet that they will vote against ratification. Poincare undoubtedly wants to ratify, but may only go far enough to get the aprpoval to ratify with reservations from the finance committees of the chamber and senate, then dicker with the U.S. and Britain during the summer, preparing for ratification in the autumn.

Lose Both Ways. The rise of the franc suddenly from 49 to 32 to the dollar, has caused nearly as much panic as its previous fall. People and firms who had hastened to save themselves as the franc went down, by buying English and American money with depreciating francs, now are in a fever to unload before they lose millions by its rise.

Washington Confident.

WASHINGTON, Aug. 9 .- Evidently having received secret assurance that the debt pact with France will soon be ratified, altho there is no apparent chance of this from official actions, the government experts are already figuring out how much of a loan France will need. There has clearly been a secret conference between Mellon and French politicians close to Poincare.

The experts say they think France will need a loan of from \$50,000,000 to \$75,000,000 directly, with a possible addition of \$100,000,000 credit to draw upon. It must have this great sum to even try stabilization of the franc.

No Easy Matter. But such stabilization will create new trouble. It will shut off much of French exports and produce an unfavorable balance of trade. This, too, will tend to send the franc down again. So stabilization or no stabilization, the franc seems bound to be risky speculation

Avella I. L. D.

AVELLA, Pa., Aug. 9.—The workers of this city and vicinity will hold a big picnic at Pine Flats, John Sokac's farm, one and a half miles southwest of Avella, Sunday, August 15. All the proceeds will go for the de-

fense of Sacco and Vanzetti and other political prisoners. An elaborate program has been prepared A ball game between the miners of

the Pard W. and Duquesne mines will be staged.

Admission, men 50 cents, ladies free. The picnic is arranged under joint auspices of the Sacco-Vanzetti defense committee and the International La-Trucks will be running from the

P. & W. School to the picnic grounds girls. between 9 and 11 in the morning and from the picnic grounds between 5 and 7 in the afternoon.

Young Mexican Lad Killed in Steel Mill Thru Company Neglect

GARY, Ind., Aug. 9 .- A young Mexian, Francisco Calderon, working in the No. 1 open hearth ore bin of the Illinois Steel Corporation, was killed Colderon was loading cars with iron ore coming down huge chutes from the ore bin. He noticed that the ore ceased coming. There was a jam at the orifice at the top. None of the men working together with Francisco would venture to investigate, so he went himself. A touch of the shove and down went the ore, carrying along Francisco and burying him com pletely. It took fifteen minutes until the men around began to look for him and dug him out from underneath the ore. He was dead.

Francisco was only 23 years old. He was the sole support of his aged father and mother and four younger brothers, who survive on a ranch near Santa Ana Maya, State Michoacan, Mexico. His body will be taken to his native land by his uncle, Salvador

LETTERS FROM OUR READERS

It remained for The DAILY WORK-ER to tell the farmers and workers of the state of Washington that a real Farmer-Labor party is in process of organization here. None of the Seattle papers mentioned the meeting held there July 4.

It is hoped that enough publicity can be goten for our candidates so that the voters of the state who intend to vote Farmer-Labor will know their names. Thus they will not be fooled by the old, re-vamped "Progressive" party which is now receiving more or less publicity in the paid press if

Not knowing the real Farmer-Labor activities many farmers and unorganized workers are due to throw away their votes in the fall elections. One suspects that is why the progresive party is being mentioned by capitalist

If lists of workers and farmers' candidates for state and national offices could be published in the DAI-LY WORKER, the rather isolated farmers and discontented workers could find out who to vote for.

Correspodents in the various states should furnish this information.

PORTO RICO—PARADISE FOR THE RICH BUT HELL FOR THE WORKERS

By MAX ROCH.

JULY 15 was San Diego Day in Porto Rico. San Diego was a strong nationalist who fought against the imperialism of the United States. The nationalist party, a group of intellectuals, whose chairman was Senor Campos, spoke about the horrible conditions of the island under American exploitation. There are 400,000 workers on the island, most of them peasants working on the sugar, tobacco and rice plantations. These peasants can obtain work only six months a year. Eighty thousand of them only have been employed all year and their living conditions are indescribable. They are paid about \$2 a day when they work + and their death rate is tremendous.

Produces Enormous Wealth. My personal observation is that Porto Rico, that produces in sugar of Porto Rico works in the interests and tobacco crops an annual wealth of of American capitalists and the workmillions of dollars, has the most horrible living conditions in the whole world. Nothing has been done by American interests in the 26 years workers live in dirty hovels, the toilets anaemia and under-nourishment kill-

ing them off in large numbers. The island is controlled by the United States. Eighty per cent of the zation to combat these strong inter- given that in Hungary the truth is an subscription and the pleasure of ing off the general strike and the need Committee) building giving latest great "centrales" belong to American ests.

capitalists. These capitalists do not live on the island, but have large sugar mills here. The socialist party ers can look for little help from them. Raps Imperialism.

POLICE CAPTAIN AND SOCIAL-DEMOCRAT HEAD CHIEF WITNESSES AGAINST 58 HUNGARIAN WORKERS

BUDAPEST, Hungary, July 21-(By Imprecor)-Today Police Captain Josef Schwienitzer and the detective Inspector Peter Hain were examined, Thrugh the reports of Vienna newspapers it was a matter of common knowledge before the Rakosi trial that Schweinitzer had spent weeks in Vienna trying to discover the foreign connections of the Vagi Party. Police brutalities and barbarities of recent date in connection with political affairs are closely linked with his name. It is a matter of record in countless previous trials and in the present trial as well that Schwienitzer not only issued the orders for the brutal treatment of+

Demolish Schweinitzer's Testimony. completely and in prowing his state- of keeping silent when I ask him a the special protection accorded influence the proceedings with such Schweinitzer by the president, who remarks. Schweinitzer terrogate the former concerning their prosecutor to order." was the star witness for the prosecu-

His examination lasted four hours. The result of his testimony, however, was the complete collapse of the prosecution's case. It was intended that he testify that the Communist Party aimed to organize for the armed uprising. He wanted to prove that the socialist labor party employed Communist methods and received funds from the Third International. At the end of his examination he had to admit, however, that he only had circumstantial evidence in support of these charges and could adduce no direct

Social Democrats Betrayers.

The miserable part played by the social democrats in this trial of 58 Hungarian workers was brought out by the barristers for the defense when they cross-examined Scheinitzer.

Barrister Lengyel for the defense asked Schweinitzer whether the social democrats had not aided him in his investigations and arrests of the Communist and social labor party members. Schweinitzer refused to reply.

Lengye: "Ludwig Samuel also figured as a defendant in this trial. He was arrested but released in a few days. There is no mention of his release in the protocol. The police obtained a position for him. According to the indictment he took part in the congress. How is it possible that he was set free by the police and, altho he lives in Budapest, was not subpoenaed to attend this trial"

Schweinitzer: "In accordance with the instructions of my superior I cannot answer this question."

While Lengyel was asking this question Public Prosecutor Miskolczy, member of the Awakening Hungarians, makes a remark which cannot be heard distinctly. "Lengyel turns sharply to the public prosecutor and asks: "What did you say?" The latter is silent. Defendant Josef Gogos,

"Orders From Above." "First of all I protest energetically against a high government official above' and refusing to testify in a failure. matter of life and death," declared me the question and the witness is

not hear the remark and instructs the Ospina. public prosecutor to refrain from making any remark whatsoever.

Agent Provocateur.

The defending barristers, Gyori, Domokos, Makai, Kollman and Bard then examine Schweinitzer.

The barristers: "Who was the alleged emissary of the socialist labor party in Paris? Was it not an agent provocateur of the Hungarian police. Visny, who has been sentenced to five years' imprisonment in Russia?" Schweinitzer: "I protest indig-

nantly against this provocative ques-

Social Democrat State Wtiness.

BUDAPEST, Hungary, July 23 (By Inprecorr) .- One of the witnesses fo the prosecution today was Gabriel Horovitz, member of the executive of the social democratic party of Hungary and first secretary (chairman) of the Wood Workers' Union. Restlessness filled the room as everbody impatiently awaited his testimony. It was a matter of common knowledge that not only had Horovitz testified to the police against the leaders of the socialist labor party, but that a secret report from Horovitz figured in the trial documents.

Witness Blows Up.

After the examination of a number of unimportant witnesses the metal worker, Ernet Schon, is called to the stand. The public prosecutor relied on him to prove that the socialist labor party had been in connection with the Communists. Ernst Schon declared that he had no knowledge of this and that he was unable to adduce anay evidence in support thereof. The president: "Your statments to the police read differently."

"Schoen: "The agent provocateur Ludwig Samuel was my friend. I did not know that he was in the pay of the police. A few days before our arrest, however, he told me that we would be both arrested, but that he would be released at oncce. And so did it come to pass. They compelled me to say to the police whatever the

WORKERS' SCHOOL ASKS FOR BOOK

New York Library Seeks Many Needed Volumes

NEW YORK, Aug. 9 - The Library of the Workers School at 108 East 14 St., New York City, proved its great usefulness to the workers during the recent National Summer Training Course of the School.

The Library of the Workers School is building up an excellent list of books on all of the social sciences with special reference to American conditions and problems. There are a ew books which the library is trying to secure which are out of print. Read-British and American ers of The Daily Worker are urged o send in these books as a loan or gift to the Workers School Library. They will be assured that the books will be well taken care of and always LONDON, Aug. 9.-Within a short available for consultation by the lartime it is expected that the former gest number of workers where they will do the most good.

The list of books follows: Hillquit - History of Socialism in

Sombart-Capitalism. Sombart-The Bourgeoisie. Sombart - Socialism and Social duce cloaks."

Boudin - Socialism and War. Hobson - Imperialism - Evolution Rabinow - Was Marx Wrong? Lloyd - Trade Unionism. Lewis - Introduction to Sociology. Tugwell - American Economic

Levy-Primitive Mentality. Buche - Industrial Evolution. Lange - History of Materialism. Cohen - Collapse of Capitalism. Lowie - Primitive Society. Beard edition - Federalist. Jaures-Studies in Socialism. Bernstein - Evolutionary Socialism Hunter - Labor in Politics.

The Library is also desirous of se conferences with Lord Vestey. It is curing the first volume of Common's declared that the two have come to History of the American Labor Movean agreement and that the trade war ment, and the first volume of the New York Lusk Report.

I. L. G. W. MOPS UP OUT OF TOWN **GARMENT SHOPS**

Flying Squads of Girl Workers Rout Scabs

NEW YORK CITY, Aug. 9 .- The Cloakmakers' Union has struck back at the industrial council of the manufacturers' association who threatened to open shops out of town in defiance of the present virtual 100 per cent stoppage. A. Katz & Co. of 38 West 32nd street, a member of the council attempted to open a non-union shop in Bridgeport, Conn., and it was promptly stopped by striking pickets Mopping Up.

In addition, the strikers' out-of-town committee stopped four other attempts to operate. The Long Island City Cloak Co., 381 Jackson avenue Long Island City, and the Queens Apparel Cloak Company, Third street, Long Island City, closed when the workers quit Saturday. The J. Levine Cloak Co., trying to operate at 82 Kingston avenue, Corona, found its efforts futile and shut down. The J. Liebowitz Cloak Company, with offices at 517 Seventh Avenue, tried to have work done in a men's coat shop in Newark and was stopped. The union was informed that a shop opened by an industrial council member, employ ing 50 workers in day and night shifts in Sullivan county, was stopped.

Release Pickets. Fifty pickets arrested Thursday on Staten Island for disorderly conduct were dismissed in magistrate's court. Louis Hyman, chairman of the general strike committee, lightly dismissed the announced intention of the industrial council to operate out of town. Hyman declared:

Their threat is an idle boast. This is not the first time such a threat has been made. It is made in every strike, But we know these things are not as easily done as said. Manufacturers cannot remove their factories so easily. Further, they must man them with workers, and no members of the international union will scab out of town. Wherever the manufacturers will try to move they will find local unions of the international ready to protect the interests of the strikers.

Nonsense, Says Hyman. "The manufacturers' claim that they are having 75 per cent of their work done out of town is nonsense. We know they are trying to have work done outside New York City, but we also know that the amount is so insignificant that they cannot prefend to hope to break our strike.'

Jacob Halpern, speaking for the strikers' out-of-town committee as chairman, stated that "any industrial ouncil shop opened out of town will

Flying Squadrons of Girls. "Our pickets, numbering over 500, are on the alert. Tomorrow we augment their number with several hundred volunteers who are eager to go from town to town to explain the justice of our cause to the scattered nonunion workers who are trying to pro-

Cowderry's Letter Was the Best Part of Yesterday's Issue of The DAILY WORKER! Read It Again!

NOTE-This is the sixth article in a series reviewing the struggle to develop The DAILY WORKER into a mass organ. This series is written with the purpose of teaching and encouraging the readers of 'Our Daily" to help develop its influence among the broad masses of the American working class. This article is a comment on a letter written by P. B. Cowdery that appeared in yesterday's DAILY WORKER.

By J. LOUIS ENGDAHL. T is no easy task to develop our 1 Communist daily, The DAILY WORKER, into a mass organ. It is no easier than to develop our Workers (Communist) Party into a

mass Communist Party. These two tasks are accomplished only thru difficult, ceaseless work, even when aided by the best of cir-

cumstances It may be said that in no country in the world, not even in the Union of Soviet Republics, is the Communist International satisfied with the influence of its press. It seeks to increase that influence, thru spreading the reading circle of our various publications, whether it is the Pravda in Moscow, the Rote Fahne in Berlin, L'Humanite in Paris, or The DAILY WORKER in Chicago.

The letter published in yesterday's issue of The DAILY WORKER, sent in by P. B. Cowdery, shows how to build, how to develop the mass influence of our paper. It is no exaggeration to say that Cowdery's letter was the most important part of this issue. It knocks the props from under those slackers who try to find excuses not to struggle for their cause, rather than to energetically overcome all difficulties.

There are many who claim that The DAILY WORKER can be popularized to such an extent that the workers will be forced to read it in spite of themselves. That is an easy escape from the hard task of doing the real work of building. It will be found that these advocates of popularization are even willing to sacrifice the Communist character of their paper, in the belief that readers must be secured first and at

Many improvements can be made in The DAILY WORKER. There is no doubt about that. Perfection is far away. Improvements are being made to develop an appeal to larger masses of workers. But those socalled "improvements" must never be permitted to rob our "Daily" of its Communist character. That is something that every DAILY WORKER builder must have in mind as he goes about getting subscribers in the same spirit that he seeks recruits for the party. Cowdery is such a builder.

If you read Cowdery's letter you will remember that he is at work building DAILY WORKER routes in Chicago. He places our paper on newstands, canvasses for subscriptions, delivers the paper as a carrier. collects for the paper each week and then tries to get renewals. It is in getting renewals that the crucia? test comes. Cowdery wrote:

"The first week I lost seven out of 14 'serves' I had obtained. I nearly quit. I could sell 40 or 50 papers to those I met for the first time, but it seemed they just would not read it successively. The next week I lost eight out of 21, having obtained 14 new ones. That was still discouraging. I commenced to study my method of interview. At the next collection, July 24, I had 34 of which I lost seven; July 31, I had 37 and lost only five."

Cowdery found that he had to win his readers by convincing them that The DAILY WORKER is the kind of paper they ought to read, that it is of great value to them in their daily struggles. His method succeeded. He points out:

"Once they read it successively few times we have them."

There is the half-hearted builder, however, who likes to run away from his job. When every subscriber won will not renew immediately and voluntarily, this type of builder decides that his "Daily" must be entirely to plame. He finds no fault in himself. He reports with long drawn face to his nucleus, casting gloom whereever he goes.

It is an historic event in most nuclei when a special drive is made for "subs." Usually short term subscriptions are secured. The party members, thereupon, in great part, expect the subscribers thus gained to renew without additional effort on their part. As a matter of fact, as Cowdery's experience shows, their work has only begun. And there is no end to it, not even with the arrival of the social revolution, as shown by the pride that our Russian comrades take even now, nearly nine years after the Bolshevik victory, in increasing the number of readers of the dailies published under the proletarian dictatorship. It is a matter of great pride to Communists the world over that the number of readers of Communist dailies in the Soviet Union at the present time far surpasses the number of capitalist newspaper readers that existed under the deposed czarism.

One of the first methods used by the comrades in New York City to increase the circulation of The DAILY WORKER was to give a short term subscription with an admission to a great demonstration in Madison Square Garden, Large numbers of "subs" were secured in this way. But again the complaint was made that they did not renew. I am sure that Comrade Cowdery could have told them why.

Since then very good results have been secured in New York City thru the perfection of The DAILY WORKER machinery under the direction of our New York agent, Comrade L. E. Katterfeld, whose untiring energy in developing The New York DAILY WORKER Builders' Club is already well known to our readers. The builders in New York as everywhere else, that is, those who are really active, can appreciate

what Cowdery means when he says: "I can appreciate the advantage of getting right down to where people live and talk with them about their struggle and the relation to them of a good daily paper which

The DAILY WORKER has become." In closing, it is well to repeat the word picture that Cowdery used in closing his letter. He has started "Johnnie" Tuhy, a Pioneer, carrying a route in Chicago. In the territory that our Pioneer is now covering. "Johnnie's" father was the original and only subscriber. There are now 23 subscribers for The DAILY WORKER in this territory. Cow-

dery writes: "Now there are 23 getting the paper in the early morning to be taken by workers to their shops and among their brother workers, thus in a measure shutting out the need or inclination to grab a capitalist sheet."

Cowdery's letter helps point the road to the building of The DAILY WORKER into a mass organ of the American class struggle. All who are anxious to develop their "daily" to become that power should read Cowdery's letter again, have it read in their party nucleus and then proceed to take measures to follow along the road that it maps out.

CONDITIONS OF THE YOUNG COAL MINERS IN PENNSYLVANIA FIELD

The conditions of the young miners in the Forbes Road Mine of the Keystone Coal and Coke company mine located near Greensburg, Penn. are typical of those found in the open shop or "American plan" mines of

Most of the work such as "driving," "running motor," "greasing," 'coupling," "catching empties," "wiremen helpers and trackmen's helpers" are done by young workers usually from 14 to 18 years of age. These young miners must work from seven in the morning till 5 in the evening without any time off for dinner but must eat their dinner "on the fly," to use the

miners' expression. The wages of the young workers weights "only two ton." And if a Those that work on the outside get other job. \$2.61 for a 10-hour day. BUSINESS BUSIER THAN LAST YEAR, SAYS U.S. GOVT

Cites Production Stock Prices

(Special to The Daily Worker)

WASHINGTON, Aug. 9. - The Department of Commerce has issued the following statement on the business conditions of the week of July:

Business during the last week of July, as seen from check payments, was more active than a year ago, with the total for July also showing an increase over the same month of last year.. Building contracts awarded during the last week of the month were larger than in either the preceding week or the same week of last year, while for the month as a whole larger awards are indicated than dur ing the same period of 1925.

Carloadings during the third week have been decided upon. of the month were larger than in either the previous week or a year ago, while the output of crude petroleun during the last week continued to show increases over the previous weeks, the daily average output registering an increase over a year ago for the first time this year.

Coal Production Booms.

The production of bituminous coal during the third week was larger than in either the previous week or the production of beehive coke, altho larger than a year ago, was smaller than in the preceding week. The production of lumber during the third week was smaller than during the previous week or the same week on general themes. of last year.

Wholesale prices continued to de cline, the average for the last week of the month being lower than any time since September, 1924. Loans and discounts of Federal Reserve member banks were smaller at the end of July than at any time during the month but were larger than a year ago. Interest rates on call money averaged higher during the last week than in either the previous week of last year with time-money showing correspending creases.

Stock Prices Up.

Prices of stocks on the New York Stock Exchange continued to average higher both as compared with the preceding week and the corresponding week of the past year. Business failures were more numerous than in the third week and a year ago, the total for all weeks in July being smaller, however, than in the same period

The worker correspondents around the Pravda are selecting a special circle that will be responsible for correspondence with The DAILY WORKER. Desirable subjects will be discussed by these circles and suggestions transmitted to each other. These circles will then write on the questions that

No Lengthy Articles.

In writing to the Prava American worker correspondents are urged not to write lengthy articles dealing in generalities. They are asked to write letters dealing with concrete everyday conditions that they have experienced. No attempt should be made nade to exaggerate. Every attempt should be made to write clearly, stating the facts as simply as possible.

The criticism of the Pravda and the corresponding week of 1925, while the workers of the Soviet Union of American worker correspondence is that instead of writing on the conditions they are forced to live under and worker under they attempt to become journalists and write lengthy articles

The Russian workers and farmers promise they will not write such articles. They promise to write of their actual experiences and everyday life. The American worker correspondents should do the same.

Write on These Questions. DAILY WORKER correspondent groups are urged to write letters to the Pravda on the following ques-

1. Why are we American workers striking? Our demands. How does the government act during strikes?

Where do strikebreakers come from? 2. How does the rank and file participate in the life of the American trade unions? This correspondence is to deal with the autocracy of the labor bureaucracy.

3. What do we American workers know about the Union of Soviet Republics and where do we get our information? (Deal here with the lies of the capitalist press.)

4. How do American workers react to happenings in the Soviet Union? 5. How our factory papers are

made, technically and editorially. 6. The workings of our worker cor-

All correspondence for the Pravda should be sent to the Pravda Editor of The DAILY WORKER, 1113 West Washington Blvd.

committee. "We have secured the the union meeting as a result. services of David Mendoza, conductor of the Capitol Theater orchestra. He will select 100 musicians from the various symphony orchestras in New York, who will make up the orchestra which will play at Coney Island. We have also secured a chorus of 200 voices and the Metropolitan ballet of 50 dancers under the direction of Alexis Kosloff."

Tickets for the concert sell for \$1 2—A year's subscription to the Workers Monthly—12 issues of 10,000 tickets have been circulated.

The program for the concert will e of an unusual character. It will contain the history of the strike and the names of contributors. "Honor rolls" are being circulated among the various labor and sympathetic organizations. Each organization securing fifty signatures and the same number of dollars will get a page on the program, on which the names of contributors will be printed.

Interesting Figures Show Cleveland as an Industrial City

(Special to The Daily Worker)

CLEVELAND, Aug. 9.—An investi ration of the occupation of people in Cleveland has revealed the fact that LAWRENCE, Mass., Aug. 9 .- One 53 per cent are employed in manufacof the local Sunday papers in its last turing plants, 12 per cent in clerical occupations, 7 per cent in transport, 12 per cent in stores, 16 per cent in miscellaneous occupations. More than half of the people are in industry which indicates the great importance of Cleveland in the industrial life of the country.

Against this we have the fact of 35 per cent of the homes being owned by one or two days' employment at their the people who occupy them. This in cludes many workers, who invest their According to this newspaper, things were made worse by spreading these savings in homes, and thereby are facts far and wide. Why broadcast tied down for the rest of their lives information which exposes the plight They assume big mortgages, have to of the unorganized textile workers of pay interest-and thus are inclined to be conservative. The figure for Cleveare unpleasant to the ear and the eye land compares with 34 per cent for of those who wish to cover up the Indianapolis, 29 per cent for Cincinnati, 28 per cent for Pittsburgh, 27 truth about conditions of the Law-Is it not safer for the profits of the mill owners to cover up the truth per cent for New York.

WORLD MONOPOLY OF COPPER IS PLANNED TO BOOST PRICES AS **WORKERS GET STARVATION WAGE**

Huge profits from high prices mainto the union lawyers, they found that tained by artificial scarcity of copper she was being detained without any complaint lodged against her, and that on a world basis is the subject of a combine now forming, ostensibly to cono formal complaint, warrant, or subpoena had been issued by which twenordinate export sales. This copper export trading company will combine ty-five young children could be called to court. The children, who had companies producing roughly 90% of called "scab" after the man whom the world's copper. It is dominated even their young minds could see to by American capital.

Anaconda Copper is the largest unit n the new world trust. With its subsidiaries it controls 25% of the world output. It brings into the combine inspiration Copper, Greene-Cananea and Chile Copper, the largest producer quarters to trudge the long way back in South America. Others in the deal are Phelps-Dodge Corp.; Kennecott and its 4 subsidiaries Utah, Braden and Nevada coppers and Mother Lode; Cerro de Pasco; Calumet & Arizona; Calumet & Hecia; Magma; United Verde; United Verde Extension; Copper Range; American Metal; Amer ican Smelting & Refining and Howe Sound Co. Union Miniere du Haute Katanga will be the leading foreign producer included. Mansfield Mining & Smelting Co. of Germany is also in the list.

During the war the copper kings raised the price to over 20c a pound and averaged 54% a year return on their capital stock. As a result between 1909 and 1919 the capitalization of the industry was raised from \$413,-338,850 to \$1,161,319,285.

Huge Profits.

production was a record at 1,586,683 mestic price. tons and production for the first half | Workers in the mines and smelters of 1926 is ahead of the same period in need not expect it to lift wages. The

a return of 92%; United Verde 70%; Utah Copper 68.3%; Miamo Copper 30% and Nevada Consolidated 27%.

Meanwhile the copper magnates are paying the miners who produce the ore less than \$5 a day, in many regions less than \$4, for dangerous work deep

lidge-packed federal trade commission for review. There is little doubt that it will get a clean bill of health, for Since 1923 various attempts have the appearance of violating the Sherindividually in order to increase for export. But here the market has prices. But such informal attempts no national boundaries and lifting the did not produce results. In 1925 world world price will mean lifting the do-

1925. In spite of this the rapid in opposite effect is more likely.

WHAT HAS GONE BEFORE.

J. Arnold Ross, ell operator, formerly Jim Ross, teamster, is unsuccessful in eigning a lease with property holders at Beach City, Cal., because of intrigues of other operators and quarrels among the holders. While he is at Beach City, Bunny, his thirteen-year-old son, meets Paul Watkins, slightly older. Paul has run away from home. His father is a poor rancher in the San Elido Valley who is a "Holy Roller." Paul goes away to make his living on the road and Bunny goes about learning the oil business from his Dad who is bringing in a well at Prospect Hill. Dad was working hard and Bunny suggests a quall hunting trip to the San Elido Valley. Dad agrees and shortly they arrive at the Watkins ranch and pitch their camp. In hunting for quail they fired oil oozing out of the ground and Dad wheedles the sale of the ranch out of old Watkins and also arranges to secretly purchase adjacent lands. Paul's little sister, Ruth, and Bunny become friends. Bunny starts to high school at Beach City. With plenty of money and social standing he enters into the life of the school, He falls in love with another student, Rose Taintor. In the meantime Dad's oil business grows rapidly. The World War begins and Dad, along with other capitalists, benefits by selling oil to both beligerents. Bunny arranges for Paul to come and live with Ruth on a nearby ranch. Paul had been living with a lawyer who took a liking to him and bequeathed his library to Paul when he died. Paul "has it out" with his "holy roller" father who scorns him as unfaithful. His brother Eli is a hopeless religious fanatic, subject to fits. Eli is now going around the country acting a prophet and "healing" people. Bunny, anxious to get back to the ranch, suggests to Dad that the two go there and build a shack near the house that Paul and Ruth stop in. While they are there they hear that a rival company is about to drill nearby. Dad makes preparations to sink a well on the Watkins ranch. But he needs a road. He first goes to the county commissioner WHAT HAS GONE BEFORE.

. . . .

The water well men got to work, and the telephone linemen; and Dad said it was time to figure on living quarters for their crew. They would get along with a bunk-house while they were prospecting; then, if they found oil, they'd put up nice cabins for the families of the men. Dad said to Paul that he was foolish to waste his time on beans and strawberries, which would keep him a pauper all his life; he had better turn carpenter and do this building job, and after that he could learn ofldrilling. Dad would have his boss carpenter come and figure the materials for the bunk-house, and see to the foundations and the sills and after that Paul could fiinish the job with carpenters he'd pick up in the neighborhood, and Dad would pay five dollars a day, which was jist about five times what he'd get working this old ranch by himself.

Paul said all right, and they sat down one evening and made out the plans of the house. It was going to be real nice, Dad said, because this was Bunny's well, and Bunny was turning into a little social reformer, and intended to feed his men on patty de far grar. Instead of having one long room with bunks, they'd have little individual cubby-holes each with its separate window, and two bunks, one on top of the other, for the day man and the night man. There would be a couple of showers, and besides the dining room and kitchen and store room, a nice sitting room. with a victrola and some magazines and books; that was Bunny's own idea, he was a'goin' to have a sure enough cultured oil-crew. Dad purchased a copy of the "Eagle," fresh off the press, and he opened it, and burst into a roar of laughter. Bunny had never seen him do that in his life before, so he looked in a hurry, and Rapid Transit lines are blacklisted there on the front page was a story about one Adonijah Prescott, a rancher who lived near the slide between Paradise and Roseville; some three months ago his wagon had been overturned and his collar-bone broken, and now he was filling suit against the county for fifteen thousand dollars damages; more than that, he was su-St. Louis, 18 per cent for Boston, 13 R. T. did not "know what a blacklist ing each and every member of the county board of supervisors, alleging neglect of their public duties in leaving the road in an unsafe condition! On the editorial page appeared a two-column discourse on the dreadful condition of the aforesaid road; there were mineral springs nearby, and it had been proposed to develop . them, but the project had been dropped, because of lack of trans-Changes Its Name portation; and now there were possibilities of oil, but these also were in danger, because of bad roads, which kept San Elido one of the most backward counties of the state. The "Eagle" stated that a public-spirited rancher, Mr. Joe Limacher, was circulating a petition for immediate repairs to the road along the slide, and Central Labor Union has received in name to the R. C. Williams, Inc., it was to be hoped that all citizens and tax payers would sign up.

Next day along came Mr. Limacher, in a rusty Ford, and asked Dad to sign! Dad looked very thoughtful, and said it would cost him a hell of a lot of taxes. The public-spirited Mr. Limacher -who was being paid three dollars a day by Jake Coffey, argued a while with Dad, and in the end Dad said all right, he didn't want his neighbors to think him a cheap-skate, so he'd sign along with the rest. Four days later came the news that the supervisors had held a special meeting and voted immediate repairs to the slide road; and two days after that came the grading gang, teams of big horses with heavy plows-you'd never have guessed there were so many in the country, there must have been a score of them on that two mile stretch. They tore up the ground, and men with crow-bars rolled the boulders out of the way, and more teams with scrapers slid the dirt this way and that, and pretty soon it began to look like a highway. And then, beginning at the Paradise end, came countless loads of crushed rock, in big motor trucks which tilted up backwards and slid out their burden. There were machines to level this material, and great steam-rollers to roll it flat-gee, it was wonderful to see what Dad's money could

They had ordered the lumber for the bunk-house, and got it in by small loads, and Paul was at work with half a dozen men from the neighborhood. He had engaged them himself, telephoning from Paradise; and if any of them felt humiliated at working under a nineteen year old boss, Dad's twenty-two dollar check salved their feelings at twelve-thirty every Saturday. Even old Mr. Watkins, Paul's father, was impressed by this sudden rise of his "black sheep," and no longer said anything about hell-fire and brimstone. It was on his ranch, you understand, that all this activity was taking place; the carpenters' hammers were thumping all day, and up near the head of the arroyo the artesian well was flowing, and a gang of men and horses were leveling a road up to the drilling site. It seemed to the Watkins family as if the whole county had suddenly moved to their ranch. It meant high prices, right on the spot, for everything good to eat they could raise. You could not help being impressed by so much activity, even though you knew it was the activity of Satan!

Best of all was the effect upon Ruth, who fairly shone with happiness over Paul's success. Ruth kept house for Dad and Bunny, besides what she did for Paul and herself; but it seemed to agree with her, she filled out, and her cheeks grew rosy. She had money to buy shoes and stockings and clean dresses, and Bunny noticed all of a sudden that she was quite a pretty girl. She shared Bunny's idea that his father was a great man, and she expressed her admiration by baking pies and puddings for been made to get the separate copper man act has been avoided. Post-war him, regardless of the fact that he was trying to keep hiseweight companies to limit their production legislation allows such combination down! The four of them had supper together every evening, after the day's work was done, in the Bascum bungalow with the bougainvillea vine; and then they sat out under the vine in the moonlight and talked about what they had done, and what they were going to do, and the world was certainly an interesting place to be alive in!

Is War with Mexico Imminent?

Ambassador James Sheffield is leaving Mexico City for the United States after handing Calles a note which reporters hint will be the last from the American government on the petroleum question.

This hint has a deadly significance. Of course, the U. S. diplomatic attaches in Mexico deny that

there is any relation between Sheffield's action and the rebellion of the catholic church which is now in full swing in the southern

The religious fight is a domestic affair, they say. But what is the petroleum question but a matter that affects the Mexican people? The United States has no more right to interfere in the regulatory decrees of the Mexican government in relation to the oil industry than it would have to intrude in the quarrel between the Calles administration and Rome.

The United States government is a tool of the oil barons and other capitalist interests in Mexico. Sheffield's action in presenting his "last note" to Calles while Mexico has a rebellion on her hands can have only one meaning. It is that the United States government thinks this is the opportune moment to force the Mexican government to make concessions to the American exploiters under threat of breaking diplomatic relations when such action would encourage all the reactionary forces in Mexico to new struggles against the

With the powerful propaganda machine of the catholic church carrying on a campaign for intervention and the oil barons always ready to finance a counter-revolution; with a government in Washington subservient to big business and ready to do its bidding, there is serious danger of war with Mexico. This would be welcomed by the American imperialists who want to see a more pliable regime in power south of the Rio Grande.

The American workers are the only reliable friends in the United States of the Mexican people. They must now demonstrate that friendship by making it known to the powers-that-be in Washington that the workers will not permit the bankers, oil barons and other exploiters, in alliance with the catholic church to crush the Mexican people and return them to slavery under the black reaction from which they freed themselves.

The Coolidge administration must hear in no uncertain voice the cry: "No Intervention in Mexico!"

The Primary Slush Revelations

Perhaps nothing more conducive to public hilarity was stated revolutionaries of the whole world to ish masters. It endeavored in the at the senate slush fund investigation than Senator Reed's threat to jail certain people who refused to answer pertinent questions relating to the inquiry.

Among those threatened with the penitentiary are Samuel Insull, multi-millionaire public utility magnate; Robert Crowe, state's attorney for Cook county, Illinois; Thomes Cunningham, wealthy Pennsylvania republican boss and two other lesser individuals.

None of those gentlemen are doing any worrying tho Insull and into the house of commons instructing Cunningham were shown up publicly as bribers of men seeking the government to suppress the Compublic office. They are members of the ruling class and have done the means at its disposal even soins. They are members of the ruling class and have done the means at its disposal even soins. nothing worse than thousands of other capitalists who expect to benefit from the good will of successful candidates. The investigation is very much of a farce and nothing will result from it except whatever publicity accrues to the advantage of Senator Reed. No doubt publicity of this kind is not welcomed by those who get caught. But they should worry.

Insull was mildly criticized in the capitalist papers for throwing his money around so impartially. It was not exactly right!

But in last week's pictorial section of a capitalist newspaper Mr. Insull was snapped with a high army officer at Camp Grant, where young Americans are being trained to fight Mexico, Japan or any other country that happens to fall foul of Wall Street's ambitions. The caption said that Insull is a firm believer in "preparadness" and a generous contributor to national defense funds. Sam is a patriot after all!

In view of Insull's impartiality in the Illinois primary contest is it not possible that the generous soul may see his way to put all the armies engaged in the next conflict on his payroll, on the theory that no matter who wins the war he will not lose?

The Position in Mexico and the Fight Against the Catholic Church

THE present government of General Calles in Mexico represents the petty bourgeots elements, which have been striving for a number of years to create the foundation for the building up of a national industry. The execu tion of this program meets with resist ance, first of all, from foreign capital, secondly, from the land-owners who fight to preserve feudal and semifeudal conditions and, thirdly, from the contradictions inherent in petty bourgeois democracy itself.

In Mexico the fight against feudal ism, right in the beginning, took the form of a fight against the Spanish colonials and against the catholic church, the biggest and most powerful andowner in the country. It was only n the year 1900, after several indus ries had begun to flourish and a work ing class had been formed, and after 1910, when a number of revolutions and insurrections, which, altho organ zed and supported by foreign capital, were nevertheless based socially up on the discontent of the peasantry

olitical rule gradually came into the ands of the progressive elements e. into the hands of petty bourgeois emocracy, which had for several years tentatively and with uncertainty endeavored to carry thru a nationa conomic policy.

THE most difficult problem for every Mexican government is the agrarian question. It is in the first place a question of land distribution, secondly, question of the promoting and industrializing of agriculture. In short, execution and completion of the bourgeois revolution in a country in which two-thirds of the national wealth is in the hands of foreign capitalists. In hell-fire. he colonial and semi-colonial countries the power of resistance exerted by the old conditions is especially strong, because the kind of industry generally carried on requires no skilld labor, while the technical and administrative staffs are usually drawn from abroad. Furthermore, in Mexico he development of factory industry ias been hampered by the long-coninued uncertainty of the political situaion. The only well developed factory ndustry is the manufacture of textile

FROM May 21st to 27th there took place the IV Conference of the Communist Party of Mexico. For the first time since the party was founded a sharp discussion was held in regard to all basic principles. The estimate of the economic and political situation, rather go to jail than work under the role of the party, the attitude towards the agrarian question, the policy in regard to the trade unions, the American imperialism, the organiza tion of the party-all hinged upon the question: A mass party or a sect, fight of the bourgeois government, workers' party or workers' and peasants' party? The liveliness of the discatholic church amounts to a fight cussion and the passionate disputes. which often became personal, were inevitable; they are characteristics of a party in growth; they distinguish

MRS. SADLOWSKI

Union Greets Picket on Her Release

Mrs. Eleanor Sadlowski, mother of a 0-year-old boy, who was forced to erve 60 days in Cook county prison for refusing to leave the picket lines in the 1924 strike of the International Ladies' Garment Workers' Union in the Market street district, left the ail amid the wild cheers and applause of fellow union members that had gathered to welcome her at the jail. Delegations from the union and arious shops were on hand to greet his fighter for better conditions. Mrs. Sadlowski was one of the first to enter the jail and is the last to leave. She was sentenced to 60 days in jail by the notorious open shop tool, "Injuncion" Judge Denis E. Sullivan.

The sentence which was meant to ave been "a lesson" to her, instead f killing her spirit has made her more determined to help in the fight for bet er conditions

"Tho I am no longer working at the rade, if the union calls upon me to help in the next strike I will go willingly onto the picket line even if I know that I will be sent to jail," declared Mrs. Sadlowski. "I would slave conditions in scab shops.'

New Butcher Local Will Get Charter at Open Meeting

DETROIT, Aug. 9-The newly or ganized Polish Butchers' local of Hamtramck will hold an open meeting Tuesday, Aug. 10, at 8 p. m. at the Sokol Hall, 10330 Jos. Campu St. A representative of the Butchers and Meat Cutters International will present the charter to the local at this closer together than ever; in the first meeting. The Detroit Federation of Labor will send representatives to the

This local of the Butchers and Meat Cutters was recently organized and has already 75 members most of whom speak Polish. However, a number of butchers who are not Polish have taken an interest in the organization of the union and steps are already being taken to organize a local in other districts of Detroit.

Saturday, August 14, corner of Coumbus Circle and 59th street.

Saturday meeting at 7 p. m.; all others at 8:30 p. m.

German "Ace" Falls. AKRON, Ohio, Aug. 9 .- The career of Alfred Jung, former German "ace." was nearing a tragic close in the city nospital here today. Jung was uncon cious and near death with a frac ured skull as the result of an air-

START STRONG WORKER CORRESPONDENTS GROUP

MILWAUKEE PLANS TO

MILWAUKEE, Wis., Aug. 9 .-Plans to develop the worker correspondence movement in this city will be considered at the membership meeting of the Workers Party to be held Tuesday night, August 10, at Miller's Hall, 802 State St.

Louis Engdahl, editor of The DAILY WORKER, who was here Sunday as speaker at the party picnic, took up this matter with many comrades who pledged themselves to become active in the building of a local group. Considerable interest was shown in the proposed exchange of correspondence between The DAILY WORKER and the Pravda, the Moscow Communist daily.

Otto R. Zimmerman, who draws cartoons as "O'Zim," accepted the responsibility of undertaking the initial work of organizing a Milwaukee group of worker correspondents. Michael Mickalachki, party organizer, also pledged himself to aid in this effort.

plane crash at Stowfield, three miles west of Kent, Ohio, late Sunday.

INSTITUTE OF POLITICS OFFERS SOLUTION OF FILIPINO ISSUE

WILLIAMSTOWN, Mass., August 6.—(FP)—Imperialism practiced by the United States in ruling the Philippine Islands has flamed into one of the most discussed topics at the Institute of Politics. While Colonel Carmi A. Thompson and his associates appointed by President Coolidge send glowing accounts of possible profits from the islands, Philippine officials at Williamstown criticize the failure of the United States to give the Filipinos indepen

From the point of view of dollar diplomacy, big-business imperialism. Sir Frederick Whyte, former president legislative assembly of India, is right

He declared the Filipinos mencommissioner in the United States, tally capable of governing themselves, but said they needed the procetive tary of justice in the Philippines and tariff and the U. S. army and navy to keep them from being pounced on by Japan or some other power. Fine Solution.

Five supposed solutions were offered for the Philippines at the politics institute: immediate and complete independenc eas demanded repeatedly by the Filipinos; independence when ready; dominion status; permanent retention of the islands; and division the Moros chiefly. The last proposition is embodied in the Bacon bill presented to congress. It is strongly opposed by the Filipinos and Moros a virtual peons on the rubber planta-

DELIVERING THE GOODS

By P. J. WALLACE, In Producers' News.

(The following article is taken from the Producers' News of Sheridan county, Mont., where the farmers have combined to elect a genuinely farmer administration in the country, much to the sorrow of the professional politicians and bankers who once ruled the roost.) The farmers' government of Sheridar

ounty has come in for a lot of abuse from old gangsters in different parts severe enough and rumors are already of the state. Wierd stories have been told about conditions up here. Subsidized sheets have pictured this county as a place where it would be are being made for the execution of dangerous for outsiders to tread. Some

men to run the county. And some times the broadminded men like Herbert M. Peet of the Great Falls Tribune go out telling the truth and confound the critics.

If any county government in the state can show a better record than the one now in office in Sheridan county, we would like to hear of it. During the past five years while the while they were doing it they reduced the tax levy every year. In 1922, when the county debt was \$1,261,445.05 the tax levy was 25 mins; in 1926, when the debt is down to \$686,741.28, the sincere revolutionaries, Sacco and honest outsiders have been led to be- it is 21 mills. Where there was half Vanzetti.
